Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide
CAS # 26628-22-8 — 0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide
CAS # 26628-22-8 — 0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide
CAS # 26628-22-8 — 0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide
CAS # 26628-22-8 — Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH None established

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide
CAS # 26628-22-8 — 0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear protective clothing and impervious gloves, as appropriate.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	≈ 1 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.5	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Revision Date (year/month/day) 2019/07/03
Last Revision Date (year/month/day) 2015/03/20

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Not based on available data.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.
target organ toxicity – single exposure	
	Not based on available data.
target organ toxicity – repeated exposure	
	Not based on available data.
Aspiration hazard	Not based on available data.
Other Information	This product contains materials of human and animal origins and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2019 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.
H402 Harmful to aquatic life.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most precautionary statements.5.6% of product contains ingredients of unknown hazards to aquatic environment.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

Section 5 Fire Fighting Measures (Continued)

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for

Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Citric Acid CAS # 77-92-9	Dermal LD50 Rat >2000 mg/kg (no deaths occurred); Oral LD50 Rat 3 g/kg
2-Methyl-4-isothiazolin-3-one CAS # 2682-20-4	Dermal LD50 Rabbit 200 mg/kg; Inhalation LC50 Rat 0.11 mg/L 4 h; Oral LD50 Rat 232 - 249 mg/kg (50% MIT in water); Oral LD50 Rat 120 mg/kg (50% MIT in water)

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization May cause sensitization by skin contact.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Citric Acid CAS # 77-92-9	96 h LC50 Lepomis macrochirus: 1516 mg/L

©2019 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product is as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information. Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76). To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations. Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 15 Regulatory Information (Continued)

Pennsylvania Right To Know (RTK) List

CAS # 26628-22-8 Sodium Azide

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 2** **Reactivity with Water: 0** **Physical Contact: 2**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Updated E-mail address in Sec. 1.3.
Update of product hazard and label elements in Sec. 2.
Updated hazardous ingredients in Section 3.
Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1
Revised Beckman Coulter safety rating.
Updated Section 4, 6, 8, 11, 12, 14 - 16.

Section 2 Hazards (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

2.3 Other hazards

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

Section 4 First Aid Measures (Continued)

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for

Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain ef , store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH None established

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	Not determined
Color	White	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.3	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

©2019 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Not based on available data.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard	Not based on available data.
Other Information	This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 4 – First Aid Measures

General information:	When in doubt or if symptoms are observed, get medical advice.
In case of inhalation:	Remove casualty to fresh air and keep warm and at rest. If breathing is irregular or stopped, administer artificial respiration.
In case of skin contact:	Wash immediately with soap and water. In case of skin irritation, consult a physician.
In case of eye contact:	Rinse immediately carefully and thoroughly with eye-bath or water.
In case of ingestion:	Rinse mouth thoroughly with water.

Section 5 – Fire Fighting Measures

Suitable Extinguishing Media: Water, foam, extinguishing powder, carbon dioxide (CO_2)
Extinguishing media which must not be used for safety reasons: None
In case of fire may be liberated: Emits toxic fumes under fire conditions
Special protective equipment for fire-fighters: Wear a self-contained breathing apparatus

Section 6 – Accidental Release Measures

Personal precautions: Provide adequate ventilation
Environmental Precautions: None
Methods for cleaning up:
Suitable material for diluting or neutralizing: water
Suitable material for taking up: sand, absorbing material, earth

Section 7: Handling & Storage

Handling: Avoid inhalation. Avoid skin contact. Avoid eye contact.
Storage:
Storage temperature: 2-8^{o}C
Protect against: Light
Conditions: Keep tightly closed

Section 8 – Exposure controls / Personal protection

Exposure limit values: Not available

Exposure Controls:
Product related measures to prevent exposure: Observe the expiry date
Personal protection equipment:
Respiratory protection: No personal respiratory protective equipment normally required. Where protection is desired, use multi-purpose combination (US) or type ABEK (EN14387) respirator cartridges. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).
Hand protection: disposable gloves
Eye protection: Eye glasses
Protective clothing: Lab coat
General health and safety measures: Avoid contact with skin, eye and clothing. Remove contaminated, saturated clothing. Wash contaminated clothing prior to re-use.

Section 9 – Physical and Chemical Properties

General:
Physical State: Liquid
Color: Clear red solution
Odor: Characteristic

Important health, safety and environmental information:
pH value: Neutral
Melting point / melting range: Not available
Solidifying point: Not available
Freezing point: Not available
Boiling point: Not available

Vapor pressure: Not available
Density: Not available
Bulk density: Not available
Solubility: Water
Viscosity: Not available
Flow time: Not available

Other information:
Solvent Content (%): 0%

Section 10 – Stability and Reactivity

Stability: Stable
Conditions to avoid: Temperatures below 0^{o}C
Materials to avoid: Oxidizing agents, Strong; Reducing agent, strong
Hazardous decomposition products: Unknown

Section 11 – Toxicological Information

Toxicokinetics metabolism and distribution: Not determined
Toxicological effects: Not determined
Irritant and corrosive effects: May cause irritation to skin, eyes, or mucous membranes.

Section 12 – Ecological Information

Ecotoxicity: Not determined
Mobility: Not determined
Persistence and degradability: Not available
Biodegradation: Evidence exists of biodegradation processes
Bioaccumulative potential: Does not significantly accumulate in organisms.
Overall evaluation: On the basis of existing data about the elimination/degradation and bioaccumulation, potential longer term damage to the environment is unlikely.
BOD5 and COD: Not available

Section 13 – Disposal Considerations

Dispose according to legislation. Consult the appropriate local waste disposal expert about waste disposal.

Section 14 – Transportation Information

Land transport (ADR/RID): Not a dangerous good in sense of this transport regulation.
Inland water ways transport (ADN): Not a dangerous good in sense of this transport regulation.
Sea transport (IMDG): Not a dangerous good in sense of this transport regulation.
Air transport (ICAO-TP / IATA-DGR): Not a dangerous good in sense of this transport regulation.
DOT Classification: Not a DOT controlled material (United States)

Section 15 – Regulatory Information

For this mixture a chemical safety assessment has not been carried out.

Germany: WGK: 1 - Self-Assessment

Listed European Food Additive: None of the ingredients are on the inventory, and may be exempt from listing.
TSCA Inventory List: None of the ingredients are on the inventory list.
CERCLA: Not Available
SARA Title III: Not Available
Foreign Inventory List: Not Available

Section 16 – Other Information

HMIS Rating Health = 1 Fire = 0 Reactivity = 0

Irvine Scientific supplies Safety Data Sheets (SDS) for products you have purchased. The regulations promulgated by OSHA for Hazard Communication, 29 CFR 1910.1200, and 1907/2006/EC and are used as the basis for the development of the SDS.
All information is offered in good faith as accurate, but is furnished without guaranty. No claim is made that the information is all inclusive, and should only be used as a guide. Irvine Scientific shall not be held liable for any damage resulting from handling or from contact with the product. Federal and California Hazard Communication regulations stipulate that any food, food additive, color additive, drug, cosmetic or medical or veterinary device or product, including materials intended for use as ingredients in such products (e,g, flavors and fragrances), as such terms are defined in the Federal Food, Drug, and Cosmetic Act (21 USC 301 et seq) or the Virus-Serum-Toxic Act of 1913 (21 USC 151 et seq,), and regulations issued under those Acts, when they are subject to the labeling requirements under those Acts by either the Food and Drug Administration or the Department of Agriculture do not require labeling.

SAFETY DATA SHEET

Revision Date: OCT 2016

Arlington Scientific, Inc.

1. PRODUCT AND COMPANY IDENTIFICATION	
Product name:	**ASI Rapid Plasma Reagin (RPR) Card Test for Syphilis**
Product number:	900025 25 Test Kit 900100 100 Test Kit 900500 500 Test Kit 9005000-10 5000 Test Kit 9005000-30 5000 Test Kit 90010000 10000 Test Kit
Brand:	ASI
Company:	Arlington Scientific Inc. 1840 N Technology Drive Springville, UT 84663 USA
Telephone:	(801) 489-8911
Fax:	(801) 489-5552
Emergency phone #:	(801) 489-8911

2. HAZARDS IDENTIFICATION	
Emergency overview:	This product is not classified according to the Global Harmonized System (GHS).
OSHA hazards:	NFPA and HMIS ratings: Health = 2; Flammability = 0; Reactivity = 0
Flammable liquid:	None
Target organ effect:	None
Harmful by ingestion:	Avoid hand-to-mouth contact when handling human serum source materials. Wash hands thoroughly after handling, even when gloves have been worn. Do not eat, drink, or apply cosmetics in the area where human source material is handled. Do not pipet by mouth.
Harmful by skin absorption:	Wear gloves and especially cover any cuts, abrasions, or skin lesions. Dispose of gloves, pipets, stirrers, test cards, and used reagent containers as biohazardous material. Wash hands thoroughly after removing gloves. Use extreme caution with any sharp object to avoid percutaneous exposure to human source material. Wear outer protective garment such as a lab coat or gown.
Irritant:	None
Target organs:	None
Potential health effects:	
Inhalation:	No irritating effect.
Skin:	No irritating effect.
Eyes:	No irritating effect.
Ingestion:	No irritating effect.

3. COMPOSITION/INFORMATION ON INGREDIENTS	
Formula:	Reagents contained in kit: 1. RPR Carbon Antigen - Containing: 0.003% cardiolipin, 0.020 - 0.022% lecithin, 0.09% cholesterol, activated charcoal as a visual enhancer, phosphate buffer, stabilizers, and 0.1% sodium azide as a preservative. There is no hazardous ingredient in concentration greater than 1%. 2. Reactive, Weak Reactive, and Nonreactive control reagents: ASI controls contain human serum or defibrinated plasma with 0.1% sodium azide as a preservative. All compounds derived from human source materials have been tested at the donor level and found to be nonreactive for HBsAg and for HIV-1, HIV-2, and HCV antibodies. Because no known test offers complete assurance that infectious agents are absent, all materials derived from human blood should be handled as if capable of transmitting infection.

4. FIRST AID MEASURES	
General Advice:	Symptoms of mild discomfort may be exhibited after several hours; therefore observe for any medical

SAFETY DATA SHEET

Revision Date: OCT 2016

Arlington Scientific, Inc.
Springville, UT 84664
www.arlingtonscientific.com

	symptoms for at least 48 hours.
If inhaled:	Remove from source to fresh air. If breathing becomes difficult, call a physician.
In case of skin contact:	Wash thoroughly with soap and water. Remove contaminated clothing. Call a physician.
In case of eye contact:	Flush with large amounts of water or sterile eye wash. Use fingers to separate the eyelids for effective flushing. Call a physician.
If swallowed:	If conscious, wash out mouth with water. Call a physician.

5. FIRE-FIGHTING MEASURES	
Flammable properties:	None
Suitable extinguishing media:	CO2, or multiple dry chemical or water spray.
Special protective equipment: for Fire-Fighters	No special measures required.

6. ACCIDENTAL RELEASE MEASURES	
Personal precautions:	Personal precautions, protective equipment, and emergency procedures are not required.
Environmental precautions:	Not a risk to environment.
Methods for cleaning up:	Clean-up with water moistened cloth or mop. After material has been cleaned-up and removed, wash the spilled area site with a disinfectant cleaner.

7. HANDLING AND STORAGE	
Handling	Ensure adequate ventilation and fresh air supply in HVAC
Storage	Store at 2 – 8°C, and avoid freezing

8. EXPOSURE CONTROLS/PERSONAL PROTECTION	
Personal precautions	
Respiratory protection	None required
Hand protection	Surgical gloves
Eye protection	Standard laboratory eye ware
Skin and body protection	Typical laboratory coat or gown
Hygiene measures	No special measures required
Personal precautions	No special precautions required
Respiratory protection	Wear surgical mask if indicated by local procedures

9. PHYSICAL AND CHEMICAL PROPERTIES	
Appearance	
Form	Liquid
Color	Control reagents are transparent; carbon antigen exhibits suspended black particles
Odor	None
Safety data	ASI Reagents contain sodium azide. Azides in contact with lead and copper plumbing may react to form highly explosive metal azides. When disposing of reagents containing azide, flush down the drain with large amounts of water to prevent azide build-up.

10. STABILITY AND REACTIVITY	
Storage stability	Refrigerate at 2 – 8°C
Conditions to avoid	Avoid temperatures outside the range of 2 – 8°C. Avoid freezing.
Materials to avoid	None
Hazardous decomposition products	None
Hazardous reactions	None

11. TOXICOLOGICAL INFORMATION	
Potential health effects	None

SAFETY DATA SHEET

Revision Date: OCT 2016

Arlington Scientific, Inc.
Springville, UT 84664
www.arlingtonscientific.com

Inhalation	Not an irritant.
Skin	Not an irritant
Eyes	Not an irritant
Ingestion	Not an irritant
Target organs	None

12. ECOLOGICAL INFORMATION

Elimination information	No ecological effects currently identified.

13. DISPOSAL CONSIDERATIONS

Product	ASI reagents contain sodium azide. Azides in contact with lead and copper plumbing may react to form highly explosive metal azides. When disposing of reagents containing azide, flush down the drain with large amounts of water to prevent azide build-up. Smaller quantities can be disposed of with solid waste. This product is not considered an RCRA hazardous waste. Dispose of material in accordance with federal (40 CFR 261.3), state and local requirements.

14. TRANSPORTATION INFORMATION

DOT (US)	Non-hazardous.

15. REGULATORY INFORMATION

	FDA 510(k) K851504 (CDRH) FDA 510(k) BK130001 (CBER) FDA 510(k) K111356 (CDRH)
	CLIA, Moderately complex

16. OTHER

	To the best of our knowledge, the information provided in this Safety Data Sheet is accurate. ASI does not assume any liability for the accuracy of completeness of the information. Final suitability of a material is the responsibility of the user. All materials may present unknown hazards and should always be used with caution. Although hazards are described in this Safety Data Sheet, ASI does not guarantee that these issues are the only hazards that exist.

BECKMAN COULTER

SAFETY DATA SHEET

Doc. ID: 628026-75 Rev. AE
Revised (year/month/day) 2015/04/30

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Coulter® S-Cal™ Calibrator

Part Number 628026

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Red; Opaque; Suspension; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

This product contains materials of human and animal origins and should be considered as potentially capable of transmitting infectious diseases.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**	
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	T+;R28-32 N;R50/53	Acute Tox. Oral 2 Aquatic Acute 1 Aquatic Longterm 1 H300; H400; H410	Acute Tox. Oral 2 Aquatic Acute 1 Aquatic Longterm 1 H300; H400; H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains material of human and animal origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

©2015 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide
CAS # 26628-22-8

0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

DFG MAK

Sodium Azide
CAS # 26628-22-8

0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide
CAS # 26628-22-8

0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide
CAS # 26628-22-8

Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH

None established

Japan

None established

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.
Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection

Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection

Under normal conditions, the use of this product should not require respiratory protection.

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Suspension	**Specific Gravity (Water=1.0)**	1.045 @20°C
Color	Red	**Solubility**	
Transparency	Opaque	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	6.5 - 6.8	**Partition coefficient: n-octanol/water**	Not determined
Melting Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Skin Corrosion/Irritation	No data available.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	This product contains a sensitizing substance below concentration limit, may produce an allergic reaction in some people. Refer Section 3.
Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains materials of human and animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

13.2 Additional information

Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

5-Fluorouracil is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Tetracycline Hydrochloride is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Methanol is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4

Methanol is listed.

Sodium Phosphate, Dibasic is listed.

Sodium Azide is listed.

DISPOSAL OF HAZARDOUS MATERIALS MAY BE SUBJECT TO LOCAL LAWS OR REGULATIONS.

Safety Data Sheet
acc. to OSHA HCS

Printing date 09/18/2020 *Reviewed on 09/18/2020*

1 Identification

· **Product identifier**

· **Trade name: D-100 Sample Diluent**

· **Catalog or product number:** 2901009, 12008595
· **Application of the substance / the mixture** In-vitro laboratory reagent or component

· **Details of the supplier of the safety data sheet**
· **Manufacturer/Supplier:**
Bio-Rad Laboratories, Diagnostic Group
4000 Alfred Nobel Drive
Hercules, California 94547 1(510)724-7000

· **Information department:** TechsupportUSSD@bio-rad.com
· **Emergency telephone number:**
1(800) 424-9300 Use only in the event of a CHEMICAL EMERGENCY involving a SPILL, LEAK, FIRE, EXPLOSION, or ACCIDENT.

*
2 Hazard(s) identification

· **Classification of the substance or mixture**
The product is not classified, according to the Globally Harmonized System (GHS).

· **Label elements**
· **GHS label elements** Not Applicable
· **Hazard pictograms** Not Applicable
· **Signal word** Not Applicable
· **Hazard statements** Not Applicable

3 Composition/information on ingredients

· **Chemical characterization: Mixtures**
· **Description:** Mixture of the substances listed below with non-hazardous additions.

· **Listing of dangerous and non-hazardous components:** Not applicable.
· **Additional information** For the wording of the listed risk phrases refer to section 15.

4 First-aid measures

· **Description of first aid measures**
· **General information** No special measures required.
· **After inhalation** Supply fresh air; consult doctor in case of complaints.
· **After eye contact** Rinse opened eye for several minutes under running water.
· **After swallowing** Rinse mouth with water. Seek medical attention and appropriate follow-up.
· **Information for doctor**
· **Most important symptoms and effects, both acute and delayed** No further relevant information available.
· **Indication of any immediate medical attention and special treatment needed** No further relevant information available.

(Contd. on page 2)

Safety Data Sheet

Printing date 09/18/2020 Reviewed on 09/18/2020

Trade name: D-100 Sample Diluent

(Contd. of page 1)

5 Fire-fighting measures

· **Extinguishing media**
· **Suitable extinguishing agents** Use fire fighting measures that suit the environment.
· **Special hazards arising from the substance or mixture** No further relevant information available.
· **Advice for firefighters**
· **Protective equipment:** No special measures required.

6 Accidental release measures

· **Personal precautions, protective equipment and emergency procedures** Wear protective clothing.
· **Environmental precautions:** Dilute with plenty of water.
· **Methods and material for containment and cleaning up:**
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
· **Reference to other sections**
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
· **Protective Action Criteria for Chemicals**

· **PAC-1:**
None of the ingredients is listed.

· **PAC-2:**
None of the ingredients is listed.

· **PAC-3:**
None of the ingredients is listed.

7 Handling and storage

· **Handling**
· **Precautions for safe handling** No special precautions are necessary if used correctly.
· **Information about protection against explosions and fires:** No special measures required.

· **Conditions for safe storage, including any incompatibilities**
· **Storage**
· **Requirements to be met by storerooms and receptacles:** According to product specification
· **Information about storage in one common storage facility:** Not required.
· **Further information about storage conditions:** None.
· **Specific end use(s)** No further relevant information available.

*

8 Exposure controls/personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

(Contd. on page 3)

Safety Data Sheet
acc. to OSHA HCS

Printing date 09/18/2020 *Reviewed on 09/18/2020*

Trade name: D-100 Sample Diluent

(Contd. of page 2)

· **Control parameters**
· **Components with limit values that require monitoring at the workplace:**
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.
· **Additional information:** The lists that were valid during the creation were used as basis.

· **Exposure controls**
· **Personal protective equipment**
· **General protective and hygienic measures** The usual precautionary measures for handling chemicals should be followed.
· **Breathing equipment:** Not required.
· **Protection of hands:** Protective gloves.
· **Material of gloves** Synthetic gloves
· **Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
· **Eye protection:** Safety glasses

*
9 Physical and chemical properties

· **Information on basic physical and chemical properties**	
· **General Information**	
· **Appearance:**	
Form:	Liquid
Color:	Colorless
· **Odor:**	Odorless
· **Odor threshold:**	Not determined.
· **pH-value at 20 °C:**	7
· **Change in condition**	
Melting point/Melting range:	0 °C
Boiling point/Boiling range:	100 °C
· **Flash point:**	Not applicable Not determined.
· **Flammability (solid, gaseous)**	Not applicable.
· **Decomposition temperature:**	Not determined.
· **Auto igniting:**	Product is not selfigniting.
· **Danger of explosion:**	Not determined.
· **Explosion limits:**	
Lower:	Not determined.
Upper:	Not determined.
· **Vapor pressure at 20 °C:**	23 hPa
· **Density at 20 °C:**	1.00005 g/cm³
· **Relative density**	Not determined.
· **Vapor density**	Not determined.

(Contd. on page 4)

Safety Data Sheet
acc. to OSHA HCS

Printing date 09/18/2020 *Reviewed on 09/18/2020*

Trade name: D-100 Sample Diluent

(Contd. of page 3)

· **Evaporation rate**	Not determined.
· **Solubility in / Miscibility with**	
Water:	Fully miscible
· **Partition coefficient (n-octanol/water):**	Not determined.
· **Viscosity:**	
dynamic at 20 °C:	0.952 mPas
kinematic:	Not determined.
· **Solvent content:**	
Water:	100.0 %
Solids content:	0.0 %
· **Other information**	No further relevant information available.

*
10 Stability and reactivity

· **Reactivity** No further relevant information available.
· **Chemical stability**
· **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
· **Possibility of hazardous reactions** No dangerous reactions known
· **Conditions to avoid** No further relevant information available.
· **Incompatible materials:** No further relevant information available.
· **Hazardous decomposition products:** No dangerous decomposition products known

*
11 Toxicological information

· **Information on toxicological effects**
· **Acute toxicity:**
· **Primary irritant effect:**
· **on the skin:** No irritant effect.
· **on the eye:** No irritant effect.
· **Sensitization:** No sensitizing effects known.
· **Additional toxicological information:**
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

· **Carcinogenic categories**

· **IARC (International Agency for Research on Cancer)**
None of the ingredients is listed.

· **NTP (National Toxicology Program)**
None of the ingredients is listed.

· **OSHA-Ca (Occupational Safety & Health Administration)**
None of the ingredients is listed.

(Contd. on page 5)

(Contd. of page 4)

· **Target organs:** Not applicable.

12 Ecological information

· **Toxicity**
· **Aquatic toxicity:** No further relevant information available.
· **Persistence and degradability** No further relevant information available.
· **Behavior in environmental systems:**
· **Bioaccumulative potential** No further relevant information available.
· **Mobility in soil** No further relevant information available.
· **Additional ecological information:**
· **General notes:** Generally not hazardous for water.
· **Results of PBT and vPvB assessment**
· **PBT:** Not applicable.
· **vPvB:** Not applicable.
· **Other adverse effects** No further relevant information available.

*

13 Disposal considerations

· **Waste treatment methods**
· **Recommendation**
Dispose of waste in accordance to applicable national, regional, or local regulations.
Flush pipes with water frequently if discarding solutions containing sodium azide into metal piping systems.

· **Uncleaned packagings:**
· **Recommendation:** Disposal must be made according to official regulations.
· **Recommended cleansing agent:** Water, if necessary with cleansing agents.

*

14 Transport information

· **UN-Number**	
· **DOT, ADR, ADN, IMDG, IATA**	Not Regulated
· **UN proper shipping name**	
· **DOT, ADN, IMDG, IATA**	Not Regulated
· **ADR**	Not Regulated
	Not Regulated
· **Transport hazard class(es)**	
· **DOT, ADR, ADN, IMDG, IATA**	
· **Class**	Not Regulated
· **Packing group**	
· **DOT, ADR, IMDG, IATA**	Not Regulated
· **Environmental hazards:**	
· **Marine pollutant:**	No

· **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**	Not applicable.
· **UN "Model Regulation":**	Not Regulated

*

15 Regulatory information

· **Safety, health and environmental regulations/legislation specific for the substance or mixture**
· **SARA (Superfund Amendents and Reauthorization Act of 1986 - USA)**

· **Section 302/304 (40CFR355.30 / 40CFR355.40):**
None of the ingredients is listed.

· **Section 313 (40CFR372.65):**
None of the ingredients is listed.

· **TSCA (Toxic Substances Control Act):**
All components have the value ACTIVE.

· **California Proposition 65:**

· **Chemicals known to cause cancer:**
The product does not contain listed components.

· **Chemicals known to cause reproductive toxicity for females:**
None of the ingredients is listed.

· **Chemicals known to cause reproductive toxicity for males:**
None of the ingredients is listed.

· **Developmental Toxicity**
None of the ingredients is listed.

· **Carcinogenic categories**

· **EPA (Environmental Protection Agency)**
None of the ingredients is listed.

· **TLV (Threshold Limit Value established by ACGIH)**
None of the ingredients is listed.

· **NIOSH-Ca (National Institute for Occupational Safety and Health)**
None of the ingredients is listed.

· **National regulations**

· **Water hazard class:** Generally not hazardous for water.
· **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

BECKMAN COULTER

SAFETY DATA SHEET

Doc. ID: 467826-75 Rev. AJ
Revised (year/month/day) 2016/10/19

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Sample Diluent 1

Part Number 467826

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Irritation Category 3

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements — **According to US-OSHA / UN GHS**

Hazardous Ingredients
Tris(hydroxymethyl)– aminomethane

Pictogram
None

Signal Word
WARNING

Hazard Statements
H316 Causes mild skin irritation.

Precautionary Statements
P332+P313 If skin irritation occurs: Get medical advice/attention.

Product label will display most significant precautionary statements.

2.3 Other hazards
Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**	
Tris(hydroxymethyl)–aminomethane CAS # 77-86-1 EINECS # 201-064-4 Index # Not available	1 - 5	Xi;R36/37/38	Eye Irrit. 2 STOT SE 3 Skin Irrit. 2 H315; H319; H335	Eye Irrit. 2 STOT SE 3 Skin Irrit. 2 H315; H319; H335	

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact — If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact — In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

©2016 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Causes mild skin irritation.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

©2016 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at Room Temperature, as directed on the Product Label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses — No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈1.003 @24°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Odor	Odorless	**Organic**	Not determined
pH	7.3 - 7.9	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation Causes mild skin irritation.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Serious eye damage/eye irritation	Not classified based on available data.
Respiratory/skin sensitization	Not classified based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not classified based on available data.
Reproductive Toxicity	Not classified based on available data.
Specific target organ toxicity – single exposure	
	Not classified based on available data.
Specific target organ toxicity – repeated exposure	
	Not classified based on available data.
Aspiration hazard	Not classified based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	No further relevant information available.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

©2016 Beckman Coulter, Inc.

Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2 Additional information	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	No ingredients listed.
CERCLA RG's, 40 CFR 302.4	No ingredients listed.
California Proposition 65	No ingredients listed.
Massachusetts MSL	Benzyl Alcohol is listed.
New Jersey Dept. of Health RTK List	No ingredients listed.
Pennsylvania RTK	Benzyl Alcohol is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

Benzyl Alcohol

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Updated the storage temperature.
Updated section 4,8,11,13
Updated Section 7.
Updated Section 16.

Hazard Class, hazard statements and risk phrase description from section 3

Xi - Irritant
R36/37/38 Irritating to eyes, respiratory system and skin.
Eye Irrit. 2 - Eye Irritation Category 2
Skin Irrit. 2 - Skin Irritation Category 2
STOT SE 3 - Specific Target Organ Toxicity Single Exposure Category 3
H315 - Causes skin irritation.
H319 - Causes serious eye irritation.
H335 - May cause respiratory irritation.

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R43

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Aquatic Hazard Acute, Category 3

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Ethoxylated alkyl alcohol

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.
H402 Harmful to aquatic life.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	
Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)
DFG MAK	
Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)
Ireland	
Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption
IOELVs	
Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.04 @20°C
Color	Colorless to yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Mild odor	**Organic**	Not determined

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

pH	7.7	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Skin Corrosion/Irritation	No data available.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	May cause sensitization by skin contact.
Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	
	Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product is classified as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country

©2015 Beckman Coulter, Inc.

concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4

Ethylene Oxide is listed.

1,4-Dioxane is listed.

Sodium Azide is listed.

California Proposition 65

Ethylene Oxide has been identified by the State of California to cause cancer and reproductive harm. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm.
WARNING: This product contains a chemical known to the State of California to cause cancer and reproductive harm.

1,4-Dioxane has been identified by the State of California to cause cancer. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm.
WARNING: This product contains a chemical known to the State of California to cause cancer.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 2** **Reactivity with Water: 0** **Contact: 2**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes Updated to GHS.

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment
T - Toxic
T+ - Very toxic
R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
R34 Causes burns.
R43 May cause sensitization by skin contact.
R28 Very toxic if swallowed.
R32 Contact with acids liberates very toxic gas.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3
Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3
Acute Tox. Oral 4 - Acute Toxicity Oral, Category 4
Eye Dam. 1 - Eye Damage Category 1
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
Skin Corr. 1B - Skin Corrosion Category 1B
Skin Sens. 1 - Skin Sensitization Category 1
H300 - Fatal if swallowed.
H301 - Toxic if swallowed.
H302 - Harmful if swallowed.
H311 - Toxic in contact with skin.
H314 - Causes severe skin burns and eye damage.
H317 - May cause an allergic skin reaction.
H318 - Causes serious eye damage.
H331 - Toxic if inhaled.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

SAFETY DATA SHEET

1. Product and Company Identification

Product identifier **Sani-Cloth HB Germicidal Disposable Wipe** **SDS0042**

Other means of identification Not available

Recommended use Hard, Nonporous Surface Disinfectant

Recommended restrictions For Professional and Hospital Use

Manufacturer/Importer/Supplier/Distributor information

Manufacturer

Company name Professional Disposables International, Inc.

Address Two Nice-Pak Park,
Orangeburg, NY 10962-1376

Telephone 1-845-365-1700 (M-F 9am - 5pm)

Emergency phone number 1-800-999-6423

2. Hazards Identification

Physical hazards Not classified.

Health hazards Not classified.

Environmental hazards Not determined.

OSHA defined hazards Not classified.

Label elements

Hazard symbol None.

Signal word None.

Hazard statement The mixture does not meet the criteria for classification.

Precautionary statement

Prevention Observe good industrial hygiene practices.

Response Wash hands after handling.

Storage Store away from incompatible materials.

Disposal Dispose of waste and residues in accordance with local authority requirements.

Hazard(s) not otherwise classified (HNOC) None known.

Supplemental information Not applicable.

3. Composition/Information on Ingredients

Mixtures

Chemical name	Common name and synonyms	CAS number	%
Benzyl-C12-18-alkyldimethyl ammonium chlorides		68391-01-5	0.07
Quaternary ammonium compounds, C12-14-alkyl[(ethylphenyl)methyl]di methyl, chlorides		85409-23-0	0.07

4. First Aid Measures

Inhalation Not a normal route of exposure.

Skin contact If on skin or clothing: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control centre or doctor for treatment advice.
Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

Eye contact	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.
Ingestion	Do not induce vomiting. Never give anything by mouth if victim is unconscious, or is convulsing. Obtain medical attention.
Most important symptoms/effects, acute and delayed	Direct contact with eyes may cause temporary irritation.
Indication of immediate medical attention and special treatment needed	Treat patient symptomatically.
General information	If you feel unwell, seek medical advice (show the label where possible). Show this safety data sheet to the doctor in attendance. Avoid contact with eyes, skin and clothing. Keep out of reach of children.

5. Fire Fighting Measures

Suitable extinguishing media	Treat for surrounding material.
Unsuitable extinguishing media	None known.
Specific hazards arising from the chemical	Firefighters should wear a self-contained breathing apparatus.
Special protective equipment and precautions for firefighters	Firefighters should wear full protective clothing including self contained breathing apparatus.
Fire-fighting equipment/instructions	In the event of fire, cool product with water spray.
Specific methods	Cool product exposed to flames with water until well after the fire is out.
General fire hazards	No unusual fire or explosion hazards noted.

6. Accidental Release Measures

Personal precautions, protective equipment and emergency procedures	Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Prevent entry into waterways, sewers or confined areas. Pick up and discard towel. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.

7. Handling and Storage

Precautions for safe handling	Use good industrial hygiene practices in handling this material. Do not reuse towelette. Do not reuse the empty container. When using do not eat or drink.
Conditions for safe storage, including any incompatibilities	Store in a closed container away from incompatible materials. Store away from incompatible materials (see Section 10 of the SDS). Keep out of reach of children.

8. Exposure Controls/Personal Protection

Occupational exposure limits	No exposure limits noted for ingredient(s).
Biological limit values	No biological exposure limits noted for the ingredient(s).
Exposure guidelines	This material does not have established exposure limits.
Appropriate engineering controls	Ensure adequate ventilation.

Individual protection measures, such as personal protective equipment

Eye/face protection	Wear gear as deemed necessary. Follow label directions.
Skin protection	
Hand protection	Wear as deemed necessary, follow label directions.
Other	As required by employer code.
Respiratory protection	Where exposure guideline levels may be exceeded, use an approved NIOSH respirator.
Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
General hygiene considerations	Handle in accordance with good industrial hygiene and safety practice. Washing with soap and water after use is recommended as good hygienic practice to prevent possible eye irritation from hand contact. When using do not eat or drink.

9. Physical and Chemical Properties

Appearance	Liquid saturated on wipe
Physical state	Solid.
Form	Liquid saturated on wipe
Color	White
Odor	Mild quat
Odor threshold	Not available.
pH	10.75 (liquid)
Melting point/freezing point	Not available.
Initial boiling point and boiling range	Not available.
Pour point	Not available.
Specific gravity	1.0027 g/mL (liquid)
Partition coefficient (n-octanol/water)	Not available.
Flash point	> 212.0 °F (> 100.0 °C) Tag Closed Cup (Liquid)
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or explosive limits	
Flammability limit - lower (%)	Not available.
Flammability limit - upper (%)	Not available.
Explosive limit - lower (%)	Not available.
Explosive limit - upper (%)	Not available.
Vapor pressure	Not available.
Vapor density	Not available.
Relative density	Not available.
Solubility(ies)	Wipe is not soluble
Auto-ignition temperature	Not available.
Decomposition temperature	Not available.
Viscosity	Not available.

10. Stability and Reactivity

Reactivity	May react with incompatible materials.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Chemical stability	Stable under recommended storage conditions.
Conditions to avoid	Avoid temperatures exceeding the flash point. Do not mix with other chemicals. Contact with incompatible materials.
Incompatible materials	Acids. Oxidizers. Caustics.
Hazardous decomposition products	May include and are not limited to: Oxides of carbon. Chloride compounds Ammonia.

11. Toxicological Information

Information on likely routes of exposure

Ingestion	Not applicable under normal conditions of use.
Inhalation	Health injuries are not known or expected under normal use.
Skin contact	Prolonged skin contact may cause skin irritation.
Eye contact	Health injuries are not known or expected under normal use.
Symptoms related to the physical, chemical and toxicological characteristics	Symptoms may include stinging, tearing, redness, swelling of the eyes, and blurred vision. Symptoms may include redness, drying, defatting and cracking of the skin. Symptoms may include stomach distress, nausea or vomiting.

Information on toxicological effects

Acute toxicity

Components	Species	Test Results
Benzyl-C12-18-alkyldimethyl ammonium chlorides (CAS 68391-01-5)		
Acute		
Dermal		
LD50	Rat	2000 mg/kg
		1420 mg/kg
Inhalation		
LC50	Not available	
Oral		
LD50	Mouse	150 mg/kg
	Rat	240 mg/kg
Quaternary ammonium compounds, C12-14-alkyl[(ethylphenyl)methyl]dimethyl, chlorides (CAS 85409-23-0)		
Acute		
Dermal		
LD50	Not available	
Inhalation		
LC50	Not available	
Oral		
LD50	Rat	300 - 2000 mg/kg

Skin corrosion/irritation	Prolonged skin contact may cause temporary irritation.
Exposure minutes	Not available.
Erythema value	Not available.
Oedema value	Not available.
Serious eye damage/eye irritation	Direct contact with eyes may cause temporary irritation.
Corneal opacity value	Not available.
Iris lesion value	Not available.
Conjunctival reddening value	Not available.
Conjunctival oedema value	Not available.
Recover days	Not available.
Respiratory or skin sensitization	
Respiratory sensitization	Not available.
Skin sensitization	This product is not expected to cause skin sensitization.
Germ cell mutagenicity	Non-hazardous by OSHA criteria.
Carcinogenicity	Non-hazardous by OSHA criteria.

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)

Not listed.

Reproductive toxicity	Non-hazardous by OSHA criteria.
Specific target organ toxicity - single exposure	Not classified.
Specific target organ toxicity - repeated exposure	Not classified.
Aspiration hazard	Not classified.
Chronic effects	Non-hazardous by OSHA criteria.
Further information	This product has no known adverse effect on human health.

12. Ecological Information

Ecotoxicity	The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment. See below
Persistence and degradability	No data is available on the degradability of this product.
Bioaccumulative potential	No data available.
Mobility in soil	No data available.
Mobility in general	Not available.

Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

13. Disposal Considerations

Disposal instructions	Dispose of used towelette in trash. Do not flush in toilet.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	This product is not a hazardous waste.
Waste from residues / unused products	Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Empty packaging may be disposed in trash.

14. Transport Information

U.S. Department of Transportation (DOT)

Not regulated as dangerous goods.

15. Regulatory Information

US federal regulations

This product is NOT known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

PRECAUTIONARY STATEMENTS: Hazard to humans and domestic animals.
CAUTION: Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or tobacco. Remove contaminated clothing and wash before reuse.

EPA Reg. # 61178-4-9480
EPA Est. # 9480-NY-1.

Disclaimer

The information in the sheet was written based on the best knowledge and experience currently available. Information contained herein was obtained from sources considered technically accurate and reliable. While every effort has been made to ensure full disclosure of product hazards, in some cases data is not available and is so stated. Since conditions of actual product use are beyond control of the supplier, it is assumed that users of this material have been fully trained according to the requirements of all applicable legislation and regulatory instruments. No warranty, expressed or implied, is made and supplier will not be liable for any losses, injuries or consequential damages which may result from the use of or reliance on any information contained in this document.

Issue date

11-February-2015

Further information

For any questions surrounding this SDS, please contact the supplier/manufacturer listed on the first page of the document.

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.
Not for use on skin. Not a baby wipe. For use on hard surfaces only.

Revision 0.
Bulk Liquid # 4BQ08401.

Other information

This Safety Data Sheet was prepared to comply with the current OSHA Hazard Communication Standard (HCS) adoption of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

Dell Tech Laboratories, Ltd. Phone: (519) 858-5021

POLYMEDCO, INC. Safety Data Sheet

Sed-Chek® 2 Erythrocyte Sedimentation Rate Controls

Section 1 Identification	
Product name	Sed-Chek® 2 Erythrocyte Sedimentation Rate Controls; Normal, Abnormal, and Bilevel Sed-Chek® 2 Erythrocyte Sedimentation Rate Controls; for StaRRsed, Normal and Abnormal Sed-Chek® 2 Erythrocyte Sedimentation Rate Controls for Sedimat® 15; Normal, Abnormal, and Bilevel
Catalog number	ESR-2CT, ESR-2CTA, ESR-2CTN, ESR-2CT-E, ESR-2SSA, ESR-2SSN, ESR-5CT, ESR-5CTA, ESR-5CTN, ESR-5CT-E
Recommended use	Control for erythrocyte sedimentation rate testing, normal and abnormal levels
Distributed by	Polymedco, Inc. 510 Furnace Dock Road Cortlandt Manor, NY 10567 www.polymedco.com
Emergency number	(800) 431-2123 or (914) 739-5400

Section 2 Hazards Identification	
Hazard classification	Potentially biohazardous material
Signal word	Not applicable
Pictogram	Not applicable
Hazard statements	Not applicable
Precautionary statements	Not applicable
Any hazards not otherwise classified	This product is derived from human source material. Each human donor unit used to manufacture this product was tested and found non-reactive per current applicable FDA requirements using FDA-accepted methods including testing for HIV-1 / HIV-2 Antibody, HBsAg, HCV Antibody, HIV-1 and HCV by a nucleic acid test (NAT). No test can offer complete assurance that infectious agents are absent, so handle this product as potentially biohazardous material.

Section 3 Composition and Information on Ingredients	
Chemical characterization	Human erythrocytes suspended in solution with non-hazardous components
Chemical name	Not applicable
Synonyms	Not applicable
CAS number	Not applicable
Concentration	Not applicable

Section 4 First Aid Measures	
IF IN EYES:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice / attention.
IF ON SKIN:	Wash with plenty of soap and water. If skin irritation occurs: Get medical advice / attention.
IF SWALLOWED:	Rinse mouth. Do NOT induce vomiting. Get medical advice / attention if you feel unwell.
IF INHALED:	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor / physician.

Section 5 Fire-Fighting Measures	
Flash point	Not applicable
Flammable limits	Not applicable
Auto-ignition temperature	Not applicable
Extinguishing media	Use extinguishing media suitable for surrounding fire
Special fire and explosion hazards	No special hazards determined
Hazardous combustion products	No special hazards determined
Protective equipment for firefighters	Self-contained breathing apparatus is recommended for firefighters

Section 6 Accident Release Measures	
Personal precautions	Wear protective clothing, gloves, and eye protection.
Emergency procedures	No special emergency procedures necessary.
Containment procedures	Contain spill to prevent migration.
Cleanup procedures	Use suitable absorbent material to soak up spill. Decontaminate spill area with bleach or other suitable disinfectant.

Section 7 Handling and Storage	
Handling and storage	Avoid inhaling, swallowing, and contact with eyes and skin.
Recommended storage conditions	Room temperature
Incompatibilities	Not determined

Section 8 Exposure Controls and Personal Protection	
Exposure limits:	
OSHA	Not listed
ACGIH	Not listed
Engineering controls	Normal room ventilation
Respiratory protection	Normal room ventilation
Eye protection	Safety glasses should be worn to prevent eye contact.
Skin protection	Appropriate gloves and clothing should be worn to prevent skin contact.

Section 9 Physical and Chemical Properties	
Appearance	Red liquid in mixed state; layered red and clear liquid in settled state
Odor	Odorless
Odor threshold	Not determined
pH	7.0 – 9.0
Melting point / Freezing point	Not determined
Initial boiling point and boiling range	Not determined
Flash point	Not applicable
Evaporation rate	Not determined
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapor pressure	Not determined
Vapor density	Not determined
Relative density	Not determined
Solubility	Soluble in water
Partition coefficient	Not determined
Auto-ignition temperature	Not applicable
Decomposition temperature	Not determined
Viscosity	Not determined

Section 10 Stability and Reactivity	
Stability	Stable under normal ambient temperature and pressure.
Stabilizers needed	Not applicable
Safety issues with change in physical appearance	None identified
Hazardous reactions	None identified
Hazardous polymerization	Will not polymerize
Incompatibilities	Not determined
Hazard decomposition products	Not determined
Conditions to avoid	None identified

Section 11 Toxicological Information	
Information on likely routes and effects of exposure (short term / long term effects):	
Inhalation	Not determined
Ingestion	None identified
Skin contact	None identified
Eye contact	None identified
Toxicity (LD50/LC50)	Not available
Sensitization	Not available
Carcinogenicity	Not available
Reproductive Toxicity	Not available
Teratogenicity	Not available
Mutagenicity	Not available

Section 12 Ecological Information	
Ecotoxicity	Not determined
Persistence / degradability	Not determined
Bioaccumulation potential	Not determined
Mobility in soil (Adsorption / leaching)	Not determined
Environmental fate	Not determined
Ozone layer depletion potential	Not determined
Photochemical ozone creation potential	Not determined
Endocrine disrupting potential	Not determined
Global warming potential	Not determined

Section 13 Disposal Considerations	
Disposal containers	Leak-proof container marked with biohazard symbol. Dispose of broken glass vials in medical sharps container or equivalent
Disposal methods	Dispose in biohazardous or medical waste, in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
Properties that may affect disposal	Potentially biohazardous material; dispose in biohazardous or medical waste
Sewage disposal	Do not dispose of product into drains or sewers
Precautions for landfills or incineration	Dispose in biohazardous or medical waste

Section 14 Transport Information	
UN Number	Not regulated
UN proper shipping name	Not regulated
Transport hazard class	Not regulated
Packing group	Not regulated
Environmental hazards	None identified
Guidance on transport in bulk	No special requirements
Special precautions on transport	None identified

Section 15 Regulatory Information	
OSHA	This product does not meet the definition of a hazardous material under 29 CFR 1910.2000
TSCA	Not listed
SARA	
302	Not applicable
311/312	No hazards
313	Not applicable
CERCLA RQ	Not applicable
CA Prop 65	Not listed
Canada DSL/NDSL	Not listed
EINECS Number	268-338-3
WHMIS Class	Not applicable
The above information is not intended to be a comprehensive listing of regulations pertinent to the product, and the regulations listed are subject to change. The user is responsible for observing all applicable local, state, and national/federal regulations in handling of the product.	

Section 16 Other Information			
NFPA Ratings:		HMIS Ratings:	
Health	0	Health	0
Flammability	0	Flammability	0
Reactivity	0	Reactivity	0
Physical Hazards	Potential biohazard	Protective Equipment	B
Date of preparation	05 September 2014		
Last revision date	9 March 2015		
The information in this SDS is believed to be accurate and complete at the time of revision. No warranty, express or implied, is made, and Polymedco assumes no legal responsibility or liability from its use. The user of our products is responsible for observing any applicable laws and guidelines.			

POLYMEDCO, INC. Safety Data Sheet

Sediplast® Tubes with Diluent

Section 1 Identification	
Product name	Sediplast® Tubes with Diluent
Catalog number	S-100, S-1000, S-1000-B, S-250, S-VIAL, S-10E
Recommended use	Diluent: Anticoagulant for whole blood samples
Distributed by	Polymedco, Inc. 510 Furnace Dock Road Cortlandt Manor, NY 10567 www.polymedco.com
Emergency number	(800) 431-2123 or (914) 739-5400

Section 2 Hazards Identification	
Hazard classification	Does not present any particular physical, health, or environmental hazard
Signal word	Not applicable
Pictogram	Not applicable
Hazard statements	Not applicable
Precautionary statements	Not applicable
Any hazards not otherwise classified	Not applicable

Section 3 Composition and Information on Ingredients	
Chemical characterization	Aqueous solution
Chemical name	Sodium citrate
Synonyms	Sodium Citrate Dihydrate Trisodium Citrate
CAS number	6132-04-3
Concentration	3.8% in water

Section 4 First Aid Measures	
IF IN EYES:	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice / attention.
IF ON SKIN:	Wash with plenty of soap and water. If skin irritation occurs: Get medical advice / attention.
IF SWALLOWED:	Rinse mouth. Do NOT induce vomiting. Get medical advice / attention if you feel unwell.
IF INHALED:	If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. If experiencing respiratory symptoms: Call a POISON CENTER or doctor / physician.

Section 5 Fire-Fighting Measures	
Flash point	Not applicable
Flammable limits	Not applicable
Auto-ignition temperature	Not applicable
Extinguishing media	Use extinguishing media suitable for surrounding fire
Special fire and explosion hazards	No special hazards determined
Hazardous combustion products	May emit fumes of carbon and sodium oxides
Protective equipment for firefighters	Self-contained breathing apparatus is recommended for firefighters

Section 6 Accident Release Measures	
Personal precautions	Wear protective clothing, gloves, and eye protection.
Emergency procedures	No special emergency procedures necessary.
Containment procedures	Contain spill to prevent migration.
Cleanup procedures	Use suitable absorbent material to soak up spill.

Section 7 Handling and Storage	
Handling and storage	Avoid inhaling, swallowing, and contact with eyes and skin.
Recommended storage conditions	Room temperature
Incompatibilities	Strong oxidizing agents

Section 8 Exposure Controls and Personal Protection	
Exposure limits:	
OSHA	Not listed
ACGIH	Not listed
Engineering controls	Normal room ventilation
Respiratory protection	Normal room ventilation
Eye protection	Safety glasses should be worn to prevent eye contact.
Skin protection	Appropriate gloves and clothing should be worn to prevent skin contact.

Section 9 Physical and Chemical Properties	
Appearance	Clear colorless liquid
Odor	Odorless
Odor threshold	Not determined
pH	5.65
Melting point / Freezing point	Approximately 0°C
Initial boiling point and boiling range	Approximately 100°C
Flash point	Not applicable
Evaporation rate	Not determined
Flammability (solid, gas)	Not applicable
Upper/lower flammability or explosive limits	Not applicable
Vapor pressure	Not determined
Vapor density	Not determined
Relative density	Not determined
Solubility	Soluble in water
Partition coefficient	Not determined
Auto-ignition temperature	Not applicable
Decomposition temperature	Not determined
Viscosity	Not determined

Section 10 Stability and Reactivity	
Stability	Stable under normal ambient temperature and pressure.
Stabilizers needed	Not applicable
Safety issues with change in physical appearance	None identified
Hazardous reactions	None identified
Hazardous polymerization	Will not polymerize
Incompatibilities	Strong oxidizing agents
Hazard decomposition products	Carbon oxides
Conditions to avoid	None identified

Section 11 Toxicological Information	
Information on likely routes and effects of exposure (short term / long term effects):	
Inhalation	Not determined
Ingestion	None identified
Skin contact	May cause irritation, but unlikely at the concentration present
Eye contact	May cause irritation, but unlikely at the concentration present
Toxicity (LD50/LC50)	Not available
Sensitization	Not available
Carcinogenicity	Not listed as a carcinogen or potential carcinogen by ACGIH, IARC, NTP, or CA Prop 65
Reproductive Toxicity	Not available
Teratogenicity	Not available
Mutagenicity	Not available

Section 12 Ecological Information	
Ecotoxicity	Not determined
Persistence / degradability	Not determined
Bioaccumulation potential	Not determined
Mobility in soil (Adsorption / leaching)	Not determined
Environmental fate	Not determined
Ozone layer depletion potential	Not determined
Photochemical ozone creation potential	Not determined
Endocrine disrupting potential	Not determined
Global warming potential	Not determined

Section 13 Disposal Considerations	
Disposal containers	No special containers required
Disposal methods	Dispose in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
Properties that may affect disposal	None identified
Sewage disposal	Do not dispose of product into drains or sewers
Precautions for landfills or incineration	None identified

Section 14 Transport Information	
UN Number	Not regulated
UN proper shipping name	Not regulated
Transport hazard class	Not regulated
Packing group	Not regulated
Environmental hazards	None identified
Guidance on transport in bulk	No special requirements
Special precautions on transport	None identified

Section 15 Regulatory Information	
OSHA	This product does not meet the definition of a hazardous material under 29 CFR 1910.2000
TSCA	Mixture (hydrate) of item listed on TSCA Inventory. Not listed under Section 12b.
SARA	
302	Not applicable
311/312	No hazards
313	Not applicable
CERCLA RQ	Not applicable
CA Prop 65	Not listed
Canada DSL/NDSL	Mixture (hydrate) of item listed on DSL
WHMIS Class	Not applicable
The above information is not intended to be a comprehensive listing of regulations pertinent to the product, and the regulations listed are subject to change. The user is responsible for observing all applicable local, state, and national/federal regulations in handling of the product.	

Section 16 Other Information			
NFPA Ratings:		HMIS Ratings:

BECKMAN COULTER
Serum Protein Multicalibrator

SAFETY DATA SHEET

Document ID: ODR3021-75 Version 05
Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 1 of the Substance/mixture and of the Company/undertaking

1.1 Product

Product Name Serum Protein Multicalibrator

Part Number ODR3021

1.2 Relevant uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Ireland Inc.
Lismeehan
O'Callaghan's Mills
Co. Clare
Ireland
Tel: 353 (0)65 6831100

e-mail address SDSNT@beckman.com

Further information Contact:

Customer support Unit, Beckman Coulter Ireland Inc.

Technical Service Department Tel. +001-800-854-3633 (PST)

E-mail CC_Support.ie@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Tel +353 (0)65 683 1170; 08:00 - 16:30 hrs Mon-Thur, 08:00 - 15:30 hrs Fri (GMT) Tel +001-800-223-0130 (PST)

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards

2.1 of substance or mixture

Product Description In vitro diagnostic reagent.

Amber; Clear; Liquid; Mild odor

according to EC 1272/2008 (CLP/GHS)

Not as hazardous per EC 1272/2008 (CLP/GHS)

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

SAFETY DATA SHEET
Document ID: ODR3021-75 Version 05
Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 2 Hazards (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

SAFETY DATA SHEET

Document ID: ODR3021-75 Version 05
Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product.

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

©2018 Beckman Coulter, Inc.

SAFETY DATA SHEET
Document ID: ODR3021-75 Version 05
Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses — No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA — None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH — None established

Japan — None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls — No special engineering controls are required. Use with good general ventilation.

Eye Protection — Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection — Wear protective clothing and impervious gloves, as appropriate.

Respiratory Protection — Under normal conditions, the use of this product should not require respiratory protection.

Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.03
Color	Amber	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Mild odor	**Organic**	Not determined
pH	7 @20°C	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

SAFETY DATA SHEET

Document ID: ODR3021-75 Version 05
Revision Date (year/month/day) 2019/03/12
Last Revision Date (year/month/day) 2015/03/20

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Not based on available data.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.
target organ toxicity – single exposure	
	Not based on available data.
target organ toxicity – repeated exposure	
	Not based on available data.
Aspiration hazard	Not based on available data.
Other Information	This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2018 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Description of hazard Class and hazard statements from Section 3

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
H300 - Fatal if swallowed.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

Abbreviations and Acronyms

ACGIH - American Conference of Governmental Industrial Hygienists

RICCA CHEMICAL COMPANY®

Safety Data Sheet

SECTION 1: Identification

1.1. Product Identifier

Trade Name or Designation: Sodium Chloride, 0.9% (w/v), pH 7.25-7.35

Product Number: 7211
Other Identifying Product Numbers: 7211-5

1.2. Recommended Use and Restrictions on Use

General Laboratory Reagent

1.3. Details of the Supplier of the Safety Data Sheet

Company: Ricca Chemical Company

Address: 448 West Fork Drive
Arlington, TX 76012 USA
Telephone: 888-467-4222

1.4. Emergency Telephone Number (24 hr)

CHEMTREC (USA) 800-424-9300
CHEMTREC (International) 1+ 703-527-3887

SECTION 2: Hazard(s) Identification

2.1. Classification of the Substance or Mixture (in accordance with OSHA HCS 29 CFR 1910.1200)

For the full text of the Hazard and Precautionary Statements listed below, see Section 16.

This product is not categorized as hazardous in any GHS hazard class.

2.2. GHS Label Elements

Pictograms: None required.

Signal Word: None required.

Hazard Statements: None required.

Precautionary Statements: None required.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

2.3. WHMIS Classification

WHMIS classification is not included based on the recommended option (Option 4) found in the Canada Gazette Part II, Vol. 149, No.3, page 458

2.4. Hazards not Otherwise Classified or Covered by GHS

Data not available.

SECTION 3: Composition / Information on Ingredients

3.1. Components of Substance or Mixture

Chemical Name	Formula	Molecular Weight	CAS Number	Weight%
Water	H_2O	18.01 g/mol	7732-18-5	99.10%
Sodium Chloride	NaCl	58.44 g/mol	7647-14-5	0.90%
Sodium Bicarbonate	$NaHCO_3$	84.00 g/mol	144-55-8	0.00%

SECTION 4: First-Aid Measures

4.1. General First Aid Information

Eye Contact: May cause irritation, redness, pain, and tearing.

Inhalation: Not expected to require first aid. If necessary, remove to fresh air.

Skin Contact: May cause irritation, redness, itching and pain, especially on damaged or broken skin.

Ingestion: Dilute with water or milk. Do not induce vomiting. Call a physician if necessary.

4.2. Most Important Symptoms and Effects, Acute and Delayed

May cause irritation to the eyes and skin. Wash areas of contact with water. Call a physician if irritation develops. Does not present any significant health hazards. EYE CONTACT: May cause irritation, redness, pain, and tearing. SKIN CONTACT: May cause irritation, redness, itching and pain, especially on damaged or broken skin.

4.3. Medical Attention or Special Treatment Needed

Not expected to require special treatment.

SECTION 5: Fire-Fighting Measures

5.1. Extinguishing Media

Use any means suitable for extinguishing surrounding fire.

5.2. Specific Hazards Arising from the Substance or Mixture

Not considered to be a fire or explosion hazard.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

5.3. Special Protective Equipment for Firefighters

Use protective clothing and breathing equipment appropriate for the surrounding fire.

SECTION 6: Accidental Release Measures

6.1. Personal Precautions, Protective Equipment and Emergency Procedures

Wear appropriate PPE for the size and nature of the spill. As a general rule, wear safety glasses and gloves.

6.2. Cleanup and Containment Methods and Materials

Absorb with suitable material and treat as normal refuse. Small amounts of the liquid may be flushed to the drain with excess water. Always dispose of in accordance with local regulations.

SECTION 7: Handling and Storage

7.1. Precautions for Safe Handling and Storage Conditions

As with all chemicals, wash hands thoroughly after handling. Avoid contact with eyes and skin. Protect from freezing and physical damage.

SECTION 8: Exposure Controls / Personal Protection

8.2. Exposure Controls

Engineering Controls: No specific controls are needed. Normal room ventilation is adequate.

Respiratory Protection: Normal room ventilation is adequate.

Skin Protection: Chemical resistant gloves.

Eye Protection: Safety glasses or goggles.

8.3. Personal Protective Equipment

Normal room ventilation is adequate. Chemical resistant gloves. Safety glasses or goggles.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

SECTION 9: Physical and Chemical Properties

9.1. Basic Physical and Chemical Properties

Appearance:	Colorless liquid
Physical State:	Liquid
Odor:	Data not available.
Odor Threshold:	Data not available.
pH:	7.3
Melting/Freezing Point:	0.0°C
Initial Boiling Point /Range:	100°C - 100°C
Flash Point:	Data not available.
Evaporation Rate:	Data not available.
Flammability:	Data not available.
Flammability/Explosive Limits:	Data not available.
Vapor Pressure:	Data not available.
Vapor Density:	Data not available.
Relative Density:	1.0
Solubility:	Miscible
Partition Coeffieient (n-Octanol/Water):	Data not available.
Auto-Ignition Temperature:	Data not available.
Decomposition Temperature:	Data not available.
Viscosity:	Data not available.
ExplosiveProperties:	Data not available.
Oxidizing Properties:	Data not available.

SECTION 10: Stability and Reactivity

10.1. Reactivity and Chemical Stability

Stable under normal conditions of use and storage.

10.2. Possibility of Hazardous Reactions

Data not available.

10.3. Conditions to Avoid and Incompatible Materials

Strong oxidizing agents, Lithium, Bromine Trifluoride.

10.4. Hazardous Decomposition Products

Will not occur.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

SECTION 11: Toxicological Information

11.1. Information on Toxicological Effects

Acute Toxicity - Oral Exposure:

Not applicable.

Acute Toxicity - Dermal Exposure:

Not applicable.

Acute Toxicity - Inhalation Exposure:

Not applicable.

Acute Toxicity - Other Information:

LD50, Oral, Rat: (Sodium Chloride) 3000 mg/kg, details of toxic effects not reported other than lethal dose value. LD50, Dermal, Rabbit: (Sodium Chloride) >10 gm/kg.

Skin Corrosion and Irritation:

Not applicable.

Serious Eye Damage and Irritation:

Not applicable.

Respiratory Sensitization:

Not applicable.

Skin Sensitization:

Not applicable.

Germ Cell Mutagenicity:

Not applicable.

Carcinogenicity:

Not applicable.

Reproductive Toxicity:

Not applicable.

Specific Target Organ Toxicity from Single Exposure:

Not applicable.

Specific Target Organ Toxicity from Repeated Exposure:

Not applicable.

Aspiration Hazard:

Not applicable.

Additional Toxicology Information:

Data not available.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

SECTION 12: Ecological Information

12.1. Ecotoxicity

Not applicable.

12.2. Persistence and Degradability

Data not available.

12.3. Bioaccumulative Potential

Data not available.

12.4. Mobility in Soil

Data not available.

12.5. Other Adverse Ecological Effects

Data not available.

SECTION 13: Disposal Considerations

13.1. Waste Treatment Methods

Data not available.

SECTION 14: Transportation Information

14.1. Transportation by Land - Department of Transportation (DOT, United States of America)

Not regulated according to DOT Regulations.

RICCA CHEMICAL COMPANY®

Safety Data Sheet

Not regulated according to IATA Regulations.

SECTION 15: Regulatory Information

15.1. Occupational Safety and Health Administration (OSHA) Hazards

Not listed.

15.2. Superfund Amendments and Reauthorization Act (SARA) 302 Extremely Hazardous Substances

Not listed.

15.3. Superfund Amendments and Reauthorization Act (SARA) 311/312 Hazardous Chemicals

Not listed.

15.4. Superfund Amendments and Reauthorization Act (SARA) 313 Toxic Release Inventory (TRI)

Not listed.

15.5. Massachusetts Right-to-Know Substance List

Not listed.

15.6. Pennsylvania Right-to-Know Hazardous Substances

Water (CAS # 7732-18-5): Present

15.7. New Jersey Worker and Community Right-to-Know Components

Not listed.

15.8. California Proposition 65

Not listed.

15.9. Canada Domestic Substances List / Non-Domestic Substances List (DSL/NDSL)

Sodium Bicarbonate (CAS # 144-55-8): Present (DSL)
Sodium Chloride (CAS # 7647-14-5): Present (DSL)
Water (CAS # 7732-18-5): Present (DSL)

RICCA CHEMICAL COMPANY®

Safety Data Sheet

15.10. United States of America Toxic Substances Control Act (TSCA) List

Sodium Bicarbonate (CAS # 144-55-8): Present
Sodium Chloride (CAS # 7647-14-5): Present
Water (CAS # 7732-18-5): Present

15.11. European Inventory of Existing Commercial Chemical Substances (EINECS), European List of Notified Chemical Substances (ELINCS), and No Longer Polymers (NLP)

Not listed.

SECTION 16: Other Information

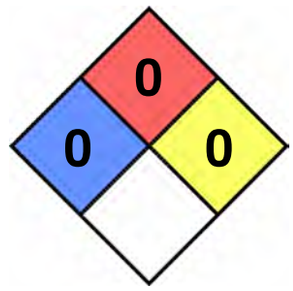
16.1. Full Text of Hazard Statements and Precautionary Statements

16.2. Miscellaneous Hazard Classes

Canadian Carcinogenicity Hazard Class: Not Applicable.
Physical Hazards Not Otherwise Classified (PHNOC): Not Applicable.
Health Hazards Not Otherwise Classified (HHNOC): Not Applicable.
Not Applicable.

16.3. National Fire Protection Association (NFPA) Rating

Health: 0
Flammability: 0
Reactivity: 0
Special Hazard:



RICCA CHEMICAL COMPANY®

Safety Data Sheet

16.4. Document Revision

Last Revision Date: 5/1/2015

DISCLAIMER

When handled properly by qualified personnel, the product described herein does not present a significant health or safety hazard. Alteration of its characteristics by concentration, evaporation, addition of other substances, or other means may present hazards not specifically addressed herein and which must be evaluated by the user. The information furnished herein is believed to be accurate and represents the best data currently available to us. No warranty, expressed or implied, is made and RICCA CHEMICAL COMPANY assumes no legal responsibility or liability whatsoever resulting from its use.

BECKMAN COULTER

SAFETY DATA SHEET

Doc. ID: A32320 Rev. AF
Revised (year/month/day) 2016/09/29

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Sodium Hypochlorite Solution

Part Number A32319, S1315

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For laboratory use only. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer	**EC REP Address**
Manufactured for Beckman Coulter, Inc. 250 S. Kraemer Blvd Brea, CA 92821, U.S.A. Tel: 800-854-3633	Beckman Coulter Eurocenter S.A. 22, rue Juste-Oliver, Case Postale 1044, CH-1260 Nyon 1, Switzerland. Telephone +41 (0)22 365 36 11 Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Yellow-green; Clear; Liquid; Chlorine-like

Classification according to EC 1272/2008 (CLP/GHS)

Skin Irritation Category 2
Eye Damage Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

C;R31-34; N;R50

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Irritation Category 2
Eye Damage Category 1
Aquatic Hazard Acute, Category 2

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Sodium Hydroxide
Sodium Hypochlorite

Pictogram

Signal Word

DANGER

Hazard Statements

H315 Causes skin irritation.
H401 Toxic to aquatic life
H318 Causes serious eye damage.

Precautionary Statements

P273 Avoid release to the environment.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P501 Dispose of contents/container in accordance with local/national regulations
P310 Immediately call a POISON CENTER or doctor/physician.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients

See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact

In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Causes skin irritation.

Causes serious eye damage.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at Room Temperature, as directed on the Product Label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Sodium Hydroxide
CAS # 1310-73-2 — 2 mg/m3 TWA

ACGIH

Sodium Hydroxide
CAS # 1310-73-2 — 2 mg/m3 Ceiling

DFG MAK None established

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Ireland

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 STEL
IOELVs	None established
NIOSH	
Sodium Hydroxide CAS # 1310-73-2	10 mg/m3 IDLH
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.08 @20°C
Color	Yellow-green	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Chlorine-like	**Organic**	Not determined
pH	12 - 12.5	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	2.3 kPa @20°C
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

	Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
	Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Hydroxide CAS # 1310-73-2	Dermal LD50 Rabbit 1350 mg/kg
Sodium Hypochlorite CAS # 7681-52-9	Oral LD50 Rat 8200 mg/kg; Dermal LD50 Rabbit >10000 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation May cause skin irritation.

Serious eye damage/eye irritation Contact may cause serious eye damage.

Respiratory/skin sensitization Not classified based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not classified based on available data.

Reproductive Toxicity Not classified based on available data.

Specific target organ toxicity – single exposure

Not classified based on available data.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard — Not classified based on available data.

Other Information — No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Hydroxide CAS # 1310-73-2	96 h LC50 Oncorhynchus mykiss: 45.4 mg/L [static]
Sodium Hypochlorite CAS # 7681-52-9	96 h LC50 Pimephales promelas: 0.06 - 0.11 mg/L [flow-through]; 96 h LC50 Pimephales promelas: 4.5 - 7.6 mg/L [static]; 96 h LC50 Lepomis macrochirus: 0.4 - 0.8 mg/L [static]; 96 h LC50 Lepomis macrochirus: 0.28 - 1 mg/L [flow-through]; 96 h LC50 Oncorhynchus mykiss: 0.05 - 0.771 mg/L [flow-through]; 96 h LC50 Oncorhynchus mykiss: 0.03 - <0.19 mg/L [semi-static]; 96 h LC50 Oncorhynchus mykiss: 0.18 - 0.22 mg/L [static]

Microtox — No information available.

Water Flea

Sodium Hypochlorite CAS # 7681-52-9	96 h EC50 Daphnia magna: 2.1 mg/L; 48 h EC50 Daphnia magna: 0.033 - 0.044 mg/L [Static]

Fresh Water Algae — No information available.

12.2 Persistence and degradability — Not determined for the product.

12.3 Bioaccumulation — Not determined for the product.

12.4 Mobility in soil — Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects — This product is classified as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal — Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

©2016 Beckman Coulter, Inc.

Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2 Additional information	Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	No ingredients listed.
CERCLA RG's, 40 CFR 302.4	Sodium Hydroxide is listed. Sodium Hypochlorite is listed.
California Proposition 65	No ingredients listed.
Massachusetts MSL	Sodium Hydroxide is listed. Sodium Hypochlorite is listed.
New Jersey Dept. of Health RTK List	Sodium Hydroxide is listed. Sodium Hypochlorite is listed.
Pennsylvania RTK	Sodium Hydroxide is listed. Sodium Hypochlorite is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 2, water endangering

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Corrosive
C

Dangerous for the environment
N

Risk and Safety Phrases

R31 Contact with acids liberates toxic gas.
R50 Very toxic to aquatic organisms.
R34 Causes burns.
S45 In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).
S61 Avoid release to the environment. Refer to special instructions/Safety data sheets.
S28 After contact with skin, wash immediately with plenty of water.

Canada

WHMIS Classification: E - Corrosive Material

PIN Not applicable

Ingredients on Ingredient Disclosure List

Sodium Hydroxide
Sodium Hypochlorite

Ingredients with unknown toxicological properties

None

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 3** **Reactivity with Water: 0** **Physical Contact: 3**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Update of product hazard classifications and label elements in Sec. 2.
Updated Section 4.
Updated Section 7.
Updated Section 8.
Updated Section 9.
Updated Section 11.
Updated Section 14.

Hazard Class, hazard statements and risk phrase description from section 3

C - Corrosive
N - Dangerous for the environment
R 35 Causes severe burns.
R31 Contact with acids liberates toxic gas.

Version: 2.0
Revision Date: 03/18/2020

SAFETY DATA SHEET

1. Identification

Product identifier: SPRAYWAY GLASS CLEANER

Other means of identification
SDS number: RE1000000075

Recommended restrictions
Product use: Cleaner
Restrictions on use: Not known.

Manufacturer/Importer/Distributor Information

Manufacturer

Company Name:	Sprayway, Inc.
Address:	1000 INTEGRAM DR. Pacific, MO 63069
Telephone:	1-630-628-3000
Fax:	

Emergency telephone number: 1-866-836-8855

2. Hazard(s) identification

Hazard Classification

Physical Hazards

Gases under pressure	Compressed gas

Label Elements

Hazard Symbol:

Signal Word:	Warning
Hazard Statement:	Contains gas under pressure; may explode if heated.
Precautionary Statements	
Storage:	Protect from sunlight. Store in a well-ventilated place.
Hazard(s) not otherwise classified (HNOC):	None.

3. Composition/information on ingredients

Mixtures

Chemical Identity	CAS number	Content in percent (%)*
Ethanol	64-17-5	1 - <5%
Ethanol, 2-butoxy-	111-76-2	1 - <5%
Propane	74-98-6	1 - <5%
Butane	106-97-8	1 - <5%

* All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

4. First-aid measures

Ingestion: Call a POISON CENTER/doctor if you feel unwell. Rinse mouth.

Inhalation: Move to fresh air.

Skin Contact: Wash skin thoroughly with soap and water. If skin irritation occurs: Get medical advice/attention.

Eye contact: Any material that contacts the eye should be washed out immediately with water. If easy to do, remove contact lenses. If eye irritation persists: Get medical advice/attention.

Most important symptoms/effects, acute and delayed

Symptoms: No data available.

Hazards: No data available.

Indication of immediate medical attention and special treatment needed

Treatment: No data available.

5. Fire-fighting measures

General Fire Hazards: Use water spray to keep fire-exposed containers cool. Fight fire from a protected location. Move containers from fire area if you can do so without risk.

Suitable (and unsuitable) extinguishing media

Suitable extinguishing media: Use fire-extinguishing media appropriate for surrounding materials.

Unsuitable extinguishing media: Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical: Pressurized container may explode when exposed to heat or flame.

Special protective equipment and precautions for firefighters

Special fire fighting procedures: No data available.

Special protective equipment for fire-fighters: Firefighters must use standard protective equipment including flame retardant coat, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

6. Accidental release measures

Personal precautions, protective equipment and emergency procedures: No data available.

Methods and material for containment and cleaning up: Stop the flow of material, if this is without risk. Absorb with sand or other inert absorbent.

Environmental Precautions: Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Do not contaminate water sources or sewer. Environmental manager must be informed of all major spillages.

7. Handling and storage

Precautions for safe handling: Provide adequate ventilation. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Conditions for safe storage, including any incompatibilities: Protect from sunlight. Store in a cool place. Aerosol Level 1

8. Exposure controls/personal protection

Control Parameters

Occupational Exposure Limits

Chemical Identity	Type	Exposure Limit Values	Source
Ethanol	REL	1,000 ppm 1,900 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	PEL	1,000 ppm 1,900 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) (02 2006)
	TWA	1,000 ppm 1,900 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
	STEL	1,000 ppm	US. ACGIH Threshold Limit Values (2009)
Ethanol, 2-butoxy-	TWA	20 ppm	US. ACGIH Threshold Limit Values (2008)
	REL	5 ppm 24 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	PEL	50 ppm 240 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) (02 2006)
	TWA	25 ppm 120 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
Propane	REL	1,000 ppm 1,800 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	PEL	1,000 ppm 1,800 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) (02 2006)
	TWA	1,000 ppm 1,800 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
Butane	REL	800 ppm 1,900 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	STEL	1,000 ppm	US. ACGIH Threshold Limit Values (03 2018)
	TWA	800 ppm 1,900 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
Morpholine	REL	20 ppm 70 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	STEL	30 ppm 105 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	TWA	20 ppm	US. ACGIH Threshold Limit Values (2008)
	TWA	20 ppm 70 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
	STEL	30 ppm 105 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)

	PEL	20 ppm	70 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) (02 2006)
2-Propanol, 2-methyl-	STEL	150 ppm	450 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	TWA	100 ppm	300 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
	PEL	100 ppm	300 mg/m3	US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) (02 2006)
	TWA	100 ppm		US. ACGIH Threshold Limit Values (2008)

	REL	100 ppm	300 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
Silica	REL		6 mg/m3	US. NIOSH: Pocket Guide to Chemical Hazards (2005)
	TWA		20 millions of particles per cubic foot of air	US. OSHA Table Z-3 (29 CFR 1910.1000) (2000)
	TWA		6 mg/m3	US. OSHA Table Z-1-A (29 CFR 1910.1000) (1989)
	TWA		0.8 mg/m3	US. OSHA Table Z-3 (29 CFR 1910.1000) (2000)
2,6-Octadienal, 3,7-dimethyl- - Inhalable fraction and vapor.	TWA	5 ppm		US. ACGIH Threshold Limit Values (01 2010)

Biological Limit Values

Chemical Identity	Exposure Limit Values	Source
Ethanol, 2-butoxy- (Butoxyacetic acid (BAA), with hydrolysis: Sampling time: End of shift.)	200 mg/g (Creatinine in urine)	ACGIH BEL (03 2013)

Appropriate Engineering Controls No data available.

Individual protection measures, such as personal protective equipment

General information: Use personal protective equipment as required. Personal protection equipment should be chosen according to the CEN standards and in discussion with the supplier of the personal protective equipment.

Eye/face protection: Wear goggles/face shield.

Skin Protection
Hand Protection: No data available.

Other: No data available.

Respiratory Protection: In case of inadequate ventilation use suitable respirator. Seek advice from local supervisor.

Hygiene measures: Observe good industrial hygiene practices.

9. Physical and chemical properties

Appearance

Physical state: liquid
Form: Spray Aerosol
Color: No data available.
Odor: No data available.
Odor threshold: No data available.
pH: 8.7 - 9.7
Melting point/freezing point: No data available.
Initial boiling point and boiling range: No data available.

Flash Point:	Not applicable
Evaporation rate:	No data available.
Flammability (solid, gas):	Non-flammable Aerosol
Upper/lower limit on flammability or explosive limits	
Flammability limit - upper (%):	No data available.
Flammability limit - lower (%):	No data available.
Explosive limit - upper (%):	No data available.
Explosive limit - lower (%):	No data available.
Vapor pressure:	5,515 - 6,894 hPa (20 °C)
Vapor density:	No data available.
Density:	No data available.
Relative density:	No data available.
Solubility(ies)	
Solubility in water:	No data available.
Solubility (other):	No data available.
Partition coefficient (n-octanol/water):	No data available.
Auto-ignition temperature:	No data available.
Decomposition temperature:	No data available.
Viscosity:	No data available.

10. Stability and reactivity

Reactivity:	No data available.
Chemical Stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	No data available.
Conditions to avoid:	Avoid heat or contamination.
Incompatible Materials:	No data available.
Hazardous Decomposition Products:	No data available.

11. Toxicological information

Information on likely routes of exposure

Inhalation:	No data available.
Skin Contact:	No data available.
Eye contact:	No data available.
Ingestion:	No data available.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation:	No data available.
Skin Contact:	No data available.
Eye contact:	No data available.

Ingestion: No data available.

Information on toxicological effects

Acute toxicity (list all possible routes of exposure)

Oral
Product: ATEmix: 36,844.23 mg/kg

Dermal
Product: ATEmix: 32,120.9 mg/kg

Inhalation
Product: ATEmix: 690.87 mg/l
ATEmix : 172.72 mg/l

Repeated dose toxicity
Product: No data available.

Specified substance(s):

Ethanol	NOAEL (Rat(Male), Oral, 7 - 14 Weeks): 10 %(m) Oral Experimental result, Key study
Ethanol, 2-butoxy-	NOAEL (Rat(Female), Inhalation, 2 yr): < 31 ppm(m) Inhalation Experimental result, Key study NOAEL (Rat(Female), Oral, 90 d): < 82 mg/kg Oral Experimental result, Key study NOAEL (Rabbit(Female, Male), Dermal, 90 d): > 150 mg/kg Dermal Experimental result, Key study
Propane	NOAEL (Rat(Female, Male), Inhalation, >= 28 d): 4,000 ppm(m) Inhalation Experimental result, Key study LOAEL (Rat(Female, Male), Inhalation, >= 28 d): 12,000 ppm(m) Inhalation Experimental result, Key study
Butane	LOAEL (Rat(Female, Male), Inhalation, >= 28 d): 12,000 ppm(m) Inhalation Experimental result, Key study NOAEL (Rat(Female, Male), Inhalation, >= 28 d): 4,000 ppm(m) Inhalation Experimental result, Key study

Skin Corrosion/Irritation
Product: No data available.

Specified substance(s):

Ethanol	in vivo (Rabbit): Not irritant Experimental result, Key study
Ethanol, 2-butoxy-	in vivo (Rabbit): Irritating Experimental result, Key study

Serious Eye Damage/Eye Irritation
Product: No data available.

Specified substance(s):

Ethanol	Rabbit, 1 - 24 hrs: Not irritating
Ethanol, 2-butoxy-	Rabbit, 24 - 72 hrs: Irritating

Respiratory or Skin Sensitization
Product: No data available.

Specified substance(s):

Ethanol	Skin sensitization:, in vivo (Guinea pig): Non sensitising
Ethanol, 2-butoxy-	Skin sensitization:, in vivo (Guinea pig): Non sensitising

Carcinogenicity
Product: No data available.

IARC Monographs on the Evaluation of Carcinogenic Risks to Humans:
No carcinogenic components identified

US. National Toxicology Program (NTP) Report on Carcinogens:
No carcinogenic components identified

US. OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050):
No carcinogenic components identified

Germ Cell Mutagenicity

In vitro
Product: No data available.

In vivo
Product: No data available.

Reproductive toxicity
Product: No data available.

Specific Target Organ Toxicity - Single Exposure
Product: No data available.

Specific Target Organ Toxicity - Repeated Exposure
Product: No data available.

Aspiration Hazard
Product: No data available.

Other effects: No data available.

12. Ecological information

Ecotoxicity:

Acute hazards to the aquatic environment:

Fish
Product: No data available.

Specified substance(s):

Ethanol	LC 50 (Pimephales promelas, 96 h): 15.3 g/l Experimental result, Key study
Ethanol, 2-butoxy-	LC 50 (Oncorhynchus mykiss, 96 h): 1,474 mg/l Experimental result, Key study
Propane	LC 50 (Various, 96 h): 147.54 mg/l QSAR QSAR, Key study
Butane	LC 50 (Various, 96 h): 147.54 mg/l QSAR QSAR, Key study

Aquatic Invertebrates
Product: No data available.

Specified substance(s):

Ethanol	LC 50 (Ceriodaphnia dubia, 48 h): 5,012 mg/l Experimental result, Key study
Ethanol, 2-butoxy-	EC 50 (Daphnia magna, 48 h): 1,550 mg/l Experimental result, Key study
Butane	LC 50 (Daphnia sp., 48 h): 69.43 mg/l QSAR QSAR, Key study

Chronic hazards to the aquatic environment:

Fish

Product:	No data available.
Specified substance(s):	
Ethanol	NOAEL (Oryzias latipes): 7,900 mg/l Read-across from supporting substance (structural analogue or surrogate), Supporting study
Ethanol, 2-butoxy-	NOAEL (Danio rerio): > 100 mg/l Experimental result, Key study

Aquatic Invertebrates

Product:	No data available.
Specified substance(s):	
Ethanol	LC 50 (Daphnia magna): 454 mg/l Experimental result, Key study NOAEL (Daphnia magna): 9.6 mg/l Experimental result, Key study
Ethanol, 2-butoxy-	EC 10 (Daphnia magna): 134 mg/l Experimental result, Key study EC 50 (Daphnia magna): 297 mg/l Experimental result, Key study

Toxicity to Aquatic Plants

Product:	No data available.

Persistence and Degradability

Biodegradation

Product:	No data available.
Specified substance(s):	
Ethanol	95 % Detected in water. Experimental result, Key study
Ethanol, 2-butoxy-	90.4 % Detected in water. Experimental result, Key study
Propane	100 % (385.5 h) Detected in water. Experimental result, Key study 50 % (3.19 d) Detected in water. QSAR, Weight of Evidence study
Butane	100 % (385.5 h) Detected in water. Experimental result, Key study

BOD/COD Ratio

Product:	No data available.

Bioaccumulative potential

Bioconcentration Factor (BCF)

Product:	No data available.
Specified substance(s):	
Ethanol	Cyprinus carpio, Bioconcentration Factor (BCF): 4.5 Aquatic sediment Read-across from supporting substance (structural analogue or surrogate), Supporting study

Partition Coefficient n-octanol / water (log Kow)

Product:	No data available.

Mobility in soil: No data available.

Known or predicted distribution to environmental compartments

Ethanol	No data available.
Ethanol, 2-butoxy-	No data available.
Propane	No data available.
Butane	No data available.

Other adverse effects: No data available.

13. Disposal considerations

Disposal instructions: Wash before disposal. Dispose to controlled facilities.

Contaminated Packaging: No data available.

14. Transport information

DOT

UN Number:	UN 1950
UN Proper Shipping Name:	Aerosols, non-flammable
Transport Hazard Class(es)	
Class:	2.2
Label(s):	–
Packing Group:	II
Marine Pollutant:	No
Environmental Hazards:	No
Marine Pollutant	No
Special precautions for user:	Not regulated.

Issue Date:	2017/10/04	**Supercedes Date:**	2017/04/07

This Safety Data Sheet has been prepared in accordance with the Canadian Hazardous Products Regulations.

SECTION 1: Identification

1.1. Product identifier
3M™ Stainless Steel Cleaner & Polish

Product Identification Numbers
XN-1015-5591-2 XN-1015-7536-5

1.2. Recommended use and restrictions on use

Recommended use
Metal Polish, Cleans and polishes stainless steel, chrome, aluminum and laminated plastic surfaces.

Restrictions on use
Not Applicable, Not Applicable, Not Applicable

1.3. Supplier's details

Company:	3M Canada Company
Division:	Commercial Solutions Division
Address:	1840 Oxford Street East, Post Office Box 5757, London, Ontario N6A 4T1
Telephone:	(800) 364-3577
Website:	www.3M.ca

1.4. Emergency telephone number
Medical Emergency Telephone: (519) 451-2500, Ext. 2222; Transportation Emergency Telephone (CANUTEC): (613) 996-6666

SECTION 2: Hazard identification

2.1. Classification of the substance or mixture
Flammable Aerosol: Category 1.
Gas Under Pressure: Liquefied gas.
Specific Target Organ Toxicity (single exposure): Category 1.

2.2. Label elements
Signal word
Danger

Symbols
Flame | Gas cylinder | Health Hazard |

Pictograms

Hazard statements
Extremely flammable aerosol. Contains gas under pressure; may explode if heated.

Causes damage to organs: cardiovascular system |

Precautionary statements
General:
Keep out of reach of children. Read label before use. If medical advice is needed, have product container or label at hand.

Prevention:
Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Do not eat, drink or smoke when using this product. Wash thoroughly after handling.

Response:
IF exposed: Call a POISON CENTRE or doctor/physician.

Storage:
Protect from sunlight. Do not expose to temperatures exceeding 50C/122F. Store in a well-ventilated place. Store locked up.

Disposal:
Dispose of contents/container in accordance with applicable local/regional/national/international regulations.

2.3. Other hazards
None known.

11% of the mixture consists of ingredients of unknown acute dermal toxicity.
35% of the mixture consists of ingredients of unknown acute inhalation toxicity.

SECTION 3: Composition/information on ingredients

This material is a mixture.

Ingredient	C.A.S. No.	% by Wt
Water	7732-18-5	40 - 70
White Mineral Oil (Petroleum)	8042-47-5	10 - 30
Isobutane	75-28-5	7 - 13
Sorbitan Oleate	1338-43-8	0.5 - 1.5
Ethanolamine	141-43-5	0.1 - 1

White Mineral Oil (Petroleum) is a hazardous Trade Secret material according to WHMIS criteria. Refer to Section 15 for further information.
Isobutane is a hazardous Trade Secret material according to WHMIS criteria. Refer to Section 15 for further information.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation:
Remove person to fresh air. Get medical attention.

Skin Contact:
Wash with soap and water. If you feel unwell, get medical attention.

Eye Contact:
Flush with large amounts of water. Remove contact lenses if easy to do. Continue rinsing. If signs/symptoms persist, get medical attention.

If Swallowed:
Rinse mouth. If you feel unwell, get medical attention.

4.2. Most important symptoms and effects, both acute and delayed
See Section 11.1. Information on toxicological effects.

4.3. Indication of any immediate medical attention and special treatment required
Exposure may increase myocardial irritability. Do not administer sympathomimetic drugs unless absolutely necessary.

SECTION 5: Fire-fighting measures

5.1. Suitable extinguishing media
Use a fire fighting agent suitable for the surrounding fire.

5.2. Special hazards arising from the substance or mixture
Closed containers exposed to heat from fire may build pressure and explode.

Hazardous Decomposition or By-Products

Substance	Condition
Carbon monoxide	During Combustion
Carbon dioxide	During Combustion

5.3. Special protective actions for fire-fighters
Wear full protective equipment (Bunker Gear) and a self-contained breathing apparatus (SCBA).

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures
Evacuate area. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Use only non-sparking tools. Ventilate the area with fresh air. For large spill, or spills in confined spaces, provide mechanical ventilation to disperse or exhaust vapours, in accordance with good industrial hygiene practice. Warning! A motor could be an ignition source and could cause flammable gases or vapours in the spill area to burn or explode. Refer to other sections of this SDS for information regarding physical and health hazards, respiratory protection, ventilation, and personal protective equipment.

6.2. Environmental precautions
Avoid release to the environment.

6.3. Methods and material for containment and cleaning up
If possible, seal leaking container. Place leaking containers in a well-ventilated area, preferably an operating exhaust hood, or if necessary outdoors on an impermeable surface until appropriate packaging for the leaking container or its contents is

available. Working from around the edges of the spill inward, cover with bentonite, vermiculite, or commercially available inorganic absorbent material. Mix in sufficient absorbent until it appears dry. Remember, adding an absorbent material does not remove a physical, health, or environmental hazard. Collect as much of the spilled material as possible using non-sparking tools. Place in a closed container approved for transportation by appropriate authorities. Clean up residue with water. Seal the container. Dispose of collected material as soon as possible in accordance with applicable local/regional/national/international regulations.

SECTION 7: Handling and storage

7.1. Precautions for safe handling
Do not use in a confined area with minimal air exchange. Keep out of reach of children. Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Do not pierce or burn, even after use. Do not breathe dust/fume/gas/mist/vapours/spray. Do not get in eyes, on skin, or on clothing. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Avoid contact with oxidizing agents (eg. chlorine, chromic acid etc.)

7.2. Conditions for safe storage including any incompatibilities
Protect from sunlight. Do not expose to temperatures exceeding 50C/122F. Protect from sunlight. Store in a well-ventilated place. Store away from heat. Store away from acids. Store away from oxidizing agents.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Occupational exposure limits
If a component is disclosed in section 3 but does not appear in the table below, an occupational exposure limit is not available for the component.

Ingredient	C.A.S. No.	Agency	Limit type	Additional Comments
Ethanolamine	141-43-5	ACGIH	TWA:3 ppm;STEL:6 ppm	
Isobutane	75-28-5	ACGIH	STEL:1000 ppm	
Natural gas	75-28-5	ACGIH	Limit value not established:	
MINERAL OILS, HIGHLY-REFINED OILS	8042-47-5	ACGIH	TWA(inhalable fraction):5 mg/m3	

ACGIH : American Conference of Governmental Industrial Hygienists
AIHA : American Industrial Hygiene Association
CMRG : Chemical Manufacturer's Recommended Guidelines
TWA: Time-Weighted-Average
STEL: Short Term Exposure Limit
CEIL: Ceiling

8.2. Exposure controls

8.2.1. Engineering controls
Do not remain in area where available oxygen may be reduced. Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant Exposure Limits and/or control dust/fume/gas/mist/vapours/spray. If ventilation is not adequate, use respiratory protection equipment.

8.2.2. Personal protective equipment (PPE)

Eye/face protection

Select and use eye/face protection to prevent contact based on the results of an exposure assessment. The following eye/face protection(s) are recommended:
Safety Glasses with side shields

Skin/hand protection

Select and use gloves and/or protective clothing approved to relevant local standards to prevent skin contact based on the results of an exposure assessment. Selection should be based on use factors such as exposure levels, concentration of the substance or mixture, frequency and duration, physical challenges such as temperature extremes, and other use conditions. Consult with your glove and/or protective clothing manufacturer for selection of appropriate compatible gloves/protective clothing. No chemical protective gloves are required.
Gloves made from the following material(s) are recommended: Nitrile Rubber

Respiratory protection
None required.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	Liquid
Specific Physical Form:	Aerosol
Appearance/Odour	Thick white emulsion citrus odour
Odour threshold	*No Data Available*
pH	9 - 11
Melting point/Freezing point	*Not Applicable*
Boiling point/Initial boiling point/Boiling range	> 100 ºC
Flash Point	No flash point
Evaporation rate	*No Data Available*
Flammability (solid, gas)	Not Applicable
Flammable Limits(LEL)	*No Data Available*
Flammable Limits(UEL)	*No Data Available*
Vapour Density	*No Data Available*
Density	0.95 g/ml
Relative density	0.92 - 0.98 [*Ref Std:*WATER=1]
Water solubility	Complete
Solubility- non-water	*No Data Available*
Partition coefficient: n-octanol/ water	*No Data Available*
Autoignition temperature	*No Data Available*
Decomposition temperature	*No Data Available*
Viscosity	1,400 - 4,500 mPa-s [*Details:*For Liquid]
Molecular weight	*No Data Available*
Volatile Organic Compounds	10 - 12 % weight [*Test Method:*calculated per CARB title 2]
Percent volatile	75 - 80 % weight
VOC Less H2O & Exempt Solvents	265 - 295 g/l [*Test Method:*calculated per CARB title 2]

SECTION 10: Stability and reactivity

10.1. Reactivity
This material is considered to be non reactive under normal use conditions.

10.2. Chemical stability
Stable.

10.3. Possibility of hazardous reactions
Hazardous polymerization will not occur.

10.4. Conditions to avoid
Heat
Sparks and/or flames

10.5. Incompatible materials
Strong oxidizing agents
Strong acids

10.6. Hazardous decomposition products

Substance	Condition
None known.	

Refer to section 5.2 for hazardous decomposition products during combustion.

SECTION 11: Toxicological information

The information below may not be consistent with the material classification in Section 2 if specific ingredient classifications are mandated by a competent authority. In addition, toxicological data on ingredients may not be reflected in the material classification and/or the signs and symptoms of exposure, because an ingredient may be present below the threshold for labeling, an ingredient may not be available for exposure, or the data may not be relevant to the material as a whole.

11.1. Information on Toxicological effects

Signs and Symptoms of Exposure

Based on test data and/or information on the components, this material may produce the following health effects:

Inhalation:
Respiratory Tract Irritation: Signs/symptoms may include cough, sneezing, nasal discharge, headache, hoarseness, and nose and throat pain. May cause additional health effects (see below).

Skin Contact:
Contact with the skin during product use is not expected to result in significant irritation.

Eye Contact:
Contact with the eyes during product use is not expected to result in significant irritation.

Ingestion:
Gastrointestinal Irritation: Signs/symptoms may include abdominal pain, stomach upset, nausea, vomiting and diarrhea.

Additional Health Effects:

Single exposure may cause target organ effects:
Cardiac Sensitization: Signs/symptoms may include irregular heartbeat (arrhythmia), faintness, chest pain, and may be fatal.

Toxicological Data
If a component is disclosed in section 3 but does not appear in a table below, either no data are available for that endpoint or the data are not sufficient for classification.

Acute Toxicity

Name	Route	Species	Value
Overall product	Dermal		No data available; calculated ATE >5,000 mg/kg
Overall product	Inhalation-Dust/Mist(4 hr)		No data available; calculated ATE >12.5 mg/l
Overall product	Ingestion		No data available; calculated ATE >5,000 mg/kg
White Mineral Oil (Petroleum)	Dermal	Rabbit	LD50 > 2,000 mg/kg
White Mineral Oil (Petroleum)	Ingestion	Rat	LD50 > 5,000 mg/kg

Isobutane	Inhalation-Gas (4 hours)	Rat	LC50 276,000 ppm
Sorbitan Oleate	Dermal		LD50 estimated to be > 5,000 mg/kg
Sorbitan Oleate	Ingestion	Rat	LD50 > 39,800 mg/kg
Ethanolamine	Inhalation-Vapor	official classification	LC50 estimated to be 10 - 20 mg/l
Ethanolamine	Dermal	Rabbit	LD50 1,000 mg/kg
Ethanolamine	Ingestion	Rat	LD50 1,720 mg/kg

ATE = acute toxicity estimate

Skin Corrosion/Irritation

Name	Species	Value
White Mineral Oil (Petroleum)	Rabbit	No significant irritation
Isobutane	Professional judgement	No significant irritation
Ethanolamine	Rabbit	Corrosive

Serious Eye Damage/Irritation

Name	Species	Value
White Mineral Oil (Petroleum)	Rabbit	Mild irritant
Isobutane	Professional judgement	No significant irritation
Ethanolamine	Rabbit	Corrosive

Skin Sensitization

Name	Species	Value
White Mineral Oil (Petroleum)	Guinea pig	Not classified
Ethanolamine	Guinea pig	Not classified

Respiratory Sensitization

For the component/components, either no data are currently available or the data are not sufficient for classification.

Germ Cell Mutagenicity

Name	Route	Value
White Mineral Oil (Petroleum)	In Vitro	Not mutagenic
Isobutane	In Vitro	Not mutagenic
Ethanolamine	In Vitro	Not mutagenic
Ethanolamine	In vivo	Not mutagenic

Carcinogenicity

Name	Route	Species	Value
White Mineral Oil (Petroleum)	Dermal	Mouse	Not carcinogenic
White Mineral Oil (Petroleum)	Inhalation	Multiple animal species	Not carcinogenic

Reproductive Toxicity

Reproductive and/or Developmental Effects

Name	Route	Value	Species	Test result	Exposure Duration

White Mineral Oil (Petroleum)	Ingestion	Not classified for female reproduction	Rat	NOAEL 4,350 mg/kg/day	13 weeks
White Mineral Oil (Petroleum)	Ingestion	Not classified for male reproduction	Rat	NOAEL 4,350 mg/kg/day	13 weeks
White Mineral Oil (Petroleum)	Ingestion	Not classified for development	Rat	NOAEL 4,350 mg/kg/day	during gestation
Ethanolamine	Dermal	Not classified for development	Rat	NOAEL 225 mg/kg/day	during organogenesis
Ethanolamine	Ingestion	Not classified for development	Rat	NOAEL 616 mg/kg/day	during organogenesis

Target Organ(s)

Specific Target Organ Toxicity - single exposure

Name	Route	Target Organ(s)	Value	Species	Test result	Exposure Duration
Isobutane	Inhalation	cardiac sensitization	Causes damage to organs	Multiple animal species	NOAEL Not available	
Isobutane	Inhalation	central nervous system depression	May cause drowsiness or dizziness	Human and animal	NOAEL Not available	
Isobutane	Inhalation	respiratory irritation	Not classified	Mouse	NOAEL Not available	
Ethanolamine	Inhalation	respiratory irritation	May cause respiratory irritation	Human and animal	NOAEL Not available	

Specific Target Organ Toxicity - repeated exposure

Name	Route	Target Organ(s)	Value	Species	Test result	Exposure Duration
White Mineral Oil (Petroleum)	Ingestion	hematopoietic system	Not classified	Rat	NOAEL 1,381 mg/kg/day	90 days
White Mineral Oil (Petroleum)	Ingestion	liver | immune system	Not classified	Rat	NOAEL 1,336 mg/kg/day	90 days
Isobutane	Inhalation	kidney and/or bladder	Not classified	Rat	NOAEL 4,500 ppm	13 weeks
Ethanolamine	Inhalation	liver | kidney and/or bladder | respiratory system	Not classified	Multiple animal species	NOAEL 0.656 mg/l	5 weeks
Ethanolamine	Ingestion	hematopoietic system | liver | kidney and/or bladder | respiratory system	Not classified	Rat	NOAEL Not available	

Aspiration Hazard

Name	Value
White Mineral Oil (Petroleum)	Aspiration hazard

Please contact the address or phone number listed on the first page of the SDS for additional toxicological information on this material and/or its components.

SECTION 12: Ecological information

No data available.

SECTION 13: Disposal considerations

Dispose of contents/ container in accordance with the local/regional/national/international regulations.

SECTION 14: Transport Information

For Transport Information, please visit http://3M.com/Transportinfo or call 1-800-364-3577 or 651-737-6501.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Global inventory status

Contact 3M for more information. The components of this material are in compliance with the provisions of the Korea Chemical Control Act. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Australia National Industrial Chemical Notification and Assessment Scheme (NICNAS). Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Japan Chemical Substance Control Law. Certain restrictions may apply. Contact the selling division for additional information. The components of this material are in compliance with the provisions of Philippines RA 6969 requirements. Certain restrictions may apply. Contact the selling division for additional information. The components of this product are in compliance with the new substance notification requirements of CEPA. The components of this product are in compliance with the chemical notification requirements of TSCA. This product complies with Measures on Environmental Management of New Chemical Substances. All ingredients are listed on or exempt from on China IECSC inventory.

Trade Secret Information:

HMIRA Registry Number:	Filing date:	Claim status:	Date of decision:
TBD		Claim for exemption has been filed.	

SECTION 16: Other information

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

Health: 1 **Flammability:** 3 **Instability:** 0 **Special Hazards:** None
Aerosol Storage Code: 1

National Fire Protection Association (NFPA) hazard ratings are designed for use by emergency response personnel to address the hazards that are presented by short-term, acute exposure to a material under conditions of fire, spill, or similar emergencies. Hazard ratings are primarily based on the inherent physical and toxic properties of the material but also include the toxic properties of combustion or decomposition products that are known to be generated in significant quantities.

HMIS Hazard Classification

Health: 1 **Flammability:** 3 **Physical Hazard:** 0 **Personal Protection:** X - See PPE section.

Hazardous Material Identification System (HMIS® IV) hazard ratings are designed to inform employees of chemical hazards in the workplace. These ratings are based on the inherent properties of the material under expected conditions of normal use and are not intended for use in emergency situations. HMIS® IV ratings are to be used with a fully implemented HMIS® IV program. HMIS® is a registered mark of the American Coatings Association (ACA).

3M™ Stainless Steel Cleaner & Polish

SAFETY DATA SHEET

Confirms to OSHA Hazard Communication Standard (CFR 29 1910.1200) HazCom 2012

Product: Stainless Steel Cleaner and Polish- 02, 49, 102 **Revision Date:** 11-Mar-2015

SECTION 1 – IDENTIFICATION

Product Identifier

Product Name: **Stainless Steel Cleaner and Polish**

Product Code: **02, 49, 102**

Recommended Use of the Chemical and Restrictions for Use

Recommended Use: Cleaner

Restrictions for Use: Use only as directed.

Details of the Supplier

Manufacturer: Weiman Products
755 Tri-State Parkway
Gurnee, IL 60031
847-263-3500

Emergency Phone Number

24-Hour Number: 1-800-535-5053

International: 1-352-323-3500

SECTION 2 – HAZARDS IDENTIFICATION

Classification

Hazard Class	Category
Flammable aerosol	2
Gases under pressure- Liquefied gas	N/A

Label Elements

Hazard Symbols(s):

Signal Word(s): Warning

Hazard Statement(s): Flammable aerosol. Contains gas under pressure; may explode if heated.

Precautionary Statement(s): Keep away from heat/sparks/open flames/hot surfaces.-No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Protect from sunlight. Do not expose to temperatures exceeding 50ºC/122ºF. Store in well-ventilated place.

Other Hazards

1% of the mixture consists of ingredients of unknown acute toxicity.

SECTION 3 – COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS Number	Wt %
Petroleum gases, liquefied	68476-85-7	10-30
Petroleum distillates, hydrotreated light	64742-47-8	7-13
White mineral oil, petroleum	8042-47-5	7-13

The exact percentage (concentration) of composition has been withheld as a trade secret in accordance with paragraph (i) of §1910.1200.

SECTION 4 – FIRST AID MEASURES

First Aid Measures

Inhalation: If breathing is difficult, remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical advice/attention if you feel unwell.

Eye Contact: In case of contact, immediately flush eyes with plenty of water. Remove contact lenses, if worn. If irritation persists, get medical attention.

Ingestion: If swallowed, do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person. Get medical advice/attention if you feel unwell.

Skin: If irritation occurs, flush skin with plenty of water. Get medical attention if irritation persists.

Most Important Symptoms and Effects (Acute and Delayed)

Inhalation: May cause respiratory tract irritation.

Eye Contact: May cause eye irritation. Symptoms may include discomfort or pain, excess blinking and tear production, with possible redness and swelling.

Ingestion: May be harmful if swallowed. May cause stomach distress, nausea or vomiting.

Skin: May cause skin irritation. Symptoms may include redness, drying, defatting and cracking of the skin.

Indication of any Immediate Medical Attention and Special Treatment Needed

Note to Physician: Treat symptomatically.

SECTION 5 – FIRE FIGHTING MEASURES

Extinguishing Media

Suitable: Treat for surrounding material.

Unsuitable: None known.

Specific Hazards Arising from Chemical

Flammable aerosol. Products of combustion include, and are not limited to: oxides of carbon. Heat may build pressure, rupturing closed containers, spreading fire and increasing risk of burns and injuries.

Protective Equipment and Precautions for Firefighters

Cool closed containers exposed to fire with water spray. Keep upwind of fire. Wear full fire-fighting turn-out gear (full Bunker gear) and respiratory protection (SCBA).

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions, Protective Equipment, and Emergency Procedures

Personal Precautions: Use personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

Environmental Precautions: See Section 12 for ecological information.

Methods and Material for Containment and Cleaning Up

Eliminated sources of ignition. Contain and/or absorb spill with inert material (e.g. sand, vermiculite), then place in a suitable container. Do not flush to sewer or allow to enter waterways. Use appropriate Personal Protective Equipment (PPE). Scoop up material and place in a disposal container. Provide ventilation.

SECTION 7 – HANDLING AND STORAGE

Precautions for Safe Handling

Handling: Keep away from sources of ignition- No smoking. Avoid contact with skin and eyes. Avoid breathing dust/fume/gas/mist/vapors/spray. Do not swallow. When using do not eat, drink or smoke. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use.

General Hygiene Advice: Launder contaminated clothing before use. Wash hands before eating, drinking, or smoking.

Conditions for Safe Storage, Including any Incompatibilities

Storage Conditions: Proper grounding procedures to avoid static electricity should be followed. Keep out of the reach of children. Do not expose to temperatures exceeding 50ºC/122ºF. Store away from direct sunlight or other heat sources. Store in a well-ventilated place.

Incompatible Materials: Strong oxidizing agents.

SECTION 8 – EXPOSURE CONTROLS/PERSONAL PROTECTION

Control Parameters

Exposure Guidelines:

SAFETY DATA SHEET

Confirms to OSHA Hazard Communication Standard (CFR 29 1910.1200) HazCom 2012

Product: Stainless Steel Cleaner and Polish- 02, 49, 102 **Revision Date:** 11-Mar-2015

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Petroleum gases, liquefied (68476-85-7)	1000 ppm	180 mg/m^3	Not available
Petroleum distillates, hydrotreated light (64742-47-8)	Not available	Not available	Not available
White mineral oil, petroleum (8042-47-5)	Not available	Not available	Not available

Appropriate Engineering Controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, etc.) below recommended exposure limits.

Individual Protection Measures

Respiratory Protection: In case of insufficient ventilation, wear suitable respiratory equipment. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

Skin and Body Protection: Wear suitable protective clothing.

Eye/Face Protection: Safety glasses or goggles are recommended when using product.

General Work/Hygienic Practices: Handle in accordance with good industrial hygiene and safety practice.

SECTION 9 – PHYSICAL AND CHEMICAL PROPERTIES

Appearance: White emulsion

Odor: Floral

Odor threshold: Not determined

pH: Not determined

Melting point/freezing point: Not determined

Initial boiling point and boiling range: Not determined

Flash point: >93.3ºC (>200ºF) TCC (concentrated product)

Evaporation rate: Not determined

Flammability (solid, gas): Flammable aerosol

Upper/lower flammability or explosive limits: Not determined

Vapor pressure: Not determined

Vapor density: Not determined

Relative density: 0.94

Solubility(ies): Not determined

Partition coefficient (n-octanol/water): Not determined

Auto-ignition temperature: Not determined

Decomposition temperature: Not determined

Viscosity: 2900-5600 cP at 25ºC (77ºF)

SECTION 10 – STABILITY AND REACTIVITY

Reactivity: Not reactive under normal conditions.

Chemical stability: Stable under recommended storage conditions. Flammable aerosol. Contents under pressure. Container may explode if heated. Do not puncture. Do not burn.

Possibility of hazardous reactions: None under normal use.

Conditions to avoid: Heat. Incompatible materials. Sources of ignition.

Incompatible materials: Strong oxidizing agents.

Hazardous decomposition products: May include and are not limited to: oxides of carbon.

SECTION 11 - TOXICOLOGICAL INFORMATION

SAFETY DATA SHEET

Confirms to OSHA Hazard Communication Standard (CFR 29 1910.1200) HazCom 2012

Product: Stainless Steel Cleaner and Polish- 02, 49, 102 **Revision Date:** 11-Mar-2015

Information on Toxicological Effects

Likely Routes of Exposure: Inhalation, skin contact, eye contact, ingestion

Information Related to Physical, Chemical, and Toxicological Effects

See section 4 of this SDS.

Delayed and Immediate Effects as well as Chronic Effects from Short and Long-term Exposure

Carcinogenicity: **NTP:** No **IARC:** No **OSHA:** No

Numerical Measures of Toxicity

Product	
ATE (oral)	>2000 mg/kg, rat
ATE (dermal)	>2000 mg/kg, rabbit
ATE (inhalation)	>5 mg/l/4h, rat

Component Information:

Chemical Name	Oral LD50	Dermal LD50	Inhalation LC50
Petroleum gases, liquefied (68476-85-7)	Not available	Not available	658 mg/l/4h (rat)
Petroleum distillates, hydrotreated light (64742-47-8)	>5000 mg/kg (rat)	>2000 mg/kg (rabbit)	>5.2 mg/l/4h (rat)
White mineral oil, petroleum (8042-47-5)	>5000 mg/kg (rat)	>2000 mg/kg (rabbit)	>5 mg/l/4h (rat)

SECTION 12 - ECOLOGICAL INFORMATION

Ecotoxicity: Not established

Persistence and degradability: Not established

Bioaccumulative potential: Not established

Mobility in soil: Not established

Other adverse effects: No additional information available.

SECTION 13 – DISPOSAL CONSIDERATIONS

See section 8 of this SDS for exposure controls and personal protection.

Dispose of the product and container in accordance with all applicable local, state, and federal regulations.

SECTION 14 – TRANSPORT INFORMATION

Note: Classification changes based on quantity, packaging, and method of shipment. See current shipping paper for most up to date shipping information.

UN1950, Aerosols, 2.1

DOT (Ground): Limited quantity

IATA (Air): Regulated

IMDG (Vessel): Limited quantity

SECTION 15 – REGULATORY INFORMATION

All ingredients in this product are listed or are excluded from listing on the US Toxic Substances Act (TSCA) Chemical Substance Inventory.

This product is labeled in accordance with regulations administered by the Consumer Product Safety Commission (CPSC). The use pattern and exposure in the workplace are generally not consistent with those experienced by consumers. The requirements of the Occupational Safety and Health Administration (OSHA) applicable to this Safety Data Sheet differ from the requirements of the CPSC and as a result, this SDS may contain additional health hazard information not pertinent to consumer use and not found on the product label.

SECTION 16 – OTHER INFORMATION

Issue Date: 11-Mar-2015

Revision Date: 11-Mar-2015

SAFETY DATA SHEET

Confirms to OSHA Hazard Communication Standard (CFR 29 1910.1200) HazCom 2012

Product: Stainless Steel Cleaner and Polish- 02, 49, 102 **Revision Date:** 11-Mar-2015

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information, and belief at the date of its publication. The information given is designed only as guidance for safe handling, use, processing, storage, transportation, disposal, and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designed and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

For full text of R- phrases: see Section 16.

Fluorescent yellow; Translucent; Liquid; Slight amine odor

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Irritation Category 3

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

2-Amino-2-methyl-1-propanol

Pictogram

None

Signal Word

WARNING

Hazard Statements

H316 Causes mild skin irritation.

Precautionary Statements

P332+P313 If skin irritation occurs: Get medical advice/attention.
Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

©2015 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

Skin Contact — In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

See Section 11 Toxicological Information for more detailed health information.

Causes mild skin irritation.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions — Wear protective gloves, protective clothing and eye/face protection.

Observe general safety guidelines for protection; avoid eye and skin contact.

6.2 Environmental Precautions — Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures — As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections — Refer sections 8 and 13.

©2015 Beckman Coulter, Inc.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH None established

DFG MAK

2-Amino-2-methyl-1-propanol
CAS # 124-68-5

Ireland None established

IOELVs None established

NIOSH None established

Japan None established

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.01 @20°C

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Color	Fluorescent yellow	**Solubility**	
Transparency	Translucent	**Water**	Miscible
Odor	Slight amine odor	**Organic**	Not determined
pH	9.6	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid Avoid exposure to heat and direct sunlight.

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

2-Amino-2-methyl-1-propanol
CAS # 124-68-5 — Oral LD50 Rat 2900 mg/kg; Dermal LD50 Rabbit >2000 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Skin Corrosion/Irritation	Causes mild skin irritation.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	No data available.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	No data available.
Specific target organ toxicity – repeated exposure	No data available.
Aspiration hazard	No data available.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species	
2-Amino-2-methyl-1-propanol CAS # 124-68-5	96 h LC50 Lepomis macrochirus: 190 mg/L [static]
Microtox	No information available.
Water Flea	
2-Amino-2-methyl-1-propanol CAS # 124-68-5	48 h EC50 Daphnia magna: 193 mg/L
Fresh Water Algae	
2-Amino-2-methyl-1-propanol CAS # 124-68-5	72 h EC50 Desmodesmus subspicatus: 520 mg/L

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

No ingredients listed.

California Proposition 65

No ingredients listed.

Massachusetts MSL

2-Amino-2-methyl-1-propanol is listed.

New Jersey Dept. of Health RTK List

2-Amino-2-methyl-1-propanol is listed.

Pennsylvania RTK

2-Amino-2-methyl-1-propanol is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

©2015 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

None

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes Updated to GHS.

Hazard Class, hazard statements and risk phrase description from section 3

R52/53 - Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Xi - Irritant
R36/38 Irritating to eyes and skin.
Acute Tox. Dermal 5 - Acute Toxicity Dermal, Category 5
Acute Tox. Oral 5 - Acute Toxicity Oral, Category 5
Eye Irrit. 2 - Eye Irritation Category 2
Aquatic Longterm 3 - Aquatic Hazard Long term, Category 3
Skin Irrit. 2 - Skin Irritation Category 2
H303 - May be harmful if swallowed
H313 - May be harmful In contact with skin
H315 - Causes skin irritation.
H319 - Causes serious eye irritation.
H412 - Harmful to aquatic life with long lasting effects.

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May be harmful if swallowed.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human and animal origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at -20 to -15°C , as directed on the product label. Keep container closed.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Methanol CAS # 67-56-1	Inhalation LC50 Rat 83.2 mg/L 4 h; Inhalation LC50 Rat 64000 ppm 4 h; Oral LD50 Rat 5628 mg/kg; Dermal LD50 Rabbit 15800 mg/kg
Ethylene Glycol CAS # 107-21-1	Oral LD50 Rat 4000 mg/kg; Dermal LD50 Rabbit 9530 µL/kg

Primary Routes of Exposure
Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation
No data available.

Serious eye damage/eye irritation
No data available.

Respiratory/skin sensitization
No data available.

Carcinogenicity
This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity
No data available.

Reproductive Toxicity
No data available.

Specific target organ toxicity – single exposure
No data available.

Specific target organ toxicity – repeated exposure
No data available.

Aspiration hazard
No data available.

Other Information
May be harmful if swallowed.
This product contains materials of human and animal origin and should be considered as potentially capable of transmitting infectious diseases.

		Pimephales promelas: 40000 - 60000 mg/L [static]; 96 h LC50 Poecilia reticulata: 16000 mg/L [static]
	Microtox	No information available.
	Water Flea	
	Ethylene Glycol CAS # 107-21-1	48 h EC50 Daphnia magna: 46300 mg/L
	Fresh Water Algae	
	Ethylene Glycol CAS # 107-21-1	96 h EC50 Pseudokirchneriella subcapitata: 6500 - 13000 mg/L
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	No further relevant information available.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information. Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

SAFETY DATA SHEET

Doc. ID: 657365-75 Rev. AJ
Revised (year/month/day) 2015/05/22

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Comprehensive Chemistry Control Serum (Human Origin) **Level 2**

Part Number Component of P/N 657365

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Hazardous Ingredients

Ethylene Glycol
γ-Glutamyltransferase

Pictogram

Signal Word

WARNING

Hazard Statements

H302 Harmful if swallowed.

EUH208 May produce an allergic reaction.

Precautionary Statements

P264 Wash hands thoroughly after handling.

P270 Do no eat, drink or smoke when using this product.

P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P330 Rinse mouth.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

1.9% of product contains ingredients of unknown oral toxicity.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains materials of human and animal origins and should be considered as potentially capable of transmitting infectious diseases.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

15 - May produce an allergic reaction.
2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May be harmful if swallowed.

This product contains a sensitizing substance below concentration limit, may produce an allergic reaction in some people. Refer Section 3.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human and animal origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at -20 to -15°C , as directed on the product label. Keep container closed.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA

ACGIH

Methanol CAS # 67-56-1	250 ppm STEL; 200 ppm TWA; Skin - potential significant contribution to overall exposure by the cutaneous route
Ethylene Glycol CAS # 107-21-1	100 mg/m3 Ceiling (aerosol only)

DFG MAK

Methanol CAS # 67-56-1	800 ppm Peak; 1080 mg/m3 Peak; skin notation; 200 ppm TWA MAK; 270 mg/m3 TWA MAK
Ethylene Glycol CAS # 107-21-1	20 ppm Peak; 52 mg/m3 Peak; skin notation; 10 ppm TWA MAK; 26 mg/m3 TWA MAK

Ireland

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA; Potential for cutaneous absorption
Ethylene Glycol CAS # 107-21-1	10 mg/m3 TWA (particulate); 20 ppm TWA (vapour); 52 mg/m3 TWA (vapour); 40 ppm STEL (vapour); 104 mg/m3 STEL (vapour); Potential for cutaneous absorption

IOELVs

Methanol CAS # 67-56-1	Possibility of significant uptake through the skin; 200 ppm TWA; 260 mg/m3 TWA
Ethylene Glycol CAS # 107-21-1	Possibility of significant uptake through the skin; 20 ppm TWA; 52 mg/m3 TWA; 40 ppm STEL; 104 mg/m3 STEL

NIOSH

Methanol CAS # 67-56-1	6000 ppm IDLH; 250 ppm STEL; 325 mg/m3 STEL; 200 ppm TWA; 260 mg/m3 TWA

Japan

Methanol CAS # 67-56-1	200 ppm OEL; 260 mg/m3 OEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.068 @20°C
Color	Amber	**Solubility**	
Transparency	Translucent	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	8.4 - 8.6	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Methanol 160 ppm geometric mean air odor threshold = (detectable); 690 ppm geometric mean air odor threshold = (recognizable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Methanol CAS # 67-56-1	Inhalation LC50 Rat 83.2 mg/L 4 h; Inhalation LC50 Rat 64000 ppm 4 h; Oral LD50 Rat 5628 mg/kg; Dermal LD50 Rabbit 15800 mg/kg
Ethylene Glycol CAS # 107-21-1	Oral LD50 Rat 4000 mg/kg; Dermal LD50 Rabbit 9530 µL/kg

Primary Routes of Exposure

Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation

No data available.

Serious eye damage/eye irritation

No data available.

Respiratory/skin sensitization

This product contains a sensitizing substance below concentration limit, may produce an allergic reaction in some people. Refer Section 3.

Carcinogenicity

This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

No data available.

Reproductive Toxicity

No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard

No data available.

Other Information

May be harmful if swallowed.

This product contains materials of human and animal origin and should be considered as potentially capable of transmitting infectious diseases.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Methanol CAS # 67-56-1	96 h LC50 Pimephales promelas: 28200 mg/L [flow-through]; 96 h LC50 Pimephales promelas: >100 mg/L [static]; 96 h LC50 Oncorhynchus mykiss: 19500 - 20700 mg/L [flow-through]; 96 h LC50 Oncorhynchus mykiss: 18 - 20 mL/L [static]; 96 h LC50 Lepomis macrochirus: 13500 - 17600 mg/L [flow-through]
Ethylene Glycol CAS # 107-21-1	96 h LC50 Oncorhynchus mykiss: 41000 mg/L; 96 h LC50 Oncorhynchus mykiss: 14 - 18 mL/L [static]; 96 h LC50 Lepomis macrochirus: 27540 mg/L [static]; 96 h LC50 Oncorhynchus mykiss: 40761 mg/L [static]; 96 h LC50 Pimephales promelas: 40000 - 60000 mg/L [static]; 96 h LC50 Poecilia reticulata: 16000 mg/L [static]

Microtox No information available.

Water Flea

Ethylene Glycol CAS # 107-21-1	48 h EC50 Daphnia magna: 46300 mg/L

Fresh Water Algae

Ethylene Glycol CAS # 107-21-1	96 h EC50 Pseudokirchneriella subcapitata: 6500 - 13000 mg/L

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

©2015 Beckman Coulter, Inc.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Phenytoin (PHY) is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Methanol is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Glycol is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

CERCLA RG's, 40 CFR 302.4

Methanol is listed.

Acetaldehyde is listed.

Ethylene Oxide is listed.

Ethylene Glycol is listed.

1,4-Dioxane is listed.

California Proposition 65

Phenobarbital has been identified by the State of California to cause cancer. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm.
WARNING: This product contains a chemical known to the State of California to cause cancer.

SAFETY DATA SHEET

Doc. ID: 657365-75 Rev. AJ
Revised (year/month/day) 2015/05/22

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Comprehensive Chemistry Control Serum (Human Origin) **Level 3**

Part Number Component of P/N 657365

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Signal Word

WARNING

Hazard Statements

H302 Harmful if swallowed.

EUH208 May produce an allergic reaction.

Precautionary Statements

P264 Wash hands thoroughly after handling.

P270 Do no eat, drink or smoke when using this product.

P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P330 Rinse mouth.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.2.5% of product contains ingredients of unknown oral toxicity.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains materials of human and animal origins and should be considered as potentially capable of transmitting infectious diseases.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

15 - May produce an allergic reaction.
2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May be harmful if swallowed.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human and animal origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at -20 to -15°C , as directed on the product label. Keep container closed.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

US OSHA

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA

ACGIH

Methanol CAS # 67-56-1	250 ppm STEL; 200 ppm TWA; Skin - potential significant contribution to overall exposure by the cutaneous route
Ethylene Glycol CAS # 107-21-1	100 mg/m3 Ceiling (aerosol only)

DFG MAK

Methanol CAS # 67-56-1	800 ppm Peak; 1080 mg/m3 Peak; skin notation; 200 ppm TWA MAK; 270 mg/m3 TWA MAK
Ethylene Glycol CAS # 107-21-1	20 ppm Peak; 52 mg/m3 Peak; skin notation; 10 ppm TWA MAK; 26 mg/m3 TWA MAK

Ireland

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA; Potential for cutaneous absorption
Ethylene Glycol CAS # 107-21-1	10 mg/m3 TWA (particulate); 20 ppm TWA (vapour); 52 mg/m3 TWA (vapour); 40 ppm STEL (vapour); 104 mg/m3 STEL (vapour); Potential for cutaneous absorption

IOELVs

Methanol CAS # 67-56-1	Possibility of significant uptake through the skin; 200 ppm TWA; 260 mg/m3 TWA
Ethylene Glycol CAS # 107-21-1	Possibility of significant uptake through the skin; 20 ppm TWA; 52 mg/m3 TWA; 40 ppm STEL; 104 mg/m3 STEL

NIOSH

Methanol CAS # 67-56-1	6000 ppm IDLH; 250 ppm STEL; 325 mg/m3 STEL; 200 ppm TWA; 260 mg/m3 TWA

Japan

Methanol CAS # 67-56-1	200 ppm OEL; 260 mg/m3 OEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.068 @20°C
Color	Amber	**Solubility**	
Transparency	Translucent	**Water**	Miscible
Odor	Odorless	**Organic**	Not applicable
pH	8.4 - 8.6	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Methanol 160 ppm geometric mean air odor threshold = (detectable); 690 ppm geometric mean air odor threshold = (recognizable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Methanol CAS # 67-56-1	Inhalation LC50 Rat 83.2 mg/L 4 h; Inhalation LC50 Rat 64000 ppm 4 h; Oral LD50 Rat 5628 mg/kg; Dermal LD50 Rabbit 15800 mg/kg
Ethylene Glycol CAS # 107-21-1	Oral LD50 Rat 4000 mg/kg; Dermal LD50 Rabbit 9530 µL/kg

Primary Routes of Exposure

Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation

No data available.

Serious eye damage/eye irritation

No data available.

Respiratory/skin sensitization

No data available.

Carcinogenicity

This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

No data available.

Reproductive Toxicity

No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard

No data available.

Other Information

May be harmful if swallowed.

This product contains materials of human and animal origin and should be considered as potentially capable of transmitting infectious diseases.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Methanol CAS # 67-56-1	96 h LC50 Pimephales promelas: 28200 mg/L [flow-through]; 96 h LC50 Pimephales promelas: >100 mg/L [static]; 96 h LC50 Oncorhynchus mykiss: 19500 - 20700 mg/L [flow-through]; 96 h LC50 Oncorhynchus mykiss: 18 - 20 mL/L [static]; 96 h LC50 Lepomis macrochirus: 13500 - 17600 mg/L [flow-through]
Ethylene Glycol CAS # 107-21-1	96 h LC50 Oncorhynchus mykiss: 41000 mg/L; 96 h LC50 Oncorhynchus mykiss: 14 - 18 mL/L [static]; 96 h LC50 Lepomis macrochirus: 27540 mg/L [static]; 96 h LC50 Oncorhynchus mykiss: 40761 mg/L [static]; 96 h LC50 Pimephales promelas: 40000 - 60000 mg/L [static]; 96 h LC50 Poecilia reticulata: 16000 mg/L [static]

Microtox — No information available.

Water Flea

Ethylene Glycol CAS # 107-21-1	48 h EC50 Daphnia magna: 46300 mg/L

Fresh Water Algae

Ethylene Glycol CAS # 107-21-1	96 h EC50 Pseudokirchneriella subcapitata: 6500 - 13000 mg/L

12.2 Persistence and degradability — Not determined for the product.

12.3 Bioaccumulation — Not determined for the product.

12.4 Mobility in soil — Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects — No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

©2015 Beckman Coulter, Inc.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Phenytoin (PHY) is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Methanol is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

SAFETY DATA SHEET

Doc. ID: 442600-75 Rev. AJ
Revised (year/month/day) 2015/05/08

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name SYNCHRON® Multi Calibrator

Part Number 442600

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Amber; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Acute Toxicity Oral, Category 4

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xn;R22

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Acute Toxicity Oral, Category 4

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Ethylene Glycol

Pictogram

Signal Word

WARNING

Hazard Statements

H302 Harmful if swallowed.

Precautionary Statements

P264 Wash hands thoroughly after handling.

P270 Do no eat, drink or smoke when using this product.

P301+P312 IF SWALLOWED: Call a POISON CENTER or doctor/physician if you feel unwell.

P330 Rinse mouth.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Harmful if swallowed.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions — This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at -20 to -15°C , as directed on the product label. Keep container closed.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Ethylene Glycol CAS # 107-21-1	100 mg/m3 Ceiling (aerosol only)

DFG MAK

Ethylene Glycol CAS # 107-21-1	20 ppm Peak; 52 mg/m3 Peak; skin notation; 10 ppm TWA MAK; 26 mg/m3 TWA MAK

Ireland

Ethylene Glycol CAS # 107-21-1	10 mg/m3 TWA (particulate); 20 ppm TWA (vapour); 52 mg/m3 TWA (vapour); 40 ppm STEL (vapour); 104 mg/m3 STEL (vapour); Potential for cutaneous absorption

IOELVs

Ethylene Glycol CAS # 107-21-1	Possibility of significant uptake through the skin; 20 ppm TWA; 52 mg/m3 TWA; 40 ppm STEL; 104 mg/m3 STEL

NIOSH

Section 8 Exposure Controls and Personal Protection (Continued)

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈1.065 @20°C
Color	Amber	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	8.4-8.6	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.2 Chemical Stability — The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid — To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials — No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Ethylene Glycol CAS # 107-21-1	Oral LD50 Rat 4000 mg/kg; Dermal LD50 Rabbit 9530 µL/kg

Primary Routes of Exposure — Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation — No data available.

Serious eye damage/eye irritation — No data available.

Respiratory/skin sensitization — No data available.

Carcinogenicity — This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity — No data available.

Reproductive Toxicity — No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard — No data available.

Other Information — Harmful if swallowed.

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Ethylene Glycol CAS # 107-21-1	96 h LC50 Oncorhynchus mykiss: 41000 mg/L; 96 h LC50 Oncorhynchus mykiss: 14 - 18 mL/L [static]; 96 h LC50 Lepomis macrochirus: 27540 mg/L [static]; 96 h LC50 Oncorhynchus mykiss: 40761 mg/L [static]; 96 h LC50 Pimephales promelas: 40000 - 60000 mg/L [static]; 96 h LC50 Poecilia reticulata: 16000 mg/L [static]
Microtox	No information available.

Water Flea

Ethylene Glycol CAS # 107-21-1	48 h EC50 Daphnia magna: 46300 mg/L

Fresh Water Algae

Ethylene Glycol CAS # 107-21-1	96 h EC50 Pseudokirchneriella subcapitata: 6500 - 13000 mg/L

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

13.2 Additional information Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

©2015 Beckman Coulter, Inc.

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Ethoxylated lauryl alcohol

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H316 Causes mild skin irritation.

H317 May cause an allergic skin reaction.

H319 Causes serious eye irritation.

Precautionary Statements

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing and eye/face protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P337+P313 If eye irritation persists: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

P501 Dispose of contents/container in accordance with local/national regulations

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.
Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection

Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.02
Color	Light yellow to dark yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.5	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes eye irritation
Respiratory/skin sensitization	May cause sensitization by skin contact.
Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country

©2015 Beckman Coulter, Inc.

concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4

Acetaldehyde is listed.

Ethylene Oxide is listed.

1,4-Dioxane is listed.

Sodium Phosphate, Dibasic is listed.

Zinc Chloride is listed.

Sodium Azide is listed.

Revision Changes Updated to GHS.

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment
T - Toxic
T+ - Very toxic
R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
R34 Causes burns.
R43 May cause sensitization by skin contact.
R28 Very toxic if swallowed.
R32 Contact with acids liberates very toxic gas.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3
Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
Skin Corr. 1B - Skin Corrosion Category 1B
Skin Sens. 1 - Skin Sensitization Category 1
H300 - Fatal if swallowed.
H301 - Toxic if swallowed.
H311 - Toxic in contact with skin.
H314 - Causes severe skin burns and eye damage.
H317 - May cause an allergic skin reaction.
H331 - Toxic if inhaled.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

SAFETY DATA SHEET

Doc. ID: 33560-75 Rev. AG
Revised (year/month/day) 2015/04/21

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Sample Treatment Solution (Compartment R1b)

Part Number Component of P/N 33560

Series Name ACCESS®

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description In vitro diagnostic reagent.

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Irritation Category 2
Eye Damage Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Irritation Category 2
Eye Damage Category 1

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Acetic Acid

Pictogram

Signal Word

DANGER

Hazard Statements

H315 Causes skin irritation.

H318 Causes serious eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

P332+P313 If skin irritation occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients

Section 3 Composition and Information on Ingredients (Continued)

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes serious eye damage.
Causes skin irritation.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.
Avoid inhaling, ingesting, and contact with eyes and skin.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Acetic Acid CAS # 64-19-7	10 ppm TWA; 25 mg/m3 TWA

ACGIH

Acetic Acid CAS # 64-19-7	15 ppm STEL; 10 ppm TWA
Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

DFG MAK

Acetic Acid CAS # 64-19-7	20 ppm Peak; 50 mg/m3 Peak; 10 ppm TWA MAK; 25 mg/m3 TWA MAK
Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Ireland

Acetic Acid CAS # 64-19-7	10 ppm TWA; 25 mg/m3 TWA; 15 ppm STEL; 37 mg/m3 STEL
Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH

Acetic Acid CAS # 64-19-7	50 ppm IDLH; 15 ppm STEL; 37 mg/m3 STEL; 10 ppm TWA; 25 mg/m3 TWA

Japan

Acetic Acid CAS # 64-19-7	10 ppm OEL; 25 mg/m3 OEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.0258 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	4.5	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable

©2015 Beckman Coulter, Inc.
Global SDS – English

Section 9 Physical and Chemical Properties (Continued)

Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Acetic Acid 0.074 ppm geometric mean air odor threshold = (detectable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Acetic Acid CAS # 64-19-7	Inhalation LC50 Rat 11.4 mg/L 4 h; Oral LD50 Rat 3310 mg/kg; Dermal LD50 Rabbit 1060 mg/kg
Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg

Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Skin Corrosion/Irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes serious eye damage.
Respiratory/skin sensitization	No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	No data available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Acetic Acid CAS # 64-19-7	96 h LC50 Pimephales promelas: 79 mg/L [static]; 96 h LC50 Lepomis macrochirus: 75 mg/L [static]
Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.

Water Flea

Acetic Acid CAS # 64-19-7	24 h EC50 Daphnia magna: 47 mg/L; 48 h EC50 Daphnia magna: 65 mg/L [Static]
Fresh Water Algae	No information available.

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

©2015 Beckman Coulter, Inc.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description In vitro diagnostic reagent.

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R43

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.01 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	8.1	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not determined
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	Causes skin irritation.
Serious eye damage/eye irritation	Causes eye irritation

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Respiratory/skin sensitization May cause sensitization by skin contact.

Carcinogenicity This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity No data available.

Reproductive Toxicity No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard No data available.

Other Information This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

©2015 Beckman Coulter, Inc.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact

In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Contact may cause serious eye damage.

May cause skin irritation.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2020 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2020 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.00049
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Pungent	**Organic**	Not determined
pH	4.2	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Acetic Acid 0.0004 ppm odor threshold value (detectable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2020 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Acetic Acid CAS # 64-19-7	Dermal LD50 Rabbit 1060 mg/kg; Inhalation LC50 Rat 11.4 mg/L 4 h; Oral LD50 Rat 3310 mg/kg
Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	May cause skin irritation.
Serious eye damage/eye irritation	Contact may cause serious eye damage.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard	Not based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Acetic Acid CAS # 64-19-7	96 h LC50 Pimephales promelas: 79 mg/L [static]; 96 h LC50 Lepomis macrochirus: 75 mg/L [static]
Microtox	No information available.
Water Flea	
Acetic Acid CAS # 64-19-7	48 h EC50 Daphnia magna: 65 mg/L [Static]
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

©2020 Beckman Coulter, Inc.

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

Section 15 Regulatory Information (Continued)

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 3** **Reactivity with Water: 0** **Physical Contact: 3**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1
Updated E-mail address in Sec. 1.3.
Updated Section 8, 11, 15, 16.
Updated Section 12.

Document version and issue/revision date

Revision Date (year/month/day) 2020/07/28
Last Revision Date (year/month/day) 2017/05/08
Document ID: OSR6112-75
Version: 07

Description of hazard Class and hazard statements from Section 3

Acute Tox. Inhal. 4 - Acute Toxicity Inhalation, Category 4
Acute Tox. Oral 4 - Acute Toxicity Oral, Category 4
Eye Dam. 1 - Eye Damage Category 1
Flam. Liq. 3 - Flammable Liquids, Category 3
Flam. Sol. 2 - Flammable Solids, Category 2
Skin Corr. 1A - Skin Corrosion Category 1A
Skin Irrit. 2 - Skin Irritation Category 2
STOT SE 3 - Target Organ Toxicity Single Exposure Category 3
H226 - Flammable liquid and vapour.
H228 - Flammable solid.
H302 - Harmful if swallowed.
H314 - Causes severe skin burns and eye damage.
H315 - Causes skin irritation.
H318 - Causes serious eye damage.
H332 - Harmful if inhaled.
H335 - May cause respiratory irritation.

Lithium dodecyl sulphate

Pictogram

Signal Word

DANGER

Hazard Statements

H315 Causes skin irritation.
H318 Causes serious eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.
P332+P313 If skin irritation occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.

Product label will display most precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**

3 - Health hazard
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Contact may cause serious eye damage.
May cause skin irritation.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture
Special Fire and Explosion Hazards

No special hazards determined.

Total Bilirubin
Total Bilirubin Color R1

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

Canada

This product is exempt from WHMIS label and SDS requirements.

©2020 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 3** **Reactivity with Water: 0** **Physical Contact: 3**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1
Updated E-mail address in Sec. 1.3.
Updated Section 8, 11, 15, 16.
Updated Section 12.

Document version and issue/revision date

Revision Date (year/month/day) 2020/07/28
Last Revision Date (year/month/day) 2017/05/08
Document ID: OSR6112-75
Version: 07

Description of hazard Class and hazard statements from Section 3

Acute Tox. Inhal. 4 - Acute Toxicity Inhalation, Category 4
Acute Tox. Oral 4 - Acute Toxicity Oral, Category 4
Eye Dam. 1 - Eye Damage Category 1
Flam. Liq. 3 - Flammable Liquids, Category 3
Flam. Sol. 2 - Flammable Solids, Category 2
Skin Corr. 1A - Skin Corrosion Category 1A
Skin Irrit. 2 - Skin Irritation Category 2
STOT SE 3 - Target Organ Toxicity Single Exposure Category 3
H226 - Flammable liquid and vapour.
H228 - Flammable solid.
H302 - Harmful if swallowed.
H314 - Causes severe skin burns and eye damage.
H315 - Causes skin irritation.
H318 - Causes serious eye damage.
H332 - Harmful if inhaled.
H335 - May cause respiratory irritation.

DANGER

Hazard Statements

H314 Causes severe skin burns and eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.
P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303+P361+P353 IF ON SKIN (or hair): Rinse skin with water.
P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.
P363 Wash contaminated clothing before reuse.
P405 Store locked up.
P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients (Continued)

Sodium Hydroxide CAS # 1310-73-2 EINECS # 215-185-5 Index # 011-002-00-6	1 - 5	Eye Dam. 1, H318 Skin Corr. 1A, H314	Eye Dam. 1, H318 Skin Corr. 1A, H314	

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact In case of skin contact, rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Obtain medical advice/attention.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for

Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

BECKMAN COULTER
Total Protein
Total Protein R1

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 25°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Sodium Hydroxide

Japan	None established

Sweden (AFS 2015:7 and amendments)

Sodium Hydroxide CAS # 1310-73-2	1 mg/m3 TLV; 2 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.03 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Fully miscible
Odor	Odorless	**Organic**	Not determined
pH	13 @20°C	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable

©2019 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Odor Threshold Not applicable

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Hydroxide
CAS # 1310-73-2 Dermal LD50 Rabbit 1350 mg/kg; Oral LD50 Rat 140 - 340 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Contact may cause severe skin burns.

Serious eye damage/eye irritation Contact may cause serious eye damage.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

©2019 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Hydroxide
CAS # 1310-73-2 — 96 h LC50 Oncorhynchus mykiss: 45.4 mg/L [static]

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture
Special Fire and Explosion Hazards

No special hazards determined.

©2019 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 25°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 TWA

©2019 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

ACGIH

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 Ceiling

DFG MAK None established

Ireland

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 STEL

IOELVs None established

NIOSH

Sodium Hydroxide CAS # 1310-73-2	10 mg/m3 IDLH

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Hydroxide CAS # 1310-73-2	1 mg/m3 TLV; 2 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.05 @20°C
Color	Blue	**Solubility**	
Transparency	Clear	**Water**	Fully miscible
Odor	Odorless	**Organic**	Not determined
pH	13 @20°C	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not

©2019 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Hydroxide CAS # 1310-73-2	Dermal LD50 Rabbit 1350 mg/kg; Oral LD50 Rat 140 - 340 mg/kg
Copper sulphate CAS # 7758-98-7	Dermal LD50 Rabbit 1000 mg/kg; Oral LD50 Rat 300 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Contact may cause severe skin burns.

©2019 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Serious eye damage/eye irritation	Contact may cause serious eye damage.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.
target organ toxicity – single exposure	
	Not based on available data.
target organ toxicity – repeated exposure	
	Not based on available data.
Aspiration hazard	Not based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Hydroxide CAS # 1310-73-2	96 h LC50 Oncorhynchus mykiss: 45.4 mg/L [static]
Copper sulphate CAS # 7758-98-7	96 h LC50 Oncorhynchus mykiss: 0.1 mg/L
Microtox	No information available.

Water Flea

Copper sulphate CAS # 7758-98-7	48 h EC50 Daphnia magna: 0.0058 - 0.0073 mg/L [Static]
Fresh Water Algae	No information available.

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product is as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

SAFETY DATA SHEET

Doc. ID: 33830-75 Rev. AK
Revised (year/month/day) 2015/03/18

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name T3-ALP Conjugate/ Dynabeads® PMP (Compartment R1a)

Part Number Component of P/N 33830

Series Name ACCESS®

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Reddish-brown when particles suspended; Opaque; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R43

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing and eye/face protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.01 @20°C
Color	Reddish-brown when particles suspended	**Solubility**	
Transparency	Opaque	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined

Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	May cause an allergic skin reaction.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country

©2015 Beckman Coulter, Inc.
Global SDS – English

concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SAFETY DATA SHEET

Doc. ID: 33830-75 Rev. AK
Revised (year/month/day) 2015/03/18

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name T3-Biotin Conjugate (Compartment R1b)

Part Number Component of P/N 33830

Series Name ACCESS®

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R43

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing and eye/face protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. Remove contaminated clothing and shoes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.015 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	No data available.
Serious eye damage/eye irritation	No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Respiratory/skin sensitization May cause an allergic skin reaction.

Carcinogenicity This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity No data available.

Reproductive Toxicity No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard No data available.

Other Information This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

©2015 Beckman Coulter, Inc.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Acetonitrile is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

SAFETY DATA SHEET

Doc. ID: 33830-75 Rev. AK
Revised (year/month/day) 2015/03/18

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name 0.4 N NaOH solution with ANS (Compartment R1c)

Part Number Component of P/N 33830

Series Name ACCESS®

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Light yellow; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Corrosion Category 1
Eye Damage Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R36/38

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Corrosion Category 1
Eye Damage Category 1

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Sodium Hydroxide

Pictogram

Signal Word

DANGER

Hazard Statements

H314 Causes severe skin burns and eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.

P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303+P361+P353 IF ON SKIN (or hair): Rinse skin with water.

P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

P363 Wash contaminated clothing before reuse.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**	
Sodium Hydroxide CAS # 1310-73-2 EINECS # 215-185-5 Index # 011-002-00-6	<2	C;R 35	Eye Dam. 1 Skin Corr. 1A H314; H318	Eye Dam. 1 Skin Corr. 1A H314; H318	

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open and obtain medical attention immediately.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions — Observe general safety guidelines for protection; avoid eye and skin contact.

Wear protective gloves, protective clothing and tightly sealed eye/face protection.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Avoid inhaling, ingesting, and contact with eyes and skin.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 TWA

ACGIH

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 Ceiling

DFG MAK None established

Ireland

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 STEL

IOELVs None established

NIOSH

Sodium Hydroxide CAS # 1310-73-2	10 mg/m3 IDLH

Japan None established

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.015 @20°C
Color	Light yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	13	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not determined
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

©2015 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Hydroxide CAS # 1310-73-2	Dermal LD50 Rabbit 1350 mg/kg

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Causes severe skin burns.

Serious eye damage/eye irritation

Causes serious eye damage.

Respiratory/skin sensitization

No data available.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

No data available.

Reproductive Toxicity

No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard

No data available.

Other Information

No further relevant information available.

©2015 Beckman Coulter, Inc.
Global SDS – English

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Hydroxide CAS # 1310-73-2	96 h LC50 Oncorhynchus mykiss: 45.4 mg/L [static]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

13.2 Additional information Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

	Shipping Information	IATA	IMDG	US DOT	European ADR	Canadian TDG

Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 No ingredients listed.

CERCLA RG's, 40 CFR 302.4 Sodium Hydroxide is listed.

California Proposition 65 No ingredients listed.

Massachusetts MSL Sodium Hydroxide is listed.

New Jersey Dept. of Health RTK List

Sodium Hydroxide is listed.

Pennsylvania RTK Sodium Hydroxide is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Irritant
Xi

Risk and Safety Phrases

R36/38 Irritating to eyes and skin.

S26 In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

S37/39 Wear suitable gloves and eye/face protection.

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open and obtain medical attention immediately.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions — Observe general safety guidelines for protection; avoid eye and skin contact.

Wear protective gloves, protective clothing and tightly sealed eye/face protection.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Avoid inhaling, ingesting, and contact with eyes and skin.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 10°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

SAFETY DATA SHEET

Doc. ID: 598190-75 Rev. AG
Revised (year/month/day) 2015/05/28

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Trace-Klean™ Ready to Use Cleaning Solution

Part Number 598190

Series Name DU700

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For laboratory use only. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Corrosion Category 1
Eye Damage Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Corrosion Category 1
Eye Damage Category 1

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Potassium Hydroxide

Pictogram

Signal Word

DANGER

Hazard Statements

H314 Causes severe skin burns and eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.

P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.

P303+P361+P353 IF ON SKIN (or hair): Rinse skin with water.

P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P310 Immediately call a POISON CENTER or doctor/physician.

P363 Wash contaminated clothing before reuse.

P405 Store locked up.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open and obtain medical attention immediately.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes severe skin burns and eye damage.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

If eye irritation persists: Get medical advice/attention.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions — Observe general safety guidelines for protection; avoid eye and skin contact.

Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions — Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

©2015 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Avoid inhaling, ingesting, and contact with eyes and skin.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 30°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Potassium Hydroxide
CAS # 1310-58-3 — 2 mg/m3 Ceiling

DFG MAK None established

Ireland

Potassium Hydroxide
CAS # 1310-58-3 — 2 mg/m3 STEL

IOELVs None established

NIOSH None established

Japan None established

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	>= 12	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Potassium Hydroxide CAS # 1310-58-3	Oral LD50 Rat 214 mg/kg

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Causes severe skin burns.

Serious eye damage/eye irritation

Causes serious eye damage.

Respiratory/skin sensitization

No data available.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

No data available.

Reproductive Toxicity

No data available.

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard

No data available.

Other Information

No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species	No information available.
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability

Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May cause mild skin irritation.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

©2019 Beckman Coulter, Inc.

BECKMAN COULTER
TRANSFERRIN
Transferrin R1

Section 6 Accidental Release Measures (Continued)

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide
CAS # 26628-22-8

0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide
CAS # 26628-22-8

0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide
CAS # 26628-22-8

0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide

Section 8 Exposure Controls and Personal Protection (Continued)

Japan	None established
Sweden (AFS 2015:7 and amendments)	
Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.03
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Fully miscible
Odor	Mild odor	**Organic**	Not determined
pH	7.2	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	250°C (482°F)	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable

	Odor Threshold	Not applicable
9.2	**Other Information**	No further relevant information available.

Section 10 Stability and Reactivity

10.1	**Reactivity**	No further relevant information available.
10.2	**Chemical Stability**	The product is stable in accordance with recommended storage conditions.
10.3	**Possibility of hazardous reactions**	
		Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.
10.4	**Conditions to Avoid**	Avoid contact with incompatible materials. Avoid exposure to heat and direct sunlight.
10.5	**Incompatible materials**	Metals and metallic compounds
10.6	**Hazardous Decomposition Products**	
		No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Tris(hydroxymethyl)–aminomethane CAS # 77-86-1	Oral LD50 Rat 5900 mg/kg

Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	May cause mild skin irritation.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Other Information	This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.	

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

©2019 Beckman Coulter, Inc.

		To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.
		Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8	Sodium Azide	1.0% de minimis concentration

Section 4 First Aid Measures (Continued)

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product.

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8 Sodium Azide 1.0% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 26628-22-8 Sodium Azide

California Proposition 65

⚠ **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to www.P65Warnings.ca.gov

Chemical which is known to the State of California to cause cancer

No ingredients listed.

Chemical which is known to the State of California to cause development toxicity

CAS # 1405-41-0 Gentamicin Sulfate

Chemical which is known to the State of California to cause male reproductive toxicity

No ingredients listed.

Chemical which is known to the State of California to cause female reproductive toxicity

No ingredients listed.

Massachusetts Right To Know (RTK) List

CAS # 26628-22-8 Sodium Azide

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Information Sheet

SECTION 1. Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Code:	**108C.USE**
Product name	**Transystem AMIES w/o ch plastic applicator rayon tipped**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Intended use: **CULTURE SWAB TRANSPORT SYSTEM**

Identified Uses	Industrial	Professional	Consumer
Transport and conservation of clinical specimens for diagnostic analysis	-	✓	-

1.3. Details of the supplier of the safety data sheet

Name	**Copan Italia SPA**
Full address	**Via Perotti 10**
District and Country	**25125 Brescia (BS)**
	Italy
	Tel. 0302687200
	Fax 0302687250
e-mail address of the competent person responsible for the Safety Data Sheet	**msds@copanitalia.com**

Legal Manufacturer: Copan Italia SpA - Italy

1.4. Emergency telephone number

For urgent inquiries refer to: **+39 0302687200**

SECTION 2. Hazards identification.

2.1. Classification of the substance or mixture.

The product is not classified as hazardous pursuant to the provisions set forth in EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements).

2.1.1. Regulation 1272/2008 (CLP) and following amendments and adjustments.

Hazard classification and indication: --

2.2. Label elements.

Hazard pictograms: --

Signal words: --

Hazard statements: --

Precautionary statements: --

2.3. Other hazards.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

SECTION 3. Composition/information on ingredients.

3.1. Substances.

Information not relevant.

SECTION 3. Composition/information on ingredients. ... / >>

3.2. Mixtures.

The product does not contain substances classified as being hazardous to human health or the environment pursuant to the provisions set forth in Directives 67/548/EEC and/or EC Regulation 1272/2008 (CLP) (and subsequent amendments and supplements) in such quantities as to require the statement.

SECTION 4. First aid measures.

4.1. Description of first aid measures.
Not specifically necessary. Observance of good industrial hygiene is recommended.

4.2. Most important symptoms and effects, both acute and delayed.
No episodes of damage to health ascribable to the product have been reported.

4.3. Indication of any immediate medical attention and special treatment needed.
Information not available.

SECTION 5. Firefighting measures.

5.1. Extinguishing media.
SUITABLE EXTINGUISHING EQUIPMENT
The extinguishing equipment should be of the conventional kind: carbon dioxide, foam, powder and water spray.
UNSUITABLE EXTINGUISHING EQUIPMENT
None in particular.

5.2. Special hazards arising from the substance or mixture.
HAZARDS CAUSED BY EXPOSURE IN THE EVENT OF FIRE
Do not breathe combustion products.

5.3. Advice for firefighters.
GENERAL INFORMATION
Use jets of water to cool the containers to prevent product decomposition and the development of substances potentially hazardous for health. Always wear full fire prevention gear. Collect extinguishing water to prevent it from draining into the sewer system. Dispose of contaminated water used for extinction and the remains of the fire according to applicable regulations.
SPECIAL PROTECTIVE EQUIPMENT FOR FIRE-FIGHTERS
Normal fire fighting clothing i.e. fire kit (BS EN 469), gloves (BS EN 659) and boots (HO specification A29 and A30) in combination with self-contained open circuit positive pressure compressed air breathing apparatus (BS EN 137).

SECTION 6. Accidental release measures.

6.1. Personal precautions, protective equipment and emergency procedures.
Use breathing equipment if fumes or powders are released into the air. These indications apply for both processing staff and those involved in emergency procedures.

6.2. Environmental precautions.
The product must not penetrate into the sewer system or come into contact with surface water or ground water.

6.3. Methods and material for containment and cleaning up.
Confine using earth or inert material. Collect as much material as possible and eliminate the rest using jets of water. Contaminated material should be disposed of in compliance with the provisions set forth in point 13.

6.4. Reference to other sections.
Any information on personal protection and disposal is given in sections 8 and 13.

SECTION 7. Handling and storage.

7.1. Precautions for safe handling.
Before handling the product, consult all the other sections of this material safety data sheet. Avoid leakage of the product into the environment. Do not eat, drink or smoke during use.

7.2. Conditions for safe storage, including any incompatibilities.
Keep the product in clearly labelled containers. Keep containers away from any incompatible materials, see section 10 for details.

7.3. Specific end use(s).
Product Pack Insert may be available, ask to legal manufacturer.

SECTION 8. Exposure controls/personal protection.

8.1. Control parameters.

Information not available.

8.2. Exposure controls.

Comply with the safety measures usually applied when handling chemical substances.
HAND PROTECTION
None required.
SKIN PROTECTION
None required.
EYE PROTECTION
None required.
RESPIRATORY PROTECTION
None required, unless indicated otherwise in the chemical risk assessment.
ENVIRONMENTAL EXPOSURE CONTROLS.
The emissions generated by manufacturing processes, including those generated by ventilation equipment, should be checked to ensure compliance with environmental standards.

SECTION 9. Physical and chemical properties.

9.1. Information on basic physical and chemical properties.

Appearance	liquid
Colour	white
Odour	Not available.
Odour threshold.	Not available.
pH.	7,10 - 7,50 a 20°C - 25°C
Melting point / freezing point.	Not available.
Initial boiling point.	Not available.
Boiling range.	Not available.
Flash point.	Not available.
Evaporation rate	Not available.
Flammability (solid, gas)	Not available.
Lower inflammability limit.	Not available.
Upper inflammability limit.	Not available.
Lower explosive limit.	Not available.
Upper explosive limit.	Not available.
Vapour pressure.	Not available.
Vapour density	Not available.
Relative density.	Not available.
Solubility	Not available.
Partition coefficient: n-octanol/water	Not available.
Auto-ignition temperature.	Not available.
Decomposition temperature.	Not available.
Viscosity	Not available.
Explosive properties	Not available.
Oxidising properties	Not available.

9.2. Other information.

Molecular weight.	20,087
Solid content.	2,20 %
VOC (Directive 1999/13/EC) :	0
VOC (volatile carbon) :	0

SECTION 10. Stability and reactivity.

10.1. Reactivity.
There are no particular risks of reaction with other substances in normal conditions of use.

10.2. Chemical stability.
The product is stable in normal conditions of use and storage.

10.3. Possibility of hazardous reactions.
No hazardous reactions are foreseeable in normal conditions of use and storage.

SECTION 10. Stability and reactivity. ... / >>

10.4. Conditions to avoid.
None in particular. However the usual precautions used for chemical products should be respected.

10.5. Incompatible materials.
Information not available.

10.6. Hazardous decomposition products.
Information not available.

SECTION 11. Toxicological information.

According to currently available data, this product has not yet produced health damages. Anyway, it must be handled according to good practices.

11.1. Information on toxicological effects.

Information not available.

SECTION 12. Ecological information.

Use this product according to good working practices. Avoid littering. Inform the competent authorities, should the product reach waterways or sewers or contaminate soil or vegetation.

12.1. Toxicity.
Information not available.

12.2. Persistence and degradability.
Information not available.

12.3. Bioaccumulative potential.
Information not available.

12.4. Mobility in soil.
Information not available.

12.5. Results of PBT and vPvB assessment.

On the basis of available data, the product does not contain any PBT or vPvB in percentage greater than 0,1%.

12.6. Other adverse effects.

Information not available.

SECTION 13. Disposal considerations.

13.1. Waste treatment methods.
Neat product residues should be considered special non-hazardous waste.
Disposal must be performed through an authorised waste management firm, in compliance with national and local regulations.
CONTAMINATED PACKAGING
Contaminated packaging must be recovered or disposed of in compliance with national waste management regulations.

SECTION 14. Transport information.

14.1. UN number.

Not applicable.

14.2. UN proper shipping name.

Not applicable.

14.3. Transport hazard class(es).

Not applicable.

SECTION 14. Transport information. ... / >>

14.4. Packing group.

Not applicable.

14.5. Environmental hazards.

Not applicable.

14.6. Special precautions for user.

Not applicable.

14.7. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code.

Information not relevant.

SECTION 15. Regulatory information.

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture.

Seveso category. None.

Restrictions relating to the product or contained substances pursuant to Annex XVII to EC Regulation 1907/2006.
None.

Substances in Candidate List (Art. 59 REACH).
None.
Substances subject to authorisarion (Annex XIV REACH).
None.
Substances subject to exportation reporting pursuant to (EC) Reg. 649/2012:
None.

Substances subject to the Rotterdam Convention:
None.

Substances subject to the Stockholm Convention:
None.

Healthcare controls.
Information not available.

15.2. Chemical safety assessment.

No chemical safety assessment has been processed for the mixture and the substances it contains.

SECTION 16. Other information.

LEGEND:
- ADR: European Agreement concerning the carriage of Dangerous goods by Road
- CAS NUMBER: Chemical Abstract Service Number
- CE50: Effective concentration (required to induce a 50% effect)
- CE NUMBER: Identifier in ESIS (European archive of existing substances)
- CLP: EC Regulation 1272/2008
- DNEL: Derived No Effect Level
- EmS: Emergency Schedule
- GHS: Globally Harmonized System of classification and labeling of chemicals
- IATA DGR: International Air Transport Association Dangerous Goods Regulation
- IC50: Immobilization Concentration 50%
- IMDG: International Maritime Code for dangerous goods
- IMO: International Maritime Organization
- INDEX NUMBER: Identifier in Annex VI of CLP
- LC50: Lethal Concentration 50%
- LD50: Lethal dose 50%
- OEL: Occupational Exposure Level

SECTION 16. Other information. ... / >>

- PBT: Persistent bioaccumulative and toxic as REACH Regulation
- PEC: Predicted environmental Concentration
- PEL: Predicted exposure level
- PNEC: Predicted no effect concentration
- REACH: EC Regulation 1907/2006
- RID: Regulation concerning the international transport of dangerous goods by train
- TLV: Threshold Limit Value
- TLV CEILING: Concentration that should not be exceeded during any time of occupational exposure.
- TWA STEL: Short-term exposure limit
- TWA: Time-weighted average exposure limit
- VOC: Volatile organic Compounds
- vPvB: Very Persistent and very Bioaccumulative as for REACH Regulation
- WGK: Water hazard classes (German).

MATERIAL SAFETY DATA SHEET

TF21010 SERIES
03 00

DATE OF PREPARATION
Apr 14, 2017

SECTION 1 — PRODUCT AND COMPANY IDENTIFICATION

PRODUCT NUMBER
TF21010 SERIES

PRODUCT NAME
TRI-FLOW® Industrial Lubricant, TF21010,TF21060,TF29200

MANUFACTURER'S NAME
TRI-FLOW INDUSTRIAL GROUP
Cleveland, OH 44115

Telephone Numbers and Websites

Product Information	www.triflowlubricants.com
Regulatory Information	(216) 566-2902 www.paintdocs.com
Medical Emergency	(216) 566-2917
Transportation Emergency*	(800) 424-9300
**for Chemical Emergency ONLY (spill, leak, fire, exposure, or accident)*	

SECTION 2 — COMPOSITION/INFORMATION ON INGREDIENTS

% by Weight	CAS Number	Ingredient	Units	Vapor Pressure
30	**64742-47-8**	**Aliphatic Solvent**		
		ACGIH TLV	Not Available	0.00787 mm
		OSHA PEL	Not Available	
52	**64742-52-5**	**Heavy Naphthenic Petroleum Oil**		
		ACGIH TLV	5 mg/m3 as Mist	
		OSHA PEL	5 mg/m3 as Mist	
4	**64742-65-0**	**Heavy Paraffinic Oil**		
		ACGIH TLV	5 mg/m3 as Mist	
		OSHA PEL	5 mg/m3 as Mist	
3	**628-63-7**	**Amyl Acetate**		
		ACGIH TLV	100 PPM	4 mm
		OSHA PEL	100 PPM	

SECTION 3 — HAZARDS IDENTIFICATION

HMIS Codes

Health	2
Flammability	2
Reactivity	0

ROUTES OF EXPOSURE
INHALATION of vapor or spray mist.
EYE or SKIN contact with the product, vapor or spray mist.

EFFECTS OF OVEREXPOSURE
EYES: Irritation.
SKIN: Prolonged or repeated exposure may cause irritation.
INHALATION: Irritation of the upper respiratory system.

May cause nervous system depression. Extreme overexposure may result in unconsciousness and possibly death.

SIGNS AND SYMPTOMS OF OVEREXPOSURE
Headache, dizziness, nausea, and loss of coordination are indications of excessive exposure to vapors or spray mists. Redness and itching or burning sensation may indicate eye or excessive skin exposure.

MEDICAL CONDITIONS AGGRAVATED BY EXPOSURE
None generally recognized.

CANCER INFORMATION
For complete discussion of toxicology data refer to Section 11.

SECTION 4 — FIRST AID MEASURES

EYES: Flush eyes with large amounts of water for 15 minutes. Get medical attention.
SKIN: Wash affected area thoroughly with soap and water.
Remove contaminated clothing and launder before re-use.
INHALATION: If affected, remove from exposure. Restore breathing. Keep warm and quiet.
INGESTION: Do not induce vomiting. Get medical attention immediately.

SECTION 5 — FIRE FIGHTING MEASURES

FLASH POINT	LEL	UEL	FLAMMABILITY CLASSIFICATION
181 °F PMCC	0.7	7.5	Combustible, Flash above 99 and below 200 °F

EXTINGUISHING MEDIA

Carbon Dioxide, Dry Chemical, Foam

UNUSUAL FIRE AND EXPLOSION HAZARDS

Closed containers may explode when exposed to extreme heat.
Application to hot surfaces requires special precautions.
During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention.

SPECIAL FIRE FIGHTING PROCEDURES

Full protective equipment including self-contained breathing apparatus should be used.
Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat.

SECTION 6 — ACCIDENTAL RELEASE MEASURES

STEPS TO BE TAKEN IN CASE MATERIAL IS RELEASED OR SPILLED

Remove all sources of ignition. Ventilate the area.
Remove with inert absorbent.

SECTION 7 — HANDLING AND STORAGE

STORAGE CATEGORY

DOL Storage Class IIIA

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORAGE

Contents are COMBUSTIBLE. Keep away from heat and open flame.
Consult NFPA Code. Use approved Bonding and Grounding procedures.
Keep container closed when not in use. Transfer only to approved containers with complete and appropriate labeling. Do not take internally. Keep out of the reach of children.

SECTION 8 — EXPOSURE CONTROLS/PERSONAL PROTECTION

PRECAUTIONS TO BE TAKEN IN USE

Use only with adequate ventilation.
Avoid contact with skin and eyes. Avoid breathing vapor and spray mist.
Wash hands after using.

VENTILATION

Local exhaust preferable. General exhaust acceptable if the exposure to materials in Section 2 is maintained below applicable exposure limits. Refer to OSHA Standards 1910.94, 1910.107, 1910.108.

RESPIRATORY PROTECTION

If personal exposure cannot be controlled below applicable limits by ventilation, wear a properly fitted organic vapor/particulate respirator approved by NIOSH/MSHA for protection against materials in Section 2.

PROTECTIVE GLOVES

Wear gloves which are recommended by glove supplier for protection against materials in Section 2.

EYE PROTECTION

Wear safety spectacles with unperforated sideshields.

OTHER PRECAUTIONS

Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.

SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

PRODUCT WEIGHT	7.31 lb/gal	876 g/l
SPECIFIC GRAVITY	0.88	
BOILING POINT	288 - 460 °F	142 - 237 °C
MELTING POINT	Not Available	
VOLATILE VOLUME	36%	
EVAPORATION RATE	Slower than ether	
VAPOR DENSITY	Heavier than air	
SOLUBILITY IN WATER	Not Available	

VOLATILE ORGANIC COMPOUNDS (VOC Theoretical - As Packaged)

2.40 lb/gal	287 g/l	Less Water and Federally Exempt Solvents
2.40 lb/gal	287 g/l	Emitted VOC

SECTION 10 — STABILITY AND REACTIVITY

STABILITY — Stable

CONDITIONS TO AVOID

None known.

INCOMPATIBILITY

None known.

HAZARDOUS DECOMPOSITION PRODUCTS

By fire: Carbon Dioxide, Carbon Monoxide

HAZARDOUS POLYMERIZATION

Will not occur

SECTION 11 — TOXICOLOGICAL INFORMATION

CHRONIC HEALTH HAZARDS

No ingredient in this product is an IARC, NTP or OSHA listed carcinogen.

Reports have associated repeated and prolonged overexposure to solvents with permanent brain and nervous system damage.

TOXICOLOGY DATA

CAS No.	Ingredient Name			
64742-47-8	**Aliphatic Solvent**			
		LC50 RAT	4HR	Not Available
		LD50 RAT		Not Available
64742-52-5	**Heavy Naphthenic Petroleum Oil**			
		LC50 RAT	4HR	Not Available
		LD50 RAT		Not Available
64742-65-0	**Heavy Paraffinic Oil**			
		LC50 RAT	4HR	Not Available
		LD50 RAT		Not Available
628-63-7	**Amyl Acetate**			
		LC50 RAT	4HR	Not Available
		LD50 RAT		6500 mg/kg

SECTION 12 — ECOLOGICAL INFORMATION

ECOTOXICOLOGICAL INFORMATION

No data available.

SECTION 13 — DISPOSAL CONSIDERATIONS

WASTE DISPOSAL METHOD

Waste from this product is not hazardous as defined under the Resource Conservation and Recovery Act (RCRA) 40 CFR 261.

Incinerate in approved facility. Do not incinerate closed container. Dispose of in accordance with Federal, State/Provincial, and Local regulations regarding pollution.

SECTION 14 — TRANSPORT INFORMATION

Multi-modal shipping descriptions are provided for informational purposes and do not consider container sizes. The presence of a shipping description for a particular mode of transport (ocean, air, etc.), does not indicate that the product is packaged suitably for that mode of transport. All packaging must be reviewed for suitability prior to shipment, and compliance with the applicable regulations is the sole responsibility of the person offering the product for transport.

US Ground (DOT)
Not Regulated for Transportation.
Bulk Containers may be Shipped as:
NA1993, COMBUSTIBLE LIQUID, N.O.S. (AMYL ACETATES), PG III, (ERG#128)
Canada (TDG)
Not Regulated for Transportation.
IMO
Not Regulated for Transportation.
IMO
Not Regulated for Transportation.
IATA/ICAO
Not Regulated for Transportation.

SECTION 15 — REGULATORY INFORMATION

SARA 313 *(40 CFR 372.65C)* SUPPLIER NOTIFICATION

CAS No.	CHEMICAL/COMPOUND	% by WT	% Element
	Barium Compound	3	0.07

CALIFORNIA PROPOSITION 65
WARNING: This product contains chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.
TSCA CERTIFICATION
All chemicals in this product are listed, or are exempt from listing, on the TSCA Inventory.

SECTION 16 — OTHER INFORMATION

This product has been classified in accordance with the hazard criteria of the Canadian Controlled Products Regulations (CPR) and the MSDS contains all of the information required by the CPR.

The above information pertains to this product as currently formulated, and is based on the information available at this time. Addition of reducers or other additives to this product may substantially alter the composition and hazards of the product. Since conditions of use are outside our control, we make no warranties, express or implied, and assume no liability in connection with any use of this information.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards

2.1 of substance or mixture

Product Description In vitro diagnostic reagent.

Light yellow; Clear; Liquid; Characteristic odor

according to EC 1272/2008 (CLP/GHS)

Not as hazardous per EC 1272/2008 (CLP/GHS)

©2020 Beckman Coulter, Inc.

BECKMAN COULTER
Triglyceride
Triglyceride R1

Section 2 Hazards (Continued)

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**
Polyoxyethylated Octyl Phenol CAS # 9002-93-1 EINECS # 618-344-0 Index # Not available	0.1 - 1	Acute Tox. Oral 4, H302 Aquatic Longterm 2, H411 Eye Dam. 1, H318	Acute Tox. Oral 4, H302 Aquatic Longterm 2, H411 Eye Dam. 1, H318	8, AUTH, SVHC
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
AUTH - Subject to Authorisation as per EU - REACH (1907/2006) Annex XIV
SVHC - Substance of very high concern

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for

Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

©2020 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide
CAS # 26628-22-8 0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide
CAS # 26628-22-8 0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide
CAS # 26628-22-8 0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide
CAS # 26628-22-8 Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH None established

Japan None established

Section 8 Exposure Controls and Personal Protection (Continued)

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	Not determined
Color	Light yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Characteristic odor	**Organic**	Not determined
pH	7.5	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

©2020 Beckman Coulter, Inc.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Polyoxyethylated Octyl Phenol CAS # 9002-93-1	Oral LD50 Rat 1800 mg/kg
Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

©2020 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide
CAS # 26628-22-8

96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

©2020 Beckman Coulter, Inc.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8 Sodium Azide 1.0% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 26628-22-8 Sodium Azide

California Proposition 65

⚠ **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to www.P65Warnings.ca.gov

Chemical which is known to the State of California to cause cancer

No ingredients listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

Refer to Section 3

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1

Updated Section 3.

Updated Section 8, 11, 15, 16.

Updated Section 12.

See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact

In case of skin contact, rinse with water as a precaution.

©2020 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

©2020 Beckman Coulter, Inc.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH

None established

Japan

None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	Not determined
Color	Dark yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Characteristic odor	**Organic**	Not determined
pH	7.5	**Partition n-octanol/water**	Not determined
Freezing Point	Similar to water, approximately 0°C	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

Global SDS – English

Section 10 Stability and Reactivity (Continued)

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide
CAS # 26628-22-8 — Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.
12.5 Results of PBT and vPvB assessment	Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6 Other Adverse Effects	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8	Sodium Azide	1.0% de minimis concentration
CAS # 13746-66-2	Potassium Ferricyanide	1.0% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 26628-22-8	Sodium Azide

California Proposition 65

⚠ **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to www.P65Warnings.ca.gov

Chemical which is known to the State of California to cause cancer

No ingredients listed.

Chemical which is known to the State of California to cause development toxicity

CAS # 1405-41-0	Gentamicin Sulfate

Chemical which is known to the State of California to cause male reproductive toxicity

No ingredients listed.

Chemical which is known to the State of California to cause female reproductive toxicity

No ingredients listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

Refer to Section 3

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1

Updated Section 8, 11, 15, 16.

Updated Section 12.

BECKMAN COULTER

SAFETY DATA SHEET

Doc. ID: 445850-75 Rev. AG
Revised (year/month/day) 2015/05/08

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Triglycerides Reagent (Compartment A)

Part Number Component of P/N 445850

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Clear to pink; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes mild skin irritation.

See Section 11 Toxicological Information for more detailed health information.

©2015 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.
Observe general safety guidelines for protection; avoid eye and skin contact.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.
Use good laboratory procedures; avoid eye and skin contact.

©2015 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain efficacy, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH

None established

Japan

None established

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection

Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.007 @20°C
Color	Clear to pink	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	6.35 - 6.45	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	Causes mild skin irritation.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	No data available.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 67/548/EEC Annex I.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	Reproductive effects have been reported in animal studies.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Formaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

Causes mild skin irritation.

See Section 11 Toxicological Information for more detailed health information.

©2015 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.
Observe general safety guidelines for protection; avoid eye and skin contact.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.
Use good laboratory procedures; avoid eye and skin contact.

©2015 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain efficacy, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH

None established

Japan

None established

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.
Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection

Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection

Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.01307 @20°C
Color	Yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Mild odor	**Organic**	Not determined
pH	6.55 - 6.65	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	Causes mild skin irritation.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	No data available.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 67/548/EEC Annex I.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	Reproductive effects have been reported in animal studies.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2015 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313

Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4

Sodium Azide is listed.

California Proposition 65

No ingredients listed.

Massachusetts MSL

Sodium Azide is listed.

©2015 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

New Jersey Dept. of Health RTK List

Sodium Azide is listed.

Pennsylvania RTK Sodium Azide is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

Sodium Azide

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes Updated to GHS.

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment
T+ - Very toxic
R28 Very toxic if swallowed.
R32 Contact with acids liberates very toxic gas.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
H300 - Fatal if swallowed.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

SAFETY DATA SHEET

Doc. ID: 445850-75 Rev. AG
Revised (year/month/day) 2015/05/08

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Triglycerides Reagent (Compartment C)

Part Number Component of P/N 445850

Series Name SYNCHRON Systems

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless to slightly brown; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients			
Chemical Name	**% by wt.**	**EU-67/548/EEC**	**EU 1272/2008 CLP/GHS**	**GHS**	
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	T+;R28-32 N;R50/53	Acute Tox. Oral 2 Aquatic Acute 1 Aquatic Longterm 1 H300; H400; H410	Acute Tox. Oral 2 Aquatic Acute 1 Aquatic Longterm 1 H300; H400; H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures

	Flammable Properties	Nonflammable aqueous solution.
5.1	**Extinguishing Media**	In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam. For large fires use extinguishing media suitable for surrounding fire.
5.2	**Special hazards arising from the substance or mixture**	
	Special Fire and Explosion Hazards	No special hazards determined.
	Hazardous Combustion Products	No combustion products posing significant hazards are expected from this product (an aqueous solution).
5.3	**Advice for fire fighters**	
	Protective Equipment	Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.
5.4	**Additional information**	No further relevant information available.

Section 6 Accidental Release Measures

6.1	**Personal precautions, protective equipment and emergency procedures**	
	Personal Precautions	Observe general safety guidelines for protection; avoid eye and skin contact. Wear protective gloves, protective clothing and eye/face protection.
6.2	**Environmental Precautions**	Contain spill to prevent migration. Do not allow the undiluted product to enter sewers/surface or ground water.
6.3	**Methods and material for containment and cleaning up**	
	Spill and Leak Procedures	Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.
6.4	**Reference to other sections**	Refer sections 8 and 13.

Section 7 Handling and Storage

7.1	**Precautions for safe handling**	Use good laboratory procedures; avoid eye and skin contact.
7.2	**Conditions for safe storage, including any incompatibilities**	
		Store at 2 to 8°C , as directed on the product label. To maintain efficacy, store according to the instructions in the product labeling. Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).
7.3	**Specific end uses**	No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	
Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)
DFG MAK	
Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)
Ireland	
Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption
IOELVs	
Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.0 @20°C

Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	No data available.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 67/548/EEC Annex I.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country

©2015 Beckman Coulter, Inc.

concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4 Sodium Azide is listed.

California Proposition 65 No ingredients listed.

Massachusetts MSL Sodium Azide is listed.

BECKMAN COULTER

SAFETY DATA SHEET

Doc. ID: IM1724-75 Rev. AA
Issued (year/month/day) 2015/05/04

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name HRP-labeled anti-TSH monoclonal antibody conjugate

Part Number Component of P/N IM1724

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Yellowish; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

©2015 Beckman Coulter, Inc.
Global SDS – English

Section 8 Exposure Controls and Personal Protection (Continued)

ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.02 @20°C
Color	Yellowish	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.0	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable

©2015 Beckman Coulter, Inc.
Global SDS – English

Section 9 Physical and Chemical Properties (Continued)

	Odor Threshold	Not applicable
9.2	**Other Information**	No further relevant information available.

Section 10 Stability and Reactivity

10.1	**Reactivity**	No further relevant information available.
10.2	**Chemical Stability**	The product is stable in accordance with recommended storage conditions.
10.3	**Possibility of hazardous reactions**	No further relevant information available.
10.4	**Conditions to Avoid**	Avoid contact with incompatible materials. Avoid exposure to heat and direct sunlight.
10.5	**Incompatible materials**	No further relevant information available.
10.6	**Hazardous Decomposition Products**	No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	No data available.
Serious eye damage/eye irritation	No data available.
Respiratory/skin sensitization	No data available.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	No data available.
Reproductive Toxicity	No data available.

Specific target organ toxicity – single exposure

No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard — No data available.

Other Information — This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species	No information available.
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability — Not determined for the product.

12.3 Bioaccumulation — Not determined for the product.

12.4 Mobility in soil — Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects — No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

©2015 Beckman Coulter, Inc.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 No ingredients listed.

California Proposition 65 No ingredients listed.

Massachusetts MSL No ingredients listed.

New Jersey Dept. of Health RTK List

No ingredients listed.

Pennsylvania RTK No ingredients listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

None

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe
Revision Changes	Updated to GHS.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.
Combustion products may contain minute amounts of mercury.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

Carefully sweep up spilled material and place in a container suitable for disposal. Avoid generating dust.

Dispose of all waste material in accordance with local guidelines.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact

If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact

In case of skin contact, remove any contaminated clothing. Wash affected area with plenty of soap and water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion

If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.
Combustion products may contain minute amounts of mercury.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains material of human and animal origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

Carefully sweep up spilled material and place in a container suitable for disposal. Avoid generating dust.

Dispose of all waste material in accordance with local guidelines.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact. Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Lyophilized Powder - Liquid after reconstitution.	**Specific Gravity (Water=1.0)**	1.02 @20°C
Color	Yellowish	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.2	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation No data available.

Serious eye damage/eye irritation No data available.

Respiratory/skin sensitization No data available.

Carcinogenicity This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Reproductive Toxicity	No data available.
Specific target organ toxicity – single exposure	
	No data available.
Specific target organ toxicity – repeated exposure	
	No data available.
Aspiration hazard	No data available.
Other Information	This product contains materials of human and animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	No further relevant information available.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information. Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information. This product contains a low level (<0.05%) of Thimerosal. Specific federal, state, and local regulations for disposal of mercury compounds may apply.

©2015 Beckman Coulter, Inc.

Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2 Additional information	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	No ingredients listed.
California Proposition 65	Neomycin Sulfate has been identified by the State of California to cause reproductive harm. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm. **WARNING**: This product contains a chemical known to the State of California to cause reproductive harm. Thimerosal has been identified by the State of California to cause reproductive harm. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm. **WARNING**: This product contains a chemical known to the State of California to cause reproductive harm.
Massachusetts MSL	No ingredients listed.
New Jersey Dept. of Health RTK List	No ingredients listed.

SAFETY DATA SHEET

Doc. ID: IM1724-75 Rev. AA
Issued (year/month/day) 2015/05/04

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Conjugate diluent

Part Number Component of P/N IM1724

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Blue; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.
Combustion products may contain minute amounts of mercury.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.
Carefully sweep up spilled material and place in a container suitable for disposal. Avoid generating dust.
Dispose of all waste material in accordance with local guidelines.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

©2015 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.
H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most precautionary statements.7.5% of product contains ingredients of unknown hazards to aquatic environment.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients

8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.
SVHC - Substance of very high concern

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May cause an allergic skin reaction.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture
Special Fire and Explosion Hazards

©2019 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

©2019 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

Sweden (AFS 2015:7 and amendments)

None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	Not determined
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Not miscible
Odor	Characteristic odor	**Organic**	Not determined
pH	7.0	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined

©2019 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Polyoxyethylated Octyl Phenol CAS # 9002-93-1	Oral LD50 Rat 1800 mg/kg
reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1) CAS # 55965-84-9	Oral LD50 Rat 53 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

©2019 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Acute Toxicity	Not	based on available data.
Skin Corrosion/Irritation	Not	based on available data.
Serious eye damage/eye irritation	Not	based on available data.
Respiratory/skin sensitization	May cause sensitization by skin contact.	
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.	
Germ cell mutagenicity	Not	based on available data.
Reproductive Toxicity	Not	based on available data.
target organ toxicity – single exposure		
	Not	based on available data.
target organ toxicity – repeated exposure		
	Not	based on available data.
Aspiration hazard	Not	based on available data.
Other Information	This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.	

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.

Revision Date (year/month/day) 2020/05/14
Last Revision Date (year/month/day) 2019/03/12

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product is as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

©2019 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

SARA 313 (Section 313, Title III reporting requirements)

No ingredients listed.

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

8 - Present at concentration below the cut-off limits.
SVHC - Substance of very high concern

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water as a precaution.

©2019 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for

Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH

None established

Japan

None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	Not determined
Color	Yellow-brown	**Solubility**	
Transparency	Clear	**Water**	Fully miscible
Odor	Characteristic odor	**Organic**	Not determined
pH	7.8	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

©2019 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Polyoxyethylated Octyl Phenol CAS # 9002-93-1	Oral LD50 Rat 1800 mg/kg
Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

©2019 Beckman Coulter, Inc.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8	Sodium Azide	1.0% de minimis concentration
CAS # 14459-95-1	Potassium Ferrocyanide, Trihydrate	1.0% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 26628-22-8	Sodium Azide

California Proposition 65

⚠ **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to www.P65Warnings.ca.gov

Chemical which is known to the State of California to cause cancer

No ingredients listed.

Chemical which is known to the State of California to cause development toxicity

CAS # 1405-41-0	Gentamicin Sulfate

Chemical which is known to the State of California to cause male reproductive toxicity

CAS # 14459-95-1	Potassium Ferrocyanide, Trihydrate

Chemical which is known to the State of California to cause female reproductive toxicity

No ingredients listed.

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May cause damage to organs.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

©2019 Beckman Coulter, Inc.

Section 6 Accidental Release Measures (Continued)

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Methanol
CAS # 67-56-1 200 ppm TWA; 260 mg/m3 TWA

ACGIH

Methanol
CAS # 67-56-1 250 ppm STEL; 200 ppm TWA; Skin - potential contribution to overall exposure by the cutaneous route

DFG MAK

Methanol
CAS # 67-56-1 skin notation; 200 ppm Peak; 260 mg/m3 Peak; 100 ppm TWA MAK; 130 mg/m3 TWA MAK

Ireland

Methanol
CAS # 67-56-1 200 ppm TWA; 260 mg/m3 TWA; 600 ppm STEL (calculated); 780 mg/m3 STEL (calculated); Potential for cutaneous absorption

IOELVs

Methanol
CAS # 67-56-1 Possibility of uptake through the skin; 200 ppm TWA; 260 mg/m3 TWA

NIOSH

Methanol
CAS # 67-56-1 6000 ppm IDLH; 250 ppm STEL; 325 mg/m3 STEL; 200 ppm TWA; 260 mg/m3 TWA

Japan

Methanol CAS # 67-56-1	200 ppm OEL; 260 mg/m3 OEL

Sweden (AFS 2015:7 and amendments)

Methanol CAS # 67-56-1	200 ppm TLV; 250 mg/m3 TLV; 250 ppm Indicative STEL; 350 mg/m3 Indicative STEL; Skin notation

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.00 @20°C
Color	Dark red	**Solubility**	
Transparency	Clear	**Water**	Not miscible
Odor	Odorless	**Organic**	Not determined
pH	2.5 @20°C	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable

Urinary/CSF Protein R1

Section 9 Physical and Chemical Properties (Continued)

	Odor Threshold	Methanol 3.05 ppm odor threshold value (detectable)
9.2	**Other Information**	No further relevant information available.

Section 10 Stability and Reactivity

10.1	**Reactivity**	No further relevant information available.
10.2	**Chemical Stability**	The product is stable in accordance with recommended storage conditions.
10.3	**Possibility of hazardous reactions**	
		No further relevant information available.
10.4	**Conditions to Avoid**	To maintain product performance keep away from strong acids, strong bases, strong oxidizers. Avoid exposure to heat and direct sunlight.
10.5	**Incompatible materials**	No further relevant information available.
10.6	**Hazardous Decomposition Products**	
		No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Methanol CAS # 67-56-1	Dermal LD50 Rabbit 15840 mg/kg; Inhalation LC50 Rat 22500 ppm 8 h; Oral LD50 Rat 6200 mg/kg
Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Not based on available data.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.

target organ toxicity – single exposure

May cause damage to organs.

Section 1 of the Substance/mixture and of the Company/undertaking

1.1 Product

Product Name Urinary/CSF Protein Calibrator

Part Number Component of P/N OSR6170, OSR6270

1.2 Relevant uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Ireland Inc.
Lismeehan
O'Callaghan's Mills
Co. Clare
Ireland
Tel: 353 (0)65 6831100

e-mail address SDSNT@beckman.com

Further information Contact:

Customer support Unit, Beckman Coulter Ireland Inc.

Technical Service Department Tel. +001-800-854-3633 (PST)

E-mail: Techsupportuk@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Tel +353 (0)65 683 1170; 08:00 - 16:30 hrs Mon-Thur, 08:00 - 15:30 hrs Fri (GMT) Tel +001-800-223-0130 (PST)

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards

2.1 of substance or mixture

Product Description In vitro diagnostic reagent.

Colorless; Clear; Liquid; Characteristic odor

according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Aquatic Hazard Long term, Category 3

©2019 Beckman Coulter, Inc.

BECKMAN COULTER
Urinary / CSF Protein
Urinary/CSF Protein Calibrator

Section 2 Hazards (Continued)

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Aquatic Hazard Acute, Category 3

Aquatic Hazard Long term, Category 3

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long lasting effects.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P273 Avoid release to the environment.
P280 Wear protective gloves, protective clothing and eye/face protection.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most precautionary statements.

2.3 Other hazards

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with plenty of water. Remove contaminated clothing and shoes. If pain or irritation occurs, obtain medical advice/attention.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May cause sensitization by skin contact.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture
Special Fire and Explosion Hazards

BECKMAN COULTER
Urinary / CSF Protein
Urinary/CSF Protein Calibrator

Section 5 Fire Fighting Measures (Continued)

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide
CAS # 26628-22-8 — 0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide
CAS # 26628-22-8 — 0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide
CAS # 26628-22-8 — 0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide
CAS # 26628-22-8 — Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH None established

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide
CAS # 26628-22-8 — 0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.01 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Not miscible

Urinary/CSF Protein Calibrator

Section 9 Physical and Chemical Properties (Continued)

	Odor	Characteristic odor	**Organic**	Not determined
	pH	Not determined	**Partition n-octanol/water**	Not determined
	Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
	Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
	Flash Point	Not applicable	**Percent Volatiles**	Not applicable
	Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa
	Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
	Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
	Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
	Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1) CAS # 55965-84-9	Oral LD50 Rat 53 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization May cause sensitization by skin contact.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]

©2019 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product is as environmentally hazardous. Do not allow undiluted product to enter sewer/surface or ground water. Dispose of contents/container to in accordance with local/national regulations

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information. Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76). To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations. Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

©2019 Beckman Coulter, Inc.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8 Sodium Azide 1.0% de minimis concentration

SAFETY DATA SHEET

Document ID: DR0091-75 Version AG
Revision Date (year/month/day) 2018/09/24
Last Revision Date (year/month/day) 2015/10/20

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.00 - 1.03 @20°C
Color	Colorless to light yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Mild odor	**Organic**	Not determined
pH	< 1.5	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Hydrochloric Acid 0.06 ppm odor threshold value (detectable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Hydrochloric Acid CAS # 7647-01-0	Dermal LD50 Rabbit >5010 mg/kg; Inhalation LC50 Rat 1.68 mg/L 1 h; Oral LD50 Rat 238 - 277 mg/kg
Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Causes severe skin burns.
Serious eye damage/eye irritation	Causes serious eye damage.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.
target organ toxicity – single exposure	
	Not based on available data.
target organ toxicity – repeated exposure	
	Not based on available data.
Aspiration hazard	Not based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species	No information available.
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

Section 2 Hazards (Continued)

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

©2020 Beckman Coulter, Inc.

BECKMAN COULTER
Urine/CSF Albumin
Urine/CSF Albumin R1

Section 4 First Aid Measures (Continued)

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

No special precautions are necessary. Use good laboratory procedures.

6.2 Environmental Precautions

Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

No special precautions are necessary; use good laboratory procedures.

©2020 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH None established

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear protective clothing and impervious gloves, as appropriate.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.01 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	6.9 - 7.1 @24°C	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.	
Acute Toxicity	Not	based on available data.
Skin Corrosion/Irritation	Not	based on available data.
Serious eye damage/eye irritation	Not	based on available data.
Respiratory/skin sensitization	Not	based on available data.
Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.	
Germ cell mutagenicity	Not	based on available data.
Reproductive Toxicity	Not	based on available data.
target organ toxicity – single exposure		
	Not	based on available data.
target organ toxicity – repeated exposure		
	Not	based on available data.
Aspiration hazard	Not	based on available data.
Other Information	No further relevant information available.	

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]

Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2020 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

SAFETY DATA SHEET

Document ID: B38858-75 Version 05
Revision Date (year/month/day) 2020/07/28
Last Revision Date (year/month/day) 2018/08/22

Section 1 of the Substance/mixture and of the Company/undertaking

1.1 Product

Product Name Urine/CSF Albumin R2

Part Number Component of P/N B38858, B46435

1.2 Relevant uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter Ireland Inc.
Lismeehan
O'Callaghan's Mills
Co. Clare
Ireland
Tel: 353 (0)65 6831100

e-mail address SDSNT@beckman.com

Further information Contact:

Customer support Unit, Beckman Coulter Ireland Inc.

Technical Service Department Tel. +001-800-854-3633 (PST)

E-mail: Techsupportuk@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Tel +353 (0)65 683 1170; 08:00 - 16:30 hrs Mon-Thur, 08:00 - 15:30 hrs Fri (GMT) Tel +001-800-223-0130 (PST)

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards

2.1 of substance or mixture

Product Description In vitro diagnostic reagent.

Colorless; Transparent; Liquid; Odorless

according to EC 1272/2008 (CLP/GHS)

Not as hazardous per EC 1272/2008 (CLP/GHS)

©2020 Beckman Coulter, Inc.

BECKMAN COULTER
Urine/CSF Albumin
Urine/CSF Albumin R2

Section 2 Hazards (Continued)

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Not as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

2.3 Other hazards

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**
Sodium Azide CAS # 26628-22-8 EINECS # 247-852-1 Index # 011-004-00-7	< 0.1	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	Acute Tox. Oral 2, H300 Aquatic Acute 1, H400 Aquatic Longterm 1, H410	2, 8

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact

In case of skin contact, rinse with water as a precaution.

©2020 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Urine/CSF Albumin R2

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

ACGIH

Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA; 0.3 mg/m3 STEL; Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA

NIOSH

None established

Japan

None established

Sweden (AFS 2015:7 and amendments)

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TLV; 0.3 mg/m3 Binding STEL

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2020 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	1.02 @20°C
Color	Colorless	**Solubility**	
Transparency	Transparent	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.0	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

©2020 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Not based on available data.

Serious eye damage/eye irritation Not based on available data.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

©2020 Beckman Coulter, Inc.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

©2020 Beckman Coulter, Inc.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 26628-22-8	Sodium Azide	1.0% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 26628-22-8	Sodium Azide

California Proposition 65

Chemical which is known to the State of California to cause cancer

No ingredients listed.

Chemical which is known to the State of California to cause development toxicity

No ingredients listed.

Chemical which is known to the State of California to cause male reproductive toxicity

No ingredients listed.

Chemical which is known to the State of California to cause female reproductive toxicity

No ingredients listed.

Massachusetts Right To Know (RTK) List

CAS # 26628-22-8	Sodium Azide

Section 15 Regulatory Information (Continued)

Pennsylvania Right To Know (RTK) List

CAS # 26628-22-8 Sodium Azide

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

Refer to Section 3

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Updated E-mail address in Sec. 1.3.
Updated Section 8, 11, 15, 16.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been

4.3 Indication of any immediate medical attention and special treatment needed

No medical attention or treatment required.

©2019 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO2), dry chemical, water spray or foam.
For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

5.3 Advice for Protective Equipment

Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

©2019 Beckman Coulter, Inc.

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C, as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide
CAS # 26628-22-8 — 0.29 mg/m3 Ceiling (as Sodium azide); 0.11 ppm Ceiling (as Hydrazoic acid vapor)

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Dermal LD50 Rabbit 20 mg/kg; Oral LD50 Rat 27 mg/kg
Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Acute Toxicity	Not based on available data.
Skin Corrosion/Irritation	Not based on available data.
Serious eye damage/eye irritation	Not based on available data.
Respiratory/skin sensitization	Not based on available data.
Carcinogenicity	This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not based on available data.
Reproductive Toxicity	Not based on available data.
target organ toxicity – single exposure	
	Not based on available data.
target organ toxicity – repeated exposure	
	Not based on available data.
Aspiration hazard	Not based on available data.
Other Information	This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L -through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.
12.2 Persistence and degradability	Not determined for the product.
12.3 Bioaccumulation	Not determined for the product.
12.4 Mobility in soil	Not determined for the product.

©2019 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects

This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

To avoid the possible build-up of azide compounds, wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

Package disposal

Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information

Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

©2019 Beckman Coulter, Inc.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation for the substance or mixture

US Federal and State Regulations

SARA 313 (Section 313, Title III reporting requirements)

CAS # 123-91-1	1,4-Dioxane	0.1% de minimis concentration
CAS # 75-21-8	Ethylene Oxide	0.1% de minimis concentration
CAS # 26628-22-8	Sodium Azide	1.0% de minimis concentration
CAS # 75-56-9	Propylene Oxide	0.1% de minimis concentration

CERCLA (The Comprehensive Environmental Response, Compensation, and Liability Act) 40 CFR 302.4

CAS # 123-91-1	1,4-Dioxane
CAS # 75-21-8	Ethylene Oxide
CAS # 26628-22-8	Sodium Azide
CAS # 75-56-9	Propylene Oxide

California Proposition 65

⚠ **WARNING** This product can expose you to chemical which is known to the State of California to cause cancer and/or reproductive harm. For more information go to www.P65Warnings.ca.gov

Chemical which is known to the State of California to cause cancer

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany)

WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

Canada

This product is exempt from WHMIS label and SDS requirements.

15.2 Chemical Safety Assessment

A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below the cutoff limits of 0.1% for Carcinogen, mutagen and reproductive toxin and 1% for other health hazards required for reporting in Section 3

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes

Removed the of EC Directives 1999/45/EC and 67/548/EEC from Sec. 2.1. Sec 3.2 and 15.1

Updated Section 4, 6, 8, 11 - 16.

Version: 04

Description of hazard Class and hazard statements from Section 3

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
H300 - Fatal if swallowed.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

Abbreviations and Acronyms

ACGIH - American Conference of Governmental Industrial Hygienists
ADR and RID - European Agreement Concerning The International Carriage Of Dangerous Goods By Road and Rail
CERCLA - The Comprehensive Environmental Response, Compensation, and Liability Act
CLP - Labeling and Packaging
DFGMAK - Republic Germany's maximum exposure limit
GHS - Globally Harmonized System
HCS - Hazard Communication Standard
IARC - International Agency for Research on Cancer
IATA DGR - International Air Transport Association Dangerous Goods Regulation
ICAO - International Civil Aviation Organization
IMDG - International Maritime Dangerous Goods
IOELVs - European Unions' Indicative Occupational Exposure Limit Values
NIOSH - National Institute for Occupational Safety and Health
NTP - National Toxicology Program
OSHA - Occupational Safety and Health Administration
PBT - Persistent bioaccumulative and toxic substances
SARA - Superfund Amendments and Reauthorization Act
TDG - Canadian Transportation Of Dangerous Goods Regulations.
UN GHS - United Nations Globally Harmonized System
US DOT - United States Department of Transportation
WHMIS - Workplace Hazardous Material Information System
vPvB - Very persistent and very bioaccumulative substances
LC50 - Lethal Concentration, 50%
LD50 - Lethal Dose, 50%

Safety Data Sheet

Rev.02 July.07

1. Product identification

Product Name:	
Product code :	**UTM−RT MINI 1ML IN BULK 300PKG**
Producer/supplier:	**350C.DHI**
Address:	***COPAN ITALIA SPA***
Phone number:	***25125 Brescia -Italy− Via Perotti,10***
Fax number:	***Tel. ++ 39 0302687211***
	Fax ++ 39 030 2687206

2. Information on compounds

Chemical characterization
· **Description:** Mixture consisting of the following components.
· **Dangerous components:** Void

3. Hazards identification

Skin contact:	**Irritation**
Eye contact:	**Irritation**

4. First−aid measures

Skin contact:	**Immediately wash with water and soap and rinse thoroughly.**
Eye contact:	**Rinse opened eye for 15 minutes under running water. Then consult a doctor.**
Inhalation:	**In case of unconsciousness place patient on side position for transportation.**
Swallowing:	**Immediately call a doctor.**

5. Fire−fighting measures

Extinguishing media:	**CO2, extinguishing powder or water spray. Fight larger fires with water or alcohol resistant foam**
Protective equipment:	**Wear self−contained respitory protective device** **Wear fully protective suit**

6. Accidental release measures

Precautions:	**Wear protective equipment. Keep unprotected persons away**

7. Handling and storage

Handling:	**No special measures required**
Storage:	**Store away from oxidizing agents** **Store at 2°C - 25°C**

8. Exposure controls/personal protection

Respiratory protection:	**N\A**
Hand protection:	**Latex gloves**
Eye protection:	**N\A**
Skin protection:	**Protective work clothing (lab coat)**

9. Physical and chemical properties

Appearance/odour:	**Characteristic**
pH:	**7. 30 ± 0.20**
Density, kg/l:	**Not determined**
Melting point, °C:	**Not determined**
Boiling point, °C:	**Not determined**
Solubility:	**Insoluble**
Flash point, °C:	**Not applicable**

10. Stability and reactivity

Materials and conditions to avoid:	**No decomposition if used according to specifications**
Hazardous decomposition products:	**No dangerous decomposition products known**

11. Toxicological information

Skin contact:	**Irritant to skin and mucous membranes**
Eye contact:	**Irritating effect**
Toxicological data:	**Irritant** **The products shows the following dangers according to internally approved calculation methods for preparations**

12. Ecological information

Ecology:	**The ecological effects have not been thoroughly investigated, but currently none have been identified.**
General Notes:	**Not known to be hazardous to water.**

13. Disposal considerations

Reccomendation:	**Must adhere to state and federal regulations** **Must not be disposed of with solid waste**

14. Transport information

ADR/RID:	IMO/IMDG:	ICAO/IATA−DGR:
No	**No**	**No**

15. Regulatory information

Product related hazard informations:	The product has been classified and marked in accordance with regulations on hazardous materials

16. Other information

To the best of our knowledge, the information contained herein is accurate. However, neither Copan Italia or any of its subsidiaries assumes any liabilities whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user.
All materials may present unknown hazards and should be used with caution.
Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

STATEMENT

According to the Occupational Safety and Health Administration (OSHA) Hazard Communication Standard or the European Directives 91/155/EEC, 88/379/EEC and 67/548/EEC, this product is considered an "article" and does not require a Material Safety Data Sheet. According to the mentioned agencies, an article is an item which is formed into a specific shape or design during manufacture and which does not release or otherwise result in exposure to a hazardous chemical under normal use.

SECTION 1: PRODUCT AND COMPANY IDENTIFICATION

- **Product Name:** VACUETTE® Z No Additive Blood Collection Tube
- **Manufacturer/Supplier:**

AUSTRIA

- **Recommended use / restrictions of use :**
  To collect, transport and process blood for testing serum, plasma or whole blood in the clinical laboratory. To be used only by trained healthcare professionals according to instructions of use.

SECTION 2: HAZARDS IDENTIFICATION

- **Classification according to NFPA 704:** N/A
- **Classification according to Regulation (EC) No. 1272/2008 [EU-GHS/CLP]:** N/A
- **Classification according to EU Directives 67/548/EEC or 1999/45/EC:** N/A
- **Signal Word:** N/A
- **Hazard Statements:** N/A
- **Precautionary Statements:** N/A

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

- **Description: VACUETTE PET Tube** (Polyethyleneterephthalate)
- **Chemical name:** N/A
- **CAS No.** N/A
- **Quantity of substances:** N/A

SECTION 4: FIRST AID MEASURES

- **Hazard description:** N/A
- **Acute exposure effect:** N/A
- **Skin:** N/A
- **Eyes:** N/A
- **Inhalation:** N/A
- **Ingestion:** N/A

SECTION 5: FIRE-FIGHTING MEASURES

- **Suitable extinguishing media:** Use extinguishing media appropriate for surrounding fire.
- **Protective equipment:** Firefighters should wear proper protective equipment.
- **Special hazards arising from the substance or mixture:** N/A

SECTION 6: ACCIDENTAL RELEASE MEASURES

- **Personal precautions:** N/A
- **Methods for cleaning up:** N/A
- **Methods of containment:** N/A
- **Emergency procedures:** N/A

SECTION 7: HANDLING AND STORAGE

- **Handling:**
  Advice for safe handling: N/A
  Information about protection against explosions and fires: N/A
- **Storage:**
  Requirements to be met by storerooms and receptacles: N/A
  Information about storage in one common storage facility: N/A

SECTION 8: EXPOSURE CONTROLS / PERSONAL PROTECTION

- **Exposure limits:**
  OSHA PEL: N/A
  ACGIH TLV : N/A
  Other recommended limits : N/A
- **Control parameters:** N/A
- **Personal protective equipment:** N/A
  General protective and hygienic measures: N/A
  Breathing equipment: N/A
  Hand protection: N/A
  Eye protection: N/A
  Body protection: N/A
- **Special requirements for PPE:** N/A
- **Hygiene measures:** N/A
- **Appropriate engineering controls:** N/A

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

- **Appearance:** N/A
  Form: N/A
  Color: N/A
- **Odor:** N/A
- **Odor Threshold:** N/A
- **PH-value:** N/A
- **Melting point / Melting range:** N/A

- **Initial boiling point / boiling range:** N/A
- **Flash point:** N/A
- **Flammability (solid, gaseous):** N/A
- **Danger of explosion:** N/A
- **Vapor pressure:** N/A
- **Density:** N/A
- **Solubility in/Miscibility w/H_2O:** N/A
- **Organic solvents:** N/A
- **Solids content:** N/A
- **Partition coefficient: n-octanol/water:** N/A
- **Auto-ignition temperature:** N/A
- **Decomposition temperature:** N/A
- **Viscosity:** N/A
- **Oxidizing properties:** N/A

SECTION 10: STABILITY AND REACTIVITY

- **Reactivity:** No data available
- **Chemical Stability:** No data available
- **Possibility of hazardous reactions:** No data available
- **Conditions to avoid:** No data available
- **Incompatible materials:** No data available
- **Hazardous decomposition products:** No data available

SECTION 11: TOXICOLOGICAL INFORMATION

- **Acute toxicity:** N/A
  Eye: N/A
  Skin: N/A
  Inhalation: N/A
  Ingestion: N/A
- **Primary irritant effect:**
  On the skin: Not established
  On the eye: Not established
- **Sensitization:** Not established
- **Additional toxicological information:** None identified

SECTION 12: ECOLOGICAL INFORMATION

- **Ecotoxilogical effects:** No data is available on the adverse effects of this material on the environment.
- **Other information:** N/A
- **General notes:** N/A

SECTION 13: DISPOSAL CONSIDERATION

- **Product: Recommendation**
  Disposal should be done in accordance with all federal, state and local environmental regulations. This product is not a hazardous waste according to local regulations.
- **Packaging: Recommendation**
  Disposal should be done in accordance with all federal, state and local environmental regulations. This product is not a hazardous waste according to local regulations.

SECTION 14: TRANSPORT INFORMATION

- **DOT regulations:** Not regulated
- **Land transport ADR/RID:** Not regulated

- **Maritime transport IMDG:** Not regulated
- **Air transport ICAO-TI and IATA-DGR:** Not regulated

SECTION 15: REGULATORY INFORMATION

- **OSHA, 29 CFR 1910.1200(g) and Appendix D. United Nations Globally Harmonized System of Classification and Labelling of Chemicals (GHS), third revised edition, United Nations, 2009**
- **EC directives: 91/155/EEC, 93/112/EC, 88/379/EEC**
- **Water hazard class:** N/A
- **Note:** Please note that there may be additional legal provisions to be observed. We recommend that you keep yourself informed about all applicable international, national and local regulations.

SECTION 16: OTHER INFORMATION

To the best of our knowledge, the information contained herein is accurate. However, neither Greiner Bio-One nor any of its subcontractors or suppliers assumes any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.

VALIDATE® Calibration Verification Test Kit

Safety Data Sheet

according to Regulation (EC) No. 453/2010 and 29 CFR § 1910.1200

Revision date: 11/05/2017 Supersedes: 25/07/2016 Version: 11.0

SECTION 1: Identification of the substance/mixture and of the company/undertaking

1.1. Product identifier

Product form	:	Mixture
Name	:	VALIDATE® Calibration Verification Test Kit
Product code	:	203, 301, 306, 307, 308, 401, 402, 406, 407, 501, 502, 504, 506, 601, 602, 703, 901, 1100, 1300, 1400au, 1400ri

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Use of the substance/preparation	:	Intended for *in vitro* diagnostic use in the quantitative determination of linearity, calibration verification and verification of reportable range in automated, semi-automated and manual instrument systems.

1.2.2. Uses advised against

No additional information available

1.3. Details of the supplier of the safety data sheet

Maine Standards Company, LLC
221 US Route 1
Cumberland Foreside, ME 04110 - USA
800-377-9684; 207-892-1300 Hours: 8:30 AM to 5:00 PM, Eastern Time, Monday through Thursday. 8:30 AM to 4:00 PM on Friday.

1.4. Emergency telephone number

Emergency number	:	Contact the CHEMTREC® Emergency Call Center for assistance with transportation or hazardous materials emergencies (24 hours/day, 7 days/week). Refer to Maine Standards Company LLC customer number 798037. Within USA and Canada: 1-800-424-9300 or +1 703-527-3887 (collect calls accepted)

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP]

Not classified.

Full text of H-phrases: see section 16.

Classification according to Directive 67/548/EEC or 1999/45/EC [DPD]

Not classified.

Full text of R-phrases: see section 16.

Classification according to 2012 29 CFR § 1910.1200 (OSHA-GHS)

Not classified.

Classification according to WHMIS (Controlled Products Regulations)

Not classified.

Adverse physicochemical, human health and environmental effects

None under normal conditions. However, product does contain material of human origin and should be considered potentially infectious.

2.2. Label elements

Labelling according to Regulation (EC) No. 1272/2008 [CLP]

Hazard pictograms (CLP)	:	No symbol required
Signal word (CLP)	:	Not Applicable
Hazard statements (CLP)	:	Not Applicable
Precautionary statements (CLP)	:	Not Applicable
EUH phrases	:	Not Applicable

Labelling according to 2012 29 CFR § 1910.1200 [OSHA]

Hazard pictograms (OSHA)	:	No symbol required
Signal word (OSHA)	:	Not Applicable
Hazard statements (OSHA)	:	Not Applicable
Precautionary statements (OSHA)	:	Not Applicable

2.3. Other hazards

Each human donor used in the preparation of the product was tested and found non-reactive for Anti-HIV I/II, Anti-HCV, and HbsAg, with kits approved by the United States FDA.

PBT: not relevant – no registration required

vPvB: not relevant – no registration required

VALIDATE® Calibration Verification Test Kit

Safety Data Sheet

according to Regulation (EC) No. 453/2010 and 29 CFR § 1910.1200

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

Name	Product identifier	%	Classification according to Directive 67/548/EEC	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Human Serum Albumin	(CAS No.) 70024-90-7 EINECS:274-272-6	60-100		

Additional information: Contains human sourced and/or potentially infectious material.

Full text of R-, H- and EUH-phrases: see section 16.

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : If symptoms are experienced remove source of contamination or move victim to fresh air. Obtain medical advice.

First-aid measures after skin contact : No health effects expected. If irritation does occur, flush with lukewarm, gently flowing water for 5 minutes or until chemical is removed.

First-aid measures after eye contact : No effects expected. If irritation does occur, flush contaminated eye(s) with lukewarm, gently flowing water for 5 minutes or until the chemical is removed. If irritation persists, obtain medical advice.

First-aid measures after ingestion : If irritation or discomfort occurs, obtain medical advice immediately.

4.2. Most important symptoms and effects, both acute and delayed

Symptoms/injuries after inhalation : Overexposure to mists or spray may produce slight irritation of the respiratory system.

Symptoms/injuries after skin contact : May cause slight irritation to the skin.

Symptoms/injuries after eye contact : May cause slight irritation to eyes.

Symptoms/injuries after ingestion : May cause gastric irritation.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media: : Powder, alcohol-resistant foam, water spray, carbon dioxide.

Unsuitable extinguishing media : None known.

5.2. Special hazards arising from the substance or mixture

Fire hazard : No particular fire or explosion hazard. In case of fire it can release carbon oxides, nitrogen oxides, hydrogen chloride and/or chlorine gases, disodium oxide and other toxic and irritating fumes.

Reactivity : No dangerous reactions known under normal conditions of use.

5.3. Advice for firefighters

Protective equipment for firefighters : In case of fire: Wear self-contained breathing apparatus. Wear recommended personal protective equipment.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Protective equipment : Wear suitable protective clothing, gloves and eye/face protection.

6.1.2. For emergency responders

Protective equipment : Wear suitable protective clothing, gloves and eye/face protection.

Emergency procedures : Avoid all eye and skin contact and do not breathe spray and mist. Prevent product from entering drains.

6.2. Environmental precautions

Prevent product from entering drains.

6.3. Methods and material for containment and cleaning up

For containment : Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents).

Methods for cleaning up : Absorb with liquid-binding material (e.g. sand, diatomaceous earth, acid- or universal binding agents). Collect all waste in suitable and labelled containers and dispose according to local legislation.

6.4. Reference to other sections

Refer to sections 8 and 13.

VALIDATE® Calibration Verification Test Kit

Safety Data Sheet

according to Regulation (EC) No. 453/2010 and 29 CFR § 1910.1200

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Precautions for safe handling	:	Avoid all unnecessary exposure. Handle as if potentially infectious.
Hygiene measures	:	Handle in accordance with good industrial hygiene and safety practice. Wash hands thoroughly after handling. Do not eat, drink or smoke when using this product. Contaminated work clothing must not be allowed out of the workplace.

7.2. Conditions for safe storage, including any incompatibilities

Technical measures:	:	Provide local exhaust or general room ventilation.
Storage condition(s)	:	Keep container tightly closed and dry. Store in well ventilated area. Keep cool.
Incompatible materials	:	None Known

7.3. Specific end use(s)

Intended for in vitro diagnostic use in the quantitative determination of linearity, calibration verification and verification of reportable range in automated, semi-automated and manual instrument systems.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

None

8.2. Exposure controls

Appropriate engineering controls	:	Either local exhaust or general room ventilation is usually required.
Personal protective equipment	:	Gloves. Safety glasses.

Hand protection	:	If this material may come in contact with the hands during handling and use, we recommend wearing gloves of the following material(s): natural rubber latex, neoprene, nitrile, or polyvinyl chloride (PVC). Consult your PPE provider for breakthrough times and the specific glove that is best for you based on your use patterns.
Eye protection	:	As a minimum, safety glasses with side shields should be worn when handling this material
Skin and Body protection	:	If this material may come into contact with the body during handling and use, we recommend wearing appropriate protective clothing to prevent contact with the skin.
Respiratory protection	:	With correct and proper use, and under normal conditions, breathing protection is not required
Environmental exposure controls	:	None known.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state	:	Liquid
Colour	:	Colourless to slightly yellow
Odour	:	No data available
Odour threshold	:	No data available
pH	:	No data available
Melting point	:	No data available
Solidification point	:	No data available
Boiling point	:	No data available
Flash point	:	No data available
Relative evaporation rate (butylacetate=1)	:	No data available
Flammability (solid, gas)	:	Not applicable.
Explosive limits	:	No data available
Vapour pressure	:	No data available
Relative vapour density at 20 °C	:	No data available
Relative density	:	No data available
Solubility	:	Water: Soluble in water
Log Pow	:	No data available
Log Kow	:	No data available
Self ignition temperature	:	No data available
Decomposition temperature	:	No data available
Viscosity, kinematic	:	No data available
Viscosity, dynamic	:	No data available
Explosive properties	:	Not explosive.
Oxidising properties	:	Not oxidizing.

9.2. Other information

Upper flammable Limit	:	No Data Available
Lower Flammable Limit	:	No Data Available
Sensitivity to mechanical impact	:	No Data Available
Sensitivity to static discharge	:	No Data Available

SECTION 10: Stability and reactivity

10.1. Reactivity

No dangerous reactions known under normal conditions of use.

10.2. Chemical stability

Stable in use and storage conditions as recommended in item 7.

10.3. Possibility of hazardous reactions

None under normal conditions.

10.4. Conditions to avoid

Incompatible materials.

10.5. Incompatible materials

None known.

10.6. Hazardous decomposition products

No hazardous decomposition products known at room temperature.

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Routes of Entry	:	Skin, Eyes, Inhalation and Ingestion
Acute toxicity	:	(Mixture not tested. Based on available data.)

Human Serum Albumin CAS#70024-90-7	
No data available	

Skin corrosion/irritation	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Serious eye damage/irritation	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Respiratory or skin sensitisation	:	May cause an allergic skin reaction (Mixture not tested. Based on available data.)
Germ cell mutagenicity	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Carcinogenicity	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met). No ingredient present at greater than 0.1% is listed in National Toxicology Program (NTP) Report on Carcinogens (12th Edition), the International Agency for Research on Cancer (IARC) Monographs (Volumes 1–105), or by OSHA.
Reproductive toxicity	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Teratogenicity/Embryotoxicity	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Specific target organ toxicity (single exposure)	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Specific target organ toxicity (repeated exposure)	:	Not classified (Mixture not tested. Based on available data, the classification criteria are not met)
Aspiration hazard	:	Not classified (Not applicable)
Potential Adverse human health effects and symptoms	:	May cause slight temporary irritation.
Toxicologically Synergistic Materials	:	None known

SECTION 12: Ecological information

12.1. Toxicity

None

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

None

12.4. Mobility in soil

No additional information available

12.5. Results of PBT and vPvB assessment

VALIDATE® Calibration Verification Test Kit
PBT: not relevant – no registration required
vPvB: not relevant – no registration required

12.6. Other adverse effects

No additional information available

VALIDATE® Calibration Verification Test Kit

Safety Data Sheet

according to Regulation (EC) No. 453/2010 and 29 CFR § 1910.1200

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste disposal recommendations : Dispose of this material and its container at hazardous or special waste collection point. Can be deposited in landfills, sent to an incineration or other appropriate means of disposal provided they meet the requirements of local laws. Comply with applicable local, national and international regulation.

SECTION 14: Transport information

Not regulated for transport.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

15.1.1. EU-Regulations

Contains no REACH candidate substance

15.1.2. National regulations

Regional legislation : Canada: This product has been classified in accordance with the hazard criteria of the *Controlled Products Regulations* and the MSDS contains all the information required by the *Controlled Products Regulations*.

CAS#70024-90-7 is not listed on Canada's DSL List or Ingredient Disclosure List

USA: This product has been classified in accordance with the 2012 hazard criteria of the *Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard (HCS)* and the SDS contains all the information required by the 29 CFR § 1910.1200.

15.2. Chemical safety assessment

CSA has not been established

SECTION 16: Other information

Sources of Key data : Data arise from reference works and literature.

Abbreviations and acronyms : WHMIS – Workplace Hazardous Material Information System
CFR - Code of Federal Regulations
CLP - Classification, Labelling and Packaging
CSA – Chemical Safety Assessment
DPD – Dangerous Products Directive
EC - European Community
EC No. - European Commission number
EEC - European Economic Community
EN - European Norm
EU- European Union
GHS – Globally Harmonized System
h – hours
H-phrases – Hazard phrases
Log Pow – Log of the Octanol/Water Partition Coefficient
MSDS – Material Safety Data Sheet
No. – Number
OSHA - Occupational Safety and Health Administration
PBT - Persistent, Bioaccumulative and Toxic substance
PPE – Personal Protective Equipment
REACH - Registration, Evaluation, Authorisation and Restriction of Chemicals
R-phrases – Risk phrases
SDS – Safety Data Sheet
vPvB - Very Persistent and Very Bioaccumulative
WHMIS – Workplace Hazardous Material Information System

SDS EU (REACH Annex II)

This information is based on our current knowledge and is intended to describe the product for the purposes of health, safety and environmental requirements only. It should not therefore be construed as guaranteeing any specific property of the product.

05/06/2019

Kit Components

Product code	Description
12000447 **2702455** **2702455EX**	**Variant II Turbo HbA1c Kit**

Components:

2702456	Variant II Turbo HbA1c Kit 2.0 Elution Buffer A
2702457	Variant II Turbo HbA1c Kit 2.0 Elution Buffer B
2702459	Variant II Turbo HbA1c Kit 2.0 Calibrator 1
2702460	Variant II Turbo HbA1c Kit 2.0 Calibrator 2
2702462	Variant II Turbo HbA1c Kit 2.0 Analytical Cartridge

BIO-RAD

Safety Data Sheet
acc. to OSHA HCS

Printing date 05/06/2019 Reviewed on 04/16/2019

1 Identification

· **Product identifier**

· **Trade name:** **Variant II Turbo HbA1c Kit 2.0 Elution Buffer A**

· **Catalog or product number:** 2702456
· **Application of the substance / the mixture** In-vitro laboratory reagent or component

· **Details of the supplier of the safety data sheet**
· **Manufacturer/Supplier:**
Bio-Rad Laboratories, Diagnostic Group
4000 Alfred Nobel Drive
Hercules, California 94547 1(510)724-7000

· **Information department:** TechsupportUSSD@bio-rad.com
· **Emergency telephone number:**
1(800) 424-9300 Use only in the event of a CHEMICAL EMERGENCY involving a SPILL, LEAK, FIRE, EXPLOSION, or ACCIDENT.

2 Hazard(s) identification

· **Classification of the substance or mixture**
The product is not classified, according to the Globally Harmonized System (GHS).

· **Label elements**
· **GHS label elements** Void
· **Hazard pictograms** Void
· **Signal word** Void
· **Hazard statements** Void

3 Composition/information on ingredients

· **Chemical characterization: Mixtures**
· **Description:** Mixture of the substances listed below with non-hazardous additions.

· **Listing of dangerous and non-hazardous components:** Void
· **Additional information** For the wording of the listed risk phrases refer to section 15.

4 First-aid measures

· **Description of first aid measures**
· **General information** No special measures required.
· **After inhalation** Supply fresh air; consult doctor in case of complaints.
· **After eye contact** Rinse opened eye for several minutes under running water.
· **After swallowing** Rinse mouth with water. Seek medical attention and appropriate follow-up.
· **Information for doctor**
· **Most important symptoms and effects, both acute and delayed** No further relevant information available.
· **Indication of any immediate medical attention and special treatment needed** No further relevant information available.

5 Fire-fighting measures

· **Extinguishing media**
· **Suitable extinguishing agents** Use fire fighting measures that suit the environment.

(Contd. on page 2)

Safety Data Sheet
acc. to OSHA HCS

Printing date 05/06/2019 Reviewed on 04/16/2019

Trade name: Variant II Turbo HbA1c Kit 2.0 Elution Buffer A

(Contd. of page 1)

· **Special hazards arising from the substance or mixture** No further relevant information available.
· **Advice for firefighters**
· **Protective equipment:** No special measures required.

6 Accidental release measures

· **Personal precautions, protective equipment and emergency procedures** Wear protective clothing.
· **Environmental precautions:** Dilute with plenty of water.
· **Methods and material for containment and cleaning up:**
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
· **Reference to other sections**
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
· **Protective Action Criteria for Chemicals**

· **PAC-1:**
None of the ingredients is listed.

· **PAC-2:**
None of the ingredients is listed.

· **PAC-3:**
None of the ingredients is listed.

7 Handling and storage

· **Handling**
· **Precautions for safe handling** No special precautions are necessary if used correctly.
· **Information about protection against explosions and fires:** No special measures required.

· **Conditions for safe storage, including any incompatibilities**
· **Storage**
· **Requirements to be met by storerooms and receptacles:** According to product specification
· **Information about storage in one common storage facility:** Not required.
· **Further information about storage conditions:** None.
· **Specific end use(s)** No further relevant information available.

*
8 Exposure controls/personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

· **Control parameters**

· **Components with limit values that require monitoring at the workplace:**	
26628-22-8 sodium azide	
REL (United States)	Ceiling limit value: 0.3** mg/m³, 0.1* ppm *as HN3; **as NaN3; Skin
TLV (United States)	Ceiling limit value: 0.29** mg/m³, 0.11* ppm *as HN3 vapor **as NaN3

(Contd. on page 3)

Safety Data Sheet
acc. to OSHA HCS

Printing date 05/06/2019 Reviewed on 04/16/2019

Trade name: Variant II Turbo HbA1c Kit 2.0 Elution Buffer A

(Contd. of page 2)

· **Additional information:** The lists that were valid during the creation were used as basis.

· **Exposure controls**
· **Personal protective equipment**
· **General protective and hygienic measures** The usual precautionary measures for handling chemicals should be followed.
· **Breathing equipment:**
Not required.
Not necessary if room is well-ventilated. Adequate ventilation required.
· **Protection of hands:** Protective gloves.
· **Material of gloves** Synthetic gloves
· **Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
· **Eye protection:** Safety glasses

*

9 Physical and chemical properties

· **Information on basic physical and chemical properties**	
· **General Information**	
· **Appearance:**	
Form:	Liquid
Color:	Colorless
· **Odor:**	Odorless
· **Odor threshold:**	Not determined.
· **pH-value at 20 °C:**	6
· **Change in condition**	
Melting point/Melting range:	undetermined
Boiling point/Boiling range:	100 °C
· **Flash point:**	Not applicable Not determined.
· **Flammability (solid, gaseous)**	Not applicable.
· **Decomposition temperature:**	Not determined.
· **Auto igniting:**	Product is not selfigniting.
· **Danger of explosion:**	Product does not present an explosion hazard. Not determined.
· **Explosion limits:**	
Lower:	Not determined.
Upper:	Not determined.
· **Vapor pressure at 20 °C:**	23 hPa
· **Density:**	Not determined
· **Relative density**	Not determined.
· **Vapor density**	Not determined.
· **Evaporation rate**	Not determined.
· **Solubility in / Miscibility with**	
Water:	Fully miscible

(Contd. of page 3)

· **Partition coefficient (n-octanol/water):** Not determined.	
· **Viscosity:**	
dynamic at 20 °C:	0.952 mPas
kinematic:	Not determined.
· **Solvent content:**	
Water:	99.2 %
Solids content:	0.3 %
· **Other information**	No further relevant information available.

*
10 Stability and reactivity

· **Reactivity** No further relevant information available.
· **Chemical stability**
· **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
· **Possibility of hazardous reactions** No dangerous reactions known
· **Conditions to avoid** No further relevant information available.
· **Incompatible materials:** No further relevant information available.
· **Hazardous decomposition products:** No dangerous decomposition products known

11 Toxicological information

· **Information on toxicological effects**
· **Acute toxicity:**
· **Primary irritant effect:**
· **on the skin:** No irritant effect.
· **on the eye:** No irritant effect.
· **Sensitization:** No sensitizing effects known.
· **Additional toxicological information:**
The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

· **Carcinogenic categories**

· **IARC (International Agency for Research on Cancer)**
None of the ingredients is listed.

· **NTP (National Toxicology Program)**
None of the ingredients is listed.

· **OSHA-Ca (Occupational Safety & Health Administration)**
None of the ingredients is listed.

· **Target organs:** Not applicable.

12 Ecological information

· **Toxicity**
· **Aquatic toxicity:** No further relevant information available.
· **Persistence and degradability** No further relevant information available.
· **Behavior in environmental systems:**
· **Bioaccumulative potential** No further relevant information available.
· **Mobility in soil** No further relevant information available.
· **Additional ecological information:**
· **General notes:** Generally not hazardous for water.
· **Results of PBT and vPvB assessment**
· **PBT:** Not applicable.
· **vPvB:** Not applicable.
· **Other adverse effects** No further relevant information available.

13 Disposal considerations

· **Waste treatment methods**
· **Recommendation**
Dispose of waste in accordance to applicable national, regional, or local regulations.
Flush pipes with water frequently if discarding solutions containing sodium azide into metal piping systems.
Perchlorate material - special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate

· **Uncleaned packagings:**
· **Recommendation:** Disposal must be made according to official regulations.
· **Recommended cleansing agent:** Water, if necessary with cleansing agents.

*
14 Transport information

· **UN-Number** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **UN proper shipping name** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **Transport hazard class(es)** · **DOT, ADR, ADN, IMDG, IATA** · **Class**	Void
· **Packing group** · **DOT, ADR, IMDG, IATA**	Void
· **Environmental hazards:**	Not applicable.
· **Special precautions for user**	Not applicable.
· **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**	Not applicable.

(Contd. of page 5)

· **UN "Model Regulation":** Void

*
15 Regulatory information

· **Safety, health and environmental regulations/legislation specific for the substance or mixture**
· **SARA (Superfund Amendents and Reauthorization Act of 1986 - USA)**

· **Section 302/304 (40CFR355.30 / 40CFR355.40):**
None of the ingredients is listed.

· **Section 313 (40CFR372.65):**
None of the ingredients is listed.

· **TSCA (Toxic Substances Control Act):**

7601-89-0	sodium perchlorate
26628-22-8	sodium azide
110-15-6	succinic acid
7732-18-5	water

· **California Proposition 65:**

· **Chemicals known to cause cancer:**
The product does not contain listed components.

· **Chemicals known to cause reproductive toxicity for females:**
None of the ingredients is listed.

· **Chemicals known to cause reproductive toxicity for males:**
None of the ingredients is listed.

· **Developmental Toxicity**
None of the ingredients is listed.

· **Carcinogenic categories**

· **TLV (Threshold Limit Value established by ACGIH)**
None of the ingredients is listed.

· **NIOSH-Ca (National Institute for Occupational Safety and Health)**
None of the ingredients is listed.

· **National regulations**

· **Water hazard class:** Generally not hazardous for water.
· **Chemical safety assessment:** A Chemical Safety Assessment has not been carried out.

· **Other adverse effects** No further relevant information available.

*
13 Disposal considerations

· **Waste treatment methods**
· **Recommendation**
Dispose of waste in accordance to applicable national, regional, or local regulations.
Flush pipes with water frequently if discarding solutions containing sodium azide into metal piping systems.
Perchlorate material - special handling may apply. See www.dtsc.ca.gov/hazardouswaste/perchlorate

· **Uncleaned packagings:**
· **Recommendation:** Disposal must be made according to official regulations.
· **Recommended cleansing agent:** Water, if necessary with cleansing agents.

*
14 Transport information

15 Regulatory information

· **Safety, health and environmental regulations/legislation specific for the substance or mixture**
· **SARA (Superfund Amendents and Reauthorization Act of 1986 - USA)**

· **Section 302/304 (40CFR355.30 / 40CFR355.40):**
None of the ingredients is listed.

· **Section 313 (40CFR372.65):**
None of the ingredients is listed.

· **TSCA (Toxic Substances Control Act):**

7601-89-0	sodium perchlorate
26628-22-8	sodium azide
110-15-6	succinic acid
7732-18-5	water

· **TSCA new (21st Century Act)**

7601-89-0	sodium perchlorate	ACTIVE/EXEMPT

· **California Proposition 65:**

· **Chemicals known to cause cancer:**
The product does not contain listed components.

· **Chemicals known to cause reproductive toxicity for females:**
None of the ingredients is listed.

· **Chemicals known to cause reproductive toxicity for males:**
None of the ingredients is listed.

· **Developmental Toxicity**
None of the ingredients is listed.

· **Carcinogenic categories**

· **EPA (Environmental Protection Agency)**

7601-89-0	sodium perchlorate	NL

· **TLV (Threshold Limit Value established by ACGIH)**
None of the ingredients is listed.

· **NIOSH-Ca (National Institute for Occupational Safety and Health)**
None of the ingredients is listed.

· **Application of the substance / the mixture** In-vitro laboratory reagent or component

· **Details of the supplier of the safety data sheet**
· **Manufacturer/Supplier:**
Bio-Rad Laboratories, Diagnostic Group
4000 Alfred Nobel Drive
Hercules, California 94547 1(510)724-7000

· **Information department:** TechsupportUSSD@bio-rad.com
· **Emergency telephone number:**
1(800) 424-9300 Use only in the event of a CHEMICAL EMERGENCY involving a SPILL, LEAK, FIRE, EXPLOSION, or ACCIDENT.

*
2 Hazard(s) identification

· **Classification of the substance or mixture**
The product is not classified, according to the Globally Harmonized System (GHS).

· **Label elements**
· **GHS label elements** Void
· **Hazard pictograms** Void
· **Signal word** Void
· **Hazard statements** Void
· **Classification system**
· **Special Hazards** Contains human sourced and/or potentially infectious components.

*
3 Composition/information on ingredients

· **Chemical characterization: Mixtures**
· **Description:** Mixture of the substances listed below with non-hazardous additions.

· **Listing of dangerous and non-hazardous components:**		
57-50-1	sucrose, pure	10-20%

· **Additional information**
Contains human sourced and/or potentially infectious components.
For the wording of the listed risk phrases refer to section 15.

*
4 First-aid measures

· **Description of first aid measures**
· **General information** No special measures required.
· **After inhalation** Supply fresh air; consult doctor in case of complaints.
· **After skin contact** Generally the product does not irritate the skin.
· **After eye contact** Rinse opened eye for several minutes under running water.
· **After swallowing** Rinse mouth with water. Seek medical attention and appropriate follow-up.
· **Information for doctor**
· **Most important symptoms and effects, both acute and delayed** No further relevant information available.

5 Fire-fighting measures

· **Extinguishing media**
· **Suitable extinguishing agents** Use fire fighting measures that suit the environment.
· **Special hazards arising from the substance or mixture** No further relevant information available.
· **Advice for firefighters**
· **Protective equipment:** No special measures required.

*
6 Accidental release measures

· **Personal precautions, protective equipment and emergency procedures** Wear protective clothing.
· **Environmental precautions:** Do not allow to enter sewers/ surface or ground water.
· **Methods and material for containment and cleaning up:** Pick up mechanically.
· **Reference to other sections**
No dangerous substances are released.
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
· **Protective Action Criteria for Chemicals**

· **PAC-1:**
None of the ingredients is listed.

· **PAC-2:**
None of the ingredients is listed.

· **PAC-3:**
None of the ingredients is listed.

*
7 Handling and storage

· **Handling**
· **Precautions for safe handling** No special measures required.
· **Information about protection against explosions and fires:** No special measures required.

· **Conditions for safe storage, including any incompatibilities**
· **Storage**
· **Requirements to be met by storerooms and receptacles:** According to product specification
· **Information about storage in one common storage facility:** Not required.
· **Further information about storage conditions:** None.
· **Specific end use(s)** No further relevant information available.

*
8 Exposure controls/personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

Safety Data Sheet
acc. to OSHA HCS

Printing date 05/06/2019 Reviewed on 05/06/2019

1 Identification

· **Product identifier**

· **Trade name: Variant II Turbo HbA1c Kit 2.0 Analytical Cartridge**

· **Catalog or product number:** 2702462
· **Application of the substance / the mixture** In-vitro laboratory reagent or component

· **Details of the supplier of the safety data sheet**
· **Manufacturer/Supplier:**
Bio-Rad Laboratories, Diagnostic Group
4000 Alfred Nobel Drive
Hercules, California 94547 1(510)724-7000

· **Information department:** TechsupportUSSD@bio-rad.com
· **Emergency telephone number:**
1(800) 424-9300 Use only in the event of a CHEMICAL EMERGENCY involving a SPILL, LEAK, FIRE, EXPLOSION, or ACCIDENT.

*
2 Hazard(s) identification

· **Classification of the substance or mixture**
The product is not classified, according to the Globally Harmonized System (GHS).

· **Label elements**
· **GHS label elements** Void
· **Hazard pictograms** Void
· **Signal word** Void
· **Hazard statements** Void

*
3 Composition/information on ingredients

· **Chemical characterization: Mixtures**
· **Description:** Mixture of the substances listed below with non-hazardous additions.

· **Listing of dangerous and non-hazardous components:** Void
· **Additional information** For the wording of the listed risk phrases refer to section 15.

*
4 First-aid measures

· **Description of first aid measures**
· **General information** No special measures required.
· **After inhalation** Supply fresh air; consult doctor in case of complaints.
· **After skin contact** Generally the product does not irritate the skin.
· **After eye contact** Rinse opened eye for several minutes under running water.
· **After swallowing** Rinse mouth with water. Seek medical attention and appropriate follow-up.
· **Information for doctor**
· **Most important symptoms and effects, both acute and delayed** No further relevant information available.
· **Indication of any immediate medical attention and special treatment needed** No further relevant information available.

(Contd. on page 2)

5 Fire-fighting measures

· **Extinguishing media**
· **Suitable extinguishing agents** Use fire fighting measures that suit the environment.
· **Special hazards arising from the substance or mixture** No further relevant information available.
· **Advice for firefighters**
· **Protective equipment:** No special measures required.

*
6 Accidental release measures

· **Personal precautions, protective equipment and emergency procedures** Wear protective clothing.
· **Environmental precautions:** Do not allow to enter sewers/ surface or ground water.
· **Methods and material for containment and cleaning up:** Pick up mechanically.
· **Reference to other sections**
No dangerous substances are released.
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.
· **Protective Action Criteria for Chemicals**

· **PAC-1:**
None of the ingredients is listed.

· **PAC-2:**
None of the ingredients is listed.

· **PAC-3:**
None of the ingredients is listed.

*
7 Handling and storage

· **Handling**
· **Precautions for safe handling** No special measures required.
· **Information about protection against explosions and fires:** No special measures required.

· **Conditions for safe storage, including any incompatibilities**
· **Storage**
· **Requirements to be met by storerooms and receptacles:** According to product specification
· **Information about storage in one common storage facility:** Not required.
· **Further information about storage conditions:** None.
· **Specific end use(s)** No further relevant information available.

8 Exposure controls/personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

· **Control parameters**
· **Components with limit values that require monitoring at the workplace:**
The product does not contain any relevant quantities of materials with critical values that have to be monitored at the workplace.

Safety Data Sheet
acc. to OSHA HCS

Printing date 05/06/2019 Reviewed on 05/06/2019

Trade name: Variant II Turbo HbA1c Kit 2.0 Analytical Cartridge

(Contd. of page 2)

· **Additional information:** The lists that were valid during the creation were used as basis.

· **Exposure controls**
· **Personal protective equipment**
· **General protective and hygienic measures** The usual precautionary measures for handling chemicals should be followed.
· **Protection of hands:** Protective gloves.
· **Material of gloves** Synthetic gloves
· **Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
· **Eye protection:** Safety glasses

*

9 Physical and chemical properties

· **Information on basic physical and chemical properties**	
· **General Information**	
· **Appearance:**	
Form:	Granulate
Color:	Whitish
· **Odor:**	Odorless
· **Odor threshold:**	Not determined.
· **pH-value:**	Not applicable.
· **Change in condition**	
Melting point/Melting range:	undetermined
Boiling point/Boiling range:	undetermined
· **Flash point:**	Not applicable Not determined.
· **Flammability (solid, gaseous)**	Not determined.
· **Decomposition temperature:**	Not determined.
· **Auto igniting:**	Product is not selfigniting.
· **Danger of explosion:**	Product does not present an explosion hazard. Not determined.
· **Explosion limits:**	
Lower:	Not determined.
Upper:	Not determined.
· **Vapor pressure:**	Not applicable.
· **Density at 20 °C:**	1.02938 g/cm³
· **Relative density**	Not determined.
· **Vapor density**	Not applicable.
· **Evaporation rate**	Not applicable.
· **Solubility in / Miscibility with**	
Water:	Insoluble
· **Partition coefficient (n-octanol/water):**	Not determined.

(Contd. on page 4)

Safety Data Sheet
acc. to OSHA HCS

(Contd. of page 3)

· **Viscosity:**	
dynamic:	Not applicable.
kinematic:	Not applicable.
· **Solvent content:**	
Water:	2.0 %
Solids content:	98.0 %
· **Other information**	No further relevant information available.

*
10 Stability and reactivity

· **Reactivity** No further relevant information available.
· **Chemical stability**
· **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
· **Possibility of hazardous reactions** No dangerous reactions known
· **Conditions to avoid** No further relevant information available.
· **Incompatible materials:** No further relevant information available.
· **Hazardous decomposition products:** No dangerous decomposition products known

*
11 Toxicological information

· **Information on toxicological effects**
· **Acute toxicity:**
· **Primary irritant effect:**
· **on the skin:** No irritant effect.
· **on the eye:** No irritant effect.
· **Sensitization:** No sensitizing effects known.
· **Additional toxicological information:**
The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

· **Carcinogenic categories**

· **IARC (International Agency for Research on Cancer)**
None of the ingredients is listed.

· **NTP (National Toxicology Program)**
None of the ingredients is listed.

· **OSHA-Ca (Occupational Safety & Health Administration)**
None of the ingredients is listed.

· **Target organs:** Not applicable.

*
12 Ecological information

· **Toxicity**
· **Aquatic toxicity:** No further relevant information available.

· **Persistence and degradability** No further relevant information available.
· **Behavior in environmental systems:**
· **Bioaccumulative potential** No further relevant information available.
· **Mobility in soil** No further relevant information available.
· **Additional ecological information:**
· **General notes:**
Water hazard class 1 (German Regulation) (Self-assessment): slightly hazardous for water.
Do not allow undiluted product or large quantities of it to reach ground water, water course or sewage system.
· **Results of PBT and vPvB assessment**
· **PBT:** Not applicable.
· **vPvB:** Not applicable.
· **Other adverse effects** No further relevant information available.

*
13 Disposal considerations

· **Waste treatment methods**
· **Recommendation**
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
Dispose of waste in accordance to applicable national, regional, or local regulations.

· **Uncleaned packagings:**
· **Recommendation:** Disposal must be made according to official regulations.

*
14 Transport information

· **UN-Number** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **UN proper shipping name** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **Transport hazard class(es)** · **DOT, ADR, ADN, IMDG, IATA** · **Class**	Void
· **Packing group** · **DOT, ADR, IMDG, IATA**	Void
· **Environmental hazards:** · **Marine pollutant:**	No
· **Special precautions for user**	Not applicable.
· **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**	Not applicable.
· **Transport/Additional information:**	Not dangerous according to the above specifications.
· **UN "Model Regulation":**	Void

SAFETY DATA SHEET

Virex TB Ready-To-Use Disinfectant Cleaner

Version Number: 1 **Preparation date:** 2014-10-09

1. IDENTIFICATION

Product name: Virex TB Ready-To-Use Disinfectant Cleaner
Product Code: 04743
SDS #: MS0800547
Recommended use:
- Industrial/Institutional
- Disinfectant
- This product is intended to be used neat.

Uses advised against: Uses other than those identified are not recommended

Manufacturer, importer, supplier:
US Headquarters
Diversey, Inc.
8310 16th St.
Sturtevant, Wisconsin 53177-1964
Phone: 1-888-352-2249
MSDS Internet Address: www.diversey.com

Canadian Headquarters
Diversey, Inc. - Canada
3755 Laird Road
Mississauga, Ontario L5L 0B3
Phone: 1-800-668-3131

Emergency telephone number: 1-800-851-7145 (U.S.); 1-651-917-6133 (Int'l)

2. HAZARDS IDENTIFICATION

Classification for the undiluted product
Serious eye damage/eye irritation Category 2A

Signal Word: **Warning**

Precautionary Statements
CAUSES SERIOUS EYE IRRITATION.
Avoid contact with eyes, skin and clothing. Wash affected areas thoroughly after handling. May cause irritation to mouth, throat and stomach. Wear chemical-splash goggles and chemical-resistant gloves. IF SWALLOWED: Rinse mouth. Drink a cupful of milk or water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists: Get medical advice or attention. Dispose of in accordance with all federal, state and local applicable regulations. SUPPLEMENTAL INFORMATION. May be mildly irritating to skin. In case of contact, immediately flush with plenty of water. If irritation occurs and persists, get medical attention.

Health hazards not otherwise classified (HHNOC) - Not applicable
Physical hazards not otherwise classified (PHNOC) - Not applicable

Classification for the diluted product @ RTU
This product is intended to be used neat.

Precautionary Statements
See undiluted product information above.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Classified Ingredients

Ingredient(s)	CAS #	Weight %
Diethylene glycol butyl ether	112-34-5	5 - 10%
Tetrasodium salt of EDTA	64-02-8	1% - < 3%
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chloride	68391-01-5	> 0.1% - < 1%
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride	68956-79-6	> 0.1% - < 1%

*Exact percentages are being withheld as trade secret information

4. FIRST AID MEASURES

Undiluted Product:

Eyes: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing for at least 15 minutes. If eye irritation persists: Get medical advice/attention.
Skin: In case of contact, immediately flush with plenty of water. If irritation occurs and persists, get medical attention.
Inhalation: No specific first aid measures are required.
Ingestion: IF SWALLOWED: Rinse mouth. Drink a cupful of milk or water.

Most Important Symptoms/Effects: No information available.
Immediate medical attention and special treatment needed Not applicable.
Aggravated Medical Conditions: Persons with pre-existing skin disorders may be more susceptible to irritating effects.

Diluted Product:
This product is intended to be used neat.

Eyes: See undiluted product information above.
Skin: See undiluted product information above.
Inhalation: See undiluted product information above.
Ingestion: See undiluted product information above.

5. FIRE-FIGHTING MEASURES

Specific methods: No special methods required
Suitable extinguishing media: The product is not flammable. Extinguish fire using agent suitable for surrounding fire.
Specific hazards: Not applicable.

Special protective equipment for firefighters: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.
Extinguishing media which must not be used for safety reasons: No information available.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Put on appropriate personal protective equipment (see Section 8.).
Environmental precautions and clean-up methods: Clean-up methods - large spillage. Soak up with inert absorbent material. Sweep up and shovel into suitable containers for disposal. Use a water rinse for final clean-up.

7. HANDLING AND STORAGE

Handling: Avoid contact with skin, eyes and clothing. Wash thoroughly after handling. Do not taste or swallow. FOR COMMERCIAL AND INDUSTRIAL USE ONLY.

Storage:
Protect from freezing. Keep tightly closed in a dry, cool and well-ventilated place. Keep out of the reach of children.
Aerosol Level (if applicable) : Not applicable

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines: .

Ingredient(s)	CAS #	ACGIH	OSHA
Diethylene glycol butyl ether	112-34-5	10 ppm (TWA)	-
Tetrasodium salt of EDTA	64-02-8	-	-
n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chloride	68956-79-6	-	-
n-Alkyl (60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chloride	68391-01-5	-	-

Undiluted Product:

Engineering measures to reduce exposure:
No special ventilation requirements General room ventilation is adequate

Personal Protective Equipment

Eye protection: Chemical-splash goggles.
Hand protection: Chemical-resistant gloves.
Skin and body protection: No special requirements under normal use conditions.
Respiratory protection: No special requirements under normal use conditions.
Hygiene measures: Handle in accordance with good industrial hygiene and safety practice.

Diluted Product:

This product is intended to be used neat.

Personal Protective Equipment

Eye protection: Chemical-splash goggles.
Hand protection: Chemical-resistant gloves.
Skin and body protection: No special requirements under normal use conditions.
Respiratory protection: No special requirements under normal use conditions.
Hygiene measures: Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES:

Physical State: Liquid
Evaporation Rate: No information available
Odor threshold: No information available.
Melting point/range: Not determined
Autoignition temperature: No information available
Solubility in other solvents: No information available
Density: 8.44 lbs/gal 1.012 Kg/L
Bulk density: No information available
Flash point: > 200 °F > 93.3 °C
Dilution Flash Point: > 200 °F > 93.3 °C
Elemental Phosphorus: 0 % by wt.
pH: 12.2
Dilution pH: 12.2 @ RTU
Metal Corrosion: Not determined
Explosion limits: - upper: Not determined **- lower:** Not determined

Color: Clear, Colorless
Odor: Lemon Citrus
Boiling point/range: Not determined
Decomposition temperature: Not determined
Solubility: Completely Soluble
Relative Density (relative to water): 1.012
Vapor density: No information available
Vapor pressure: No information available.
Partition coefficient (n-octanol/water): No information available
Viscosity: No information available
VOC: 0.06 % *
VOC % by wt. at use dilution 0.06 % *
Flammability (Solid or Gas): Not applicable

* - Title 17, California Code of Regulations, Division 3, Chapter 1, Subchapter 8.5, Article 2, Consumer Products, Sections 94508

10. STABILITY AND REACTIVITY

Reactivity: Not Applicable
Stability: The product is stable
Hazardous decomposition products: Nitrogen oxides (NOx).
Materials to avoid: Acids. Oxidizing agents.
Conditions to avoid: No information available.

11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure:
Eye contact, Skin contact, Inhalation

Delayed, immediate, or chronic effects and symptoms from short and long-term exposure
Skin contact: May be mildly irritating to skin. Symptoms may include redness and/or transient discomfort.
Eye contact: Causes serious eye irritation. Symptoms may include pain, redness, and watering.
Ingestion: May be irritating to mouth, throat and stomach. Symptoms may include stomach pain and nausea.
Inhalation: May be irritating to nose, throat, and respiratory tract. Symptoms may include coughing and difficulty breathing.
Sensitization: No known effects.

Numerical measures of toxicity

ATE - Oral (mg/kg):	>5000
ATE - Inhalatory, mists (mg/l):	>20

12. ECOLOGICAL INFORMATION

Ecotoxicity: No information available.

Persistence and Degradability: No information available.

Bioaccumulation: No information available.

13. DISPOSAL CONSIDERATIONS

Waste from residues / unused products: PESTICIDAL WASTE - Observe all applicable Federal/Provincial/State regulations and Local/Municipal ordinances regarding disposal of pesticide wastes. This product, as sold, if discarded or disposed, is not a hazardous waste according to Federal regulations (40 CFR 261.4 (b)(4)). Dispose in compliance with all Federal, state, provincial, and local laws and regulations.
Contaminated Packaging: Do not re-use empty containers.
RCRA Hazard Class (undiluted product): Not Regulated

14. TRANSPORT INFORMATION

DOT/TDG/IMDG: Please refer to the Diversey HazMat Library, only available through Internet Explorer, http://naextranet.diversey.com/dot/, for up to date shipping information.

DOT (Ground) Bill of Lading Description: DISINFECTANTS

IMDG (Ocean) Bill of Lading Description: DISINFECTANTS

15. REGULATORY INFORMATION

International Inventories at CAS# Level
All components of this product are listed on the following inventories: U.S.A. (TSCA).

U.S. Regulations
EPA Reg. No. : 70627-2
This chemical is a pesticide product registered by the United States Environmental Protection Agency and is subject to certain labeling requirements under federal pesticide law. These requirements differ from the classification criteria and hazard information required for safety data sheets (SDS), and for workplace labels of non-pesticide chemicals. The hazard information required on the pesticide label is reproduced below. The pesticide label also includes other important information, including directions for use.

CAUTION: Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.
ENVIRONMENTAL HAZARDS: This product is toxic to fish and aquatic invertebrates.

California Proposition 65: This product is not subject to the reporting requirements under California's Proposition 65.

Kit SDS Cover Sheet

Doc. ID: B68736-75: Rev. AA
Issued (year/month/day) 2016/12/13

Product Information

Product Name $1,25(OH)_2$ Vitamin D ELISA

Part Number B68736

Additional Product Information

This kit contains a microtiter plate that is considered an article and thereby exempt from SDS requirements.
For In Vitro Diagnostic Use. See product literature for details.

Components

Description

Incubation buffer
Elution solution
Concentrated conjugate
Concentrated HRP
Conjugate buffer
Calibrators
Controls
Wash solution
TMB chromogen solution
Stop solution

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 CLP/GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves, protective clothing and eye/face protection.
P501 Dispose of contents/container in accordance with local/national regulations
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients

Section 3 Composition and Information on Ingredients (Continued)

9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact — If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact — In case of skin contact, rinse with water as a precaution.

Ingestion — If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media — In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment — Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information — No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions	Observe general safety guidelines for protection; avoid eye and skin contact. Wear protective gloves, protective clothing and eye/face protection.
6.2 Environmental Precautions	Contain spill to prevent migration. Do not allow the undiluted product to enter sewers/surface or ground water. Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures	Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.
6.4 Reference to other sections	Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling	Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses	No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.00 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	8.0	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not applicable	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1) CAS # 55965-84-9	Oral LD50 Rat 53 mg/kg

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Not classified based on available data.

Serious eye damage/eye irritation

Not classified based on available data.

Respiratory/skin sensitization

May cause sensitization by skin contact.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

Not classified based on available data.

Reproductive Toxicity

Not classified based on available data.

Specific target organ toxicity – single exposure

Not classified based on available data.

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard

Not classified based on available data.

Other Information

No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

No information available.

©2016 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 No ingredients listed.

CERCLA RG's, 40 CFR 302.4 No ingredients listed.

California Proposition 65 No ingredients listed.

Massachusetts MSL Sodium Borate Decahydrate is listed.

New Jersey Dept. of Health RTK List

No ingredients listed.

Pennsylvania RTK Sodium Borate Decahydrate is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

Sodium Borate Decahydrate
Boric Acid

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 2** **Reactivity with Water: 0** **Physical Contact: 2**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes New document

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment

©2016 Beckman Coulter, Inc.

Section 16 Other Information (Continued)

T - Toxic
R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
R34 Causes burns.
R43 May cause sensitization by skin contact.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3
Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
Skin Corr. 1B - Skin Corrosion Category 1B
Skin Sens. 1 - Skin Sensitization Category 1
H301 - Toxic if swallowed.
H311 - Toxic in contact with skin.
H314 - Causes severe skin burns and eye damage.
H317 - May cause an allergic skin reaction.
H331 - Toxic if inhaled.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

Abbreviations and Acronyms

ACGIH - American Conference of Governmental Industrial Hygienists
ADR and RID - European Agreement Concerning The International Carriage Of Dangerous Goods By Road and Rail
CERCLA - The Comprehensive Environmental Response, Compensation, and Liability Act

SAFETY DATA SHEET

Doc. ID: B68736-75 Rev. AA
Issued (year/month/day) 2016/12/13

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Elution solution

Part Number Component of P/N B68736

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Flammable Liquids, Category 2
Acute Toxicity Oral, Category 3
Acute Toxicity Inhalation, Category 3
Acute Toxicity Dermal, Category 3
Specific Target Organ Toxicity Single Exposure Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Flammable Liquids, Category 2
Acute Toxicity Dermal, Category 3
Acute Toxicity Oral, Category 3
Acute Toxicity Inhalation, Category 3
Specific Target Organ Toxicity Single Exposure Category 1

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Methanol

Pictogram

Signal Word

DANGER

Hazard Statements

H225 Highly flammable liquid and vapour.
H301 Toxic if swallowed.
H370 Causes damage to organs.
H331 Toxic if inhaled.
H311 Toxic in contact with skin.

Precautionary Statements

P210 Keep away from heat, hot surfaces, and sparks. No smoking.
P501 Dispose of contents/container in accordance with local/national regulations
P240 Ground container and receiving equipment.
P241 Use explosion-proof electrical equipment.
P242 Use non-sparking tools.
P243 Take action to prevent static discharge.
P261 Avoid breathing vapours.
P270 Do no eat, drink or smoke when using this product.
P271 Use only outdoors or in a well-ventilated area.
P280 Wear protective gloves, protective clothing and eye/face protection.
P301+P310 IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.
P303+P361+P353 IF ON SKIN (or hair): Rinse skin with water.
P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.
P308+P311 If exposed or concerned: Call a doctor/physician.
P311 Call a POISON CENTER or doctor/physician.
P330 Rinse mouth.
P361+P364 Take off immediately contaminated clothing and wash it before use
P370+P378 In case of fire: Use water spray for extinction.

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact

In case of skin contact, rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Obtain medical advice/attention.

Ingestion

If product is ingested, rinse mouth with water. Do not induce vomiting or give anything by mouth. Obtain medical attention immediately.

©2016 Beckman Coulter, Inc.

Section 4 First Aid Measures (Continued)

4.2 Most important symptoms and effects, both acute and delayed

Toxic if swallowed.
Toxic in contact with skin.
Toxic if inhaled.
Causes damage to organs.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

Dry chemical, carbon dioxide or alcohol-resistant foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

Highly flammable liquid and vapour.

Hazardous Combustion Products

No further relevant information available.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

Avoid inhaling, ingesting, and contact with eyes and skin.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration or evaporation.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

Use in well ventilated area away from heat or ignition sources.

©2016 Beckman Coulter, Inc.
Global SDS – English

Section 7 Handling and Storage (Continued)

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA

ACGIH

Methanol CAS # 67-56-1	250 ppm STEL; 200 ppm TWA; Skin - potential significant contribution to overall exposure by the cutaneous route

DFG MAK

Methanol CAS # 67-56-1	skin notation; 800 ppm Peak; 1080 mg/m3 Peak; 200 ppm TWA MAK; 270 mg/m3 TWA MAK

Ireland

Methanol CAS # 67-56-1	200 ppm TWA; 260 mg/m3 TWA; 600 ppm STEL (calculated); 780 mg/m3 STEL (calculated); Potential for cutaneous absorption

IOELVs

Methanol CAS # 67-56-1	Possibility of significant uptake through the skin; 200 ppm TWA; 260 mg/m3 TWA

NIOSH

Methanol CAS # 67-56-1	6000 ppm IDLH; 250 ppm STEL; 325 mg/m3 STEL; 200 ppm TWA; 260 mg/m3 TWA

Japan

Methanol CAS # 67-56-1	200 ppm OEL; 260 mg/m3 OEL

8.2 Exposure controls

Engineering Controls

No special engineering controls are required. Use with good general ventilation.

Eye Protection

Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	0.79 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.7	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	470°C (878°F)
Boiling Point	64.5°C (148.1°F)	**Decomposition Temperature**	Not determined
Flash Point	11.5°C (52.7°F)	**Percent Volatiles**	Not determined
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not determined	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Methanol 3.05 ppm odor threshold value (detectable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

©2016 Beckman Coulter, Inc.
Global SDS – English

Section 10 Stability and Reactivity (Continued)

10.5 Incompatible materials Reducing Reagent

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Methanol
CAS # 67-56-1 — Inhalation LC50 Rat 22500 ppm 8 h; Oral LD50 Rat 6200 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation Not classified based on available data.

Serious eye damage/eye irritation Not classified based on available data.

Respiratory/skin sensitization Not classified based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not classified based on available data.

Reproductive Toxicity Not classified based on available data.

Specific target organ toxicity – single exposure

May cause damage to organs.

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard Not classified based on available data.

Other Information

Toxic if swallowed.
Toxic in contact with skin.
Toxic if inhaled.

Section 12 Ecological Information (Continued)

	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	No further relevant information available.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

	Shipping Information	IATA	IMDG	US DOT	European ADR	Canadian TDG

Marine Pollutant	Not applicable	No	Not applicable	Not applicable	Not applicable

14.6 Special Precautions for user

Warning: Flammable and toxic liquid.

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code

Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 Methanol is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration

CERCLA RG's, 40 CFR 302.4 Methanol is listed.

California Proposition 65 Methanol has been identified by the State of California to cause reproductive harm. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm.
WARNING: This product contains a chemical known to the State of California to cause reproductive harm.

Massachusetts MSL Methanol is listed.

New Jersey Dept. of Health RTK List

Methanol is listed.

Pennsylvania RTK Methanol is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN 1230

Section 15 Regulatory Information (Continued)

Ingredients on Ingredient Disclosure List

Methanol

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 3** **Health: 3** **Reactivity with Water: 0** **Physical Contact: 3**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes New document

Hazard Class, hazard statements and risk phrase description from section 3

F - Highly flammable
T - Toxic
R11 Highly flammable.
R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
R39/23/24/25 Toxic: danger of very serious irreversible effects through inhalation, in contact with skin and if swallowed.
Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3
Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3
Flam. Liq. 2 - Flammable Liquids, Category 2
STOT SE 1 - Specific Target Organ Toxicity Single Exposure Category 1
H225 - Highly flammable liquid and vapour.
H301 - Toxic if swallowed.
H311 - Toxic in contact with skin.
H331 - Toxic if inhaled.
H370 - Causes damage to organs.
H370 - Causes damage to organs (Respiratory system)
H370 - Causes damage to organs (Liver and Kidney)
H370 - Causes damage to organs (Kidney)
H370 - Causes damage to organs (Liver)

SAFETY DATA SHEET

Doc. ID: B68736-75 Rev. AA
Issued (year/month/day) 2016/12/13

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Concentrated conjugate

Part Number Component of P/N B68736

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Yellowish; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not classified as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact

In case of skin contact, rinse with water as a precaution.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions No special precautions are necessary. Use good laboratory procedures.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.02 @20°C
Color	Yellowish	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	6.05	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Not classified based on available data.

Serious eye damage/eye irritation

Not classified based on available data.

Respiratory/skin sensitization

Not classified based on available data.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

Not classified based on available data.

Reproductive Toxicity

Not classified based on available data.

Specific target organ toxicity – single exposure

Not classified based on available data.

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard

Not classified based on available data.

Other Information

No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species No information available.

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

©2016 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact

In case of skin contact, rinse with water as a precaution.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions No special precautions are necessary. Use good laboratory procedures.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.02 @20°C
Color	Yellowish	**Solubility**	
Transparency	Clear	**Water**	Miscible

Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Not classified based on available data.

Serious eye damage/eye irritation

Not classified based on available data.

Respiratory/skin sensitization

Not classified based on available data.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

Not classified based on available data.

Reproductive Toxicity

Not classified based on available data.

Specific target organ toxicity – single exposure

Not classified based on available data.

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard

Not classified based on available data.

Other Information

No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species No information available.

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

©2016 Beckman Coulter, Inc.

Section 12 Ecological Information (Continued)

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

SAFETY DATA SHEET

Doc. ID: B68736-75 Rev. AA
Issued (year/month/day) 2016/12/13

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Conjugate buffer

Part Number Component of P/N B68736

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 CLP/GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves, protective clothing and eye/face protection.
P501 Dispose of contents/container in accordance with local/national regulations
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients

9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact — If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact — In case of skin contact, rinse with water as a precaution.

Ingestion — If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

As a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

None established

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.00 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.4	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

	Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
	Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1) CAS # 55965-84-9	Oral LD50 Rat 53 mg/kg

Primary Routes of Exposure	Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.
Skin Corrosion/Irritation	Not classified based on available data.
Serious eye damage/eye irritation	Not classified based on available data.
Respiratory/skin sensitization	May cause sensitization by skin contact.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not classified based on available data.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Reproductive Toxicity	Not classified based on available data.
Specific target organ toxicity – single exposure	
	Not classified based on available data.
Specific target organ toxicity – repeated exposure	
	Not classified based on available data.
Aspiration hazard	Not classified based on available data.
Other Information	This product contains material of animal origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 15 Regulatory Information (Continued)

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 2** **Reactivity with Water: 0** **Physical Contact: 2**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes New document

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment

T - Toxic

R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.

R34 Causes burns.

R43 May cause sensitization by skin contact.

R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1

Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3

Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3

Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3

Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1

Skin Corr. 1B - Skin Corrosion Category 1B

Skin Sens. 1 - Skin Sensitization Category 1

H301 - Toxic if swallowed.

H311 - Toxic in contact with skin.

H314 - Causes severe skin burns and eye damage.

H317 - May cause an allergic skin reaction.

H331 - Toxic if inhaled.

H400 - Very toxic to aquatic life.

H410 - Very toxic to aquatic life with long lasting effects.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material(s) of animal origin. Observe general safety guidelines for protection when handling this product.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions This product contains a material of animal origin. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures If the product is solid or lyophilized form, use vacuum or carefully sweep up spilled material and place in container for suitable disposal. Avoid generating dust.

If the product is liquid form, as a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

Dispose of all waste material in accordance with local guidelines.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Microtox No information available.
Water Flea No information available.
Fresh Water Algae No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects No further relevant information available.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

©2016 Beckman Coulter, Inc.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313 No ingredients listed.

CERCLA RG's, 40 CFR 302.4 No ingredients listed.

California Proposition 65 Gentamicin Sulfate has been identified by the State of California to cause reproductive harm. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm.
WARNING: This product contains a chemical known to the State of California to cause reproductive harm.

Massachusetts MSL No ingredients listed.

New Jersey Dept. of Health RTK List

No ingredients listed.

Pennsylvania RTK No ingredients listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

Ingredients on Ingredient Disclosure List

None

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

SAFETY DATA SHEET

Doc. ID: B68736-75 Rev. AA
Issued (year/month/day) 2016/12/13

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Controls

Part Number Component of P/N B68736

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless; Opaque; Lyophilized Powder; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 CLP/GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.
P272 Contaminated work clothing should not be allowed out of the workplace.
P280 Wear protective gloves, protective clothing and eye/face protection.
P501 Dispose of contents/container in accordance with local/national regulations
P333+P313 If skin irritation or rash occurs: Get medical advice/attention.
P362+P364 Take off contaminated clothing and wash it before use.
P302+P352 IF ON SKIN: Wash with plenty of soap and water.

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard Classification of Pure Ingredients

9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact — If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact — In case of skin contact, rinse with water as a precaution.

Ingestion — If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product.

5.3 Advice for fire fighters

Protective Equipment

Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information

No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions

This product contains material of human origin and should be handled as though capable of transmitting infectious diseases. Observe general safety guidelines for protection during clean up procedures.

Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions

Contain spill to prevent migration.

Do not allow the undiluted product to enter sewers/surface or ground water.

Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures

If the product is solid or lyophilized form, use vacuum or carefully sweep up spilled material and place in container for suitable disposal. Avoid generating dust.

If the product is liquid form, as a precautionary measure, treat spilled material with a 1:10 bleach/water solution. Absorb liquid and place in container suitable for disposal. Avoid generation of aerosols during clean up. Comply with applicable waste disposal regulations.

Dispose of all waste material in accordance with local guidelines.

6.4 Reference to other sections

Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling

This product should be handled as though capable of transmitting infectious diseases. Universal precautions should be followed when using this product.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.

To maintain product quality, store according to the instructions in the product labeling.

Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses

No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Lyophilized Powder	**Specific Gravity (Water=1.0)**	1.02 @20°C
Color	Colorless	**Solubility**	
Transparency	Opaque	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	Not applicable	**Partition coefficient: n-octanol/water**	Not applicable
Melting Point	Not determined	**Auto-ignition Temp.**	Not determined
Boiling Point	Not applicable	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Evaporation Rate	Not applicable	**Vapor Pressure**	Not applicable
Flammability (Solid, Gas)	Not determined	**Viscosity**	Not applicable
Flammability Limits	Not determined	**Explosive Properties**	Not applicable
Vapor Density	Not applicable	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

When stored as labeled, no known hazardous decomposition products are formed during the shelf-life of this product.

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin -3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1) CAS # 55965-84-9	Oral LD50 Rat 53 mg/kg

Primary Routes of Exposure Common routes of entry include inhalation, ingestion and eye/skin contact. Specific paths of concern for potentially infectious materials are skin puncture, contact with broken skin, contact with mucous membranes and inhalation of aerosolized material.

Skin Corrosion/Irritation Not classified based on available data.

Serious eye damage/eye irritation Not classified based on available data.

Respiratory/skin sensitization May cause sensitization by skin contact.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not classified based on available data.
Reproductive Toxicity	Not classified based on available data.
Specific target organ toxicity – single exposure	
	Not classified based on available data.
Specific target organ toxicity – repeated exposure	
	Not classified based on available data.
Aspiration hazard	Not classified based on available data.
Other Information	This product contains material of human origin and should be considered as potentially capable of transmitting infectious diseases.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information. Dispose of as potentially biohazardous waste and in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or and approved waste-disposal company for information.

©2016 Beckman Coulter, Inc.

	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 03* - wastes whose collection and disposal is subject to special requirements in order to prevent infection. Dispose in accordance with national, state and local waste regulations

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	No ingredients listed.
CERCLA RG's, 40 CFR 302.4	No ingredients listed.
California Proposition 65	No ingredients listed.
Massachusetts MSL	No ingredients listed.
New Jersey Dept. of Health RTK List	No ingredients listed.
Pennsylvania RTK	No ingredients listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

None

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 2** **Reactivity with Water: 0** **Physical Contact: 2**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes New document

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment
T - Toxic
R23/24/25 Toxic by inhalation, in contact with skin and if swallowed.
R34 Causes burns.
R43 May cause sensitization by skin contact.
R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
Aquatic Acute 1 - Aquatic Hazard Acute, Category 1
Acute Tox. Dermal 3 - Acute Toxicity Dermal, Category 3
Acute Tox. Inhal. 3 - Acute Toxicity Inhalation, Category 3
Acute Tox. Oral 3 - Acute Toxicity Oral, Category 3
Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1
Skin Corr. 1B - Skin Corrosion Category 1B
Skin Sens. 1 - Skin Sensitization Category 1
H301 - Toxic if swallowed.
H311 - Toxic in contact with skin.
H314 - Causes severe skin burns and eye damage.
H317 - May cause an allergic skin reaction.
H331 - Toxic if inhaled.
H400 - Very toxic to aquatic life.
H410 - Very toxic to aquatic life with long lasting effects.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact — If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact — In case of skin contact, rinse with water as a precaution.

Ingestion — If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	
Sodium Azide CAS # 26628-22-8	0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)
DFG MAK	
Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)
Ireland	
Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL; Potential for cutaneous absorption
IOELVs	
Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.3 mg/m3 STEL; 0.1 mg/m3 TWA
NIOSH	None established
Japan	None established

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.06 @20°C
Color	Whitish	**Solubility**	
Transparency	Opaque	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	7.5 - 8.5	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg

Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Skin Corrosion/Irritation	Not classified based on available data.
Serious eye damage/eye irritation	Not classified based on available data.
Respiratory/skin sensitization	Not classified based on available data.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not classified based on available data.
Reproductive Toxicity	Not classified based on available data.
Specific target organ toxicity – single exposure	
	Not classified based on available data.
Specific target organ toxicity – repeated exposure	
	Not classified based on available data.
Aspiration hazard	Not classified based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal

Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).

©2016 Beckman Coulter, Inc.

		To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IATA DGR, IMDG, US DOT, European ADR and RID or Canadian TDG.

14.1 UN/ID Number: Not regulated for transportation

14.2 Shipping Name: Not regulated for transportation

14.3 Hazard Class: Not regulated for transportation

14.4 Packing Group: Not regulated for transportation

14.5 Environmental Hazards: Not regulated for transportation

14.6 Special Precautions for user: None

14.7 Transport in bulk according to Annex II of MARPOL and the IBC Code: Not applicable

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration
CERCLA RG's, 40 CFR 302.4	Sodium Azide is listed.
California Proposition 65	No ingredients listed.
Massachusetts MSL	Sodium Azide is listed.
New Jersey Dept. of Health RTK List	Sodium Azide is listed.
Pennsylvania RTK	Sodium Azide is listed.

EU Regulations

This SDS complies with EC Regulations 1907/2006 (REACH) and amendments.

Water Hazard Class (Germany) WGK 1, low water endangering

©2016 Beckman Coulter, Inc.

Section 15 Regulatory Information (Continued)

REACH 1907/2006 EC - Annex XIV - list of substances subject to authorization.

No ingredients listed.

According to EC Directives (1999/45/EC and 67/548 EEC)

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Canada

This product is exempt from WHMIS label and SDS requirements.

PIN Not applicable

Ingredients on Ingredient Disclosure List

Sodium Azide

Ingredients with unknown toxicological properties

Product is exempt

15.2 Chemical Safety Assessment A Chemical Safety Assessment has not been carried out.

Some hazardous ingredients listed in Section 15 are below OSHAs and WHMIS' 1.0% w/w (0.1% for carcinogens) or EU's ingredient specific concentrations required for reporting in Section 3.

Section 16 Other Information

Beckman Coulter Safety Rating	**Flammability: 0** **Health: 1** **Reactivity with Water: 0** **Physical Contact: 1**	Code 0=None 1=Slight 2=Caution 3=Severe

Revision Changes New document

Hazard Class, hazard statements and risk phrase description from section 3

N - Dangerous for the environment

T+ - Very toxic

R28 Very toxic if swallowed.

R32 Contact with acids liberates very toxic gas.

R50/53 Very toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.

Aquatic Acute 1 - Aquatic Hazard Acute, Category 1

Acute Tox. Oral 2 - Acute Toxicity Oral, Category 2

Aquatic Longterm 1 - Aquatic Hazard Long term, Category 1

H300 - Fatal if swallowed.

H400 - Very toxic to aquatic life.

H410 - Very toxic to aquatic life with long lasting effects.

SAFETY DATA SHEET

Doc. ID: B68736-75 Rev. AA
Issued (year/month/day) 2016/12/13

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name TMB chromogen solution

Part Number Component of P/N B68736

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

IMMUNOTECH s.r.o.
Radiová 1
102 27 Prague 10
Czech Republic
Tel. +420 272 017 444

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Clear; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Not classified as hazardous per EC 1272/2008 (CLP/GHS)

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Not classified as dangerous per EC Directives (1999/45/EC and 67/548 EEC)

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

2.2 Label Elements **According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS**

Not classified as hazardous per EC 1272/2008 (CLP/GHS), US-OSHA and GHS

©2016 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients: None

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact If product enters eyes, rinse eyes gently with water as a precaution.

Skin Contact In case of skin contact, rinse with water as a precaution.

Ingestion If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

No adverse symptoms or effects have been identified.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties Nonflammable aqueous solution.

5.1 Extinguishing Media In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam. For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

©2016 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions No special precautions are necessary. Use good laboratory procedures.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA	None established
ACGIH	None established
DFG MAK	None established
Ireland	None established
IOELVs	None established
NIOSH	None established
Japan	None established

©2016 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear protective clothing and impervious gloves, as appropriate.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	0.98 @20°C
Color	Clear	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	5.0 - 6.0	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not applicable	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

©2016 Beckman Coulter, Inc.

Section 10 Stability and Reactivity (Continued)

10.4 Conditions to Avoid

To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials

No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Not applicable

Primary Routes of Exposure

Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation

Not classified based on available data.

Serious eye damage/eye irritation

Not classified based on available data.

Respiratory/skin sensitization

Not classified based on available data.

Carcinogenicity

No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity

Not classified based on available data.

Reproductive Toxicity

Not classified based on available data.

Specific target organ toxicity – single exposure

Not classified based on available data.

Specific target organ toxicity – repeated exposure

Not classified based on available data.

Aspiration hazard

Not classified based on available data.

Other Information

No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species No information available.

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact

In case of skin contact, rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Obtain medical advice/attention.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Corrosive. May cause burns to eyes, skin and respiratory tract.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

Flammable Properties

Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 8°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

8.2 Exposure controls

Engineering Controls	No special engineering controls are required. Use with good general ventilation.
Eye Protection	Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.
Skin Protection	Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.
Respiratory Protection	Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	1.018 @20°C
Color	Colorless	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	< 1	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not applicable	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined

©2016 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Hydrochloric Acid 0.06 ppm odor threshold value (detectable)		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Hydrochloric Acid CAS # 7647-01-0	Dermal LD50 Rabbit >5010 mg/kg; Inhalation LC50 Rat 1.68 mg/L 1 h; Oral LD50 Rat 238 - 277 mg/kg
Primary Routes of Exposure	Eye contact, ingestion, inhalation, and skin contact.
Skin Corrosion/Irritation	Contact may cause severe skin burns.
Serious eye damage/eye irritation	Contact may cause serious eye damage.
Respiratory/skin sensitization	Not classified based on available data.
Carcinogenicity	No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.
Germ cell mutagenicity	Not classified based on available data.

©2016 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Reproductive Toxicity	Not classified based on available data.
Specific target organ toxicity – single exposure	
	Not classified based on available data.
Specific target organ toxicity – repeated exposure	
	Not classified based on available data.
Aspiration hazard	Not classified based on available data.
Other Information	No further relevant information available.

Section 12 Ecological Information

12.1	**Ecotoxicity**	
	Fresh Water Species	No information available.
	Microtox	No information available.
	Water Flea	No information available.
	Fresh Water Algae	No information available.
12.2	**Persistence and degradability**	Not determined for the product.
12.3	**Bioaccumulation**	Not determined for the product.
12.4	**Mobility in soil**	Not determined for the product.
12.5	**Results of PBT and vPvB assessment**	
		Not determined for the product. PBT: Not applicable, vPvB: Not applicable.
12.6	**Other Adverse Effects**	No further relevant information available.

Section 13 Disposal Considerations

13.1	**Waste treatment methods**	
	Product Waste Disposal	Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.
	Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2	**Additional information**	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

SAFETY DATA SHEET

Doc. ID: A16793-75 Rev. AG
Revised (year/month/day) 2015/04/14

Section 1 Identification of the Substance/mixture and of the Company/undertaking

1.1 Product Identifier

Product Name Wash Buffer II

Part Number A16793

Series Name UniCel DxI

1.2 Relevant identified uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Eurocenter S.A.
22, rue Juste-Oliver, Case Postale 1044,
CH-1260 Nyon 1, Switzerland.
Telephone +41 (0)22 365 36 11
Monday through Friday, 9:00 am to 7:00pm)

e-mail address SDSNT@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards Identification

2.1 Classification of substance or mixture

Product Description Mixture

Colorless to pale yellow; Clear; Liquid; Odorless

Classification according to EC 1272/2008 (CLP/GHS)

Skin Sensitization Category 1

Classification according to EC Directives 1999/45/EC and 67/548/EEC

Xi;R43

Classification according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Not classified as hazardous per US-OSHA HCS 2012 and UN GHS

©2015 Beckman Coulter, Inc.

Section 2 Hazards Identification (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

reaction mass of: 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6](3:1)

Pictogram

Signal Word

WARNING

Hazard Statements

H317 May cause an allergic skin reaction.

Precautionary Statements

P261 Avoid breathing vapours.

P272 Contaminated work clothing should not be allowed out of the workplace.

P280 Wear protective gloves, protective clothing and eye/face protection.

P302+P352 IF ON SKIN: Wash with plenty of soap and water.

P333+P313 If skin irritation or rash occurs: Get medical advice/attention.

P362+P364 Take off contaminated clothing and wash it before use.

P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most significant precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment
PBT: Not applicable.
vPvB: Not applicable.

This product contains concentrations of azide below the hazardous level which with repeated contact with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds. Sodium azide forms explosive compounds with heavy metals.

See Section 11 Toxicological Information for more detailed health information.

2 - Substance with Community workplace exposure limits
8 - Present at concentration below the cut-off limits.
9 - Mixture of 5-chloro-2-methyl-4-isothiazolin-3-one [EC# 247-500-7] and 2-methyl-4-isothiazolin-3-one [EC# 220-239-6] (3:1) is the active ingredient of ProClin 300.

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for hazard class, hazard statements and risk phrase description

Section 4 First Aid Measures

4.1 Description of first aid measures

Inhalation — If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin artificial respiration immediately and obtain medical attention.

Eye Contact — If product enters eyes, wash eyes gently under running water for 15 minutes or longer, making sure that the eyelids are held open. If pain or irritation occur, obtain medical attention.

Skin Contact — In case of skin contact, flush with copious amounts of water for at least 15 minutes. If pain or irritation occur, obtain medical attention.

Ingestion — If ingested, wash mouth out with water. If irritation or discomfort occurs, seek medical attention.

4.2 Most important symptoms and effects, both acute and delayed

May produce an allergic reaction in some people.
See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No specific medical attention or treatment required.

Section 5 Fire Fighting Measures

Flammable Properties — Nonflammable aqueous solution.

5.1 Extinguishing Media

In case of fire use carbon dioxide (CO_2), dry chemical, water spray or foam.
For large fires use extinguishing media suitable for surrounding fire.

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

©2015 Beckman Coulter, Inc.

Section 5 Fire Fighting Measures (Continued)

Hazardous Combustion Products

No combustion products posing significant hazards are expected from this product (an aqueous solution).

5.3 Advice for fire fighters

Protective Equipment Self-contained breathing apparatus is recommended for firefighters in all chemical fire situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non-flammable absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 15 to 30°C, as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 Specific end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA None established

ACGIH

Sodium Azide
CAS # 26628-22-8 — 0.29 mg/m3 Ceiling (as NaN3); 0.11 ppm Ceiling (as Hydrazoic acid) (vapor)

©2015 Beckman Coulter, Inc.

Section 8 Exposure Controls and Personal Protection (Continued)

DFG MAK

Sodium Azide CAS # 26628-22-8	0.4 mg/m3 Peak (inhalable fraction); 0.2 mg/m3 TWA MAK (inhalable fraction)

Ireland

Sodium Azide CAS # 26628-22-8	0.1 mg/m3 TWA (as NaN3); 0.3 mg/m3 STEL (as NaN3); Potential for cutaneous absorption

IOELVs

Sodium Azide CAS # 26628-22-8	Possibility of significant uptake through the skin; 0.1 mg/m3 TWA; 0.3 mg/m3 STEL

NIOSH None established

Japan None established

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact. Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Impervious gloves, such as Nitrile or equivalent, should be worn to prevent skin contact.
Refer U.S. OSHA 29 CFR 1910.138, European Standard EN374 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a qualified professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Specific Gravity (Water=1.0)**	≈ 1.01 @20°C
Color	Colorless to pale yellow	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Odorless	**Organic**	Not determined
pH	8.3	**Partition coefficient: n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Not applicable
Boiling Point	Not determined	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable

©2015 Beckman Coulter, Inc.

Section 9 Physical and Chemical Properties (Continued)

Evaporation Rate	Not determined	**Vapor Pressure**	Not determined
Flammability (Solid, Gas)	Not applicable	**Viscosity**	Not determined
Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

Sodium azide forms explosive compounds with heavy metals. Repeated contact of low concentrations of azide with lead and copper commonly found in plumbing drains may result in the build up of shock sensitive compounds.

10.4 Conditions to Avoid Avoid contact with incompatible materials.
Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials Metals and metallic compounds

10.6 Hazardous Decomposition Products

No decomposition products posing significant hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Azide CAS # 26628-22-8	Oral LD50 Rat 27 mg/kg; Dermal LD50 Rat 50 mg/kg; Dermal LD50 Rabbit 20 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Skin Corrosion/Irritation No data available.

Serious eye damage/eye irritation No data available.

Respiratory/skin sensitization May cause sensitization by skin contact.

Carcinogenicity This product does not contain a reportable concentration (≥ 0.1%) of any ingredient listed as carcinogen by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity No data available.

Reproductive Toxicity No data available.

©2015 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

Specific target organ toxicity – single exposure

No data available.

Specific target organ toxicity – repeated exposure

No data available.

Aspiration hazard No data available.

Other Information No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Azide CAS # 26628-22-8	96 h LC50 Oncorhynchus mykiss: 0.8 mg/L; 96 h LC50 Lepomis macrochirus: 0.7 mg/L; 96 h LC50 Pimephales promelas: 5.46 mg/L [flow-through]
Microtox	No information available.
Water Flea	No information available.
Fresh Water Algae	No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Sodium azide preservative may form explosive compounds in metal drain lines. See NIOSH Bulletin: Explosive Azide Hazard (8/16/76).
To avoid the possible build-up of azide compounds, flush wastepipes with water after the disposal of undiluted reagent. Sodium azide disposal must be in accordance with appropriate local regulations.

©2015 Beckman Coulter, Inc.

Package disposal	Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.
13.2 Additional information	Suggested European waste catalogue 18 01 07 - chemicals other than those mentioned in 18 01 06. Dispose in accordance with national, state and local waste regulations.

Section 14 Transport Information

Transportation of this product is not regulated under ICAO, IMDG, US DOT, European ADR or Canadian TDG.

Section 15 Regulatory Information

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

US Federal and State Regulations

SARA 313	Acetaldehyde is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration Ethylene Oxide is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration 1,4-Dioxane is subject to reporting requirements of Section 313, Title III of SARA. 0.1 % de minimis concentration Sodium Azide is subject to reporting requirements of Section 313, Title III of SARA. 1.0 % de minimis concentration
CERCLA RG's, 40 CFR 302.4	Acetaldehyde is listed. Ethylene Oxide is listed. 1,4-Dioxane is listed. Sodium Azide is listed.
California Proposition 65	Acetaldehyde has been identified by the State of California to cause cancer. The State of California has adopted a regulation which requires a warning be given to individual who may be exposed to chemicals identified by the State to cause cancer or reproductive harm. **WARNING**: This product contains a chemical known to the State of California to cause cancer. SAFETY DATA SHEET

Document ID: OSR0001-75 Version 07
Revision Date (year/month/day) 2018/06/22
Last Revision Date (year/month/day) 2015/03/20

Section 1 of the Substance/mixture and of the Company/undertaking

1.1 Product

Product Name Wash Solution

Part Number ODR2000, OSR0001

1.2 Relevant uses of the substance or mixture and uses advised against

Product Use For In Vitro Diagnostic Use. See product literature for details.

1.3 Details of the supplier of the safety data sheet

Manufacturer

Beckman Coulter, Inc.
250 S. Kraemer Blvd
Brea, CA 92821, U.S.A.
Tel: 800-854-3633

EC REP Address

Beckman Coulter Ireland Inc.
Lismeehan
O'Callaghan's Mills
Co. Clare
Ireland
Tel: 353 (0)65 6831100

e-mail address SDSNT@beckman.com

Further information Contact:

Customer support Unit, Beckman Coulter Ireland Inc.

Technical Service Department Tel. +001-800-854-3633 (PST)

E-mail CC_Support.ie@beckman.com

1.4 Emergency telephone number

Telephone number (24H) Chemtrec Emergency Tel No. U.S.A. 800-424-9300, International (001) 703-527-3887

Tel +353 (0)65 683 1170; 08:00 - 16:30 hrs Mon-Thur, 08:00 - 15:30 hrs Fri (GMT) Tel +001-800-223-0130 (PST)

Distributor and Emergency Phone No.

Refer to attached list, Document ID: 472050, for local distributor and emergency phone numbers.

Section 2 Hazards

2.1 of substance or mixture

Product Description In vitro diagnostic reagent.

Pale Straw; Clear; Liquid; Mild odor

according to EC 1272/2008 (CLP/GHS)

Skin Corrosion Category 1

Eye Damage Category 1

according to US-OSHA (HCS 29 CFR 1910.1200) and UN GHS

Skin Corrosion Category 1

Eye Damage Category 1

Last Revision Date (year/month/day) 2015/03/20

Section 2 Hazards (Continued)

2.2 Label Elements

According to EC 1272/2008 (CLP/GHS), US-OSHA and UN GHS

Hazardous Ingredients

Sodium Hydroxide

Sulfonic acids, C14-17-sec-alkane, sodium salts

Genapol X080

Pictogram

Signal Word

DANGER

Hazard Statements

H314 Causes severe skin burns and eye damage.

Precautionary Statements

P280 Wear protective gloves, protective clothing and eye/face protection.
P301+P330+P331 IF SWALLOWED: rinse mouth. Do NOT induce vomiting.
P303+P361+P353 IF ON SKIN (or hair): Rinse skin with water.
P304+P340 IF INHALED: Remove person to fresh air and keep at rest in a position comfortable for breathing.
P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P310 Immediately call a POISON CENTER or doctor/physician.
P363 Wash contaminated clothing before reuse.
P405 Store locked up.
P501 Dispose of contents/container in accordance with local/national regulations

Product label will display most precautionary statements.

2.3 Other hazards

Results of PBT and vPvB assessment

PBT: Not applicable.

vPvB: Not applicable.

See Section 11 Toxicological Information for more detailed health information.

Section 3 Composition and Information on Ingredients

3.2 Mixtures

Hazardous Ingredients:		Hazard of Pure Ingredients		
Chemical Name	**% by wt.**	**EU 1272/2008 CLP/GHS**	**GHS**	**Note**

See section 8 for available Occupational exposure limits
See Section 15 for additional regulatory information
See Section 16 for description of hazard class and hazard statements

Section 4 First Aid Measures

4.1 Description of aid measures

Inhalation

If product is inhaled, move exposed individual to fresh air. If individual is not breathing, begin respiration by trained personnel and obtain medical attention immediately.

Eye Contact

If product enters eyes, rinse eyes gently with water for 15 minutes or longer, making sure that the eyelid is held open. Obtain medical advice/attention.

Skin Contact

In case of skin contact, rinse with plenty of water for at least 15 minutes. Remove contaminated clothing and shoes. Obtain medical advice/attention.

Ingestion

If product is ingested, rinse mouth with water. If irritation or discomfort occurs, obtain medical attention immediately.

4.2 Most important symptoms and effects, both acute and delayed

Corrosive. May cause burns to eyes, skin and respiratory tract.

See Section 11 Toxicological Information for more detailed health information.

4.3 Indication of any immediate medical attention and special treatment needed

No further relevant information available. Refer to Section 4.1.

Section 5 Fire Fighting Measures

5.1 Extinguishing Media

In case of use carbon dioxide (CO_2), dry chemical, water spray or foam.

For large use extinguishing media suitable for surrounding

5.2 Special hazards arising from the substance or mixture

Special Fire and Explosion Hazards

No special hazards determined.

Hazardous Combustion Products

No combustion products posing hazards are expected from this product (an aqueous solution).

Revision Date (year/month/day) 2018/06/22
Last Revision Date (year/month/day) 2015/03/20

Section 5 Fire Fighting Measures (Continued)

5.3 Advice for

Protective Equipment Self-contained breathing apparatus is recommended for in all chemical situations.

5.4 Additional information No further relevant information available.

Section 6 Accidental Release Measures

6.1 Personal precautions, protective equipment and emergency procedures

Personal Precautions Observe general safety guidelines for protection; avoid eye and skin contact.
Wear protective gloves, protective clothing and tightly sealed eye/face protection.

6.2 Environmental Precautions Contain spill to prevent migration.
Do not allow the undiluted product to enter sewers/surface or ground water.
Dispose of contents/container in accordance with local regulations

6.3 Methods and material for containment and cleaning up

Spill and Leak Procedures Absorb spilled material with an appropriate inert, non- absorbent and dispose according to local regulations.

6.4 Reference to other sections Refer sections 8 and 13.

Section 7 Handling and Storage

7.1 Precautions for safe handling Use good laboratory procedures; avoid eye and skin contact.

7.2 Conditions for safe storage, including any incompatibilities

Store at 2 to 25°C , as directed on the product label.
To maintain product quality, store according to the instructions in the product labeling.
Store away from strong acids, strong bases, strong oxidizers and incompatible materials (section 10).

7.3 end uses No further relevant information available.

Section 8 Exposure Controls and Personal Protection

8.1 Control parameters

Exposure Limits

US OSHA

Sodium Hydroxide

Ireland

Sodium Hydroxide CAS # 1310-73-2	2 mg/m3 STEL

IOELVs None established

NIOSH

Sodium Hydroxide CAS # 1310-73-2	10 mg/m3 IDLH

Japan None established

Sweden (AFS 2015:7 and amendments)

Sodium Hydroxide CAS # 1310-73-2	1 mg/m3 LLV; 2 mg/m3 Binding STLV

8.2 Exposure controls

Engineering Controls No special engineering controls are required. Use with good general ventilation.

Eye Protection Safety glasses or chemical goggles should be worn to prevent eye contact.

Refer U.S. OSHA 29 CFR 1910.133, European Standard EN166 or appropriate government standards.

Skin Protection Wear impervious gloves such as Nitrile or equivalent and protective clothing. Refer to U.S. OSHA 29 CFR 1910.138, European Standard EN 374, EN 14605:2005+A1:2009 or appropriate government standards.

Respiratory Protection Under normal conditions, the use of this product should not require respiratory protection. If overexposure should occur and ventilation is not adequate to maintain airborne concentrations at acceptable levels, the use of respiratory protection should be evaluated by a professional.

Section 9 Physical and Chemical Properties

9.1 Information on basic physical and chemical properties

Physical State	Liquid	**Gravity (Water=1.0)**	≈ 1 @20°C
Color	Pale Straw	**Solubility**	
Transparency	Clear	**Water**	Miscible
Odor	Mild odor	**Organic**	Not determined
pH	13.1	**Partition n-octanol/water**	Not determined
Freezing Point	Not determined	**Auto-ignition Temp.**	Product is not
Boiling Point	Similar to water, approximately 100°C	**Decomposition Temperature**	Not determined
Flash Point	Not applicable	**Percent Volatiles**	Not applicable
Evaporation Rate	Not determined	**Vapor Pressure**	Similar to water, approximately 23 hPa

Flammability Limits	Not applicable	**Explosive Properties**	Not applicable
Vapor Density	Not determined	**Oxidizing Properties**	Not applicable
Odor Threshold	Not applicable		

9.2 Other Information No further relevant information available.

Section 10 Stability and Reactivity

10.1 Reactivity No further relevant information available.

10.2 Chemical Stability The product is stable in accordance with recommended storage conditions.

10.3 Possibility of hazardous reactions

No further relevant information available.

10.4 Conditions to Avoid To maintain product performance keep away from strong acids, strong bases, strong oxidizers.

Avoid exposure to heat and direct sunlight.

10.5 Incompatible materials No further relevant information available.

10.6 Hazardous Decomposition Products

No decomposition products posing hazards would be expected from this product (an aqueous solution).

Section 11 Toxicological Information

11.1 Information on toxicological effects

Toxicity Data for Hazardous Ingredients

Sodium Hydroxide
CAS # 1310-73-2 Dermal LD50 Rabbit 1350 mg/kg

Primary Routes of Exposure Eye contact, ingestion, inhalation, and skin contact.

Acute Toxicity Not based on available data.

Skin Corrosion/Irritation Contact may cause severe skin burns.

Serious eye damage/eye irritation Contact may cause serious eye damage.

Respiratory/skin sensitization Not based on available data.

Carcinogenicity No ingredients in this product are listed as carcinogens by ACGIH, IARC, NTP, OSHA or 1272/2008 EC regulation.

Germ cell mutagenicity Not based on available data.

Reproductive Toxicity Not based on available data.

©2018 Beckman Coulter, Inc.

Section 11 Toxicological Information (Continued)

target organ toxicity – single exposure

Not based on available data.

target organ toxicity – repeated exposure

Not based on available data.

Aspiration hazard Not based on available data.

Other Information No further relevant information available.

Section 12 Ecological Information

12.1 Ecotoxicity

Fresh Water Species

Sodium Hydroxide
CAS # 1310-73-2 — 96 h LC50 Oncorhynchus mykiss: 45.4 mg/L [static]

Microtox No information available.

Water Flea No information available.

Fresh Water Algae No information available.

12.2 Persistence and degradability Not determined for the product.

12.3 Bioaccumulation Not determined for the product.

12.4 Mobility in soil Not determined for the product.

12.5 Results of PBT and vPvB assessment

Not determined for the product. PBT: Not applicable, vPvB: Not applicable.

12.6 Other Adverse Effects This product contains environmentally hazardous substance below the cutoff level. Refer section 3 for ingredient information. Do not allow undiluted product to enter sewer/surface or ground water.

Section 13 Disposal Considerations

13.1 Waste treatment methods

Product Waste Disposal Chemical residues and remains should be routinely handled as special waste. This must be disposed of in compliance with anti-pollution and other laws of the country concerned. To ensure compliance we recommend that you contact the relevant (local) authorities and/or an approved waste-disposal company for information.

Package disposal Dispose of waste product, unused product and contaminated packaging in compliance with federal, state and local regulations. If unsure of the applicable requirements, contact the authorities for information.

13.2 Additional information Suggested European waste catalogue 18 01 06* - chemicals consisting of or containing dangerous substances. Dispose in accordance with national, state and local waste regulations.

*
1 Identification

· **Product identifier**

· **Trade name: D-10 Wash/Diluent Solution**

· **Catalog or product number:** 220-0112
· **Application of the substance / the mixture** In-vitro laboratory reagent or component

· **Details of the supplier of the safety data sheet**
· **Manufacturer/Supplier:**
Bio-Rad Laboratories, Diagnostic Group
4000 Alfred Nobel Drive
Hercules, California 94547 1(510)724-7000

· **Information department:**
Technical services, customer support
TechsupportUSSD@bio-rad.com
· **Emergency telephone number:**
1(800) 424-9300 Use only in the event of a CHEMICAL EMERGENCY involving a SPILL, LEAK, FIRE, EXPLOSION, or ACCIDENT.

2 Composition/information on ingredients

· **Chemical characterization: Substances**
· **CAS No. Description:**
7732-18-5 water
· **Identification number(s):**
· **EC number:** 231-791-2
· **Chemical characterization: Mixtures**
· **Description:** Mixture of the substances listed below with non-hazardous additions.

· **Listing of dangerous and non-hazardous components:** Void
· **Additional information** For the wording of the listed risk phrases refer to section 15.

*
3 Hazard(s) identification

· **Classification of the substance or mixture**
The product is not classified according to the Globally Harmonized System (GHS).

· **Label elements**
· **GHS label elements** Void
· **Hazard pictograms** Void
· **Signal word** Void
· **Hazard statements** Void
· **Classification system**
· **NFPA ratings (scale 0-4)**
Health = 0
Fire = 0
Reactivity = 0

*
4 First-aid measures

· **General information** No special measures required.
· **After inhalation** Supply fresh air; consult doctor in case of complaints.

(Contd. on page 2)

Safety Data Sheet
acc. to OSHA HCS

Printing date 06/03/2015 Reviewed on 05/14/2015

Trade name: D-10 Wash/Diluent Solution

(Contd. of page 1)

· **After skin contact** Generally the product does not irritate the skin.
· **After eye contact** Rinse opened eye for several minutes under running water.
· **After swallowing** Induce vomiting and call for medical help.

5 Fire-fighting measures

· **Suitable extinguishing agents**
CO2, extinguishing powder or water spray. Fight larger fires with water spray or alcohol resistant foam.
· **Special hazards arising from the substance or mixture** No further relevant information available.
· **Protective equipment:** No special measures required.

*

6 Accidental release measures

· **Personal precautions, protective equipment and emergency procedures** Wear protective clothing.
· **Environmental precautions:** Dilute with plenty of water.
· **Methods and material for containment and cleaning up:**
Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).
· **Reference to other sections**
No dangerous substances are released.
See Section 7 for information on safe handling
See Section 8 for information on personal protection equipment.
See Section 13 for disposal information.

*

7 Handling and storage

· **Handling**
· **Precautions for safe handling** No special measures required.
· **Information about protection against explosions and fires:** No special measures required.
· **Storage**
· **Requirements to be met by storerooms and receptacles:** According to product specification
· **Information about storage in one common storage facility:** Not required.
· **Further information about storage conditions:** None.
· **Specific end use(s)** No further relevant information available.

*

8 Exposure controls/personal protection

· **Additional information about design of technical systems:** No further data; see item 7.

· **Components with limit values that require monitoring at the workplace:**	
26628-22-8 sodium azide	
REL (United States)	Short-term value: C 0.3** mg/m³, C 0.1* ppm *as HN3 vapor; **as NaN3; Skin
TLV (United States)	Short-term value: C 0.29** mg/m³, C 0.11* ppm *as HN3 vapor **as NaN3

· **Additional information:** The lists that were valid during the creation were used as basis.
· **Personal protective equipment**
· **General protective and hygienic measures** The usual precautionary measures for handling chemicals should be followed.

(Contd. on page 3)

Safety Data Sheet
acc. to OSHA HCS

Printing date 06/03/2015 Reviewed on 05/14/2015

Trade name: D-10 Wash/Diluent Solution

(Contd. of page 2)

· **Breathing equipment:** Not required.
· **Protection of hands:** Protective gloves.
· **Material of gloves** Synthetic gloves
· **Penetration time of glove material**
The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.
· **Eye protection:** Safety glasses

*

9 Physical and chemical properties

· **General Information**	
· **Appearance:**	
Form:	Liquid
Color:	Colorless
· **Odor:**	Odorless
· **Odour threshold:**	Not determined.
· **pH-value:**	Not determined.
· **Change in condition**	
Melting point/Melting range:	0 °C
Boiling point/Boiling range:	100 °C
· **Flash point:**	Not applicable
· **Flammability (solid, gaseous)**	Not applicable.
· **Ignition temperature:**	
Decomposition temperature:	Not determined.
· **Auto igniting:**	Product is not selfigniting.
· **Danger of explosion:**	Product does not present an explosion hazard.
· **Explosion limits:**	
Lower:	Not determined.
Upper:	Not determined.
· **Vapor pressure at 20 °C:**	23 hPa
· **Density at 20 °C:**	1.00005 g/cm³
· **Relative density**	Not determined.
· **Vapour density**	Not determined.
· **Evaporation rate**	Not determined.
· **Solubility in / Miscibility with**	
Water:	Fully miscible
· **Partition coefficient (n-octanol/water):**	Not determined.
· **Viscosity:**	
dynamic:	Not determined.
kinematic:	Not determined.
· **Solvent content:**	
Organic solvents:	0.0 %
Water:	100.0 %

(Contd. of page 3)

· **Other information** No further relevant information available.

*
10 Stability and reactivity

· **Thermal decomposition / conditions to be avoided:** No decomposition if used according to specifications.
· **Incompatible materials:**
This product contains sodium azide. Sodium azide can react with copper, brass, lead, and solder in piping systems to form explosive compounds of lead azide and copper azide.
· **Hazardous decomposition products:** No dangerous decomposition products known

*
11 Toxicological information

· **Acute toxicity:**
· **Primary irritant effect:**
· **on the skin:** No irritant effect.
· **on the eye:** No irritant effect.
· **Sensitization:** No sensitizing effects known.
· **Additional toxicological information:**
The product is not subject to classification according to the calculation method of the General EU Classification Guidelines for Preparations as issued in the latest version:
When used and handled according to specifications, the product does not have any harmful effects according to our experience and the information provided to us.

· **Carcinogenic categories**

· **IARC (International Agency for Research on Cancer)**
None of the ingredients is listed.

· **NTP (National Toxicology Program)**
None of the ingredients is listed.

· **OSHA-Ca (Occupational Safety & Health Administration)**
None of the ingredients is listed.

13 Disposal considerations

· **Waste treatment methods**
· **Recommendation**
Must not be disposed of together with household garbage. Do not allow product to reach sewage system.
Dispose of waste in accordance to applicable national, regional, or local regulations.
Flush pipes with water frequently if discarding solutions containing sodium azide into metal piping systems.

· **Uncleaned packagings:**
· **Recommendation:** Disposal must be made according to official regulations.
· **Recommended cleansing agent:** Water, if necessary with cleansing agents.

*
14 Transport information

· **UN-Number** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **UN proper shipping name** · **DOT, ADR, ADN, IMDG, IATA**	Void
· **Transport hazard class(es)**	
· **ADR, ADN, IMDG, IATA** · **Class**	Void
· **Packing group** · **DOT, ADR, IMDG, IATA**	Void
· **Environmental hazards:** · **Marine pollutant:**	No
· **Special precautions for user**	Not applicable.
· **Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code**	Not applicable.
· **Transport/Additional information:**	Not dangerous according to the above specifications.
· **UN "Model Regulation":**	-

*
15 Regulatory information

· **SARA (Superfund Amendents and Reauthorization Act of 1986 - USA)**

· **Section 302/304 (40CFR355.30 / 40CFR355.40):**	
26628-22-8	sodium azide

· **Section 313 (40CFR372.65):**	
26628-22-8	sodium azide

· **TSCA (Toxic Substances Control Act):**
All ingredients are listed.

Manufacturer	1 (352) 323-3500 - Outside of the US

Section 2: Hazards Identification

EU/EEC
According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010]

2.1 Classification of the Substance or Mixture

CLP

The following SDS is for the final finished mixture product only as used in the laboratory. The product contains beads and reagents in the cartridge or in off-board containers. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

CLP

Hazard Statements No label element(s) required

2.3 Other Hazards

CLP

According to Regulation (EC) No. 1272/2008 (CLP) this material is not considered hazardous.

UN GHS (Labeling Content Used on Products)
According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

2.1 Classification of the Substance or Mixture

UN GHS

Acute Toxicity Oral 5
Skin Mild Irritation 3
Eye Mild Irritation 2B

2.2 Label Elements

UN GHS

WARNING

Hazard statements

Harmful if swallowed
May be harmful in contact with skin
Causes eye irritation

Precautionary statements

Prevention Wash hands thoroughly after handling.

Response If skin irritation occurs: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
Call a POISON CENTER or doctor/physician if you feel unwell.

2.3 Other Hazards

UN GHS — According to the Globally Harmonized System for Classification and Labeling (GHS) this product is considered hazardous.

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the Substance or Mixture

OSHA HCS 2012 — Eye Mild Irritation 2B

2.2 Label Elements

OSHA HCS 2012

Hazard statements
Harmful if swallowed
May be harmful in contact with skin
Causes eye irritation

Precautionary statements

Prevention — Wash hands thoroughly after handling.

Response — IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

2.3 Other Hazards

OSHA HCS 2012 — Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is not considered hazardous.

Canada
According to: WHMIS

2.1 Classification of the Substance or Mixture

WHMIS — Not classified

2.2 Label Elements

WHMIS — No label element(s) required.

2.3 Other Hazards

WHMIS — In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other Information

All other reagents, beads, and other constituents are at concentrations less than 1% in the mixture or not considered hazardous under US hazard communication regulations (29 CFR 1910.1200), EU directives for classification and labeling of substances or mixtures or the Global Harmonization System for classification and labeling of substances or mixtures.

Section 3: Composition/Information on Ingredients

3.1 Substances

Material does not meet the criteria of a substance.

3.2 Mixtures

Composition					
Chemical Name	**Identifiers**	**%**	**LD50/LC50**	**Classifications According to Regulation/Directive**	**Comments**
Guanidine Thiocyanate	**CAS:** 593-84-0 **EINECS:** 209-812-1	10% - 20%	593 mg/kg	**EU CLP:** Acute Tox. 5, H302, H313, H320 **UN GHS:** Acute Tox. 5 (Orl); Skin Irrit. 3; Eye Irrit. 2B **OSHA HCS 2012:** Acute Tox. 5 (Orl); Eye Irrit. 2B	NDA

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Move victim to fresh air. Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing.

Skin First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.

Eye First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

Ingestion First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If swallowed, rinse mouth with water (only if the person is conscious) Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to Physician All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Firefighting Measures

5.1 Extinguishing Media

Suitable Extinguishing Media	LARGE FIRES: Dry chemical, CO_2, alcohol-resistant foam or water spray. SMALL FIRES: Dry chemical, CO_2 or water spray.
Unsuitable Extinguishing Media	No data available

5.2 Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosion Hazards	Plastic cartridge containing reagents may emit toxic vapors of carbon oxides, sulfur oxides, nitrogen oxides.
Hazardous Combustion Products	No data available

5.3 Advice for Firefighters

Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
Wear positive pressure self-contained breathing apparatus (SCBA).
SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	In the event a cartridge is broken these personal precautions are applicable. Wear appropriate protective clothing. Do not walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas.
Emergency Procedures	No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

6.2 Environmental Precautions

Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and Material for Containment and Cleaning Up

Containment/ Clean-up Measures	For small spills, wear gloves and absorb spill with paper towel. Do not dispose spilled materials down drain.

6.4 Reference to other sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7: Handling and Storage

7.1 Precautions for safe handling

Handling — No special handling necessary. If cartridge is broken avoid contact with spilled reagents. Avoid contact with skin and eyes.

7.2 Conditions for safe storage, including any incompatibilities

Storage — Store according to product labeling. Keep away from incompatible materials. Store locked up. Keep container/package tightly closed in a cool, well-ventilated place.

7.3 Specific end use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

8.1 Control parameters

	Exposure Limits/Guidelines			
	Result	**ACGIH**	**NIOSH**	**OSHA**
Guanidinium thiocyanate	TWA	Not established	Not established	Not established

8.2 Exposure controls

Engineering Measures/Controls — Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory — Respiratory equipment is not expected to be necessary if material is used under ordinary conditions and as recommended. Otherwise, follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face — Wear chemical splash safety goggles.

Skin/Body — Wear protective clothing

Environmental Exposure Controls — Follow best practice for site management and disposal of waste.

Key to abbreviations
OSHA = Occupational Safety and Health Administration
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9: Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Color	Colorless
Odor	Odorless	Odor Threshold	Data lacking
General Properties			
Boiling Point	212 °F(100 °C)	Melting Point/Freezing Point	32 °F(0 °C)
Decomposition Temperature	Data lacking	pH	3.3 to 8.8
Specific Gravity/Relative Density	= 1 Water=1	Water Solubility	Soluble 100 %
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Minimal	Vapor Density	Data lacking
Evaporation Rate	Minimal		
Flammability			
Flash Point	Data lacking	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition Coefficient	Data lacking		

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical stability

Stable

10.3 Possibility of hazardous reactions

Hazardous polymerization will not occur.

10.4 Conditions to avoid

Incompatible materials. Burning plastic cartridge containing reagents may liberate toxic byproducts

10.5 Incompatible materials

Acids.

10.6 Hazardous decomposition products

Burning plastic cartridge containing reagents may liberate toxic byproducts.

Section 11: Toxicological Information

11.1 Information on toxicological effects

Potential Health Effects

Inhalation
Acute (Immediate) May cause irritation.
Chronic (Delayed) No data available

Skin
Acute (Immediate) Causes mild skin irritation.
Chronic (Delayed) No data available

Eye
Acute (Immediate) Causes eye irritation.
Chronic (Delayed) No data available

Ingestion
Acute (Immediate) May be harmful if swallowed.
Chronic (Delayed) No data available

Key to abbreviations
LD = Lethal Dose

Section 12: Ecological Information

12.1 Toxicity

LC50 (guppy): 89.1 mg/l @ 96 h

12.2 Persistence and degradability

Material data lacking.

12.3 Bioaccumulative potential

Material data lacking.

12.4 Mobility in Soil

Material data lacking.

12.5 Results of PBT and vPvB assessment

No PBT and vPvB assessment has been conducted.

12.6 Other adverse effects

No studies have been found.

Section 13: Disposal Considerations

13.1 Waste treatment methods

Product waste	Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.
Packaging waste	Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

13.2 Other Information

Biological specimens, transfer devices, and used cartridges should be considered capable of transmitting infectious agents requiring standard precautions. Follow your institution's environmental waste procedures for proper disposal of used cartridges and unused reagents. These materials may exhibit characteristics of chemical hazardous waste requiring specific national or regional diposal procedures. If national or regional regulations do not provide clear direction on proper disposal, biological specimens and used cartridges should be disposed per WHO (World Health Organization) medical waste handling and disposal guidelines.

Section 14: Transport Information

Bagian 2: Identifikasi Bahaya

UE/EEC

Sesuai dengan: Peraturan (EC) No 1272/2008 (CLP)/REACH 1907/2006 [diubah dengan 453/2010]

2.1 Klasifikasi Zat atau Campuran

CLP

LDK yang berikut ini untuk produk campuran jadi akhir saja sebagaimana digunakan di laboratorium. Produk berisi manik dan reagensia dalam kartrid atau dalam wadah di luar sistem. Pengecualian untuk pengungkapan beberapa informasi komponen menurut Artikel CLP 1(5)(d) dan 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Tidak diklasifikasikan

2.2 Elemen Label

CLP

Pernyataan Bahaya Tidak diperlukan elemen label.

2.3 Bahaya Lain

CLP

Sesuai dengan Peraturan (EC) No. 1272/2008 (CLP) bahan ini tidak dianggap berbahaya.

GHS PBB (Pelabelan Kandungan Produk)

Sesuai dengan: Sistem Harmonisasi Global Klasifikasi dan Pelabelan pada Bahan Kimia (GHS) PBB

2.1 Klasifikasi Zat atau Campuran

GHS PBB

Toksisitas Akut Oral 5
Iritasi Kulit Ringan 3
Iritasi Mata Ringan 2B

2.2 Elemen Label

GHS PBB

PERINGATAN

Pernyataan Bahaya

Berbahaya jika tertelan
Dapat berbahaya jika terkena kulit
Menyebabkan iritasi mata

Pernyataan Kehati-hatian

Pencegahan Cuci tangan dengan saksama setelah melakukan penanganan.

Respons Jika terjadi iritasi kulit: Dapatkan saran/bantuan medis.
JIKA TERKENA MATA: Bilas dengan hati-hati menggunakan air selama beberapa menit. Lepaskan lensa kontak, jika ada dan mudah dilakukan. Lanjutkan membilas.
Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis.
Hubungi SENTRA INFORMASI KERACUNAN NASIONAL atau dokter jika Anda merasa kurang sehat.

2.3 Bahaya Lain

GHS PBB Sesuai dengan Sistem Harmonisasi Global Klasifikasi dan Pelabelan (GHS, Globally Harmonized System), produk ini dianggap berbahaya.

Amerika Serikat (AS)
Sesuai dengan: OSHA 29 CFR 1910.1200 HCS

2.1 Klasifikasi Zat atau Campuran

OSHA HCS 2012 Iritasi Mata Ringan 2B

2.2 Elemen Label

OSHA HCS 2012

Pernyataan Bahaya
Berbahaya jika ditelan
Dapat berbahaya jika terkena kulit
Menyebabkan iritasi mata

Pernyataan Kehati-hatian

Pencegahan Cuci tangan dengan saksama setelah melakukan penanganan.

Respons JIKA TERKENA MATA: Bilas dengan hati-hati menggunakan air selama beberapa menit. Lepaskan lensa kontak, jika ada dan mudah dilakukan. Lanjutkan membilas. Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis.

2.3 Bahaya Lain

OSHA HCS 2012 Di bawah Peraturan Amerika Serikat (29 CFR 1910.1200 - Standar Komunikasi Bahaya (Hazard Communication Standard), produk ini tidak dianggap berbahaya.

Kanada
Sesuai dengan: WHMIS

2.1 Klasifikasi Zat atau Campuran

WHMIS Tidak diklasifikasikan

2.2 Elemen Label

WHMIS Tidak diperlukan elemen label.

2.3 Bahaya Lain

WHMIS Di Kanada, produk yang tercantum di atas tidak dianggap berbahaya menurut Sistem Informasi Bahan Berbahaya di Tempat Kerja (WHMIS [Workplace Hazardous Materials Information System]).

2.4 Informasi Lain

Semua reagensia, manik, dan unsur penyusun lain mempunyai konsentrasi kurang dari 1% dalam campuran dan tidak dianggap berbahaya di bawah peraturan komunikasi bahaya AS (29 CFR 1910.1200), petunjuk UE untuk klasifikasi dan pelabelan zat atau campuran atau Sistem Harmonisasi Global untuk klasifikasi dan pelabelan zat atau campuran.

Bagian 3: Komposisi/Informasi Bahan Penyusun

3.1 Zat

Bahan tidak memenuhi kriteria zat.

3.2 Campuran

Komposisi					
Nama Kimia	**Pengidentifikasi**	**%**	**LD50/LC50**	**Klasifikasi Sesuai dengan Peraturan/Petunjuk**	**Komentar**
Guanidine Tiosianat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10%–20%	593 mg/kg	**CLP UE:** Toks. Akut 5, H302, H313, H320 **GHS PBB:** Toks. Akut 5 (Orl); Irit. Kulit 3; Irit. Mata 2B **OSHA HCS 2012:** Toks. Akut 5 (Orl); Irit. Mata 2B	DTT

Bagian 4: Tindakan Pertolongan Pertama

4.1 Deskripsi Tindakan Pertolongan Pertama

Inhalasi
Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Pindahkan korban ke tempat dengan udara segar. Berikan oksigen jika sulit bernapas. Jangan menggunakan metode pernapasan mulut ke mulut jika korban menghirup zat; berikan pernapasan buatan menggunakan masker saku yang dilengkapi katup satu arah atau alat medis pernapasan lain yang sesuai. Berikan pernapasan buatan jika korban tidak bernapas.

Kulit
Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Untuk kontak kulit sedikit, jangan menyebarkan bahan pada kulit yang tidak terkena. Jika kulit terkena zat, segera bilas kulit dengan air mengalir selama minimal 20 menit. Lepaskan dan pisahkan pakaian yang terkontaminasi.

Mata
Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Jika terkena zat, segera bilas mata dengan air mengalir selama minimal 20 menit. Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis.

Penelanan
Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Jika tertelan, bilas mulut dengan air (hanya jika korban dalam keadaan sadar). JANGAN memaksa untuk memuntahkan. Jangan menggunakan metode pernapasan mulut ke mulut jika korban menelan zat. Segera dapatkan bantuan medis jika tertelan.

4.2 Gejala dan Efek Paling Penting, Baik Akut maupun Tertunda

Lihat Bagian 11 - Informasi Toksikologi.

4.3 Indikasi Diperlukannya Bantuan Medis dan Perawatan Khusus Segera

Catatan untuk Dokter
Semua pengobatan harus didasarkan pada tanda dan gejala penderitaan yang teramati pada pasien. Pertimbangan harus diberikan pada kemungkinan adanya paparan berlebihan terhadap bahan selain produk ini.

Bagian 5: Tindakan Pemadaman Kebakaran

5.1 Media Pemadaman Kebakaran

Media Pemadaman Kebakaran yang Sesuai	KEBAKARAN BESAR: Zat kimia kering, CO2, busa tahan alkohol, semprotan air. KEBAKARAN KECIL: Zat kimia kering, CO2, atau semprotan air.
Media Pemadaman Kebakaran yang Tidak Sesuai	Data tidak tersedia

5.2 Bahaya Khusus yang Timbul dari Zat atau Campuran

Bahaya Kebakaran dan Ledakan yang Tidak Biasa	Kartrid plastik yang berisi reagensia dapat mengeluarkan uap beracun karbon oksida, sulfur oksida, nitrogen oksida.
Produk Pembakaran Berbahaya	Data tidak tersedia

5.3 Saran untuk Petugas Pemadam Kebakaran

Pakaian pelindung petugas pemadam kebakaran struktural memberikan perlindungan terbatas HANYA dalam situasi kebakaran; pakaian tersebut tidak efektif dalam situasi tumpahan saat kontak langsung dengan zat dapat terjadi.
Kenakan pakaian pelindung zat kimia yang direkomendasikan secara spesifik oleh produsen. Pakaian tersebut mungkin menyediakan sedikit perlindungan termal atau tidak sama sekali.
Kenakan alat pernapasan mandiri bertekanan positif (SCBA).
KEBAKARAN KECIL: Pindahkan wadah dari area kebakaran jika Anda dapat melakukannya tanpa risiko.

Bagian 6: Tindakan Penanggulangan jika terjadi Tumpahan dan Kebocoran

6.1 Tindakan Pencegahan Pribadi, Alat Perlindungan Diri, dan Prosedur Darurat

Tindakan Pencegahan Diri	Jika kartrid rusak, tindakan pencegahan diri ini berlaku. Kenakan pakaian pelindung yang sesuai. Jangan berjalan melalui bahan yang tertumpah. Jangan menyentuh wadah yang rusak atau bahan yang tertumpah kecuali mengenakan pakaian pelindung yang sesuai. Beri ventilasi pada area yang tertutup.
Prosedur Tanggap Darurat	Prosedur tanggap darurat dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa sesuai rekomendasi.

6.2 Tindakan Pencegahan Lingkungan

Cegah masuknya zat ke dalam saluran air, saluran pembuangan, ruang bawah tanah, atau ruang tertutup.

6.3 Metode dan Bahan untuk Membendung dan Membersihkan

Tindakan Membendung/ Membersihkan	Untuk tumpahan sedikit, kenakan sarung tangan, dan serap tumpahan dengan handuk kertas. Jangan membuang bahan yang tertumpah ke saluran pembuangan.

6.4 Referensi ke Bagian Lain

Lihat Bagian 8 - Kontrol Paparan/Perlindungan Diri dan Bagian 13 - Pertimbangan Pembuangan/Pemusnahan.

Bagian 7: Penanganan dan Penyimpanan

7.1 Tindakan Pencegahan untuk Penanganan Aman

Penanganan Tidak diperlukan penanganan khusus. Jika kartrid rusak, hindari kontak dengan reagensia yang tertumpah. Hindari kontak dengan kulit dan mata.

7.2 Kondisi untuk Penyimpanan Aman, Termasuk Inkompatibilitas

Penyimpanan Simpan sesuai dengan label produk. Jauhkan dari bahan yang tidak kompatibel. Simpan di tempat terkunci. Simpan wadah/kemasan dalam keadaan tertutup rapat di tempat yang sejuk dan berventilasi baik.

7.3 Penggunaan Akhir Spesifik

Lihat Bagian 1.2 - Penggunaan teridentifikasi yang relevan.

Bagian 8: Kontrol Paparan/Perlindungan Diri

8.1 Parameter Kontrol

	Batas/Pedoman Paparan			
	Hasil	**ACGIH**	**NIOSH**	**OSHA**
Guanidinium tiosianat	TWA	Tidak ditentukan	Tidak ditentukan	Tidak ditentukan

8.2 Kontrol Paparan

Kontrol/Tindakan Teknik Ventilasi umum yang baik harus digunakan. Tingkat ventilasi harus disesuaikan dengan kondisi. Jika relevan, gunakan penutup proses, ventilasi pembuangan lokal, atau kontrol rekayasa lain untuk menjaga tingkat zat yang terbawa udara berada di bawah batas paparan yang disarankan. Jika batas paparan belum ditentukan, jaga tingkat zat yang terbawa udara pada tingkat yang dapat diterima.

Alat Perlindungan Diri

Pernapasan Alat pernapasan dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Sebaliknya, ikuti peraturan respirator OSHA yang ada di dalam 29 CFR 1910.134 atau Standar Eropa EN 149. Gunakan respirator yang disetujui oleh NIOSH/MSHA atau Standar Eropa EN 149 jika batas paparan terlampaui atau gejala dialami.

Mata/Wajah Kenakan kacamata pengaman untuk cipratan zat kimia.

Kulit/Tubuh Kenakan pakaian pelindung

Kontrol Paparan Lingkungan Ikuti praktik terbaik untuk pengelolaan lokasi dan pembuangan limbah.

Penjelasan singkatan
OSHA = Occupational Safety and Health Administration (Administrasi Kesehatan dan Keselamatan Kerja)
TWA = Time-Weighted Averages, rata-rata terbobot waktu didasarkan pada paparan 8 jam/hari, 40 jam/minggu

Bagian 9: Sifat Fisika dan Kimia

9.1 Informasi tentang Sifat Fisika dan Kimia

Deskripsi Bahan			
Bentuk Fisik	Cairan	Warna	Tanpa warna
Bau	Tanpa bau	Ambang Bau	Data tidak cukup
Sifat Umum			
Titik Didih	100 °C (212 °F)	Titik Leleh/Titik Beku	0 °C (32 °F)
Suhu Dekomposisi	Data tidak cukup	pH	3,3 hingga 8,8
Berat Jenis/Densitas Relatif	= 1 Air=1	Kelarutan Air	Larut 100%
Kekentalan	Data tidak cukup	Sifat Eksplosif	Data tidak cukup
Sifat Pengoksidasi:	Data tidak cukup		
Volatilitas			
Tekanan Uap	Minimal	Densitas Uap	Data tidak cukup
Laju Penguapan	Minimal		
Kemudahan Menyala			
Titik Nyala	Data tidak cukup	UEL	Data tidak cukup
LEL	Data tidak cukup	Swasulut	Data tidak cukup
Kemudahan Menyala (padat, gas)	Data tidak cukup		
Lingkungan			
Koefisien Partisi Oktanol/Air	Data tidak cukup		

9.2 Informasi Lain

Tidak tercatat adanya parameter fisika dan kimia tambahan.

Bagian 10: Stabilitas dan Reaktivitas

10.1 Reaktivitas

Tidak ada reaksi berbahaya yang diketahui di bawah kondisi penggunaan normal.

10.2 Stabilitas Kimia

Stabil

10.3 Kemungkinan Reaksi Berbahaya

Polimerisasi berbahaya tidak akan terjadi.

10.4 Kondisi untuk Dihindari

Bahan yang Tidak Kompatibel. Membakar kartrid plastik berisi reagensia dapat melepaskan produk sampingan beracun

10.5 Bahan yang Tidak Kompatibel

Asam.

10.6 Produk dekomposisi berbahaya

Membakar kartrid plastik berisi reagensia dapat melepaskan produk sampingan beracun.

Potensi Efek Kesehatan

Inhalasi
Akut (Segera) Dapat menyebabkan iritasi.
Kronis (Tertunda) Data tidak tersedia

Kulit
Akut (Segera) Menyebabkan iritasi kulit ringan.
Kronis (Tertunda) Data tidak tersedia

Mata
Akut (Segera) Menyebabkan iritasi mata.
Kronis (Tertunda) Data tidak tersedia

Penelanan
Akut (Segera) Dapat berbahaya jika ditelan.
Kronis (Tertunda) Data tidak tersedia

Penjelasan singkatan
LD = Lethal Dose (Dosis Mematikan)

Bagian 12: Informasi Ekologis

12.1 Toksisitas

LC50 (ikan gupi): 89,1 mg/l pada 96 jam

12.2 Persistensi dan Keteruraian

Data bahan tidak cukup.

12.3 Potensi Bioakumulatif

Data bahan tidak cukup.

12.4 Mobilitas dalam Tanah

Data bahan tidak cukup.

12.5 Hasil pengkajian PBT dan vPvB

Belum dilakukan pengkajian PBT dan vPvB.

12.6 Efek Merugikan yang Lain

Belum ada penelitian.

Bagian 13: Pertimbangan Pembuangan/Pemusnahan

13.1 Metode Penanganan Limbah

Limbah produk	Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.
Limbah kemasan	Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

13.2 Informasi Lain

Spesimen biologis, alat transfer, dan kartrid bekas pakai harus dianggap sebagai mampu menularkan agen penyebab infeksi, yang membutuhkan kewaspadaan standar. Ikuti prosedur limbah lingkungan institusi Anda untuk pembuangan dengan benar kartrid bekas dan reagensia tidak terpakai. Berbagai bahan ini dapat menunjukkan karakteristik limbah kimia berbahaya yang membutuhkan prosedur pembuangan spesifik nasional atau regional. Jika peraturan negara atau regional tidak menyediakan arahan yang jelas mengenai pembuangan dengan benar, spesimen biologis dan kartrid bekas harus dibuang sesuai pedoman penanganan dan pembuangan limbah medis dari Organisasi Kesehatan Dunia (WHO, World Health Organization).

Bagian 14: Informasi Pengangkutan

Penafian/ Pernyataan Liabilitas

Informasi di atas didasarkan pada data yang tersedia bagi kami dan diyakini kebenarannya. Karena informasi tersebut dapat diterapkan dalam kondisi di luar kendali kami dan dengan cara yang asing bagi kami, kami tidak bertanggung jawab atas hasil penggunaannya dan semua orang yang menerimanya harus menentukan sendiri dampak, sifat, perlindungan, dan pembuangan yang sesuai dengan kondisi khususnya. Tidak ada pernyataan, jaminan, atau garansi, secara tegas atau tersirat (termasuk jaminan akan kesesuaian atau kelayakan diperdagangkan untuk tujuan khusus), yang dibuat berhubungan dengan bahan, akurasi informasi ini, hasil yang akan didapatkan dari penggunaannya, atau bahaya yang terkait dengan penggunaan bahan. Kehati-hatian harus digunakan dalam penanganan dan penggunaan bahan. Informasi di atas diberikan dengan iktikad baik dan dengan keyakinan bahwa itu akurat. Pada tanggal penerbitan, kami menyediakan semua informasi yang relevan dengan penanganan bahan yang diketahui sebelumnya. Namun, jika ada kejadian merugikan yang berhubungan dengan produk ini, Lembar Data Keselamatan bukan, dan tidak ditujukan untuk menggantikan konsultasi dengan personel terlatih yang sesuai.

Punkt 2: Fareidentifikation

EU/EØF

I henhold til: Forordning (EF) nr. 1272/2008 (CLP)/REACH 1907/2006 [ændret ved 453/2010]

2.1 Klassificering af stoffet eller blandingen

CLP-forordning

Dette sikkerhedsdatablad (SDS) gælder for det blandede slutprodukt kun som anvendt på laboratoriet. Produktet indeholder perler og reagenser i kassetten eller i separate beholdere. Undtagelser vedrørende offentliggørelse af oplysninger om visse komponenter skal ske iht. CLP paragraf 1(5)(d) og 29 CFR 1910.1200(g)(2)(i)(C)(1)og(2).
Ikke klassificeret

2.2 Mærkningselementer

CLP

H-sætninger Ingen mærkningselementer påkrævet

2.3 Andre farer

CLP-forordning

I henhold til forordning (EF) nr. 1272/2008 (CLP) anses materialet ikke som værende farligt.

UN GHS (Mærkning indhold bruges på produkter)

I henhold til: FNs globale harmoniserede system til klassificering og mærkning af kemikalier (GHS)

2.1 Klassificering af stoffet eller blandingen

UN GHS

Akut toksicitet - oral 5
Mild hudirritation 3
Mild øjenirritation 2B

2.2 Mærkningselementer

UN GHS

ADVARSEL

Faresætninger
Farlig ved indtagelse
Kan være skadeligt ved kontakt med huden
Forårsager øjenirritation

Signalord

Forebyggelse Vask hænderne grundigt efter håndtering.

Reaktion
Ved hudirritation: Søg lægehjælp.
VED KONTAKT MED ØJNENE: Skyl forsigtigt med vand i flere minutter. Fjern eventuelle kontaktlinser, hvis dette kan gøres let. Fortsæt skylning.
Ved vedvarende øjenirritation: Søg lægehjælp.
I tilfælde af ubehag ring til en GIFTINFORMATION eller en læge.

2.3 Andre farer

UN GHS I henhold til det globale harmoniserede system til klassificering og mærkning af kemikalier (GHS) anses dette produkt som farligt.

USA
I henhold til: OSHA 29 CFR 1910.1200 HCS

2.1 Klassificering af stoffet eller blandingen

OSHA HCS 2012 Mild øjenirritation 2B

2.2 Mærkningselementer

OSHA HCS 2012

Faresætninger Farlig ved indtagelse
Kan være skadeligt ved kontakt med huden
Forårsager øjenirritation

Signalord

Forebyggelse Vask hænderne grundigt efter håndtering.

Reaktion VED KONTAKT MED ØJNENE: Skyl forsigtigt med vand i flere minutter. Fjern eventuelle kontaktlinser, hvis dette kan gøres let. Fortsæt skylning.
Ved vedvarende øjenirritation: Søg lægehjælp.

2.3 Andre farer

OSHA HCS 2012 I henhold til Forordning (USA) - Hazard Communication Standard 29 CFR 1910.1200 anses dette produkt ikke for at være farligt.

Canada
I henhold til: WHMIS

2.1 Klassificering af stoffet eller blandingen

WHMIS Ikke klassificeret

2.2 Mærkningselementer

WHMIS Ingen mærkningselementer påkrævet.

2.3 Andre farer

WHMIS I Canada anses ovenstående produkt ikke for at være farligt iht. Workplace Hazardous Materials Information System (WHMIS).

2.4 Andre oplysninger

Alle andre reagenser, perler og andre indholdsstoffer forekommer i koncentrationer på mindre end 1 % i blandingen, eller anses ikke for farlige iht. amerikanske forordninger vedrørende fare (29 CFR 1910.1200), EU-direktiver til klassifikation og mærkning af stoffer eller blandinger, eller Global Harmonization System til klassifikation og mærkning af stoffer eller blandinger.

Punkt 3: Sammensætning af/oplysning om indholdsstoffer

3.1 Stoffer

Materialet opfylder ikke kriterierne for et stof.

3.2 Blandinger

Sammensætning					
Kemisk navn	**Identifikatorer**	**%**	**LD50/LC50**	**Klassificeringer iht. forordning/direktiv**	**Bemærkninger**
Guanidinthiocyanat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10-20 %	593 mg/kg	**EU CLP:** Akut toks. 5, H302, H313, H320 **UN GHS:** Akut toks. 5 (oral), hudirrit. 3, Øjenirrit. 2B **OSHA HCS 2012:** Akut toks. 5 (oral), Øjenirrit. 2B	NDA

Punkt 4: Førstehjælpsforanstaltninger

4.1 Beskrivelse af førstehjælpsforanstaltninger

Indånding Førstehjælp forventes ikke at være nødvendigt, hvis materialet anvendes under normale forhold og som anbefalet. Flyt personen til et sted med frisk luft. Brug iltmaske ved vejrtrækningsbesvær. Brug ikke mund-til-mund metoden, hvis den tilskadekomne indåndede stoffet. Giv kunstigt åndedræt ved hjælp af en lommemaske, der er udstyret med en envejsventil eller andet korrekt respirationsudstyr. Giv kunstigt åndedræt, hvis den tilskadekomne ikke trækker vejret.

Hud Førstehjælp forventes ikke at være nødvendigt, hvis materialet anvendes under normale forhold og som anbefalet. Ved mindre hudkontakt undgå at sprede materialet til den upåvirkede hud. Ved kontakt med stoffet, skyl øjeblikkeligt huden med rigelige mængder vand i mindst 20 minutter. Forurenet tøj og sko tages af.

Øjne Førstehjælp forventes ikke at være nødvendigt, hvis materialet anvendes under normale forhold og som anbefalet. Ved kontakt med stoffet, skyl øjnene med rigelige mængder vand i mindst 20 minutter. Ved vedvarende øjenirritation: Søg lægehjælp.

Indtagelse Førstehjælp forventes ikke at være nødvendigt, hvis materialet anvendes under normale forhold og som anbefalet. Ved indtagelse, skyl munden med vand (kun hvis personen er ved bevidsthed). Fremkald IKKE opkastning. Brug ikke mund-til-mund genoplivning, hvis stoffet blev indtaget. Søg omgående lægehjælp ved indtagelse.

4.2 Vigtigste symptomer og virkninger, både akutte og forsinkede

Se punkt 11 - Toksikologiske oplysninger.

4.3 Angivelse af om øjeblikkelig lægehjælp og særlig behandling er nødvendig

Anmærkninger til lægen Der bør behandles symptomatisk. Der bør tages forbehold for, at overeksponering for andre materialer end dette produkt kan have fundet sted.

Punkt 5: Brandbekæmpelse

5.1 Slukningsmidler

Egnede slukningsmidler	STØRRE BRAND: Slukningspulver, CO2, alkoholbestandigt skum eller vandtåge. MINDRE BRANDE: Slukningspulver, CO2 eller vandtåge.
Uegnede slukningsmidler	Ingen data

5.2 Særlige farer i forbindelse med stoffet eller blandingen

Usædvanlige brand- eller eksplosionsfarer	En plastbeholder indeholdende reagenser kan danne de toksiske luftarter karbonoxider, svovloxider, nitrogenoxider.
Farlige forbrændingsprodukter	Ingen data

5.3 Anvisninger for brandslukningspersonale

Beskyttelsesdragter til brandslukningspersonale yder begrænset beskyttelse KUN ved ildebrande. Dragterne er ikke effektive ved spild, hvor direkte kontakt med stoffet kan finde sted.
Benyt særlige kemiske beskyttelsesdragter som anbefalet af producenten. Disse yder muligvis kun ringe eller ingen beskyttelse mod kraftig varme.
Benyt selvforsynet, lufttilført åndedrætsapparatur (SCBA), som skal anvendes i positiv tryktilstand.
MINDRE BRANDE: Flyt beholdere fra brandområdet, hvis dette kan gøres forsvarligt.

Punkt 6: Forholdsregler over for udslip ved uheld

6.1 Personlige sikkerhedsforanstaltninger, personlige værnemidler og nødprocedurer

Personlige sikkerhedsforanstaltninger	Hvis en beholder er brudt, gælder disse personlige sikkerhedsforanstaltninger. Bær passende beskyttelsesdragter. Gå ikke igennem det spildte materiale. Rør ikke ved beskadigede beholdere eller spildt materiale uden at bære passende beskyttelsesdragt. Sørg for tilstrækkelig ventilation.
Tiltag i nødsituationer	Nødberedskab forventes ikke at være nødvendigt, så længe materialet anvendes under normale forhold som anbefalet.

6.2 Miljøbeskyttelsesforanstaltninger

Undgå spredning af spildt materiale til vandveje, kloakker, kælderrum eller lukkede områder.

6.3 Metoder og udstyr til inddæmpning og oprensning

Inddæmning og oprensning	Ved mindre udslip anvendes handsker. Opsaml spildet med papirhåndklæder. Hæld ikke spildt materiale i vasken.

6.4 Henvisning til andre punkter

Se punkt 8 - Eksponeringskontrol/personlige værnemidler og punkt 13 - Forhold vedrørende bortskaffelse.

Punkt 7: Håndtering og opbevaring

7.1 Forholdsregler for sikker håndtering

Håndtering Ingen særlige krav. Hvis beholderen er brudt, skal enhver kontakt med spildt reagens undgås. Undgå kontakt med hud og øjne.

7.2 Betingelser for sikker opbevaring, herunder eventuel uforenelighed

Opbevaring Opbevares som angivet på produktmærkningen. Holdes væk fra uforenelige materialer. Opbevares under lås. Hold beholderen/pakken tæt lukket på et godt ventileret sted.

7.3 Særlige anvendelser

Se punkt 1.2 - Relevante identificerede anvendelser.

Punkt 8: Eksponeringskontrol/personlige værnemidler

8.1 Kontrolparametre

	Grænseværdier/retningslinjer			
	Resultat	**ACGIH**	**NIOSH**	**OSHA**
Guanidiniumthiocyanat	TWA	Ikke fastlagt	Ikke fastlagt	Ikke fastlagt

8.2 Eksponeringskontrol

Egnede foranstaltninger til eksponeringskontrol Sørg for tilstrækkelig ventilation. Omfanget af ventilation skal svare til forholdene. Hvis relevant anvendes afskærmning, udsugning i området eller andre foranstaltninger for at holde luftforurening under de anbefalede eksponeringsgrænser. Hvis der ikke er fastlagt eksponeringsgrænser, skal luftforurening holdes på acceptable niveauer.

Personlige værnemidler

Åndedrætsværn Respirationsudstyr forventes ikke at være nødvendigt, hvis materialet anvendes under normale forhold og som anbefalet. Ellers følges OSHA-bestemmelserne om åndedrætsværn i 29 CFR 1910.134 eller europæisk standard EN 149. Der skal bruges NIOSH/MSHA eller åndedrætsværn i henhold til europæisk standard EN 149, hvis eksponeringsgrænserne overskrides eller der opstår symptomer.

Ansigtbeskyttelse Bær beskyttelsesbriller beregnet til brug med kemiske stoffer.

Hud-/kropsbeskyttelse Bær beskyttelsestøj

Miljøeksponeringskontrol Det skal sikres at lokale regler for udledning overholdes.

Forkortelser:
OSHA = Occupational Safety and Health Administration (det amerikanske arbejdsmiljøtilsyn)
TWA = Time-Weighted Averages (tidsvægtede gennemsnit) baseret på en 8-timers arbejdsdag eller 40-timers arbejdsuge

Punkt 9: Fysisk-kemiske egenskaber

9.1 Oplysninger om grundlæggende fysiske og kemiske egenskaber

Beskrivelse			
Tilstandsform	Flydende	Farve	Farveløs
Lugt	Lugtfri	Lugttærskel	Ingen data
Generelle oplysninger			
Kogepunkt	100 °C	Smeltepunkt/frysepunkt	0 °C
Dekomponeringstemperatur	Ingen data	pH	3,3 til 8,8
Specifik tyngde/relativ tæthed	= 1 Vand=1	Opløselighed i vand	100 % vandopløselig
Viskositet	Ingen data	Eksplosive egenskaber	Ingen data
Oxiderende egenskaber:	Ingen data		
Flygtighed			
Damptryk	Minimalt	Damptæthed	Ingen data
Fordampningshastighed	Minimalt		
Antændelighed			
Flammepunkt	Ingen data	Øvre eksplosionsgrænse	Ingen data
Nedre eksplosionsgrænse	Ingen data	Selvantændelsespunkt	Ingen data
Antændelighed (fast stof, luftart)	Ingen data		
Miljøeksponeringskontrol			
Octanol/vand-fordelingskoefficient	Ingen data		

9.2 Andre oplysninger

Ingen yderligere fysiske og kemiske parametre angivet.

Punkt 10: Stabilitet og reaktivitet

10.1 Reaktivitet

Ingen kendt reaktivitet under normale betingelser.

10.2 Kemisk stabilitet

Stabilt

10.3 Risiko for farlige reaktioner

Farlig polymerisering forekommer ikke.

10.4 Forhold, der skal undgås

Materialer, der skal undgås. Afbrænding af en plastbeholder indeholdende reagenser kan frigive toksiske biprodukter.

10.5 Materialer, der skal undgås

Syrer.

10.6 Farlige nedbrydningsprodukter

Afbrænding af en plastbeholder indeholdende reagenser kan frigive toksiske biprodukter.

Punkt 11: Toksikologiske oplysninger

11.1 Oplysninger om toksikologiske virkninger

Bestanddele		
Guanidiniumthiocyanat	593-84-0	**Akut toksicitet:** Intraperitonealt-mus LD50 • 593 mg/kg

GHS-egenskaber	Klassifikation
Akut toksicitet	**EU/CLP**•Ingen data **UN GHS**•Akut toksicitet - Oral 5 **OSHA HCS 2012**•Ingen data
Hudætsning/-irritation	**EU/CLP**•Ingen data **UN GHS**•Mild hudirritation 3 **OSHA HCS 2012**•Ingen data
Alvorlig øjenskade/-irritation	**EU/CLP**•Ingen data **UN GHS**•Mild øjenirritation 2B **OSHA HCS 2012**•Mild øjenirritation 2B
Hudsensibilisering	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data
Respiratorisk sensibilisering	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data
Karcinogenicitet	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data
Kimcellemutagenicitet	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data
Reproduktionstoksicitet	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data
Enkel STOT-eksponering	**EU/CLP**•Ingen data **UN GHS**•Ingen data **OSHA HCS 2012**•Ingen data

Potentielle helbredsmæssige virkninger

Indånding
Akut (omgående) Kan forårsage irritation.
Kronisk (forsinket) Data foreligger ikke

Hud
Akut (omgående) Forårsager mild hudirritation.
Kronisk (forsinket) Data foreligger ikke

Øjne
Akut (omgående) Forårsager øjenirritation.

Punkt 12: Miljøoplysninger

12.1 Toksicitet

LC50 (gubbi): 89,1 mg/l ved 96 t

12.2 Persistens og nedbrydelighed

Testdata foreligger ikke.

12.3 Bioakkumuleringspotentiale

Testdata foreligger ikke.

12.4 Mobilitet i jord

Testdata foreligger ikke.

12.5 Resultater af PBT- og vPvB-vurdering

Vurdering er ikke foretaget.

12.6 Andre negative virkninger

Der står ingen yderligere, relevante informationer til rådighed.

Punkt 13: Forhold vedrørende bortskaffelse

13.1 Metoder til affaldsbehandling

Produktaffald	Bortskaffelse af indholdet af og/eller beholder skal ske i overensstemmelse med alle lokale, regionale, nationale og/eller internationale krav.
Emballageaffald	Bortskaffelse af indholdet af og/eller beholder skal ske i overensstemmelse med alle lokale, regionale, nationale og/eller internationale krav.

13.2 Andre oplysninger

Biologiske prøver, overførselsudstyr og brugte beholdere skal behandles som værende i stand til at overføre smitstoffer, der kræver brug af standardforholdsregler. Overhold institutionens procedurer for miljøaffald vedrørende korrekt bortskaffelse af brugte beholdere og ubrugte reagenser. Dette materiale kan udvise egenskaber svarende til kemisk farligt affald, der skal bortskaffes ifølge specifikke nationale eller regionale procedurer. Hvis nationale eller regionale forordninger ikke indeholder klare retningslinjer for korrekt bortskaffelse, skal biologiske prøver og brugte beholdere bortskaffes ifølge retningslinjer fra WHO (World Health Organization) vedrørende håndtering og bortskaffelse af medicinsk affald.

Punkt 14: Transportoplysninger

	14.1 UN-nummer	14.2 UN-forsendelsesbetegnelse (UN Proper Shipping Name)	14.3 Transportfareklasse(r)	14.4 Emballagegruppe	14.5 Miljøfarer

Abschnitt 2: Mögliche Gefahren

EU/EEC

Nach: Regulation (EC) Nr. 1272/2008 (CLP)/REACH 1907/2006 [geändert durch 453/2010]

2.1 Einstufung des Stoffs oder Gemischs

CLP

Das folgende SDB gilt für das Fertiggemischprodukt nur, wenn es im Labor benutzt wird. Das Produkt enthält Kügelchen und Reagenzien, die in der Kartusche oder in separaten Behältern vorhanden sind. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Nicht klassifiziert

2.2 Kennzeichnungselemente

CLP

Gefahrenhinweise Kein(e) Beschriftungselement(e) erforderlich

2.3 Sonstige Gefahren

CLP

Nach Verordnung (EG) Nr. 1272/2008 (CLP) gilt dieses Material nicht als gefährlich.

UN GHS (Inhalt der auf den Produkten verwendeten Etiketten)

Nach: Global harmonisiertes System der Einstufung und Kennzeichnung von Chemikalien (GHS) der UN

2.1 Einstufung des Stoffs oder Gemischs

UN GHS

Akute Toxizität, oral 5
Leichte Hautreizung 3
Leichte Augenreizung 2B

2.2 Kennzeichnungselemente

UN GHS

WARNHINWEIS

H-Sätze Gesundheitsschädlich bei Verschlucken
Möglicherweise gesundheitsschädlich bei Hautkontakt
Verursacht Augenreizung

P-Sätze

Vorbeugung Nach Gebrauch Hände gründlich waschen.

Reaktion Bei Hautreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.
BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.
Bei Unwohlsein GIFTINFORMATIONSZENTRUM oder Arzt anrufen.

2.3 Sonstige Gefahren

UN GHS Nach dem global harmonisierten System zur Einstufung und Kennzeichnung (GHS) gilt dieses Produkt als gefährlich.

Vereinigte Staaten (VS)

Nach: OSHA 29 CFR 1910.1200 HCS

2.1 Einstufung des Stoffs oder Gemischs

OSHA HCS 2012 Leichte Augenreizung 2B

2.2 Kennzeichnungselemente

OSHA HCS 2012

Gefahrenhinweise Gesundheitsschädlich bei Verschlucken
Möglicherweise gesundheitsschädlich bei Hautkontakt
Verursacht Augenreizung

Sicherheitshinweise

Vorbeugung Nach Gebrauch Hände gründlich waschen.

Antwort BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

2.3 Sonstige Gefahren

OSHA HCS 2012 Nach den Vorschriften der USA (29 CFR 1910.1200 - Norm für Gefahrenkommunikation) gilt dieses Produkt nicht als gefährlich.

Kanada

Nach: WHMIS

2.1 Einstufung des Stoffs oder Gemischs

WHMIS Nicht klassifiziert

2.2 Kennzeichnungselemente

WHMIS Kein(e) Beschriftungselement(e) erforderlich.

2.3 Sonstige Gefahren

WHMIS In Kanada ist das oben genannte Produkt nach dem Workplace Hazardous Materials Information System (WHMIS) nicht als gefährlich einzustufen.

2.4 Sonstige Angaben

Alle anderen Reagenzien, Körner und andere Bestandteile sind in Konzentrationen unter 1 % im Gemisch vorhanden oder gelten nicht als gefährlich gemäß den US-Richtlinien für die Gefahrenkommunikation (29 CFR 1910.1200), den EU-Richtlinien für die Einstufung und Etikettierung von Substanzen oder Gemischen oder dem globalen Harmonisierungssystem für die Einstufung und Etikettierung von Substanzen oder Gemischen.

Abschnitt 3: Zusammensetzung/Angaben zu den Bestandteilen

3.1 Stoffe

Material erfüllt nicht die Kriterien einer Substanz.

3.2 Gemische

Zusammensetzung					
Chemische Bezeichnung	**Kennzeichnung**	**%**	**LD50/LC50**	**Klassifizierungen nach der Verordnung/Richtlinie**	**Bemerkungen**
Guanidiniumthiocyanat	**CAS:**593-84-0 **EINECS:** 209-812-1	10 %- 20 %	593 mg/kg	**EU CLP:** Akute Tox. 5, H302, H313, H320 **UN GHS:** Akute Tox. 5 (oral); Hautreizung 3; Augenreizung 2B **OSHA HCS 2012:** Akute Tox. 5 (oral); Augenreizung 2B	KDV

Abschnitt 4: Erste-Hilfe-Maßnahmen

4.1 Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Verunfallten an die frische Luft bringen. Bei Atemschwierigkeiten Sauerstoffzufuhr einleiten. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat; künstliche Beatmung mit einer mit Einwegventil ausgestatteten Taschen-Sauerstoffmaske oder sonstigem geeigneten medizinischen Beatmungsgerät einleiten. Bei Atemstillstand künstliche Beatmung umgehend einleiten.

Haut
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei geringem Hautkontakt Material nicht auf andere Hautbereiche verteilen. Im Falle eines Hautkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Verunreinigte Kleidung entfernen und isolieren.

Augen
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Im Falle eines Augenkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei Einnahme Mund mit Wasser ausspülen (nur, wenn die Person bei Bewusstsein ist). KEIN Erbrechen herbeiführen. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat. Bei Einnahme sofort Arzt zu Rate ziehen.

4.2 Wichtigste akute und verzögert auftretende Symptome und Wirkungen

Siehe Abschnitt 11 - Toxikologische Informationen.

4.3 Hinweis auf ärztliche Soforthilfe oder Spezialbehandlung

Hinweise für den Arzt Alle Behandlungsmaßnahmen sollten auf den beobachteten Anzeichen und Symptomen von Erschöpfung beim Patienten basieren. Außerdem ist zu berücksichtigen, dass es möglicherweise zum Kontakt mit anderen Materialien zusätzlich zu diesem Produkt kam.

Abschnitt 5: Maßnahmen zur Brandbekämpfung

5.1 Löschmittel

Geeignete Löschmittel GROSSBRAND: Trockenlöschmittel, CO2, alkoholresistenter Schaum oder Wasserstrahl.
KLEINBRAND: Trockenlöschmittel, CO2 oder Wasserstrahl.

Ungeeignete Löschmittel Keine Daten verfügbar

5.2 Besondere vom Stoff oder Gemisch ausgehende Gefahren

Ungewöhnliche Brand-und Explosionsgefahren Die Plastikkartusche enthält Reagenzien, die toxische Kohlenoxid-, Schwefeloxid- und Stickstoffoxiddämpfe abgeben können.

Gefährliche Verbrennungsprodukte Keine Daten verfügbar

5.3 Hinweise für die Brandbekämpfung

Für die Feuerbekämpfung vorgesehene Standardarbeitsschutzbekleidung bietet einen begrenzten Schutz NUR in Brandfällen; sie ist ineffektiv bei Verschüttungen, wo ein direkter Kontakt mit dem Stoff möglich ist.
Chemikalienschutzbekleidung tragen, die speziell vom Hersteller empfohlen wird. Sie kann wenig oder keinen Thermoschutz bieten.
Umgebungsluftunabhängiges Atemschutzgerät (SCBA) für Überdruckbetrieb tragen.
KLEINBRAND: Behälter aus der Brandzone entfernen, wenn es kein Risiko darstellt.

Abschnitt 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1 Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Persönliche Schutzmaßnahmen Wenn eine Kartusche bricht, dann sind diese persönlichen Vorkehrungen anzuwenden. Entsprechende Schutzkleidung tragen. Nicht durch das verschüttete Material hindurch gehen. Beschädigte Behälter oder verschüttetes Material ohne geeignete Schutzkleidung nicht anfassen. Geschlossene Räume be- oder entlüften.

Sofortmaßnahmen Es sind keine Notfallmaßnahmen erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird.

6.2 Umweltschutzmaßnahmen

Nicht in Gewässer, die Kanalisation, Keller oder enge Räume gelangen lassen.

6.3 Methoden und Material für Rückhaltung und Reinigung

Einkapselung/Aufräumarbeiten Bei kleinen Verschüttungen Handschuhe tragen und Verschüttung mit einem Papiertuch aufnehmen. Verschüttetes Material nicht durch den Abfluss entsorgen.

6.4 Verweis auf andere Abschnitte

Siehe Abschnitt 8 - Einwirkungskontrolle/Personenschutz und Abschnitt 13 - Überlegungen zur Entsorgung.

Abschnitt 7: Handhabung und Lagerung

7.1 Schutzmaßnahmen zur sicheren Handhabung

Handhabung Keine spezielle Handhabung notwendig. Wenn eine Kartusche gebrochen ist, dann ist der Kontakt mit verschütteten Reagenzien zu vermeiden. Kontakt mit Haut und Augen vermeiden.

7.2 Bedingungen zur sicheren Lagerung unter Berücksichtigung von Umweltverträglichkeiten

Lagerung Produkt gemäß der Etikettierung lagern. Von nicht kompatiblem Material fernhalten. Unter Verschluss aufbewahren. Behälter/Verpackung dicht verschlossen an kühlem, gut belüftetem Ort lagern.

7.3 Spezifische Endanwendungen

Siehe Abschnitt 1.2 - Relevante identifizierte Nutzung.

Abschnitt 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstung

8.1 Zu überwachende Parameter

	Expositionsgrenzwerte/Richtlinien			
	Ergebnis	**ACGIH**	**NIOSH**	**OSHA**
Guanidiniumthiocyanat	TWA	Nicht ermittelt	Nicht ermittelt	Nicht ermittelt

8.2 Begrenzung und Überwachung der Exposition

Technische Maßnahmen/Kontrollen Es ist eine gute allgemeine Belüftung anzuwenden. Die Belüftungszahl sollte den Bedingungen entsprechen. Ggf. Prozesskammern, lokale Abzugsanlage oder andere technische Kontrollmittel verwenden, um die Konzentration in der Luft unter den empfohlenen Grenzwerten zu halten. Wenn keine Grenzwerte festgelegt wurden, sind die Konzentrationen auf einem akzeptablen Niveau zu halten.

Persönliche Schutzausrüstung

Atemwege Es wird nicht erwartet, dass Atemschutzgeräte erforderlich sind, sofern das Material unter normalen Bedingungen und wie empfohlen benutzt wird. Ansonsten die OSHA-Vorgaben für Atemschutzgeräte aus 29 CFR 1910.134 oder der Europäischen Norm EN 149 befolgen. Nach NIOSH/MSHA oder der europäischen Norm EN 149 zugelassenes Atemschutzgerät benutzen, wenn die Grenzwerte überschritten werden oder Symptome auftreten.

Augen/Gesicht Schutzbrillen gegen Chemikalienspritzer tragen.

Haut/Körper Schutzkleidung tragen

Umweltkontrollmaßnahmen Beste Praktiken bei Bauleitung und Abfallentsorgung anwenden.

Schlüssel für Abkürzungen
OSHA = Agentur für Sicherheit und Gesundheitsschutz am Arbeitsplatz
TWA = Zeitlich gewichtete Mittelwerte basieren auf einer Exposition von 8 Stunden/Tag, 40 Stunden/Woche

Abschnitt 9: Physikalische und chemische Eigenschaften

9.1 Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Materialbeschreibung			
Physische Gestalt	Flüssigkeit	Farbe	Farblos
Geruch	Geruchlos	Geruchsschwelle	Fehlende Daten
Allgemeine Eigenschaften			
Siedepunkt	100 °C (212 °F)	Schmelzpunkt/Gefrierpunkt	0 °C (32 °F)
Zersetzungstemperatur	Fehlende Daten	pH	3,3 bis 8,8
Spezifisches Gewicht/Relative Dichte	= 1 Wasser=1	Wasserlöslichkeit	Löslich 100 %
Viskosität	Fehlende Daten	Explosive Eigenschaften	Fehlende Daten
Oxidationseigenschaften:	Fehlende Daten		
Volatilität			
Dampfdruck	Minimal	Dampfdichte	Fehlende Daten
Verdunstungsrate	Minimal		
Entflammbarkeit			
Flammpunkt	Fehlende Daten	Obere Expositionsgrenze	Fehlende Daten
Untere Expositionsgrenze	Fehlende Daten	Selbstzündung	Fehlende Daten
Entflammbarkeit (Feststoff, Gas)	Fehlende Daten		
Umwelt			
Oktanol/Wasser-Verteilungskoeffizient	Fehlende Daten		

9.2 Sonstige Angaben

Keine zusätzlichen physikalischen und chemischen Parameter vermerkt.

Abschnitt 10: Stabilität und Reaktivität

10.1 Reaktivität

Keine gefährliche Reaktion bekannt unter Bedingungen der normalen Verwendung.

10.2 Chemische Stabilität

Stabil

10.3 Möglichkeit gefährlicher Reaktionen

Eine gefährliche Polymerisierung findet nicht statt.

10.4 Zu vermeidende Bedingungen

Inkompatibles Material. Eine brennende Plastikkartusche, die Reagenzien enthält, kann toxische Nebenprodukte freisetzen.

10.5 Unverträgliche Materialien

Säuren.

10.6 Gefährliche Zersetzungsprodukte

Eine brennende Plastikkartusche, die Reagenzien enthält, kann toxische Nebenprodukte freisetzen.

Abschnitt 11: Toxikologische Angaben

11.1 Angaben zu toxikologischen Wirkungen

Bestandteile		
Guanidiniumthiocyanat	593-84-0	**Akute Toxizität:** Intraperitoneal-Maus LD50 • 593 mg/kg

GHS Eigenschaften	Klassifizierung
Akute Toxizität	**EU/CLP**•Fehlende Daten **UN GHS**•Akute Toxizität - Verschlucken - Kategorie 5 **OSHA HCS 2012**•Fehlende Daten
Hautätzende Wirkung/Reizung	**EU/CLP**•Fehlende Daten **UN GHS**•Leichte Reizung der Haut Kategorie 3 **OSHA HCS 2012**•Fehlende Daten
Schwere Augenschäden/Augenreizung	**EU/CLP**•Fehlende Daten **UN GHS**• Leichte Augenreizung Kategorie 2B **OSHA HCS 2012**•Leichte Augenreizung Kategorie 2B
Hautsensibilisierung	**EU/CLP**•Fehlende Daten **UN GHS**•Fehlende Daten **OSHA HCS 2012**•Fehlende Daten
Sensibilisierung der Atemwege	**EU/CLP**•Fehlende Daten **UN GHS**•Fehlende Daten **OSHA HCS 2012**•Fehlende Daten

Abschnitt 12: Umweltbezogene Angaben

12.1 Toxizität

LC50 (Guppy): 89,1 mg/l; 96 h

12.2 Persistenz und Abbaubarkeit

Materialdaten fehlen.

12.3 Bioakkumulationspotential

Materialdaten fehlen.

12.4 Mobilität im Boden

Materialdaten fehlen.

12.5 Ergebnisse der PBT- und vPvB-Beurteilung

Es wurde keine PBT- oder vPvB-Bewertung durchgeführt.

12.6 Andere schädliche Wirkungen

Es wurden keine Studien gefunden.

Abschnitt 13: Hinweise zur Entsorgung

13.1 Verfahren der Abfallbehandlung

Produktanwendung	Entsorgen von Inhalten und / oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und / oder internationalen Vorschriften.
Verpackungsabfall	Entsorgen von Inhalten und / oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und / oder internationalen Vorschriften.

13.2 Sonstige Angaben

Biologische Proben, Transfervorrichtungen und gebrauchte Kartuschen sind als infektiös anzusehen und mit den üblichen Vorsichtsmaßnahmen zu handhaben. Halten Sie sich bezüglich der angemessenen Entsorgung gebrauchter Kartuschen und nicht verwendeter Reagenzien an die Umweltschutzvorschriften Ihrer Einrichtung. Diese Materialien können chemischen Sondermüll darstellen, der gemäß bestimmten nationalen oder regionalen Vorgehensweisen entsorgt werden muss. Falls die Vorschriften des jeweiligen Landes oder der jeweiligen Region keine klaren Anweisungen zur ordnungsgemäßen Entsorgung enthalten, sollten biologische Proben und gebrauchte Kartuschen gemäß den Richtlinien der WHO (Weltgesundheitsorganisation) zur Handhabung und Entsorgung von medizinischen Abfällen entsorgt werden.

Abschnitt 14: Angaben zum Transport

Sección 2 – Identificación de riesgos

UE/CEE

De acuerdo con: Reglamento (CE) Nº 1272/2008 (CLP)/REACH 1907/2006 [modificado por 453/2010]

2.1 Clasificación de la sustancia o mezcla

CLP

La siguiente FDS atañe solo al producto mezclado acabado final según se utiliza en el laboratorio. El producto contiene microesferas y reactivos en el cartucho o en los contenedores externos. Las exenciones a la divulgación de parte de la información de los componentes son conformes con el artículo CLP 1(5)(d) y 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
No clasificado

2.2 Elementos de la etiqueta

CLP

Declaraciones de riesgo No se requieren elementos de etiquetado

2.3 Otros riesgos

CLP

De acuerdo con el Reglamento (CE) Nº 1272/2008 (CLP), este material no se considera peligroso.

SGA de la ONU (Contenido del etiquetado utilizado en los productos)

De acuerdo con: Sistema Globalmente Armonizado (SGA) de Clasificación y Etiquetado de Productos Químicos de la ONU

2.1 Clasificación de la sustancia o mezcla

SGA de la ONU

Toxicidad oral aguda 5
Irritación leve de la piel 3
Irritación ocular leve 2B

2.2 Elementos de la etiqueta

SGA de la ONU

ADVERTENCIA

Declaraciones de riesgo

Nocivo en caso de ingestión
Puede ser nocivo en contacto con la piel
Provoca irritación ocular

Declaraciones preventivas

Prevención Lávese exhaustivamente las manos después de la manipulación.

Respuesta En caso de irritación cutánea: Consultar a un médico.
EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando.
Si persiste la irritación ocular: Consultar a un médico.
Llamar a un CENTRO DE INFORMACION TOXICOLOGICA o a un médico en caso de malestar.

2.3 Otros riesgos

SGA de la ONU — De acuerdo con el Sistema Globalmente Armonizado de Clasificación y Etiquetado de Productos Químicos (SGA), este producto se considera peligroso.

Estados Unidos (EE. UU.)
De acuerdo con: OSHA 29 CFR 1910.1200 HCS

2.1 Clasificación de la sustancia o mezcla

HCS 2012 de la OSHA — Irritación ocular leve 2B

2.2 Elementos de la etiqueta

HCS 2012 de la OSHA

Declaraciones de riesgo
Nocivo en caso de ingestión
Puede ser nocivo en contacto con la piel
Provoca irritación ocular

Declaraciones preventivas

Prevención — Lávese exhaustivamente las manos después de la manipulación.

Respuesta — EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando.
Si persiste la irritación ocular: Consultar a un médico.

2.3 Otros riesgos

HCS 2012 de la OSHA — De acuerdo con el reglamento de los Estados Unidos (29 CFR 1910.1200 - Estándar de Comunicación de Riesgos), este producto no se considera peligroso.

Canadá
De acuerdo con: WHMIS

2.1 Clasificación de la sustancia o mezcla

WHMIS — No clasificado

2.2 Elementos de la etiqueta

WHMIS — No se requieren elementos de etiquetado.

2.3 Otros riesgos

WHMIS — El producto mencionado no se considera peligroso en Canadá, de acuerdo con el Sistema de Información de Materiales Peligrosos en el Lugar de Trabajo (WHMIS).

2.4 Información adicional

Todos los demás reactivos, microesferas y otros constituyentes presentan concentraciones inferiores al 1 % en la mezcla y no se consideran peligrosos según los reglamentos de comunicación de riesgos de EE. UU. (29 CFR 1910.1200), las directivas para la clasificación y el etiquetado de sustancias y mezclas de la UE y el Sistema Globalmente Armonizado de clasificación y etiquetado de sustancias y mezclas.

Sección 3 – Composición/información de los ingredientes

3.1 Sustancias

El material no cumple con los criterios de clasificación de sustancias.

3.2 Mezclas

Composición					
Nombre del producto químico	**Identificadores**	**%**	**LD50/LC50**	**Clasificaciones de acuerdo con el reglamento/directiva**	**Comentarios**
Tiocianato de guanidina	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 % – 20 %	593 mg/kg	**CLP UE:** Tox. aguda 5, H302, H313, H320 **SGA de la ONU:** Tox. aguda 5 (oral); Irrit. cutánea 3; Irrit. ocular 2B **HCS 2012 de la OSHA:** Tox. aguda 5 (oral); Irrit. ocular 2B	No hay datos disponibles

Sección 4 – Medidas de primeros auxilios

4.1 Descripción de las medidas de primeros auxilios

Inhalación No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Traslade a la persona al aire libre. Si la respiración resulta difícil, administre oxígeno. No utilice el método de boca a boca si la víctima ha inhalado la sustancia; proporcione respiración artificial con la ayuda de una máscara de bolsillo equipada con una válvula de una sola vía u otro dispositivo médico de respiración adecuado. Si la persona no respira, proporcione respiración artificial.

Piel No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Ante un contacto menor con la piel, evite la difusión den material sobre la piel no afectada. Si entra en contacto con la sustancia, enjuague inmediatamente la piel con agua durante al menos 20 minutos. Retire y aísle la ropa contaminada.

Ojo No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Si entra en contacto con la sustancia, enjuague inmediatamente los ojos con agua durante al menos 20 minutos. Si persiste la irritación ocular: Consultar a un médico.

Ingestión No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. En caso de ingestión, enjuague la boca con agua (solo si la persona está consciente). NO provoque el vómito. No utilice el método de boca a boca si la víctima ha ingerido la sustancia. En caso de ingestión, solicite atención médica inmediatamente.

4.2 Síntomas y efectos más importantes, tanto agudos como retardados

Consulte la Sección 11 - Información toxicológica.

4.3 Indicación de cualquier atención médica inmediata y tratamiento especial necesarios

Notas para el médico Todos los tratamientos deben basarse en señales y síntomas observados en el paciente. Considere si puede haberse producido una sobreexposición a otros materiales distintos de este producto.

Sección 5 – Medidas antiincendios

5.1 Medios de extinción

Medios de extinción adecuados	INCENDIOS MAYORES: Polvo químico seco, CO2, espuma resistente al alcohol o agua pulverizada. INCENDIOS MENORES: Polvo químico seco, CO2 o agua pulverizada.
Medios de extinción inadecuados	No hay datos disponibles

5.2 Riesgos especiales procedentes de la sustancia o mezcla

Riesgos de incendio y explosión inusuales	El cartucho de plástico que contiene reactivos puede emitir vapores tóxicos de óxidos de carbono, óxidos de azufre y óxidos de nitrógeno.
Productos de combustión peligrosa	No hay datos disponibles

5.3 Consejos para el personal antiincendios

El traje de protección estándar del personal antiincendios proporciona protección limitada EXCLUSIVAMENTE contra el fuego; no resulta efectivo ante vertidos donde es posible el contacto directo con la sustancia.
Utilice un traje de protección química específicamente recomendado por el fabricante. Puede proporcionar poca o ninguna protección térmica.
Utilice un equipo de respiración autónomo (ERA) de presión positiva.
INCENDIOS MENORES: Mueva los contenedores del área del incendio si la operación no conlleva riesgos.

Sección 6 – Medidas en caso de liberación accidental

6.1 Precauciones personales, equipamiento protector y procedimientos de emergencia

Precauciones personales	En caso de romperse un cartucho, pueden aplicarse estas precauciones personales. Utilice un traje de protección adecuado. No camine a través del material vertido. No toque los contenedores dañados ni los materiales vertidos a menos que utilice un traje de protección adecuado. Ventile las áreas cerradas.
Procedimientos de emergencia	Se espera que no sea necesario aplicar procedimientos de emergencia si el material se utiliza bajo condiciones normales y del modo recomendado.

6.2 Precauciones medioambientales

Evite la entrada en alcantarillas, vías fluviales, sótanos y espacios cerrados.

6.3 Métodos y materiales de contención y limpieza

Medidas de contención/ limpieza	Para vertidos menores, utilice guantes y absorba el vertido con una toalla de papel. No deseche materiales vertidos por el desagüe.

6.4 Referencia a otras secciones

Consulte la Sección 8 - Controles de exposición/protección personal y la Sección 13 - Consideraciones de eliminación.

Sección 7 – Manipulación y almacenamiento

7.1 Precauciones para la manipulación segura

Manipulación No se necesita ninguna manipulación especial. En caso de romperse un cartucho, evite el contacto con los reactivos vertidos. Evite el contacto con la piel y los ojos.

7.2 Condiciones para el almacenamiento seguro, incluidas posibles incompatibilidades

Almacenamiento Almacénelos de acuerdo con las indicaciones de su etiqueta. Mantenga el producto alejado de materiales incompatibles. Guardar bajo llave. Mantenga el contenedor/embalaje bien cerrado en un lugar fresco y ventilado.

7.3 Usos finales específicos

Consulte la Sección 1.2 - Usos identificados relevantes.

Sección 8 – Control de exposición / protección personal

8.1 Parámetros de control

	Directrices/límites de exposición			
	Resultado	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato de guanidinio	TWA	No establecido	No establecido	No establecido

8.2 Controles de exposición

Controles/medidas de ingeniería Es necesaria una buena ventilación general. La tasa de ventilación debe corresponder a las condiciones. Si es posible, utilice recintos de procesamiento, ventilación local u otros controles de ingeniería para mantener los niveles del aire por debajo de los límites de exposición recomendados. Si los límites de exposición no se han establecido, mantenga los niveles del aire a un nivel aceptable.

Equipo de protección individual

Respiratorios No se prevé la necesidad de disponer de equipo respiratorio si el material se utiliza en condiciones normales y de la forma recomendada. De lo contrario, siga los reglamentos para máscaras de la OSHA incluidas en el estándar 29 CFR 1910.134 o en el estándar europeo EN 149. Utilice una máscara aprobada por la NIOSH/MSHA o la norma europea EN 149 si se superan los límites de exposición o se experimentan síntomas.

Ocular/facial Utilice gafas de protección contra salpicaduras químicas.

Piel/cuerpo Utilice un traje de protección

Controles de exposición en el medio ambiente Siga las buenas prácticas para administrar el centro y eliminar residuos.

Clave de abreviaturas
OSHA = Administración de Seguridad y Salud Ocupacional
TWA = Los promedios de tiempo ponderado se basan en exposiciones durante 8 h/día y 40 h/semana

Sección 9 – Propiedades físicas y químicas

9.1 Información sobre las propiedades físicas y químicas

Descripción del material			
Forma física	Líquido	Color	Incoloro
Olor	Inodoro	Umbral de olor	Faltan datos
Propiedades generales			
Punto de ebullición	100 °C (212 °F)	Punto de fusión / punto de congelación	0 °C (32 °F)
Temperatura de descomposición	Faltan datos	pH	3,3 a 8,8
Gravedad específica / densidad relativa	= 1 Agua =1	Hidrosolubilidad	Soluble 100 %
Viscosidad	Faltan datos	Propiedades explosivas	Faltan datos
Propiedades oxidantes:	Faltan datos		
Volatilidad			
Presión del vapor	Mínima	Densidad del vapor	Faltan datos
Tasa de evaporación	Mínima		
Inflamabilidad			
Punto de inflamación	Faltan datos	UEL	Faltan datos
LEL	Faltan datos	Autoignición	Faltan datos
Inflamabilidad (sólido, gas)	Faltan datos		
Medioambiental			
Coeficiente de reparto octanol/agua	Faltan datos		

9.2 Información adicional

No se han anotado parámetros físicos o químicos adicionales.

Sección 10 – Estabilidad y reactividad

10.1 Reactividad

No se conocen reacciones peligrosas bajo condiciones normales de uso.

10.2 Estabilidad del producto químico

Estable

10.3 Posibilidad de reacciones peligrosas

No ocurrirá polimerización peligrosa.

10.4 Condiciones que deben evitarse

Materiales incompatibles. El cartucho de plástico quemado que contiene reactivos puede liberar subproductos tóxicos.

10.5 Materiales incompatibles

Ácidos.

10.6 Productos de descomposición peligrosos

El cartucho de plástico quemado que contiene reactivos puede liberar subproductos tóxicos.

Sección 11 – Información toxicológica

11.1 Información sobre efectos toxicológicos

Componentes		
Tiocianato de guanidinio	593-84-0	**Toxicidad aguda:** Intraperitoneal-Ratón LD50 • 593 mg/kg

Efectos potenciales en la salud

Inhalación
Agudo (inmediato) Puede causar irritación.
Crónico (retardado) No hay datos disponibles
Piel
Agudo (inmediato) Causa irritación leve en la piel.
Crónico (retardado) No hay datos disponibles
Ojo
Agudo (inmediato) Causa irritación ocular.
Crónico (retardado) No hay datos disponibles
Ingestión
Agudo (inmediato) Ingestión posiblemente dañina.
Crónico (retardado) No hay datos disponibles

Clave de abreviaturas
LD = Dosis letal

Sección 12 – Información ecológica

12.1 Toxicidad

LC50 (guppy): 89,1 mg/l a 96 h

12.2 Persistencia y degradabilidad

Faltan datos de material.

12.3 Potencial bioacumulativo

Faltan datos de material.

12.4 Movilidad en el suelo

Faltan datos de material.

12.5 Resultados de la evaluación de PBT y mPmB

No se ha realizado ninguna valoración de PBT y mPmB.

12.6 Otros efectos adversos

No se han encontrado estudios.

Sección 13 – Consideraciones sobre la eliminación

13.1 Métodos de tratamiento de residuos

Residuos de productos	Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.
Residuos de embalaje	Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

13.2 Información adicional

Las muestras biológicas, los dispositivos de transferencia y los cartuchos usados deben ser considerados capaces de transmitir agentes infecciosos que requieren las precauciones habituales. Siga los procedimientos de eliminación de residuos medioambientales de su centro para la eliminación adecuada de los cartuchos usados y los reactivos no utilizados. Estos materiales pueden presentar características propias de los residuos químicos peligrosos, que requieren procedimientos específicos de eliminación de carácter nacional o regional. Si las normativas nacionales o regionales no proporcionan instrucciones claras en cuanto a los procedimientos de eliminación adecuados, las muestras biológicas y los cartuchos utilizados deben desecharse de conformidad con las directrices de la OMS (Organización Mundial de la Salud) en cuanto a la manipulación y eliminación de desechos médicos.

Sección 14 – Información de transporte

Section 2 : Identification des risques

EU/EEC

Selon : Règlement (CE) N° 1272/2008 (CLP)/REACH 1907/2006 [modifié par le 453/2010]

2.1 Classification de la substance ou mélange

CLP

La présente fiche de données de sécurité (FDS) concerne uniquement le produit de mélange fini final, tel qu'utilisé au laboratoire. Le produit contient des billes et des réactifs dans la cartouche ou dans des conteneurs externes. Les exemptions à la divulgation de l'information concernant certains composants sont conformes aux réglementations CLP Article 1(5)(d) et à la norme 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classé

2.2 Éléments de l'étiquette

CLP

Mentions de danger Aucun élément d'étiquette requis

2.3 Autres dangers

CLP

Selon le règlement (CE) n° 1272/2008 (CLP), ce produit n'est pas considéré dangereux.

SGH ONU (Contenu de l'étiquetage utilisé sur les produits)

Selon : Système général harmonisé (SGH) des Nations Unies concernant la classification et l'étiquetage des produits chimiques

2.1 Classification de la substance ou mélange

Mentions de danger SGH (classification)

Toxicité aiguë par voie orale 5
Légère irritation cutanée 3
Légère irritation oculaire 2B

2.2 Éléments de l'étiquette

SGH ONU

ATTENTION

Mentions de danger

Nocif en cas d'ingestion
Peut être nocif par contact avec la peau
Provoque une irritation des yeux

Mises en garde

Prévention Se laver les mains soigneusement après manipulation.

Réponse

En cas d'irritation cutanée : consulter un médecin.
EN CAS DE CONTACT AVEC LES YEUX : rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et que cela est facile à faire. Continuer à rincer.
Si l'irritation oculaire persiste : consulter un médecin.
Appeler un CENTRE ANTIPOISON ou un médecin en cas de malaise.

2.3 Autres dangers

SGH ONU Selon le Système général harmonisé de classification et d'étiquetage (SGH), ce produit est considéré dangereux.

États-Unis (US)

Selon : OSHA 29 CFR 1910.1200 HCS

2.1 Classification de la substance ou mélange

OSHA HCS 2012 Légère irritation oculaire 2B

2.2 Éléments de l'étiquette

OSHA HCS 2012

Mentions de danger
Nocif en cas d'ingestion
Peut être nocif par contact avec la peau
Provoque une irritation des yeux

Mises en garde

Prévention Se laver les mains soigneusement après manipulation.

Réponse EN CAS DE CONTACT AVEC LES YEUX : rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et que cela est facile à faire. Continuer à rincer.
Si l'irritation oculaire persiste : consulter un médecin.

2.3 Autres dangers

OSHA HCS 2012 En vertu des réglementations des États-Unis (29 CFR 1910.1200 - Norme de communication des dangers), ce produit n'est pas considéré comme dangereux.

Canada

Selon : WHMIS

2.1 Classification de la substance ou mélange

WHMIS Non classé

2.2 Éléments de l'étiquette

WHMIS Aucune étiquette(s) requise.

2.3 Autres dangers

WHMIS Au Canada, le produit mentionné ci-dessus n'est pas considéré dangereux en vertu du Système d'information sur les matières dangereuses utilisées au travail (SIMDUT).

2.4 Autres informations

Tous les autres réactifs, les billes et autres constituants sont à des concentrations inférieures à 1% dans le mélange ou ne sont pas considérés dangereux selon la réglementation américaine sur la communication des dangers (29 CFR 1910.1200), selon les directives de l'UE concernant la classification et l'étiquetage des substances et des mélanges, ou selon le système international d'harmonisation pour la classification et l'étiquetage des substances ou des mélanges.

Section 3 : Composition/informations sur les ingrédients

3.1 Substances

La matière ne répond pas aux critères d'une substance.

3.2 Mélanges

Composition					
Nom chimique	**Identifiants**	**%**	**LD50/LC50**	**Classifications selon réglementation/directive**	**Commentaires**
Thiocyanate de guanidinium	**CAS :** 593-84-0 **EINECS :** 209-812-1	10 %-20 %	593 mg/kg	**UE CLP :** Tox. aiguë 5, H302, H313, H320 **SGH ONU :** Tox. aiguë 5 (voie orale) ; irrit. cutanée 3; irrit. yeux 2B **OSHA HCS 2012 :** Tox. aiguë 5 (voie orale) ; irrit. yeux 2B	ADD

Section 4 : Premiers soins

4.1 Description des premiers soins

Inhalation Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. Déplacer la victime à l'air frais. Administrer de l'oxygène si la respiration est difficile. Ne pas faire de bouche-à-bouche si la victime a inhalé la substance ; pratiquer la respiration artificielle à l'aide d'un masque de poche doté d'une valve unidirectionnelle ou d'un autre dispositif médical respiratoire approprié. Pratiquer la respiration artificielle si la victime ne respire pas.

Peau Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact cutané mineur, éviter de répandre la matière sur la peau non affectée. En cas de contact avec la substance, rincer immédiatement la peau à l'eau courante pendant au moins 20 minutes. Retirer et isoler les vêtements contaminés.

Yeux Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact avec la substance, rincer immédiatement les yeux à l'eau courante pendant au moins 20 minutes. Si l'irritation oculaire persiste : consulter un médecin.

Ingestion Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas d'ingestion, rincer la bouche avec de l'eau (seulement si la victime est consciente). NE PAS faire vomir. Ne pas faire de bouche-à-bouche si la victime a ingéré la substance. Consulter immédiatement un médecin en cas d'ingestion.

4.2 Symptômes et effets les plus importants, aigus et différés

Voir la section 11 - Informations toxicologiques.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Notes pour le médecin Tous les traitements doivent être basés sur les signes et symptômes de détresse observés chez le patient. Il faut envisager la possibilité d'une surexposition à d'autres matières que ce produit.

Section 5 : Mesures de lutte contre l'incendie

5.1 Agents extincteurs

Agent extincteur convenable	INCENDIES MAJEURS : poudre sèche, CO2, mousse antialcool ou eau pulvérisée. INCENDIES MINEURS : poudre sèche, CO2, ou eau pulvérisée.
Agent extincteur inapproprié	Aucune donnée disponible

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers inhabituels d'incendie et d'explosion	La cartouche en plastique contenant des réactifs peut émettre des vapeurs toxiques d'oxydes de carbone, d'oxydes de soufre et d'oxydes d'azote.
Produits de combustion dangereux	Aucune donnée disponible

5.3 Conseils aux pompiers

Les vêtements structurels de protection des pompiers fournissent une protection limitée UNIQUEMENT en cas d'incendie ; ils ne sont pas efficaces dans les cas de déversement où le contact direct avec la substance est possible.
Porter des vêtements de protection chimique spécifiquement recommandés par le fabricant. Ceux-ci peuvent fournir peu ou pas de protection thermique.
Porter un appareil respiratoire autonome à pression positive (ARA).
INCENDIES MINEURS : enlever les conteneurs de la zone d'incendie si vous pouvez le faire sans risque.

Section 6 : Mesures en cas de fuite accidentelle

6.1 Précautions individuelles, équipement de protection et mesures d'urgence

Précautions individuelles	Dans le cas où une cartouche est percée, ces précautions individuelles s'appliquent. Porter les vêtements de protection appropriés. Ne pas marcher à travers la matière déversée. Ne pas toucher les conteneurs endommagés ou la matière déversée sauf en cas de port de vêtements de protection appropriés. Ventiler les espaces clos.
Mesures d'urgence	Aucune procédure d'urgence ne devrait s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations.

6.2 Précautions environnementales

Prévenir la pénétration dans les cours d'eau, les égouts, les sous-sols ou les endroits confinés.

6.3 Méthodes et matériaux de confinement et de nettoyage

Mesures de confinement/de nettoyage	Pour les petits déversements, porter des gants et absorber la matière déversée avec une serviette en papier. Ne pas jeter la matière déversée dans les égouts.

6.4 Référence à d'autres sections

Voir la section 8 - Contrôles de l'exposition/Protection personnelle, ainsi que la section 13 - Considérations de mise au rebut.

Section 7 : Manutention et stockage

7.1 Précautions pour une manutention sans danger

Manutention Aucune manipulation spéciale n'est nécessaire. Si une cartouche est percée, éviter tout contact avec les réactifs déversés. Éviter tout contact avec la peau et les yeux.

7.2 Conditions de sécurité du stockage, y compris toutes incompatibilités

Stockage Stocker conformément à l'étiquetage des produits. Tenir à l'écart des matières incompatibles. Garder sous clef. Conserver le conteneur/emballage hermétiquement fermé dans un endroit frais et bien aéré.

7.3 Utilisations finales spécifiques

Voir la section 1.2 - Utilisations pertinentes identifiées.

Section 8 : Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

	Limites d'exposition/Lignes directrices			
	Résultat	**ACGIH**	**NIOSH**	**OSHA**
Thiocyanate de guanidinium	Moyenne pondérée en fonction du temps (TWA)	Non établi	Non établi	Non établi

8.2 Contrôles d'exposition

Mesures/contrôles techniques Une bonne ventilation générale doit être utilisée. Les débits de ventilation doivent être adaptés aux conditions. Le cas échéant, utiliser des enceintes d'isolement, une ventilation aspirante locale ou d'autres moyens techniques pour maintenir les concentrations atmosphériques en dessous des limites d'exposition recommandées. Si les limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Équipement de protection individuelle

Respiratoire Un équipement respiratoire ne devrait pas s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations. Sinon, suivre les réglementations de l'OSHA relatives aux appareils respiratoires définies dans 29 CFR 1910.134 ou la norme européenne EN 149. Utiliser un appareil respiratoire approuvé par le NIOSH/MSHA ou la norme européenne EN 149 si les limites d'exposition sont dépassées ou des symptômes apparaissent.

Yeux/visage Porter des lunettes anti-éclaboussures contre les produits chimiques.

Peau/corps Porter des vêtements de protection

Contrôle d'exposition lié à la protection de l'environnement Suivre les bonnes pratiques pour la gestion de site et l'élimination des déchets.

Clef aux abréviations
OSHA = Administration de la sécurité et de la santé au travail
TWA = Les moyennes pondérées dans le temps sont basées sur des expositions de 8 h/jour, 40 h/semaine

Section 9 : Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques

Description de la matière			
Forme physique	Liquide	Couleur	Incolore
Odeur	Inodore	Seuil d'odeur	Manque de données
Propriétés générales			
Point d'ébullition	100 °C (212 °F)	Point de fusion/Point de congélation	0 °C (32 °F)
Température de décomposition	Manque de données	pH	3,3 à 8,8
Densité spécifique/relative	=1/Eau=1	Solubilité dans l'eau	Soluble à 100 %
Viscosité	Manque de données	Propriétés explosives	Manque de données
Propriétés comburantes :	Manque de données		
Volatilité			
Pression de vapeur	Minime	Densité de vapeur	Manque de données
Taux d'évaporation	Minime		
Inflammabilité			
Point d'éclair	Manque de données	LSE	Manque de données
LIE	Manque de données	Auto-inflammation	Manque de données
Inflammabilité (solide, gaz) :	Manque de données		
Environnemental(e)			
Coefficient de partage octanol/eau	Manque de données		

9.2 Autres informations

Aucun paramètre physique ou chimique supplémentaire noté.

Section 10 : Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans des conditions normales d'utilisation.

10.2 Stabilité chimique

Stable

10.3 Possibilité de réactions dangereuses

Il ne se produira pas de polymérisation dangereuse.

10.4 Conditions à éviter

Matières incompatibles. Si l'on brûle une cartouche en plastique contenant des réactifs, des sous-produits toxiques peuvent être libérées.

10.5 Matériaux incompatibles

Acides.

10.6 Produits de décomposition dangereux

Si l'on brûle une cartouche en plastique contenant des réactifs, des sous-produits toxiques peuvent être libérées.

Section 11 : Information toxicologique

11.1 Informations sur les effets toxiques

Composants		
Thiocyanate de guanidinium	593-84-0	**Toxicité aiguë :** Voie intrapéritonéale-Souris LD50 • 593 mg/kg

Mutagénicité de cellule germinale	**UE/CLP**•Manque de données **SGH ONU**•Manque de données **OSHA HCS 2012**•Manque de données
Toxicité pour la reproduction	**UE/CLP**•Manque de données **SGH ONU**•Manque de données **OSHA HCS 2012**•Manque de données
STOT-SE	**UE/CLP**•Manque de données **SGH ONU**•Manque de données **OSHA HCS 2012**•Manque de données

Effets éventuels sur la santé

Inhalation
Aigu (immédiat) Peut provoquer une irritation.
Chronique (différé) Aucune donnée disponible
Peau
Aigu (immédiat) Provoque une légère irritation cutanée.
Chronique (différé) Aucune donnée disponible
Yeux
Aigu (immédiat) Provoque une irritation des yeux.
Chronique (différé) Aucune donnée disponible
Ingestion
Aigu (immédiat) Peut être nocif en cas d'ingestion.
Chronique (différé) Aucune donnée disponible

Clef aux abréviations
LD = Dose létale

Section 12 : Information écologique

12.1 Toxicité

CL50 (guppy) : 89,1 mg/l à 96 h

12.2 Persistance et dégradabilité

Manque de données matérielles.

12.3 Potentiel bioaccumulatif

Manque de données matérielles.

12.4 Mobilité dans le sol

Manque de données matérielles.

12.5 Résultats des évaluations PBT et vPvB

Aucune évaluation PBT ou vPvB n'a été réalisée.

12.6 Autres effets nocifs

Aucune étude n'a été trouvée.

Section 13 : Considérations de mise au rebut

13.1 Méthodes de traitement des déchets

Déchets du produit	Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.
Conditionnement des déchets	Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

13.2 Autres informations

Les échantillons biologiques, les dispositifs de transfert et les cartouches usagées doivent être considérés comme étant susceptibles de transmettre des agents infectieux exigeant des précautions standard. Suivre les consignes environnementales d'élimination des déchets établies par l'établissement pour l'élimination appropriée des cartouches usagées et des réactifs non utilisés. Ces matériaux peuvent présenter des caractéristiques de déchets chimiques dangereux exigeant des procédures d'élimination spécifiques au niveau national ou régional. En l'absence de directives claires de la réglementation nationale ou régionale sur l'élimination appropriée, les échantillons biologiques et les cartouches usagées doivent être éliminés conformément aux directives de manipulation et d'élimination des déchets médicaux de l'OMS (Organisation Mondiale de la Santé).

Section 14 : Informations de transport

Xpert Xpress Flu/RSV; Xpert Flu; Xpert Xpress SARS-COV-2
Xpert Xpress SARS-CoV-2/Flu/RSV

Odjeljak 2: Identifikacija opasnosti

EU/EEZ

U skladu s: Uredbom (EZ) br. 1272/2008 (CLP)/REACH 1907/2006 [izmijenjena Uredbom 453/2010]

2.1 Razvrstavanje tvari ili smjesa

CLP

Sljedeći sigurnosno-tehnički list (SDS) namijenjen je samo za konačnu gotovu smjesu kako se koristi u laboratoriju. Proizvod sadrži kuglice i reagense u ulošku ili vanjskim spremnicima. Izuzeci za otkrivanje podataka o nekim sastavnicama sukladni su s Člankom o CLP-u 1(5)(d) i 29 CFR 1910.1200(g)(2)(i)(C)(1) i (2).
Nije razvrstano

2.2 Elementi označavanja

CLP

Oznake upozorenja Nisu potrebni elementi označavanja

2.3 Ostale opasnosti

CLP U skladu s Uredbom (EZ) br. 1272/2008 (CLP) ovaj se materijal ne smatra opasnim.

UN GHS (Sadržaj označavanja koji se koristi na proizvodima)

U skladu s: Globalno usklađenim sustavom razvrstavanja i označavanja kemikalija (GHS) Ujedinjenih naroda

2.1 Razvrstavanje tvari ili smjesa

UN GHS

Akutna oralna toksičnost 5
Blagi nadražaj kože 3
Blagi nadražaj oka 2B

2.2 Elementi označavanja

UN GHS

UPOZORENJE

Oznake upozorenja

Štetno ako se proguta
Može biti štetno u dodiru s kožom
Uzrokuje nadražaj oka

Oznake obavijesti

Prevencija Nakon rukovanja proizvodom temeljito oprati ruke.

Reakcija Ako dođe do nadraživanja kože: potražite liječničku pomoć.
U SLUČAJU DODIRA S OČIMA: pažljivo ispirite vodom nekoliko minuta.
Skinuti kontaktne leće, ako ih nosite i ako se lako skidaju. Nastaviti ispiranje.
Ako nadražaj oka ne prestaje: potražite liječničku pomoć.
Ako se ne osjećate dobro, nazovite CENTAR ZA TROVANJA ili liječnika.

2.3 Ostale opasnosti

UN GHS Prema Globalno usklađenom sustavu razvrstavanja i označavanja kemikalija (GHS) ovaj se proizvod smatra opasnim.

Sjedinjene Države (SAD)
U skladu s: OSHA 29 CFR 1910.1200 HCS

2.1 Razvrstavanje tvari ili smjesa

OSHA HCS 2012 Blagi nadražaj oka 2B

2.2 Elementi označavanja

OSHA HCS 2012

Oznake upozorenja Štetno ako se proguta
Može biti štetno u dodiru s kožom
Uzrokuje nadražaj očiju

Oznake obavijesti

Prevencija Nakon rukovanja proizvodom temeljito oprati ruke.

Reakcija U SLUČAJU DODIRA S OČIMA: pažljivo ispirite vodom nekoliko minuta.
Skinuti kontaktne leće, ako ih nosite i ako se lako skidaju. Nastaviti ispiranje.
Ako nadražaj oka ne prestaje: potražite liječničku pomoć.

2.3 Ostale opasnosti

OSHA HCS 2012 Prema Propisima Sjedinjenih Država (29 CFR 1910.1200 - Standardi informiranja o opasnostima) ovaj se proizvod ne smatra opasnim.

Kanada
U skladu s: WHMIS

2.1 Razvrstavanje tvari ili smjesa

WHMIS Nije razvrstano

2.2 Elementi označavanja

WHMIS Nisu potrebni elementi označavanja.

2.3 Ostale opasnosti

WHMIS U Kanadi se gore navedeni proizvod ne smatra opasnim prema Informacijskom sustavu o opasnim materijalima na radnom mjestu (WHMIS).

2.4 Ostale informacije

Svi ostali reagensi, kuglice i drugi sastojci prisutni su u koncentraciji manjoj od 1 % u smjesama ili se ne smatraju opasnima prema američkim propisima o priopćavanju opasnosti (29 CFR 1910.1200), direktivama EU-a za razvrstavanje i označavanje tvari ili smjesa ili Globalno usklađenom sustavu za razvrstavanje i označavanje tvari ili smjesa.

Odjeljak 3: Sastav/Informacije o sastojcima

3.1 Tvari

Materijal ne ispunjava kriterije tvari.

3.2 Smjese

Sastav					
Kemijski naziv	**Označitelji**	**%**	**LD50/LC50**	**Razvrstavanje u skladu s Uredbom/Direktivom**	**Komentari**
Gvanidin tiocijanat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 % - 20 %	593 mg/kg	**EU CLP:** Akutno toks. 5, H302, H313, H320 **UN GHS:** Akutno toks. 5 (Orl); nadraž. kože 3; nadraž. oka 2B **OSHA HCS 2012:** Akutno toks. 5 (Orl); nadraž. oka 2B	NDP

Odjeljak 4: Mjere prve pomoći

4.1 Opis mjera prve pomoći

Udisanje Prva pomoć ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje. Premjestite unesrećenog na svježi zrak. U slučaju otežanog disanja dajte kisik. Ne upotrebljavajte metodu usta na usta ako je unesrećeni udahnuo tvar; pružite umjetno disanje pomoću džepne maske opremljene jednosmjernim ventilom ili drugog odgovarajućeg respiratornog medicinskog proizvoda. Ako unesrećeni ne diše, pružite umjetno disanje.

Koža Prva pomoć ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje. Kod manjih dodira s kožom pazite da ne proširite materijal na nezahvaćenu kožu. U slučaju dodira s tvari odmah isperite kožu tekućom vodom u trajanju od najmanje 20 minuta. Skinite i izolirajte kontaminiranu odjeću.

Oko Prva pomoć ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje. U slučaju dodira s tvari odmah isperite oči tekućom vodom u trajanju od najmanje 20 minuta. Ako nadražaj oka ne prestaje: potražite liječničku pomoć.

Gutanje Prva pomoć ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje. U slučaju gutanja isperite usta vodom (samo ako je osoba pri svijesti) NEMOJTE izazivati povraćanje. Ne upotrebljavajte metodu usta na usta ako je unesrećeni progutao tvar. U slučaju gutanja potražite hitnu liječničku pomoć.

4.2 Najvažniji simptomi i učinci, akutni i odgođeni

Proučite Odjeljak 11 - Toksikološke informacije.

4.3 Pokazatelj potrebe za hitnom liječničkom pomoći i posebnim postupanjem

Napomene za liječnika Svako postupanje treba se temeljiti na uočenim znakovima i simptomima patnje kod bolesnika. Potrebno je razmotriti mogućnost prekomjernog izlaganja nekim drugim materijalima osim ovog proizvoda.

Odjeljak 5: Mjere za gašenje požara

5.1 Sredstva za gašenje

Prikladna sredstva za gašenje	VELIKI POŽARI: Suhe kemikalije, CO2, pjena otporna na alkohol ili prskanje vode. MALI POŽARI: Suhe kemikalije, CO2 ili prskanje vode.
Neprikladna sredstva za gašenje	Nema dostupnih podataka

5.2 Posebne opasnosti koje proizlaze iz tvari ili smjese

Neuobičajene opasnosti od požara i eksplozije	Plastični spremnik koji sadrži reagense može ispuštati otrovne pare ugljikovih oksida, sumporovih oksida, dušikovih oksida.
Opasni proizvodi izgaranja	Nema dostupnih podataka

5.3 Savjeti za vatrogasce

Strukturna zaštitna odjeća vatrogasaca osigurava SAMO ograničenu zaštitu u slučaju požara; nije učinkovita u slučaju izlijevanja u kojem je moguć izravan dodir s tvari.
Nosite odjeću za zaštitu od kemikalija koju izričito preporučuje proizvođač. Ona pruža neznatnu termalnu zaštitu ili je uopće ne pruža.
Nosite samostalni aparat za disanje s pozitivnim tlakom (SCBA).
MALI POŽARI: Preselite spremnike s mjesta požara ako to možete učiniti na siguran način.

Odjeljak 6: Mjere kod slučajnog ispuštanja

6.1 Osobne mjere opreza, zaštitna oprema i postupci u hitnim slučajevima

Osobne mjere opreza	Ove se osobne mjere opreza primjenjuju u slučaju slomljenog uloška. Nosite odgovarajuću zaštitnu odjeću. Nemojte prolaziti kroz proliveni materijal. Nemojte dodirivati oštećene spremnike ili proliveni materijal ako ne nosite odgovarajuću zaštitnu odjeću. Prozračite zatvorene prostore.
Postupci u hitnim slučajevima	Hitna pomoć ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje.

6.2 Mjere zaštite okoliša

Spriječite ulazak u vodene tokove, kanalizaciju, podrume ili zatvorene prostore.

6.3 Metode i materijali za zadržavanje i čišćenje

Mjere zadržavanja/ čišćenja	Kod manjih izlijevanja nosite rukavice i počistite proliveni materijal upijajućim papirnatim ručnikom. Nemojte bacati prolivene materijale u odvod.

6.4 Reference na druge odjeljke

Proučite Odjeljak 8 - Nadzor nad izloženošću/Osobna zaštita i Odjeljak 13 - Zbrinjavanje.

Odjeljak 7: Rukovanje i skladištenje

7.1 Mjere opreza za sigurno rukovanje

Rukovanje Nisu potrebne posebne mjere opreza pri rukovanju. Izbjegavajte dodir s prolivenim reagensima ako je uložak slomljen. Izbjegavajte dodir s kožom i očima.

7.2 Uvjeti sigurnog skladištenja, uzimajući u obzir moguće inkompatibilnosti

Skladištenje Čuvajte u skladu s označavanjem proizvoda. Držite podalje od inkompatibilnih materijala. Čuvajte zaključanim. Držite spremnik/pakiranje dobro zatvorenim na hladnom i prozračnom mjestu.

7.3 Posebna krajnja namjena

Proučite Odjeljak 1.2 - Relevantne identificirane namjene.

Odjeljak 8: Nadzor nad izloženošću/Osobna zaštita

8.1 Kontrolni parametri

	Granične vrijednosti izlaganja/smjernice			
	Rezultat	**ACGIH**	**NIOSH**	**OSHA**
Gvanidin tiocijanat	TWA	Nije utvrđeno	Nije utvrđeno	Nije utvrđeno

8.2 Nadzor nad izloženošću

Tehnološke mjere/nadzor Potrebno je koristiti dobru opću ventilaciju. Učestalost ventilacije treba prilagoditi uvjetima. Ako je primjenjivo, koristite ograđeni prostor za obradu, lokalnu ispušnu ventilaciju i ostali tehnološki nadzor za održavanje razine čestica u zraku ispod preporučenih graničnih vrijednosti izlaganja. Ako granične vrijednosti izlaganja nisu utvrđene, održavajte razine čestica u zraku na prihvatljivoj razini.

Osobna zaštitna oprema

Za disanje Oprema za disanje ne smatra se potrebnom ako se materijal koristi u uobičajenim uvjetima te kako se preporučuje. U suprotnom, pridržavajte se propisa o respiratorima koje je izdala američka Uprava za zaštitu na radu (OSHA) iz odjeljka 29 CFR 1910.134 ili Europske norme EN 149. Koristite respirator koji je odobrio NIOSH/MSHA ili Europska norma EN 149 u slučaju prekoračenja graničnih vrijednosti izlaganja ili pojave simptoma.

Oči/lice Nosite zaštitne naočale sa zaštitom od prskanja kemikalija.

Koža/tijelo Nosite zaštitnu odjeću

Nadzor nad izloženošću okoliša Pridržavajte se najboljih postupaka za upravljanje lokacijom i odlaganje otpada.

Tumač kratica
OSHA = Uprava za zaštitu na radu
TWA = vremenski ponderirane prosječne vrijednosti temelje se na izlaganju od 8 sati/dan, 40 sati/tjedan

Odjeljak 9: Fizikalna i kemijska svojstva

9.1 Informacije o fizikalnim i kemijskim svojstvima

Opis materijala			
Fizikalni oblik	Tekućina	Boja	Bezbojna
Miris	Bez mirisa	Prag mirisa	Nedostaju podaci
Opća svojstva			
Točka vrelišta	100 °C (212 °F)	Točka tališta/točka ledišta	0 °C (32 °F)
Temperatura razgradnje	Nedostaju podaci	pH	3,3 do 8,8
Specifična težina/ relativna gustoća	= 1 voda=1	Topljivost u vodi	Topljivo 100 %
Viskoznost	Nedostaju podaci	Eksplozivna svojstva	Nedostaju podaci
Oksidacijska svojstva:	Nedostaju podaci		
Hlapljivost			
Tlak pare	Minimalni	Gustoća pare	Nedostaju podaci
Brzina isparavanja	Minimalni		
Zapaljivost			
Točka plamišta	Nedostaju podaci	Gornja granica eksplozivnosti (UEL)	Nedostaju podaci
Donja granica eksplozivnosti (LEL)	Nedostaju podaci	Samozapaljenje	Nedostaju podaci
Zapaljivost (krutih tvari, plinova)	Nedostaju podaci		
Okolišni			
Koeficijent raspodjele oktanol/voda	Nedostaju podaci		

9.2 Ostale informacije

Nisu uočeni dodatni fizikalni i kemijski parametri.

Odjeljak 10: Stabilnost i reaktivnost

10.1 Reaktivnost

Nisu poznate opasne reakcije u uvjetima uobičajene upotrebe.

10.2 Kemijska stabilnost

Stabilan

10.3 Mogućnost opasnih reakcija

Neće doći do opasne polimerizacije.

10.4 Uvjeti koje je potrebno izbjegavati

Inkompatibilni materijali. Spaljivanje plastičnih uložaka koji sadrže reagense može osloboditi toksične nusproizvode

10.5 Inkompatibilni materijali

Kiseline.

10.6 Opasni proizvodi razgradnje

Spaljivanje plastičnih uložaka koji sadrže reagense može osloboditi toksične nusproizvode.

Odjeljak 11: Toksikološke informacije

11.1 Informacije o toksikološkim učincima

Sastavnice		
Gvanidin tiocijanat	593-84-0	**Akutna toksičnost:** Intraperitonealno-miš LD50 • 593 mg/kg

Svojstva Globalno usklađenog sustava razvrstavanja i označavanja kemikalija (GHS)	**Razvrstavanje**
Akutna toksičnost	**EU/CLP**•Nedostaju podaci **UN GHS**•Akutna toksičnost - oralna 5 **OSHA HCS 2012**•Nedostaju podaci
Nagrizanje/nadražaj kože	**EU/CLP**•Nedostaju podaci **UN GHS**•Blagi nadražaj kože 3 **OSHA HCS 2012**•Nedostaju podaci
Ozbiljno oštećenje/nadražaj oka	**EU/CLP**•Nedostaju podaci **UN GHS**•Blagi nadražaj oka 2B **OSHA HCS 2012**•Blagi nadražaj oka 2B
Osjetljivost kože	**EU/CLP**•Nedostaju podaci **UN GHS**•Nedostaju podaci **OSHA HCS 2012**•Nedostaju podaci
Osjetljivost dišnog sustava	**EU/CLP**•Nedostaju podaci **UN GHS**•Nedostaju podaci **OSHA HCS 2012**•Nedostaju podaci

Toksičnost za reprodukciju	**EU/CLP**•Nedostaju podaci **UN GHS**•Nedostaju podaci **OSHA HCS 2012**•Nedostaju podaci
STOT-SE	**EU/CLP**•Nedostaju podaci **UN GHS**•Nedostaju podaci **OSHA HCS 2012**•Nedostaju podaci

Mogući učinci na zdravlje

Udisanje
Akutni (trenutačni) Može izazvati nadražaj.
Kronični (odgođeni) Nema dostupnih podataka

Koža
Akutni (trenutačni) Izaziva blagi nadražaj kože.
Kronični (odgođeni) Nema dostupnih podataka

Oko
Akutni (trenutačni) Izaziva nadražaj očiju.
Kronični (odgođeni) Nema dostupnih podataka

Gutanje
Akutni (trenutačni) Može biti štetno ako se proguta.
Kronični (odgođeni) Nema dostupnih podataka

Tumač kratica
LD = smrtonosna doza (Lethal Dose)

Odjeljak 12: Ekološke informacije

12.1 Toksičnost

LC50 (ribica): 89,1 mg/l nakon 96 sati

12.2 Postojanost i razgradivost

Nedostaju materijalni podaci.

12.3 Bioakumulacijski potencijal

Nedostaju materijalni podaci.

12.4 Pokretljivost u tlu

Nedostaju materijalni podaci.

12.5 Rezultati procjene svojstava PBT i vPvB

Nije provedena procjena svojstava PBT i vPvB.

12.6 Drugi štetni učinci

Nisu pronađena ispitivanja.

Odjeljak 13: Zbrinjavanje

13.1 Metode zbrinjavanja otpada

Proizvodni otpad	Odložite sadržaj i/ili spremnik u otpad u skladu s lokalnim, regionalnim, nacionalnim i/ili međunarodnim propisima.
Ambalažni otpad	Odložite sadržaj i/ili spremnik u otpad u skladu s lokalnim, regionalnim, nacionalnim i/ili međunarodnim propisima.

13.2 Ostale informacije

Biološki uzorci, prijenosni pribor i iskorišteni ulošci trebaju se smatrati sposobnima za prijenos uzročnika zaraznih bolesti te su potrebne standardne mjere opreza. Za pravilno odlaganje iskorištenih uložaka i neiskorištenih reagensa slijedite postupke za upravljanje otpadom svoje ustanove. Ti materijali mogu pokazivati značajke opasnog kemijskog otpada, za što su potrebni posebni nacionalni ili regionalni postupci za odlaganje. Ako nacionalni ili regionalni propisi ne pružaju jasne upute o pravilnom odlaganju, biološki uzorci i iskorišteni ulošci trebaju se odložiti prema smjernicama za rukovanje medicinskim otpadom i njegovo odlaganje Svjetske zdravstvene organizacije (World Health Organization, WHO).

Odjeljak 14: Informacije o prijevozu

	14.1 UN broj	14.2 Pravilno otpremno ime prema UN-u	14.3 Razred(i) opasnosti pri prijevozu	14.4 Pakirna skupina	14.5 Opasnosti za okoliš
DOT	Nije uređeno	Nije uređeno	Nije uređeno	Nije uređeno	Nije primjenjivo
TDG	Nije uređeno	Nije uređeno	Nije uređeno	Nije uređeno	Nije primjenjivo

Telefono (generale)	1 (408) 541-4191 - Fuori dagli USA
Fornitore	Cepheid AB Röntgenvägen 5 SE-171 54 Solna Svezia www.cepheidinternational.com EU: support@cepheideurope.com
Telefono (generale)	+33 563 825 319
	Cepheid Holdings Pty Ltd 23-27 Chaplin Drive Lane Cove West NSW 2066 Australia www.cepheidinternational.com ANZ: TechSupportANZ@cepheid.com
Telefono (Australia)	1800 107 884

1.4 Numero telefonico di emergenza

Produttore	1 (800) 535-5053 - INFOTRAC - Numero telefonico di emergenza attivo 24 ore su 24
Produttore	1 (352) 323-3500 - Fuori dagli USA

Sezione 2: Identificazione dei pericoli

UE/CEE

In ottemperanza a: Normativa (CE) N.1272/2008 (CLP)/REACH 1907/2006 [emendata dalla 453/2010]

2.1 Classificazione della sostanza o della miscela

CLP

La seguente Scheda informativa in materia di sicurezza (SDS) è da considerarsi valida per il prodotto finito finale (miscela) solo se usato in laboratorio. Il prodotto contiene microsfere e reagenti all'interno della cartuccia oppure in contenitori esterni alla cartuccia. Le esenzioni dall'obbligo di comunicazione delle informazioni sui componenti sono conformi all'articolo 1(5)(d) del CLP e alla normativa 29 CFR 1910.1200(g)(2)(i)(C)(1)e(2).
Non classificato

2.2 Elementi dell'etichetta

CLP

Frasi di rischio Non è richiesta alcuna etichetta

2.3 Altri rischi

CLP

In base al Regolamento (CE) n. 1272/2008 (CLP), questo materiale non è considerato pericoloso.

UN GHS (Contenuto delle etichette utilizzate sui prodotti)

In ottemperanza a: Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN Globally Harmonized System of Classification and Labeling of Chemicals, GSH)

2.1 Classificazione della sostanza o della miscela

Dichiarazioni precauzionali UN GHS (Classificazione)

Tossicità acuta – Orale 5
Lieve irritazione cutanea 3
Lieve irritazione oculare 2B

2.2 Elementi dell'etichetta

UN GHS

ATTENZIONE

Indicazioni di pericolo

Nocivo se ingerito
Può essere nocivo per contatto con la pelle
Provoca irritazione oculare

Consigli di prudenza

Prevenzione Lavare accuratamente le mani dopo la manipolazione.

Risposta In caso di irritazione della pelle: consultare un medico.
IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
Se l'irritazione degli occhi persiste, consultare un medico.
In caso di malessere, contattare un CENTRO ANTIVELENI o un medico.

2.3 Altri rischi

UN GHS In conformità al Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN GHS) questo prodotto è considerato pericoloso.

Stati Uniti (USA)

In ottemperanza a: OSHA 29 CFR 1910.1200 HCS

2.1 Classificazione della sostanza o della miscela

OSHA HCS 2012 Lieve irritazione oculare 2B

2.2 Elementi dell'etichetta

OSHA HCS 2012

Indicazioni di pericolo
Nocivo se ingerito
Può essere nocivo per contatto con la pelle
Provoca irritazione oculare

Consigli di prudenza

Prevenzione Lavare accuratamente le mani dopo la manipolazione.

Risposta IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente con acqua per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
Se l'irritazione degli occhi persiste, consultare un medico.

2.3 Altri rischi

OSHA HCS 2012 Ai sensi della normativa statunitense (29 CFR 1910.1200 - Standard per la comunicazione dei pericoli), questo prodotto non è considerato pericoloso.

Canada

In ottemperanza a: WHMIS

2.1 Classificazione della sostanza o della miscela

WHMIS Non classificato

2.2 Elementi dell'etichetta

WHMIS Non è richiesta alcuna etichetta.

2.3 Altri rischi

WHMIS In Canada, il prodotto di cui sopra non è considerato pericoloso ai sensi del sistema di informazioni sui materiali pericolosi sul luogo di lavoro (Workplace Hazardous Materials Information System, WHMIS).

2.4 Altre informazioni

Tutti gli altri reagenti, le perline e i costituenti hanno concentrazioni inferiori all'1% nella miscela o non sono considerati pericolosi per le normative sulla comunicazione del pericolo degli USA (29 CFR 1910.1200), le direttive UE per la classificazione e l'etichettatura delle sostanze e delle miscele o per il Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche e delle miscele.

Sezione 3: Composizione/Informazioni sugli ingredienti

3.1 Sostanze

Il materiale non soddisfa i criteri di classificazione come sostanza.

3.2 Miscele

Composizione					
Nome Chimico	**Identificatori**	**%**	**DL50/CL50**	**Classificazioni Secondo Regolamento / Direttiva**	**Commenti**
Guanidina tiocianato	**CAS:**593-84-0 **EINECS:** 209-812-1	10-20%	593 mg/kg	**UE CLP:** Toss. acuta 5, H302, H313, H320 **UN GHS:** Toss. acuta 5 (orale); Irrit. cute 3; Irrit. occhi 2B **OSHA HCS 2012:** Toss. acuta 5 (orale); Irrit. occhi 2B	NDD

Sezione 4: Misure di pronto soccorso

4.1 Descrizione delle misure di pronto soccorso

Inalazione
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. Portare la persona colpita all'aria aperta. Somministrare ossigeno se la respirazione è difficile. Non usare il metodo bocca-a-bocca se la vittima ha inalato la sostanza; effettuare la respirazione artificiale con l'ausilio di una mascherina con valvola unidirezionale o altro dispositivo medico adeguato. Se la vittima non respira, effettuare la respirazione artificiale.

Cute
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di limitato contatto con la pelle, evitare la dispersione del materiale sulla pelle non interessata. In caso di contatto con la sostanza, sciacquare immediatamente la pelle con acqua corrente per almeno 20 minuti. Rimuovere e isolare gli indumenti contaminati.

Occhi
In normali condizioni di utilizzo raccomandato non si prevede si rendano necessarie misure di pronto soccorso. In caso di contatto con la sostanza, sciacquare immediatamente gli occhi con acqua corrente per almeno 20 minuti. Se l'irritazione degli occhi persiste, consultare un medico.

Ingestione
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di ingestione, sciacquare la bocca con acqua (solamente se l'infortunato è cosciente). NON provocare il vomito. Non usare il metodo bocca-a-bocca se la vittima ha ingerito la sostanza. In caso di ingestione consultare immediatamente il medico.

4.2 Sintomi ed effetti più importanti, acuti e ritardati

Consultare la Sezione 11 - Informazioni tossicologiche.

4.3 Indicazione delle attenzioni mediche immediate e dei trattamenti speciali necessari

Note per il medico
Tutte le cure dovrebbero basarsi sull'osservazione di segni e sintomi di malessere nel paziente. Dovrebbe essere presa in considerazione la possibilità di sovraesposizione a materiali diversi da questo prodotto.

Sezione 5: Misure antincendio

5.1 Mezzi di estinzione

Mezzi di estinzione adeguati	INCENDI DI AMPIE DIMENSIONI: composto chimico secco, CO2, schiumogeno resistente all'alcol o getto d'acqua. INCENDI DI DIMENSIONI RIDOTTE: composto chimico secco, CO2 o getto d'acqua.
Mezzi di estinzione non adeguati	Nessun dato disponibile

5.2 Rischi speciali che scaturiscono dalla sostanza o dalla miscela

Rischi di esplosione e incendi inconsueti	La cartuccia in plastica contenente i reagenti può emettere vapori tossici di ossidi di carbonio, ossidi di zolfo, ossidi di azoto.
Prodotti di combustione pericolosi	Nessun dato disponibile

5.3 Consiglio per i vigili del fuoco

Gli indumenti antincendio strutturali forniscono una protezione limitata SOLO in condizioni di incendio; non sono efficaci in condizioni di fuoriuscite in cui è probabile il contatto diretto con la sostanza.
Indossare abbigliamento protettivo contro gli agenti chimici specificatamente raccomandato dal produttore. Potrebbe fornire limitata o nessuna protezione termica.
Indossare un apparato di respirazione autonomo funzionante a pressione positiva (self-contained breathing apparatus, SCBA).
INCENDI DI DIMENSIONI RIDOTTE: Spostare i contenitori dall'area colpita dall'incendio se non comporta alcun rischio.

Sezione 6: Misure contro il versamento accidentale

6.1 Precauzioni personali, dispositivi di protezione e procedure di emergenza

Precauzioni personali	Nel caso in cui si rompa una cartuccia, è possibile applicare queste precauzioni personali. Usare indumenti protettivi adatti. Non camminare sul materiale versato. Toccare i contenitori danneggiati o il materiale versato solo dopo aver indossato l'abbigliamento protettivo adeguato. Ventilare le aree chiuse.
Procedure di emergenza	Non si prevede la necessità di procedure di emergenza se il materiale viene utilizzato in condizioni normali come raccomandato.

6.2 Precauzioni ambientali

Evitare l'ingresso in corsi d'acqua, fognature, seminterrati o aree confinate.

6.3 Metodi e materiali per il contenimento e la pulizia

Misure di contenimento/pulizia	Per piccole fuoriuscite, indossare guanti e assorbire la fuoriuscita con un tovagliolo di carta. Non gettare il materiale fuoriuscito nei tubi di scarico.

6.4 Riferimento ad altre sezioni

Consultare la Sezione 8 - Controlli dell'esposizione / Protezione personale e la Sezione 13 - Considerazioni per lo smaltimento.

Sezione 7: Manipolazione e stoccaggio

7.1 Precauzioni per la manipolazione sicura

Manipolazione Non è necessario nessun trattamento speciale. Nel caso in cui si rompa una cartuccia, evitare il contatto con i reagenti fuoriusciti. Evitare il contatto con gli occhi e con la pelle.

7.2 Condizioni per lo stoccaggio sicuro, incompatibilità eventuali incluse

Stoccaggio Conservare secondo le indicazioni presenti sull'etichetta del prodotto. Tenere lontano dai materiali incompatibili. Conservare sotto chiave. Conservare il recipiente/contenitore ben chiuso in luogo fresco e ben ventilato.

7.3 Usi finali specifici

Consultare la Sezione 1.2 - Usi pertinenti identificati.

Sezione 8: Controlli dell'esposizione / Protezione personale

8.1 Parametri di controllo

	Limiti di Esposizione / Linee Guida			
	Risultato	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato di guanidinio	TWA	Non stabilito	Non stabilito	Non stabilito

8.2 Controlli dell'esposizione

Misure/Controlli tecnici Garantire una ventilazione generale adeguata. I regimi di ventilazione devono essere adeguati alle condizioni. Se applicabile, utilizzare camere di protezione dei processi, impianti di ventilazione locale o altri controlli tecnici per mantenere i livelli di contaminanti aerei al di sotto dei limiti di esposizione raccomandati. Qualora i limiti di esposizione non fossero stati stabiliti, mantenere i contaminanti aerei a un livello accettabile.

Dispositivi di protezione individuale

Respirazione Non si prevede la necessità di attrezzatura respiratoria se il materiale viene utilizzato in condizioni normali come consigliato. Altrimenti, attenersi alle indicazioni del respiratore OSHA disponibili in 29 CFR 1910.134 o nella norma europea EN 149. In caso di superamento dei limiti di esposizione o manifestazione di sintomi, usare un respiratore approvato da NIOSH/MSHA o dalla norma europea EN 149.

Occhi/Volto Indossare occhiali protettivi per sostanze chimiche.

Pelle/Corpo Indossare indumenti protettivi.

Controlli dell'esposizione ambientale Seguire le migliori pratiche per la gestione del sito e per lo smaltimento dei rifiuti.

Legenda delle abbreviazioni
OSHA = Occupational Safety and Health Administration (Agenzia per la salute e la sicurezza sul lavoro)
TWA = Time-Weighted Averages (Medie pesate nel tempo) basate su esposizioni da 8 ore/giorno, 40 ore/settimana

Sezione 9: Proprietà chimico-fisiche

9.1 Informazioni sulle proprietà chimico-fisiche

Descrizione del materiale			
Forma fisica	Liquido	Colore	Incolore
Odore	Inodore	Soglia di odore	Dati mancanti
Proprietà generali			
Punto di ebollizione	100 °C (212 °F)	Punto di fusione/Punto di congelamento	0 °C (32 °F)
Temperatura di decomposizione	Dati mancanti	pH	da 3,3 a 8,8
Gravità specifica/densità relativa	= 1 Acqua=1	Solubilità in acqua	Solubile al 100%
Viscosità	Dati mancanti	Proprietà esplosive	Dati mancanti
Proprietà ossidanti:	Dati mancanti		
Volatilità			
Pressione di vapore	Minima	Densità del vapore	Dati mancanti
Tasso di evaporazione	Minimo		
Infiammabilità			
Punto di infiammabilità	Dati mancanti	UEL	Dati mancanti
LEL	Dati mancanti	Autoaccensione	Dati mancanti
Infiammabilità (solido, gas):	Dati mancanti		
Ambientali			
Coefficiente di ripartizione ottanolo-acqua	Dati mancanti		

9.2 Altre informazioni

Non sono state osservate altre proprietà chimico-fisiche.

Sezione 10: Stabilità e reattività

10.1 Reattività

Nessuna reazione pericolosa nota nelle normali condizioni di utilizzo.

10.2 Stabilità chimica

Stabile

10.3 Possibilità di reazioni pericolose

Non si verificherà polimerizzazione pericolosa.

10.4 Condizioni da evitare

Materiali incompatibili. La combustione della cartuccia in plastica contenente i reagenti può liberare sottoprodotti tossici.

10.5 Materiali incompatibili

Acidi.

10.6 Prodotti di decomposizione pericolosi

La combustione della cartuccia in plastica contenente i reagenti può liberare sottoprodotti tossici.

Sezione 11: Informazioni tossicologiche

11.1 Informazioni sugli effetti tossicologici

Sezione 12: Informazioni ecologiche

12.1 Tossicità

CL50 (guppy): 89,1 mg/l a 96 h

12.2 Persistenza e degradabilità

Dati materiale mancanti.

12.3 Potenziale di bioaccumulo

Dati materiale mancanti.

12.4 Mobilità nel suolo

Dati materiale mancanti.

12.5 Risultati della valutazione PBT e vPvB

Non sono state condotte valutazioni PBT e vPvB.

12.6 Altri effetti avversi

Non sono stati trovati studi.

Sezione 13: Considerazioni sullo smaltimento

13.1 Metodi di trattamento dei rifiuti

Rifiuti del prodotto	Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.
Rifiuti di imballaggio	Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

13.2 Altre informazioni

I campioni biologici di analisi, i dispositivi di trasferimento e le cartucce usate devono essere trattati come potenziali veicoli di agenti infettivi adottando le precauzioni standard. Attenersi alle procedure di smaltimento dei rifiuti ambientali della propria struttura sanitaria per il corretto smaltimento delle cartucce usate e dei reagenti non utilizzati. Questi materiali potrebbero essere considerati rifiuti chimici pericolosi per il cui smaltimento sarà necessario attenersi a specifiche procedure nazionali o regionali. Se i regolamenti nazionali o regionali non forniscono istruzioni chiare sul corretto smaltimento, i campioni biologici di analisi e le cartucce usate devono essere smaltiti in base alle linee guida dell'OMS (Organizzazione mondiale della sanità) sulla manipolazione e lo smaltimento dei rifiuti medici.

Fabrikant	+1 (352) 323-3500 - buiten de VS

Rubriek 2: Identificatie van de gevaren

EU/EEC
Volgens: Verordening (EG) nr. 1272/2008 (CLP)/REACH 1907/2006 [geamendeerd door 453/2010]

2.1 Indeling van de stof of het mengsel

CLP

Het volgende VIB is voor het gemengde eindproduct zoals in het laboratorium gebruikt. Het product bevat korrels en reagentia in de patroon of in externe containers. Uitzonderingen voor het vrijgeven van enige componentinformatie zijn volgens CLP-artikel 1(5)(d) en 29 CFR 1910.1200(g)(2)(i)(C)(1) en (2).
Niet geclassificeerd

2.2 Etiketteringselementen

CLP

Gevarenaanduidingen Geen etiketteringselementen vereist

2.3 Overige gevaren

CLP

Onder Verordening (EG) nr. 1272/2008 CLP wordt dit materiaal niet als gevaarlijk beschouwd.

UN GHS (etikettering inhoud gebruikt op producten)
Volgens: Wereldwijd geharmoniseerd systeem voor de indeling en etikettering van chemische stoffen (Globally Harmonized System of classification and labelling of chemicals (GHS)) van de Verenigde Naties

2.1 Indeling van de stof of het mengsel

UN GHS

Acute orale toxiciteit 5
Mild huidirriterend 3
Mild oogirriterend 2B

2.2 Etiketteringselementen

UN GHS

WAARSCHUWING

Gevarenaanduidingen

Schadelijk bij inslikken
Mogelijk schadelijk bij contact met de huid
Veroorzaakt oogirritatie

Voorzorgsmaatregelen

Preventie Na het werken met dit product handen grondig wassen.

Antwoord Bij huidirritatie: Een arts raadplegen.
BIJ CONTACT MET DE OGEN: Voorzichtig afspoelen met water gedurende een aantal minuten. Contactlenzen verwijderen, indien mogelijk. Blijven spoelen.
Bij aanhoudende oogirritatie: Een arts raadplegen.
Bij onwel voelen een VERGIFTIGINGENCENTRUM (NL) of ANTIGIFCENTRUM (BE) of een arts raadplegen.

2.3 Overige gevaren

UN GHS

Onder het wereldwijd geharmoniseerd systeem voor de indeling en etikettering van chemische stoffen (Globally Harmonized System of classification and labelling of chemicals (GHS)) van de Verenigde Naties wordt dit product als gevaarlijk beschouwd.

Verenigde Staten (VS)
Volgens: OSHA 29 CFR 1910.1200 HCS

2.1 Indeling van de stof of het mengsel

OSHA HCS 2012

Mild oogirriterend 2B

2.2 Etiketteringselementen

OSHA HCS 2012

Gevarenaanduidingen

Schadelijk bij inslikken
Schadelijk bij contact met de huid
Veroorzaakt oogirritatie

Voorzorgsmaatregelen

Preventie

Na het werken met dit product handen grondig wassen.

Antwoord

BIJ CONTACT MET DE OGEN: Voorzichtig afspoelen met water gedurende een aantal minuten. Contactlenzen verwijderen, indien mogelijk. Blijven spoelen.
Bij aanhoudende oogirritatie: Een arts raadplegen.

2.3 Overige gevaren

OSHA HCS 2012

Onder regelgeving van de VS (29 CFR 1910.1200 - Hazard Communication Standard) wordt dit product niet als gevaarlijk beschouwd.

Canada
Volgens: WHMIS

2.1 Indeling van de stof of het mengsel

WHMIS

Niet geclassificeerd

2.2 Etiketteringselementen

WHMIS

Geen etiketteringselementen vereist.

2.3 Overige gevaren

WHMIS

In Canada wordt het hierboven genoemde product niet als gevaarlijk beschouwd onder het Workplace Hazardous Materials Information System (WHMIS).

2.4 Overige informatie

Alle andere reagentia, korrels en andere bestanddelen hebben een concentratie van minder dan 1% in het mengsel of worden niet als gevaarlijk beschouwd onder de gevarencommunicatieregelgeving van de VS (29 CFR 1910.1200), EU-richtlijnen voor classificatie en etikettering van stoffen of mengsels of het wereldwijd geharmoniseerd systeem voor de indeling en etikettering van stoffen of mengsels.

Rubriek 3: Samenstelling en informatie over de bestanddelen

3.1 Stoffen

Het materiaal voldoet niet aan de criteria voor een stof.

3.2 Mengsels

Samenstelling					
Chemische naam	**Identificatoren**	**%**	**LD50/LC50**	**Classificaties volgens verordening/richtlijn**	**Opmerkingen**
Guanidine thiocyanaat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10% - 20%	593 mg/kg	**EU CLP:** Acute toxiciteit 5, H302, H313, H320 **UN GHS:** Acute toxiciteit 5 (Orl); Huidirriterend 3; Oogirriterend 2B **OSHA HCS 2012:** Acute toxiciteit 5 (Orl); Oogirriterend 2B	GGB

Rubriek 4: EHBO-maatregelen

4.1 Beschrijving van eerstehulpmaatregelen

Inhalatie Naar verwachting is geen eerste hulp nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt. Verplaats het slachtoffer naar de frisse lucht. Bij moeilijk ademen zuurstof toedienen. Gebruik geen mond-op-mondmethode indien het slachtoffer de stof heeft ingeademd. Beadem kunstmatig met een beademingsmasker met eenrichtingsventiel of een ander toepasselijk medisch apparaat. Beadem kunstmatig indien het slachtoffer niet ademt.

Huid Naar verwachting is geen eerste hulp nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt. Voor gering huidcontact voorkomen dat het materiaal naar onaangetaste huid wordt verspreid. Bij contact met de stof de huid direct minstens 20 minuten onder stromend water spoelen. Verwijder en isoleer besmette kleding.

Oog Naar verwachting is geen eerste hulp nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt. Bij contact met de stof de ogen direct minstens 20 minuten onder stromend water spoelen. Bij aanhoudende oogirritatie: Een arts raadplegen.

Inslikken Naar verwachting is geen eerste hulp nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt. Bij inslikken de mond spoelen met water (alleen als de persoon bij bewustzijn is). GEEN braken opwekken. Gebruik geen mond-op-mondmethode indien het slachtoffer de stof heeft ingeslikt. Zoek bij inslikken onmiddelijk medische hulp.

4.2 Belangrijkste symptomen en effecten, zowel acuut als later optredend

Raadpleeg rubriek 11, Toxicologische informatie.

4.3 Indicatie van alle vereiste directe medische zorg en speciale behandelingen

Opmerkingen voor de arts Alle behandelingen moeten worden gebaseerd op de geobserveerde tekenen en symptomen van ongerief van de patiënt. Rekening moet worden gehouden met de mogelijkheid dat te hoge blootstelling aan andere materialen dan dit product kan zijn opgestreden.

Rubriek 5: Brandbestrijdingsmaatregelen

5.1 Blusmiddelen

Geschikte blusmiddelen	GROTE BRANDEN: Droog chemisch, CO2, alcoholbestendig schuim of sproeiwater. KLEINE BRANDEN: Droog chemisch, CO2 of sproeiwater.
Ongeschikte blusmiddelen	Geen gegevens beschikbaar

5.2 Specifieke gevaren van de stof of het mengsel

Buitengewone brand- en explosiegevaren	De plastic patroon met reagentia kan giftige dampen afgeven met koolstofoxiden, zwavenoxiden en stikstofoxiden.
Gevaarlijke verbrandingsproducten	Geen gegevens beschikbaar

5.3 Advies voor brandweer

De structurele beschermende kleding van de brandweer biedt ALLEEN bij brand beperkte bescherming. De kleding is niet effectief bij lekkages waarbij direct contact met de stof mogelijk is.
Draag de tegen chemicaliën beschermende kleding die specifiek door de fabrikant wordt aangeraden. Deze kleding kan weinig tot geen bescherming tegen hitte bieden.
Draag zelfstandige ademhalingsapparatuur met positieve druk.
KLEINE BRANDEN: Verwijder containers uit het gebied van de brand als dit zonder risico mogelijk is.

Rubriek 6: Maatregelen bij accidenteel vrijkomen

6.1 Persoonlijke voorzorgsmaatregelen, beschermende apparatuur en noodprocedures

Persoonlijke voorzorgsmaatregelen	Als een patroon gebroken is, zijn deze persoonlijke voorzorgsmaatregelen van toepassing. Draag de juiste beschermende kleding. Loop niet door vrijgekomen materiaal. Raak geen beschadigde containers of vrijgekomen materiaal aan, tenzij u toepasselijke beschermende kleding draagt. Ventileer afgesloten ruimten.
Noodprocedures	Naar verwachting zijn geen noodprocedures nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt.

6.2 Voorzorgsmaatregelen voor het milieu

Voorkom vrijkomen in waterwegen, riolering, kelders of besloten gebieden.

6.3 Methoden en materialen voor inperking en opruimen

Maatregelen voor inperking en opruimen	Draag bij kleine lekkages handschoenen en absorbeer weggelekt materiaal met papieren doekjes. Laat weggelekt materiaal niet via afvoeren weglopen.

6.4 Verwijzing naar andere rubrieken

Zie rubriek 8, Maatregelen ter beheersing van blootstelling/persoonlijke bescherming en rubriek 13, Instructies voor verwijdering.

Rubriek 7: Opslag en hantering

7.1 Voorzorgsmaatregelen voor veilige hantering

Hantering Geen speciale hantering vereist. Vermijd indien patroon gebroken is contact met vrijgekomen reagentia. Vermijd contact met huid en ogen.

7.2 Voorwaarden voor veilige opslag, inclusief incompatibiliteiten

Opslag Opslaan volgens productetikettering. Verwijderd houden van incompatibele materialen. Achter slot bewaren. Bewaar container/verpakking goed gesloten op een koele, goed geventileerde plaats.

7.3 Specifiek eindgebruik

Zie rubriek 1.2, Relevant geïdentificeerd gebruik.

Rubriek 8: Maatregelen ter beheersing van blootstelling/persoonlijke bescherming

8.1 Beheersingsparameters

	Blootstellingsgrenzen en -richtlijnen			
	Resultaat	**ACGIH**	**NIOSH**	**OSHA**
Guanidine thiocyanaat	TWA	Niet vastgesteld	Niet vastgesteld	Niet vastgesteld

8.2 Maatregelen ter beheersing van blootstelling

Technische maatregelen Er moet goede algemene ventilatie worden gebruikt. De ventilatiesnelheid moet aan de omstandigheden worden aangepast. Gebruik indien van toepassing zuurkasten, plaatselijke ventilatie met afzuiging of andere technische maatregelen voor het onder de vereiste blootstellingslimieten houden van niveaus in de lucht. Indien geen blootstellingslimieten zijn vastgesteld, moeten niveaus in de lucht op een acceptabel niveau worden gehouden.

Persoonlijke beschermingsmiddelen

Ademhaling Naar verwachting is geen ademhalingsapparatuur nodig als het materiaal onder normale omstandigheden en zoals aanbevolen wordt gebruikt. Volg anders de OSHA-regelgeving voor ademhalingsapparatuur in 29 CFR 1910.134 of de Europese norm EN 149. Gebruik een NIOSH/MSHA- of onder de Europese norm EN 149 goedgekeurd ademhalingstoestel als de blootstellingslimieten worden overschreden of symptomen worden ervaren.

Ogen/gezicht Draag een veiligheidsbril tegen opspattende chemische stoffen.

Huid/lichaam Draag beschermende kleding

Beheersing van milieublootstelling Volg de beste werkwijze voor locatiebeheer en afvoer van afval.

Uitleg van afkortingen
OSHA = Occupational Safety and Health Administration (arbeidsomstandighedenautoriteit VS)
TWA = Time-Weighted Averages: tijdgewogen gemiddelden gebaseerd op blootstelling gedurende 8 uur per dag, 40 uur per week

Rubriek 9: Fysische en chemische eigenschappen

9.1 Informatie over fysische en chemische eigenschappen

Materiaalbeschrijving			
Fysische vorm	Vloeistof	Kleur	Kleurloos
Geur	Geurloos	Geurdrempel	Gegevens ontbreken
Algemene eigenschappen			
Kookpunt	100 °C (212 °F)	Smeltpunt/vriespunt	0 °C (32 °F)
Ontledingstemperatuur	Gegevens ontbreken	pH	3,3, tot 8,8
Soortelijk gewicht/relatieve dichtheid	= 1 Water=1	Wateroplosbaarheid	100% oplosbaar
Viscositeit	Gegevens ontbreken	Ontploffingseigenschappen	Gegevens ontbreken
Oxiderende eigenschappen:	Gegevens ontbreken		
Vluchtigheid			
Dampdruk	Minimaal	Dampdichtheid	Gegevens ontbreken
Verdampingssnelheid	Minimaal		
Brandbaarheid			
Ontbrandingspunt	Gegevens ontbreken	UEL	Gegevens ontbreken
LEL	Gegevens ontbreken	Zelfontbranding	Gegevens ontbreken
Brandbaarheid (vaste stof, gas)	Gegevens ontbreken		
Milieu			
Verdelingscoëfficiënt octanol/water	Gegevens ontbreken		

9.2 Overige informatie

Geen aanvullende fysische en chemische parameters genoemd.

Rubriek 10: Stabiliteit en reactiviteit

10.1 Reactiviteit

Geen gevaarlijke reactie bekend onder normale gebruiksomstandigheden.

10.2 Chemische stabiliteit

Stabiel

10.3 Mogelijke gevaarlijke reacties

Gevaarlijk polymerisatie treedt niet op.

10.4 Te vermijden omstandigheden

Incompatibele materialen. Verbranding van plastic patronen met reagentia kan giftige bijproducten laten vrijkomen.

10.5 Incompatibele materialen

Zuren.

10.6 Gevaarlijke ontledingsproducten

Verbranding van plastic patronen met reagentia kan giftige bijproducten laten vrijkomen.

Rubriek 11: Toxicologische informatie

11.1 Informatie over toxicologische effecten

Bestanddelen		
Guanidine thiocyanaat	593-84-0	**Acute toxiciteit:** Intraperitoneaal: LD50 muis • 593 mg/kg

Potentiële effecten op de gezondheid

Inhalatie
Acuut (direct) Kan irritatie veroorzaken.
Chronisch (vertraagd) Geen gegevens beschikbaar.

Huid
Acuut (direct) Veroorzaakt milde huidirritatie.
Chronisch (vertraagd) Geen gegevens beschikbaar.

Oog
Acuut (direct) Veroorzaakt oogirritatie.
Chronisch (vertraagd) Geen gegevens beschikbaar.

Inslikken
Acuut (direct) Kan schadelijk zijn bij inslikken.
Chronisch (vertraagd) Geen gegevens beschikbaar.

Uitleg van afkortingen
LD = Lethal Dose (dodelijke dosis)

Rubriek 12: Ecologische informatie

12.1 Toxiciteit

LC50 (guppy): 89,1 mg/l bij 96 uur

12.2 Persistentie en afbreekbaarheid

Gegevens materiaal ontbreken.

12.3 Mogelijke bioaccumulatie

Gegevens materiaal ontbreken.

12.4 Mobiliteit in de bodem

Gegevens materiaal ontbreken.

12.5 Resultaten van PBT- en zPzB-beoordeling

Geen PBT- en zPzB-beoordeling uitgevoerd.

12.6 Andere schadelijke effecten

Geen onderzoeken gevonden.

Rubriek 13: Instructies voor verwijdering

13.1 Afvalverwerkingsmethoden

Productafval	Voer de inhoud en/of container af volgens de plaatselijke, regionale, nationale en/of internationale wet- en regelgeving.
Verpakkingsafval	Voer de inhoud en/of container af volgens de plaatselijke, regionale, nationale en/of internationale wet- en regelgeving.

13.2 Overige informatie

Biologische monsters, transferhulpmiddelen en gebruikte patronen moeten worden beschouwd alsof ze in staat zijn infectieuze agentia over te dragen en vereisen standaardvoorzorgsmaatregelen. Volg de procedures van uw instelling inzake milieuafval voor de juiste afvoer van gebruikte patronen en ongebruikte reagentia. Deze materialen kunnen kenmerken van chemisch gevaarlijk afval vertonen dat in uw land of regio op een specifieke wijze moet worden afgevoerd. Als nationale of regionale voorschriften geen duidelijke aanwijzingen geven voor de juiste afvoer, moeten biologische monsters en gebruikte patronen worden afgevoerd volgens de richtlijnen van de Wereldgezondheidsorganisatie (World Health Organization, WHO) inzake het hanteren en afvoeren van medisch afval.

Rubriek 14: Vervoersinformatie

	14.1 VN-nummer	14.2 Juiste ladingnaam overeenkomstig de modelreglementen van de VN	14.3 Transport-gevarenklasse(n)	14.4 Verpakkings-groep	14.5 Milieugevaren

WHMIS Nie są wymagane żadne elementy etykiety.

2.3 Inne zagrożenia

WHMIS W Kanadzie produkt wymieniony powyżej nie jest uznawany za niebezpieczny zgodnie z systemem WHMIS (Workplace Hazardous Materials Information System, system informacji o produktach niebezpiecznych w miejscu pracy).

2.4 Inne informacje

Wszystkie inne odczynniki, kulki oraz inne składniki występują w mieszaninie w stężeniach mniejszych niż 1% lub nie są uznawane za niebezpieczne zgodnie z przepisami USA dotyczącymi przekazywania informacji o zagrożeniach (29 CFR 1910.1200), dyrektywami UE dotyczącymi klasyfikacji i oznakowania substancji lub mieszanin albo Globalnie Zharmonizowanym Systemem klasyfikacji i oznakowania substancji lub mieszanin.

Sekcja 3: Skład i informacje o składnikach

3.1 Substancje

Materiał nie spełnia kryteriów uznania za substancję.

3.2 Mieszaniny

Skład					
Nazwa chemiczna	**Identyfikatory**	**%**	**LD50/LC50**	**Klasyfikacje zgodnie z rozporządzeniem/dyrektywą**	**Komentarze**
Tiocyjanian guanidyny	**CAS:** 593-84-0 **EINECS:** 209-812-1	10%–20%	593 mg/kg	**CLP UE:** Toksyczność ostra 5, H302, H313, H320 **GHS ONZ:** Toksyczność ostra 5 (doustnie); Działanie drażniące na skórę 3; Działanie drażniące na oczy 2B **OSHA HCS 2012:** Toksyczność ostra 5 (doustnie); Działanie drażniące na oczy 2B	BDD

Sekcja 4: Środki pierwszej pomocy

4.1 Opis środków pierwszej pomocy

Inhalacja Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. Wyprowadzić poszkodowaną osobę na świeże powietrze. W razie problemów z oddychaniem podać tlen. Nie stosować wentylacji metodą usta-usta, jeżeli osoba poszkodowana wdychała substancję. Zastosować sztuczne oddychanie za pomocą maski twarzowej wyposażonej w zawór jednodrożny albo innego odpowiedniego urządzenia medycznego do wentylacji. Jeżeli osoba poszkodowana nie oddycha, zastosować sztuczne oddychanie.

Skóra Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W przypadku pomniejszego kontaktu ze skórą należy unikać rozprowadzania materiału na inne części skóry. W razie kontaktu z substancją natychmiast przystąpić do płukania skóry pod bieżącą wodą przez co najmniej 20 minut. Należy zdjąć i odizolować zanieczyszczone ubranie.

Oczy	Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W razie kontaktu z substancją natychmiast przystąpić do płukania oczu pod bieżącą wodą przez co najmniej 20 minut. W przypadku utrzymywania się działania drażniącego na oczy: Zasięgnąć porady/zgłosić się pod opiekę lekarza.
Połknięcie	Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W razie połknięcia przepłukać usta wodą (wyłącznie jeżeli poszkodowana osoba jest przytomna). NIE wywoływać wymiotów. Jeżeli poszkodowana osoba połknęła substancję, nie wolno stosować wentylacji metodą usta-usta. W razie połknięcia należy natychmiast skorzystać z pomocy lekarza.

4.2 Najważniejsze ostre i opóźnione objawy oraz skutki narażenia

Patrz sekcja 11 — Informacje toksykologiczne.

4.3 Wskazania dotyczące wszelkiej natychmiastowej pomocy lekarskiej i szczególnego postępowania z poszkodowanym

Uwagi dla lekarza	Wdrażane leczenie powinno zależeć od zaobserwowanych objawów występujących u pacjenta. Należy rozważyć możliwość nadmiernego narażenia na materiały inne niż ten produkt.

Sekcja 5: Postępowanie w przypadku pożaru

5.1 Środki gaśnicze

Odpowiednie środki gaśnicze	DUŻE POŻARY: Proszek gaśniczy, CO2, piana odporna na działanie alkoholu lub rozpylana woda. MAŁE POŻARY: Proszek gaśniczy, CO2 lub rozpylana woda.
Niewłaściwe środki gaśnicze	Brak dostępnych danych

5.2 Szczególne zagrożenia związane z substancją lub mieszaniną

Szczególne zagrożenia związane z pożarem i wybuchem	Plastikowe kartridże zawierające odczynniki mogą emitować toksyczne opary dwutlenku węgla, tlenków siarki, tlenków azotu.
Niebezpieczne produkty spalania	Brak dostępnych danych

5.3 Informacje dla straży pożarnej

Strażacka ognioodporna odzież ochronna zapewnia ograniczoną ochronę WYŁĄCZNIE w przypadku walki z pożarem. Jest ona nieskuteczna w przypadku rozlania materiału, gdzie istnieje możliwość bezpośredniego kontaktu z substancją. Należy wówczas założyć odzież chroniącą przed chemikaliami specjalnie zalecaną przez producenta. Taka odzież może zapewniać niewielką ochronę termiczną lub nie zapewniać takiej ochrony.
Należy używać autonomiczne aparaty oddechowe (SCBA).
MAŁE POŻARY: Jeżeli można to zrobić bez ryzyka, należy wynieść pojemniki z obszaru objętego pożarem.

Sekcja 6: Postępowanie w przypadku niezamierzonego uwolnienia do środowiska

6.1 Indywidualne środki ostrożności, wyposażenie ochronne i procedury w sytuacjach awaryjnych

Indywidualne środki ostrożności	Podane indywidualne środki ostrożności mają zastosowanie w sytuacji uszkodzenia kartridża. Nosić odpowiednią odzież ochronną. Nie wchodzić w rozlany materiał. Nie dotykać uszkodzonych pojemników lub rozlanego materiału bez używania odpowiedniej odzieży ochronnej. Zapewnić wentylację zamkniętych obszarów.
Procedury awaryjne	Nie oczekuje się, aby były wymagane jakiekolwiek procedury awaryjne, jeżeli materiał będzie używany w zwykłych warunkach zgodnie z zaleceniami.

6.2 Środki ostrożności w zakresie ochrony środowiska

Zapobiegać odpływowi do dróg wodnych, kanalizacji, piwnic lub zamkniętych obszarów.

6.3 Metody i materiały zapobiegające rozprzestrzenianiu się skażenia i służące do usuwania skażenia

Metody zapobiegające rozprzestrzenianiu się skażenia i służące do usuwania skażenia	W przypadku niewielkich wycieków, założyć rękawice i zebrać wyciek ręcznikiem papierowym. Nie wylewać rozlanych materiałów do kanalizacji.

6.4 Odniesienia do innych sekcji

Patrz sekcja 8 — Kontrola narażenia/środki ochrony indywidualnej i sekcja 13 — Postępowanie z odpadami.

Sekcja 7: Postępowanie z substancjami i mieszaninami oraz ich magazynowanie

7.1 Środki ostrożności dotyczące bezpiecznego postępowania

Obchodzenie się z produktem	Nie są wymagane specjalne procedury dotyczące postępowania. W razie uszkodzenia kartridża należy unikać kontaktu z rozlanymi odczynnikami. Unikać zanieczyszczenia skóry i oczu.

7.2 Warunki bezpiecznego magazynowania, łącznie z informacjami dotyczącymi wszelkich wzajemnych niezgodności

Magazynowanie	Przechowywać zgodnie z informacjami podanymi na etykiecie produktu. Przechowywać z dala od niezgodnych materiałów. Przechowywać w zamkniętym miejscu. Pojemnik/opakowanie przechowywać ściśle zamknięte w chłodnym i dobrze wentylowanym pomieszczeniu.

7.3 Szczególne zastosowanie(-a) końcowe

Patrz sekcja 1.2 — Istotne zidentyfikowane zastosowania.

Sekcja 8: Kontrola narażenia/środki ochrony indywidualnej

8.1 Parametry kontroli

	Wartości graniczne narażenia/wytyczne			
	Wynik	**ACGIH**	**NIOSH**	**OSHA**
Tiocyjanian guanidyny	TWA	Nie ustalono	Nie ustalono	Nie ustalono

8.2 Kontrola narażenia

Techniczne środki kontroli
Należy stosować dobrą wentylację ogólną. Natężenie wentylacji należy dostosować do warunków. Jeśli dotyczy, należy stosować odpowiednie osłony procesowe, lokalną wentylację i wyciągi lub też inne środki techniczne, aby utrzymywać poziom substancji lotnych poniżej dopuszczalnych limitów narażenia. Jeżeli nie określono limitów narażenia, należy utrzymywać dopuszczalny poziom substancji lotnych.

Indywidualny sprzęt ochronny

Ochrona dróg oddechowych
Nie oczekuje się, aby sprzęt oddechowy był konieczny, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W innym przypadku należy stosować się do wytycznych organizacji OSHA, dotyczących ochrony układu oddechowego zawartych w rozdziale 29 kodeksu CFR 1910.134 lub w Normie Europejskiej EN 149. W razie przekroczenia limitów narażenia lub wystąpienia objawów należy używać odpowiedniego aparatu oddechowego zgodnego z normą NIOSH/MSHA lub Normą Europejską EN 149.

Ochrona oczu lub twarzy
Nosić okulary chroniące przed rozpryskiem substancji chemicznych.

Ochrona skóry lub ciała
Nosić odzież ochronną

Kontrola narażenia środowiska
Przestrzegać stosowanej w ośrodku najlepszej praktyki dotyczącej postępowania z odpadami oraz ich usuwania.

Legenda dotycząca skrótów
OSHA = Occupational Safety and Health Administration (Administracja ds. higieny i bezpieczeństwa pracy)
TWA = Time-Weighted Average, wartość uśredniona czasowo na podstawie narażenia 8h/dobę, 40h/tydzień

Sekcja 9: Właściwości fizyczne i chemiczne

9.1 Informacje dotyczące właściwości fizycznych i chemicznych

Opis materiału			
Postać fizyczna	Ciecz	Kolor	Bezbarwny
Zapach	Bezwonne	Próg zapachu	Brak danych
Właściwości ogólne			
Punkt wrzenia	100 °C (212 °F)	Temperatura topnienia/krzepnięcia	0 °C (32 °F)
Temperatura rozkładu	Brak danych	pH	Od 3,3 do 8,8
Ciężar właściwy/Gęstość względna	= 1 Woda =1	Rozpuszczalność w wodzie	100% rozpuszczalność
Lepkość	Brak danych	Właściwości wybuchowe	Brak danych
Właściwości utleniające:	Brak danych		
Lotność			
Prężność pary	Minimalne	Gęstość pary	Brak danych
Współczynnik parowania	Minimalne		
Łatwopalność			
Temperatura zapłonu	Brak danych	UEL	Brak danych
LEL	Brak danych	Temperatura samozapłonu	Brak danych
Palność (ciało stałe/gaz)	Brak danych		
Środowisko			
Współczynnik podziału: n-oktanol/woda	Brak danych		

9.2 Inne informacje

Nie odnotowano żadnych dodatkowych parametrów fizycznych ani chemicznych.

Sekcja 10: Stabilność i reaktywność

10.1 Reaktywność

W warunkach prawidłowego stosowania brak znanych niebezpiecznych reakcji.

10.2 Stabilność chemiczna

Produkt stabilny

10.3 Możliwość występowania niebezpiecznych reakcji

Nie dochodzi do niebezpiecznej polimeryzacji.

10.4 Warunki, których należy unikać

Materiały niezgodne. Spalające się plastikowe kartridże zawierające odczynniki mogą uwalniać toksyczne produkty uboczne

10.5 Materiały niezgodne

Kwasy.

10.6 Niebezpieczne produkty rozkładu

Spalające się plastikowe kartridże zawierające odczynniki mogą uwalniać toksyczne produkty uboczne.

Sekcja 11: Informacje toksykologiczne

11.1 Informacje dotyczące skutków toksykologicznych

Komponenty		
Tiocyjanian guanidyny	593-84-0	**Toksyczność ostra:** LD50 (śródotrzewnowo, mysz) • 593 mg/kg

Ostre (natychmiastowe) Powoduje podrażnienie oczu.
Przewlekłe (opóźnione) Brak dostępnych danych

Połknięcie
Ostre (natychmiastowe) W razie połknięcia może mieć szkodliwe działanie.
Przewlekłe (opóźnione) Brak dostępnych danych

Legenda dotycząca skrótów
LD = Lethal Dose, dawka śmiertelna

Sekcja 12: Informacje ekologiczne

12.1 Toksyczność

LC50 (gupik): 89,1 mg/l przez 96 h

12.2 Trwałość i zdolność do rozkładu

Niedostateczna ilość istotnych danych.

12.3 Zdolność do bioakumulacji

Niedostateczna ilość istotnych danych.

12.4 Mobilność w glebie

Niedostateczna ilość istotnych danych.

12.5 Wyniki oceny właściwości PBT i vPvB

Nie przeprowadzono ocen właściwości PBT i vPvB.

12.6 Inne szkodliwe skutki działania

Nie odnaleziono żadnych badań.

Sekcja 13: Postępowanie z odpadami

13.1 Postępowanie z odpadami

Odpady produktu	Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.
Odpady opakowań	Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

13.2 Inne informacje

Próbki biologiczne, wyroby do przenoszenia i użyte kartridże należy traktować jako mogące przenosić czynniki zakaźne i wymagające zachowania standardowych środków ostrożności. Należy przestrzegać obowiązujących w placówce procedur dotyczących odpadów środowiskowych w zakresie odpowiedniego usuwania użytych kartridży i nieużytych odczynników. Te materiały mogą stanowić niebezpieczne materiały chemiczne, których usuwanie musi się odbywać zgodnie z krajowymi lub regionalnymi przepisami dotyczącymi usuwania. Jeśli krajowe lub regionalne przepisy nie regulują kwestii dotyczących odpowiedniego usuwania, wówczas próbki biologiczne i użyte kartridże należy usuwać zgodnie z wytycznymi Światowej Organizacji Zdrowia (World Health Organization, WHO) dotyczącymi obsługi i usuwania odpadów medycznych.

Sekcja 14: Informacje dotyczące transportu

	14.1 Numer UN (numer ONZ)	14.2 Prawidłowa nazwa przewozowa UN	14.3 Klasa(-y) zagrożenia w transporcie	14.4 Grupa pakowania	14.5 Zagrożenia dla środowiska

Secção 4: Medidas de Primeiros Socorros

4.1 Descrição das medidas de primeiros socorros

Inalação Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Mover a vítima para o ar livre. Administrar oxigénio se a respiração estiver difícil. Não usar o método boca-a-boca se a vítima tiver inalado a substância; ministre respiração artificial com o auxílio de uma máscara de bolso equipada com uma válvula de 1 via ou outro dispositivo médico de respiração adequado. Administrar respiração artificial se a vítima não estiver a respirar.

Pele Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Para um pequeno contacto com a pele, evitar espalhar o material pela pele não afetada. Em caso de contacto com a substância, lavar imediatamente a pele com água corrente por pelo menos 20 minutos. Despir e isolar a roupa contaminada.

Olhos Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de contacto com a substância, lavar imediatamente os olhos com água corrente por pelo menos 20 minutos. Caso a irritação ocular persista: consultar um médico.

Ingestão Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de ingestão, lavar a boca com água (apenas se a pessoa estiver consciente). NÃO provocar o vómito. Não usar o método boca-a-boca se a vítima tiver ingerido a substância. Em caso de ingestão, consultar um médico imediatamente.

4.2 Sintomas e efeitos mais importantes, tanto agudos quanto retardados

Consultar a Secção 11 - Informação Toxicológica.

4.3 Indicação de qualquer cuidado médico imediato e tratamento especial necessários

Notas para o Médico Todos os tratamentos devem basear-se nos sinais e sintomas de perturbações observados no paciente. Deve ser considerada a possibilidade de sobrexposição a outros materiais além deste produto.

Secção 5: Medidas de Combate a Incêndios

5.1 Meios de extinção

Meios de extinção adequados	GRANDES INCÊNDIOS: Produto químico seco, CO2, espuma resistente ao álcool ou água pulverizada. PEQUENOS INCÊNDIOS: Produto químico seco, CO2 ou água pulverizada.
Meios de extinção inadequados	Sem dados disponíveis

5.2 Perigos especiais provocados pela substância ou mistura

Perigos de Incêndios e Explosões Incomuns	Cartucho de plástico contendo reagentes que podem emitir vapores tóxicos de óxidos de carbono, óxidos de enxofre e óxidos de azoto.
Produtos de Combustão Perigosos	Sem dados disponíveis

5.3 Conselhos para bombeiros

Roupas protetoras estruturais de bombeiros fornecem APENAS proteção limitada em caso de incêndio; não são eficientes em situações de derramamentos, onde é possível o contacto direto com a substância.
Usar roupa protetora contra produtos químicos que seja especificamente recomendada pelo fabricante. Poderá fornecer proteção térmica mínima ou nenhuma proteção.
Usar aparelho de respiração autónomo de pressão positiva (SCBA).
PEQUENOS INCÊNDIOS: Se não houver perigos, mover os recipientes da área de incêndio.

Secção 6: Medidas contra Libertação Acidental

6.1 Precauções individuais, equipamento protetor e procedimentos em emergências

Precauções pessoais	No caso de um cartucho se partir, aplicam-se estas precauções de proteção individual. Usar vestuário de proteção adequado. Não andar sobre material derramado. Não tocar em recipientes danificados ou material derramado a não ser que tenha vestuário de proteção adequado. Ventilar áreas fechadas.
Procedimentos de Emergência	Não se prevê a necessidade de procedimentos de emergência se o material for usado em condições normais e de acordo com as recomendações.

6.2 Precauções ambientais

Evitar a entrada em cursos de água, esgotos, caves ou áreas confinadas.

6.3 Métodos e material para contenção e limpeza

Medidas de Contenção/Limpeza	Em caso de derrames pequenos, usar luvas e absorver o derrame com papel absorvente. Não eliminar os materiais derramados através da canalização.

6.4 Referências para outras seções

Consultar a Secção 8 - Controlo da Exposição/Proteção Individual e a Secção 13 - Considerações relativas à eliminação.

Secção 7: Manuseamento e armazenamento

7.1 Precauções para o manuse amento seguro

Manuseio Não necessita de manuseamento especial. Se o cartucho se partir, evitar o contacto com os reagentes derramados. Evitar o contacto com a pele e os olhos.

7.2 Condições para armazenamento seguro, incluindo quaisquer incompatibilidades

Armazenamento Armazenar de acordo com a documentação do produto. Manter afastado de materiais incompatíveis. Armazenar em local fechado à chave. Guardar o recipiente/embalagem bem fechado em local fresco e bem ventilado.

7.3 Utilização(ões) Final(is) Específica(s)

Consultar a Secção 1.2 - Utilizações identificadas relevantes.

Secção 8: Controlos e Exposição/Proteção Individual

8.1 Parâmetros de controlo

	Limites de Exposição/Orientações			
	Resultado	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato de guanidínio	TWA	Não estabelecidos	Não estabelecidos	Não estabelecidos

8.2 Controlos de exposição

Medidas/Controlos de Engenharia Deve usar-se uma boa ventilação geral. Os níveis de ventilação devem estar adequados às condições. Se aplicável, usar confinamento de processos, ventilação por exaustão local ou outro controlo técnico para manter os níveis de partículas disseminadas por via aérea em suspensão abaixo dos limites de exposição recomendados. Caso não tenham sido definidos limites, manter os níveis destas partículas em suspensão num nível aceitável.

Equipamento de Proteção Individual

Respiratório Não deve ser necessário equipamento respiratório se o material for utilizado nas condições normais e conforme recomendado. Caso contrário, siga as regulamentações do aparelho de respiração OSHA que se encontram na norma 29 CFR 1910.134 ou na Norma Europeia EN 149. Em caso de ultrapassagem dos limites de exposição ou da ocorrência de sintomas, usar um aparelho de respiração aprovado pelo NIOSH/MSHA ou pela Norma Europeia EN 149.

Olhos/Face Usar óculos de proteção contra salpicos de produtos químicos.

Pele/Corpo Usar vestuário de proteção

Controlos Ambientais de Exposição Seguir as melhores práticas para gestão do local e eliminação dos resíduos.

Chave para abreviaturas
OSHA = Agência para a Segurança e Saúde no Trabalho
TWA = A Média Ponderada tem por base a exposição 8 h/dia, 40 h/semana

Secção 9: Propriedades Físicas e Químicas

9.1 Informações sobre Propriedades Físicas e Químicas

Descrição do material			
Forma física	Líquido	Cor	Incolor
Odor	Inodoro	Limiar do Odor	Dados em falta
Propriedades Gerais			
Ponto de ebulição	100 °C (212 °F)	Ponto de fusão/Ponto de congelamento	0 °C (32 °F)
Temperatura de decomposição	Dados em falta	pH	3,3 a 8,8
Gravidade específica/Densidade relativa	= 1 Água =1	Solubilidade em água	100% solúvel
Viscosidade	Dados em falta	Propriedades explosivas:	Dados em falta
Propriedades Oxidantes:	Dados em falta		
Volatilidade			
Pressão do vapor	Mínima	Densidade do vapor	Dados em falta
Taxa de evaporação	Mínima		
Inflamabilidade			
Ponto de inflamação	Dados em falta	UEL	Dados em falta
LEL	Dados em falta	Autoignição	Dados em falta
Inflamabilidade (sólido/gasoso):	Dados em falta		
Ambiental			
Coeficiente de partição octanol/água	Dados em falta		

9.2 Outras Informações

Não foram observados parâmetros físico-químicos adicionais.

Secção 10: Estabilidade e Reatividade

10.1 Reatividade

Desconhecida reação perigosa em condições normais de utilização.

10.2 Estabilidade química

Estável

10.3 Possibilidade de reações perigosas

Não haverá polimerização perigosa.

10.4 Condições a evitar

Materiais incompatíveis. A queima do cartucho de plástico contendo reagentes pode libertar derivados tóxicos.

10.5 Materiais incompatíveis

Ácidos.

10.6 Produtos de decomposição perigosos

A queima do cartucho de plástico contendo reagentes pode libertar derivados tóxicos.

Secção 11: Informações Toxicológicas

11.1 Informações sobre efeitos toxicológicos

Componentes		
Tiocianato de guanidínio	593-84-0	**Toxicidade aguda:** Intraperitoneal-Ratinho LD50 • 593 mg/kg

Propriedades do GHS	Classificação
Toxicidade aguda	**UE/CLP**•Dados em falta **ONU GHS**•Toxicidade Aguda - Oral - Categoria 5 **OSHA HCS 2012**•Dados em falta

Secção 12: Informações Ecológicas

12.1 Toxicidade

LC50 (guppy): 89,1 mg/l @ 96 h

12.2 Persistência e degradabilidade

Dados dos materiais em falta.

12.3 Potencial bioacumulativo

Dados dos materiais em falta.

12.4 Mobilidade no solo

Dados dos materiais em falta.

12.5 Resultados de avaliação PBT e vPvB

Não foi feita a avaliação PB e vPvB.

12.6 Outros efeitos adversos

Não foram encontrados estudos.

Secção 13: Considerações sobre a Eliminação

13.1 Métodos de tratamento de dejetos

Produto residual	Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.
Embalagem residual	Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

13.2 Outras informações

Amostras biológicas, dispositivos de transferência e cartuchos usados devem ser considerados como tendo potencial de transmissão de agentes infeciosos que exigem precauções padrão. Siga os procedimentos relativos a resíduos ambientais da sua instituição relativamente à eliminação correta de cartuchos usados e reagentes não usados. Estes materiais podem apresentar características de resíduos químicos perigosos que exigem procedimentos de eliminação nacionais ou regionais específicos. Se as regulamentações nacionais ou regionais não disponibilizarem uma indicação clara sobre a eliminação correta, as amostras biológicas e os cartuchos usados devem ser eliminados de acordo com as diretrizes relativas ao manuseamento e à eliminação de resíduos médicos da OMS (Organização Mundial da Saúde).

Secção 14: Informações sobre Transporte

	14.1 Nome na ONU	14.2 Nome de transporte adequado (ONU)	14.3 Classe(s) de transporte de risco	14.4 Grupo de embalagem	14.5 Perigos ambientais
DOT	Não regulamentado	Não regulamentado	Não regulamentado	Não regulamentado	Não aplicável

15.2 Avaliação da Segurança Química

Não foi efetuada qualquer Avaliação da Segurança Química.

Secção 16: Outras Informações

Frases relevantes (código e texto)

H302 – Nocivo por ingestão.
H313 – Pode ser nocivo em contacto com a pele.
H320 – Provoca irritação ocular.

Renúncia/Declaração de Responsabilidade

A informação supramencionada baseia-se em dados que nos foram disponibilizados e é tida como correta. Dado que a informação pode ser aplicada em condições fora do nosso controlo e com as quais podemos não estar familiarizados, não assumimos qualquer responsabilidade pelo resultado da sua utilização, e todas as pessoas que a recebam têm de determinar individualmente os efeitos, as propriedades, as proteções e os procedimentos de eliminação que se aplicam às suas condições particulares. Não se assume qualquer representação ou garantia, implícita ou explicitamente (incluindo garantia de adequação ou comerciabilidade para uma finalidade específica) em relação aos materiais, à exatidão desta informação, aos resultados obtidos decorrentes da sua utilização ou a perigos relacionados com a utilização deste material. Deve-se ter cuidado no manuseamento e utilização deste material. A informação anterior é disponibilizada de boa-fé e é tida como exata. À data de emissão, fornecemos toda a informação relevante para um manuseamento previsível do material. No entanto, caso ocorra um incidente adverso associado a este produto, esta ficha de dados de segurança não substitui, nem se pretende que substitua, a consulta de um profissional com formação adequada.

Avsnitt 2: Farliga egenskaper

EU/EEG

Enligt: EU direktiv 1272/2008 (CLP) /REACH 1907/2006 [ändrad genom 453/2010]

2.1 Klassificering av ämnet eller blandningen

CLP

Följande säkerhetsdatablad avser endast den färdiga blandningsprodukten som den används i laboratorium. Produkten innehåller pärlor och reagens i kassetten eller i separata behållare. Undantag från att avslöja en del information om vissa komponenter gäller enligt CLP Article 1(5)(d) och 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Inte klassficerad

2.2 Märkta element

CLP

Faroangivelser Inga märkta element erfordras.

2.3 Andra faror

CLP

Enligt förordning (EG) Nr 1272/2008 (CLP) anses detta material inte vara farligt.

FN GHS (Etiketteringsinnehåll som används på produkter)

Enligt: Förenta Nationernas Globally Harmonized Standard for Classification and Labeling (GHS)

2.1 Klassificering av ämnet eller blandningen

FN GHS

Akut toxicitet - oral 5
Mild hudirritation 3
Mild ögonirritation 2B

2.2 Märkta element

FN GHS

VARNING

Riskuttalande

Farligt vid förtäring.
Kan vara skadligt vid hudkontakt.
Orsakar ögonirritation.

Skyddsangivelser

Förebyggande Tvätta Händer noggrant efter hantering.

Svar Vid hudirritation: Sök läkarhjälp.
VID KONTAKT MED ÖGONEN: Skölj försiktigt med vatten i flera minuter. Ta ur eventuella kontaktlinser om det går lätt. Fortsätt att skölja.
Vid bestående ögonirritation: Sök läkarhjälp.
Vid obehag, kontakta GIFTINFORMATIONSCENTRAL eller läkare.

2.3 Andra faror

FN GHS — Enligt Globally Harmonized Standard for Classification and Labeling (GHS) anses den här produkten vara farlig.

Förenta staterna (USA)
Enligt: OSHA 29 CFR 1910.1200 HCS

2.1 Klassificering av ämnet eller blandningen

OSHA HCS 2012 — Mild ögonirritation 2B

2.2 Märkta element

OSHA HCS 2012

Riskuttalande — Skadligt vid förtäring.
Kan vara skadligt vid hudkontakt.
Orsakar ögonirritation.

Skyddsangivelser

Förebyggande — Tvätta Händer noggrant efter hantering.

Svar — VID KONTAKT MED ÖGONEN: Skölj försiktigt med vatten i flera minuter. Ta ur eventuella kontaktlinser om det går lätt. Fortsätt att skölja.
Vid bestående ögonirritation: Sök läkarhjälp.

2.3 Andra faror

OSHA HCS 2012 — Enligt United States Regulations (29 CFR 1910.1200 – Riskkommunikationsstandard), anses produkten inte vara farlig.

Kanada
Enligt: WHMIS

2.1 Klassificering av ämnet eller blandningen

WHMIS — Inte klassficerad

2.2 Märkta element

WHMIS — Inga märkta element erfordras.

2.3 Andra faror

WHMIS — I Kanada anses produkten som nämns ovan inte vara en riskprodukt enligt Workplace Hazardous Materials Information System (WHMIS) (Material informationssystem för arbetsplatsrisker).

2.4 Övrig information

Alla andra reagenser, kulor, och andra beståndsdelar har koncentrationer som är mindre än 1 % i blandningen eller anses inte farliga enligt amerikanska regler för riskkommunikation (29 CFR 1910.1200), EU-direktiv för klassificering och märkning av ämnen eller blandningar eller Global Harmonization System för klassificering och märkning av ämnen eller blandningar.

Avsnitt 3: Sammansättning/Information om beståndsdelar

3.1 Ämnen

Materialet uppfyller inte kriteria för ett ämne.

3.2 Blandningar

Sammansättning					
Kemiskt namn	**Identifierare**	**%**	**LD50/LC50**	**Klassificeringar enligt förordning/direktiv**	**Kommentarer**
Guanidintiocyanat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 % till 20 %	593 mg/kg	**EG CLP:** Akut tox. 5, H302, H313, H320 **FN GHS:** Akut tox. 5 (orl); Hudirrit. 3; Ögonirrit. 2B **OSHA HCS 2012:** Akut tox. 5 (orl); Ögonirrit. 2B	INGA DATA TILLGÄNGLIGA

Avsnitt 4: Åtgärder vid första hjälpen

4.1 Beskrivning av åtgärder vid första hjälpen

Inandning Det finns ingen behov för första hjälpen om materialet används som avsett och rekommenderat. För personen till frisk luft. Ge syrgas vid besvärad andning. Använd inte mun mot mun metoden om den drabbade svalt ämnet, ge konstgjord andning med mask utrustad med en envägsventil eller med annan lämplig medicinsk andningsutrustning. Konstgjord andning om den drabbade inte andas.

Hud Det finns ingen behov för första hjälpen om materialet används som avsett och rekommenderat. Vid mindre hudkontakt, undvik att sprida materialet på övrig hud. Vid kontakt skölj med rikliga mängder vatten i minst 20 min. Ta bort kontaminerad klädsel.

Ögon Det finns ingen behov för första hjälpen om materialet används som avsett och rekommenderat. Vid kontakt skölj med rikliga mängder vatten i minst 20 min. Vid bestående ögonirritation: Sök läkarhjälp.

Förtäring Det finns ingen behov för första hjälpen om materialet används som avsett och rekommenderat. Vid förtäring skölj munnen med vatten (endast om personen är vid medvetande). Framkalla INTE kräkning. Använd inte mun mot mun metoden om den drabbade svalt ämnet. Sök läkarvård omedelbart vid förtäring.

4.2 De viktigaste symptomen och effekterna, både akuta och fördröjda

Se avsnitt 11-toxikologisk Information.

4.3 Indikation på omedelbar medicinsk vård och vid behov specialbehandling

Läkaranvisningar Alla behandlingar bör baseras på observerade tecken och symtom på ångest hos patienten. Hänsyn bör tas till möjligheten att överexponering för andra material än den här produkten material kan ha skett.

Avsnitt 5: Brandbekämpningsåtgärder

5.1 Släckmedel

Lämpliga släckmedel STORA BRÄNDER: Torr kemikalie, CO2, alkoholresistent skum eller vattenspray. MINDRE BRÄNDER:Torra kemikalier, CO2 eller vattenspray.

Olämpliga bekämpningsmedel Inga data tillgängliga

5.2 Särskilda faror som upp står hos ämnet eller blandningen

Ovanliga brand- eller explosionsrisker	Plastkassetter som innehåller reagenser kan avge giftiga ångor av koloxider, svaveloxider, kväveoxider.
Farliga förbränningsprodukter	Inga data tillgängliga

5.3 Råd till brandbekämpningspersonal

Skyddsklädsel för brandmän som bekämpar byggnadskonstruktioner ger bara begränsat skydd ENDAST brandsituationer; den fungerar inte vid spillsituationer där direktkontakt med materialet kan förekomma.
Använd skyddsklädsel specifikt rekommenderad av tillverkaren. Den kan ge lite eller inget termiskt skydd.
Använd alltid andningsapparat med övertryck (SCBA).
MINDRE BRÄNDER: Flytta behållare från brandområdet om det är möjligt utan risk.

Avsnitt 6: Åtgärder vid oavsiktliga utsläpp

6.1 Personliga försiktighetsåtgärder, skyddsutrustning och förfaranden i nödsituationer

Personliga försiktighetsåtgärder	I den händelse att kassetten är trasig är dessa personliga försiktighetsåtgärder tillämpliga. Använd lämplig skyddsklädsel. Gå inte genom spillt material. Rör inte skadade behållare eller spillt material utan lämplig skyddklädsel. Ventilera stängda utrymmen.
Förfaranden i nödsituationer	Inga nödsituationer förväntas om materialet används under vanliga omständigheter och enligt rekommendationer.

6.2 Miljömässiga säkerhetsåtgärder

Förhindra spridning till vattenvägar, avlopp, källare eller slutna utrymmen.

6.3 Metoder och material för inneslutning och sanering

Inneslutning/ saneringsåtgärder	För mindre spill, använd handskar och absorbera spill med pappershandduk. Avyttra inte spillt material i avlopp.

6.4 Referenser till andra avsnitt

Se avsnitt 8 - exponeringskontroll/personligt skydd och avsnitt 13 - avfallshantering.

Avsnitt 7: Hantering och lagring

7.1 Försiktighetsåtgärder för säker hantering

Hantering	Ingen särskild hantering är nödvändig. Undvik kontakt med utspilld reagenser om en kassett är trasig. Undvik kontakt med hud och ögon.

7.2 Förhållanden för säker lagring, inklusive eventuell oförenlighet

Förvaring	Förvara enligt produktmärkning. Håll borta från inkompatibla material. Förvaras inlåst. Förvara behållare/förpackning väl tillsluten svalt och med ordentlig ventilation.

7.3 Specifik slutanvändning

Se avsnitt 1.2 - identifierade relevanta frågor.

Avsnitt 8: Begränsning av exponeringen/personligt skydd

8.1 Kontrollparametrar

	Gränsvärden/riktlinjer för exponering			
	Resultat	**ACGIH**	**NIOSH**	**OSHA**
Guanidintiocyanat	TWA	Ej fastställt	Ej fastställt	Ej fastställt

8.2 Begränsning av exponeringen

Tekniska åtgärder/kontroller Ordentlig ventilation skall ombesörjas. Ventilationaltionshastigheten skall överensstämma med situationen. Om tillämpligt använd processinneslutning, punktutsug eller annan lösning som håller luftburna nivåer under rekommenderade exponeringsgränser. OM exponeringsgränsen inte fastställts, håll luftburna nivåer på en acceptabel nivå

Personlig skyddsutrustning

Respiratoriska Det förväntas inget behov av andningsutrustning om materialet används under normala omständigheter och enligt det som är rekommenderat. Om det ändå används ska OSHA-reglerna för andningsutrustning följas i enlighet med 29 CFR 1910.134 eller European Standard EN 149. Använd NIOSH/MSHA eller European Standard EN 149 godkänd andningsutrustning om exponeringsgränserna överskrids eller symptom förekommer.

Ögon/ansikte Använd stänkskyddsglasögon för kemikalier.

Hud/kropp Använd skyddskläsel

Begränsning av miljöexponeringen Följ praxis för hantering och avfallshantering.

Nyckeln till förkortningar
OSHA = Occupational Safety and Health Administration (Arbetsmiljöverket)
TWA = Genomsnittligt värde per tidsenhet är baserat på en exponering på 8h/dag, 40 h/ vecka

Avsnitt 9: Fysikaliska och kemiska egenskaper

9.1 Information om fysikaliska och kemiska egenskaper

Materialbeskrivning			
Fysisk form	Vätska	Färg	Färglös
Lukt	Luktlös	Lukttröskel	Data saknas
Allmänna egenskaper			
Kokpunkt	100 °C (212 °F)	Smältpunkt/fryspunkt	0 °C (32 °F)
Sönderdelningstemperatur	Data saknas	pH	3,3 till 8,8
Specifik vikt/relativ densitet	= 1 vatten=1	Löslighet i vatten	Löslig 100 %
Viskositet	Data saknas	Explosiva egenskaper	Data saknas
Oxiderande egenskaper:	Data saknas

Brandfarlighet (fast, gas)	Data saknas		
Miljö			
Fördelningskoefficient oktanol/vatten	Data saknas		

9.2 Övriga Upplysningar

Inga ytterligare fysikaliska och kemiska egenskaper noterade.

Avsnitt 10: Stabilitet och reaktivitet

10.1 Reaktivitet

Inga farliga reaktioner kända under normala användningsvillkor.

10.2 Kemisk stabilitet

Stabil

10.3 Risken för farliga reaktioner

Farlig polymerisation uppstår inte.

10.4 Förhållanden som ska undvikas

Oförenliga material. Brinnande plastkassetter som innehåller reagens kan frigöra toxiska biprodukter.

10.5 Oförenliga material

Syror.

10.6 Farliga sönderdelningsprodukter

Brinnande plastkassetter som innehåller reagens kan frigöra toxiska biprodukter.

Avsnitt 11: Toxikologisk information

11.1 Information om toxikologiska effekter

Komponenter		
Guanidintiocyanat	593-84-0	**Akut toxicitet:** Intraperitoneal–mus LD50 • 593 mg/kg

Förtäring
Akut (omedelbart) Kan vara farligt vid förtäring.
Kronisk (försenad) Inga data tillgängliga

Nyckeln till förkortningar
LD = Dödlig dos

Avsnitt 12: Ekologisk information

12.1 Toxicitet

LC50 (guppy): 89,1 mg/l vid 96 h

12.2 Motståndskraft och nedbrytbarhet

Materialdata saknas.

12.3 Bioackumuleringsförmåga

Materialdata saknas.

12.4 Rörligheten i jord

Materialdata saknas.

12.5 Resultat av PBT- och vPvB-bedömningen

Ingen PBT och vPvB bedömning har gjorts.

12.6 Andra skadliga effekter

Inga studier har hittats.

Avsnitt 13: Avfallshantering

13.1 Metoder för behandling av avfall

Produktavfall Avyttra innehållet och /eller behållaren i enlighet med lokala, regionala, nationella och/ eller internationella förordningar.

Förpackningsavfall Avyttra innehållet och /eller behållaren i enlighet med lokala, regionala, nationella och/ eller internationella förordningar.

13.2 Övrig information

Biologiska prover, överföringsanordningar och använda kassetter bör anses kunna överföra smittämnen som kräver standardåtgärder. Följ din institutions rutiner för korrekt bortskaffande av använda kassetter och oanvända reagens. Dessa material kan uppvisa egenskaper som kemiskt farligt avfall som kräver specifika nationella eller regionala bortskaffningsförfaranden. Om nationella eller regionala föreskrifter inte ger tydliga riktlinjer för korrekt bortskaffande ska biologiska prover och använda kassetter kasseras enligt WHO:s (Världshälsoorganisationens) föreskrifter om hantering och bortskaffande av avfall.

Avsnitt 14: Transportinformation

	14.1 UN-nummer	14.2 UN lämpligt transportnamn	14.3 Transport riskklasser	14.4 Förpackningsgrupp	14.5 Miljöfaror

1.4 Телефон для экстренной связи

Производитель 1 (800) 535-5053 - INFOTRAC - круглосуточный телефон экстренного вызова

Производитель 1 (352) 323-3500 - За пределами США

Раздел 2. Идентификация опасности

ЕС/ЕЭС

Согласно: Регламент ЕК (ЕС) № 1272/2008 (CLP)/REACH 1907/2006 [с поправками, внесенными директивой 453/2010]

2.1 Классификация вещества или смести

Регламент CLP

Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Продукт содержит гранулы и реактивы в картридже или в отдельных контейнерах. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) регламента CLP и разделом 29 Свода федеральных правил (США), ст. 1910.1200(g)(2)(i)(C)(1) и (2).
Не классифицируется

2.2 Элементы маркировки

Регламент CLP

Указания на опасность

Маркировка не требуется.

2.3 Другие факторы опасности

Регламент CLP

Согласно Регламенту ЕК № 1272/2008 (CLP) этот материал не считается опасным.

СГС ООН (Содержание маркировки, указываемой на продукции)

Согласно: Согласованная на глобальном уровне система классификации опасности и маркировки химической продукции (СГС) ООН.

2.1 Классификация вещества или смести

СГС ООН

Острая токсичность, перорально, 5
Слабое раздражение кожи, 3
Слабое раздражение глаз, 2B

2.2 Элементы маркировки

СГС ООН

ВНИМАНИЕ!

Указания на опасность

Может быть вредно при проглатывании.
Может причинить вред при попадании на кожу.
Вызывает раздражение глаз.

Меры предосторожности

Профилактика

После использования тщательно вымыть руки.

Реагирование

При раздражении кожи: Обратиться за медицинской консультацией/помощью.
ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание.
При раздражении глаз: Обратиться за медицинской консультацией/помощью.
При плохом самочувствии обратиться в ТОКСИКОЛОГИЧЕСКИЙ ЦЕНТР или к врачу-специалисту/терапевту.

2.3 Другие факторы опасности

СГС ООН В соответствии с Согласованной на глобальном уровне системой классификации опасности и маркировки химической продукции (СГС) данный продукт считается опасным.

США
Согласно: OSHA 29 CFR 1910.1200 HCS

2.1 Классификация вещества или смести

OSHA HCS 2012 Слабое раздражение глаз, 2B

2.2 Элементы маркировки

OSHA HCS 2012

Указания на опасность Вредно при проглатывании.
Может причинить вред при попадании на кожу.
Вызывает раздражение глаз.

Меры предосторожности

Профилактика После использования тщательно вымыть руки.

Реагирование ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание.
При раздражении глаз: Обратиться за медицинской консультацией/помощью.

2.3 Другие факторы опасности

OSHA HCS 2012 Согласно государственным нормам США (документ 29 CFR 1910.1200 – Стандарт-требование об оповещении об опасности) этот продукт не считается опасным.

Канада
Согласно: WHMIS

2.1 Классификация вещества или смести

WHMIS Не классифицируется

2.2 Элементы маркировки

WHMIS Маркировка не требуется.

2.3 Другие факторы опасности

WHMIS В Канаде указанное выше вещество согласно требованиям Информационной системы по опасным материалам на рабочих местах (WHMIS) не считается опасным.

2.4 Дополнительная информация

Все остальные реактивы, гранулы и прочие составляющие представлены в смеси в концентрациях менее 1% или не считаются опасными согласно Стандартам-требованиям США об оповещении об опасности (29 CFR 1910.1200), директивам ЕС в отношении классификации и маркировки веществ и смесей и Согласованной на глобальном уровне системе классификации опасности и маркировки химической продукции (СГС).

Раздел 3. Состав/информация о компонентах

3.1 Вещества

Материал не отвечает критериям классификации, применяемым к веществам.

3.2 Смеси

Состав					
Химическое наименование	**Идентификаторы**	**%**	**LD50/LC50**	**Классификация в соответствии с нормами/ постановлениями**	**Комментарии**
Гуанидина тиоцианат	**CAS:** 593-84-0 **EINECS:** 209-812-1	10–20%	593 мг/кг	**EU CLP:** острая токсичность 5, H302, H313, H320 **СГС ООН:** острая токсичность 5 (перорально); раздражение кожи 3; раздражение глаз 2B **OSHA HCS 2012:** острая токсичность 5 (перорально); раздражение глаз 2B	Нет данных

Раздел 4. Первая медицинская помощь

4.1 Описание мер первой медицинской помощи

Вдыхание Первая помощь, вероятно, не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. Вынести пострадавшего на свежий воздух. При затрудненном дыхании дать кислород. Не применять искусственное дыхание рот-в-рот при вдыхании вещества. Делать искусственное дыхание с помощью маски с клапаном или другого медицинского устройства. При остановке дыхания сделать искусственное дыхание.

Кожа Первая помощь, вероятно, не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При незначительном контакте с кожей избегайте распространения материала на незатронутые участки. В случае контакта вещества с кожей незамедлительно промыть пораженный участок проточной водой в течение не менее чем 20 минут. Снять и изолировать загрязненную одежду.

Глаза Первая помощь, вероятно, не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. В случае контакта вещества с кожей незамедлительно промыть глаза проточной водой в течение не менее чем 20 минут. При раздражении глаз: Обратиться за медицинской консультацией/помощью.

Проглатывание Первая помощь, вероятно, не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При проглатывании прополоскать рот водой (только если человек находится в сознании). НЕ вызывать рвоту. Не применять искусственное дыхание рот-в-рот при проглатывании вещества. При попадании материала внутрь сразу же обратиться к врачу.

4.2 Наиболее важные остро выраженные и проявляющиеся с задержкой симптомы и последствия

См. раздел 11, «Токсикологическая информация».

4.3 Признаки необходимости неотложной медицинской помощи и специального ухода

Примечания для врача	Лечение основывать на наблюдаемых симптомах. Учитывать возможность одновременного воздействия на пациента и других веществ.

Раздел 5. Меры противопожарной безопасности

5.1 Средства пожаротушения

Подходящие средства пожаротушения	КРУПНЫЕ ПОЖАРЫ. Порошок, углекислый газ (CO2), спиртоустойчивые пенообразователи, разбрызгивание воды. НЕБОЛЬШОЙ ПОЖАР. Сухой химический огнетушитель, углекислый газ (CO2), разбрызгивание воды.
Непригодные средства пожаротушения	Данные отсутствуют

5.2 Особые аспекты опасности вещества или смести

Особая огне- и взрывоопасность	Пластмассовый картридж содержит реактивы, способные выделять токсичные испарения: оксиды углерода, оксиды серы, оксиды азота.
Опасные продукты горения	Данные отсутствуют

5.3 Рекомендации по пожаротушению

Защитная одежда пожарных для тушения пожаров в зданиях обеспечивает ограниченную защиту ТОЛЬКО в условиях пожара; она не является эффективным средством защиты при разливах с возможным непосредственным контактом с веществами.
Носить химическую защитную одежду, рекомендованную производителем. Она малоэффективна или неэффективна в качестве тепловой защиты.
Использовать автономные дыхательные аппараты.
НЕБОЛЬШОЙ ПОЖАР. Уберите контейнеры из зоны пожара, если можете сделать это без риска.

Раздел 6. Меры при выбросе

6.1 Меры по обеспечению личной безопасности, средства защиты и действия в чрезвычайной ситуации

Меры по обеспечению личной безопасности	В случае разбития картриджа актуальны указанные меры по обеспечению личной безопасности. Используйте соответствующую защитную одежду. Не ходите по разлитому/просыпанному материалу. Не прикасайтесь к поврежденным контейнерам или разлитым материалам, если нет соответствующей защитной одежды. Проветривайте закрытые помещения.
Действия в чрезвычайных ситуациях	Вероятно, экстренные меры не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций.

6.2 Охрана окружающей среды

Не допускать попадания в водоемы, канализацию, подвалы и замкнутые пространства.

6.3 Методы и средства локализации и очистки

Меры по локализации и очистке	При небольших разливах используйте перчатки. Для сбора вещества используйте бумажные полотенца. Не сливать пролитые вещества в канализацию.

6.4 Ссылки на другие разделы

См. раздел 8, «Меры контроля воздействия и средства индивидуальной защиты», и раздел 13, «Условия утилизации».

Раздел 7. Правила обращения и хранения

7.1 Инструкция по безопасному обращению с продуктом

Обращение Особое обращение не требуется. В случае разбития картриджа избегайте контакта с разлившимся реактивом. Избегать контакта с кожей и глазами.

7.2 Условия безопасного хранения и учет факторов несовместимости

Место хранения Хранить согласно указаниям на упаковке. Хранить вдали от несовместимых материалов. Хранить под замком. Хранить контейнер/упаковку плотно закрытыми в прохладном, хорошо проветриваемом месте.

7.3 Особые способы применения

См. раздел 1.2, «Выявленные и способы применения».

Раздел 8. Меры контроля воздействия и индивидуальные средства защиты

8.1 Контрольные параметры

	Предельно допустимые концентрации/рекомендации			
	Результат	**ACGIH**	**NIOSH**	**OSHA**
Гуанидинтиоцианат	TWA	Не установлено	Не установлено	Не установлено

8.2 Меры и средства контроля воздействия

Инженерно-технические мероприятия/средства контроля Желательно обеспечить хорошую вентиляцию. Интенсивность вентиляции должна соответствовать условиям хранения/использования. Если возможно, используйте ограниченные рабочие помещения, местную вытяжную вентиляцию и прочие средства для сдерживания концентрации вещества в воздухе на уровне ниже ПДК. Если ПДК не установлены поддерживайте приемлемые концентрации вещества в воздухе.

Индивидуальные средства защиты

Защита органов дыхания Ожидается, что средства защиты органов дыхания не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций. В противном случае соблюдайте рекомендации по использованию респираторов Управления охраны труда (OSHA) США, изложенные в документе 29 CFR 1910.134, или Европейского стандарта EN 149. При превышении ПДК или обнаружении признаков поражения используйте респираторы, одобренные Национальным институтом по безопасности и гигиене труда (США), Управлением по безопасности и охране труда в добывающей промышленности (США) или Европейским стандартом EN 149.

Защита глаз/лица Носите очки химической защиты.

Защита кожных покровов/тела Используйте защитную одежду.

Защита окружающей среды Соблюдайте общие правила работы на объекте и удаления отходов.

Сокращения
OSHA = Управление охраны труда, США (Occupational Safety and Health Administration).
TWA = Средневзвешенная во времени концентрация, вычисляемая на основании воздействия в течение 8 часов в день, 40 часов в неделю.

Раздел 9. Физические и химические свойства

9.1 Информация о физических и химических свойствах

Описание материала			
Физическая форма	Жидкость	Цвет	Бесцветное
Запах	Без запаха	Порог ощущения запаха	Данные отсутствуют
Общие свойства			
Точка кипения	100 °C (212 °F)	Температура плавления/замерзания	0 °C (32 °F)
Температура разложения	Данные отсутствуют	pH	от 3,3 до 8,8
Удельный вес/относительная плотность	= 1 вода=1	Растворимость в воде	Растворимо 100%
Вязкость	Данные отсутствуют	Взрывчатые свойства	Данные отсутствуют
Окислительные свойства:	Данные отсутствуют		
Летучесть			
Давление паров	Мин.	Плотность паров	Данные отсутствуют
Интенсивность испарения	Мин.		
Воспламеняемость			
Температура вспышки	Данные отсутствуют	ВКПВ (верхний предел взрывоопасности)	Данные отсутствуют
НПВ (нижний предел взрывоопасности)	Данные отсутствуют	Самовоспламенение	Данные отсутствуют
Воспламеняемость (в твердом, газообразном состоянии)	Данные отсутствуют		
Экологическая			
Коэффициент разделения октанол/вода	Данные отсутствуют		

9.2 Дополнительная информация

Дополнительные физические и химические свойства не обнаружены.

Раздел 10. Стабильность и химическая активность

10.1 Реакционная способность

В нормальных условиях использования опасные реакции неизвестны.

10.2 Химическая стабильность

Стабильно

10.3 Вероятность опасных реакций

Опасная полимеризация не происходит.

10.4 Недопустимые условия

Несовместимые материалы. При сжигании пластмассового картриджа, содержащего реактивы, могут высвобождаться токсические вещества.

10.5 Несовместимые материалы

Кислоты.

10.6 Опасные продукты разложения

При сжигании пластмассового картриджа, содержащего реактивы, могут высвобождаться токсические вещества.

Раздел 11. Токсикологическая информация

11.1 Информации о токсикологических последствиях

Компоненты		
Гуанидинтиоцианат	593-84-0	**Острая токсичность:** внутрибрюшинный-мышь LD50 • 593 мг/кг

Свойства (СГС)	Классификация
Токсичность при кратковременном воздействии	**EU/CLP**•Данные отсутствуют **СГС ООН**•Токсичность при кратковременном воздействии – орально - Категория 5 **OSHA HCS 2012**•Данные отсутствуют

Возможные последствия для здоровья

Вдыхание
Остро выраженные последствия Может вызвать раздражение.
Хронические последствия Данные отсутствуют
Кожа
Остро выраженные последствия Вызывает легкое раздражение кожи.
Хронические последствия Данные отсутствуют
Глаза
Остро выраженные последствия Вызывает раздражение глаз.
Хронические последствия Данные отсутствуют
Проглатывание
Остро выраженные последствия Может быть вредно при проглатывании.
Хронические последствия Данные отсутствуют

Сокращения
LD = Летальная доза

Раздел 12. Экологическая информация

12.1 Токсичность

LC50 (гуппи): 89,1 мг/л за 96 ч

12.2 Устойчивость и склонность к разложению

Данные о материале отсутствуют.

12.3 Способность к биоаккумуляции

Данные о материале отсутствуют.

12.4 Подвижность в почве

Данные о материале отсутствуют.

12.5 Классификация как «устойчивое биоаккумулятивное токсическое вещество» и «очень устойчивое биоаккумулятивное вещество»

Оценка соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества» не производилась.

12.6 Другие неблагоприятные последствия

Исследования не проводились.

Раздел 13. Условия утилизации

13.1 Методы переработки отходов

Отходы продукта	Утилизация тары и/или содержимого должна осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.
Отходы упаковки	Утилизация тары и/или содержимого должна осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

13.2 Дополнительная информация

Биологические образцы, устройства для переноса и использованные картриджи следует считать возможными переносчиками возбудителей инфекционных заболеваний, и они требуют соблюдения стандартных мер предосторожности. Для правильного удаления в отходы использованных картриджей и неиспользованных реактивов следуйте принятым в вашем учреждении правилам защиты окружающей среды. Эти материалы могут иметь свойства химически опасных отходов и требовать выполнения особых национальных или региональных процедур удаления в отходы. Если принятые в стране или регионе правила не дают ясных указаний по правильному удалению в отходы, биологические образцы и использованные картриджи следует удалять в отходы с соблюдением правил ВОЗ (Всемирной организации здравоохранения) относительно обращения с медицинскими отходами и их удаления.

Виробник 1 (703) 741-5500 - За межами США

Розділ 2: Визначення небезпеки

ЄС/ЄЄС

Відповідно до: Регламенту (ЄС) № 1272/2008 (CLP)/REACH 1907/2006 [з поправками, внесеними постановою 453/2010]

2.1 Класифікація речовини або суміші

Регламент CLP

Цей паспорт з безпеки продукту дійсний лише для готової суміші, яка використовується в лабораторних умовах. У складі продукту містяться гранули та реактиви в картриджі або в окремих контейнерах. Винятки щодо розкриття інформації щодо деяких компонентів відповідають вимогам Статті 1(5)(d) Регламенту CLP і розділу 29 Кодексу Федеральних правил (CFR) США 1910.1200(g)(2)(i)(C)(1)та(2).
Не класифікується

2.2 Елементи маркування

Регламент CLP

Повідомлення про небезпеку

Наявність елементів етикетки не обов'язкова.

2.3 Інші фактори небезпеки

Регламент CLP

Згідно з Постановою (ЄС) № 1272/2008 (CLP), цей матеріал не вважається небезпечним.

ГУС ООН (зміст етикеток, наявних на продукції)

Відповідно до: Глобально узгодженої в рамках ООН системи класифікації небезпеки і маркування хімічної продукції (ГУС)

2.1 Класифікація речовини або суміші

ГУС ООН

Гостра токсичність, перорально 5
Незначне подразнення шкіри 3
Незначне подразнення очей 2B

2.2 Елементи маркування

ГУС ООН

ЗАСТЕРЕЖЕННЯ

Повідомлення про небезпеку

шкідливий при ковтанні
Може завдати шкоди в разі контакту зі шкірою
Викликає подразнення очей

Вказівки щодо безпеки

Профілактика

Після роботи потрібно ретельно вимити руки.

Заходи реагування

У разі подразнення шкіри: Звернутися за медичною консультацією або по допомогу.
У РАЗІ ПОТРАПЛЯННЯ В ОЧІ: Обережно промийте водою протягом кількох хвилин. Зняти контактні лінзи, якщо вони є та якщо це легко зробити. Продовжити промивання.
Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.
У разі поганого самопочуття звернутися в ТОКСИКОЛОГІЧНИЙ ЦЕНТР або до лікаря-фахівця чи терапевта.

2.3 Інші фактори небезпеки

ГУС ООН Відповідно до Глобально узгодженої системи класифікації небезпеки і маркування хімічної продукції (ГУС), даний продукт вважається небезпечним.

Сполучені Штати (США)
Відповідно до: OSHA 29 CFR 1910.1200 HCS

2.1 Класифікація речовини або суміші

OSHA HCS 2012 Незначне подразнення очей 2B

2.2 Елементи маркування

OSHA HCS 2012

Повідомлення про небезпеку
Шкідливо в разі ковтання
Може завдати шкоди в разі контакту зі шкірою
Викликає подразнення очей

Вказівки щодо безпеки

Профілактика Після роботи потрібно ретельно вимити руки.

Заходи реагування У РАЗІ ПОТРАПЛЯННЯ В ОЧІ: Обережно промийте водою протягом кількох хвилин. Зняти контактні лінзи, якщо вони є та якщо це легко зробити. Продовжити промивання.
Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.

2.3 Інші фактори небезпеки

OSHA HCS 2012 Відповідно до державних норм США (29 CFR 1910.1200 - Стандарт інформування про небезпечні речовини), цей продукт не вважається небезпечним.

Канада
Відповідно до: WHMIS

2.1 Класифікація речовини або суміші

WHMIS Не класифікується

2.2 Елементи маркування

WHMIS Наявність елементів етикетки не обов'язкова.

2.3 Інші фактори небезпеки

WHMIS У Канаді згаданий вище продукт не вважається небезпечним згідно з Інформаційною системою небезпечних матеріалів на робочому місці (WHMIS).

2.4 Додаткова інформація

Всі інші реактиви, гранули та інші складові представлені в суміші в концентраціях менше 1 % або не вважаються небезпечними згідно зі Стандартами США щодо сповіщення про небезпеку (29 CFR 1910.1200), директивами ЄС щодо класифікації та маркування речовин і сумішей і Глобальної узгодженої системи класифікації небезпеки та маркування речовин або сумішей.

Розділ 3: Склад/Інформація про компоненти

3.1 Речовини

Матеріал не відповідає критеріям речовини.

3.2 Суміші

Склад					
Хімічне найменування	**Ідентифікатори**	**%**	**LD50/LC50**	**Класифікація відповідно до Норм/Директиви**	**Коментарі**
Гуанідинтіоціанат	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 %-20 %	593 мг/кг	**ЄС CLP:** Гостра токсичність 5, H302, H313, H320 **ГУС ООН:** Гостра токсичність 5 (перорально); Подразнення шкіри 3; Подразнення очей 2B **OSHA HCS 2012:** Гостра токсичність 5 (перорально); Подразнення очей 2B	NDA

Розділ 4: Заходи першої медичної допомоги

4.1 Опис заходів першої медичної допомоги

Вдихання

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. Винести потерпілого на свіже повітря. При утрудненому диханні дати кисень. При вдиханні речовини не застосовувати штучне дихання рот-в-рот. Виконати штучне дихання за допомогою кишенькової маски з клапаном односторонньої дії або іншого відповідного медичного пристрою. При зупинці дихання забезпечити штучне дихання.

Шкіра

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. При незначному контакті зі шкірою уникайте поширення матеріалу на непошкоджені ділянки. У разі контакту речовини зі шкірою негайно промити уражену ділянку проточною водою протягом не менше ніж 20 хвилин. Зняти та ізолювати забруднений одяг.

Очі

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. У разі потрапляння речовини негайно промити очі проточною водою протягом не менше ніж 20 хвилин. Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.

Ковтання

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. При ковтанні прополоскати рот водою (тільки якщо людина знаходиться в свідомості). НЕ викликати блювоту. Не застосовувати штучне дихання рот-в-рот при ковтанні речовини. При ковтанні матеріалу негайно звернутися до лікаря.

4.2 Найважливіші симптоми та наслідки, гострі та ті, що проявляються з затримкою

Див. Розділ 11 - Токсикологічна інформація.

4.3 Признаки необхідної невідкладної медичної допомоги та спеціального лікування

Примітки для лікаря

Всі методи лікування повинні грунтуватися на ознаках та симптомах тривоги, що спостерігаються у пацієнта. Слід враховувати можливість одночасного надмірного впливу на пацієнта й інших речовин, окрім даного продукту.

Розділ 5: Заходи протипожежної безпеки

5.1 Засоби гасіння пожежі

Придатні засоби гасіння пожежі	ВЕЛИКІ ПОЖЕЖІ: Сухий хімічний вогнегасний засіб, вуглекислий газ (CO2), спиртостійкі піноутворювачі або водяний спрей. НЕВЕЛИКІ ПОЖЕЖІ: Сухий хімічний вогнегасний засіб, вуглекислий газ (CO2) або водяний спрей.
Непридатні засоби гасіння пожежі	Дані відсутні

5.2 Особливі аспекти небезпеки, що виникають від речовини або суміші

Незвичайна вогненебезпека та вибухонебезпека	Пластмасовий картридж містить реактиви, здатні виділяти токсичні випари: оксиди вуглецю, оксиди сірки, оксиди азоту.
Небезпечні продукти горіння	Дані відсутні

5.3 Поради для пожежників

Захисний одяг пожежників для гасіння пожеж в будівлях забезпечує обмежений захист ТІЛЬКИ в умовах пожежі; він не є ефективним засобом захисту при розливах з можливим безпосереднім контактом з речовинами.
Носити одяг для хімічного захисту, спеціально рекомендований виробником. Він може бути малоефективний або неефективний в якості теплового захисту.
Використовувати автономні дихальні апарати, що працюють в режимі позитивного тиску (SCBA).
НЕВЕЛИКІ ПОЖЕЖІ: Заберіть контейнери із зони пожежі, якщо можете зробити це без ризику.

Розділ 6: Заходи щодо наслідків випадкового викиду матеріалу

6.1 Заходи щодо забезпечення особистої безпеки, засоби захисту та дії при надзвичайній ситуації

Заходи щодо забезпечення особистої безпеки	У разі розбиття картриджа актуальні зазначені заходи щодо забезпечення особистої безпеки. Використовуйте відповідний захисний одяг. Не ходіть по розлитому матеріалу. Не торкайтеся пошкоджених контейнерів або розлитого матеріалу, якщо немає відповідного захисного одягу. Провітріть закриті приміщення.
Дії при надзвичайній ситуації	Очікується, що заходи при надзвичайних ситуаціях не будуть потрібні, якщо матеріал використовується в звичайних умовах і з дотриманням рекомендацій.

6.2 Заходи щодо забезпечення безпеки навколишнього середовища

Не допускати викидання у водостоки, каналізацію, підвали і замкнутий простір.

6.3 Методи і засоби локалізації і очищення

Засоби локалізації і очищення	При невеликих розливах використовуйте рукавички. Для збору речовини використовуйте паперові рушники. Не зливати пролиті речовини в каналізацію.

6.4 Посилання на інші розділи

Див. Розділ 8 - Заходи контролю впливу та засоби індивідуального захисту, і розділ 13 - Умови утилізації.

Розділ 7: Правила поводження та зберігання

7.1 Запобіжні заходи при поводженні з продуктом

Поводження Не потребує особливого поводження. У разі розбиття картриджа уникайте контакту з розлитими реактивами. Уникати контакту зі шкірою та очима.

7.2 Умови безпечного зберігання, враховуючи всі фактори несумісності

Зберігання Зберігати відповідно до вказівок на упаковці. Тримати подалі від несумісних матеріалів. Зберігати під замком. Зберігати в щільно закритому контейнері/упаковці в прохолодному, добре провітрюваному місці.

7.3 Особливі способи застосування

Див. Розділ 1.2 - Рекомендовані способи застосування.

Розділ 8: Заходи контролю впливу та засоби індивідуального захисту

8.1 Параметри контролю

	Гранично допустимі концентрації/рекомендації			
	Результат	**ACGIH**	**NIOSH**	**OSHA**
Гуанідинтіоціанат	TWA	Не визначався	Не визначався	Не визначався

8.2 Заходи контролю впливу

Інженерно-технічні заходи/засоби контролю Необхідно забезпечити добру загальну вентиляцію. Інтенсивність вентиляції повинна відповідати умовам. Якщо можливо, використовуйте ізольований робочий простір, місцеву витяжну вентиляцію та інші інженерно-технічні засоби для підтримання концентрації речовини в повітрі на рівні нижче максимально допустимої концентрації. Якщо рівень максимально допустимої концентрації не встановлено, підтримуйте прийнятні концентрації речовини в повітрі.

Індивідуальні засоби захисту

Захист органів дихання Очікується, що засоби захисту органів дихання не будуть потрібні, якщо матеріал використовується в звичайних умовах і з дотриманням рекомендацій. В іншому випадку дотримуйтесь рекомендацій по використанню респіраторів Управління охорони праці (OSHA) США, викладених в документі 29 CPP 1910.134, або Європейського стандарту EN 149. При перевищенні максимально допустимої концентрації або виявленні ознак ураження використовуйте респіратори, схвалені Національним інститутом з безпеки та гігієни праці (NIOSH) США, Управлінням з безпеки і охорони праці у видобувній промисловості (MSHA) США або Європейським стандартом EN 149.

Захист очей/обличчя Одягайте окуляри хімічного захисту.

Захист шкіри/тіла Одягайте захисний одяг

Захист навколишнього середовища Дотримуйтесь загальних рекомендацій роботи на об'єкті та утилізації відходів.

Скорочення
OSHA = Управління охорони праці, США
TWA = Середньозважена в часі концентрація, що обчислюється на основі впливу протягом 8 годин в день, 40 годин на тиждень.

Розділ 9: Фізичні та хімічні властивості

9.1 Інформація про фізичні та хімічні властивості

Опис матеріалу			
Фізична форма	Рідина	Колір	Безбарвний
Запах	Без запаху	Поріг відчуття запаху	Дані відсутні
Загальні властивості			
Точка кипіння	100 °C (212 °F)	Температура плавлення/замерзання	0 °C (32 °F)
Температура розпаду	Дані відсутні	pH	3,3–8,8
Питома вага/відносна щільність	= 1 вода =1	Розчинність у воді	100 % розчинність
В'язкість	Дані відсутні	Вибухові властивості	Дані відсутні
Окислювальні властивості:	Дані відсутні		
Волатильність			
Тиск парів	Мінімальний	Щільність парів	Дані відсутні
Швидкість випаровування	Мінімальний		
Вогненебезпечність			
Температура займання	Дані відсутні	ВМВ (Верхня межа вибуховості)	Дані відсутні
НМВ (Нижня межа вибуховості)	Дані відсутні	Самозаймання	Дані відсутні
Вогненебезпечність (в твердому, газоподібному стані)	Дані відсутні		
В навколишньому середовищі			
Коефіцієнт розподілення октанол/вода	Дані відсутні		

9.2 Додаткова інформація

Додаткові фізичні та хімічні властивості не виявлені.

Розділ 10: Стабільність і реакційна здатність

10.1 Реакційна здатність

В нормальних умовах використання небезпечні реакції невідомі.

10.2 Хімічна стабільність

Стабільно

10.3 Імовірність небезпечних реакцій

Небезпечна полімеризація не відбувається.

10.4 Умови, яких слід уникати

Несумісні матеріали. При спалюванні пластмасового картриджа, що містить реактиви, можуть вивільнятися токсичні побічні речовини

10.5 Несумісні матеріали

Кислоти.

10.6 Небезпечні продукти розкладання

При спалюванні пластмасового картриджа, що містить реактиви, можуть вивільнятися токсичні побічні речовини.

Розділ 11: Токсикологічна інформація

11.1 Інформація про токсикологічні наслідки

Компонент		
Гуанідинтіоціанат	593-84-0	**Гостра токсичність:** Внутрішньоочеревно-миші LD50 • 593 мг/кг

Властивості (ГУС)	Класифікація

Скорочення
LD = летальна доза

Розділ 12: Інформація про вплив на навколишнє середовище

12.1 Токсичність

LC50 (лабораторні рибки): 89,1 мг/л @ 96 год.

12.2 Стійкість і здатність до розкладання

Дані про матеріал відсутні.

12.3 Здатність до біоакумуляції

Дані про матеріал відсутні.

12.4 Рухливість в грунті

Дані про матеріал відсутні.

12.5 Результати оцінки відповідності ознакам «сталої біоакумулятивної токсичної речовини» і «дуже стійкої біоакумулятивної речовини»

Оцінка відповідності ознакам «сталої біоакумулятивної токсичної речовини» і «дуже стійкої біоакумулятивної речовини» не проводилася.

12.6 Інші небажані наслідки

Дослідження не проводились.

Розділ 13: Умови утилізації

13.1 Методи утилізації відходів

Відходи продукту Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

Відходи упаковки Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

13.2 Додаткова інформація

Біологічні зразки, пристрої для переносу та використані картриджі слід вважати можливими переносниками збудників інфекційних захворювань, які вимагають дотримання стандартних запобіжних заходів. Для правильної утилізації використаних картриджів і невикористаних реактивів дотримуйтеся прийнятих у вашому закладі правил захисту довкілля. Ці матеріали можуть мати властивості хімічно небезпечних відходів і вимагати виконання особливих державних або регіональних процедур для їх утилізації. Якщо прийняті в країні або регіоні правила не дають ясних указівок щодо правильної утилізації цих відходів, біологічні зразки та використані картриджі слід утилізувати з дотриманням правил ВООЗ (Всесвітньої організації охорони здоров'я) щодо поводження з медичними відходами та їх утилізації.

制造商 1 (352) 323-3500 - 美国境外

第 2 章：危险标识

EU/EEC

根据: 第 1272/2008 号规章（欧共体）(CLP)/REACH 1907/2006 [修订版 453/2010]

2.1 物质或混合物的分类

CLP

以下安全数据表是针对最终制成混合品，仅如实验室中所使用。产品含有微珠和试剂，装于盒中或盒外的容器中。对于披露某些组件信息的豁免是根据 CLP 第 1(5)(d) 条和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

CLP

危险声明 无需任何标签要素

2.3 其他危险

CLP

依据第 1272/2008 号 (EC) 法规 (CLP)，此材料不属于有危害材料。

UN GHS（使用于产品上的标签内容）

根据: 联合国 (UN) 全球危险化学品统一分类和标签制度 (GHS)

2.1 物质或混合物的分类

GHS 危险报表（分类）

急性经口毒性 5
轻度皮肤刺激 3
眼轻度刺激 2B

2.2 标签元素

标签元素

警告

危险声明

吞入有害。
与皮肤接触可能有害。
导致眼睛刺激。

防范声明

预防 处理之后要彻底清洗双手。

响应 发生皮肤刺激时：获得医疗指导/就医治疗。
进入眼睛时：小心地用水冲洗若干分钟。佩戴隐形眼镜时，如果方便就将其取下，然后继续冲洗。
眼睛刺激持续时：获得医疗指导/就医治疗。
感到身体不适时，呼叫解毒中心或医生/医师。

2.3 其他危险

UN GHS 根据全球统一分类和标签制度（GHS），认为该产品是危险品

美国（US）
根据: OSHA 29 CFR 1910.1200 HCS

2.1 物质或混合物的分类

OSHA 的 HCS2012 眼轻度刺激 2B

2.2 标签元素

OSHA 的 HCS2012

危险说明 吞入有害。
与皮肤接触可能有害。
导致眼睛刺激。

警示性说明

预防 处理之后要彻底清洗双手。

响应 进入眼睛时：小心地用水冲洗若干分钟。佩戴隐形眼镜时，如果方便就将其取下，然后继续冲洗。
眼睛刺激持续时：获得医疗指导/就医治疗。

2.3 其他危险

OSHA 的 HCS2012 根据美国法规（29 CFR 1910.1200 - 危害通识标准），认为该产品属于非危险品。

加拿大
根据: 加拿大 - 工作场所危险物质信息系统

2.1 物质或混合物的分类

WHMIS 未分类

2.2 标签元素

WHMIS 不要求标签元素。

2.3 其他危险

WHMIS 在加拿大，根据工作场所有害物质信息系统（WHMIS），认为上述产品不是危险品。

2.4 其他信息

所有其他制剂、颗粒和其他组分的浓度在混合物中均低于 1%，或者根据美国危害通识法规 (29 CFR 1910.1200)、欧盟物质或混合物分类与标签指令或全球物质或混合物分类与标签统一制度均不被认为是危险物质。

第 3 章：成分构成/信息

3.1 物质

该材料不符合某种物质的标准。

3.2 混合物

构成					
化学名称	**标识符**	**%**	**LD50/LC50**	**按规章/指令分类**	**注解**
硫氰酸胍	**CAS:** 593-84-0 **EINECS:** 209-812-1	10% - 20%	593 mg/kg	**EU CLP**：急性毒性 5、H302、H313、H320 **UN GHS**：急性毒性 5（口服）；皮肤刺激。3；眼刺激 2B **OSHA HCS 2012:** 急性毒性 5（口服）；眼刺激 2B	无可用数据

第 4 章-急救措施

4.1 急救措施描述

吸入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。将受害者移至新鲜空气处。如果呼吸困难，就施用氧气 如果受害人吸入该物质，就不要使用口对口方法；借助配备单向阀或其他适当的呼吸医疗设备的袖珍面罩来给予人工呼吸 如果受害者没有呼吸，就给予人工呼吸。

皮肤

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。对于轻微的皮肤接触，避免在未受影响的皮肤上蔓延物质 在与物质接触的情况下，立即用大量的水冲洗皮肤至少 20 分钟 移走并隔离被沾染的衣服。

眼睛

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。在与物质接触的情况下，立即用大量的水冲洗眼睛至少 20 分钟。眼睛刺激持续时：获得医疗指导/就医治疗。

摄入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。如果吞入，用水漱口（只有当伤员意识清楚时）。不要催吐 如果受害人摄入该物质，就不要使用口对口方法 如果摄入应立即就医。

4.2 急性及缓发的最重要症状及效应

请参阅第 11 章 - 毒物学信息

4.3 任何需要立即就医及特别治疗的症候

对医生的注释

所有治疗措施均应根据所观察到的患者的痛苦症状和体征进行。应考虑可能发生过度暴露于非本品材料的可能性。

第 5 章-消防措施

5.1 灭火介质

适用的灭火介质

大火：化学干粉、二氧化碳、抗溶性泡沫或喷水
小火：化学干粉，二氧化碳或喷水

不适用的灭火介质

无可用数据

5.2 由物质或混合物产生的特殊危险

异常火灾和爆炸危险

盛装试剂的塑料检测盒可能会散发碳氧化物、硫氧化物、氮氧化物有毒蒸气。

有害燃烧产物

无可用数据

5.3 供消防队员采纳的建议

建筑消防员的防护服在火情中只能提供有限的保护；它在可能与物质直接接触的溢出情况下无效穿上制造商专门推荐的化学防护服。
製造業者が推奨する化学品防護服を着用する。熱に対する保護は、ある程度、またはまったく提供されない。
它可能提供很少或根本没有提供热保护配戴正压自给式呼吸装置（SCBA）。
小火：如果能够无风险地完成，就从火区移出容器。

第 6 章-意外释放防范措施

6.1 个人预防措施、防护装备和紧急程序

个人预防措施	一旦盒子断裂，则适用于这些个人预防措施。穿戴适当的防护服。切勿踩踏泄漏物。除非穿着适当的防护服，否则不要触摸损坏的容器或溢出的材料。对封闭区域进行通风。
应急程序	如果在一般条件下并且按照推荐的方法使用材料，预计不必要执行应急程序

6.2 环保预防措施

防止进入水道、下水道、地下室或封闭区域。

6.3 用于遏制/净化的方法和材料

遏制/净化措施	对于少量撒漏，戴手套并用纸巾吸附撒漏物。切勿将撒漏的材料冲刷到排水管道中予以处置。

6.4 其他各章的参考

请参阅第 8 章 - 接触控制/个人防护以及第 13 章 - 处置注意事项

第 7 章-搬运和贮存

7.1 用于安全处理的预防措施

搬运	无需任何特殊操作。如果盒子断裂，避免接触撒漏的试剂。 避免与皮肤和眼睛接触。

7.2 包括任何不相容性的安全贮存条件

贮存	按产品标签予以储存。远离不相容材料上锁贮存。将容器/包装在阴凉、通风良好之处保持密闭

7.3 特定最终用途

请参阅第 1.2 条 - 有关确定用途

第 8 章-接触控制/个人防护

8.1 控制参数

	接触限值/指南			
	硫氰酸胍	**ACGIH**	**NIOSH**	**OSHA**
硫氰酸胍	TWA	未确立	未确立	未确立

8.2 接触控制

工程措施/控制
应当使用良好的通用通风设施。通风速率应当与环境相配。如果适用，使用工艺外罩、局部排气通风或其它工程控制设施，以保持空气中的浓度低于推荐的接触限值。如果尚未确定接触限值，就将空气中的浓度保持在可接受的水平。

个人防护装备

呼吸
如果在一般条件下按照推荐方法使用材料，无需使用呼吸防护装置。否则，遵循 29 CFR 1910.134 或欧洲标准 EN 149 中的 OSHA 呼吸防护装置规定。如果超过接触限值或出现症状，就使用 NIOSH/MSHA 或欧洲标准 EN 149 认可的呼吸器。

眼睛/面部
佩戴防化学剂飞溅护目镜。

皮肤/身体
穿戴防护服

环境接触控制
遵守厂区管理和废物处置最佳规范。

略语表
OSHA =职业安全和健康管理局
TWA =时间加权平均值根据 8 小时/天、40 小时/周的接触量来确定

第 9 章-物理性质和化学性质

9.1 有关物理性质和化学性质的信息

材料描述			
外形	液体	颜色	无色
气味	无味	气味阈值	数据缺乏
一般性质			
沸点	100 ° C (212 ° F)	熔点/凝固点	0 ° C (32 ° F)
分解温度	数据缺乏	pH 值	3.3 至 8.8
比重/相对密度	= 1 水=1	水溶解度	可溶 100%
粘度	数据缺乏	易爆性质：	数据缺乏
氧化性性质：	数据缺乏		
挥发性			
蒸气压力	极小	蒸气密度	数据缺乏
蒸发速率	极小		
易燃性			
闪点	数据缺乏	爆炸上限	数据缺乏
爆炸下限	数据缺乏	自燃点	数据缺乏
易燃性（固体、气体）：	数据缺乏		
环境方面			
辛醇/水分配系数	数据缺乏		

9.2 其他信息

未注明额外的物理和化学参数

第 10 章：稳定性和反应性

10.1 反应性

在正常使用条件下，未知有危险反应。

10.2 化学稳定性

稳定。

10.3 危险反应的可能性

不会发生危险的聚合反应。

10.4 应避免的情况

不相容的材料。燃烧盛装试剂的塑料检测盒可能会释放有毒副产物。

10.5 不相容的材料

酸。

10.6 危险的分解产物

燃烧盛装试剂的塑料检测盒可能会释放有毒副产物。

第 11 章-毒物学信息

11.1 有关毒物学效应的信息

组成成分		
硫氰酸胍	593-84-0	**急性毒性：**腹腔-小鼠 LD50 • 593 mg/kg

GHS 危险种类	危险类别
急性毒性	**EU/CLP•**数据缺乏 **UN GHS•**急性毒性 - 摄入/口服 - 5 类 **OSHA 的 HCS2012•**数据缺乏
皮肤腐蚀/刺激	**EU/CLP•**数据缺乏 **UN GHS•**皮肤有轻度刺激 3 类 **OSHA 的 HCS2012•**数据缺乏
严重眼损伤/刺激	**EU/CLP•**数据缺乏 **UN GHS•**眼睛有轻度刺激 2B 类 **OSHA 的 HCS2012•**轻度眼睛刺激 2B 类
皮肤过敏	**EU/CLP•**数据缺乏 **UN GHS•**数据缺乏 **OSHA 的 HCS2012•**数据缺乏
呼吸道过敏	**EU/CLP•**数据缺乏 **UN GHS•**数据缺乏 **OSHA 的 HCS2012•**数据缺乏

GHS 危险种类	危险类别
误吸危害	**EU/CLP**•数据缺乏 **UN GHS**•数据缺乏 **OSHA 的 HCS2012**•数据缺乏
致癌性	**EU/CLP**•数据缺乏 **UN GHS**•数据缺乏 **OSHA 的 HCS2012**•数据缺乏
生殖细胞致突变性	**EU/CLP**•数据缺乏 **UN GHS**•数据缺乏 **OSHA 的 HCS2012**•数据缺乏
针对生殖的毒性	**EU/CLP**•数据缺乏 **UN GHS**•数据缺乏 **OSHA 的 HCS2012**•数据缺乏

潜在健康影响

吸入
急性（立即） 可能引起刺激
慢性（缓发） 无可用数据
皮肤
急性（立即） 导致轻微的皮肤刺激
慢性（缓发） 无可用数据
眼睛
急性（立即） 造成眼刺激
慢性（缓发） 无可用数据
摄入
急性（立即） 如果吞入可能是有害的
慢性（缓发） 无可用数据

略语表
LD =致死剂量

第 12 章-生态学信息

12.1 毒性
LC50（孔雀鱼）：89.1 mg/L @ 96 小时

12.2 持久性和降解性
材料数据缺失。

12.3 生物累积的潜力
材料数据缺失。

12.4 土壤中的移动性
材料数据缺失。

12.5 PBT 及 vPvB 评估的结果
尚未进行 PBT 和 vPvB 评估。

12.6 其他不良效应

未发现研究成果。

第 13 章-处置注意事项

13.1 废物处理方法

产品废物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。
包装废弃物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

13.2 其他信息

生物样本、转移设备以及用过的检测盒应被视为能够传播传染性病原体，必须采取标准预防措施。有关如何正确丢弃用过的检测盒和未使用过的试剂的信息，请遵循您所在机构的环境废物管理程序。这些材料可能会显示出需要为其执行特定的国家或地区的处置程序的化学危险废物的特性。如果国家或地区的法规没有明确的妥善处置规定，生物样本和使用过的检测盒应根据 WHO（世界卫生组织）的医疗废弃物处理和处置原则来处理。

第 14 章-运输信息

	14.1 UN 编号	14.2 UN 正式运输名称	14.3 运输危险分类	14.4 包装组	14.5 环境危害
DOT	未规定	未规定	未规定	未规定	不适用
TDG	未规定	未规定	未规定	未规定	不适用
IMO/IMDG	未规定	未规定	未规定	未规定	不适用
IATA/ICAO	未规定	未规定	未规定	未规定	不适用

14.6 用户特殊防护措施

未列明。

14.7 根据 MARPOL 73/78 的附件 II 以及 IBC 规范规定的散装运输

不相关。

第 15 章-法规信息

15.1 针对特定物质或混合物的安全、卫生和环境条例/法规

セクション 2: 危険性識別

EU/EEC
準拠: 指令（EC）1272/2008 (CLP)/REACH 1907/2006 [453/2010 による改訂]

2.1 物質や混合物の分類

CLP

以下の SDS は、研究所で使用されるため、最終完全混合物製品用のみです。本製品は、カートリッジまたは装置外の容器内にビーズおよび試薬を含んでいます。一部の成分の情報の開示の免除は、CLP 項目 1(5)(d)および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

CLP

危険有害性情報 ラベル要素は必要ありません。

2.3 その他危険性

CLP

規定(EC) No. 1272/2008 (CLP) に準じて、本剤は危険物とみなされません。

UN GHS (製品に使用されている表示の内容)
準拠: UN 化学品の分類および表示に関する世界調和システム

2.1 物質や混合物の分類

GHS 危険有害性情報（分類）

急性毒性　経口５
軽度の皮膚刺激 3
軽度の眼刺激2B

2.2 ラベル要素

UN GHS

警告

危険有害性情報

飲み込むと有害。
皮膚に付着すると有害な可能性。
眼への刺激を引き起こす。

予防情報

予防 使用後は: をしっかりと洗ってください。

反応 皮膚に刺激が生じた場合：医師の助言／手当てを受ける。
目に入った場合：数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目への刺激が続く場合：医師の助言／手当てを受ける。
気分が悪い場合、毒物センターあるいは医師に連絡する。

2.3 その他危険性

UN GHS 危険化学品分類表示の世界調和システム（GHS）では、本製品は危険な物質と考慮されています。

米国（US）

準拠: OSHA 29 CFR 1910.1200 HCS

2.1 物質や混合物の分類

OSHA HCS 2012 軽度の眼刺激2B

2.2 ラベル要素

OSHA HCS 2012

危険有害性情報 飲み込むと有害。
皮膚に付着すると有害な可能性。
眼への刺激を引き起こす。

注意書き

予防 使用後は 手をしっかりと洗ってください。

応答 目に入った場合：数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目への刺激が続く場合：医師の助言／手当てを受ける。

2.3 その他危険性

OSHA HCS 2012 米国規定(29 CFR 1910.1200 - 危険有害性周知基準)に基づき、本製品は危険物とみなされません。

カナダ

準拠: WHMIS

2.1 物質や混合物の分類

WHMIS 未分類

2.2 ラベル要素

WHMIS ラベル要素は必要ありません。

2.3 その他危険性

WHMIS カナダでは、上述の製品は作業場にある危険物に関する情報システム (WHMIS)に基づき危険物とみなされません。

2.4 その他情報

その他のすべての試薬、ビーズ、その他の成分は、混合物の 1%未満または米国ハザード通信規制（29 CFR 1910.1200）、物質または混合物の分類と表示に関する EU 指令、または化学品の。

セクション 3: 成分の組成・情報

3.1 物質

本剤は、材料区分を満たしません。

3.2 混合物

合成物					
化学名	**識別子**	**%**	**LD50/LC50**	**規定/指針に基づく分類**	**コメント**
チオシアン酸グアニジン	**CAS:** 593-84-0 **EINECS:** 209-812-1	10〜20%	593 mg/kg	**EU CLP**：急性毒性 5、H302、H313、H320 **UN GHS**：急性毒性 5（経口）、皮膚のかゆみ 3、目のかゆみ 2B **OSHA HCS 2012**：急性毒性 5（経口）、目のかゆみ 2B	NDA

セクション 4: 応急処置手段

4.1 応急措置手段

吸引
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。被災者を外気に当てる 呼吸困難の場合は、酸素を吸入させる 被災者が物質を吸引した場合、口移し式人工呼吸を行ってはならない; 一方向バルブの付いたポケットマスクや、その他の適切な呼吸医療装置を使って人工呼吸を行う。被災者が呼吸していない場合は、人工呼吸を施す。

皮膚
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。皮膚に少し接触した場合は、接触していない部分に物質が広がらないようにする 物質に触れた場合、最低 20 分間、流水で直ちに皮膚を洗浄する 汚染された服を脱ぎ、隔離してください。

目
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。物質と接触した場合は、最低 20 分間、直ちに流水で目を洗浄する。目への刺激が続く場合：医師の助言／手当てを受ける。

摂取
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。飲み込んだ場合は、水で口をゆすいでください（意識がある場合）。嘔吐を誘発しないでください。被災者が物質を摂取した場合、口移し式人工呼吸を行ってはならない 本剤を飲み込んだ場合は、直ちに病院に行って下さい。

4.2 もっとも重要な症状と影響、急性および遅発性

第十一項　毒性に関する情報を参照してください。

4.3 直ちに医学的配慮と特別治療を必要とする兆候

医師へのメモ
治療はすべて、患者の苦痛の兆候および症状に基づき行われる必要があります。本製品以外の物質に著しくさらされた可能性について考慮する必要があります。

セクション 5: 消火手段

5.1 消火剤

適切な消火剤	大規模火災: 乾燥した化学品、二酸化炭素、水溶性液体用泡消火剤、散水 小規模火災: 乾燥した化学品、二酸化炭素、散水
不適切な消火剤	データなし

5.2 物質や混合物から発生する特別な危険

異常な火災と爆発の危険	試薬を含むプラスチック製カートリッジは、炭素酸化物、硫黄酸化物、窒素酸化物の有毒な蒸気を放出することがあります。
有害な燃焼生物	データなし

5.3 消防士への助言

建物火災用消防用服が火災状況で提供する保護は限定されている。流出した状況では物質に直接接触する可能性があ るため、効果がない製造業者が推奨する化学品防護服を着用する。
熱に対する保護は、ある程度、またはまったく提供されないことがある陽圧自給式呼吸器（SCBA）を着用する。
小規模火災: 危険を冒さずにできる場合は、火災区域 から容器を移動させる動かす。

セクション 6: 漏出時の措置

6.1 人体に対する注意事項

人体に対する注意事項	カートリッジが破損した場合、これらの人体に対する予防措置が適用されます。適切な保護服を着用してください。本剤がこぼれている場所を歩かないでください。適切な保護具を着用しない場合は、損傷した容器や流出物質に触れてはならない 囲まれた区域を換気する。
応急措置	本剤が通常の状況で推奨された方法で使用される場合は、特別に必要とされる緊急措置はありません。

6.2 影響に対する注意事項

水路、下水道、地下室、囲まれた区域に流入するのを防ぐ。

6.3 閉じ込めと清掃の手段と物質

閉じ込め・清掃の手段	少量の流出の場合は、手袋を着用し、ペーパータオルで流出を吸収してください。流出した物質を排水溝に廃棄しないでください。

6.4 他のセクションへの言及

第八項　爆発管理/安全保護、および第十三項　廃棄時の注意事項を参照してください。

セクション 7: 取り扱いと保管

7.1 安全な取り扱いについての注意

取り扱い 特別な取扱いは必要ありません。カートリッジが破損した場合、漏出した試薬に触れないようにしてください。皮膚に付着したり、目に入らないようにしてください。

7.2 安全な保管の条件、不適合性を含む

保管 製品ラベルに従って保管してください。互換性を持たない物質から話してください。鍵をかけて保管する。容器/パッケージをしっかりと密閉し、涼しく、風通しの良い場所に保管してください。

7.3 具体的な最終用途

第十二項　関連する使用方法に関する情報を参照してください。

セクション 8: 暴露管理・個人保護

8.1 管理パラメータ

	曝露限度／ガイドライン			
	結果	**ACGIH**	**NIOSH**	**OSHA**
チオシアン酸グアニジン	TWA	設定なし	設定なし	設定なし

8.2 曝露管理

工学的手段・管理 十分な通気を確保してください。通規率は状況に応じて適切に調整してください。該当する場合は、包囲装置、局所排気装置、またはその他のエンジニアリング。コントロール装置を使って、空気中の粉塵レベルが推奨暴露限界を超えないようにしてください。暴露レベルが確定されていない場合は、許容範囲の粉塵量を維持してください。

個人用保護具

呼吸器官 物質が通常の状況でかつ推奨通りに使用される場合、呼吸装置が必要になるとは予想されません。もし必要な場合、OSHA 呼吸器規制に関しては、29 CFR 1910.134 または 欧州標準 EN 149 をご覧ください。暴露基準を超える場合、あるいは症状が発症した場合は、NIOSH/MSHA または 欧州標準 EN 149 保護マスクをご使用ください。

目・顔面 化学物飛散防止ゴーグルを着用してください。

皮膚・人体 保護服を着用してください。

環境暴露管理 現場管理および廃棄物の取り扱いは十分注意して行ってください。

略語について
OSHA =労働安全衛生局
TWA =時間加重平均値は、8 時間/1 日、40 時間/1 週間の暴露に基づいた数値です。

セクション 9: 物理的および化学的特性

9.1 物理的および化学的特性

材料の説明			
物理的形状	液体	色	透明で無色
臭気	無臭	臭気限界	データ不足
一般的性質			
沸騰点	100 °C (212 °F)	融解点・凝固点	0 °C (32 °F)
分解温度	データ不足	pH	3.3 至 8.8
比重・相対密度	= 1 Water=1	水溶性	可溶性 100%
粘性	データ不足	爆発特性	データ不足
酸化特性	データ不足		
揮発度			
蒸気圧	最小	蒸気密度	データ不足
蒸発速度	最小		
可燃性			
引火点	データ不足	UEL	データ不足
LEL	データ不足	自己発火	データ不足
可燃性（固体、ガス）	データ不足		
環境曝露管理			
オクタノール・水分配係数	データ不足		

9.2 その他情報

その他に物理的および化学的パラメータの記載はありません。

セクション 10: 安定性と反応性

10.1 反応性

通常の使用において、危険反応は報告されていません。

10.2 化学安定性

安定

10.3 有害反応の可能性

危険物のポリメリゼーションは発生しません。

10.4 回避すべき条件

規定物質。試薬を含むプラスチック製カートリッジを燃焼すると、毒性の副産物を放出する可能性があります。

10.5 不適合物質

酸。

10.6 有害分解性生物

試薬を含むプラスチック製カートリッジを燃焼すると、毒性の副産物を放出する可能性があります。

セクション 11: 毒性情報

11.1 毒性効果

成分		
チオシアン酸グアニジン	593-84-0	**急性毒性**:腹腔内-マウス LD50 • 593 mg/kg

GHS 特性	分類
急性毒性	**EU/CLP**•データ不足 **UN GHS**•急性毒性 - 摂取／経口 - 分類 5 **OSHA HCS 2012**•データ不足

重度の目の損傷・炎症	**EU/CLP**•データ不足 **UN GHS**•目軽度の刺激分類 2B **OSHA HCS 2012**•軽度の目の炎症分類 2B
皮膚感作性	**EU/CLP**•データ不足 **UN GHS**•データ不足 **OSHA HCS 2012**•データ不足
呼吸器感作性	**EU/CLP**•データ不足 **UN GHS**•データ不足 **OSHA HCS 2012**•データ不足
発癌性	**EU/CLP**•データ不足 **UN GHS**•データ不足 **OSHA HCS 2012**•データ不足
生殖細胞変異原性	**EU/CLP**•データ不足 **UN GHS**•データ不足 **OSHA HCS 2012**•データ不足
生殖毒性	**EU/CLP**•データ不足 **UN GHS**•データ不足 **OSHA HCS 2012**•データ不足
STOT-SE	**EU/CLP •データ不足** **UN GHS•データ不足** **OSHA HCS 2012•データ不足**

考えられる健康への影響

吸引
急性（即座） 過敏症が生じる場合があります。
慢性（遅発性） データなし
皮膚
急性（即座） 皮膚に軽度の刺激を起こす可能性があります。
慢性（遅発性） データなし
目
急性（即座） 目の炎症を起こす。
慢性（遅発性） データなし

摂取
急性（即座） 飲み込んだ場合、健康に支障を生じる可能性があります。
慢性（遅発性） データなし

略語について
LD =致死量

セクション 12: 生態学的情報

12.1 毒性
LC50（グッピー）：96 時間で 89.1 mg/L

12.2 持続性と分解性
実態データが不足しています。

12.3 生体内蓄積能
実態データが不足しています。

12.4 土壌中移動性
実態データが不足しています。

12.5 PBT と vPvB 評価の結果
PBT および vPvB アセスメントは行われていません。

12.6 その他有害影響
そのような研究結果はありません。

セクション 13: 廃棄上の注意

13.1 廃棄物処理手段
製品廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。
包装廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

13.2 その他情報
生物検体、移動器具および使用済みカートリッジは、標準的予防策を必要とする感染体(病原菌)を伝播する可能性があると見なしてください。使用済みカードリッジや、未使用の試薬の適切な廃棄については、当該施設の環境廃棄物手順に従ってください。これらは、国や地域の特別な廃棄手順に従う必要のある化学品有害廃棄物の特徴を示す可能性があります。国の法律や地域の条例により、適切な廃棄処理について、明確な指示が出されていない場合、生物検体や使用済みカートリッジは WHO（世界保健機関）の医療廃棄物の取り扱いおよび廃棄についてのガイドラインに従って廃棄してください。

Safety Data Sheet
Effective Date: May, 2020
Supersedes Date: April, 2020

Xpert CT Assay
Xpert CT/NG Assay

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product Identifier

Product Name **Xpert CT Assay; Xpert CT/NG Assay**
Product Code GXCT-CE-10, GXCT/NG-10, GXCT/NG-CE-10, GXCT/NG-120, GXCT/NG-CE-120, GXCT/NGX-CE-10, GXCT/NGX-CE-120, GXCT/NG-CN-10, GXCT/NG-CN-120, 900-0840, 900-0854

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Relevant Identified Use(s) Laboratory use

1.3 Details of the Supplier of the Safety Data Sheet

Manufacturer Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
United States
www.cepheid.com
US: techsupport@cepheid.com
Telephone (General) 1 (888) 838-3222 - US Option 2
Telephone (General) 1 (408) 541-4191 - Outside of the US

Supplier Cepheid AB
Röntgenvägen 5
SE-171 54 Solna
Sweden
www.cepheidinternational.com
EU: support@cepheideurope.com
Telephone (General) 33 563 825 319 - EU

1.4 Emergency Telephone Number

Manufacturer 1 (800) 535-5053 - INFOTRAC - 24 hr Emergency
Manufacturer 1 (352) 323-3500 - Outside of the US

Section 2: Hazards Identification

EU/EEC

According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010]

2.1 Classification of the Substance or Mixture

CLP The following SDS is for the final finished mixture product only as used in the laboratory. The product contains beads and reagents in the cartridge or in off-board containers. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

CLP

Hazard Statements
H302 – Harmful if swallowed
H313 – May be harmful in contact to skin
H320 – Causes eye irritation

Precautionary Statements

Prevention
P264 – Wash thoroughly after handling.
P270 – Do not eat, drink or smoke when using this product.

Response
P301+312 – IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician if you feel unwell.
P330 – Rinse mouth.

Storage/Disposal
P501 – Dispose of contents/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

CLP
According to Regulation (EC) No. 1272/2008 (CLP) this material is not considered hazardous.

UN GHS Revision 3 (Labeling Content Used on Products)

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS): Third Revised Edition

2.1 Classification of the Substance or Mixture

UN GHS
Acute Toxicity Oral 5
Skin Mild Irritation 5
Eye Mild Irritation 2B

2.2 Label Elements

UN GHS

WARNING

Hazard Statements
Harmful if swallowed
May be harmful in contact to skin
Causes eye irritation

Precautionary Statements

Prevention
Wash thoroughly after handling.

Response
If skin irritation occurs: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
Call a POISON CENTER or doctor/physician if you feel unwell.

Storage/Disposal
Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

UN GHS According to the Globally Harmonized System for Classification and Labeling (GHS) this product is considered hazardous.

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the Substance or Mixture

OSHA HCS 2012 Eye Mild Irritation 2B

2.2 Label Elements

OSHA HCS 2012

Hazard Statements	Causes eye irritation
Precautionary Statements	
Prevention	Wash thoroughly after handling.
Response	IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention.
Storage/Disposal	Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

OSHA HCS 2012 Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is not considered hazardous.

Canada
According to: WHMIS

2.1 Classification of the Substance or Mixture

WHMIS Not classified

2.2 Label Elements

WHMIS No label element(s) required.

2.3 Other Hazards

WHMIS In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other Information

All other reagents, beads, and other constituents are at concentrations less than 1% in the mixture or not considered hazardous under US hazard communication regulations (29 CFR 1910.1200), EU directives for classification and labeling of substances or mixtures or the Global Harmonization System for classification and labeling of substances or mixtures.

Section 3: Composition/Information on Ingredients

3.1 Substances

Material does not meet the criteria of a substance.

3.2 Mixtures

Composition					
Chemical Name	**Identifiers**	**%**	**LD50/LC50**	**Classifications According to Regulation/Directive**	**Comments**
Guanidine Thiocyanate	**CAS:** 593-84-0 **EINECS:** 209-812-1	10% - 20%	593 mg/kg	**EU CLP:** Acute Tox. 5, H302, H313, H320 **UN GHS:** Acute Tox. 5 (Orl); Skin Irrit. 5; Eye Irrit. 2B **OSHA HCS 2012:** Acute Tox. 5 (Orl); Eye Irrit. 2B	NDA

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Move victim to fresh air. Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing.

Skin First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.

Eye First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

Ingestion First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to Physician All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Firefighting Measures

5.1 Extinguishing Media

Suitable Extinguishing Media	LARGE FIRES: Dry chemical, CO_2, alcohol-resistant foam or water spray. SMALL FIRES: Dry chemical, CO_2 or water spray.
Unsuitable Extinguishing Media	No data available

5.2 Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosion Hazards	Plastic cartridge containing reagents may emit toxic vapors of carbon oxides, sulfur oxides, nitrogen oxides.
Hazardous Combustion Products	No data available

5.3 Advice for Firefighters

Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
Wear positive pressure self-contained breathing apparatus (SCBA).
SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	In the event a cartridge is broken these personal precautions are applicable. Wear appropriate protective clothing. Do not walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas.
Emergency Procedures	No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

6.2 Environmental Precautions

Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and Material for Containment and Cleaning Up

Containment/ Clean-up Measures	For small spills, wear gloves and absorb spill with paper towel. Do not dispose spilled materials down drain.

6.4 Reference to Other Sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7: Handling and Storage

7.1 Precautions for Safe handling

Handling No special handling necessary. If cartridge is broken avoid contact with spilled reagents.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Storage Store according to product labeling. Keep away from incompatible materials. Store locked up. Keep container/package tightly closed in a cool, well-ventilated place.

7.3 Specific End Use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

8.1 Control Parameters

	Exposure Limits/Guidelines			
	Result	**ACGIH**	**NIOSH**	**OSHA**
Guanidinium thiocyanate	TWA	Not established	Not established	Not established

8.2 Exposure Controls

Engineering Measures/Controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory Respiratory equipment is not expected to be necessary if material is used under ordinary conditions and as recommended. Otherwise, follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face Wear chemical splash safety goggles.

Skin/Body Wear protective clothing

Environmental Exposure Controls Follow best practice for site management and disposal of waste.

Key to abbreviations
OSHA = Occupational Safety and Health Administration
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9: Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Appearance/Description	Reagents are clear, colorless liquids with no odor which are primarily buffered in aqueous solutions.
Color	Clear	Odor	Odorless
Odor Threshold	Data lacking		
General Properties			
Boiling Point	100 °C(212 °F)	Melting Point/Freezing Point	0 °C(32 °F)
Decomposition Temperature	Data lacking	pH	3.5 to 8.8
Specific Gravity/Relative Density	Data lacking	Water Solubility	Data lacking
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	Data lacking
Evaporation Rate	Data lacking		
Flammability			
	360 to 560 °F (182.2222 to 293.3333 °C) (Binding reagent)	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition Coefficient	Data lacking		

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical Stability

Stable

10.3 Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

10.4 Conditions to Avoid

Incompatible materials. Burning plastic cartridge containing reagents may liberate toxic byproducts.

10.5 Incompatible Materials

Acids, oxidizing agents.

10.6 Hazardous Decomposition Products

Burning plastic cartridge containing reagents may liberate toxic byproducts..

Section 11: Toxicological Information

11.1 Information on Toxicological Effects

Components

STOT-RE	**EU/CLP**•Data lacking **UN GHS 3**•Data lacking **OSHA HCS 2012**•Data lacking

Potential Health Effects

Inhalation
Acute (Immediate) May cause irritation.
Chronic (Delayed) No data available

Skin
Acute (Immediate) Causes skin irritation.
Chronic (Delayed) No data available

Eye
Acute (Immediate) Causes eye irritation.
Chronic (Delayed) No data available

Ingestion
Acute (Immediate) Harmful if swallowed.
Chronic (Delayed) No data available

Key to abbreviations
LD = Lethal Dose

Section 12: Ecological Information

12.1 Toxicity

LC50 (guppy): 89.1 mg/l @ 96 h

12.2 Persistence and Degradability

Material data lacking.

12.3 Bioaccumulative Potential

Material data lacking.

12.4 Mobility in Soil

Material data lacking.

12.5 Results of PBT and vPvB Assessment

No PBT and vPvB assessment has been conducted.

12.6 Other Adverse Effects

No studies have been found.

Section 13: Disposal Considerations

13.1 Waste Treatment Methods

Product Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

13.2 Other Information

Biological specimens, transfer devices, and used cartridges should be considered capable of transmitting infectious agents requiring standard precautions. Follow your institution's environmental waste procedures for proper disposal of used cartridges and unused reagents. These materials may exhibit characteristics of chemical hazardous waste requiring specific national or regional disposal procedures. If national or regional regulations do not provide clear direction on proper disposal, biological specimens and used cartridges should be disposed per WHO (World Health Organization) medical waste handling and disposal guidelines.

Section 14: Transport Information

	14.1 UN Number	14.2 UN Proper Shipping Name	14.3 Transport Hazard Class(es)	14.4 Packing Group	14.5 Environmental Hazards

Section 4 : Mesures de premier secours

4.1 Description des premiers soins

Inhalation Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. Déplacer la victime à l'air frais. Administrer de l'oxygène si la respiration est difficile. Ne pas faire de bouche-à-bouche si la victime a inhalé la substance ; pratiquer la respiration artificielle à l'aide d'un masque de poche doté d'une valve unidirectionnelle ou d'un autre dispositif médical respiratoire approprié. Pratiquer la respiration artificielle si la victime ne respire pas.

Peau Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact cutané mineur, éviter de répandre la matière sur la peau non affectée. En cas de contact avec la substance, rincer immédiatement la peau à l'eau courante pendant au moins 20 minutes. Retirer et isoler les vêtements contaminés.

Yeux Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact avec la substance, rincer immédiatement les yeux à l'eau courante pendant au moins 20 minutes. Si l'irritation oculaire persiste : consulter un médecin.

Ingestion Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas d'ingestion, rincer la bouche avec de l'eau (seulement si la victime est consciente). NE PAS faire vomir. Ne pas faire de bouche-à-bouche si la victime a ingéré la substance. Consulter immédiatement un médecin en cas d'ingestion.

4.2 Symptômes et effets les plus importants, aigus et différés

Voir la section 11 - Informations toxicologiques.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Notes pour le médecin Tous les traitements doivent être basés sur les signes et symptômes de détresse observés chez le patient. Il faut envisager la possibilité d'une surexposition à d'autres matières que ce produit.

Section 5 : Mesures de lutte contre l'incendie

5.1 Agents extincteurs

Agent extincteur convenable	INCENDIES MAJEURS : poudre sèche, CO2, mousse antialcool ou eau pulvérisée. INCENDIES MINEURS : poudre sèche, CO2, ou eau pulvérisée.
Agent extincteur inapproprié	Aucune donnée disponible

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers inhabituels d'incendie et d'explosion	La cartouche en plastique contenant des réactifs peut émettre des vapeurs toxiques d'oxydes de carbone, d'oxydes de soufre et d'oxydes d'azote.
Produits de combustion dangereux	Aucune donnée disponible

5.3 Conseils aux pompiers

Les vêtements structurels de protection des pompiers fournissent une protection limitée UNIQUEMENT en cas d'incendie ; ils ne sont pas efficaces dans les cas de déversement où le contact direct avec la substance est possible. Porter des vêtements de protection chimique spécifiquement recommandés par le fabricant. Ceux-ci peuvent fournir peu ou pas de protection thermique.
Porter un appareil respiratoire autonome à pression positive (ARA).
INCENDIES MINEURS : enlever les conteneurs de la zone d'incendie si vous pouvez le faire sans risque.

Section 6 : Mesures en cas de fuite accidentelle

6.1 Précautions individuelles, équipement de protection et mesures d'urgence

Précautions individuelles	Dans le cas où une cartouche est percée, ces précautions individuelles s'appliquent. Porter les vêtements de protection appropriés. Ne pas marcher à travers la matière déversée. Ne pas toucher les conteneurs endommagés ou la matière déversée sauf en cas de port de vêtements de protection appropriés. Ventiler les espaces clos.
Mesures d'urgence	Aucune procédure d'urgence ne devrait s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations.

6.2 Précautions environnementales

Prévenir la pénétration dans les cours d'eau, les égouts, les sous-sols ou les endroits confinés.

6.3 Méthodes et matériaux de confinement et de nettoyage

Mesures de confinement/ de nettoyage	Pour les petits déversements, porter des gants et absorber la matière déversée avec une serviette en papier. Ne pas jeter la matière déversée dans les égouts.

6.4 Référence à d'autres sections

Voir la section 8 - Contrôles de l'exposition/Protection individuelle, ainsi que la section 13 - Considérations de mise au rebut.

Section 7 : Manutention et stockage

7.1 Précautions pour une manutention sans danger

Manutention Aucune manipulation spéciale n'est nécessaire. Si une cartouche est percée, éviter tout contact avec les réactifs déversés.

7.2 Conditions de sécurité du stockage, y compris toutes incompatibilités

Stockage Stocker conformément à l'étiquetage des produits. Tenir à l'écart des matières incompatibles. Garder sous clef. Conserver le conteneur/emballage hermétiquement fermé dans un endroit frais et bien aéré.

7.3 Utilisation(s) finale(s) spécifique(s)

Voir la section 1.2 - Utilisations pertinentes identifiées.

Section 8 : Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

	Limites d'exposition/Lignes directrices			
	Résultat	**ACGIH**	**NIOSH**	**OSHA**
Thiocyanate de guanidinium	Moyenne pondérée en fonction du temps (TWA)	Non établi	Non établi	Non établi

8.2 Contrôles d'exposition

Mesures/contrôles techniques Une bonne ventilation générale doit être utilisée. Les débits de ventilation doivent être adaptés aux conditions. Le cas échéant, utiliser des enceintes d'isolement, une ventilation aspirante locale ou d'autres moyens techniques pour maintenir les concentrations atmosphériques en dessous des limites d'exposition recommandées. Si les limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Équipement de protection individuelle

Respiratoire Un équipement respiratoire ne devrait pas s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations. Sinon, suivre les réglementations de l'OSHA relatives aux appareils respiratoires définies dans 29 CFR 1910.134 ou la norme européenne EN 149. Utiliser un appareil respiratoire approuvé par le NIOSH/MSHA ou la norme européenne EN 149 si les limites d'exposition sont dépassées ou des symptômes apparaissent.

Yeux/visage Porter des lunettes anti-éclaboussures contre les produits chimiques.

Peau/corps Porter des vêtements de protection

Contrôle d'exposition lié à la protection de 'environnement Suivre les bonnes pratiques pour la gestion de site et l'élimination des déchets.

Clef aux abréviations
OSHA = Administration de la sécurité et de la santé au travail
TWA = Les moyennes pondérées dans le temps sont basées sur des expositions de 8 h/jour, 40 h/semaine

Section 9 : Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques

Description de la matière			
Forme physique	Liquide	Apparence/Description	Les réactifs sont des liquides incolores et limpides, sans odeur, qui sont principalement tamponnés dans des solutions aqueuses.
Couleur	Limpide	Odeur	Inodore
Seuil d'odeur	Manque de données		
Propriétés générales			
Point d'ébullition	100 °C (212 °F)	Point de fusion/Point de congélation	0 °C (32 °F)
Température de décomposition	Manque de données	pH	3,5 à 8,8
Densité spécifique/relative	Manque de données	Solubilité dans l'eau	Manque de données
Viscosité	Manque de données	Propriétés explosives	Manque de données
Propriétés comburantes :	Manque de données		
Volatilité			
Pression de vapeur	Manque de données	Densité de vapeur	Manque de données
Taux d'évaporation	Manque de données		
Inflammabilité			
	182,2222 – 293,3333 °C (360 – 560 °F) (réactif de liaison)	LSE	Manque de données
LIE	Manque de données	Auto-inflammation	Manque de données
Inflammabilité (solide, gaz)	Manque de données		
Environnemental(e)			
Coefficient de partage octanol/eau	Manque de données		

9.2 Autres informations

Aucun paramètre physique ou chimique supplémentaire noté.

Section 10 : Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans des conditions normales d'utilisation.

10.2 Stabilité chimique

Stable

10.3 Possibilité de réactions dangereuses

Il ne se produira pas de polymérisation dangereuse.

10.4 Situations à éviter

Matières incompatibles. Si l'on brûle une cartouche en plastique contenant des réactifs, des sous-produits toxiques peuvent être libérées.

10.5 Substances incompatibles

Acides, agents oxydants.

10.6 Produits de décomposition dangereux

Si l'on brûle une cartouche en plastique contenant des réactifs, des sous-produits toxiques peuvent être libérées.

Section 11 : Information toxicologique

11.1 Informations sur les effets toxiques

Composants		
Thiocyanate de guanidinium	593-84-0	**Toxicité aiguë :** Voie intrapéritonéale-Souris DL50 593 mg/kg

12.1 Toxicité

CL50 (guppy) : 89,1 mg/l à 96 h

12.2 Persistance et dégradabilité

Manque de données matérielles.

12.3 Potentiel bioaccumulatif

Manque de données matérielles.

12.4 Mobilité dans le sol

Manque de données matérielles.

12.5 Résultats des évaluations PBT et vPvB

Aucune évaluation PBT ou vPvB n'a été réalisée.

12.6 Autres effets nocifs

Aucune étude n'a été trouvée.

Section 13 : Considérations de mise au rebut

13.1 Méthodes de traitement des déchets

Déchets du produit Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

Conditionnement des déchets Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

13.2 Autres informations

Les échantillons biologiques, appareils de transfert et cartouches usagées doivent être considérés comme étant susceptibles de transmettre des agents infectieux exigeant des précautions standard. Suivre les consignes environnementales d'élimination des déchets établies par l'établissement pour l'élimination appropriée des cartouches usagées et des réactifs non utilisés. Ces matériaux peuvent présenter des caractéristiques de déchets chimiques dangereux exigeant des procédures d'élimination spécifiques au niveau national ou régional. En l'absence de directives claires de la réglementation nationale ou régionale sur l'élimination appropriée, les échantillons biologiques et les cartouches usagées doivent être éliminés conformément aux directives de manipulation et d'élimination des déchets médicaux de l'OMS (Organisation Mondiale de la Santé).

Abschnitt 2: Mögliche Gefahren

EU/EEC

Nach: Verordnung (EG) Nr. 1272/2008 (CLP)/REACH 1907/2006 [geändert durch 453/2010]

2.1 Einstufung des Stoffs oder Gemischs

CLP Das folgende SDB gilt für das Fertiggemisch nur, wenn es im Labor benutzt wird. Das Produkt enthält Kügelchen und Reagenzien, die in der Kartusche oder in separaten Behältern vorhanden sind. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Nicht klassifiziert

2.2 Kennzeichnungselemente

CLP

Gefahrenhinweise	H302 – Gesundheitsschädlich bei Verschlucken H313 – Möglicherweise gesundheitsschädlich bei Hautkontakt H320 – Verursacht Augenreizung
Sicherheitshinweise	
Vorbeugung	P264 – Nach Gebrauch gründlich waschen. P270 – Bei Gebrauch nicht essen, trinken oder rauchen.
Reaktion	P301+P312 – BEI VERSCHLUCKEN: Bei Unwohlsein GIFTINFORMATIONSZENTRUM oder Arzt anrufen. P330 – Mund ausspülen.
Lagerung/Entsorgung	P501 – Inhalt und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften entsorgen.

2.3 Sonstige Gefahren

CLP	Nach Verordnung (EG) Nr. 1272/2008 (CLP) gilt dieses Material nicht als gefährlich.

UN GHS Revision 3 (Inhalt der auf den Produkten verwendeten Etiketten)

Nach: Global harmonisiertes System der Einstufung und Kennzeichnung von Chemikalien (GHS) der UN: Dritte überarbeitete Auflage

2.1 Einstufung des Stoffs oder Gemischs

UN GHS	Akute Toxizität, oral 5 Leichte Hautreizung 5 Leichte Augenreizung 2B

2.2 Kennzeichnungselemente

UN GHS

WARNHINWEIS

Gefahrenhinweise	Gesundheitsschädlich bei Verschlucken Möglicherweise gesundheitsschädlich bei Hautkontakt Verursacht Augenreizungen
Sicherheitshinweise	
Vorbeugung	Nach Gebrauch gründlich waschen.
Reaktion	Bei Hautreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen. BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen. Bei Unwohlsein GIFTINFORMATIONSZENTRUM oder Arzt anrufen.
Lagerung/Entsorgung	Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

2.3 Sonstige Gefahren

UN GHS	Nach dem global harmonisierten System zur Einstufung und Kennzeichnung (GHS) gilt dieses Produkt als gefährlich.

Vereinigte Staaten (VS)
Nach: OSHA 29 CFR 1910.1200 HCS

Gefahrenhinweise Verursacht Augenreizungen

Sicherheitshinweise

Vorbeugung Nach Gebrauch gründlich waschen.

Reaktion BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Lagerung/Entsorgung Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

2.3 Sonstige Gefahren

OSHA HCS 2012 Nach den Vorschriften der USA (29 CFR 1910.1200 - Norm für Gefahrenkommunikation) gilt dieses Produkt nicht als gefährlich.

Kanada
Nach: WHMIS

2.1 Einstufung des Stoffs oder Gemischs

WHMIS Nicht klassifiziert

2.2 Kennzeichnungselemente

WHMIS Kein(e) Beschriftungselement(e) erforderlich.

2.3 Sonstige Gefahren

WHMIS In Kanada ist das oben genannte Produkt nach dem Workplace Hazardous Materials Information System (WHMIS) nicht als gefährlich einzustufen.

2.4 Sonstige Angaben

Alle anderen Reagenzien, Körner und andere Bestandteile sind in Konzentrationen unter 1 % im Gemisch vorhanden oder gelten nicht als gefährlich gemäß den US-Richtlinien für die Gefahrenkommunikation (29 CFR 1910.1200), den EU-Richtlinien für die Einstufung und Etikettierung von Substanzen oder Gemischen oder dem globalen Harmonisierungssystem für die Einstufung und Etikettierung von Substanzen oder Gemischen.

Abschnitt 3: Zusammensetzung/Angaben zu den Bestandteilen

3.1 Stoffe

Material erfüllt nicht die Kriterien einer Substanz.

3.2 Gemische

Zusammensetzung					
Chemische Bezeichnung	**Kennzeichnung**	**%**	**LD50/LC50**	**Klassifizierungen nach der Verordnung/Richtlinie**	**Bemerkungen**
Guanidiniumthiocyanat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10–20 %	593 mg/kg	**EU CLP:** Acute Tox. 5, H302, H313, H320 **UN GHS:** Acute Tox. 5 (Orl); Skin Irrit. 5; Eye Irrit. 2B **OSHA HCS 2012:** Acute Tox. 5 (Orl); Eye Irrit. 2B	KDV

Abschnitt 4: Erste-Hilfe-Maßnahmen

4.1 Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen

Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Verunfallten an die frische Luft bringen. Bei Atemschwierigkeiten Sauerstoffzufuhr einleiten. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat; künstliche Beatmung mit einer mit Einwegventil ausgestatteten Taschen-Sauerstoffmaske oder sonstigem geeigneten medizinischen Beatmungsgerät einleiten. Bei Atemstillstand künstliche Beatmung umgehend einleiten.

Haut

Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei geringem Hautkontakt Material nicht auf andere Hautbereiche verteilen. Im Falle eines Hautkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Verunreinigte Kleidung entfernen und isolieren.

Augen

Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Im Falle eines Augenkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken

Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei Einnahme Mund mit Wasser ausspülen (nur, wenn die Person bei Bewusstsein ist). KEIN Erbrechen herbeiführen. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat. Bei Einnahme sofort Arzt zu Rate ziehen.

4.2 Wichtigste akute und verzögert auftretende Symptome und Wirkungen

Siehe Abschnitt 11 - Toxikologische Informationen.

4.3 Hinweis auf ärztliche Soforthilfe oder Spezialbehandlung

Hinweise für den Arzt

Alle Behandlungsmaßnahmen sollten auf den beobachteten Anzeichen und Symptomen von Erschöpfung beim Patienten basieren. Außerdem ist zu berücksichtigen, dass es möglicherweise zum Kontakt mit anderen Materialien zusätzlich zu diesem Produkt kam.

Abschnitt 5: Maßnahmen zur Brandbekämpfung

5.1 Löschmittel

Geeignete Löschmittel	GROSSBRAND: Trockenlöschmittel, CO2, alkoholresistenter Schaum oder Wasserstrahl. KLEINBRAND: Trockenlöschmittel, CO2 oder Wasserstrahl.
Ungeeignete Löschmittel	Keine Daten verfügbar

5.2 Besondere vom Stoff oder Gemisch ausgehende Gefahren

Ungewöhnliche Brand-und Explosionsgefahren	Die Plastikkartusche enthält Reagenzien, die toxische Kohlenoxid-, Schwefeloxid- und Stickstoffoxiddämpfe abgeben können.
Gefährliche Verbrennungsprodukte	Keine Daten verfügbar

5.3 Hinweise für die Brandbekämpfung

Für die Feuerbekämpfung vorgesehene Standardarbeitsschutzbekleidung bietet einen begrenzten Schutz NUR in Brandfällen; sie ist ineffektiv bei Verschüttungen, wo ein direkter Kontakt mit dem Stoff möglich ist.
Chemikalienschutzbekleidung tragen, die speziell vom Hersteller empfohlen wird. Sie kann wenig oder keinen Thermoschutz bieten.
Umgebungsluftunabhängiges Atemschutzgerät (SCBA) für Überdruckbetrieb tragen.
KLEINBRAND: Behälter aus der Brandzone entfernen, wenn es kein Risiko darstellt.

Abschnitt 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1 Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Persönliche Schutzmaßnahmen	Wenn eine Kartusche bricht, dann sind diese persönlichen Vorkehrungen anzuwenden. Entsprechende Schutzkleidung tragen. Nicht durch das verschüttete Material hindurch gehen. Beschädigte Behälter oder verschüttetes Material ohne geeignete Schutzkleidung nicht anfassen. Geschlossene Räume be- oder entlüften.
Sofortmaßnahmen	Es sind keine Notfallmaßnahmen erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird.

6.2 Umweltschutzmaßnahmen

Nicht in Gewässer, die Kanalisation, Keller oder enge Räume gelangen lassen.

6.3 Methoden und Material für Rückhaltung und Reinigung

Maßnahmen zur Rückhaltung/ Reinigung	Bei kleinen Verschüttungen Handschuhe tragen und Verschüttung mit einem Papiertuch aufnehmen. Verschüttetes Material nicht durch den Abfluss entsorgen.

6.4 Verweis auf andere Abschnitte

Siehe Abschnitt 8 - Einwirkungskontrolle/Personenschutz und Abschnitt 13 - Überlegungen zur Entsorgung.

Abschnitt 7: Handhabung und Lagerung

7.1 Schutzmaßnahmen zur sicheren Handhabung

Handhabung Keine spezielle Handhabung notwendig. Wenn eine Kartusche gebrochen ist, dann ist der Kontakt mit verschütteten Reagenzien zu vermeiden.

7.2 Bedingungen zur sicheren Lagerung unter Berücksichtigung von Umweltverträglichkeiten

Lagerung Produkt gemäß der Etikettierung lagern. Von nicht kompatiblem Material fernhalten. Unter Verschluss aufbewahren. Behälter/Verpackung dicht verschlossen an kühlem, gut belüftetem Ort lagern.

7.3 Spezifische Endanwendungen

Siehe Abschnitt 1.2 - Relevante identifizierte Nutzung.

Abschnitt 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstung

8.1 Zu überwachende Parameter

	Expositionsgrenzwerte/Richtlinien			
	Ergebnis	**ACGIH**	**NIOSH**	**OSHA**
Guanidiniumthiocyanat	TWA	Nicht ermittelt	Nicht ermittelt	Nicht ermittelt

8.2 Begrenzung und Überwachung der Exposition

Technische Maßnahmen/ Kontrollen Es ist eine gute allgemeine Belüftung anzuwenden. Die Belüftungszahl sollte den Bedingungen entsprechen. Prozesskammern, lokale Abzugsanlage oder andere technische Kontrollmittel verwenden, um die Konzentration in der Luft unter den empfohlenen Grenzwerten zu halten. Wenn keine Grenzwerte festgelegt wurden, sind die Konzentrationen auf einem akzeptablen Niveau zu halten.

Persönliche Schutzausrüstung

Atemwege Es wird nicht erwartet, dass Atemschutzgeräte erforderlich sind, sofern das Material unter normalen Bedingungen und wie empfohlen benutzt wird. Ansonsten die OSHA-Vorgaben für Atemschutzgeräte aus 29 CFR 1910.134 oder der Europäischen Norm EN 149 befolgen. Nach NIOSH/MSHA oder der europäischen Norm EN 149 zugelassenes Atemschutzgerät benutzen, wenn die Grenzwerte überschritten werden oder Symptome auftreten.

Augen/Gesicht Schutzbrillen gegen Chemikalienspritzer tragen.

Haut/Körper Schutzkleidung tragen

Umweltkontrollmaßnahmen Beste Praktiken bei Bauleitung und Abfallentsorgung anwenden.

Schlüssel für Abkürzungen
OSHA = Agentur für Sicherheit und Gesundheitsschutz am Arbeitsplatz
TWA = Zeitlich gewichtete Mittelwerte basieren auf einer Exposition von 8 Stunden/Tag, 40 Stunden/Woche

Abschnitt 9: Physikalische und chemische Eigenschaften

9.1 Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Materialbeschreibung			
Physische Gestalt	Flüssigkeit	Aussehen/Beschreibung	Die Reagenzien sind klare, farb- und geruchlose Flüssigkeiten, die in wässrigen Lösungen primär gepuffert sind.
Farbe	Klar	Geruch	Geruchlos
Geruchsschwelle	Fehlende Daten		
Allgemeine Eigenschaften			
Siedepunkt	100 °C (212 °F)	Schmelzpunkt/Gefrierpunkt	0 °C (32 °F)
Zersetzungstemperatur	Fehlende Daten	pH	3,5 bis 8,8
Spezifisches Gewicht/Relative Dichte	Fehlende Daten	Wasserlöslichkeit	Fehlende Daten
Viskosität	Fehlende Daten	Explosive Eigenschaften	Fehlende Daten
Oxidationseigenschaften:	Fehlende Daten		
Volatilität			
Dampfdruck	Fehlende Daten	Dampfdichte	Fehlende Daten
Verdunstungsrate	Fehlende Daten		
Entflammbarkeit			
	182,2222 bis 293,3333 °C (360 bis 560 °F) (Bindungsreagenz)	Obere Expositionsgrenze	Fehlende Daten
Untere Expositionsgrenze	Fehlende Daten	Selbstzündung	Fehlende Daten
Entflammbarkeit (Feststoff, Gas)	Fehlende Daten		
Umwelt			
Oktanol/Wasser-Verteilungskoeffizient	Fehlende Daten		

9.2 Sonstige Angaben

Keine zusätzlichen physikalischen und chemischen Parameter vermerkt.

Abschnitt 10: Stabilität und Reaktivität

10.1 Reaktivität

Keine gefährliche Reaktion bekannt unter Bedingungen der normalen Verwendung.

10.2 Chemische Stabilität

Stabil

10.3 Möglichkeit gefährlicher Reaktionen

Eine gefährliche Polymerisierung findet nicht statt.

10.4 Zu vermeidende Bedingungen

Inkompatibles Material. Eine brennende Plastikkartusche, die Reagenzien enthält, kann toxische Nebenprodukte freisetzen.

10.5 Inkompatible Materialien

Säuren, Oxidationsmittel.

10.6 Gefährliche Zersetzungsprodukte

Eine brennende Plastikkartusche, die Reagenzien enthält, kann toxische Nebenprodukte freisetzen.

Abschnitt 11: Toxikologische Angaben

11.1 Angaben zu toxikologischen Wirkungen

Bestandteile		
Guanidiniumthiocyanat	593-84-0	**Akute Toxizität:** Intraperitoneal-Maus LD50 593 mg/kg

GHS-Eigenschaften	Klassifizierung
Akute Toxizität	**EU/CLP**•Fehlende Daten **UN GHS 3**•Akute Toxizität - oral 5 - ATEmix (oral) = 2965 mg/kg **OSHA HCS 2012**•Fehlende Daten

Abschnitt 12: Umweltbezogene Angaben

12.1 Toxizität

LC50 (Guppy): 89,1 mg/l; 96 h

12.2 Persistenz und Abbaubarkeit

Materialdaten fehlen.

12.3 Bioakkumulationspotenzial

Materialdaten fehlen.

12.4 Mobilität im Boden

Materialdaten fehlen.

12.5 Ergebnisse der PBT- und vPvB-Beurteilung

Es wurde keine PBT- oder vPvB-Bewertung durchgeführt.

12.6 Andere schädliche Wirkungen

Es wurden keine Studien gefunden.

Abschnitt 13: Hinweise zur Entsorgung

13.1 Verfahren der Abfallbehandlung

Produktabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

Verpackungsabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

13.2 Sonstige Angaben

Biologische Proben, Transfervorrichtungen und gebrauchte Kartuschen sind als infektiös anzusehen und mit den üblichen Vorsichtsmaßnahmen zu handhaben. Halten Sie sich bezüglich der angemessenen Entsorgung gebrauchter Kartuschen und nicht verwendeter Reagenzien an die Umweltschutzvorschriften Ihrer Einrichtung. Diese Materialien können chemischen Sondermüll darstellen, der gemäß bestimmten nationalen oder regionalen Vorgehensweisen entsorgt werden muss. Falls die Vorschriften des jeweiligen Landes oder der jeweiligen Region keine klaren Anweisungen zur Entsorgung enthalten, sollten biologische Proben und gebrauchte Kartuschen gemäß den Richtlinien der WHO (Weltgesundheitsorganisation) zur Handhabung und Entsorgung von medizinischen Abfällen entsorgt werden.

Abschnitt 14: Angaben zum Transport

	14.1 UN-Nummer	14.2 Korrekte UN-Bezeichnung des Frachtgutes	14.3 Transportgefahrenklasse(n)	14.4 Verpackungsgruppe	14.5 Umweltrisiken

Svezia
www.cepheidinternational.com
UE: support@cepheideurope.com
Telefono (generale) 33 563 825 319 - UE

1.4 Numero telefonico di emergenza

Produttore 1 (800) 535-5053 - INFOTRAC - Numero telefonico di emergenza attivo 24 ore su 24
Produttore 1 (352) 323-3500 - Fuori dagli USA

Sezione 2: Identificazione dei pericoli

UE/CEE

In ottemperanza a: Normativa (CE) N.1272/2008 (CLP)/REACH 1907/2006 [emendata dalla 453/2010]

2.1 Classificazione della sostanza o della miscela

CLP La seguente Scheda informativa in materia di sicurezza (SDS) è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Il prodotto contiene microsfere e reagenti all'interno della cartuccia oppure in contenitori esterni alla cartuccia. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

CLP

Frasi di rischio	H302 – Nocivo se ingerito H313 – Può essere nocivo per contatto con la pelle H320 – Provoca irritazione oculare
Frasi di prudenza	
Prevenzione	P264 – Lavare accuratamente dopo l'uso. P270 – Non mangiare, né bere, né fumare durante l'uso.
Risposta	P301+P312 – IN CASO DI INGESTIONE accompagnata da malessere: contattare un CENTRO ANTIVELENI o un medico. P330 – Sciacquare la bocca.
Stoccaggio/Smaltimento	P501 – Smaltire il prodotto/recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

2.3 Altri rischi

CLP In base al Regolamento (CE) n. 1272/2008 (CLP), questo materiale non è considerato pericoloso.

UN GHS Revisione 3 (Contenuto delle etichette utilizzate sui prodotti)

In ottemperanza a: Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN Globally Harmonized System of Classification and Labeling of Chemicals, GHS): Revisione della terza edizione

2.1 Classificazione della sostanza o della miscela

UN GHS Tossicità acuta - per via orale 5
Lieve irritazione cutanea 5
Lieve irritazione oculare 2B

2.2 Elementi dell'etichetta

UN GHS

ATTENZIONE

Frasi di rischio	Nocivo se ingerito Può essere nocivo per contatto con la pelle Provoca irritazione oculare
Frasi di prudenza	
Prevenzione	Lavare accuratamente dopo l'uso.
Risposta	In caso di irritazione della pelle: consultare un medico. IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare. Se l'irritazione degli occhi persiste: consultare un medico. In caso di malessere, contattare un CENTRO ANTIVELENI o un medico.
Stoccaggio/Smaltimento	Smaltire prodotto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

2.3 Altri rischi

UN GHS In conformità al Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN GHS) questo prodotto è considerato pericoloso.

Stati Uniti (USA)
In ottemperanza a: OSHA 29 CFR 1910.1200 HCS

2.1 Classificazione della sostanza o della miscela

OSHA HCS 2012 Lieve irritazione oculare 2B

2.2 Elementi dell'etichetta

OSHA HCS 2012

Frasi di rischio Provoca irritazione oculare

Frasi di prudenza

Prevenzione Lavare accuratamente dopo l'uso.

Risposta IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
Se l'irritazione degli occhi persiste: consultare un medico.

Stoccaggio/Smaltimento Smaltire prodotto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

2.3 Altri rischi

OSHA HCS 2012 Ai sensi della normativa statunitense (29 CFR 1910.1200 - Standard per la comunicazione dei pericoli), questo prodotto non è considerato pericoloso.

Canada
In ottemperanza a: WHMIS

2.1 Classificazione della sostanza o della miscela

WHMIS Non classificato

2.2 Elementi dell'etichetta

WHMIS Non è richiesta alcuna etichetta.

2.3 Altri rischi

WHMIS In Canada, il prodotto di cui sopra non è considerato pericoloso ai sensi del sistema di informazioni sui materiali pericolosi sul luogo di lavoro (Workplace Hazardous Materials Information System, WHMIS).

2.4 Altre informazioni

Tutti gli altri reagenti, le perline e i costituenti hanno concentrazioni inferiori all'1% nella miscela o non sono considerati pericolosi per le normative sulla comunicazione del pericolo degli USA (29 CFR 1910.1200), le direttive UE per la classificazione e l'etichettatura delle sostanze e delle miscele o per il Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche e delle miscele.

Sezione 3: Composizione/Informazioni sugli ingredienti

3.1 Sostanze

Il materiale non soddisfa i criteri di classificazione come sostanza.

3.2 Miscele

Composizione					
Nome Chimico	**Identificatori**	**%**	**DL50/CL50**	**Classificazioni Secondo Regolamento/Direttiva**	**Commenti**
Guanidina tiocianato	**CAS:** 593-84-0 **EINECS:** 209-812-1	10-20%	593 mg/kg	**UE CLP:** Toss. acuta 5, H302, H313, H320 **UN GHS:** Toss. acuta 5 (orale); Irrit. cute 5; Irrit. occhi 2B **OSHA HCS 2012:** Toss. acuta 5 (orale); Irrit. occhi 2B	NDD

Sezione 4: Misure di pronto soccorso

4.1 Descrizione delle misure di pronto soccorso

Inalazione Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. Portare la persona colpita all'aria aperta. Somministrare ossigeno se la respirazione è difficile. Non usare il metodo bocca-a-bocca se la vittima ha inalato la sostanza; effettuare la respirazione artificiale con l'ausilio di una mascherina con valvola unidirezionale o altro dispositivo medico adeguato. Se la vittima non respira, effettuare la respirazione artificiale.

Cute Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di limitato contatto con la pelle, evitare la dispersione del materiale sulla pelle non interessata. In caso di contatto con la sostanza, sciacquare immediatamente la pelle con acqua corrente per almeno 20 minuti. Rimuovere e isolare gli indumenti contaminati.

Occhi Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di contatto con la sostanza, sciacquare immediatamente gli occhi con acqua corrente per almeno 20 minuti. Se l'irritazione degli occhi persiste: consultare un medico.

Ingestione Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di ingestione, sciacquare la bocca con acqua (solamente se l'infortunato è cosciente). NON provocare il vomito. Non usare il metodo bocca-a-bocca se la vittima ha ingerito la sostanza. In caso di ingestione consultare immediatamente il medico.

4.2 Sintomi ed effetti più importanti, acuti e ritardati

Consultare la Sezione 11 - Informazioni tossicologiche.

4.3 Indicazione delle attenzioni mediche immediate e dei trattamenti speciali necessari

Note per il medico Tutte le cure dovrebbero basarsi sull'osservazione di segni e sintomi di malessere nel paziente. Dovrebbe essere presa in considerazione la possibilità di sovraesposizione a materiali diversi da questo prodotto.

Sezione 5: Misure antincendio

5.1 Mezzi di estinzione

Mezzi di estinzione adeguati	INCENDI DI AMPIE DIMENSIONI: composto chimico secco, CO2, schiumogeno resistente all'alcol o getto d'acqua. INCENDI DI DIMENSIONI RIDOTTE: composto chimico secco, CO2 o getto d'acqua.
Mezzi di estinzione non adeguati	Nessun dato disponibile

5.2 Rischi speciali che scaturiscono dalla sostanza o dalla miscela

Rischi di esplosione e incendi inconsueti	La cartuccia in plastica contenente i reagenti può emettere vapori tossici di ossidi di carbonio, ossidi di zolfo, ossidi di azoto.
Prodotti di combustione pericolosi	Nessun dato disponibile

5.3 Consiglio per i vigili del fuoco

Gli indumenti antincendio strutturali forniscono una protezione limitata SOLO in condizioni di incendio; non sono efficaci in condizioni di fuoriuscite in cui è probabile il contatto diretto con la sostanza.
Indossare abbigliamento protettivo contro gli agenti chimici specificatamente raccomandato dal produttore. Potrebbe fornire limitata o nessuna protezione termica.
Indossare un apparato di respirazione autonomo funzionante a pressione positiva (self-contained breathing apparatus, SCBA).
INCENDI DI DIMENSIONI RIDOTTE: Spostare i contenitori dall'area colpita dall'incendio se non comporta alcun rischio.

Sezione 6: Misure contro il versamento accidentale

6.1 Precauzioni personali, dispositivi di protezione e procedure di emergenza

Precauzioni personali	Nel caso in cui si rompa una cartuccia, è possibile applicare queste precauzioni personali. Usare indumenti protettivi adatti. Non camminare sul materiale versato. Toccare i contenitori danneggiati o il materiale versato solo dopo aver indossato l'abbigliamento protettivo adeguato. Ventilare le aree chiuse.
Procedure di emergenza	Non si prevede la necessità di procedure di emergenza se il materiale viene utilizzato in condizioni normali come raccomandato.

6.2 Precauzioni ambientali

Evitare l'ingresso in corsi d'acqua, fognature, seminterrati o aree confinate.

6.3 Metodi e materiali per il contenimento e la pulizia

Misure di contenimento/ pulizia	Per piccole fuoriuscite, indossare guanti e assorbire la fuoriuscita con un tovagliolo di carta. Non gettare il materiale fuoriuscito nei tubi di scarico.

6.4 Riferimento ad altre sezioni

Consultare la Sezione 8 - Controlli dell'esposizione / Protezione personale e la Sezione 13 - Considerazioni per lo smaltimento.

Sezione 7: Manipolazione e stoccaggio

7.1 Precauzioni per la manipolazione sicura

Manipolazione Non è necessario nessun trattamento speciale. Nel caso in cui si rompa una cartuccia, evitare il contatto con i reagenti fuoriusciti.

7.2 Condizioni per lo stoccaggio sicuro, incompatibilità eventuali incluse

Stoccaggio Conservare secondo le indicazioni presenti sull'etichetta del prodotto. Tenere lontano dai materiali incompatibili. Conservare sotto chiave. Conservare il recipiente/ contenitore ben chiuso in luogo fresco e ben ventilato.

7.3 Usi finali specifici

Consultare la Sezione 1.2 - Usi pertinenti identificati.

Sezione 8: Controlli di esposizione / Protezione personale

8.1 Parametri di controllo

	Limiti di Esposizione / Linee Guida			
	Risultato	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato di guanidinio	TWA	Non stabilito	Non stabilito	Non stabilito

8.2 Controlli di esposizione

Misure/Controlli tecnici Garantire una ventilazione generale adeguata. I regimi di ventilazione devono essere adeguati alle condizioni. Se applicabile, utilizzare camere di protezione dei processi, impianti di ventilazione locale o altri controlli tecnici per mantenere i livelli di contaminanti aerei al di sotto dei limiti di esposizione raccomandati. Qualora i limiti di esposizione non fossero stati stabiliti, mantenere i contaminanti aerei a un livello accettabile.

Dispositivi di protezione individuale

Respirazione Non si prevede la necessità di attrezzatura respiratoria se il materiale viene utilizzato in condizioni normali come consigliato. Altrimenti, attenersi alle indicazioni del respiratore OSHA disponibili in 29 CFR 1910.134 o nella norma europea EN 149. In caso di superamento dei limiti di esposizione o manifestazione di sintomi, usare un respiratore approvato da NIOSH/MSHA o dalla norma europea EN 149.

Occhi/Volto Indossare occhiali protettivi per sostanze chimiche.

Pelle/Corpo Indossare indumenti protettivi.

Controlli dell'esposizione ambientale Seguire le migliori pratiche per la gestione del sito e per lo smaltimento dei rifiuti.

Legenda delle abbreviazioni
OSHA = Occupational Safety and Health Administration (Agenzia per la salute e la sicurezza sul lavoro)
TWA = Time-Weighted Averages (Medie pesate nel tempo) basate su esposizioni da 8 ore/giorno, 40 ore/settimana

Sezione 9: Proprietà chimico-fisiche

9.1 Informazioni sulle proprietà chimico-fisiche

Descrizione del materiale			
Forma fisica	Liquido	Aspetto/Descrizione	I reagenti sono liquidi inodori, trasparenti e incolori, che vengono stabilizzati principalmente in soluzioni acquose.
Colore	Trasparente	Odore	Inodore
Soglia di odore	Dati mancanti		
Proprietà generali			
Punto di ebollizione	100 °C (212 °F)	Punto di fusione/Punto di congelamento	0 °C (32 °F)
Temperatura di decomposizione	Dati mancanti	pH	Da 3,5 a 8,8
Gravità specifica/densità relativa	Dati mancanti	Solubilità in acqua	Dati mancanti
Viscosità	Dati mancanti	Proprietà esplosive	Dati mancanti
Proprietà ossidanti:	Dati mancanti		
Volatilità			
Pressione di vapore	Dati mancanti	Densità del vapore	Dati mancanti
Tasso di evaporazione	Dati mancanti		
Infiammabilità			
	Da 182,2222 °C a 293,3333 °C (da 360 °F a 560 °F) (reagente legante)	UEL	Dati mancanti
LEL	Dati mancanti	Autoaccensione	Dati mancanti
Infiammabilità (solido, gas)	Dati mancanti		
Ambientali			
Coefficiente di ripartizione ottanolo-acqua	Dati mancanti		

9.2 Altre informazioni

Non sono state osservate altre proprietà chimico-fisiche.

Sezione 10: Stabilità e reattività

10.1 Reattività

Nessuna reazione pericolosa nota nelle normali condizioni di utilizzo.

10.2 Stabilità chimica

Stabile

10.3 Possibilità di reazioni pericolose

Non si verificherà polimerizzazione pericolosa.

10.4 Condizioni da evitare

Materiali incompatibili. La combustione della cartuccia in plastica contenente i reagenti può liberare sottoprodotti tossici.

10.5 Materiali incompatibili

Acidi, agenti ossidanti.

10.6 Prodotti di decomposizione pericolosi

La combustione della cartuccia in plastica contenente i reagenti può liberare sottoprodotti tossici.

Sezione 11: Informazioni tossicologiche

11.1 Informazioni sugli effetti tossicologici

12.1 Tossicità

LC50 (guppy): 89,1 mg/l a 96 h

12.2 Persistenza e degradabilità

Dati materiale mancanti.

12.3 Potenziale di bioaccumulo

Dati materiale mancanti.

12.4 Mobilità nel suolo

Dati materiale mancanti.

12.5 Risultati della valutazione PBT e vPvB

Non sono state condotte valutazioni PBT e vPvB.

12.6 Altri effetti avversi

Non sono stati trovati studi.

Sezione 13: Considerazioni sullo smaltimento

13.1 Metodi di trattamento dei rifiuti

Rifiuti del prodotto Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

Rifiuti di imballaggio Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

13.2 Altre informazioni

I campioni biologici di analisi, i dispositivi di trasferimento e le cartucce usate devono essere trattati come potenziali veicoli di agenti infettivi adottando le precauzioni standard. Attenersi alle procedure di smaltimento dei rifiuti ambientali della propria struttura sanitaria per il corretto smaltimento delle cartucce usate e dei reagenti non utilizzati. Questi materiali potrebbero essere considerati rifiuti chimici pericolosi per il cui smaltimento sarà necessario attenersi a specifiche procedure nazionali o regionali. Se i regolamenti nazionali o regionali non forniscono istruzioni chiare sul corretto smaltimento, i campioni biologici di analisi e le cartucce usate devono essere smaltiti in base alle linee guida dell'OMS (Organizzazione mondiale della sanità) sulla manipolazione e lo smaltimento dei rifiuti medici.

Sección 2 – Identificación de riesgos

UE/CEE

De acuerdo con: Reglamento (CE) Nº 1272/2008 (CLP)/REACH 1907/2006 [modificado por 453/2010]

2.1 Clasificación de la sustancia o mezcla

CLP La siguiente FDS está destinada exclusivamente al uso en laboratorio del producto de la mezcla final acabado. El producto contiene microesferas y reactivos en el cartucho o en los contenedores externos. Las exenciones de revelación de la información de algún componente son conformes al artículo 1(5)(d) del CLP y a la norma 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
No clasificado

2.2 Elementos de la etiqueta

CLP

Declaraciones de riesgo	H302 - Nocivo en caso de ingestión H313 - Puede ser nocivo en contacto con la piel H320 - Provoca irritación ocular
Declaraciones de precaución	
Prevención	P264 - Lavarse concienzudamente tras la manipulación. P270 - No comer, beber ni fumar durante su utilización.
Respuesta	P301+P312 - EN CASO DE INGESTIÓN: Llamar a un CENTRO DE INFORMACIÓN TOXICOLÓGICA o a un médico si se encuentra mal. P330 - Enjuagarse la boca.
Almacenamiento/eliminación	P501 - Eliminar el contenido/el recipiente en conformidad con los reglamentos locales, regionales, nacionales e internacionales.

2.3 Otros riesgos

CLP	De acuerdo con el Reglamento (CE) Nº 1272/2008 (CLP), este material no se considera peligroso.

SGA de la ONU, revisión 3 (Contenido del etiquetado utilizado en los productos)

De acuerdo con: Sistema Globalmente Armonizado (SGA) de Clasificación y Etiquetado de Productos Químicos de la ONU: Tercera edición revisada

2.1 Clasificación de la sustancia o mezcla

SGA de la ONU	Toxicidad oral aguda 5 Irritación dérmica leve 5 Irritación ocular leve 2B

2.2 Elementos de la etiqueta

SGA de la ONU

ADVERTENCIA

Declaraciones de riesgo	Nocivo en caso de ingestión Puede ser nocivo en contacto con la piel Provoca irritación ocular
Declaraciones preventivas	
Prevención	Lavarse concienzudamente tras la manipulación.
Respuesta	En caso de irritación cutánea: Consultar a un médico. EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. Si persiste la irritación ocular: Consultar a un médico. Llamar a un CENTRO DE INFORMACIÓN TOXICOLÓGICA o a un médico en caso de malestar.
Almacenamiento/eliminación	Eliminar el contenido/el recipiente en conformidad con los reglamentos locales, regionales, nacionales e internacionales.

2.3 Otros riesgos

SGA de la ONU — De acuerdo con el Sistema Globalmente Armonizado de Clasificación y Etiquetado de Productos Químicos (SGA), este producto se considera peligroso.

Estados Unidos (EE. UU.)
De acuerdo con: OSHA 29 CFR 1910.1200 HCS

2.1 Clasificación de la sustancia o mezcla

HCS 2012 de la OSHA — Irritación ocular leve 2B

2.2 Elementos de la etiqueta

HCS 2012 de la OSHA

Declaraciones de riesgo	Causa irritación ocular
Declaraciones preventivas	
Prevención	Lavarse concienzudamente tras la manipulación.
Respuesta	EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. Si persiste la irritación ocular: Consultar a un médico.
Almacenamiento/eliminación	Eliminar el contenido/el recipiente en conformidad con los reglamentos locales, regionales, nacionales e internacionales.

2.3 Otros riesgos

HCS 2012 de la OSHA — De acuerdo con el reglamento de los Estados Unidos (29 CFR 1910.1200 - Estándar de Comunicación de Riesgos), este producto no se considera peligroso.

Canadá
De acuerdo con: WHMIS

2.1 Clasificación de la sustancia o mezcla

WHMIS — No clasificado

2.2 Elementos de la etiqueta

WHMIS — No se requieren elementos de etiquetado.

2.3 Otros riesgos

WHMIS — El producto mencionado no se considera peligroso en Canadá, de acuerdo con el Sistema de Información de Materiales Peligrosos en el Lugar de Trabajo (WHMIS).

2.4 Información adicional

Todos los demás reactivos, microesferas y otros constituyentes presentan concentraciones inferiores al 1% en la mezcla y no se consideran peligrosos según los reglamentos de comunicación de riesgos de EE. UU. (29 CFR 1910.1200), las directivas para la clasificación y el etiquetado de sustancias y mezclas de la UE y el Sistema Globalmente Armonizado de clasificación y etiquetado de sustancias y mezclas.

Sección 3 – Composición/información de los ingredientes

3.1 Sustancias

El material no cumple con los criterios de clasificación de sustancias.

3.2 Mezclas

Composición					
Nombre del producto químico	**Identificadores**	**%**	**LD50/LC50**	**Clasificaciones de acuerdo con el reglamento/directiva**	**Comentarios**
Tiocianato de guanidina	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 % - 20 %	593 mg/kg	**CLP UE:** Tox. aguda 5, H302, H313, H320 **SGA de la ONU:** Tox. aguda 5 (oral); Irrit. cutánea 5; Irrit. ocular 2B **HCS 2012 de la OSHA:** Tox. aguda 5 (oral); Irrit. ocular 2B	No hay datos disponibles

Sección 4 – Medidas de primeros auxilios

4.1 Descripción de las medidas de primeros auxilios

Inhalación No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Traslade a la persona al aire libre. Si la respiración resulta difícil, administre oxígeno. No utilice el método de boca a boca si la víctima ha inhalado la sustancia; proporcione respiración artificial con la ayuda de una máscara de bolsillo equipada con una válvula de una sola vía u otro dispositivo médico de respiración adecuado. Si la persona no respira, proporcione respiración artificial.

Piel No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Ante un contacto menor con la piel, evite la difusión del material sobre la piel no afectada. Si entra en contacto con la sustancia, enjuague inmediatamente la piel con agua durante al menos 20 minutos. Retire y aísle la ropa contaminada.

Ojo No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Si entra en contacto con la sustancia, enjuague inmediatamente los ojos con agua durante al menos 20 minutos. Si persiste la irritación ocular: Consultar a un médico.

Ingestión No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. En caso de ingestión, enjuague la boca con agua (solo si la persona está consciente). NO provoque el vómito. No utilice el método de boca a boca si la víctima ha ingerido la sustancia. En caso de ingestión, solicite atención médica inmediatamente.

4.2 Síntomas y efectos más importantes, tanto agudos como retardados

Consulte la Sección 11 - Información toxicológica.

4.3 Indicación de cualquier atención médica inmediata y tratamiento especial necesarios

Notas para el médico Todos los tratamientos deben basarse en señales y síntomas observados en el paciente. Considere si puede haberse producido una sobreexposición a otros materiales distintos de este producto.

Sección 5 – Medidas antiincendios

5.1 Medios de extinción

Medios de extinción adecuados	INCENDIOS MAYORES: Polvo químico seco, CO2, espuma resistente al alcohol o agua pulverizada. INCENDIOS MENORES: Polvo químico seco, CO2 o agua pulverizada.
Medios de extinción inadecuados	No hay datos disponibles

5.2 Riesgos especiales procedentes de la sustancia o mezcla

Riesgos de incendio y explosión inusuales	El cartucho de plástico que contiene reactivos puede emitir vapores tóxicos de óxidos de carbono, óxidos de azufre y óxidos de nitrógeno.
Productos de combustión peligrosa	No hay datos disponibles

5.3 Consejos para el personal antiincendios

El traje de protección estándar del personal antiincendios proporciona protección limitada EXCLUSIVAMENTE contra el fuego; no resulta efectivo ante vertidos donde es posible el contacto directo con la sustancia.
Utilice un traje de protección química específicamente recomendado por el fabricante. Puede proporcionar poca o ninguna protección térmica.
Utilice un equipo de respiración autónomo (ERA) de presión positiva.
INCENDIOS MENORES: Mueva los contenedores del área del incendio si la operación no conlleva riesgos.

Sección 6 – Medidas en caso de liberación accidental

6.1 Precauciones personales, equipamiento protector y procedimientos de emergencia

Precauciones personales	En caso de romperse un cartucho, pueden aplicarse estas precauciones personales. Utilice un traje de protección adecuado. No camine a través del material vertido. No toque los contenedores dañados ni los materiales vertidos a menos que utilice un traje de protección adecuado. Ventile las áreas cerradas.
Procedimientos de emergencia	Se espera que no sea necesario aplicar procedimientos de emergencia si el material se utiliza bajo condiciones normales y del modo recomendado.

6.2 Precauciones medioambientales

Evite la entrada en alcantarillas, vías fluviales, sótanos y espacios cerrados.

6.3 Métodos y materiales de contención y limpieza

Medidas de contención/limpieza	Para vertidos menores, utilice guantes y absorba el vertido con una toalla de papel. No deseche materiales vertidos por el desagüe.

6.4 Referencia a otras secciones

Consulte la Sección 8 - Controles de exposición/protección personal y la Sección 13 - Consideraciones de eliminación.

Sección 7 – Manipulación y almacenamiento

7.1 Precauciones para la manipulación segura

Manipulación No se necesita ninguna manipulación especial. En caso de romperse un cartucho, evite el contacto con los reactivos vertidos.

7.2 Condiciones para el almacenamiento seguro, incluidas posibles incompatibilidades

Almacenamiento Almacénelos de acuerdo con las indicaciones de su etiqueta. Mantenga el producto alejado de materiales incompatibles. Guardar bajo llave. Mantenga el contenedor/ embalaje bien cerrado en un lugar fresco y ventilado.

7.3 Usos finales específicos

Consulte la Sección 1.2 - Usos identificados relevantes.

Sección 8 – Controles de exposición / protección personal

8.1 Parámetros de control

	Directrices/límites de exposición			
	Resultado	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato de guanidinio	TWA	No establecido	No establecido	No establecido

8.2 Controles de exposición

Controles/medidas de ingeniería Es necesaria una buena ventilación general. La tasa de ventilación debe corresponder a las condiciones. Si es posible, utilice recintos de procesamiento, ventilación local u otros controles de ingeniería para mantener los niveles del aire por debajo de los límites de exposición recomendados. Si los límites de exposición no se han establecido, mantenga los niveles del aire a un nivel aceptable.

Equipo de protección individual

Respiratorios No se prevé la necesidad de disponer de equipo respiratorio si el material se utiliza en condiciones normales y de la forma recomendada. De lo contrario, siga los reglamentos para máscaras de la OSHA incluidas en el estándar 29 CFR 1910.134 o en el estándar europeo EN 149. Utilice una máscara aprobada por la NIOSH/MSHA o la norma europea EN 149 si se superan los límites de exposición o se experimentan síntomas.

Ocular/facial Utilice gafas de protección contra salpicaduras químicas.

Piel/cuerpo Utilice un traje de protección

Controles de exposición en el medio ambiente Siga las buenas prácticas para administrar el centro y eliminar residuos.

Clave de abreviaturas
OSHA = Administración de Seguridad y Salud Ocupacional
TWA = Los promedios de tiempo ponderado se basan en exposiciones durante 8 h/día y 40 h/semana

Sección 9 – Propiedades físicas y químicas

9.1 Información sobre las propiedades físicas y químicas

Descripción del material			
Forma física	Líquido	Aspecto/Descripción	Los reactivos son líquidos transparentes, incoloros e inodoros, que se tamponan principalmente en soluciones acuosas.
Color	Transparente	Olor	Inodoro
Umbral de olor	Faltan datos		
Propiedades generales			
Punto de ebullición	100 °C (212 °F)	Punto de fusión / punto de congelación	0 °C (32 °F)
Temperatura de descomposición	Faltan datos	pH	3,5 a 8,8
Gravedad específica / densidad relativa	Faltan datos	Hidrosolubilidad	Faltan datos

9.2 Información adicional

No se han anotado parámetros físicos o químicos adicionales.

Sección 10 – Estabilidad y reactividad

10.1 Reactividad

No se conocen reacciones peligrosas bajo condiciones normales de uso.

10.2 Estabilidad del producto químico

Estable

10.3 Posibilidad de reacciones peligrosas

No ocurrirá polimerización peligrosa.

10.4 Condiciones que deben evitarse

Materiales incompatibles. El cartucho de plástico quemado que contiene reactivos puede liberar subproductos tóxicos.

10.5 Materiales incompatibles

Ácidos, agentes oxidantes.

10.6 Productos de descomposición peligrosos

El cartucho de plástico quemado que contiene reactivos puede liberar subproductos tóxicos.

Sección 11 – Información toxicológica

11.1 Información sobre efectos toxicológicos

Componentes

LD = Dosis letal

Sección 12 – Información ecológica

12.1 Toxicidad

LC50 (guppy): 89,1 mg/l a 96 h

12.2 Persistencia y degradabilidad

Faltan datos de material.

12.3 Potencial bioacumulativo

Faltan datos de material.

12.4 Movilidad en el suelo

Faltan datos de material.

12.5 Resultados de la evaluación de PBT y mPmB

No se ha realizado ninguna valoración de PBT y mPmB.

12.6 Otros efectos adversos

No se han encontrado estudios.

Sección 13 – Consideraciones sobre la eliminación

13.1 Métodos de tratamiento de residuos

Residuos de productos Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

Residuos de embalaje Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

13.2 Información adicional

Las muestras biológicas, los dispositivos de transferencia y los cartuchos usados deben ser considerados capaces de transmitir agentes infecciosos que requieren las precauciones habituales. Siga los procedimientos de eliminación de desechos de su centro para la eliminación adecuada de los cartuchos usados y los reactivos no utilizados. Estos materiales pueden presentar características propias de los residuos químicos peligrosos, que requieren procedimientos específicos de eliminación de carácter nacional o regional. Si las normativas nacionales o regionales no proporcionan instrucciones claras en cuanto a los procedimientos de eliminación adecuados, las muestras biológicas y los cartuchos utilizados deben desecharse de conformidad con las directrices de la OMS (Organización Mundial de la Salud) en cuanto a la manipulación y eliminación de desechos médicos.

15.2 Evaluación de seguridad del producto químico

No se ha llevado a cabo ninguna evaluación de seguridad química.

Sección 16 – Información adicional

Frases pertinentes (código y texto completo)	H302 - Nocivo en caso de ingestión H313 - Puede ser nocivo en contacto con la piel H320 - Provoca irritación ocular
Declaración/descargo de responsabilidad	La información anterior está basada en los datos que tenemos y la consideramos correcta. Debido a que la información puede aplicarse bajo condiciones externas a nuestro control y con las que podemos no estar familiarizados, no asumimos ninguna responsabilidad por los resultados de su uso, y todas las personas que la reciban deberán determinar por sí mismas los efectos, propiedades, protecciones y eliminación correspondientes a sus condiciones particulares. No se efectúa ninguna representación ni garantía, expresa o implícita (incluida ninguna garantía de adecuación o comerciabilidad para un objetivo concreto) respecto a los materiales, la precisión de esta información, los resultados obtenidos de su uso ni los riesgos relacionados con dicho uso del material. Tenga precaución al manipular y utilizar el material. La información superior se considera precisa y se ofrece de buena fe. Proporcionamos toda la información relacionada con la manipulación prevista del material en la fecha de publicación. Sin embargo, en caso de ocurrir un incidente adverso asociado a este producto, esta ficha de datos de seguridad no es ni debe utilizarse como sustituto de la consulta con personal formado adecuadamente.

Ficha de dados de segurança
Data de entrada em vigor: Maio de 2020
Data de substituição: Abril 2020

Xpert CT Assay
Xpert CT/NG Assay

Secção 1: Identificação da substância/mistura e da empresa/projeto

1.1 Identificador do produto

Nome do Produto **Xpert CT Assay; Xpert CT/NG Assay**
Código do produto GXCT-CE-10, GXCT/NG-10, GXCT/NG-CE-10, GXCT/NG-120, GXCT/NG-CE-120, GXCT/NGX-CE-10, GXCT/NGX-CE-120, GXCT/NG-CN-10, GXCT/NG-CN-120, 900-0840, 900-0854

1.2 Usos relevantes da substância ou mistura identificados, e usos não recomendados

Uso(s) relevante(s) identificado(s) Utilização laboratorial

1.3 Detalhes do fornecedor da ficha de dados de segurança do material

Fabricante Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089

UE: support@cepheideurope.com
Telefone (Geral) 33 563 825 319 - UE

1.4 Número de telefone de emergência

Fabricante 1 (800) 535-5053 - INFOTRAC - Emergência durante 24 h
Fabricante 1 (352) 323-3500 - Fora dos EUA

Secção 2: Identificação dos Perigos

UE/CEE

Segundo: Regulamentação (CE) N.º 1272/2008 (CLP)/REACH 1907/2006 [alterada pela 453/2010]

2.1 Classificação da substância ou mistura

CLP A seguinte FDS destina-se apenas à mistura do produto final acabado usado em laboratório. O produto contém esferas e reagentes no cartucho ou nos recipientes à parte. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

CLP

Declarações de risco	H303 – Nocivo por ingestão H313 – Pode ser nocivo em contacto com a pele H320 – Provoca irritação ocular
Declarações de precaução	
Prevenção	P264 – Lavar cuidadosamente após manuseamento. P270 – Não comer, beber ou fumar durante a utilização deste produto.
Resposta	P301+P312 – EM CASO DE INGESTÃO: caso sinta indisposição, contacte imediatamente um CENTRO DE INFORMAÇÃO ANTIVENENOS ou um médico. P330 – Enxaguar a boca.
Armazenamento/Eliminação	P501 – Eliminar o conteúdo e/ou recipiente em conformidade com a regulamentação local, regional, nacional e/ou internacional.

2.3 Outros riscos

CLP	Este material não é considerado perigoso conforme Regulamentação (CE) N.º 1272/2008 (CLP).

GHS da ONU Revisão 3 (Rotulagem utilizada em produtos)

Segundo: Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS) da ONU: Terceira edição revista

2.1 Classificação da substância ou mistura

GHS da ONU	Toxicidade oral aguda 5 Irritação cutânea ligeira 5 Irritação ocular ligeira 2B

2.2 Elementos do rótulo

GHS da ONU

AVISO

Declarações de risco	Nocivo por ingestão Pode ser nocivo em contacto com a pele Provoca irritação ocular
Declarações de precaução	
Prevenção	Lavar cuidadosamente após manuseamento.
Resposta	Em caso de irritação cutânea: consulte um médico. SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar. Caso a irritação ocular persista: consulte um médico. Caso sinta indisposição, contacte um CENTRO DE INFORMAÇÃO ANTIVENENOS ou um médico.
Armazenamento/Eliminação	Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

2.3 Outros perigos

GHS da ONU Este produto é considerado perigoso de acordo com o Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS).

Estados Unidos da América (EUA)
Segundo: OSHA 29 CFR 1910.1200 HCS

2.1 Classificação da substância ou mistura

OSHA HCS 2012 Irritação ocular ligeira 2B

2.2 Elementos do rótulo

OSHA HCS 2012

Declarações de risco Causa irritação ocular

Declarações de precaução

Prevenção Lavar cuidadosamente após manuseamento.

Resposta SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
Caso a irritação ocular persista: consulte um médico.

Armazenamento/Eliminação Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

2.3 Outros perigos

OSHA HCS 2012 Este produto não é considerado perigoso ao abrigo da Regulamentação dos Estados Unidos da América (Norma sobre Comunicação de Riscos - 29 CFR 1910.1200).

Canadá
Segundo: WHMIS

2.1 Classificação da substância ou mistura

WHMIS Não classificado

2.2 Elementos do rótulo

WHMIS Não são necessários elementos do rótulo.

2.3 Outros perigos

WHMIS No Canadá, o produto acima referido não é considerado perigoso ao abrigo do Sistema de Informação de Materiais Perigosos no Local de Trabalho (WHMIS).

2.4 Outras informações

Todos os restantes reagentes, esferas e outros constituintes da mistura estão em concentrações inferiores a 1% ou não são considerados perigosos ao abrigo das regulamentações de comunicação de perigos (29 CFR 1910.1200), das diretivas da UE para a classificação e rotulagem de substâncias ou misturas ou do Sistema Mundial Harmonizado para a classificação e rotulagem de substâncias ou misturas.

Secção 3: Composição/informações sobre os ingredientes

3.1 Substâncias

O material não cumpre os critérios de uma substância.

3.2 Misturas

Composição					
Nome do produto químico	**Identificadores**	**%**	**LD50/LC50**	**Classificações de acordo com regulamentos/diretivas**	**Comentários**
Tiocianato de guanidina	**CAS:** 593-84-0 **EINECS:** 209-812-1	10% - 20%	593 mg/kg	**UE CLP:** Tox. aguda 5, H302, H313, H320 **GHS da ONU:** Tox. aguda 5 (oral); Irrit. pele 5; Irrit. ocular 2B **OSHA HCS 2012:** Tox. aguda 5 (oral); Irrit. ocular 2B	NDA

Secção 4: Medidas de primeiros socorros

4.1 Descrição das medidas de primeiros socorros

Inalação Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Mover a vítima para o ar livre. Administrar oxigénio se a respiração estiver difícil. Não usar o método boca-a-boca se a vítima tiver inalado a substância; ministre respiração artificial com o auxílio de uma máscara de bolso equipada com uma válvula de 1 via ou outro dispositivo médico de respiração adequado. Administrar respiração artificial se a vítima não estiver a respirar.

Pele Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Para um pequeno contacto com a pele, evitar espalhar o material pela pele não afetada. Em caso de contacto com a substância, lavar imediatamente a pele com água corrente por pelo menos 20 minutos. Despir e isolar a roupa contaminada.

Olhos Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de contacto com a substância, lavar imediatamente os olhos com água corrente por pelo menos 20 minutos. Caso a irritação ocular persista: consulte um médico.

Ingestão Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de ingestão, lavar a boca com água (apenas se a pessoa estiver consciente). NÃO provocar o vómito. Não usar o método boca-a-boca se a vítima tiver ingerido a substância. Em caso de ingestão, consultar um médico imediatamente.

4.2 Sintomas e efeitos mais importantes, tanto agudos quanto retardados

Consultar a Secção 11 — Informação Toxicológica.

4.3 Indicação de qualquer cuidado médico imediato e tratamento especial necessários

Notas para o Médico Todos os tratamentos devem basear-se nos sinais e sintomas de perturbações observados no paciente. Deve ser considerada a possibilidade de sobrexposição a outros materiais além deste produto.

Secção 5: Medidas de combate a incêndios

5.1 Meios de extinção

Meios de extinção adequados	GRANDES INCÊNDIOS: Produto químico seco, CO2, espuma resistente ao álcool ou água pulverizada. PEQUENOS INCÊNDIOS: Produto químico seco, CO2 ou água pulverizada.
Meios de extinção inadequados	Sem dados disponíveis

5.2 Perigos especiais provocados pela substância ou mistura

Perigos de Incêndios e Explosões Incomuns	Cartucho de plástico contendo reagentes que podem emitir vapores tóxicos de óxidos de carbono, óxidos de enxofre e óxidos de azoto.
Produtos de combustão perigosos	Sem dados disponíveis

5.3 Conselhos para bombeiros

Roupas protetoras estruturais de bombeiros fornecem APENAS proteção limitada em caso de incêndio; não são eficientes em situações de derramamentos, onde é possível o contacto direto com a substância.
Usar roupa protetora contra produtos químicos que seja especificamente recomendada pelo fabricante. Poderá fornecer proteção térmica mínima ou nenhuma proteção.
Usar aparelho de respiração autónomo de pressão positiva (SCBA).
PEQUENOS INCÊNDIOS: Se não houver perigos, mover os recipientes da área de incêndio.

Secção 6: Medidas contra Libertação Acidental

6.1 Precauções individuais, equipamento protetor e procedimentos em emergências

Precauções pessoais	No caso de um cartucho se partir, aplicam-se estas precauções de proteção individual. Usar vestuário de proteção adequado. Não andar sobre material derramado. Não tocar em recipientes danificados ou material derramado a não ser que tenha vestuário de proteção adequado. Ventilar áreas fechadas.
Procedimentos de emergência	Não se prevê a necessidade de procedimentos de emergência se o material for usado em condições normais e de acordo com as recomendações.

6.2 Precauções ambientais

Evitar a entrada em cursos de água, esgotos, caves ou áreas confinadas.

6.3 Métodos e material para contenção e limpeza

Medidas de Contenção/Limpeza	Em caso de derrames pequenos, usar luvas e absorver o derrame com papel absorvente. Não eliminar os materiais derramados através da canalização.

6.4 Referências para outras secções

Consultar a Secção 8 — Controlo da Exposição/Proteção Individual e a Secção 13 — Considerações relativas à eliminação.

Secção 7: Manuseamento e armazenamento

7.1 Precauções para o manuseamento seguro

Manuseio Não necessita de manuseamento especial. Se o cartucho se partir, evitar o contacto com os reagentes derramados.

7.2 Condições para armazenamento seguro, incluindo quaisquer incompatibilidades

Armazenamento Armazenar de acordo com a documentação do produto. Manter afastado de materiais incompatíveis. Armazenar em local fechado à chave. Guardar o recipiente/embalagem bem fechado em local fresco e bem ventilado.

7.3 Utilização(ões) Final(is) Específica(s)

Consultar a Secção 1.2 — Utilizações identificadas relevantes.

Secção 8: Controlos e exposição/proteção individual

8.1 Parâmetros de controlo

	Limites de Exposição/Orientações			
	Resultado	**ACGIH**	**NIOSH**	**OSHA**
Tiocianato de guanidínio	TWA	Não estabelecidos	Não estabelecidos	Não estabelecidos

8.2 Controlos de exposição

Medidas/Controlos de Engenharia Deve usar-se uma boa ventilação geral. Os níveis de ventilação devem estar adequados às condições. Se aplicável, usar confinamento de processos, ventilação por exaustão local ou outro controlo técnico para manter os níveis de partículas disseminadas por via aérea em suspensão abaixo dos limites de exposição recomendados. Caso não tenham sido definidos limites, manter os níveis destas partículas em suspensão num nível aceitável.

Equipamento de Proteção Individual

Respiratório Não deve ser necessário equipamento respiratório se o material for utilizado nas condições normais e conforme recomendado. Caso contrário, siga as regulamentações do aparelho de respiração OSHA que se encontram na norma 29 CFR 1910.134 ou na Norma Europeia EN 149. Em caso de ultrapassagem dos limites de exposição ou da ocorrência de sintomas, usar um aparelho de respiração aprovado pelo NIOSH/MSHA ou pela Norma Europeia EN 149.

Olhos/Face Usar óculos de proteção contra salpicos de produtos químicos.

Pele/Corpo Usar vestuário de proteção

Controlos Ambientais de Exposição Seguir as melhores práticas para gestão do local e eliminação dos resíduos.

Chave para abreviaturas
OSHA = Agência para a Segurança e Saúde no Trabalho
TWA = A Média Ponderada tem por base a exposição 8 h/dia, 40 h/semana

Secção 9: Propriedades físicas e químicas

9.1 Informações sobre Propriedades Físicas e Químicas

Descrição do material			
Forma física	Líquido	Aspeto/Descrição	Os reagentes são líquidos transparentes e incolores, inodoros, que são, principalmente, tamponados em soluções aquosas.
Cor	Incolor	Odor	Inodoro
Limiar do Odor	Dados em falta		
Propriedades gerais			
Ponto de ebulição	100 °C (212 °F)	Ponto de fusão/Ponto de congelamento	0 °C (32 °F)
Temperatura de decomposição	Dados em falta	pH	3,5 a 8,8
Gravidade específica/Densidade relativa	Dados em falta	Solubilidade em água	Dados em falta
Viscosidade	Dados em falta	Propriedades explosivas	Dados em falta
Propriedades Oxidantes:	Dados em falta		
Volatilidade			
Pressão do vapor	Dados em falta	Densidade do vapor	Dados em falta
Taxa de evaporação	Dados em falta		
Inflamabilidade			
	182,2222 a 293,3333 °C (360 a 560 °F) (Reagente de ligação)	UEL	Dados em falta
LEL	Dados em falta	Autoignição	Dados em falta
Inflamabilidade (sólido/gasoso)	Dados em falta		
Ambiental			
Coeficiente de partição octanol/água	Dados em falta		

9.2 Outras Informações

Não foram observados parâmetros físico-químicos adicionais.

Secção 10: Estabilidade e reatividade

10.1 Reatividade

Desconhecida reação perigosa em condições normais de utilização.

10.2 Estabilidade química

Estável

10.3 Possibilidade de reações perigosas

Não haverá polimerização perigosa.

10.4 Condições a evitar

Materiais incompatíveis. A queima do cartucho de plástico contendo reagentes pode libertar derivados tóxicos.

10.5 Materiais incompatíveis

Ácidos, agentes oxidantes.

10.6 Produtos de decomposição perigosos

A queima do cartucho de plástico contendo reagentes pode libertar derivados tóxicos.

Secção 11: Informações toxicológicas

11.1 Informações sobre efeitos toxicológicos

Componentes		
Tiocianato de guanidínio	593-84-0	**Toxicidade aguda:** Intraperitoneal-Ratinho LD50 593 mg/kg

12.5 Resultados de avaliação PBT e vPvB

Não foi feita a avaliação PB e vPvB.

12.6 Outros efeitos adversos

Não foram encontrados estudos.

Secção 13: Considerações sobre a eliminação

13.1 Métodos de tratamento de dejetos

Produto residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

Embalagem residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

13.2 Outras informações

Amostras biológicas, dispositivos de transferência e cartuchos usados devem ser considerados como tendo potencial de transmissão de agentes infecciosos que exigem precauções padrão. Siga os procedimentos relativos a resíduos ambientais da sua instituição relativamente à eliminação correta de cartuchos usados e reagentes não usados. Estes materiais podem apresentar características de resíduos químicos perigosos que exigem procedimentos de eliminação nacionais ou regionais específicos. Se as regulamentações nacionais ou regionais não disponibilizarem uma indicação clara sobre a eliminação correta, as amostras biológicas e os cartuchos usados devem ser eliminados de acordo com as diretrizes relativas ao manuseamento e à eliminação de resíduos médicos da OMS (Organização Mundial da Saúde).

Secção 14: Informações sobre transporte

	14.1 Número na ONU	14.2 Nome de transporte adequado (ONU)	14.3 Classe(s) de transporte de risco	14.4 Grupo de embalagem	14.5 Perigos ambientais

1.2 Рекомендованные и не рекомендованные способы применения вещества или смеси

Рекомендованные способы применения Для использования в лабораторных условиях

1.3 Сведения об организации, предоставившей паспорт безопасности материала

Производитель Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
United States
www.cepheid.com
EUA: techsupport@cepheid.com

Телефон (общий) 1 (888) 838-3222 – США, дополнит. 2

Телефон (общий) 1 (408) 541-4191 – За пределами США

Поставщик Cepheid AB
Röntgenvägen 5
SE-171 54 Solna
Sweden
www.cepheidinternational.com
UE: support@cepheideurope.com

Телефон (общий) 33 563 825 319 – ЕС

1.4 Телефон для экстренной связи

Производитель 1 (800) 535-5053 – INFOTRAC – круглосуточный телефон экстренного вызова

Производитель 1 (352) 323-3500 – За пределами США

Раздел 2. Идентификация опасности

ЕС/ЕЭС

Согласно: Регламенту ЕК (ЕС) № 1272/2008 (CLP)/REACH 1907/2006 [с поправками, внесенными постановлением 453/2010]

2.1 Классификация вещества или смеси

Регламент CLP Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Продукт содержит гранулы и реактивы в картридже или в отдельных контейнерах. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1)&(2).
Не классифицируется

2.2 Элементы маркировки

Регламент CLP

Указания на опасность	H302 – Вредно при проглатывании H313 – Может причинить вред при попадании на кожу H320 – Вызывает раздражение глаз
Меры предосторожности	
Профилактика	P264 – После использования тщательно вымыть. P270 – Не принимать пищу, не пить и не курить в процессе использования этого продукта.
Реагирование	P301+P312 – ДЕЙСТВИЯ ПРИ ПРОГЛАТЫВАНИИ. При плохом самочувствии немедленно обратиться в ТОКСИКОЛОГИЧЕСКИЙ ЦЕНТР или к врачу-специалисту/терапевту. P330 – Прополоскать рот.
Хранение/удаление в отходы	P501 – Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

2.3 Другие факторы опасности

Регламент CLP	Согласно Регламенту ЕК № 1272/2008 (CLP) этот материал не считается опасным.

СГС ООН, редакция 3 (Содержание маркировки, указываемой на продукции)

Согласно: Согласованная на глобальном уровне система классификации опасности и маркировки химической продукции (СГС) ООН: третья пересмотренная редакция

2.1 Классификация вещества или смеси

СГС ООН	Острая токсичность, перорально, 5 Слабое раздражение кожи, 5 Слабое раздражение глаз, 2B

2.2 Элементы маркировки

СГС ООН

ВНИМАНИЕ!

Указания на опасность	Вредно при проглатывании Может причинить вред при попадании на кожу Вызывает раздражение глаз
Меры предосторожности	
Профилактика	После использования тщательно вымыть.
Реагирование	При раздражении кожи: обратиться за медицинской консультацией/помощью. ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью. При плохом самочувствии обратиться в ТОКСИКОЛОГИЧЕСКИЙ ЦЕНТР или к врачу-специалисту/терапевту.

Хранение/удаление в отходы	Удаление в отходы содержимого и/или тары должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

2.3 Другие факторы опасности

СГС ООН	В соответствии с Согласованной на глобальном уровне системой классификации опасности и маркировки химической продукции (СГС) данный продукт считается опасным.

США
Согласно: OSHA 29 CFR 1910.1200 HCS

2.1 Классификация вещества или смеси

OSHA HCS 2012	Слабое раздражение глаз, 2B

2.2 Элементы маркировки

OSHA HCS 2012

Указания на опасность	Вызывает раздражение глаз.
Меры предосторожности	
Профилактика	После использования тщательно вымыть.
Реагирование	ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.
Хранение/удаление в отходы	Удаление в отходы содержимого и/или тары должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

2.3 Другие факторы опасности

OSHA HCS 2012	Согласно государственным нормам США (документ 29 CFR 1910.1200 – Стандарт-требование об оповещении об опасности) этот продукт не считается опасным.

Канада
Согласно: WHMIS

2.1 Классификация вещества или смеси

WHMIS	Не классифицируется

2.2 Элементы маркировки

WHMIS	Маркировка не требуется.

2.3 Другие факторы опасности

WHMIS	В Канаде указанное выше вещество согласно требованиям Информационной системы по опасным материалам на рабочих местах (WHMIS) не считается опасным.

2.4 Дополнительная информация

Все остальные реактивы, гранулы и прочие составляющие представлены в смеси в концентрациях менее 1% или не считаются опасными согласно Стандартам-требованиям США об оповещении об опасности (29 CFR 1910.1200), директивам ЕС в отношении классификации и маркировки веществ и смесей и Согласованной на глобальном уровне системе классификации опасности и маркировки химической продукции (СГС).

Раздел 3. Состав/информация о компонентах

3.1 Вещества

Материал не отвечает критериям классификации, применяемым к веществам.

3.2 Смеси

Состав					
Химическое наименование	**Идентификаторы**	**%**	**LD50/LC50**	**Классификация в соответствии с нормами/постановлениями**	**Комментарии**
Гуанидина тиоцианат	**CAS:** 593-84-0 **EINECS:** 209-812-1	10–20%	593 мг/кг	**EU CLP:** острая токсичность 5, H302, H313, H320 **СГС ООН:** острая токсичность 5 (перорально); раздражение кожи 5; раздражение глаз 2B **OSHA HCS 2012:** острая токсичность 5 (перорально); раздражение глаз 2B	Нет данных

Раздел 4. Первая медицинская помощь

4.1 Описание мер первой медицинской помощи

Вдыхание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. Вынести пострадавшего на свежий воздух. При затрудненном дыхании дать кислород. При вдыхании вещества не применять искусственное дыхание рот-в-рот. Выполнить искусственное дыхание с помощью карманной маски с клапаном одностороннего действия или другого подходящего медицинского устройства. При остановке дыхания обеспечить искусственное дыхание/ИВЛ.

Кожа Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При незначительном контакте с кожей избегайте распространения материала на незатронутые участки. В случае контакта вещества с кожей незамедлительно промыть пораженный участок проточной водой в течение не менее чем 20 минут. Снять и изолировать загрязненную одежду.

Глаза Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. В случае попадания вещества незамедлительно промыть глаза проточной водой в течение не менее чем 20 минут. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

Проглатывание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При проглатывании прополоскать рот водой (только если человек находится в сознании). НЕ вызывать рвоту. Не применять искусственное дыхание рот-в-рот при проглатывании вещества. При проглатывании материала сразу же обратиться к врачу.

4.2 Наиболее важные симптомы и последствия, проявляющиеся немедленно и с задержкой

См. раздел 11, «Токсикологическая информация».

4.3 Признаки необходимости неотложной медицинской помощи и специального лечения

Примечания для врача Лечение основывать на наблюдаемых симптомах. Учитывать возможность одновременного чрезмерного воздействия на пациента и других веществ, помимо данного продукта.

Раздел 5. Меры противопожарной безопасности

5.1 Средства пожаротушения

Подходящие средства пожаротушения КРУПНЫЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), спиртоустойчивые пенообразователи, распыленная вода.
НЕБОЛЬШИЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), распыленная вода.

Непригодные средства пожаротушения Данные отсутствуют

5.2 Особые аспекты опасности вещества или смеси

Особая огне- и взрывоопасность Пластмассовый картридж содержит реактивы, способные выделять токсичные испарения: оксиды углерода, оксиды серы, оксиды азота.

Опасные продукты горения Данные отсутствуют

5.3 Рекомендации по пожаротушению

Защитная одежда пожарных для тушения пожаров в зданиях обеспечивает ограниченную защиту ТОЛЬКО в условиях пожара; она не является эффективным средством защиты при разливах с возможным непосредственным контактом с веществами.
Носить одежду для химической защиты, рекомендованную производителем. Она может быть малоэффективна или неэффективна в качестве тепловой защиты.
Использовать автономные дыхательные аппараты, работающие в режиме положительного давления.
НЕБОЛЬШИЕ ПОЖАРЫ. Уберите контейнеры из зоны пожара, если можете сделать это без риска.

Раздел 6. Меры по предотвращению и ликвидации последствий случайного выброса материала

6.1 Меры по обеспечению личной безопасности, средства защиты и действия в чрезвычайной ситуации

Меры по обеспечению личной безопасности В случае разбития картриджа актуальны указанные меры по обеспечению личной безопасности. Используйте соответствующую защитную одежду. Не ходите по разлитому/просыпанному материалу. Не прикасайтесь к поврежденным контейнерам или разлитому/просыпанному материалу, если нет соответствующей защитной одежды. Проветрите закрытые помещения.

Действия в чрезвычайных ситуациях Ожидается, что экстренные меры не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций.

6.2 Меры по защите окружающей среды

Не допускать попадания в водотоки, канализацию, подвалы и замкнутые пространства.

6.3 Методы и средства локализации и очистки

Методы и средства локализации и очистки — При небольших разливах используйте перчатки. Для сбора вещества используйте бумажные полотенца. Не сливать пролитые вещества в канализацию.

6.4 Ссылки на другие разделы

См. раздел 8, «Меры контроля воздействия и средства индивидуальной защиты», и раздел 13, «Условия удаления в отходы».

Раздел 7. Правила обращения и хранения

7.1 Меры предосторожности при обращении с продуктом

Обращение — Особое обращение не требуется. В случае разбития картриджа избегайте контакта с разлившимися реактивами.

7.2 Условия безопасного хранения и учет факторов несовместимости

Место хранения — Хранить согласно указаниям на упаковке. Хранить вдали от несовместимых материалов. Хранить под замком. Хранить в плотно закрытом контейнере/упаковке в прохладном, хорошо проветриваемом месте.

7.3 Особые способы применения

См. раздел 1.2, «Рекомендованные способы применения».

Раздел 8. Меры контроля воздействия и средства индивидуальной защиты

8.1 Контрольные параметры

	Предельно допустимые концентрации/рекомендации			
	Результат	**ACGIH**	**NIOSH**	**OSHA**
Гуанидинтиоцианат	TWA	Не установлено	Не установлено	Не установлено

8.2 Меры контроля воздействия

Инженерно-технические мероприятия/средства контроля — Следует обеспечить хорошую общую вентиляцию. Интенсивность вентиляции должна соответствовать условиям хранения/использования. Если возможно, используйте изолированное рабочие пространство, местную вытяжную вентиляцию и прочие инженерно-технические средства для сдерживания концентрации вещества в воздухе на уровне ниже ПДК. Если ПДК не установлены, поддерживайте приемлемые концентрации вещества в воздухе.

Индивидуальные средства защиты

Защита органов дыхания — Ожидается, что средства защиты органов дыхания не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций. В противном случае соблюдайте рекомендации по использованию респираторов Управления охраны труда (OSHA) США, изложенные в документе 29 CFR 1910.134, или Европейского стандарта EN 149. При превышении ПДК или обнаружении признаков поражения используйте респираторы, одобренные Национальным институтом по безопасности и гигиене труда (NIOSH) США, Управлением по безопасности и охране труда в добывающей промышленности (MSHA) США или Европейским стандартом EN 149.

Защита глаз/лица	Носите очки химической защиты.
Защита кожных покровов/тела	Используйте защитную одежду.
Защита окружающей среды	Соблюдайте общие правила работы на объекте и удаления отходов.

Сокращения
OSHA = Управление охраны труда, США (Occupational Safety and Health Administration).
TWA = Средневзвешенная во времени концентрация, вычисляемая на основании воздействия в течение 8 часов в день, 40 часов в неделю.

Раздел 9. Физические и химические свойства

9.1 Информация о физических и химических свойствах

Описание материала			
Физическая форма	Жидкость	Внешний вид/описание	Реактивы представляют собой прозрачные бесцветные жидкости без запаха, в основном буферизованные в водных растворах.
Цвет	Прозрачная	Запах	Без запаха
Порог ощущения запаха	Данные отсутствуют		
Общие свойства			
Точка кипения	100 °C (212 °F)	Температура плавления/замерзания	0 °C (32 °F)
Температура разложения	Данные отсутствуют	pH	от 3,5 до 8,8
Удельный вес/относительная плотность	Данные отсутствуют	Растворимость в воде	Данные отсутствуют
Вязкость	Данные отсутствуют	Взрывчатые свойства	Данные отсутствуют
Окислительные свойства:	Данные отсутствуют		
Летучесть			
Давление паров	Данные отсутствуют	Плотность паров	Данные отсутствуют
Интенсивность испарения	Данные отсутствуют		
Воспламеняемость			
	от 182,2222 до 293,3333 °C (от 360 до 560 °F) (реактив связывания)	ВКПВ (верхний предел взрываемости)	Данные отсутствуют
НПВ (нижний предел взрываемости)	Данные отсутствуют	Самовоспламенение	Данные отсутствуют
Воспламеняемость (в твердом, газообразном состоянии)	Данные отсутствуют		
В отношении окружающей среды			
Коэффициент распределения октанол/вода	Данные отсутствуют		

9.2 Дополнительная информация

Дополнительные физические и химические свойства не обнаружены.

Раздел 10. Стабильность и реакционная способность

10.1 Реакционная способность

В нормальных условиях использования опасные реакции неизвестны.

10.2 Химическая стабильность

Стабильно

10.3 Вероятность опасных реакций

Опасная полимеризация не происходит.

10.4 Условия, которых следует избегать

Несовместимые материалы. При сжигании пластмассового картриджа, содержащего реактивы, могут высвобождаться токсические вещества.

10.5 Несовместимые материалы

Кислоты, окислители.

10.6 Опасные продукты разложения

При сжигании пластмассового картриджа, содержащего реактивы, могут высвобождаться токсические вещества.

Раздел 11. Токсикологическая информация

11.1 Информация о токсикологических последствиях

Компонент		
Гуанидинтиоцианат	593-84-0	**Острая токсичность:** внутрибрюшинное введение - мышь LD50 • 593 мг/кг

Свойства (СГС)	Классификация
Острая токсичность	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Острая токсичность – перорально – категория 5 – расчетная оценка острой токсичности ATEmix (пероральное введение) = 2965 мг/кг **OSHA HCS 2012** • Данные отсутствуют
Разъедающее/раздражающее воздействие на кожу	**EU/CLP** • Данные отсутствуют **СГС ООН 3**• Слабое раздражение кожи, категория 3 **OSHA HCS 2012** • Данные отсутствуют
Серьезное повреждение/раздражение глаз	**EU/CLP** • Данные отсутствуют **СГС ООН 3**• Слабое раздражение глаз, категория 2B **OSHA HCS 2012** • Слабое раздражение глаз, категория 2B
Сенсибилизация кожи	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Сенсибилизация органов дыхания	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Опасность при аспирации	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Канцерогенность	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Мутагенность для зародышевых клеток	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют

Свойства (СГС)	Классификация
Токсическое действие на репродуктивную функцию	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Органоспецифическая токсичность при однократном воздействии (STOT-SE)	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Органоспецифическая токсичность при многократном воздействии (STOT-RE)	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют

Возможные последствия для здоровья

Вдыхание
Острые последствия Может вызвать раздражение.
Хронические последствия Данные отсутствуют

Кожа
Острые последствия Вызывает раздражение кожи.
Хронические последствия Данные отсутствуют

Глаза
Остро выраженные последствия Вызывает раздражение глаз.
Хронические последствия Данные отсутствуют

Проглатывание
Острые последствия Вредно при проглатывании.
Хронические последствия Данные отсутствуют

Сокращения
LD = Летальная доза

Раздел 12. Информация о воздействии на окружающую среду

12.1 Токсичность

LC50 (гуппи): 89,1 мг/л за 96 ч

12.2 Устойчивость и способность к разложению

Данные о материале отсутствуют.

12.3 Способность к биоаккумуляции

Данные о материале отсутствуют.

12.4 Подвижность в почве

Данные о материале отсутствуют.

12.5 Результаты оценки соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества»

Оценка соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества» не производилась.

12.6 Другие неблагоприятные последствия

Исследования не проводились.

Раздел 13. Условия удаления в отходы

13.1 Методы переработки отходов

Отходы продукта Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

Отходы упаковки Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

13.2 Дополнительная информация

Биологические образцы, устройства для переноса и использованные картриджи следует считать возможными переносчиками возбудителей инфекционных заболеваний, и они требуют соблюдения стандартных мер предосторожности. Для правильного удаления в отходы использованных картриджей и неиспользованных реактивов выполняйте принятые в вашем учреждении правила защиты окружающей среды. Эти материалы могут иметь свойства химически опасных отходов и требовать выполнения особых национальных или региональных процедур удаления в отходы. Если принятые в стране или регионе правила не дают ясных указаний по правильному удалению в отходы, биологические образцы и использованные картриджи следует удалять в отходы с соблюдением правил ВОЗ (Всемирной организации здравоохранения) относительно обращения с медицинскими отходами и их удаления.

Раздел 14. Информация о транспортировке

	14.1 Номер ООН	14.2 Отгрузочное наименование ООН	14.3 Классы опасности при транспортировке	14.4 Группа упаковки	14.5 Опасность для окружающей среды

Телефон (загальний) 33 563 825 319 – ЄС

1.4 Номер екстреної служби

Виробник 1 (800) 535-5053 - INFOTRAC - цілодобовий телефон екстреного виклику

Виробник 1 (352) 323-3500 - За межами США

Розділ 2: Визначення небезпеки

ЄС/ЄЄС

Відповідно до: Регламенту (ЄС) № 1272/2008 (CLP)/REACH 1907/2006 [з поправками, внесеними постановою 453/2010]

2.1 Класифікація речовини або суміші

Регламент CLP Цей паспорт з безпеки продукту дійсний лише для готової суміші, яка використовується в лабораторних умовах. У складі продукту містяться гранули та реактиви в картриджі або в окремих контейнерах. Винятки щодо розкриття інформації щодо деяких компонентів відповідають вимогам Статті 1(5)(d) Регламенту CLP і розділу 29 Кодексу федеральних правил (CFR) США 1910.1200(g)(2)(i)(C)(1)&(2).
Не класифікується

2.2 Елементи маркування

Регламент CLP

Повідомлення про небезпеку
H302 – Шкідливо в разі ковтання
H313 – Може завдати шкоди у разі контакту зі шкірою
H320 – Викликає подразнення очей

Вказівки щодо безпеки

Профілактика
P264 – Після використання ретельно вимити.
P270 – Не їжте, не пийте та не куріть під час використання цієї продукції.

Заходи реагування
P301+312 – У РАЗІ ПРОКОВТУВАННЯ: У разі поганого самопочуття негайно звернутися в ТОКСИКОЛОГІЧНИЙ ЦЕНТР або до лікаря-фахівця чи терапевта.
P330 – Прополощіть рот.

Зберігання/утилізація
P501 – Утилізуйте вміст та (або) контейнер відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

2.3 Інші небезпеки

Регламент CLP
Згідно з Постановою (ЄС) № 1272/2008 (CLP), цей матеріал не вважається небезпечним.

Глобально узгоджена в рамках ООН система класифікації небезпеки і маркування хімічної продукції (ГУС), версія 3 (Зміст етикеток, наявних на продукції)

Відповідно до: Глобально узгодженої в рамках ООН системи класифікації небезпеки і маркування хімічної продукції (ГУС) Третя переглянута редакція

2.1 Класифікація речовини або суміші

ГУС ООН
Гостра токсичність перорально 5
Незначне подразнення шкіри 5
Незначне подразнення очей 2B

2.2 Елементи маркування

ГУС ООН

ЗАСТЕРЕЖЕННЯ

Повідомлення про небезпеку
Шкідливо в разі ковтання
Може завдати шкоди у разі контакту зі шкірою
Викликає подразнення очей

Вказівки щодо безпеки

Профілактика
Після використання ретельно промити.

Заходи реагування
У разі подразнення шкіри: Звернутися за медичною консультацією або по допомогу.
У РАЗІ ПОТРАПЛЯННЯ В ОЧІ: Обережно промийте водою протягом кількох хвилин. Зняти контактні лінзи, якщо вони є та якщо це легко зробити. Продовжити промивання.
Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.
У разі поганого самопочуття звернутися в ТОКСИКОЛОГІЧНИЙ ЦЕНТР або до лікаря-фахівця чи терапевта.

Зберігання/утилізація
Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

2.3 Інші небезпеки

ГУС ООН Відповідно до Глобально узгодженої системи класифікації небезпеки і маркування хімічної продукції (ГУС), даний продукт вважається небезпечним.

Сполучені Штати (США)
Відповідно до: OSHA 29 CFR 1910.1200 HCS

2.1 Класифікація речовини або суміші

OSHA HCS 2012 Незначне подразнення очей 2B

2.2 Елементи маркування

OSHA HCS 2012

Повідомлення про небезпеку	Викликає подразнення очей
Вказівки щодо безпеки	
Профілактика	Після використання ретельно промити.
Заходи реагування	У РАЗІ ПОТРАПЛЯННЯ В ОЧІ: Обережно промийте водою протягом кількох хвилин. Зняти контактні лінзи, якщо вони є та якщо це легко зробити. Продовжити промивання. Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.
Зберігання/утилізація	Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

2.3 Інші небезпеки

OSHA HCS 2012 Відповідно до державних норм США (29 CFR 1910.1200 - Стандарт інформування про небезпечні речовини), цей продукт не вважається небезпечним.

Канада
Відповідно до: WHMIS

2.1 Класифікація речовини або суміші

WHMIS Не класифікується

2.2 Елементи маркування

WHMIS Наявність елементів етикетки не обов'язкова.

2.3 Інші небезпеки

WHMIS У Канаді згаданий вище продукт не вважається небезпечним згідно з Інформаційною системою небезпечних матеріалів на робочому місці (Workplace Hazardous Materials Information System).

2.4 Додаткова інформація

Всі інші реактиви, гранули та інші складові представлені в суміші в концентраціях менше 1% або не вважаються небезпечними згідно зі Стандартами-вимогами США щодо сповіщення про небезпеку (29 CFR 1910.1200), директивами ЄС щодо класифікації та маркування речовин і сумішей і Глобальної узгодженої системи класифікації небезпеки та маркування речовин або сумішей (ГУС).

Розділ 3: Склад/Інформація про компоненти

3.1 Речовини

Матеріал не відповідає критеріям речовини.

3.2 Суміші

Склад					
Хімічне найменування	**Ідентифікатори**	**%**	**LD50/LC50**	**Класифікація відповідно до Норм/Директиви**	**Коментарі**
Гуанідинтіоціанат	**CAS:** 593-84-0 **EINECS:** 209-812-1	10%-20%	593 mg/kg (мг/кг)	**ЄС CLP:** Гостра токсичність 5, H302, H313, H320 **ГУС ООН:** Гостра токсичність 5 (перорально); Подразнення шкіри 5; Подразнення очей 2B **OSHA HCS 2012:** Гостра токсичність 5 (перорально); Подразнення очей 2B	NDA

Розділ 4: Заходи першої медичної допомоги

4.1 Опис заходів першої медичної допомоги

Вдихання

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. Винести потерпілого на свіже повітря. При утрудненому диханні дати кисень. При вдиханні речовини не застосовувати штучне дихання рот-в-рот. Виконати штучне дихання за допомогою кишенькової маски з клапаном односторонньої дії або іншого відповідного медичного пристрою. При зупинці дихання забезпечити штучне дихання.

Шкіра

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. При незначному контакті зі шкірою уникайте поширення матеріалу на непошкоджені ділянки. У разі контакту речовини зі шкірою негайно промити уражену ділянку проточною водою протягом не менше ніж 20 хвилин. Зняти та ізолювати забруднений одяг.

Очі

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. У разі потрапляння речовини негайно промити очі проточною водою протягом не менше ніж 20 хвилин. Якщо подразнення очей не проходить: Звернутися за медичною консультацією або по допомогу.

Ковтання

Перша медична допомога не передбачається, якщо матеріал використовується в звичайних умовах та у відповідності до рекомендацій. При ковтанні прополоскати рот водою (тільки якщо людина знаходиться в свідомості). НЕ викликайте блювоту. Не застосовувати штучне дихання рот-в-рот при ковтанні речовини. При ковтанні матеріалу негайно звернутися до лікаря.

4.2 Найважливіші симптоми та наслідки, гострі та ті, що проявляються з затримкою

Див. Розділ 11 - Токсикологічна інформація.

4.3 Признаки необхідної невідкладної медичної допомоги та спеціального лікування

Примітки для лікаря

Всі методи лікування повинні грунтуватися на ознаках та симптомах тривоги, що спостерігаються у пацієнта. Слід враховувати можливість одночасного надмірного впливу на пацієнта й інших речовин, окрім даного продукту.

Розділ 5: Заходи протипожежної безпеки

5.1 Засоби гасіння пожежі

Придатні засоби гасіння пожежі	ВЕЛИКІ ПОЖЕЖІ: Сухий хімічний вогнегасний засіб, вуглекислий газ (CO2), спиртостійкі піноутворювачі або водяний спрей. НЕВЕЛИКІ ПОЖЕЖІ: Сухий хімічний вогнегасний засіб, вуглекислий газ (CO2) або водяний спрей.
Непридатні засоби гасіння пожежі	Дані відсутні

5.2 Особливі аспекти небезпеки, що виникають від речовини або суміші

Незвичайна вогненебезпека та вибухонебезпека	Пластмасовий картридж містить реактиви, здатні виділяти токсичні випари: оксиди вуглецю, оксиди сірки, оксиди азоту.
Небезпечні продукти горіння	Дані відсутні

5.3 Поради для пожежників

Захисний одяг пожежників для гасіння пожеж в будівлях забезпечує обмежений захист ТІЛЬКИ в умовах пожежі; він не є ефективним засобом захисту при розливах з можливим безпосереднім контактом з речовинами.
Носити одяг для хімічного захисту, спеціально рекомендований виробником. Він може бути малоефективний або неефективний в якості теплового захисту.
Використовувати автономні дихальні апарати, що працюють в режимі позитивного тиску (Self-Contained Breathing Apparatus).
НЕВЕЛИКІ ПОЖЕЖІ: Заберіть контейнери із зони пожежі, якщо можете зробити це без ризику.

Розділ 6: Заходи щодо наслідків випадкового викиду матеріалу

6.1 Заходи щодо забезпечення особистої безпеки, засоби захисту та дії при надзвичайній ситуації

Заходи щодо забезпечення особистої безпеки	У разі розбиття картриджа актуальні зазначені заходи щодо забезпечення особистої безпеки. Використовуйте відповідний захисний одяг. Не ходіть по розлитому матеріалу. Не торкайтеся пошкоджених контейнерів або розлитого матеріалу, якщо немає відповідного захисного одягу. Провітріть закриті приміщення.
Дії при надзвичайній ситуації	Очікується, що заходи при надзвичайних ситуаціях не будуть потрібні, якщо матеріал використовується в звичайних умовах і з дотриманням рекомендацій.

6.2 Заходи по захисту навколишнього середовища

Не допускати викидання у водостоки, каналізацію, підвали і замкнутий простір.

6.3 Методи і засоби локалізації і очищення

Засоби локалізації і очищення	При невеликих розливах використовуйте рукавички. Для збору речовини використовуйте паперові рушники. Не зливати пролиті речовини в каналізацію.

6.4 Посилання на інші розділи

Див. Розділ 8, «Заходи контролю впливу та засоби індивідуального захисту», і розділ 13, «Умови утилізації».

Розділ 7: Правила поводження та зберігання

7.1 Запобіжні заходи з метою безпечного поводження з продуктом

Поводження Не потребує особливого поводження. У разі розбиття картриджа уникайте контакту з розлитими реактивами.

7.2 Умови безпечного зберігання, враховуючи всі фактори несумісності

Зберігання Зберігати відповідно до вказівок на упаковці. Тримати подалі від несумісних матеріалів. Зберігати під замком. Зберігати в щільно закритому контейнері/упаковці в прохолодному, добре провітрюваному місці.

7.3 Особливі способи застосування

Див. Розділ 1.2 - Рекомендовані і нерекомендовані способи використання речовини або суміші.

Розділ 8: Заходи контролю впливу та засоби індивідуального захисту

8.1 Параметри контролю

	Гранично допустимі концентрації/рекомендації			
	Результат	**ACGIH**	**NIOSH**	**OSHA**
Гуанідинтиоціанат	TWA	Не визначався	Не визначався	Не визначався

8.2 Контроль максимально допустимої концентрації

Інженерно-технічні заходи/засоби контролю Необхідно забезпечити добру загальну вентиляцію. Інтенсивність вентиляції повинна відповідати умовам. Якщо можливо, використовуйте ізольований робочий простір, місцеву витяжну вентиляцію та інші інженерно-технічні засоби для підтримання концентрації речовини в повітрі на рівні нижче максимально допустимої концентрації. Якщо рівень максимально допустимої концентрації не встановлено, підтримуйте прийнятні концентрації речовини в повітрі.

Індивідуальні засоби захисту

Захист органів дихання Очікується, що засоби захисту органів дихання не будуть потрібні, якщо матеріал використовується в звичайних умовах і з дотриманням рекомендацій. В іншому випадку дотримуйтесь рекомендацій по використанню респіраторів Управління охорони праці (OSHA) США, викладених в документі 29 CPP 1910.134, або Європейського стандарту EN 149. При перевищенні максимально допустимої концентрації або виявленні ознак ураження використовуйте респіратори, схвалені Національним інститутом з безпеки та гігієни праці (NIOSH) США, Управлінням з безпеки і охорони праці у видобувній промисловості (MSHA) США або Європейським стандартом EN 149.

Захист очей/обличчя Одягайте окуляри хімічного захисту.

Захист шкіри/тіла Одягайте захисний одяг

Захист навколишнього середовища Дотримуйтесь загальних рекомендацій роботи на об'єкті та утилізації відходів.

Скорочення
OSHA = Управління охорони праці, США
TWA = Середньозважена в часі концентрація, що обчислюється на основі впливу протягом 8 годин в день, 40 годин на тиждень.

Розділ 9: Фізичні та хімічні властивості

9.1 Інформація про фізичні та хімічні властивості

Опис матеріалу			
Фізична форма	Рідина	Зовнішній вигляд/Опис	Реагенти – це прозорі безбарвні рідини без запаху, які на первинному рівні є у буферних водних розчинах.
Колір	Прозора	Запах	Без запаху
Поріг відчуття запаху	Дані відсутні		
Загальні властивості			
Точка кипіння	100 °C (212 °F)	Температура плавлення/замерзання	0 °C (32 °F)
Температура розпаду	Дані відсутні	pH	3,5–8,8
Питома вага/відносна щільність	Дані відсутні	Розчинність у воді	Дані відсутні
В'язкість	Дані відсутні	Вибухові властивості	Дані відсутні
Окислювальні властивості:	Дані відсутні		
Волатильність			
Тиск парів	Дані відсутні	Щільність парів	Дані відсутні
Швидкість випаровування	Дані відсутні		
Вогненебезпечність			
	182,2222–293,3333 °C (360–560 °F) (реагент зв'язування)	ВМВ (Верхня межа вибуховості)	Дані відсутні
НМВ (Нижня межа вибуховості)	Дані відсутні	Самозаймання	Дані відсутні
Вогненебезпечність (в твердому, газоподібному стані)	Дані відсутні		
В навколишньому середовищі			
Коефіцієнт розподілення октанол/вода	Дані відсутні		

9.2 Додаткова інформація

Додаткові фізичні та хімічні властивості не виявлені.

Розділ 10: Стабільність і реакційна здатність

10.1. Реакційна здатність

В нормальних умовах використання небезпечні реакції невідомі.

10.2. Хімічна стабільність

Стабільно

10.3. Імовірність небезпечних реакцій

Небезпечна полімеризація не відбувається.

10.4. Умови, яких слід уникати

Несумісні матеріали. При спалюванні пластмасового картриджа, що містить реактиви, можуть вивільнятися токсичні побічні речовини.

10.5. Несумісні матеріали

Кислоти, окислювачі.

10.6. Небезпечні продукти розпаду

При спалюванні пластмасового картриджа, що містить реактиви, можуть вивільнятися токсичні речовини.

Розділ 11: Токсикологічна інформація

11.1. Інформація про токсикологічні наслідки

Компонент		
Гуанідинтиоціанат	593-84-0	**Гостра токсичність:** Внутрішньочеревно-миша LD50 • 593 mg/kg (мг/кг)

Ковтання	
Гострі наслідки	Шкідливо в разі ковтання.
Хронічні наслідки	Дані відсутні

Скорочення
LD = летальна доза

Розділ 12: Інформація про вплив на навколишнє середовище

12.1. Токсичність

LC50 (лабораторні рибки): 89,1 mg/l (мг/л) @ 96 год

12.2. Стійкість і здатність до розпаду

Дані про матеріал відсутні.

12.3. Здатність до біоакумуляції

Дані про матеріал відсутні.

12.4. Мобільність у ґрунті

Дані про матеріал відсутні.

12.5. Результати оцінки відповідності ознакам «сталої біоакумулятивної токсичної речовини» і «дуже стійкої біоакумулятивної речовини»

Оцінка відповідності ознакам «сталої біоакумулятивної токсичної речовини» і «дуже стійкої біоакумулятивної речовини» не проводилася.

12.6. Інші небажані явища

Дослідження не проводились.

Розділ 13: Умови утилізації

13.1. Методи обробки відходів

Відходи продукту Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

Відходи упаковки Утилізацію вмісту та (або) контейнера необхідно здійснювати відповідно до місцевих, регіональних, державних і (або) міжнародних норм.

13.2 Додаткова інформація

Біологічні зразки, пристрої для перенесення та використані картриджі слід вважати можливими переносниками збудників інфекційних захворювань, які вимагають дотримання стандартних заходів безпеки. Для правильної утилізації використаних картриджів і невикористаних реактивів дотримуйтеся прийнятих у вашому закладі правил захисту довкілля. Ці матеріали можуть мати властивості хімічно небезпечних відходів і вимагати виконання особливих державних або регіональних процедур для їх утилізації. Якщо прийняті в країні або регіоні правила не дають ясних указівок щодо правильної утилізації цих відходів, біологічні зразки та використані картриджі слід утилізувати з дотриманням правил ВООЗ (Всесвітньої організації охорони здоров'я) щодо поводження з медичними відходами та їх утилізації.

Розділ 14: Інформація щодо транспортування

	14.1 Номер ООН	14.2 Вантажне найменування ООН	14.3 Клас(и) небезпеки при транспортуванні	14.4 Група упаковки	14.5 Небезпека для навколишнього середовища

15.2 Оцінка хімічної безпеки

Оцінка хімічної безпеки не проводилась.

Розділ 16: Додаткова інформація

Відповідні фрази (код і текст)

H302 – Шкідливо в разі ковтання
H313 – Може завдати шкоди у разі контакту зі шкірою
H320 – Викликає подразнення очей

Відмова від відповідальності/обмеження відповідальності

Представлені вище відомості базуються на доступних нам даних і вважаються вірними. В зв'язку з тим, що представлена інформація може бути використана в незалежних від нас та невідомих нам умовах, ми не несемо відповідальності за наслідки її використання, і всі особи, які отримують цю інформацію, повинні самостійно приймати рішення щодо наслідків застосування, властивостей, засобів захисту та способів утилізації відповідно до конкретних умов застосування. Ми не поручаємо, не даємо жодних гарантій та зобов'язань, явних або передбачуваних (включаючи гарантії придатності або товарної придатності для конкретної цілі), щодо матеріалів та точності даної інформації, отриманих при їх використанні результатів, а також небезпек, пов'язаних із використанням даного матеріалу. При поводженні з матеріалом та його використанні слід проявляти обережність. Представлена вище інформація передана добросовісно з упевненістю в її точності. Ми надаємо всю інформацію, що стосується передбачуваного використання матеріалу, станом на момент публікації. Однак, у разі небажаних наслідків, пов'язаних із даним продуктом, цей паспорт з безпеки продукту не є і не може бути заміною консультації з відповідним спеціалістом.

Xpert CT Assay
Xpert CT/NG Assay

第 1 章：物质/混合物标识和公司/企业标识

1.1 产品标识符

产品名称	**Xpert CT Assay; Xpert CT/NG Assay**
产品代码	GXCT-CE-10, GXCT/NG-10, GXCT/NG-CE-10, GXCT/NG-120, GXCT/NG-CE-120, GXCT/NGX-CE-10, GXCT/NGX-CE-120, GXCT/NG-CN-10, GXCT/NG-CN-120, 900-0840, 900-0854

1.2 物质或混合物的有关确定用途及其使用建议

有关确定用途	实验室使用

1.3 供应商安全数据表详情

制造商		Cepheid 904 Caribbean Drive Sunnyvale, CA 94089 United States www.cepheid.com US：techsupport@cepheid.com
	电话（通用）	1 (888) 838-3222 - 美国（选 2）
	电话（通用）	1 (408) 541-4191 - 美国境外
供应商		Cepheid AB Röntgenvägen 5 SE-171 54 Solna Sweden www.cepheidinternational.com 欧盟: support@cepheideurope.com
	电话（通用）	33 563 825 319 - 欧盟

1.4 紧急电话号码

制造商	1 (800) 535-5053 - INFOTRAC - 24 小时紧急电话
制造商	1 (352) 323-3500 - 美国境外

第 2 章：危险标识

EU/EEC
根据：第 1272/2008 号规章（欧共体）(CLP)/REACH 1907/2006 [修订版 453/2010]

2.1 物质或混合物的分类

CLP	以下 SDS 适用于仅用于实验室的最终混合物成品。产品含有微珠和试剂，装于样品匣中或样品匣外的容器中。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。 未分类

安全数据表
生效日期：2020 年 5 月
更换日期：2020 年 4 月

Xpert CT Assay
Xpert CT/NG Assay

2.2 标签元素

CLP

危险声明 H302 -吞入有害。
H313 - 与皮肤接触可能有害
H320 - 导致眼睛刺激

防范声明

预防 P264 - 处理之后彻底清洗。
P270 - 使用本产品时，不要进餐、饮用或吸烟。

响应 P301 + P312 - 如果吞入：感到身体不适时，立即呼叫解毒中心或医生/医师。
P330 - 漱口。

贮存/处置 P501 - 与地方、区域、国家和/或国际法规的规定处置内容物和/或容器。

2.3 其他危害

CLP 依据第 1272/2008 号 (EC) 法规 (CLP)，此材料不属于有危害材料。

UN GHS 修订版 3 (使用于产品上的标签内容)

根据：联合国 (UN) 全球化学品统一分类和标签制度 (GHS)：第三次修订版

2.1 物质或混合物的分类

UN GHS
急性经口毒性 5
轻度皮肤刺激 5
轻度眼刺激 2B

2.2 标签元素

UN GHS

警告

危险声明 吞入有害。
导致眼睛刺激

防范声明

预防 操作之后要彻底清洗。

响应 如果发生皮肤刺激：获得医疗指导/就医治疗。
如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。
感到身体不适时，呼叫解毒中心或医生/医师。

贮存/处置 与地方、区域、国家和/或国际法规的规定处理内容和/或容器。

2.3 其他危险

UN GHS　　根据全球统一分类和标签制度（GHS），认为该产品是危险品。

美国（US）
根据：OSHA 29 CFR 1910.1200 HCS

2.1 物质或混合物的分类

OSHA HCS 2012　　轻度眼刺激 2B

2.2 标签元素

OSHA HCS 2012

危险声明　造成眼刺激
防范声明
预防　操作之后要彻底清洗。
响应　如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。
贮存/处置　与地方、区域、国家和/或国际法规的规定处理内容和/或容器。

2.3 其他危险

OSHA HCS 2012　　根据美国法规（29 CFR 1910.1200 - 危害通识标准），认为该产品属于非危险品。

加拿大
根据：WHMIS

2.1 物质或混合物的分类

WHMIS　　未分类

2.2 标签元素

WHMIS　　不要求标签元素。

2.3 其他危险

WHMIS　　在加拿大，根据工作场所有害物质信息系统（WHMIS），认为上述产品不是危害性物品。

2.4 其他信息

所有其他制剂、颗粒和其他组分的浓度在混合物中均低于 1%，或者根据美国危害通识法规 (29 CFR 1910.1200)、欧盟物质或混合物分类与标签指令或全球物质或混合物分类与标签统一制度均不被认为是危险物质。

Xpert CT/NG Assay

第 3 章：成分构成/信息

3.1 物质

该材料不符合某种物质的标准。

3.2 混合物

构成					
化学名称	**标识符**	**%**	**LD50/LC50**	**按规章/指令分类**	**注解**
硫氰酸胍	**CAS：** 593-84-0 **EINECS：** 209-812-1	10% - 20%	593 mg/kg	**EU CLP：** 急性毒性 5、H302、H313、H320 **UN GHS：** 急性毒性 5（口服）；皮肤刺激 5；眼刺激 2B **OSHA HCS 2012：** 急性毒性 5（口服）；眼刺激 2B	NDA

第 4 章：急救措施

4.1 急救措施描述

吸入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。将受害者移至新鲜空气处。如果呼吸困难，就施用氧气。如果受害者吸入该物质，就不要使用口对口方法；借助配备单向阀或其他适当的呼吸医疗设备的袖珍面罩来给予人工呼吸。如果受害者没有呼吸，就给予人工呼吸。

皮肤

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。对于轻微的皮肤接触，避免使物质扩散到未受影响的皮肤上。在与物质接触的情况下，立即用流动的水冲洗眼睛至少 20 分钟。脱掉并隔离受污染的衣物。

眼睛

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。在与物质接触的情况下，立即用大量的水冲洗眼睛至少 20 分钟。如果眼睛刺激持续：获得医疗指导/就医治疗。

摄入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。如果吞入，用水漱口（只有当伤员意识清楚时）。切勿催吐。如果受害者摄入该物质，请勿使用口对口人工呼吸法。如果摄入，立即就医。

4.2 急性及缓发的最重要症状及效应

请参阅第 11 章 - 毒物学信息。

4.3 任何需要立即就医及特别治疗的症候

对医生的注释

所有治疗措施均应根据所观察到的患者的痛苦症状和体征进行。应考虑可能发生过度暴露于非本品材料的可能性。

第 5 章：消防措施

5.1 灭火介质

适用的灭火介质 大火：化学干粉、二氧化碳、抗溶性泡沫或喷水
小火：化学干粉，二氧化碳或喷水。

不适用的灭火介质 无可用数据

5.2 由物质或混合物产生的特殊危险

异常火灾和爆炸危险 盛装试剂的塑料检测盒可能会散发碳氧化物、硫氧化物、氮氧化物有毒蒸气。

有害燃烧产物 无可用数据

5.3 供消防队员采纳的建议

建筑消防员的防护服在火情中只能提供有限的保护；它在可能与物质直接接触的溢出情况下无效。
穿上制造商专门推荐的化学防护服。它可能提供很少或根本没有提供热保护。
配戴正压自给式呼吸装置 (SCBA)。
小火：如果能够无风险地完成，就从火区移出容器。

第 6 章：意外释放措施

6.1 个人预防措施、防护装备和紧急程序

个人预防措施 万一盒子断裂，则适用于这些个人预防措施。穿戴适当的防护服。切勿踩踏泄漏物。除非穿着适当的防护服，否则不要触碰损坏的容器或溢出的物质。使封闭的地区通风。

应急程序 如果在一般条件下并且按照推荐的方法使用材料，预计不必要执行应急程序。

6.2 环保预防措施

防止进入水道、下水道、地下室或封闭区域

6.3 用于遏制/净化的方法和材料

遏制/净化措施 对于少量撒漏，戴手套并用纸巾吸附撒漏物。切勿将撒漏的材料冲刷到排水管道中予以处置。

6.4 其他各章的参考

请参阅第 8 章 - 接触控制/个人防护以及第 13 章 - 处置注意事项。

第 7 章：操作和贮存

7.1 用于安全操作的预防措施

操作 无需任何特殊操作。如果盒子断裂，避免接触撒漏的试剂。

7.2 包括任何不相容性的安全贮存条件

贮存 按产品标签予以贮存。远离不相容材料。上锁贮存。将容器/包装在阴凉、通风良好之处保持密闭。

7.3 特定最终用途

请参阅第 1.2 条 - 有关确定用途。

第 8 章：接触控制/个人防护

8.1 控制参数

	接触限值/指南			
	结果	ACGIH	NIOSH	OSHA
硫氰酸胍	TWA	未确立	未确立	未确立

8.2 接触控制

工程措施/控制 应当使用良好的通用通风设施。通风速率应当与环境相配。如果适用，使用工艺外罩、局部排气通风或其它工程控制设施，以保持空气中的浓度低于推荐的接触限值。如果尚未确定接触限值，就将空气中的浓度保持在可接受的水平。

个人防护装备

呼吸 如果在一般条件下按照推荐方法使用材料，无需使用呼吸防护装置。否则，遵循 29 CFR 1910.134 或欧洲标准 EN 149 中的 OSHA 呼吸防护装置规定。如果超过接触限值或出现症状，就使用 NIOSH/MSHA 或欧洲标准 EN 149 认可的呼吸器。

眼睛/面部 佩戴防化学剂飞溅护目镜。

皮肤/身体 穿戴防护服

环境接触控制 遵守厂区管理和废物处置最佳规范。

略语表
OSHA = 职业安全和健康管理局
TWA = 时间加权平均值根据 8 小时/天、40 小时/周的接触量来确定

Xpert CT/NG Assay

第 9 章：物理性质和化学性质

9.1 有关物理性质和化学性质的信息

材料描述			
外形	液体	外形/描述	试剂是清澈、无色的液体，无味，主要是没有臭味，主要是在水溶液中缓冲。
颜色	清澈	气味	无味
气味阈值	数据缺乏		
一般性质			
沸点	100 °C（212 °F）	熔点/凝固点	0 °C（32 °F）
分解温度	数据缺乏	pH 值	3.5 至 8.8
比重/相对密度	数据缺乏	水溶解度	数据缺乏
粘度	数据缺乏	易爆性质	数据缺乏
氧化性性质：	数据缺乏		
挥发性			
蒸气压力	数据缺乏	蒸气密度	数据缺乏
蒸发速率	数据缺乏		
易燃性			
	182.2222 至 293.3333 °C（360 至 560 °F（结合试剂）	爆炸上限	数据缺乏
爆炸下限	数据缺乏	自燃点	数据缺乏
易燃性（固体、气体）	数据缺乏		
环境方面			
辛醇/水分配系数	数据缺乏		

9.2 其他信息

未注明额外的物理和化学参数。

第 10 章：稳定性和反应性

10.1 反应性

在正常使用条件下，未知有危险反应。

10.2 化学稳定性

稳定

10.3 危险反应的可能性

不会发生危险的聚合反应。

10.4 应避免的情况

不相容的材料。燃烧盛装试剂的塑料检测盒可能会释放有毒副产物。

10.5 不相容的材料

酸、氧化剂。

10.6 危险的分解产物

燃烧盛装试剂的塑料检测盒可能会释放有毒副产物。

第 11 章：毒物学信息

11.1 有关毒物学效应的信息

组成成分		
硫氰酸胍	593-84-0	**急性毒性：** 腹腔-小鼠 LD50 593 mg/kg

GHS 危险种类	危险类别
急性毒性	EU/CLP•缺乏数据 UN GHS 3•急性毒性 - 口服 5 - ATEmix（口服） = 2965 mg/kg OSHA HCS 2012•缺乏数据
皮肤腐蚀/刺激	EU/CLP•缺乏数据 UN GHS 3•轻度皮肤刺激 3 OSHA HCS 2012•缺乏数据
严重眼损伤/刺激	EU/CLP•缺乏数据 UN GHS 3•轻度眼刺激 2B OSHA HCS 2012•轻度眼刺激 2B

潜在健康影响

吸入
急性（立即） 可能引起刺激。
慢性（缓发） 无可用数据
皮肤
急性（立即） 导致皮肤刺激。
慢性（缓发） 无可用数据
眼睛
急性（立即） 造成眼刺激。
慢性（缓发） 无可用数据
摄入
急性（立即） 如果吞入是有害的。
慢性（缓发） 无可用数据

略语表
LD = 致死剂量

第 12 章：生态学信息

12.1 毒性

LC50（孔雀鱼）：89.1 mg/L @ 96 小时

12.2 持久性和降解性

材料数据缺失。

12.3 生物累积的潜力

材料数据缺失。

12.4 土壤中的移动性

材料数据缺失。

12.5 PBT 及 vPvB 评估的结果

尚未进行 PBT 和 vPvB 评估。

12.6 其他不良效应

未发现研究成果。

第 13 章：处置注意事项

13.1 废物处理方法

产品废物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。
包装废弃物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

13.2 其他信息

生物样本、转移设备以及用过的检测盒应被视为能够传播传染性病原体，必须采取标准预防措施。有关如何正确丢弃用过的检测盒和未使用过的试剂的信息，请遵循您所在机构的环境废物管理程序。这些材料可能会显示出需要为其执行特定的国家或地区的处置程序的化学危险废物的特性。如果国家或地区的法规没有明确的妥善处置规定，生物样本和使用过的检测盒应根据 WHO（世界卫生组织）的医疗废弃物处理和处置原则来处理。

第 14 章：运输信息

	14.1 UN 编号	14.2 UN 正式运输名称	14.3 运输危险分类	14.4 包装组	14.5 环境危害
DOT	未规定	未规定	未规定	未规定	不适用
TDG	未规定	未规定	未规定	未规定	不适用
IMO/IMDG	未规定	未规定	未规定	未规定	不适用
IATA/ICAO	未规定	未规定	未规定	未规定	不适用

14.6 用户特殊防护措施

未列明。

14.7 根据 MARPOL 73/78 的附件 II 以及 IBC 规范规定的散装运输

缺乏数据。

第 15 章：法规信息

15.1 针对特定物质或混合物的安全、卫生和环境条例/法规

SARA 危险性分类 急性

準拠: OSHA 29 CFR 1910.1200 HCS

2.1 物質や混合物の分類

OSHA HCS 2012 軽度の眼刺激2B

2.2 ラベル要素

OSHA HCS 2012

危険有害性情報 眼への刺激を引き起こす

予防情報

予防 取り扱いの後、十分に洗う。

応答 目に入った場合:数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目の刺激が続く場合:医師の助言/手当てを受ける。

保管・処分 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器を廃棄してください。

2.3 その他危険性

OSHA HCS 2012 米国規定(29 CFR 1910.1200 - 危険有害性周知基準)に基づき、本製品は危険物とみなされません。

カナダ
準拠: WHMIS

2.1 物質や混合物の分類

WHMIS 未分類

2.2 ラベル要素

WHMIS ラベル要素は必要ありません。

2.3 その他危険性

WHMIS カナダでは、上述の製品は作業場にある危険物に関する情報システム (WHMIS)に基づき危険物とみなされません。

2.4 その他情報

その他のすべての試薬、ビーズ、その他の成分は、混合物の 1%未満であるか、または米国ハザード通信規制(29 CFR 1910.1200)、物質または混合物の分類と表示に関する EU 指令、または物質または混合物の分類と表示に関する世界調和システムで有害とみなされていない。

セクション 3:成分の組成・情報

3.1 物質

本剤は、材料区分を満たしません。

3.2 混合物

合成物					
化学名	**識別子**	**%**	**LD50/LC50**	**規定/指針に基づく分類**	**コメント**
チオシアン酸グアニジン	**CAS:**593-84-0 **EINECS:**209-812-1	10%～20%	593 mg/kg	**EU CLP:**急性毒性 5、H302、H313、H320 **UN GHS:**急性毒性 5(経口)、皮膚のかゆみ 5、目のかゆみ 2B、 **OSHA HCS 2012:**急性毒性 5(経口)、目のかゆみ 2B	NDA

セクション 4:応急処置手段

4.1 応急措置手段

吸引

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。被災者を新鮮な空気がある場所に移す。呼吸困難の場合は酸素を供給する。被災者が物質を吸引した場合、口移し式人工呼吸を行ってはならない; 一方向バルブの付いたポケットマスクや、その他の適切な呼吸医療装置を使って人工呼吸を行う。被災者が呼吸していない場合は、人工呼吸を施す。

皮膚

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。軽度の皮膚との接触では、影響を受けていない皮膚に物 質を広げないようにする。物質と接触した場合は、最低 20 分間、直ちに流水で皮膚を洗浄する。汚染した衣類を取り除いて隔離する。

目

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。物質と接触した場合は、最低 20 分間、直ちに流水で目を洗浄する。目の刺激が続く場合:医師の助言/手当てを受ける。

摂取

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。飲み込んだ場合は、水で口をゆすいではならない(意識がある場合)。嘔吐を誘発しないでください。被災者が物質を摂取した場合は口移し式人工呼吸を行ってはならない。摂取した場合は直ちに医師の手当てを受ける。

4.2 もっとも重要な症状と影響、急性および遅発性

第十一項　毒性に関する情報を参照してください。

4.3 直ちに医学的配慮と特別治療を必要とする兆候

医師へのメモ

治療はすべて、患者の苦痛の兆候および症状に基づき行われる必要があります。本製品以外の物質に著しくさらされた可能性について考慮する必要があります。

セクション 5:消化手段

5.1 消火剤

適切な消火剤 大規模火災:乾燥した化学品、二酸化炭素、耐アルコール泡消火剤、散水
小規模火災:乾燥した化学品、二酸化炭素、散水

不適切な消火剤 データなし

5.2 物質や混合物から発生する特別な危険

異常な火災と爆発の危険 試薬を含むプラスチック製カートリッジは、炭素酸化物、硫黄酸化物、窒素酸化物の有毒な蒸気を放出することがあります。

有害な燃焼生物 データなし

5.3 消防士への助言

建物火災用消防用服が火災状況で提供する保護は限定されている; 流出した状況では物質に直接接触する可能性があるため、効果がない。
製造業者が推奨する化学品防護服を着用する。熱に対する保護は、ある程度、またはまったく提供されない。
陽圧自給式呼吸器(SCBA)を着用する。
小規模火災: 危険を冒さずにできる場合は、火災区域 から容器を移動させる動かす。

セクション 6:漏出時の措置

6.1 人体に対する注意事項、保護具、および緊急時措置

人体に対する注意事項 カートリッジが破損した場合、これらの人体に対する予防措置が適用されます。適切な保護服を着用する。漏出した物質を通って歩かない。適切な保護服を着用せずに破損した容器または漏出した物質に触れてはならない。閉じ込められた場所を換気する。

応急措置 物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されない。

6.2 影響に対する注意事項

水路、下水道、地下室、囲まれた区域に流入するのを防ぐ。

6.3 閉じ込めと清掃の手段と物質

閉じ込めと清掃の手段 少量の流出の場合は、手袋を着用し、ペーパータオルで流出を吸収してください。流出した物質を排水溝に廃棄しないでください。

6.4 他のセクションへの言及

第八項 爆発管理/安全保護、および第十三項 廃棄時の注意事項を参照してください。

セクション 7:取り扱いと保管

7.1 安全な取り扱いについての注意

取り扱い

特別な取扱いは必要ありません。カートリッジが破損した場合、漏出した試薬に触れないようにしてください。

7.2 安全な保管の条件、不適合性を含む

保管

製品ラベルに従って保管してください。互換性をもたない物質から離す。鍵をかけて保管する。容器/パッケージをしっかりと密閉し、涼しく、風通しの良い場所に保管してください。

7.3 具体的な最終用途

セクション 1.2 関連する使用方法に関する情報を参照してください。

セクション 8:暴露管理・個人保護

8.1 管理パラメータ

	曝露限度／ガイドライン			
	結果	ACGIH	NIOSH	OSHA
グアニジンチオシアネート	TWA	設定なし	設定なし	設定なし

8.2 曝露管理

工学的手段・管理

十分な通気を確保してください。通規率は状況に応じて適切に調整してください。該当する場合は、包囲装置、局所排気装置、またはその他のエンジニアリングコントロール装置を使って、空気中の粉塵レベルが推奨暴露限界を超えないようにしてください。暴露レベルが確定されていない場合は、許容範囲の粉塵量を維持してください。

個人用保護具

呼吸器官

物質が通常の状況でかつ推奨通りに使用される場合、呼吸装置が必要であることは予測されません。もし必要な場合、OSHA 呼吸器規制に関しては、29 CFR 1910.134 または 欧州標準 EN 149 をご覧ください。暴露基準を超える場合、あるいは症状が発症した場合は、NIOSH/MSHA または 欧州標準 EN 149 保護マスクをご使用ください。

目・顔面

化学物飛散防止ゴーグルを着用してください。

皮膚・人体

保護服を着用してください。

環境暴露管理

現場管理および廃棄物の取り扱いは十分注意して行ってください。

略語について
OSHA = 労働安全衛生局
TWA = 時間加重平均値は、8 時間/1 日、40 時間/1 週間の暴露に基づいた数値です。

セクション 9:物理的および化学的特性

9.1 物理的および化学的特性

材料の説明			
物理的形状	液体	外観/記述	試薬は、主に水溶液で緩衝された、透明、無色、無臭の液体である。
色	透明	臭気	無臭
臭気限界	データ不足		
一般的性質			
沸騰点	100°C(212°F)	融解点・凝固点	0°C(32°F)
分解温度	データ不足	pH	3.5～8.8
比重・相対密度	データ不足	水溶性	データ不足
粘性	データ不足	爆発特性	データ不足
酸化特性:	データ不足		
揮発度			
蒸気圧	データ不足	蒸気密度	データ不足
蒸発速度	データ不足		
可燃性			
	182.2222～293.3333°C (360°F～560°F)(結合試薬)	UEL	データ不足
LEL	データ不足	自己発火	データ不足
可燃性(固体、ガス)	データ不足		
環境曝露管理			
オクタノール・水分配係数	データ不足		

9.2 その他情報

その他に物理的および化学的パラメータの記載はありません。

セクション 10:安定性と反応性

10.1 反応性

通常の使用において、危険反応は報告されていません。

10.2 化学安定性

安定

10.3 有害反応の可能性

危険物のポリメリゼーションは発生しません。

10.4 回避すべき条件

不適合物質。試薬を含むプラスチック製カートリッジを燃焼すると、毒性の副産物を放出する可能性があります。

10.5 不適合物質

酸、酸化試薬。

10.6 有害分解性生物

試薬を含むプラスチック製カートリッジを燃焼すると、毒性の副産物を放出する可能性があります。

セクション 11:毒性情報

11.1 毒性効果

成分

考えられる健康への影響

吸引
急性(即座) 過敏症が生じる場合があります。
慢性(遅発性) データなし
皮膚
急性(即座) 皮膚に炎症を起こす。
慢性(遅発性) データなし
目
急性(即座) 目の炎症を起こす。
慢性(遅発性) データなし
摂取
急性(即座) 飲み込んだ場合、健康に支障を生じる。
慢性(遅発性) データなし

略語について
LD = 致死量

セクション 12:生態学的情報

12.1 毒性

LC50(グッピー):96 時間で 89.1 mg/L

12.2 持続性と分解性

実態データが不足しています。

12.3 生体内蓄積能

実態データが不足しています。

12.4 土壌中移動性

実態データが不足しています。

12.5 PBT と vPvB 評価の結果

PBT および vPvB アセスメントは行われていません。

12.6 その他有害影響

そのような研究結果はありません。

セクション 13:廃棄上の注意

13.1 廃棄物処理手段

製品廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

包装廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

13.2 その他情報

生物検体、移動器具および使用済みカートリッジは、標準的予防策を必要とする感染体(病原菌)を伝播する可能性があると見なしてください。使用済みカートリッジや、未使用の試薬の適切な廃棄については、当該施設の環境廃棄物手順に従ってください。これらは、国や地域の特別な廃棄手順に従う必要のある化学品有害廃棄物の特徴を示す可能性があります。国の法律や地域の条例により、適切な廃棄処理について、明確な指示が出されていない場合、生物検体や使用済みカートリッジは WHO(世界保健機関)の医療廃棄物の取り扱いおよび廃棄についてのガイドラインに従って廃棄してください。

セクション 14:輸送情報

	14.1 UN 番号	14.2 UN 正式輸送品目名	14.3 輸送有害性等級	14.4 包装等級	14.5 環境有害性
DOT	規制なし	規制なし	規制なし	規制なし	該当なし

Avsnitt 2: Farliga egenskaper

EU/EEG

Enligt: Förordning (EG) nr 1272/2008 (CLP)/REACH 1907/2006 [ändrad genom 453/2010]

2.1 Klassificering av ämnet eller blandningen

CLP Följande säkerhetsdatablad avser endast den färdiga blandningsprodukten som den används i laboratorium. Produkten innehåller pärlor och reagens i kassetten eller i separata behållare. Undantag för att avslöja någon komponentinformation gäller enligti enlighet med CLP artikel 1(5)(d) och 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Inte klassificerad

2.2 Märkta element

CLP

Faroangivelser	H302 – Skadligt vid förtäring H313 – Kan vara skadligt vid hudkontakt H320 – Orsakar ögonirritation.
Skyddsangivelser	
Förebyggande	P264 – Tvätta grundligt efter hantering. P270 – Ät inte, drick inte och rök inte när du använder produkten.
Svar	P301+P312 – VID FÖRTÄRING: Vid obehag, kontakta omedelbart GIFTINFORMATIONSCENTRAL eller läkare. P330 – Skölj munnen.
Förvaring/avfall	P501 – Avyttra innehåll och/eller behållaren i enlighet med lokala, regionala, nationella och/eller internationella förordningar.

2.3 Övriga faror

CLP Enligt förordning (EG) Nr 1272/2008 (CLP) anses detta material inte vara farligt.

FN GHS Revidering 3 (Etiketteringsinnehåll som används på produkter)

Enligt: Förenta Nationernas Globally Harmonized Standard of Classification and Labeling of Chemicals (GHS, globalt harmoniserat system för klassificering och märkning av kemikalier): Tredje reviderade utgåvan

2.1 Klassificering av ämnet eller blandningen

FN GHS

Akut toxicitet – oral 5
Mild hudirritation 5
Mild ögonirritation 2B

2.2 Märkningsuppgifter

FN GHS

VARNING

Faroangivelser	Skadligt vid förtäring Kan vara skadligt vid hudkontakt Orsakar ögonirritation
Skyddsangivelser	
Förebyggande	Tvätta noggrant efter hantering.
Svar	Vid hudirritation: Sök läkarhjälp. VID KONTAKT MED ÖGONEN: Skölj försiktigt med vatten i flera minuter. Ta ur eventuella kontaktlinser om det går lätt. Fortsätt att skölja. Vid bestående ögonirritation: Sök läkarhjälp. Vid obehag, kontakta GIFTINFORMATIONSCENTRAL eller läkare.
Förvaring/avfall	Avyttra innehållet och/eller behållaren i enlighet med lokala, regionala, nationella och/eller internationella förordningar.

2.3 Andra faror

FN GHS Enligt Globally Harmonized Standard for Classification and Labeling (GHS, globalt harmoniserat system för klassificering och märkning av kemikalier) anses den här produkten vara farlig.

Förenta staterna (USA)
Enligt: OSHA 29 CFR 1910.1200 HCS

2.1 Klassificering av ämnet eller blandningen

OSHA HCS 2012 Mild ögonirritation 2B

2.2 Märkta element

OSHA HCS 2012

Faroangivelser Orsakar ögonirritation

Skyddsangivelser

Förebyggande Tvätta noggrant efter hantering.

Svar VID KONTAKT MED ÖGONEN: Skölj försiktigt med vatten i flera minuter. Ta ur eventuella kontaktlinser om det går lätt. Fortsätt att skölja.
Vid bestående ögonirritation: Sök läkarhjälp.

Förvaring/avfall Avyttra innehållet och/eller behållaren i enlighet med lokala, regionala, nationella och/eller internationella förordningar.

2.3 Andra faror

OSHA HCS 2012 Enligt United States Regulations (29 CFR 1910.1200 – Riskkommunikationsstandard), anses produkten inte vara farlig.

Kanada
Enligt: WHMIS

2.1 Klassificering av ämnet eller blandningen

WHMIS Inte klassficerad

2.2 Märkta element

WHMIS Inga märkta element erfordras.

2.3 Andra faror

WHMIS I Kanada anses produkten som nämns ovan inte vara en riskprodukt enligt Workplace Hazardous Materials Information System (WHMIS) (Material informationssystem för arbetsplatsrisker).

2.4 Övrig information

Alla andra reagenser, kulor, och andra beståndsdelar har koncentrationer mindre än 1 % i blandningen eller anses inte farliga enligt amerikanska regler för riskkommunikation (29 CFR 1910.1200), EU-direktiv för klassificering och märkning av ämnen eller blandningar eller Global Harmonization System för klassificering och märkning av ämnen eller blandningar.

Avsnitt 3: Sammansättning/Information om beståndsdelar

3.1 Ämnen

Materialet uppfyller inte kriterierna för ett ämne.

3.2 Blandningar

Sammansättning					
Kemiskt namn	**Identifierare**	**%**	**LD50/LC50**	**Klassificeringar enligt förordning/direktiv**	**Kommentarer**
Guanidintiocyanat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10 % till 20 %	593 mg/kg	**EG CLP:** Akut tox. 5, H302, H313, H320 **FN GHS:** Akut tox. 5 (orl); Hudirrit. 5; Ögonirrit. 2B **OSHA HCS 2012:** Akut tox. 5 (orl); Ögonirrit. 2B	Inga data tillgängliga

Avsnitt 4: Åtgärder vid första hjälpen

4.1 Beskrivning av åtgärder vid första hjälpen

Inandning Det förväntas inget behov av första hjälpen om materialet används under normala omständigheter och rekommenderat. För personen till frisk luft. Ge syrgas vid besvärad andning. Använd inte mun mot mun metoden om den drabbade inandat ämnet, ge konstgjord andning med pocketmask utrustad med en envägsventil eller med annan lämplig medicinsk andningsutrustning. Ge konstgjord andning om den drabbade inte andas.

Hud Det förväntas inget behov av första hjälpen om materialet används under normala omständigheter och rekommenderat. Vid mindre hudkontakt, undvik att sprida materialet på opåverkad hud. Vid kontakt med ämnet, skölj huden omedelbart med rinnande vatten i minst 20 minuter. Ta bort kontaminerad klädsel.

Ögon Det förväntas inget behov av första hjälpen om materialet används under normala omständigheter och rekommenderat. Vid kontakt med ämnet, skölj ögonen omedelbart med rinnande vatten i minst 20 minuter. Vid bestående ögonirritation: Sök läkarhjälp.

Förtäring Det förväntas inget behov av första hjälpen om materialet används under normala omständigheter och rekommenderat. Vid förtäring skölj munnen med vatten (endast om personen är vid medvetande). Framkalla INTE kräkning. Använd inte mun mot mun metoden om den drabbade svalt ämnet. Sök läkarvård omedelbart vid förtäring.

4.2 De viktigaste symptomen och effekterna, både akuta och fördröjda

Se avsnitt 11 – Toxikologisk information.

4.3 Indikation på omedelbar medicinsk vård och specialbehandling vid behov

Läkaranvisningar Alla behandlingar bör baseras på observerade tecken och symtom på obehag hos patienten. Hänsyn bör tas till möjligheten att överexponering för andra material än den här produkten material kan ha skett.

Avsnitt 5: Brandbekämpningsåtgärder

5.1 Släckmedel

Lämpliga släckmedel STORA BRÄNDER: Torr kemikalie, CO2, alkoholresistent skum eller vattenspray.
MINDRE BRÄNDER: Torra kemikalier, CO2 eller vattenspray.

Olämpliga bekämpningsmedel Inga data tillgängliga

5.2 Särskilda faror som upp står hos ämnet eller blandningen

Ovanliga brand- eller explosionsrisker Plastkassetter som innehåller reagenser kan avge giftiga ångor av koloxider, svaveloxider, kväveoxider.

Farliga förbränningsprodukter Inga data tillgängliga

5.3 Råd till brandbekämpningspersonal

Skyddskläsel för brandmän som bekämpar bränder i byggnadskonstruktioner ger ENDAST begränsat skydd vid brandsituationer; den fungerar inte vid spillsituationer där direktkontakt med materialet kan förekomma.
Använd kemisk skyddskläsel specifikt rekommenderad av tillverkaren. Den kan ge lite eller inget termiskt skydd.
Använd alltid sluten andningsapparat med övertryck (SCBA).
MINDRE BRÄNDER: Flytta behållare från brandområdet om det är möjligt utan risk.

Avsnitt 6: Åtgärder vid oavsiktliga utsläpp

6.1 Personliga försiktighetsåtgärder, skyddsutrustning och förfaranden i nödsituationer

Personliga försiktighetsåtgärder I den händelse att kassetten är trasig är dessa personliga försiktighetsåtgärder tillämpliga. Använd lämplig skyddskläsel. Gå inte genom spillt material. Rör inte skadade behållare eller spillt material utan lämplig skyddskläsel. Ventilera stängda utrymmen.

Förfaranden i nödsituationer Inga nödsituationsprocedurer förväntas bli nödvändiga om materialet används under vanliga omständigheter och enligt rekommendationer.

6.2 Miljömässiga säkerhetsåtgärder

Förhindra spridning till vattenvägar, avlopp, källare eller slutna utrymmen.

6.3 Metoder och material för inneslutning och sanering

Inneslutning/ saneringsåtgärder För mindre spill, använd handskar och absorbera spill med pappershandduk. Avyttra inte spillt material i avlopp.

6.4 Referenser till andra avsnitt

Se avsnitt 8 – Exponeringskontroll/personligt skydd och avsnitt 13 – Avfallshantering.

Avsnitt 7: Hantering och lagring

7.1 Försiktighetsåtgärder för säker hantering

Hantering Ingen särskild hantering är nödvändig. Undvik kontakt med utspillda reagenser om en kassett är trasig.

7.2 Förhållanden för säker lagring, inklusive eventuell oförenlighet

Förvaring Förvara enligt produktmärkning. Håll borta från inkompatibla material. Förvaras inlåst. Förvara behållare/förpackning väl tillsluten, svalt och med ordentlig ventilation.

7.3 Specifik slutanvändning(ar)

Se avsnitt 1.2 – Identifierade relevanta användningar.

Avsnitt 8: Begränsning av exponeringen/personligt skydd

8.1 Kontrollparametrar

	Gränsvärden/riktlinjer för exponering			
	Resultat	**ACGIH**	**NIOSH**	**OSHA**
Guanidintiocyanat	TWA	Ej fastställt	Ej fastställt	Ej fastställt

8.2 Kontroller av exponering

Tekniska åtgärder/kontroller Ordentlig ventilation skall ombesörjas. Ventilationshastigheten ska överensstämma med situationen. Om tillämpligt använd processinneslutning, punktutsug eller andra tekniska åtgärder som håller luftburna nivåer under rekommenderade exponeringsgränser. Om exponeringsgränsen inte fastställts, håll luftburna nivåer på en acceptabel nivå.

Personlig skyddsutrustning

Respiratoriska Det förväntas inget behov av andningsutrustning om materialet används under normala omständigheter och enligt det som är rekommenderat. Om det ändå används ska OSHA-reglerna för andningsutrustning följas i enlighet med 29 CFR 1910.134 eller European Standard EN 149. Använd NIOSH/MSHA eller European Standard EN 149 godkänd andningsutrustning om exponeringsgränserna överskrids eller symptom förekommer.

Ögon/ansikte Använd stänkskyddsglasögon för kemikalier.

Hud/kropp Använd skyddsklädsel

Begränsning av miljöexponeringen Följ bästa praxis för platshantering och avfallshantering.

Nyckeln till förkortningar
OSHA = Occupational Safety and Health Administration (Arbetsmiljöverket)
TWA = Genomsnittligt värde per tidsenhet är baserat på en exponering på 8 tim/dag, 40 tim/vecka

Avsnitt 9: Fysikaliska och kemiska egenskaper

9.1 Information om fysikaliska och kemiska egenskaper

Materialbeskrivning			
Fysisk form	Vätska	Utseende/beskrivning	Reagenserna är klara, färglösa vätskor utan lukt som är primärt buffrade i vattenlösningar.
Färg	Klar	Lukt	Luktlös
Lukttröskel	Data saknas		
Allmänna egenskaper			
Kokpunkt	100 °C (212 °F)	Smältpunkt/fryspunkt	0 °C (32 °F)
Sönderdelningstemperatur	Data saknas	pH	3,5 till 8,8
Specifik vikt/relativ densitet	Data saknas	Löslighet i vatten	Data saknas
Viskositet	Data saknas	Explosiva egenskaper	Data saknas
Oxiderande egenskaper:	Data saknas		
Volatilitet			
Ångtryck	Data saknas	Ångdensitet	Data saknas
Avdunstningshastighet	Data saknas		
Brandfarlighet			
	182,2222 till 293,3333 °C (360 till 560 °F) (Bindande reagens)	Övre exponeringsgräns	Data saknas
Nedre exponeringsgräns	Data saknas	Självantändning	Data saknas
Brandfarlighet (fast, gas)	Data saknas		
Miljö			
Fördelningskoefficient oktanol/vatten	Data saknas		

9.2 Övrig information

Inga ytterligare fysikaliska och kemiska egenskaper noterade.

Avsnitt 10: Stabilitet och reaktivitet

10.1 Reaktivitet

Inga farliga reaktioner kända under normala användningsvillkor.

10.2 Kemisk stabilitet

Stabil

10.3 Risken för farliga reaktioner

Farlig polymerisation uppstår inte.

10.4 Förhållanden som ska undvikas

Oförenliga material. Brinnande plastkassetter som innehåller reagens kan frigöra toxiska biprodukter.

10.5 Oförenliga material

Syror, oxiderande medel.

10.6 Farliga sönderdelningsprodukter

Brinnande plastkassetter som innehåller reagens kan frigöra toxiska biprodukter.

Avsnitt 11: Toxikologisk information

11.1 Information om toxikologiska effekter

Komponenter		
Guanidintiocyanat	593-84-0	**Akut toxicitet:** Intraperitoneal–mus LD50 593 mg/kg

Potentiella hälsoeffekter

Inandning
Akut (omedelbart) Kan orsaka irritation.
Kronisk (försenad) Inga data tillgängliga
Hud
Akut (omedelbart) Orsakar hudirritation.
Kronisk (försenad) Inga data tillgängliga
Ögon
Akut (omedelbart) Orsakar ögonirritation.
Kronisk (försenad) Inga data tillgängliga
Förtäring
Akut (omedelbart) Skadligt vid förtäring.
Kronisk (försenad) Inga data tillgängliga

Nyckeln till förkortningar
LD = Dödlig dos

Avsnitt 12: Ekologisk information

12.1 Toxicitet

LC50 (guppy): 89,1 mg/l vid 96 h

12.2 Motståndskraft och nedbrytbarhet

Materialdata saknas.

12.3 Bioackumuleringsförmåga

Materialdata saknas.

12.4 Rörligheten i jord

Materialdata saknas.

12.5 Resultat av PBT- och vPvB-bedömningen

Ingen PBT- och vPvB-bedömning har gjorts.

12.6 Andra skadliga effekter

Inga studier har hittats.

Avsnitt 13: Avfallshantering

13.1 Metoder för behandling av avfall

Produktavfall	Avyttra innehållet och/eller behållaren i enlighet med lokala, regionala, nationella och/eller internationella förordningar.
Förpackningsavfall	Avyttra innehållet och/eller behållaren i enlighet med lokala, regionala, nationella och/eller internationella förordningar.

13.2 Övriga upplysningar

Biologiska prover, överföringsanordningar och använda kassetter bör anses kunna överföra smittämnen som kräver standardåtgärder. Följ din institutions rutiner för korrekt bortskaffande av använda kassetter och oanvända reagens. Dessa material kan uppvisa egenskaper som kemiskt farligt avfall som kräver specifika nationella eller regionala bortskaffningsförfaranden. Om nationella eller regionala föreskrifter inte ger tydliga riktlinjer för korrekt bortskaffande ska biologiska prover och använda kassetter kasseras enligt WHO:s (Världshälsoorganisationens) föreskrifter om hantering och bortskaffande av avfall.

Avsnitt 14: Transportinformation

	14.1 FN-nummer	14.2 FN lämpligt transportnamn	14.3 Transport riskklass(er)	14.4 Förpackningsgrupp	14.5 Miljöfaror
DOT	Ej reglerat	Ej reglerat	Ej reglerat	Ej reglerat	Inte tillämpligt

Produsen 1 (352) 323-3500 - Di Luar AS

Bagian 2: Identifikasi Bahaya

UE/EEC

Sesuai dengan: Peraturan (EC) No 1272/2008 (CLP)/REACH 1907/2006 [diubah dengan 453/2010]

2.1 Klasifikasi Zat atau Campuran

CLP LDK yang berikut ini untuk produk campuran jadi akhir saja sebagaimana digunakan di laboratorium. Produk berisi manik dan reagensia dalam kartrid atau dalam wadah di luar sistem. Pengecualian untuk pengungkapan beberapa informasi komponen menurut Artikel CLP 1(5)(d) dan 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Tidak dinyatakan

2.2 Elemen Label

CLP

Pernyataan Bahaya	H302 – Berbahaya jika ditelan H313 – Dapat berbahaya jika terkena kulit H320 – Menyebabkan iritasi mata
Pernyataan Kehati-hatian	
Pencegahan	P264 – Cuci dengan saksama setelah penanganan. P270 – Jangan makan, minum, atau merokok ketika menggunakan produk ini.
Respons	P301+312 – JIKA TERTELAN: Hubungi SENTRA INFORMASI KERACUNAN NASIONAL atau dokter segera jika Anda merasa kurang sehat. P330 – Bilas mulut.
Penyimpanan/Pembuangan	P501 – Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

2.3 Bahaya Lain

CLP	Sesuai dengan Peraturan (EC) No. 1272/2008 (CLP) bahan ini tidak dianggap berbahaya.

GHS PBB Revisi 3 (Pelabelan Isi yang Digunakan pada Produk)

Sesuai dengan: Sistem Harmonisasi Global Klasifikasi dan Pelabelan pada Bahan Kimia (GHS) PBB: Edisi Revisi Ketiga

2.1 Klasifikasi Zat atau Campuran

GHS PBB	Toksisitas Akut Oral 5 Iritasi Kulit Ringan 5 Iritasi Mata Ringan 2B

2.2 Elemen Label

GHS PBB

PERINGATAN

Pernyataan Bahaya	Berbahaya jika ditelan Dapat berbahaya jika terkena kulit Menyebabkan iritasi mata
Pernyataan Kehati-hatian	
Pencegahan	Cuci dengan saksama setelah penanganan.
Respons	Jika terjadi iritasi kulit: Dapatkan saran/bantuan medis. JIKA TERKENA MATA: Bilas dengan hati-hati menggunakan air selama beberapa menit. Lepaskan lensa kontak, jika ada dan mudah dilakukan. Lanjutkan membilas. Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis. Hubungi SENTRA INFORMASI KERACUNAN NASIONAL atau dokter jika Anda merasa kurang sehat.
Penyimpanan/Pembuangan	Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

2.3 Bahaya Lain

GHS PBB Sesuai dengan Sistem Harmonisasi Global Klasifikasi dan Pelabelan (GHS, Globally Harmonized System), produk ini dianggap berbahaya.

Amerika Serikat (AS)
Sesuai dengan: OSHA 29 CFR 1910.1200 HCS

2.1 Klasifikasi Zat atau Campuran

OSHA HCS 2012 Iritasi Mata Ringan 2B

2.2 Elemen Label

OSHA HCS 2012

Pernyataan Bahaya	Menyebabkan iritasi mata
Pernyataan Kehati-hatian	
Pencegahan	Cuci dengan saksama setelah penanganan.
Respons	JIKA TERKENA MATA: Bilas dengan hati-hati menggunakan air selama beberapa menit. Lepaskan lensa kontak, jika ada dan mudah dilakukan. Lanjutkan membilas. Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis.
Penyimpanan/Pembuangan	Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

2.3 Bahaya Lain

OSHA HCS 2012 Di bawah Peraturan Amerika Serikat (29 CFR 1910.1200 - Standar Komunikasi Bahaya (Hazard Communication Standard), produk ini tidak dianggap berbahaya.

Kanada
Sesuai dengan: WHMIS

2.1 Klasifikasi Zat atau Campuran

WHMIS Tidak dinyatakan

2.2 Elemen Label

WHMIS Tidak diperlukan elemen label.

2.3 Bahaya Lain

WHMIS Di Kanada, produk yang tercantum di atas tidak dianggap berbahaya menurut Sistem Informasi Bahan Berbahaya di Tempat Kerja (WHMIS [Workplace Hazardous Materials Information System]).

2.4 Informasi Lain

Semua reagensia, manik, dan unsur penyusun lain mempunyai konsentrasi kurang dari 1% dalam campuran dan tidak dianggap berbahaya di bawah peraturan komunikasi bahaya AS (29 CFR 1910.1200), petunjuk UE untuk klasifikasi dan pelabelan zat atau campuran atau Sistem Harmonisasi Global untuk klasifikasi dan pelabelan zat atau campuran.

Bagian 3: Komposisi/Informasi Bahan Penyusun

3.1 Zat

Bahan tidak memenuhi kriteria zat.

3.2 Campuran

Komposisi					
Nama Kimia	**Pengidentifikasi**	**%**	**LD50/LC50**	**Klasifikasi Sesuai dengan Peraturan/Petunjuk**	**Komentar**
Guanidine Tiosianat	**CAS:** 593-84-0 **EINECS:** 209-812-1	10%–20%	593 mg/kg	**CLP UE:** Toks. Akut 5, H302, H313, H320 **GHS PBB:** Toks. Akut 5 (Orl); Irit. Kulit 5; Irit. Mata 2B **OSHA HCS 2012:** Toks. Akut 5 (Orl); Irit. Mata 2B	DTT

Bagian 4: Tindakan Pertolongan Pertama

4.1 Deskripsi Tindakan Pertolongan Pertama pada Kecelakaan

Inhalasi Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Pindahkan korban ke tempat dengan udara segar. Berikan oksigen jika sulit bernapas. Jangan menggunakan metode pernapasan mulut ke mulut jika korban menghirup zat; berikan pernapasan buatan menggunakan masker saku yang dilengkapi katup satu arah atau alat medis pernapasan lain yang sesuai. Berikan pernapasan buatan jika korban tidak bernapas.

Kulit Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Untuk kontak kulit sedikit, jangan menyebarkan bahan pada kulit yang tidak terkena. Jika kulit terkena zat, segera bilas kulit dengan air mengalir selama minimal 20 menit. Lepaskan dan pisahkan pakaian yang terkontaminasi.

Mata Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Jika terkena zat, segera bilas mata dengan air mengalir selama minimal 20 menit. Jika iritasi mata berlanjut: Dapatkan saran/bantuan medis.

Penelanan Pertolongan pertama dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Jika tertelan, bilas mulut dengan air (hanya jika korban dalam keadaan sadar). JANGAN memaksa untuk memuntahkan. Jangan menggunakan metode pernapasan mulut ke mulut jika korban menelan zat. Segera dapatkan bantuan medis jika tertelan.

4.2 Gejala dan Efek Paling Penting, Baik Akut maupun Tertunda

Lihat Bagian 11 - Informasi Toksikologi.

4.3 Indikasi yang Memerlukan Bantuan Medis dan Tindakan Khusus, Jika Diperlukan

Catatan untuk Dokter Semua pengobatan harus didasarkan pada tanda dan gejala penderitaan yang teramati pada pasien. Pertimbangan harus diberikan pada kemungkinan adanya paparan berlebihan terhadap bahan selain produk ini.

Bagian 5: Tindakan Pemadaman Kebakaran

5.1 Media Pemadaman Kebakaran

Media Pemadaman Kebakaran yang Sesuai	KEBAKARAN BESAR: Zat kimia kering, CO2, busa tahan alkohol, semprotan air. KEBAKARAN KECIL: Zat kimia kering, CO2, atau semprotan air.
Media Pemadaman Kebakaran yang Tidak Sesuai	Data tidak tersedia

5.2 Bahaya Khusus yang Timbul dari Zat atau Campuran

Bahaya Kebakaran dan Ledakan yang Tidak Biasa	Kartrid plastik yang berisi reagensia dapat mengeluarkan uap beracun karbon oksida, sulfur oksida, nitrogen oksida.
Produk Pembakaran Berbahaya	Data tidak tersedia

5.3 Saran untuk Petugas Pemadam Kebakaran

Pakaian pelindung petugas pemadam kebakaran struktural memberikan perlindungan terbatas HANYA dalam situasi kebakaran; pakaian tersebut tidak efektif dalam situasi tumpahan saat kontak langsung dengan zat dapat terjadi.
Kenakan pakaian pelindung zat kimia yang direkomendasikan secara spesifik oleh produsen. Pakaian tersebut mungkin menyediakan sedikit perlindungan termal atau tidak sama sekali.
Kenakan alat pernapasan mandiri bertekanan positif (SCBA, Self-Contained Breathing Apparatus).
KEBAKARAN KECIL: Pindahkan wadah dari area kebakaran jika Anda dapat melakukannya tanpa risiko.

Bagian 6: Tindakan Penanggulangan jika terjadi Tumpahan dan Kebocoran

6.1 Langkah Pencegahan Diri, Alat Pelindung, dan Prosedur Tanggap Darurat

Tindakan Pencegahan Diri	Jika kartrid rusak, tindakan pencegahan diri ini berlaku. Kenakan pakaian pelindung yang sesuai. Jangan berjalan melalui bahan yang tertumpah. Jangan menyentuh wadah yang rusak atau bahan yang tertumpah kecuali mengenakan pakaian pelindung yang sesuai. Beri ventilasi pada area yang tertutup.
Prosedur Tanggap Darurat	Prosedur tanggap darurat dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa sesuai rekomendasi.

6.2 Tindakan Pencegahan Lingkungan

Cegah masuknya zat ke dalam saluran air, saluran pembuangan, ruang bawah tanah, atau ruang tertutup.

6.3 Metode dan Bahan untuk Penangkalan dan Pembersihan

Tindakan Membendung/Membersihkan	Untuk tumpahan sedikit, kenakan sarung tangan, dan serap tumpahan dengan handuk kertas. Jangan membuang bahan yang tertumpah ke saluran pembuangan.

6.4 Referensi ke Bagian Lain

Lihat Bagian 8 - Kontrol Paparan/Perlindungan Diri dan Bagian 13 - Pertimbangan Pembuangan/Pemusnahan.

Bagian 7: Penanganan dan Penyimpanan

7.1 Langkah Pencegahan untuk Penanganan yang Aman

Penanganan Tidak diperlukan penanganan khusus. Jika kartrid rusak, hindari kontak dengan reagensia yang tertumpah.

7.2 Kondisi untuk Penyimpanan Aman, Termasuk Inkompatibilitas

Penyimpanan Simpan sesuai dengan label produk. Jauhkan dari bahan yang tidak kompatibel. Simpan di tempat terkunci. Simpan wadah/kemasan dalam keadaan tertutup rapat di tempat yang sejuk dan berventilasi baik.

7.3 Penggunaan Akhir Spesifik

Lihat Bagian 1.2 - Penggunaan teridentifikasi yang relevan.

Bagian 8: Kontrol Paparan/Perlindungan Diri

8.1 Parameter Kontrol

	Batas/Pedoman Paparan			
	Hasil	**ACGIH**	**NIOSH**	**OSHA**
Guanidinium tiosianat	TWA	Tidak ditentukan	Tidak ditentukan	Tidak ditentukan

8.2 Kontrol Paparan

Kontrol/Tindakan Teknik Ventilasi umum yang baik harus digunakan. Tingkat ventilasi harus disesuaikan dengan kondisi. Jika relevan, gunakan penutup proses, ventilasi pembuangan lokal, atau kontrol rekayasa lain untuk menjaga tingkat zat yang terbawa udara berada di bawah batas paparan yang disarankan. Jika batas paparan belum ditentukan, jaga tingkat zat yang terbawa udara pada tingkat yang dapat diterima.

Alat Perlindungan Diri

Pernapasan Alat pernapasan dianggap tidak diperlukan jika bahan digunakan dalam kondisi biasa dan sesuai rekomendasi. Sebaliknya, ikuti peraturan respirator OSHA yang ada di dalam 29 CFR 1910.134 atau Standar Eropa EN 149. Gunakan respirator yang disetujui oleh NIOSH/MSHA atau Standar Eropa EN 149 jika batas paparan terlampaui atau gejala dialami.

Mata/Wajah Kenakan kacamata pengaman untuk cipratan zat kimia.

Kulit/Tubuh Kenakan pakaian pelindung

Kontrol Paparan Lingkungan Ikuti praktik terbaik untuk pengelolaan lokasi dan pembuangan limbah.

Penjelasan singkatan
OSHA = Occupational Safety and Health Administration (Administrasi Kesehatan dan Keselamatan Kerja)
TWA = Time-Weighted Averages, rata-rata terbobot waktu didasarkan pada paparan 8 jam/hari, 40 jam/minggu

Kekentalan	Data tidak cukup	Sifat Eksplosif	Data tidak cukup
Sifat Pengoksidasi:	Data tidak cukup		
Volatilitas			
Tekanan Uap	Data tidak cukup	Densitas Uap	Data tidak cukup
Laju Penguapan	Data tidak cukup		
Kemudahan Menyala			
	182,2222 hingga 293,3333 °C (360 hingga 560 °F) (Reagensia pengikat)	UEL	Data tidak cukup
LEL	Data tidak cukup	Swasulut	Data tidak cukup
Kemudahan Menyala (padat, gas)	Data tidak cukup		
Lingkungan			
Koefisien Partisi Oktanol/Air	Data tidak cukup		

9.2 Informasi Lain

Tidak tercatat adanya parameter fisika dan kimia tambahan.

Bagian 10: Stabilitas dan Reaktivitas

10.1 Reaktivitas

Tidak ada reaksi berbahaya yang diketahui di bawah kondisi penggunaan normal.

10.2 Stabilitas Kimia

Stabil

10.3 Kemungkinan Reaksi Berbahaya

Polimerisasi berbahaya tidak akan terjadi.

10.4 Kondisi untuk Dihindari

Bahan yang Tidak Kompatibel. Membakar kartrid plastik berisi reagensia dapat melepaskan produk sampingan beracun.

10.5 Bahan yang Tidak Kompatibel

Asam, agen pengoksidasi.

10.6 Produk Dekomposisi Berbahaya

Membakar kartrid plastik berisi reagensia dapat melepaskan produk sampingan beracun.

Bagian 11: Informasi Toksikologi

11.1 Informasi Efek Toksikologi

Komponen

Potensi Efek Kesehatan

Inhalasi	
Akut (Segera)	Dapat menyebabkan iritasi.
Kronis (Tertunda)	Data tidak tersedia
Kulit	
Akut (Segera)	Menyebabkan iritasi kulit.
Kronis (Tertunda)	Data tidak tersedia
Mata	
Akut (Segera)	Menyebabkan iritasi mata.
Kronis (Tertunda)	Data tidak tersedia
Penelanan	
Akut (Segera)	Berbahaya jika ditelan.
Kronis (Tertunda)	Data tidak tersedia

Penjelasan singkatan
LD = Lethal Dose (Dosis Mematikan)

Bagian 12: Informasi Ekologis

12.1 Toksisitas

LC50 (guppy): 89,1 mg/l pada 96 jam

12.2 Persistensi dan Keteruraian

Data bahan tidak cukup.

12.3 Potensi Bioakumulatif

Data bahan tidak cukup.

12.4 Mobilitas dalam Tanah

Data bahan tidak cukup.

12.5 Hasil Pengkajian PBT dan vPvB

Belum dilakukan pengkajian PBT dan vPvB.

12.6 Efek Merugikan yang Lain

Belum ada penelitian.

Bagian 13: Pertimbangan Pembuangan

13.1 Metode Penanganan Limbah

Limbah Produk Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

Limbah Kemasan Buang isi dan/atau wadah sesuai dengan peraturan setempat, regional, nasional, dan/atau internasional.

13.2 Informasi Lain

Spesimen biologis, alat transfer, dan kartrid bekas harus dianggap sebagai mampu menyebarkan agen yang menular yang membutuhkan pencegahan standar. Ikuti prosedur limbah lingkungan institusi Anda untuk pembuangan dengan benar kartrid bekas dan reagensia tidak terpakai. Berbagai bahan ini dapat menunjukkan karakteristik limbah kimia berbahaya yang membutuhkan prosedur pembuangan spesifik nasional atau regional. Jika peraturan negara atau regional tidak menyediakan arahan yang jelas mengenai pembuangan dengan benar, spesimen biologis dan kartrid bekas harus dibuang sesuai pedoman penanganan dan pembuangan limbah medis dari Organisasi Kesehatan Dunia (WHO, World Health Organization).

Bagian 14: Informasi Pengangkutan

	14.1 Nomor PBB	14.2 Nama Pengapalan yang Sesuai Berdasarkan PBB	14.3 Klasifikasi Bahaya Pengangkutan	14.4 Kelompok Pengemasan	14.5 Bahaya Lingkungan
DOT	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak berlaku
TDG	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak berlaku
IMO/IMDG	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak berlaku
IATA/ICAO	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak Diatur	Tidak berlaku

14.6 Tindakan Pencegahan Khusus untuk Pengguna

Tidak ditentukan.

14.7 Pengangkutan dalam Jumlah Besar menurut Lampiran II dari MARPOL 73/78 dan Pedoman IBC

Data tidak cukup.

Sekcja 2: Identyfikacja zagrożeń

UE/EEC

Zgodnie z: Rozporządzenie (WE) nr 1272/2008 (CLP)/REACH 1907/2006 [z późniejszymi zmianami wprowadzonymi przez 453/2010]

2.1 Klasyfikacja substancji lub mieszaniny

CLP Niniejsza karta charakterystyki substancji dotyczy używanego w laboratorium końcowego, gotowego produktu będącego mieszaniną. Ten produkt zawiera kulki i odczynniki w kartridżach albo w pojemnikach poza instrumentem. Zwolnienia z ujawniania informacji na temat niektórych składników zgodnie z art.1(5)(d) i 29 rozporządzenia CLP i 1910.1200(g)(2)(i)(C)(1) i (2) kodeksu CFR.
Nie sklasyfikowano

2.2 Elementy oznakowania

CLP

Zwroty dotyczące zagrożeń	H302 — Działa szkodliwie po połknięciu H313 — Może działać szkodliwie w kontakcie ze skórą H320 — Powoduje podrażnienie oczu
Zwroty wskazujące środki ostrożności	
Zapobieganie	P264 — Dokładnie umyć po użyciu. P270 — Nie jeść, nie pić i nie palić podczas używania produktu.
Odpowiedź	P301+P312 — W PRZYPADKU POŁKNIĘCIA: W przypadku złego samopoczucia natychmiast skontaktować się z OŚRODKIEM ZATRUĆ lub z lekarzem. P330 — Wypłukać usta.
Przechowywanie/usuwanie	P501 — Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

2.3 Inne zagrożenia

CLP Ten materiał nie jest uznawany za niebezpieczny zgodnie z Rozporządzeniem (WE) nr 1272/2008 (CLP).

GHS ONZ rewizja 3 (zawartość etykiety używanej na produktach)

Zgodnie z: Globalnie Zharmonizowanym Systemem Klasyfikacji i Oznakowania Chemikaliów (GHS) ONZ: Trzecie wydanie zrewidowane

2.1 Klasyfikacja substancji lub mieszaniny

GHS ONZ Toksyczność ostra, doustnie 5
Łagodne podrażnienie skóry 5
Łagodne podrażnienie oczu 2B

2.2 Elementy oznakowania

GHS ONZ

OSTRZEŻENIE

Zwroty dotyczące zagrożeń	Działa szkodliwie po połknięciu Może działać szkodliwie w kontakcie ze skórą Powoduje podrażnienie oczu
Zwroty wskazujące środki ostrożności	
Zapobieganie	Dokładnie umyć po użyciu.
Odpowiedź	W przypadku wystąpienia podrażnienia skóry: Zasięgnąć porady/zgłosić się pod opiekę lekarza. W PRZYPADKU DOSTANIA SIĘ DO OCZU: Ostrożnie płukać wodą przez kilka minut. Wyjąć soczewki kontaktowe, jeżeli są i można je łatwo usunąć. Nadal płukać. W przypadku utrzymywania się działania drażniącego na oczy: Zasięgnąć porady/zgłosić się pod opiekę lekarza. W przypadku złego samopoczucia skontaktować się z OŚRODKIEM ZATRUĆ lub z lekarzem.
Przechowywanie/usuwanie	Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

2.3 Inne zagrożenia

GHS ONZ Ten produkt jest uznawany za niebezpieczny zgodnie z Globalnie Zharmonizowanym Systemem Klasyfikacji i Oznakowania Chemikaliów (GHS) ONZ.

Stany Zjednoczone (USA)
Zgodnie z: OSHA 29 CFR 1910.1200 HCS

2.1 Klasyfikacja substancji lub mieszaniny

OSHA HCS 2012 Łagodne podrażnienie oczu 2B

2.2 Elementy oznakowania

OSHA HCS 2012

Zwroty dotyczące zagrożeń	Powoduje podrażnienie oczu.
Zwroty wskazujące środki ostrożności	
Zapobieganie	Dokładnie umyć po użyciu.
Odpowiedź	W PRZYPADKU DOSTANIA SIĘ DO OCZU: Ostrożnie płukać wodą przez kilka minut. Wyjąć soczewki kontaktowe, jeżeli są i można je łatwo usunąć. Nadal płukać. W przypadku utrzymywania się działania drażniącego na oczy: Zasięgnąć porady/zgłosić się pod opiekę lekarza.
Przechowywanie/usuwanie	Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

2.3 Inne zagrożenia

OSHA HCS 2012 Ten produkt nie jest uznawany za niebezpieczny zgodnie z przepisami prawa Stanów Zjednoczonych (29 CFR 1910.1200 — Hazard Communication Standard, Norma dotycząca przekazywania informacji o zagrożeniach).

Kanada
Zgodnie z: WHMIS

2.1 Klasyfikacja substancji lub mieszaniny

WHMIS Nie sklasyfikowano

2.2 Elementy oznakowania

WHMIS Nie są wymagane żadne elementy etykiety.

2.3 Inne zagrożenia

WHMIS W Kanadzie produkt wymieniony powyżej nie jest uznawany za niebezpieczny zgodnie z systemem WHMIS (Workplace Hazardous Materials Information System, system informacji o produktach niebezpiecznych w miejscu pracy).

2.4 Inne informacje

Wszystkie inne odczynniki, kulki oraz inne składniki występują w mieszaninie w stężeniach mniejszych niż 1% lub nie są uznawane za niebezpieczne zgodnie z przepisami USA dotyczącymi przekazywania informacji o zagrożeniach (29 CFR 1910.1200), dyrektywami UE dotyczącymi klasyfikacji i oznakowania substancji lub mieszanin albo Globalnie Zharmonizowanym Systemem klasyfikacji i oznakowania substancji lub mieszanin.

Sekcja 3: Skład i informacje o składnikach

3.1 Substancje

Materiał nie spełnia kryteriów uznania za substancję.

3.2 Mieszaniny

Skład					
Nazwa chemiczna	**Identyfikatory**	**%**	**LD50/LC50**	**Klasyfikacje zgodnie z rozporządzeniem/dyrektywą**	**Komentarze**
Tiocyjanian guanidyny	**CAS:** 593-84-0 **EINECS:** 209-812-1	10%–20%	593 mg/kg	**UE CLP:** Toksyczność ostra 5, H302, H313, H320 **GHS ONZ:**Toksyczność ostra 5 (doustnie); Działanie drażniące na skórę 5; Działanie drażniące na oczy 2B **OSHA HCS 2012:** Toksyczność ostra 5 (doustnie); Działanie drażniące na oczy 2B	BDD

Sekcja 4: Środki pierwszej pomocy

4.1 Opis środków pierwszej pomocy

Wdychanie

Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. Wyprowadzić poszkodowaną osobę na świeże powietrze. W razie problemów z oddychaniem podać tlen. Nie stosować wentylacji metodą usta-usta, jeżeli osoba poszkodowana wdychała substancję. Zastosować sztuczne oddychanie za pomocą maski twarzowej wyposażonej w zawór jednodrożny albo innego odpowiedniego urządzenia medycznego do wentylacji. Jeżeli osoba poszkodowana nie oddycha, zastosować sztuczne oddychanie.

Skóra

Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W przypadku pomniejszego kontaktu ze skórą należy unikać rozprowadzania materiału na inne części skóry. W razie kontaktu z substancją natychmiast przystąpić do płukania skóry pod bieżącą wodą przez co najmniej 20 minut. Należy zdjąć i odizolować zanieczyszczone ubranie.

Oczy

Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W razie kontaktu z substancją natychmiast przystąpić do płukania oczu pod bieżącą wodą przez co najmniej 20 minut. W przypadku utrzymywania się działania drażniącego na oczy: Zasięgnąć porady/zgłosić się pod opiekę lekarza.

Połknięcie

Nie oczekuje się, aby pierwsza pomoc była konieczna, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W razie połknięcia przepłukać usta wodą (wyłącznie jeżeli poszkodowana osoba jest przytomna). NIE wywoływać wymiotów. Jeżeli poszkodowana osoba połknęła substancję, nie wolno stosować wentylacji metodą usta-usta. W razie połknięcia należy natychmiast skorzystać z pomocy lekarza.

4.2 Najważniejsze ostre i opóźnione objawy oraz skutki narażenia

Patrz sekcja 11 — Informacje toksykologiczne.

4.3 Wskazania dotyczące wszelkiej natychmiastowej pomocy lekarskiej i szczególnego postępowania z poszkodowanym

Uwagi dla lekarza

Wdrażane leczenie powinno zależeć od zaobserwowanych objawów występujących u pacjenta. Należy rozważyć możliwość nadmiernego narażenia na materiały inne niż ten produkt.

Sekcja 5: Postępowanie w przypadku pożaru

5.1 Środki gaśnicze

Odpowiednie środki gaśnicze DUŻE POŻARY: Proszek gaśniczy, CO2, piana odporna na działanie alkoholu lub rozpylana woda.
MAŁE POŻARY: Proszek gaśniczy, CO2 lub rozpylana woda.

Niewłaściwe środki gaśnicze Brak dostępnych danych

5.2 Szczególne zagrożenia związane z substancją lub mieszaniną

Szczególne zagrożenia związane z pożarem i wybuchem Plastikowe kartridże zawierające odczynniki mogą emitować toksyczne opary dwutlenku węgla, tlenków siarki, tlenków azotu.

Niebezpieczne produkty spalania Brak dostępnych danych

5.3 Informacje dla straży pożarnej

Strażacka ognioodporna odzież ochronna zapewnia ograniczoną ochronę WYŁĄCZNIE w przypadku walki z pożarem. Jest ona nieskuteczna w przypadku rozlania materiału, gdzie istnieje możliwość bezpośredniego kontaktu z substancją. Należy wówczas założyć odzież chroniącą przed chemikaliami specjalnie zalecaną przez producenta. Taka odzież może zapewniać niewielką ochronę termiczną lub nie zapewniać takiej ochrony.
Należy używać autonomiczne aparaty oddechowe (SCBA).
MAŁE POŻARY: Jeżeli można to zrobić bez ryzyka, należy wynieść pojemniki z obszaru objętego pożarem.

Sekcja 6: Postępowanie w przypadku niezamierzonego uwolnienia do środowiska

6.1 Indywidualne środki ostrożności, sprzęt ochronny i procedury w sytuacjach awaryjnych

Indywidualne środki ostrożności Podane indywidualne środki ostrożności mają zastosowanie w sytuacji uszkodzenia kartridża. Nosić odpowiednią odzież ochronną. Nie wchodzić w rozlany materiał. Nie dotykać uszkodzonych pojemników lub rozlanego materiału bez używania odpowiedniej odzieży ochronnej. Zapewnić wentylację zamkniętych obszarów.

Procedury awaryjne Nie oczekuje się, aby były wymagane jakiekolwiek procedury awaryjne, jeżeli materiał będzie używany w zwykłych warunkach zgodnie z zaleceniami.

6.2 Środki ostrożności w zakresie ochrony środowiska

Zapobiegać odpływowi do dróg wodnych, kanalizacji, piwnic lub zamkniętych obszarów.

6.3 Metody i materiały zapobiegające rozprzestrzenianiu się skażenia i służące do usuwania skażenia

Metody zapobiegające rozprzestrzenianiu się skażenia i służące do usuwania skażenia W przypadku niewielkich wycieków, założyć rękawice i zebrać wyciek ręcznikiem papierowym. Nie wylewać rozlanych materiałów do kanalizacji.

6.4 Odniesienia do innych sekcji

Patrz sekcja 8 — Kontrola narażenia/środki ochrony indywidualnej i sekcja 13 — Postępowanie z odpadami.

Sekcja 7: Postępowanie z substancjami i mieszaninami oraz ich magazynowanie

7.1 Środki ostrożności dotyczące bezpiecznego postępowania

Obchodzenie się z produktem Nie są wymagane specjalne procedury dotyczące postępowania. W razie uszkodzenia kartridża należy unikać kontaktu z rozlanymi odczynnikami.

7.2 Warunki bezpiecznego magazynowania, łącznie z informacjami dotyczącymi wszelkich wzajemnych niezgodności

Magazynowanie Przechowywać zgodnie z informacjami podanymi na etykiecie produktu. Przechowywać z dala od niezgodnych materiałów. Przechowywać pod zamknięciem. Pojemnik/opakowanie przechowywać ściśle zamknięte w chłodnym i dobrze wentylowanym pomieszczeniu.

7.3 Szczególne zastosowanie(-a) końcowe

Patrz podpunkt 1.2 — Istotne zidentyfikowane zastosowania.

Sekcja 8: Kontrola narażenia/środki ochrony indywidualnej

8.1 Parametry dotyczące kontroli

	Wartości graniczne narażenia/wytyczne			
	Wynik	**ACGIH**	**NIOSH**	**OSHA**
Tiocyjanian guanidyny	TWA	Nie ustalono	Nie ustalono	Nie ustalono

8.2 Kontrola narażenia

Techniczne środki kontroli Należy stosować dobrą wentylację ogólną. Natężenie wentylacji należy dostosować do warunków. Jeśli dotyczy, należy stosować odpowiednie osłony procesowe, lokalną wentylację i wyciągi lub też inne środki techniczne, aby utrzymywać poziom substancji lotnych poniżej dopuszczalnych limitów narażenia. Jeżeli nie określono limitów narażenia, należy utrzymywać dopuszczalny poziom substancji lotnych.

Indywidualny sprzęt ochronny

Ochrona dróg oddechowych Nie oczekuje się, aby sprzęt oddechowy był konieczny, jeżeli materiał będzie używany w zwykłych warunkach i zgodnie z zaleceniami. W innym przypadku należy stosować się do wytycznych organizacji OSHA, dotyczących ochrony układu oddechowego zawartych w rozdziale 29 kodeksu CFR 1910.134 lub w Normie Europejskiej EN 149. W razie przekroczenia limitów narażenia lub wystąpienia objawów należy używać odpowiedniego aparatu oddechowego zgodnego z normą NIOSH/MSHA lub Normą Europejską EN 149.

Ochrona oczu lub twarzy Nosić okulary chroniące przed rozpryskiem substancji chemicznych.

Ochrona skóry lub ciała Nosić odzież ochronną

Kontrola narażenia środowiska Przestrzegać stosowanej w ośrodku najlepszej praktyki dotyczącej postępowania z odpadami oraz ich usuwania.

Legenda dotycząca skrótów
OSHA = Occupational Safety and Health Administration (Administracja ds. higieny i bezpieczeństwa pracy)
TWA = Time-Weighted Average, wartość uśredniona czasowo na podstawie narażenia 8h/dobę, 40h/tydzień

Sekcja 9: Właściwości fizyczne i chemiczne

9.1 Informacje dotyczące właściwości fizycznych i chemicznych

Opis materiału			
Postać fizyczna	Ciecz	Wygląd/opis	Odczynniki to przejrzyste, bezbarwne, bezzapachowe płyny głównie buforowane w roztworach wodnych.
Kolor	Przezroczysty	Zapach	Bezwonne
Próg zapachu	Brak danych		
Właściwości ogólne			
Punkt wrzenia	100 °C (212 °F)	Temperatura topnienia/krzepnięcia	0 °C (32 °F)
Temperatura rozkładu	Brak danych	pH	Od 3,5 do 8,8
Ciężar właściwy/Gęstość względna	Brak danych	Rozpuszczalność w wodzie	Brak danych
Lepkość	Brak danych	Właściwości wybuchowe	Brak danych
Właściwości utleniające:	Brak danych		
Lotność			
Prężność pary	Brak danych	Gęstość pary	Brak danych
Współczynnik parowania	Brak danych		
Łatwopalność			
	Od 182,2222 do 293,3333 °C (od 360 do 560 °F) (odczynnik wiążący)	UEL	Brak danych
LEL	Brak danych	Temperatura samozapłonu	Brak danych
Palność (ciało stałe/gaz)	Brak danych		
Środowisko			
Współczynnik podziału: n-oktanol/woda	Brak danych		

9.2 Inne informacje

Nie odnotowano żadnych dodatkowych parametrów fizycznych ani chemicznych.

Sekcja 10: Stabilność i reaktywność

10.1 Reaktywność

W warunkach prawidłowego stosowania brak znanych niebezpiecznych reakcji.

10.2 Stabilność chemiczna

Produkt stabilny

10.3 Możliwość występowania niebezpiecznych reakcji

Nie dochodzi do niebezpiecznej polimeryzacji.

10.4 Warunki, których należy unikać

Materiały niezgodne. Spalające się plastikowe kartridże zawierające odczynniki mogą uwalniać toksyczne produkty uboczne.

10.5 Materiały niezgodne

Kwasy, środki utleniające.

10.6 Niebezpieczne produkty rozkładu

Spalające się plastikowe kartridże zawierające odczynniki mogą uwalniać toksyczne produkty uboczne.

Sekcja 11: Informacje toksykologiczne

11.1 Informacje dotyczące skutków toksykologicznych

Sekcja 12: Informacje ekologiczne

12.1. Toksyczność

LC50 (gupik): 89,1 mg/l przez 96 h

12.2 Trwałość i zdolność do rozkładu

Niedostateczna ilość istotnych danych.

12.3 Zdolność do bioakumulacji

Niedostateczna ilość istotnych danych.

12.4 Mobilność w glebie

Niedostateczna ilość istotnych danych.

12.5 Wyniki oceny właściwości PBT i vPvB

Nie przeprowadzono ocen właściwości PBT i vPvB.

12.6 Inne szkodliwe skutki działania

Nie odnaleziono żadnych badań.

Sekcja 13: Postępowanie z odpadami

13.1 Metody unieszkodliwiania odpadów

Odpady produktu Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

Odpady opakowań Zawartość/pojemnik usuwać zgodnie z miejscowymi/regionalnymi/krajowymi/międzynarodowymi przepisami.

13.2 Inne informacje

Próbki biologiczne, wyroby do przenoszenia i użyte kartridże należy traktować jako mogące przenosić czynniki zakaźne i wymagające zachowania standardowych środków ostrożności. Należy przestrzegać obowiązujących w placówce procedur dotyczących odpadów środowiskowych w zakresie odpowiedniego usuwania użytych kartridży i nieużytych odczynników. Materiały te mogą wykazywać cechy niebezpiecznych odpadów chemicznych wymagających konkretnych krajowych lub regionalnych procedur utylizacji. Jeśli krajowe lub regionalne przepisy nie regulują kwestii dotyczących odpowiedniego usuwania, wówczas próbki biologiczne i użyte kartridże należy usuwać zgodnie z wytycznymi Światowej Organizacji Zdrowia (World Health Organization, WHO) dotyczącymi obsługi i usuwania odpadów medycznych.

Section 2: Hazards Identification

EU/EEC

According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010]

2.1 Classification of the Substance or Mixture

CLP

The following SDS is for the final finished mixture product only as used in the laboratory. The product contains liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

CLP

Hazard Statements No label element(s) required

2.3 Other Hazards

CLP

According to Regulation (EC) No. 1272/2008 (CLP) this material is not considered hazardous.

UN GHS Revision 3

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS): Third Revised Edition

2.1 Classification of the Substance or Mixture

UN GHS

The following SDS is for the final finished mixture product only as used in the laboratory. The product contains liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

UN GHS

Hazard Statements No label element(s) required

Precautionary Statements

2.3 Other Hazards

UN GHS

According to the Globally Harmonized System for Classification and Labeling (GHS) this product is not considered hazardous.

United States (US)

According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the Substance or Mixture

OSHA HCS 2012

The following SDS is for the final finished mixture product only as used in the laboratory. The product contains liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

OSHA HCS 2012

Hazard Statements No label element(s) required

2.3 Other Hazards

OSHA HCS 2012

This product is not considered hazardous under the U.S. OSHA 29 CFR 1910.1200 Hazard Communication Standard.

Canada
According to: WHMIS

2.1 Classification of the Substance or Mixture

WHMIS

The following SDS is for the final finished mixture product only as used in the laboratory. The product contains liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

WHMIS

No label element(s) required.

2.3 Other Hazards

WHMIS

In Canada, the product mentioned above is not considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other Information

Dye constituents are at concentrations less than 1% of the entire article or not regulated as hazardous under US hazard communication regulations (29 CFR 1910.1200), EU Directives for classification and labeling of substances and mixtures, or the Global Harmonization System for classification and labeling of substances or mixtures.

Section 3: Composition/Information on Ingredients

3.1 Substances

Ingredients are not considered hazardous under EU directives for classification and labeling of substances or mixtures or the Global Harmonization System for classification and labeling of substances or mixtures.

3.2 Mixtures

Material does not meet the criteria of a mixture.

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation	First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Move victim to fresh air. Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing.
Skin	First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.
Eye	First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.
Ingestion	First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If swallowed, rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to Physician	All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Firefighting Measures

5.1 Extinguishing Media

Suitable Extinguishing Media	In case of fire use media as appropriate for surrounding fire.
Unsuitable Extinguishing Media	No data available

5.2 Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosion Hazards	Not flammable or combustible.
Hazardous Combustion Products	No data available

5.3 Advice for Firefighters

Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
Wear positive pressure self-contained breathing apparatus (SCBA).
SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	In the event a cartridge is broken these personal precautions are applicable. Ventilate enclosed areas. Wear appropriate protective clothing. Do not walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.
Emergency Procedures	No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

6.2 Environmental Precautions

Avoid run off to waterways and sewers.

6.3 Methods and Material for Containment and Cleaning Up

Containment/ Clean-up Measures	For small spills, wear gloves and absorb spill with paper towel. Do not dispose spilled materials down drain.

6.4 Reference to Other Sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7: Handling and Storage

7.1 Precautions for Safe Handling

Handling	No special handling necessary. If cartridge is broken avoid contact with spilled reagents. Avoid contact with skin and eyes.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Storage	Store according to product labeling. Keep container/package tightly closed in a cool, well-ventilated place. Keep away from incompatible materials.

7.3 Specific End Use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

8.1 Control Parameters

Exposure Limits/Guidelines No applicable exposure limits available for product or components.

8.2 Exposure Controls

Engineering Measures/Controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face Wear chemical splash safety goggles.

Skin/Body In laboratory setting, wear gloves and lab coat at a minimum to minimize skin contact.

Environmental Exposure Controls Follow best practice for site management and disposal of waste.

Section 9: Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Appearance/Description	Dyes are solutions of varying color, components are odorless.
Color	Varying	Odor	Odorless
Odor Threshold	Data lacking		
General Properties			
Boiling Point	100 °C (212 °F)	Melting Point/Freezing Point	0 °C (32 °F)
Decomposition Temperature	Data lacking	pH	6 to 9
Specific Gravity/Relative Density	Data lacking	Water Solubility	Data lacking
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	Data lacking
Evaporation Rate	Data lacking		
Flammability			
Flash Point	Data lacking	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition Coefficient	Data lacking		

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical Stability

Stable

10.3 Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

10.4 Conditions to Avoid

No data available

10.5 Incompatible Materials

No data available

10.6 Hazardous Decomposition Products

No data available

Section 11: Toxicological Information

Selon : OSHA 29 CFR 1910.1200 HCS

2.1 Classification de la substance ou mélange

OSHA HCS 2012 La fiche de données de sécurité (FDS) suivante concerne uniquement le mélange fini final, tel qu'utilisé au laboratoire. Le produit contient des liquides. Les exemptions à la divulgation des informations concernant certains composants sont conformes aux réglementations CLP Article 1(5)(d) et 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classé

2.2 Éléments de l'étiquette

OSHA HCS 2012

Mentions de danger Aucune étiquette(s) requise

2.3 Autres dangers

OSHA HCS 2012 Ce produit n'est pas considéré dangereux en vertu de la norme Communication des dangers 29 CFR 1910.1200 de l'OSHA aux États-Unis.

Canada
Selon : WHMIS

2.1 Classification de la substance ou mélange

WHMIS La fiche de données de sécurité (FDS) suivante concerne uniquement le mélange fini final, tel qu'utilisé au laboratoire. Le produit contient des liquides. Les exemptions à la divulgation des informations concernant certains composants sont conformes aux réglementations CLP Article 1(5)(d) et 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classé

2.2 Éléments de l'étiquette

WHMIS Aucune étiquette(s) requise.

2.3 Autres dangers

WHMIS Au Canada, le produit mentionné ci-dessus n'est pas considéré dangereux en vertu du Système d'information sur les matières dangereuses utilisées au travail (SIMDUT).

2.4 Autres informations

Les constituants colorants sont à des concentrations inférieures à 1 % de l'ensemble du produit ou ne sont pas réglementés comme dangereux selon la réglementation américaine sur la communication des dangers (29 CFR 1910.1200), selon les directives de l'UE concernant la classification et l'étiquetage des substances et des mélanges, ou selon le système international d'harmonisation pour la classification et l'étiquetage des substances ou des mélanges.

Section 3 : Composition/informations sur les ingrédients

3.1 Substances

Les ingrédients ne sont pas considérés comme dangereux selon les directives de l'UE concernant la classification et l'étiquetage des substances et des mélanges, ou selon le système international d'harmonisation pour la classification et l'étiquetage des substances ou des mélanges.

3.2 Mélanges

La matière ne répond pas aux critères d'un mélange.

Section 4 : Mesures de premier secours

4.1 Description des premiers soins

Inhalation — Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. Déplacer la victime à l'air frais. Administrer de l'oxygène si la respiration est difficile. Ne pas faire de bouche-à-bouche si la victime a inhalé la substance ; pratiquer la respiration artificielle à l'aide d'un masque de poche doté d'une valve unidirectionnelle ou d'un autre dispositif médical respiratoire approprié. Pratiquer la respiration artificielle si la victime ne
respire pas.

Peau — Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact cutané mineur, éviter de répandre la matière sur la peau non affectée. En cas de contact avec la substance, rincer immédiatement la peau à l'eau courante pendant au moins 20 minutes. Retirer et isoler les vêtements contaminés.

Yeux — Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact avec la substance, rincer immédiatement les yeux à l'eau courante pendant au moins
20 minutes. Si l'irritation oculaire persiste : consulter un médecin.

Ingestion — Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas d'ingestion, rincer la bouche avec de l'eau (seulement si la victime est consciente). NE PAS faire vomir. Ne pas faire de bouche-à-bouche si la victime a ingéré la substance. Consulter immédiatement un médecin en cas d'ingestion.

4.2 Symptômes et effets les plus importants, aigus et différés

Voir la section 11 - Information toxicologique.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Notes pour le médecin — Tous les traitements doivent être basés sur les signes et symptômes de détresse observés chez le patient. Il faut envisager la possibilité d'une surexposition à d'autres matières que ce produit.

Section 5 : Mesures de lutte contre l'incendie

5.1 Agents extincteurs

Agent extincteur convenable	En cas d'incendie, utiliser le moyen d'extinction approprié au feu environnant.
Agent extincteur inapproprié	Aucune donnée disponible

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers inhabituels d'incendie et d'explosion	Non inflammable ni combustible.
Produits de combustion dangereux	Aucune donnée disponible

5.3 Conseils aux pompiers

Les vêtements structurels de protection des pompiers fournissent une protection limitée UNIQUEMENT en cas d'incendie ; ils ne sont pas efficaces dans les cas de déversement où le contact direct avec la substance est possible. Porter des vêtements de protection chimique spécifiquement recommandés par le fabricant. Ceux-ci peuvent fournir peu ou pas de protection thermique.
Porter un appareil respiratoire autonome à pression positive (ARA).
INCENDIES MINEURS : enlever les conteneurs de la zone d'incendie si vous pouvez le faire sans risque.

Section 6 : Mesures en cas de fuite accidentelle

6.1 Précautions individuelles, équipement de protection et mesures d'urgence

Précautions individuelles	Dans le cas où une cartouche est percée, ces précautions individuelles s'appliquent. Ventiler les espaces clos. Porter les vêtements de protection appropriés. Ne pas marcher à travers la matière déversée. Ne pas toucher les conteneurs endommagés ou la matière déversée sauf en cas de port de vêtements de protection appropriés.
Mesures d'urgence	Aucune procédure d'urgence ne devrait s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations.

6.2 Précautions environnementales

Éviter les déversements dans les cours d'eau et les égouts.

6.3 Méthodes et matériaux de confinement et de nettoyage

Mesures de confinement/ nettoyage	Pour les petits déversements, porter des gants et absorber la matière déversée avec une serviette en papier. Ne pas jeter la matière déversée dans les égouts.

6.4 Référence à d'autres sections

Voir la section 8 - Contrôles de l'exposition/protection individuelle, ainsi que la section 13 - Considérations de mise au rebut.

Section 7 : Manutention et stockage

7.1 Précautions pour une manutention sans danger

Manutention Aucune manipulation spéciale n'est nécessaire. Si une cartouche est percée, éviter tout contact avec les réactifs déversés. Éviter tout contact avec la peau et les yeux.

7.2 Conditions de sécurité du stockage, y compris toutes incompatibilités

Stockage Stocker conformément à l'étiquetage des produits. Conserver le conteneur/emballage hermétiquement fermé dans un endroit frais et bien aéré. Tenir à l'écart des matières incompatibles.

7.3 Utilisation(s) finale(s) spécifique(s)

Voir la section 1.2 - Utilisations pertinentes identifiées.

Section 8 : Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Limites d'exposition/Lignes directrices Pas de limites d'exposition applicables disponibles pour le produit ou ses composants.

8.2 Contrôles d'exposition

Mesures/contrôles techniques Une bonne ventilation générale doit être utilisée. Les débits de ventilation doivent être adaptés aux conditions. Le cas échéant, utiliser des enceintes d'isolement, une ventilation aspirante locale ou d'autres moyens techniques pour maintenir les concentrations atmosphériques en dessous des limites d'exposition recommandées. Si les limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Équipement de protection individuelle

Respiratoire Suivre les réglementations de l'OSHA relatives aux appareils respiratoires définies dans 29 CFR 1910.134 ou la norme européenne EN 149. Utiliser un appareil respiratoire approuvé par le NIOSH/MSHA ou la norme européenne EN 149 si les limites d'exposition sont dépassées ou des symptômes apparaissent.

Yeux/visage Porter des lunettes anti-éclaboussures contre les produits chimiques.

Peau/corps En environnement de laboratoire, porter au minimum des gants et une blouse de laboratoire afin de minimiser le contact avec la peau.

Contrôle d'exposition lié à la protection de l'environnement Suivre les bonnes pratiques pour la gestion de site et l'élimination des déchets.

Section 9 : Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques

Description de la matière			
Forme physique	Liquide	Apparence/Description	Les colorants sont des solutions de couleur variable, dont les composants sont inodores.
Couleur	Variable	Odeur	Inodore
Seuil d'odeur	Manque de données		
Propriétés générales			
Point d'ébullition	100 °C (212 °F)	Point de fusion/Point de congélation	0 °C (32 °F)
Température de décomposition	Manque de données	pH	6 à 9
Densité spécifique/relative	Manque de données	Solubilité dans l'eau	Manque de données
Viscosité	Manque de données	Propriétés explosives	Manque de données
Propriétés comburantes :	Manque de données		
Volatilité			
Pression de vapeur	Manque de données	Densité de vapeur	Manque de données
Taux d'évaporation	Manque de données		
Inflammabilité			
Point d'éclair	Manque de données	LSE	Manque de données
LIE	Manque de données	Auto-inflammation	Manque de données
Inflammabilité (solide, gaz)	Manque de données		
Environnemental(e)			
Coefficient de partage octanol/eau	Manque de données		

9.2 Autres informations

Aucun paramètre physique ou chimique supplémentaire noté.

Section 10 : Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans des conditions normales d'utilisation.

10.2 Stabilité chimique

Stable

10.3 Possibilité de réactions dangereuses

Il ne se produira pas de polymérisation dangereuse.

10.4 Situations à éviter

Aucune donnée disponible

10.5 Substances incompatibles

Aucune donnée disponible

10.6 Produits de décomposition dangereux

Aucune donnée disponible

Section 11 : Information toxicologique

11.1 Informations sur les effets toxiques

Propriétés SGH	Classification
Toxicité aiguë	**EU/CLP**•Manque de données **SGH ONU 3**•Manque de données **OSHA HCS 2012**•Manque de données
Corrosion/irritation cutanée	**EU/CLP**•Manque de données **SGH ONU 3**•Manque de données **OSHA HCS 2012**•Manque de données

Chronique (différé)	Aucune donnée disponible

Section 12 : Information écologique

12.1 Toxicité

Manque de données matérielles.

12.2 Persistance et dégradabilité

Manque de données matérielles.

12.3 Potentiel bioaccumulatif

Manque de données matérielles.

12.4 Mobilité dans le sol

Manque de données matérielles.

12.5 Résultats des évaluations PBT et vPvB

Aucune évaluation PBT ou vPvB n'a été réalisée.

12.6 Autres effets nocifs

Aucune étude n'a été trouvée.

Section 13 : Considérations de mise au rebut

13.1 Méthodes de traitement des déchets

Déchets du produit	Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.
Conditionnement des déchets	Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

13.2 Autres informations

Les échantillons biologiques mélangés avec des billes doivent être traités comme s'ils étaient susceptibles de transmettre des agents infectieux. Consulter le personnel chargé des déchets environnementaux auprès de l'établissement pour les consignes concernant l'élimination correcte des échantillons utilisés.

Section 14 : Informations de transport

	14.1 Numéro ONU	14.2 Nom d'expédition des Nations Unies	14.3 Classe(s) de danger pour le transport	14.4 Groupe d'emballage	14.5 Dangers pour l'environnement
DOT	ADD	Non régulé	ADD	ADD	ADD
TDG	ADD	Non régulé	ADD	ADD	ADD
IMO/IMDG	ADD	Non régulé	ADD	ADD	ADD
IATA/ICAO	ADD	Non régulé	ADD	ADD	ADD

14.6 Précautions spéciales pour l'utilisateur

Rien de précisé.

14.7 Transport en vrac conformément à l'annexe II de la convention MARPOL 73/78 et au code IBC

Manque de données.

Section 15 : Informations réglementaires

15.1 Réglementation relative à la sécurité, la santé et l'environnement/législation spécifique à la substance ou au mélange

Classifications de dangers SARA Néant

15.2 Évaluation de sécurité chimique

Aucune évaluation de sécurité chimique n'a été effectuée.

Section 16 : Autres informations

Déclaration de non-responsabilité

Les informations ci-dessus reposent sur les données dont nous disposons et que nous jugeons correctes. Dans la mesure où ces informations peuvent être utilisées dans des conditions hors de notre contrôle et que nous ne connaissons pas nécessairement, nous n'assumons aucune responsabilité pour les conséquences de leur utilisation et toutes les personnes recevant le produit doivent en déterminer personnellement les effets, les propriétés, ainsi que les mesures de protection et d'élimination nécessaires en rapport avec leurs conditions d'utilisation particulières. Aucune représentation, garantie ou assurance, explicite ou implicite (y compris une garantie d'aptitude ou de qualité marchande pour un but particulier) n'est faite concernant les produits, l'exactitude des informations, les résultats découlant de leur utilisation ou les risques liés à l'utilisation du produit. Il y a lieu de faire preuve de prudence lors de la manipulation et de l'utilisation du produit. Les informations ci-dessus sont fournies en toute bonne foi et avec la conviction qu'elles sont exactes. À la date de publication, nous fournissons toutes les informations pertinentes pour la manipulation prévisible du produit. Cependant, dans l'éventualité d'un incident indésirable associé à l'utilisation de ce produit, cette fiche de données de sécurité ne peut pas (et n'est pas conçue pour) se substituer à l'avis d'un personnel correctement formé.

Clef aux abréviations

1.4 Notrufnummer

Hersteller	1 (800) 535-5053 - INFOTRAC - 24-Stunden-Notruf
Hersteller	1 (352) 323-3500 - außerhalb der USA

Abschnitt 2: Mögliche Gefahren

EU/EWG
Nach: Verordnung (EG) Nr. 1272/2008 (CLP)/REACH 1907/2006 [geändert durch 453/2010]

2.1 Einstufung des Stoffs oder Gemischs

CLP Das folgende SDS gilt für das Fertiggemisch nur, wenn es im Labor benutzt wird. Das Produkt enthält Flüssigkeiten. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Nicht klassifiziert

2.2 Kennzeichnungselemente

CLP

Gefahrenhinweise Kein(e) Beschriftungselement(e) erforderlich

2.3 Sonstige Gefahren

CLP Nach Verordnung (EG) Nr. 1272/2008 (CLP) gilt dieses Material nicht als gefährlich.

UN GHS Revision 3
Nach: Global harmonisiertes System der Einstufung und Kennzeichnung von Chemikalien (GHS) der UN: Dritte überarbeitete Auflage

2.1 Einstufung des Stoffs oder Gemischs

UN GHS Das folgende SDS gilt für das Fertiggemisch nur, wenn es im Labor benutzt wird. Das Produkt enthält Flüssigkeiten. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Nicht klassifiziert

2.2 Kennzeichnungselemente

UN GHS

Gefahrenhinweise Kein(e) Beschriftungselement(e) erforderlich

Sicherheitshinweise

2.3 Sonstige Gefahren

UN GHS Nach dem global harmonisierten System zur Einstufung und Kennzeichnung (GHS) gilt dieses Produkt nicht als gefährlich.

Vereinigte Staaten (VS)
Nach: OSHA 29 CFR 1910.1200 HCS

2.1 Einstufung des Stoffs oder Gemischs

OSHA HCS 2012 Das folgende SDS gilt für das Fertiggemisch nur, wenn es im Labor benutzt wird. Das Produkt enthält Flüssigkeiten. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Nicht klassifiziert

2.2 Kennzeichnungselemente

OSHA HCS 2012

Gefahrenhinweise Kein(e) Beschriftungselement(e) erforderlich

2.3 Sonstige Gefahren

OSHA HCS 2012 Dieses Produkt gilt nicht als gefährlich nach der USA-Norm für Gefahrenkommunikation der OSHA 29 CFR 1910.1200.

Kanada
Nach: WHMIS

2.1 Einstufung des Stoffs oder Gemischs

WHMIS Das folgende SDS gilt für das Fertiggemisch nur, wenn es im Labor benutzt wird. Das Produkt enthält Flüssigkeiten. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).

Nicht klassifiziert

2.2 Kennzeichnungselemente

WHMIS Kein(e) Beschriftungselement(e) erforderlich.

2.3 Sonstige Gefahren

WHMIS In Kanada ist das oben genannte Produkt nach dem Workplace Hazardous Materials Information System (WHMIS) nicht als gefährlich einzustufen.

2.4 Sonstige Angaben

Bestandteile von Färbemitteln sind in Konzentrationen unter 1% im gesamten Produkt enthalten oder werden nicht als gefährlich eingestuft gemäß den US-Richtlinien für die Gefahrenkommunikation (29 CFR 1910.1200), den EU-Richtlinien für die Einstufung und Etikettierung von Stoffen und Gemischen oder dem global harmonisierten System für die Einstufung und Etikettierung von Stoffen oder Gemischen.

Abschnitt 3: Zusammensetzung/Angaben zu den Bestandteilen

3.1 Stoffe

Die Inhaltsstoffe gelten nach EU-Richtlinien zur Einstufung und Etikettierung von Stoffen oder Gemischen oder dem global harmonisierten System für die Einstufung und Etikettierung von Stoffen oder Gemischen nicht als gefährlich.

3.2 Gemische

Material erfüllt nicht die Kriterien eines Gemischs.

Abschnitt 4: Erste-Hilfe-Maßnahmen

4.1 Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Verunfallten an die frische Luft bringen. Bei Atemschwierigkeiten Sauerstoffzufuhr einleiten. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat; künstliche Beatmung mit einer mit Einwegventil ausgestatteten Taschen-Sauerstoffmaske oder sonstigem geeigneten medizinischen Beatmungsgerät einleiten. Bei Atemstillstand künstliche Beatmung umgehend einleiten.

Haut
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei geringem Hautkontakt Material nicht auf andere Hautbereiche verteilen. Im Falle eines Hautkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Verunreinigte Kleidung entfernen und isolieren.

Augen
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Im Falle eines Augenkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken
Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei Einnahme Mund mit Wasser ausspülen (nur, wenn die Person bei Bewusstsein ist). KEIN Erbrechen herbeiführen. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat. Bei Einnahme sofort Arzt zu Rate ziehen.

4.2 Wichtigste akute und verzögert auftretende Symptome und Wirkungen

Siehe Abschnitt 11 - Toxikologische Angaben.

4.3 Hinweis auf ärztliche Soforthilfe oder Spezialbehandlung

Hinweise für den Arzt
Alle Behandlungsmaßnahmen sollten auf den beobachteten Anzeichen und Symptomen von Erschöpfung beim Patienten basieren. Außerdem ist zu berücksichtigen, dass es möglicherweise zum Kontakt mit anderen Materialien zusätzlich zu diesem Produkt kam.

Abschnitt 5: Maßnahmen zur Brandbekämpfung

5.1 Löschmittel

Geeignete Löschmittel
Im Brandfall die entsprechenden Löschmittel für den Umgebungsbrand verwenden.

Ungeeignete Löschmittel
Keine Daten verfügbar

5.2 Besondere vom Stoff oder Gemisch ausgehende Gefahren

Ungewöhnliche Brand-und Explosionsgefahren
Nicht entflammbar oder brennbar.

Gefährliche Verbrennungsprodukte
Keine Daten verfügbar

5.3 Hinweise für die Brandbekämpfung

Für die Feuerbekämpfung vorgesehene Standardarbeitsschutzbekleidung bietet einen begrenzten Schutz NUR in Brandfällen; sie ist ineffektiv bei Verschüttungen, wo ein direkter Kontakt mit dem Stoff möglich ist.
Chemikalienschutzbekleidung tragen, die speziell vom Hersteller empfohlen wird. Sie kann wenig oder keinen Thermoschutz bieten.
Umgebungsluftunabhängiges Atemschutzgerät (SCBA) für Überdruckbetrieb tragen.
KLEINBRAND: Behälter aus der Brandzone entfernen, wenn es kein Risiko darstellt.

Abschnitt 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1 Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Persönliche Schutzmaßnahmen	Wenn eine Kartusche bricht, dann sind diese persönlichen Vorkehrungen anzuwenden. Geschlossene Räume be- oder entlüften. Entsprechende Schutzkleidung tragen. Nicht durch das verschüttete Material hindurch gehen. Beschädigte Behälter oder verschüttetes Material ohne geeignete Schutzkleidung nicht anfassen.
Sofortmaßnahmen	Es sind keine Notfallmaßnahmen erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird.

6.2 Umweltschutzmaßnahmen

Ablauf in Gewässer und Abwasserleitungen vermeiden.

6.3 Methoden und Material für Rückhaltung und Reinigung

Maßnahmen zur Rückhaltung/ Reinigung	Bei kleinen Verschüttungen Handschuhe tragen und Verschüttung mit einem Papiertuch aufnehmen. Verschüttetes Material nicht durch den Abfluss entsorgen.

6.4 Verweis auf andere Abschnitte

Siehe Abschnitt 8 - Einwirkungskontrolle/Personenschutz und Abschnitt 13 - Überlegungen zur Entsorgung.

Abschnitt 7: Handhabung und Lagerung

7.1 Schutzmaßnahmen zur sicheren Handhabung

Handhabung	Keine spezielle Handhabung notwendig. Wenn eine Kartusche gebrochen ist, dann ist der Kontakt mit verschütteten Reagenzien zu vermeiden. Kontakt mit Haut und Augen vermeiden.

7.2 Bedingungen zur sicheren Lagerung unter Berücksichtigung von Umweltverträglichkeiten

Lagerung	Produkt gemäß der Etikettierung lagern. Behälter/Verpackung dicht verschlossen an kühlem, gut belüftetem Ort lagern. Von nicht kompatiblem Material fernhalten.

7.3 Spezifische Endanwendungen

Siehe Abschnitt 1.2 - Relevante identifizierte Nutzung.

Abschnitt 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstung

8.1 Zu überwachende Parameter

Expositionsgrenzwerte/Richtlinien Keine geltenden Grenzwerte verfügbar für Produkte oder Komponenten.

8.2 Begrenzung und Überwachung der Exposition

Technische Maßnahmen/ Kontrollen Es ist eine gute allgemeine Belüftung anzuwenden. Die Belüftungszahl sollte den Bedingungen entsprechen. Prozesskammern, lokale Abzugsanlage oder andere technische Kontrollmittel verwenden, um die Konzentration in der Luft unter den empfohlenen Grenzwerten zu halten. Wenn keine Grenzwerte festgelegt wurden, sind die Konzentrationen auf einem akzeptablen Niveau zu halten.

Persönliche Schutzausrüstung

Atemwege OSHA-Vorgaben für Atemschutzgeräte aus 29 CFR 1910.134 oder der Europäischen Norm EN 149 befolgen. Nach NIOSH/MSHA oder der Europäischen Norm EN 149 zugelassenes Atemschutzgerät benutzen, wenn die Grenzwerte überschritten werden oder Symptome auftreten.

Augen/Gesicht Schutzbrillen gegen Chemikalienspritzer tragen.

Haut/Körper In einer Laborumgebung sind mindestens Handschuhe und ein Laborkittel zu tragen, um den Hautkontakt zu minimieren.

Umweltkontrollmaßnahmen Beste Praktiken bei Bauleitung und Abfallentsorgung anwenden.

Abschnitt 9: Physikalische und chemische Eigenschaften

9.1 Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Materialbeschreibung			
Physische Gestalt	Flüssigkeit	Aussehen/Beschreibung	Färbemittel sind Lösungen in verschiedenen Farben mit geruchlosen Komponenten.
Farbe	Verschieden	Geruch	Geruchlos
Geruchsschwelle	Fehlende Daten		
Allgemeine Eigenschaften			
Siedepunkt	100 °C (212 °F)	Schmelzpunkt/Gefrierpunkt	0 °C (32 °F)
Zersetzungstemperatur	Fehlende Daten	pH	6 bis 9
Spezifisches Gewicht/ Relative Dichte	Fehlende Daten	Wasserlöslichkeit	Fehlende Daten
Viskosität	Fehlende Daten	Explosive Eigenschaften	Fehlende Daten
Oxidationseigenschaften:	Fehlende Daten		
Volatilität			
Dampfdruck	Fehlende Daten	Dampfdichte	Fehlende Daten
Verdunstungsrate	Fehlende Daten		
Entflammbarkeit			
Flammpunkt	Fehlende Daten	Obere Expositionsgrenze	Fehlende Daten
Untere Expositionsgrenze	Fehlende Daten	Selbstzündung	Fehlende Daten
Entflammbarkeit (Feststoff, Gas)	Fehlende Daten		
Umwelt			
Oktanol/Wasser-Verteilungskoeffizient	Fehlende Daten		

9.2 Sonstige Angaben

Keine zusätzlichen physikalischen und chemischen Parameter vermerkt.

Abschnitt 10: Stabilität und Reaktivität

10.1 Reaktivität

Keine gefährliche Reaktion bekannt unter Bedingungen der normalen Verwendung.

10.2 Chemische Stabilität

Stabil

10.3 Möglichkeit gefährlicher Reaktionen

Eine gefährliche Polymerisierung findet nicht statt.

10.4 Zu vermeidende Bedingungen

Keine Daten verfügbar

10.5 Inkompatible Materialien

Keine Daten verfügbar

10.6 Gefährliche Zersetzungsprodukte

Keine Daten verfügbar

Abschnitt 11: Toxikologische Angaben

11.1 Angaben zu toxikologischen Wirkungen

GHS-Eigenschaften	Klassifizierung
Akute Toxizität	**EU/CLP**•Fehlende Daten **UN GHS 3**•Fehlende Daten **OSHA HCS 2012**•Fehlende Daten
Hautätzende Wirkung/Reizung	**EU/CLP**•Fehlende Daten **UN GHS 3**•Fehlende Daten **OSHA HCS 2012**•Fehlende Daten

Abschnitt 12: Umweltbezogene Angaben

12.1 Toxizität
Materialdaten fehlen.

12.2 Persistenz und Abbaubarkeit
Materialdaten fehlen.

12.3 Bioakkumulationspotenzial
Materialdaten fehlen.

12.4 Mobilität im Boden
Materialdaten fehlen.

12.5 Ergebnisse der PBT- und vPvB-Beurteilung
Es wurde keine PBT- oder vPvB-Bewertung durchgeführt.

12.6 Andere schädliche Wirkungen
Es wurden keine Studien gefunden.

Abschnitt 13: Hinweise zur Entsorgung

13.1 Verfahren der Abfallbehandlung

Produktabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

Verpackungsabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

13.2 Sonstige Angaben

Bei mit Kügelchen gemischten biologischen Proben ist davon auszugehen, dass sie Infektionserreger übertragen, und sie sind entsprechend zu behandeln. Konsultieren Sie das Personal für umweltgerechte Abfallentsorgung in Ihrer Institution für die ordnungsgemäße Entsorgung gebrauchter Proben.

Abschnitt 14: Angaben zum Transport

	14.1 UN-Nummer	14.2 Korrekte UN-Bezeichnung des Frachtgutes	14.3 Transportgefahrenklasse(n)	14.4 Verpackungsgruppe	14.5 Umweltrisiken
DOT	KDV	Nicht reglementiert	KDV	KDV	KDV

IMO/IMDG	KDV	Nicht reglementiert	KDV	KDV	KDV
IATA/ICAO	KDV	Nicht reglementiert	KDV	KDV	KDV

14.6 Besondere Vorsichtsmaßnahmen für den Verwender

Keine Angaben.

14.7 Massengutbeförderung gemäß Anhang II des MARPOL-Übereinkommens 73/78 und gemäß IBC-Code

Fehlende Daten.

Abschnitt 15: Rechtsvorschriften

15.1 Vorschriften zur Sicherheit, Gesundheits- und Umweltschutz/spezifische Rechtsvorschriften für den Stoff oder das Gemisch

SARA - Klassifizierung von Gefahren Keine

15.2 Stoffsicherheitsbeurteilung

Es wurde keine chemische Sicherheitsanalyse durchgeführt.

Abschnitt 16: Sonstige Angaben

Haftungsausschluss/ Haftungshinweis

Die obigen Informationen basieren auf Daten, die uns verfügbar sind und die wir für korrekt halten. Da die Informationen unter Bedingungen angewendet werden können, die außerhalb unserer Kontrolle liegen und mit denen wir möglicherweise nicht vertraut sind, übernehmen wir keine Verantwortung für die Ergebnisse der Nutzung und alle Personen, die sie erhalten, müssen ihre eigenen Festlegungen bezüglich der Wirkungen, Eigenschaften, Schutzmaßnahmen und Entsorgung vornehmen, die zu den jeweiligen Bedingungen gehören. Es wird keine Zusicherung, Gewährleistung oder Garantie, weder in ausdrücklicher noch in implizierter Form (einschließlich einer Garantie für die Eignung oder Handelsüblichkeit), erteilt werden im Hinblick auf die Stoffe, die Genauigkeit dieser Informationen, die Ergebnisse, die aus deren Nutzung resultieren, oder die Gefahren, die mit der Nutzung des Stoffes verbunden sind. Bei der Handhabung und Nutzung des Stoffs ist Vorsicht anzuwenden. Die obigen Informationen wurden nach bestem Wissen angegeben und für akkurat gehalten. Zum Datum der Ausstellung bieten wir alle Informationen, die für die zu erwartende Handhabung des Stoffs relevant sind. Bei einem Vorfall mit diesem Produkt stellt dieses Sicherheitsdatenblatt keinen Ersatz für die Rücksprache mit entsprechend geschultem Personal dar und ist nicht dazu gedacht.

Scheda dati di sicurezza
Data di decorrenza: Giugno 2020
Sostituisce la versione del: Gennaio 2020

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

Sezione 1: Identificazione della sostanza/miscela e dell'azienda/impresa

1.1 Identificatore del prodotto

Nome prodotto	**Xpert Nasopharyngeal Sample Collection Kit, Xpert Nasal Sample Collection Kit, Calibration Dyes and Buffer C**
Codice prodotto	SWAB/B-100, SWAB/F-100, SWAB/M-100, 500-0018; 500-0028; 500-0029; 500-0030; 500-0065; 500-0501; 500-0503; 500-0517; 500-1000; 500-1001; 500-1008; 500-2581; 500-2582; 500-2583; 500-2584; 900-0120; 900-0121; 900-0122; 900-0127; 900-0128; 900-0129

1.2 Usi pertinenti identificati della sostanza o della miscela e utilizzi sconsigliati

Usi pertinenti identificati	Uso in laboratorio

1.3 Dettagli del fornitore della scheda dati di sicurezza

Produttore		Cepheid 904 Caribbean Drive Sunnyvale, CA 94089 Stati Uniti www.cepheid.com USA: techsupport@cepheid.com
	Telefono (generale)	1 (888) 838-3222 - USA Opzione 2
	Telefono (generale)	1 (408) 541-4191 - Fuori dagli USA
Fornitore		Cepheid AB Röntgenvägen 5 SE-171 54 Solna Svezia www.cepheidinternational.com UE: support@cepheideurope.com
	Telefono (generale)	33 563 825 319 – UE
		Cepheid Holdings Pty Ltd 23-27 Chaplin Drive Lane Cove West NSW 2066 Australia www.cepheidinternational.com ANZ: TechSupportANZ@cepheid.com
	Telefono (Australia)	1800 107 884

1.4 Numero telefonico di emergenza

Produttore	1 (800) 535-5053 - INFOTRAC - Numero telefonico di emergenza attivo 24 ore su 24
Produttore	1 (352) 323-3500 - Fuori dagli USA

Sezione 2: Identificazione dei pericoli

UE/CEE

In ottemperanza a: Normativa (CE) n. 1272/2008 (CLP)/REACH 1907/2006 [emendata dalla 453/2010]

2.1 Classificazione della sostanza o della miscela

CLP La seguente SDS è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Questo prodotto contiene liquidi. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

CLP

Frasi di rischio Non è richiesta alcuna etichetta

2.3 Altri rischi

CLP In base al Regolamento (CE) n. 1272/2008 (CLP), questo materiale non è considerato pericoloso.

UN GHS Revisione 3

In ottemperanza a: Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN Globally Harmonized System of Classification and Labeling of Chemicals, GHS): Revisione della terza edizione

2.1 Classificazione della sostanza o della miscela

UN GHS La seguente SDS è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Questo prodotto contiene liquidi. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

UN GHS

Frasi di rischio Non è richiesta alcuna etichetta

Frasi di prudenza

2.3 Altri rischi

UN GHS Ai sensi del GHS (Sistema mondiale armonizzato di classificazione ed etichettatura delle sostanze chimiche) il presente prodotto non è considerato pericoloso.

Stati Uniti (USA)
In ottemperanza a: OSHA 29 CFR 1910.1200 HCS

2.1 Classificazione della sostanza o della miscela

OSHA HCS 2012

La seguente SDS è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Questo prodotto contiene liquidi. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

OSHA HCS 2012

Frasi di rischio Non è richiesta alcuna etichetta

2.3 Altri rischi

OSHA HCS 2012

Ai sensi della normativa sulla comunicazione del pericolo degli USA, OSHA 29 CFR 1910.1200, il presente prodotto non è considerato pericoloso.

Canada
In ottemperanza a: WHMIS

2.1 Classificazione della sostanza o della miscela

WHMIS

La seguente SDS è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Questo prodotto contiene liquidi. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

WHMIS Non è richiesta alcuna etichetta.

2.3 Altri rischi

WHMIS

In Canada, il prodotto di cui sopra non è considerato pericoloso ai sensi del sistema di informazioni sui materiali pericolosi sul luogo di lavoro (Workplace Hazardous Materials Information System, WHMIS).

2.4 Altre informazioni

I costituenti dei coloranti hanno concentrazioni inferiori all'1% nell'intero articolo o non sono considerati pericolosi per le normative sulla comunicazione del pericolo degli USA (29 CFR 1910.1200), le direttive UE per la classificazione e l'etichettatura delle sostanze e delle miscele o per il Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche e delle miscele.

Sezione 3: Composizione/Informazioni sugli ingredienti

3.1 Sostanze

I componenti non sono considerati pericolosi ai sensi delle direttive UE per la classificazione e l'etichettatura delle sostanze chimiche o delle miscele o ai sensi del Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche e delle miscele.

3.2 Miscele

Il materiale non soddisfa i criteri di classificazione come miscela.

Sezione 4: Misure di pronto soccorso

4.1 Descrizione delle misure di pronto soccorso

Inalazione
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. Portare la persona colpita all'aria aperta. Somministrare ossigeno se la respirazione è difficile. Non usare il metodo bocca-a-bocca se la vittima ha inalato la sostanza; effettuare la respirazione artificiale con l'ausilio di una mascherina con valvola unidirezionale o altro dispositivo medico adeguato. Se la vittima non respira, effettuare la respirazione artificiale.

Cute
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di limitato contatto con la pelle, evitare la dispersione del materiale sulla pelle non interessata. In caso di contatto con la sostanza, sciacquare immediatamente la pelle con acqua corrente per almeno
20 minuti. Rimuovere e isolare gli indumenti contaminati.

Occhi
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di contatto con la sostanza, sciacquare immediatamente gli occhi con acqua corrente per almeno 20 minuti. Se l'irritazione degli occhi persiste: consultare un medico.

Ingestione
Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di ingestione, sciacquare la bocca con acqua (solamente se l'infortunato è cosciente). NON provocare il vomito. Non usare il metodo bocca-a-bocca se la vittima ha ingerito la sostanza. In caso di ingestione consultare immediatamente un medico.

4.2 Sintomi ed effetti più importanti, acuti e ritardati

Consultare la Sezione 11 - Informazioni tossicologiche.

4.3 Indicazione delle attenzioni mediche immediate e dei trattamenti speciali necessari

Note per il medico
Tutte le cure dovrebbero basarsi sull'osservazione di segni e sintomi di malessere nel paziente. Dovrebbe essere presa in considerazione la possibilità di sovraesposizione a materiali diversi da questo prodotto.

Sezione 5: Misure antincendio

5.1 Mezzi di estinzione

Mezzi di estinzione adeguati	In caso di incendio, usare mezzi idonei per circoscrivere l'incendio.
Mezzi di estinzione non adeguati	Nessun dato disponibile

5.2 Rischi speciali che scaturiscono dalla sostanza o dalla miscela

Rischi di esplosione e incendi inconsueti	Non infiammabile o combustibile.
Prodotti di combustione pericolosi	Nessun dato disponibile

5.3 Consiglio per i vigili del fuoco

Gli indumenti antincendio strutturali forniscono una protezione limitata SOLO in condizioni di incendio; non sono efficaci in condizioni di fuoriuscite in cui è probabile il contatto diretto con la sostanza.
Indossare abbigliamento protettivo contro gli agenti chimici specificatamente raccomandato dal produttore. Potrebbe fornire limitata o nessuna protezione termica.
Indossare un apparato di respirazione autonomo funzionante a pressione positiva (self-contained breathing apparatus, SCBA).
INCENDI DI DIMENSIONI RIDOTTE: spostare i contenitori dall'area colpita dall'incendio se non comporta alcun rischio.

Sezione 6: Misure contro il versamento accidentale

6.1 Precauzioni personali, dispositivi di protezione e procedure di emergenza

Precauzioni personali	Nel caso in cui si rompa una cartuccia, è possibile applicare queste precauzioni personali. Ventilare le aree chiuse. Usare indumenti protettivi adatti. Non camminare sul materiale versato. Toccare i contenitori danneggiati o il materiale versato solo dopo aver indossato l'abbigliamento protettivo adeguato.
Procedure di emergenza	Non si prevede la necessità di procedure di emergenza se il materiale viene utilizzato in condizioni normali come raccomandato.

6.2 Precauzioni ambientali

Evitare l'ingresso nei corsi d'acqua e nelle fognature.

6.3 Metodi e materiali per il contenimento e la pulizia

Misure di contenimento/ pulizia	Per piccole fuoriuscite, indossare guanti e assorbire la fuoriuscita con un tovagliolo di carta. Non gettare il materiale fuoriuscito nei tubi di scarico.

6.4 Riferimento ad altre sezioni

Consultare la Sezione 8 - Controlli dell'esposizione/Protezione personale e la Sezione 13 - Considerazioni per lo smaltimento.

Sezione 7: Manipolazione e stoccaggio

7.1 Precauzioni per la manipolazione sicura

Manipolazione Non è necessario nessun trattamento speciale. Nel caso in cui si rompa una cartuccia, evitare il contatto con i reagenti fuoriusciti. Evitare il contatto con gli occhi e con la pelle.

7.2 Condizioni per lo stoccaggio sicuro, incompatibilità eventuali incluse

Stoccaggio Conservare secondo le indicazioni presenti sull'etichetta del prodotto. Conservare il recipiente/contenitore ben chiuso in luogo fresco e ben ventilato. Tenere lontano dai materiali incompatibili.

7.3 Usi finali specifici

Consultare la Sezione 1.2 - Usi pertinenti identificati.

Sezione 8: Controlli di esposizione/Protezione personale

8.1 Parametri di controllo

Limiti di Esposizione/ Linee Guida Non sono disponibili limiti di esposizione applicabili per il prodotto o i suoi componenti.

8.2 Controlli di esposizione

Misure/Controlli tecnici Garantire una ventilazione generale adeguata. I regimi di ventilazione devono essere adeguati alle condizioni. Se applicabile, utilizzare camere di protezione dei processi, impianti di ventilazione locale o altri controlli tecnici per mantenere i livelli di contaminanti aerei al di sotto dei limiti di esposizione raccomandati. Qualora i limiti di esposizione non fossero stati stabiliti, mantenere i contaminanti aerei a un livello accettabile.

Dispositivi di protezione individuale

Respirazione Attenersi alle indicazioni del respiratore OSHA disponibili in 29 CFR 1910.134 o nella norma europea EN 149. In caso di superamento dei limiti di esposizione o manifestazione di sintomi, usare un respiratore approvato da NIOSH/MSHA o dalla norma europea EN 149.

Occhi/Volto Indossare occhiali protettivi per sostanze chimiche.

Pelle/Corpo In ambiente di laboratorio, indossare, quanto meno, guanti e camici da laboratorio per ridurre al minimo il contatto con la pelle.

Controlli dell'esposizione ambientale Seguire le migliori pratiche per la gestione del sito e per lo smaltimento dei rifiuti.

Sezione 9: Proprietà chimico-fisiche

9.1 Informazioni sulle proprietà chimico-fisiche

Descrizione del materiale			
Forma fisica	Liquido	Aspetto/Descrizione	I coloranti sono soluzioni di colore variabile, i cui componenti sono inodori.
Colore	Variabile	Odore	Inodore
Soglia di odore	Dati mancanti		
Proprietà generali			
Punto di ebollizione	100 °C (212 °F)	Punto di fusione/Punto di congelamento	0 °C (32 °F)
Temperatura di decomposizione	Dati mancanti	pH	Da 6 a 9
Gravità specifica/densità relativa	Dati mancanti	Solubilità in acqua	Dati mancanti
Viscosità	Dati mancanti	Proprietà esplosive	Dati mancanti
Proprietà ossidanti:	Dati mancanti		
Volatilità			
Pressione di vapore	Dati mancanti	Densità del vapore	Dati mancanti
Tasso di evaporazione	Dati mancanti		
Infiammabilità			
Punto di infiammabilità	Dati mancanti	UEL	Dati mancanti
LEL	Dati mancanti	Autoaccensione	Dati mancanti
Infiammabilità (solido, gas)	Dati mancanti		
Ambientali			
Coefficiente di ripartizione ottanolo-acqua	Dati mancanti		

9.2 Altre informazioni

Non sono state osservate altre proprietà chimico-fisiche.

Sezione 10: Stabilità e reattività

10.1 Reattività

Nessuna reazione pericolosa nota nelle normali condizioni di utilizzo.

10.2 Stabilità chimica

Stabile

10.3 Possibilità di reazioni pericolose

Non si verificherà polimerizzazione pericolosa.

10.4 Condizioni da evitare

Nessun dato disponibile

10.5 Materiali incompatibili

Nessun dato disponibile

10.6 Prodotti di decomposizione pericolosi

Nessun dato disponibile

Sezione 11: Informazioni tossicologiche

11.1 Informazioni sugli effetti tossicologici

Proprietà GHS	Classificazione

Sezione 12: Informazioni ecologiche

12.1 Tossicità

Dati materiale mancanti.

12.2 Persistenza e degradabilità

Dati materiale mancanti.

12.3 Potenziale di bioaccumulo

Dati materiale mancanti.

12.4 Mobilità nel suolo

Dati materiale mancanti.

12.5 Risultati della valutazione PBT e vPvB

Non sono state condotte valutazioni PBT e vPvB.

12.6 Altri effetti avversi

Non sono stati trovati studi.

Sezione 13: Considerazioni sullo smaltimento

13.1 Metodi di trattamento dei rifiuti

Rifiuti del prodotto	Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.
Rifiuti di imballaggio	Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

13.2 Altre informazioni

I campioni biologici, miscelati con le sfere devono essere trattati come materiale in grado di trasmettere agenti infettivi. Rivolgersi al personale addetto allo smaltimento dei rifiuti ambientali del proprio istituto per ottenere informazioni utili sul corretto smaltimento dei campioni usati.

Sezione 14: Informazioni sul trasporto

	14.1 Numero ONU	14.2 Nome di spedizione corretto ONU	14.3 Classi di pericolosità per il trasporto	14.4 Gruppo di imballaggio	14.5 Pericoli ambientali

Sezione 16: Altre informazioni

Esclusione/Dichiarazione di responsabilità

Le suddette informazioni si basano su dati a nostra disposizione e ritenuti corretti. Poiché le informazioni possono essere applicate in condizioni che vanno oltre il nostro controllo e che potremmo non conoscere bene, non ci assumiamo nessuna responsabilità per i risultati derivanti dall'uso che ne viene fatto, e tutte le persone che ne usufruiranno devono stabilire gli effetti, le proprietà, le protezioni e lo smaltimento riguardanti ogni singola situazione. Nessuna rappresentazione, garanzia o assicurazione, esplicita o implicita (comprese una garanzia di idoneità o commerciabilità per un particolare scopo), viene fatta per quanto riguarda i materiali, la precisione delle informazioni fornite, i risultati ottenibili dall'uso che ne viene fatto, o i pericoli connessi con l'uso del materiale. L'uso e la manipolazione del materiale devono essere eseguiti con attenzione. Le suddette informazioni sono fornite in buona fede e con la convinzione che siano esatte. A partire dalla data di emissione, vengono fornite tutte le informazioni a disposizione relativamente al trattamento prevedibile del materiale. Tuttavia, in caso di un incidente avverso relativo al prodotto, questa Scheda informativa in materia di sicurezza non è, e non intende essere, il surrogato della consultazione con personale opportunamente addestrato.

2.1 Clasificación de la sustancia o mezcla

HCS 2012 de la OSHA

La siguiente SDS está destinada exclusivamente al uso en laboratorio del producto de la mezcla final acabado. El producto contiene líquidos. Las exenciones de revelación de la información de algún componente son conformes al artículo 1(5)(d) del CLP y a la norma 29 CFR 1910.1200(g)(2)(i)(C)(1)y(2).
No clasificado

2.2 Elementos de la etiqueta

HCS 2012 de la OSHA

Declaraciones de riesgo No se requieren elementos de etiquetado

2.3 Otros riesgos

HCS 2012 de la OSHA

Este producto no se considera peligros conforme a la Norma de comunicación de peligros OSHA de EE.UU. (29 CFR 1910.1200).

Canadá

De acuerdo con: WHMIS

2.1 Clasificación de la sustancia o mezcla

WHMIS

La siguiente SDS está destinada exclusivamente al uso en laboratorio del producto de la mezcla final acabado. El producto contiene líquidos. Las exenciones de revelación de la información de algún componente son conformes al artículo 1(5)(d) del CLP y a la norma 29 CFR 1910.1200(g)(2)(i)(C)(1)y(2).
No clasificado

2.2 Elementos de la etiqueta

WHMIS No se requieren elementos de etiquetado.

2.3 Otros riesgos

WHMIS El producto mencionado no se considera peligroso en Canadá, de acuerdo con el Sistema de Información de Materiales Peligrosos en el Lugar de Trabajo (WHMIS).

2.4 Información adicional

Los constituyentes del colorante presentan concentraciones inferiores al 1 % de todo el artículo o no son considerados peligrosos según los reglamentos de comunicación de riesgos de EE. UU. (29 CFR 1910.1200), las directivas para la clasificación y el etiquetado de sustancias y mezclas de la UE y el Sistema Globalmente Armonizado de clasificación y etiquetado de sustancias y mezclas.

Sección 3: Composición/información de los ingredientes

3.1 Sustancias

Los ingredientes no se consideran peligrosos según las directivas para la clasificación y el etiquetado de sustancias y mezclas de la UE y el Sistema Globalmente Armonizado de clasificación y etiquetado de sustancias y mezclas.

3.2 Mezclas

El material no cumple con los criterios de una mezcla.

Sección 4: Medidas de primeros auxilios

4.1 Descripción de las medidas de primeros auxilios

Inhalación No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Traslade a la persona al aire libre. Si la respiración resulta difícil, administre oxígeno. No utilice el método de boca a boca si la víctima ha inhalado la sustancia; proporcione respiración artificial con la ayuda de una máscara de bolsillo equipada con una válvula de una sola vía u otro dispositivo médico de respiración adecuado. Si la persona no respira, proporcione respiración artificial.

Piel No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Ante un contacto menor con la piel, evite la difusión del material sobre la piel no afectada. Si entra en contacto con la sustancia, enjuague inmediatamente la piel con agua durante al menos 20 minutos. Retire y aísle la ropa contaminada.

Ojo No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Si entra en contacto con la sustancia, enjuague inmediatamente los ojos con agua durante al menos 20 minutos. Si persiste la irritación ocular: Consultar a un médico.

Ingestión No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. En caso de ingestión, enjuague la boca con agua (solo si la persona está consciente). NO provoque el vómito. No utilice el método de boca a boca si la víctima ha ingerido la sustancia. En caso de ingestión, solicite atención médica inmediatamente.

4.2 Síntomas y efectos más importantes, tanto agudos como retardados

Consulte la Sección 11 - Información toxicológica.

4.3 Indicación de cualquier atención médica inmediata y tratamiento especial necesarios

Notas para el médico	Todos los tratamientos deben basarse en señales y síntomas observados en el paciente. Considere si puede haberse producido una sobreexposición a otros materiales distintos de este producto.

Sección 5: Medidas antiincendios

5.1 Medios de extinción

Medios de extinción adecuados	En caso de incendio, utilice los medios según sea adecuado para el incendio circundante.
Medios de extinción inadecuados	No hay datos disponibles

5.2 Riesgos especiales procedentes de la sustancia o mezcla

Riesgos de incendio y explosión inusuales	No inflamable ni combustible.
Productos de combustión peligrosa	No hay datos disponibles

5.3 Consejos para el personal antiincendios

El traje de protección estándar del personal antiincendios proporciona protección limitada EXCLUSIVAMENTE contra el fuego; no resulta efectivo ante vertidos donde es posible el contacto directo con la sustancia.
Utilice un traje de protección química específicamente recomendado por el fabricante. Puede proporcionar poca o ninguna protección térmica.
Utilice un equipo de respiración autónomo (ERA) de presión positiva.
INCENDIOS MENORES: Mueva los contenedores del área del incendio si la operación no conlleva riesgos.

Sección 6: Medidas en caso de liberación accidental

6.1 Precauciones personales, equipamiento protector y procedimientos de emergencia

Precauciones personales	En caso de romperse un cartucho, pueden aplicarse estas precauciones personales. Ventile las áreas cerradas. Utilice un traje de protección adecuado. No camine a través del material vertido. No toque los contenedores dañados ni los materiales vertidos a menos que utilice un traje de protección adecuado.
Procedimientos de emergencia	Se espera que no sea necesario aplicar procedimientos de emergencia si el material se utiliza bajo condiciones normales y del modo recomendado.

6.2 Precauciones medioambientales

No vierta el material en conductos de agua y desagües.

6.3 Métodos y materiales de contención y limpieza

Medidas de contención/ Limpieza	Para vertidos menores, utilice guantes y absorba el vertido con una toalla de papel. No deseche materiales vertidos por el desagüe.

6.4 Referencia a otras secciones

Consulte la Sección 8 - Controles de exposición/protección personal y la Sección 13 - Consideraciones de eliminación.

Sección 7: Manipulación y almacenamiento

7.1 Precauciones para la manipulación segura

Manipulación	No se necesita ninguna manipulación especial. En caso de romperse un cartucho, evite el contacto con los reactivos vertidos. Evite el contacto con la piel y los ojos.

7.2 Condiciones para el almacenamiento seguro, incluidas posibles incompatibilidades

Almacenamiento	Almacénelos de acuerdo con las indicaciones de su etiqueta. Mantenga el contenedor/embalaje bien cerrado en un lugar fresco y ventilado. Mantenga el producto alejado de materiales incompatibles.

7.3 Usos finales específicos

Consulte la Sección 1.2 - Usos identificados relevantes.

Sección 8: Controles de exposición/protección personal

8.1 Parámetros de control

Directrices/límites de exposición	Sin límites de exposición aplicables disponibles para el producto o componentes.

8.2 Controles de exposición

Controles/medidas de ingeniería	Es necesaria una buena ventilación general. La tasa de ventilación debe corresponder a las condiciones. Si es posible, utilice recintos de procesamiento, ventilación local u otros controles de ingeniería para mantener los niveles del aire por debajo de los límites de exposición recomendados. Si los límites de exposición no se han establecido, mantenga los niveles del aire a un nivel aceptable.
Equipo de protección individual	
Respiratorios	Siga los reglamentos para máscaras de la OSHA incluidas en el estándar 29 CFR 1910.134 y en el estándar europeo EN 149. Utilice una máscara aprobada por la NIOSH/MSHA o la norma europea EN 149 si se superan los límites de exposición o se experimentan síntomas.
Ocular/facial	Utilice gafas de protección contra salpicaduras químicas.
Piel/cuerpo	En el laboratorio, utilice guantes y bata para minimizar el contacto con la piel.
Controles de exposición en el medio ambiente	Siga las buenas prácticas para administrar el centro y eliminar residuos.

Sección 9: Propiedades físicas y químicas

9.1 Información sobre las propiedades físicas y químicas

Descripción del material			
Forma física	Líquido	Aspecto/Descripción	Los colorantes son soluciones de distinto color, los componentes son inodoros.
Color	Distintos	Olor	Inodoro
Umbral de olor	Faltan datos		
Propiedades generales			
Punto de ebullición	100 °C (212 °F)	Punto de fusión/punto de congelación	0 °C (32 °F)
Temperatura de descomposición	Faltan datos	pH	6 a 9

Medioambiental			
Coeficiente de reparto octanol/agua	Faltan datos		

9.2 Información adicional

No se han anotado parámetros físicos o químicos adicionales.

Sección 10: Estabilidad y reactividad

10.1 Reactividad

No se conocen reacciones peligrosas bajo condiciones normales de uso.

10.2 Estabilidad del producto químico

Estable

10.3 Posibilidad de reacciones peligrosas

No ocurrirá polimerización peligrosa.

10.4 Condiciones que se deben evitar

No hay datos disponibles

10.5 Materiales incompatibles

No hay datos disponibles

10.6 Productos de descomposición peligrosos

No hay datos disponibles

Sección 11: Información toxicológica

11.1 Información sobre efectos toxicológicos

Propiedades del SGA	Clasificación
Toxicidad aguda	**UE/CLP**•Faltan datos **SGA de la ONU 3**•Faltan datos **HCS 2012 de la OSHA**•Faltan datos
Corrosión/irritación cutánea	**UE/CLP**•Faltan datos **SGA de la ONU 3**•Faltan datos **HCS 2012 de la OSHA**•Faltan datos

Sección 12: Información ecológica

12.1 Toxicidad

Faltan datos de material.

12.2 Persistencia y degradabilidad

Faltan datos de material.

12.3 Potencial bioacumulativo

Faltan datos de material.

12.4 Movilidad en suelo

Faltan datos de material.

12.5 Resultados de la evaluación de PBT y mPmB

No se ha realizado ninguna valoración de PBT y mPmB.

12.6 Otros efectos adversos

No se han encontrado estudios.

Sección 13: Consideraciones sobre la eliminación

13.1 Métodos de tratamiento de residuos

Residuos de productos	Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.
Residuos de embalaje	Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

13.2 Información adicional

Las muestras biológicas mezcladas con las microesferas deben tratarse como capaces de transmitir agentes infecciosos. Consultar al personal encargado de los residuos medioambientales del centro cuál es la forma correcta de eliminar las muestras usadas.

Sección 14: Información de transporte

	14.1 Número ONU	14.2 Designación oficial de transporte de la ONU	14.3 Clases de riesgo de transporte	14.4 Grupo de embalaje	14.5 Riesgos para el medioambiente
DOT	No hay datos disponibles	No regulado	No hay datos disponibles	No hay datos disponibles	No hay datos disponibles

IMO/IMDG	No hay datos disponibles	No regulado	No hay datos disponibles	No hay datos disponibles	No hay datos disponibles
IATA/ICAO	No hay datos disponibles	No regulado	No hay datos disponibles	No hay datos disponibles	No hay datos disponibles

14.6 Precauciones especiales para el usuario

Ninguno especificado.

14.7 Transporte a granel de acuerdo con el Anexo II del MARPOL 73/78 y el código IBC

Faltan datos.

Sección 15: Información reglamentaria

15.1 Legislación/reglamentos de seguridad, salud y medio ambiente específicos para la sustancia o mezcla

Clasificaciones de riesgo de SARA Ninguno

15.2 Evaluación de seguridad del producto químico

No se ha llevado a cabo ninguna evaluación de seguridad química.

Sección 16: Información adicional

Declaración/descargo de responsabilidad

La información anterior está basada en los datos que tenemos y la consideramos correcta. Debido a que la información puede aplicarse bajo condiciones externas a nuestro control y con las que podemos no estar familiarizados, no asumimos ninguna responsabilidad por los resultados de su uso, y todas las personas que la reciban deberán determinar por sí mismas los efectos, propiedades, protecciones y eliminación correspondientes a sus condiciones particulares. No se efectúa ninguna representación ni garantía, expresa o implícita (incluida ninguna garantía de adecuación o comerciabilidad para un objetivo concreto) respecto a los materiales, la precisión de esta información, los resultados obtenidos de su uso ni los riesgos relacionados con dicho uso del material. Tenga precaución al manipular y utilizar el material. La información superior se considera precisa y se ofrece de buena fe. Proporcionamos toda la información relacionada con la manipulación prevista del material en la fecha de publicación. Sin embargo, en caso de ocurrir un incidente adverso asociado a este producto, esta ficha de datos de seguridad no es ni debe utilizarse como sustituto de la consulta con personal formado adecuadamente.

1.4 Número de telefone de emergência

Fabricante	1 (800) 535-5053 - INFOTRAC - Emergência durante 24 h
Fabricante	1 (352) 323-3500 - Fora dos EUA

Secção 2: Identificação dos riscos

UE/CEE
Segundo: Regulamentação (CE) N.º 1272/2008 (CLP)/REACH 1907/2006 [alterada pela 453/2010]

2.1 Classificação da substância ou mistura

CLP A seguinte ficha de dados de segurança destina-se apenas à mistura do produto final acabado usado em laboratório. O produto contém líquidos. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

CLP

Declarações de risco Não são necessários elementos do rótulo

2.3 Outros riscos

CLP Este material não é considerado perigoso conforme Regulamentação (CE) N.º 1272/2008 (CLP).

GHS da ONU Revisão 3
Segundo: Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS) da ONU: Terceira edição revista

2.1 Classificação da substância ou mistura

GHS da ONU A seguinte ficha de dados de segurança destina-se apenas à mistura do produto final acabado usado em laboratório. O produto contém líquidos. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

GHS da ONU

Declarações de risco Não são necessários elementos do rótulo

Declarações de precaução

2.3 Outros riscos

GHS da ONU Este produto não é considerado perigoso de acordo com o Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS).

Estados Unidos da América (EUA)
Segundo: OSHA 29 CFR 1910.1200 HCS

2.1 Classificação da substância ou mistura

OSHA HCS 2012 A seguinte ficha de dados de segurança destina-se apenas à mistura do produto final acabado usado em laboratório. O produto contém líquidos. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

OSHA HCS 2012

Declarações de risco Não são necessários elementos do rótulo

2.3 Outros riscos

OSHA HCS 2012 Este produto não é considerado perigoso no âmbito da Norma de Comunicação de Perigos, secção 29 1910.1200 do CRF da OSHA dos EUA.

Canadá
Segundo: WHMIS

2.1 Classificação da substância ou mistura

WHMIS A seguinte ficha de dados de segurança destina-se apenas à mistura do produto final acabado usado em laboratório. O produto contém líquidos. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

WHMIS Não são necessários elementos do rótulo.

2.3 Outros riscos

WHMIS No Canadá, o produto acima referido não é considerado perigoso ao abrigo do Sistema de Informação de Materiais Perigosos no Local de Trabalho (WHMIS).

2.4 Outras informações

Todos os constituintes dos corantes estão em concentrações inferiores a 1% relativas a todo o produto ou não são considerados perigosos ao abrigo das regulamentações de comunicação de perigos (secção 29 1910.1200 do CRF), das diretivas da UE para a classificação e rotulagem de substâncias ou misturas ou do Sistema Mundial Harmonizado para a classificação e rotulagem de substâncias ou misturas.

Secção 3: Composição/informações sobre os ingredientes

3.1 Substâncias

Os componentes não são considerados perigosos ao abrigo das diretivas da UE para a classificação e rotulagem de substâncias ou misturas ou do Sistema Mundial Harmonizado para a classificação e rotulagem de substâncias ou misturas.

3.2 Misturas

O material não satisfaz os critérios de mistura.

Secção 4: Medidas de primeiros socorros

4.1 Descrição das medidas de primeiros socorros

Inalação Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Mover a vítima para o ar livre. Administrar oxigénio se a respiração estiver difícil. Não usar o método boca-a-boca se a vítima tiver inalado a substância; ministre respiração artificial com o auxílio de uma máscara de bolso equipada com uma válvula de 1 via ou outro dispositivo médico de respiração adequado. Administrar respiração artificial se a vítima não estiver a respirar.

Pele Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Para um pequeno contacto com a pele, evitar espalhar o material pela pele não afetada. Em caso de contacto com a substância, lavar imediatamente a pele com água corrente por pelo menos 20 minutos. Despir e isolar a roupa contaminada.

Olhos Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de contacto com a substância, lavar imediatamente os olhos com água corrente por pelo menos 20 minutos. Caso a irritação ocular persista: consulte um médico.

Ingestão Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de ingestão, lavar a boca com água (apenas se a pessoa estiver consciente). NÃO provocar o vómito. Não usar o método boca-a-boca se a vítima tiver ingerido a substância. Em caso de ingestão, consultar um médico imediatamente.

4.2 Sintomas e efeitos mais importantes, tanto agudos quanto retardados

Consultar a Secção 11 - Informação Toxicológica.

4.3 Indicação de qualquer cuidado médico imediato e tratamento especial necessários

Notas para o Médico Todos os tratamentos devem basear-se nos sinais e sintomas de perturbações observados no paciente. Deve ser considerada a possibilidade de sobrexposição a outros materiais além deste produto.

Secção 5: Medidas de combate a incêndios

5.1 Meios de extinção

Meios de extinção adequados Em caso de incêndio, usar os meios apropriados para conter o incêndio.

Meios de extinção inadequados Sem dados disponíveis

5.2 Riscos especiais provocados pela substância ou mistura

Riscos de Incêndios e Explosões Incomuns Não é inflamável nem combustível.

Produtos de combustão de risco Sem dados disponíveis

5.3 Conselhos para bombeiros

Roupas protetoras estruturais de bombeiros fornecem APENAS proteção limitada em caso de incêndio; não são eficientes em situações de derramamentos, onde é possível o contacto direto com a substância.
Usar roupa protetora contra produtos químicos que seja especificamente recomendada pelo fabricante. Poderá fornecer proteção térmica mínima ou nenhuma proteção.
Usar aparelho de respiração autónomo de pressão positiva (SCBA).
PEQUENOS INCÊNDIOS: Se não houver perigos, mover os recipientes da área de incêndio.

Secção 6: Medidas contra Libertação Acidental

6.1 Precauções individuais, equipamento protetor e procedimentos em emergências

Precauções pessoais	No caso de um cartucho se partir, aplicam-se estas precauções de proteção individual. Ventilar áreas fechadas. Usar vestuário de proteção adequado. Não andar sobre material derramado. Não tocar em recipientes danificados ou material derramado a não ser que esteja a usar vestuário de proteção adequado.
Procedimentos de emergência	Não se prevê a necessidade de procedimentos de emergência se o material for usado em condições normais e de acordo com as recomendações.

6.2 Precauções ambientais

Evitar a drenagem para cursos de água e esgotos.

6.3 Métodos e material para contenção e limpeza

Medidas de Contenção/ Limpeza	Em caso de derrames pequenos, usar luvas e absorver o derrame com papel absorvente. Não eliminar os materiais derramados através do sistema de esgotos.

6.4 Referências para outras secções

Consultar a Secção 8 - Controlo da Exposição/Proteção Individual e a Secção 13 - Considerações relativas à eliminação.

Secção 7: Manuseamento e armazenamento

7.1 Precauções para o manuseamento seguro

Manuseamento	Não necessita de manuseamento especial. Se o cartucho se partir, evitar o contacto com os reagentes derramados. Evitar o contacto com a pele e os olhos.

7.2 Condições para armazenamento seguro, incluindo quaisquer incompatibilidades

Armazenamento	Armazenar de acordo com a documentação do produto. Guardar o recipiente/embalagem bem fechado em local fresco e bem ventilado. Manter afastado de materiais incompatíveis.

7.3 Utilização(ões) Final(is) Específica(s)

Consultar a Secção 1.2 - Uso(s) final(is) específico(s)

Secção 8: Controlos e exposição/proteção individual

8.1 Parâmetros de controlo

Limites de Exposição/ Orientações	Não estão disponíveis limites de exposição aplicáveis ao produto nem aos componentes.

8.2 Controlos de exposição

Medidas/Controlos de Engenharia	Deve usar-se uma boa ventilação geral. Os níveis de ventilação devem estar adequados às condições. Se aplicável, usar confinamento de processos, ventilação por exaustão local ou outro controlo técnico para manter os níveis de partículas disseminadas por via aérea em suspensão abaixo dos limites de exposição recomendados. Caso não tenham sido definidos limites, manter os níveis destas partículas em suspensão num nível aceitável.
Equipamento de Proteção Individual	
Respiratório	Seguir as regulamentações da máscara OSHA que se encontram na norma 29 CFR 1910.134 ou na Norma Europeia EN 149. Em caso de ultrapassagem dos limites de exposição ou da ocorrência de sintomas, usar um aparelho de respiração aprovado pelo NIOSH/MSHA ou pela Norma Europeia EN 149.
Olhos/Face	Usar óculos de proteção contra salpicos de produtos químicos.
Pele/Corpo	Em ambiente laboratorial, usar, pelo menos, luvas e bata para minimizar o contacto com a pele.
Controlos Ambientais de Exposição	Seguir as melhores práticas para gestão do local e eliminação dos resíduos.

Secção 9: Propriedades físicas e químicas

9.1 Informações sobre Propriedades Físicas e Químicas

Descrição do material			
Forma física	Líquido	Aspeto/Descrição	Os corantes são soluções de cor variável; os componentes não têm odor.
Cor	Variável	Odor	Inodoro
Limiar do Odor	Dados em falta		
Propriedades gerais			
Ponto de ebulição	100 °C (212 °F)	Ponto de fusão/Ponto de congelamento	0 °C (32 °F)
Temperatura de decomposição	Dados em falta	pH	6 a 9
Gravidade específica/Densidade relativa	Dados em falta	Solubilidade em água	Dados em falta

Inflamabilidade (sólido/gasoso)	Dados em falta		
Ambiental			
Coeficiente de partição octanol/água	Dados em falta		

9.2 Outras Informações

Não foram observados parâmetros físico-químicos adicionais.

Secção 10: Estabilidade e reatividade

10.1 Reatividade

Desconhecida reação perigosa em condições normais de utilização.

10.2 Estabilidade química

Estável

10.3 Possibilidade de reações perigosas

Não haverá polimerização perigosa.

10.4 Condições a evitar

Sem dados disponíveis

10.5 Materiais incompatíveis

Sem dados disponíveis

10.6 Produtos de decomposição perigosos

Sem dados disponíveis

Secção 11: Informações toxicológicas

11.1 Informações sobre efeitos toxicológicos

Propriedades do GHS	Classificação
Toxicidade aguda	**UE/CLP**•Dados em falta **GHS da ONU 3**•Dados em falta **OSHA HCS 2012**•Dados em falta

Secção 12: Informações ecológicas

12.1 Toxicidade
Dados dos materiais em falta.

12.2 Persistência e degradabilidade
Dados dos materiais em falta.

12.3 Potencial bioacumulativo
Dados dos materiais em falta.

12.4 Mobilidade no solo
Dados dos materiais em falta.

12.5 Resultados de avaliação PBT e vPvB
Não foi feita a avaliação PBT e vPvB.

12.6 Outros efeitos adversos
Não foram encontrados estudos.

Secção 13: Considerações sobre a eliminação

13.1 Métodos de tratamento de dejetos

Produto residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

Embalagem residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

13.2 Outras informações

As amostras biológicas misturadas com esferas devem ser tratadas como potenciais fontes de transmissão de agentes infeciosos. Consultar os técnicos responsáveis pelos resíduos ambientais da sua instituição relativamente à eliminação correta de amostras usadas.

Secção 14: Informações sobre transporte

	14.1 Número na ONU	14.2 Nome de transporte adequado (ONU)	14.3 Classe(s) de transporte de risco	14.4 Grupo de embalagem	14.5 Perigos ambientais
DOT	NDA	Não regulamentado	NDA	NDA	NDA
TDG	NDA	Não regulamentado	NDA	NDA	NDA
IMO/IMDG	NDA	Não regulamentado	NDA	NDA	NDA
IATA/ICAO	NDA	Não regulamentado	NDA	NDA	NDA

14.6 Precauções especiais para o utilizador

Nenhuma especificada.

14.7 Transporte por volume segundo o Anexo II de MARPOL 73/78 e do Código do IBC

Dados em falta.

Secção 15: Informações regulamentares

15.1 Regulamentos/legislação de segurança, saúde e ambientais, específicos da substância ou mistura

Classificações de Risco SARA Nenhuma

15.2 Avaliação da Segurança Química

Não foi efetuada qualquer Avaliação da Segurança Química.

Secção 16: Outras informações

Renúncia/ Declaração de responsabilidade

A informação supramencionada baseia-se em dados que nos foram disponibilizados e é tida como correta. Dado que a informação pode ser aplicada em condições fora do nosso controlo e com as quais podemos não estar familiarizados, não assumimos qualquer responsabilidade pelo resultado da sua utilização, e todas as pessoas que a recebam têm de determinar individualmente os efeitos, as propriedades, as proteções e os procedimentos de eliminação que se aplicam às suas condições particulares. Não se assume qualquer representação ou garantia, implícita ou explicitamente (incluindo garantia de adequação ou comerciabilidade para uma finalidade específica) em relação aos materiais, à exatidão desta informação, aos resultados obtidos decorrentes da sua utilização ou a perigos relacionados com a utilização deste material. Deve-se ter cuidado no manuseamento e utilização deste material. A informação anterior é disponibilizada de boa-fé e é tida como exata. À data de emissão, fornecemos toda a informação relevante para um manuseamento previsível do material. No entanto, caso ocorra um incidente adverso associado a este produto, esta Ficha de Dados de Segurança não substitui, nem se pretende que substitua, a consulta de um profissional com formação adequada.

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

Раздел 2: Идентификация опасности

ЕС/ЕЭС

Согласно: Регламенту ЕК (ЕС) № 1272/2008 (CLP)/REACH 1907/2006 [с поправками, внесенными постановлением 453/2010]

2.1 Классификация вещества или смеси

Регламент CLP Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Этот продукт содержит жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1) и (2).
Не классифицируется

2.2 Элементы маркировки

Регламент CLP

Указания на опасность Маркировка не требуется.

2.3 Другие факторы опасности

Регламент CLP Согласно Регламенту ЕК № 1272/2008 (CLP) этот материал не считается опасным.

СГС ООН, редакция 3

Согласно: Согласованная на глобальном уровне система классификации опасности и маркировки химической продукции (СГС) ООН: Третья пересмотренная редакция

2.1 Классификация вещества или смеси

СГС ООН Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Этот продукт содержит жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1) и (2).
Не классифицируется

2.2 Элементы маркировки

СГС ООН

Указания на опасность Маркировка не требуется.

Меры предосторожности

2.3 Другие факторы опасности

СГС ООН В соответствии с Согласованной на глобальном уровне системой классификации опасности и маркировки химической продукции (СГС) данный продукт не считается опасным.

Паспорт безопасности материала
Дата вступления в силу: *июнь 2020 г.*
Отменяет версию документа за: январь 2020 г.

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

США
Согласно: OSHA 29 CFR 1910.1200 HCS

2.1 Классификация вещества или смеси

OSHA HCS 2012 Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Этот продукт содержит жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1) и (2).
Не классифицируется

2.2 Элементы маркировки

OSHA HCS 2012

Указания на опасность Маркировка не требуется.

2.3 Другие факторы опасности

OSHA HCS 2012 Данный продукт не считается опасным согласно стандарту-требованию об оповещении об опасности Управления по охране труда (OSHA) США (документ 29 CFR 1910.1200).

Канада
Согласно: WHMIS

2.1 Классификация вещества или смеси

WHMIS Следующий паспорт безопасности материала действителен только для готовой смеси, используемой в лабораторных условиях. Этот продукт содержит жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1) и (2).
Не классифицируется

2.2 Элементы маркировки

WHMIS Маркировка не требуется.

2.3 Другие факторы опасности

WHMIS В Канаде указанное выше вещество согласно требованиям Информационной системы по опасным материалам на рабочих местах (WHMIS) не считается опасным.

2.4 Дополнительная информация

Составляющие красителей представлены в концентрации менее 1% от всего продукта или не считаются опасными согласно Стандартам-требованиям США об оповещении об опасности (29 CFR 1910.1200), директивам ЕС в отношении классификации и маркировки веществ и смесей и Согласованной на глобальном уровне системе классификации опасности и маркировки химической продукции.

Раздел 3: Состав/информация о компонентах

3.1 Вещества

Компоненты не считаются опасными согласно директивам ЕС в отношении классификации и маркировке веществ или смесей или по Согласованной на глобальном уровне системе классификации опасности и маркировки химической продукции.

3.2 Смеси

Материал не отвечает критериям классификации, применяемым к смесям.

Раздел 4: Первая медицинская помощь

4.1 Описание мер первой медицинской помощи

Вдыхание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. Вынести пострадавшего на свежий воздух. При затрудненном дыхании дать кислород. При вдыхании вещества не применять искусственное дыхание рот-в-рот. Выполнить искусственное дыхание с помощью карманной маски с клапаном одностороннего действия или другого подходящего медицинского устройства. При остановке дыхания обеспечить искусственное дыхание/ИВЛ.

Кожа Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При незначительном контакте с кожей избегайте распространения материала на незатронутые участки. В случае контакта вещества с кожей незамедлительно промыть пораженный участок проточной водой в течение не менее чем 20 минут. Снять и изолировать загрязненную одежду.

Глаза Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. В случае попадания вещества незамедлительно промыть глаза проточной водой в течение не менее чем 20 минут. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

Проглатывание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При проглатывании прополоскать рот водой (только если человек находится в сознании). НЕ вызывать рвоту. Не применять искусственное дыхание рот-в-рот при проглатывании вещества. При проглатывании материала сразу же обратиться к врачу.

4.2 Наиболее важные симптомы и последствия, проявляющиеся немедленно и с задержкой

См. раздел 11, «Токсикологическая информация».

4.3 Признаки необходимости неотложной медицинской помощи и специального лечения

Примечания для врача Лечение основывать на наблюдаемых симптомах. Учитывать возможность одновременного чрезмерного воздействия на пациента и других веществ, помимо данного продукта.

Раздел 5: Меры противопожарной безопасности

5.1 Средства пожаротушения

Подходящие средства пожаротушения	В случае пожара использовать средства пожаротушения, пригодные для окружающего огня.
Непригодные средства пожаротушения	Данные отсутствуют

5.2 Особые аспекты опасности вещества или смеси

Особая огне- и взрывоопасность	Не огнеопасно и не взрывоопасно.
Опасные продукты горения	Данные отсутствуют

5.3 Рекомендации по пожаротушению

Защитная одежда пожарных для тушения пожаров в зданиях обеспечивает ограниченную защиту ТОЛЬКО в условиях пожара; она не является эффективным средством защиты при разливах с возможным непосредственным контактом с веществами.
Носить одежду для химической защиты, рекомендованную производителем. Она может быть малоэффективна или неэффективна в качестве тепловой защиты.
Использовать автономные дыхательные аппараты, работающие в режиме положительного давления.
НЕБОЛЬШИЕ ПОЖАРЫ. Уберите контейнеры из зоны пожара, если можете сделать это без риска.

Раздел 6: Меры по предотвращению и ликвидации последствий случайного выброса материала

6.1 Меры по обеспечению личной безопасности, средства защиты и действия в чрезвычайной ситуации

Меры по обеспечению личной безопасности	В случае разбития картриджа актуальны указанные меры по обеспечению личной безопасности. Проветрите закрытые помещения. Используйте соответствующую защитную одежду. Не ходите по разлитому/просыпанному материалу. Не прикасайтесь к поврежденным контейнерам или разлитому/просыпанному материалу, если нет соответствующей защитной одежды.
Действия в чрезвычайных ситуациях	Ожидается, что экстренные меры не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций.

6.2 Меры по защите окружающей среды

Не допускать стока в водотоки и системы канализации.

6.3 Методы и средства локализации и очистки

Методы и средства локализации и очистки	При небольших разливах используйте перчатки. Для сбора вещества используйте бумажные полотенца. Не сливать пролитые вещества в канализацию.

6.4 Ссылки на другие разделы

См. раздел 8, «Меры контроля воздействия и средства индивидуальной защиты», и раздел 13, «Условия удаления в отходы».

Паспорт безопасности материала
Дата вступления в силу: *июнь 2020 г.*
Отменяет версию документа за: январь 2020 г.

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

Раздел 7: Правила обращения и хранения

7.1 Меры предосторожности при обращении с продуктом

Обращение Особое обращение не требуется. В случае разбития картриджа избегайте контакта с разлившимися реактивами. Избегать контакта с кожей и глазами.

7.2 Условия безопасного хранения и учет факторов несовместимости

Место хранения Хранить согласно указаниям на упаковке. Хранить в плотно закрытом контейнере/упаковке в прохладном, хорошо проветриваемом месте. Хранить вдали от несовместимых материалов.

7.3 Особые способы применения

См. раздел 1.2, «Рекомендованные способы применения».

Раздел 8: Меры контроля воздействия и средства индивидуальной защиты

8.1 Контрольные параметры

Предельно допустимые концентрации/рекомендации Для продуктов и компонентов не установлены предельно допустимые концентрации.

8.2 Меры контроля воздействия

Инженерно-технические мероприятия/средства контроля Следует обеспечить хорошую общую вентиляцию. Интенсивность вентиляции должна соответствовать условиям хранения/использования. Если возможно, используйте изолированное рабочее пространство, местную вытяжную вентиляцию и прочие инженерно-технические средства для сдерживания концентрации вещества в воздухе на уровне ниже ПДК. Если ПДК не установлены, поддерживайте приемлемые концентрации вещества в воздухе.

Индивидуальные средства защиты

Защита органов дыхания Соблюдайте рекомендации по использованию респираторов Управления охраны труда (OSHA) США, изложенные в документе 29 CFR 1910.134, или Европейского стандарта EN 149. При превышении ПДК или обнаружении признаков поражения используйте респираторы, одобренные Национальным институтом по безопасности и гигиене труда (NIOSH) США, Управлением по безопасности и охране труда в добывающей промышленности (MSHA) США или Европейским стандартом EN 149.

Защита глаз/лица Носите очки химической защиты.

Защита кожных покровов/тела При работе в лаборатории для сведения к минимуму риска контакта с кожей используйте перчатки и халат.

Защита окружающей среды Соблюдайте общие правила работы на объекте и удаления отходов.

Раздел 9: Физические и химические свойства

9.1 Информация о физических и химических свойствах

Описание материала			
Физическая форма	Жидкость	Внешний вид/описание	Красители представляют собой растворы с вариабельным цветом, компоненты не имеют запаха.
Цвет	Вариабельный	Запах	Без запаха
Порог ощущения запаха	Данные отсутствуют		
Общие свойства			
Точка кипения	100 °C (212 °F)	Температура плавления/ замерзания	0 °C (32 °F)
Температура разложения	Данные отсутствуют	pH	от 6 до 9
Удельный вес/относительная плотность	Данные отсутствуют	Растворимость в воде	Данные отсутствуют
Вязкость	Данные отсутствуют	Взрывчатые свойства	Данные отсутствуют
Окислительные свойства:	Данные отсутствуют		
Летучесть			
Давление паров	Данные отсутствуют	Плотность паров	Данные отсутствуют
Интенсивность испарения	Данные отсутствуют		
Воспламеняемость			
Температура вспышки	Данные отсутствуют	ВКПВ (верхний предел взрываемости)	Данные отсутствуют
НПВ (нижний предел взрываемости)	Данные отсутствуют	Самовоспламенение	Данные отсутствуют
Воспламеняемость (в твердом, газообразном состоянии)	Данные отсутствуют		
В отношении окружающей среды			
Коэффициент распределения октанол/вода	Данные отсутствуют		

9.2 Дополнительная информация

Дополнительные физические и химические свойства не обнаружены.

Раздел 10: Стабильность и реакционная способность

10.1 Реакционная способность

В нормальных условиях использования опасные реакции неизвестны.

10.2 Химическая стабильность

Стабильно

10.3 Вероятность опасных реакций

Опасная полимеризация не происходит.

10.4 Условия, которых следует избегать

Данные отсутствуют

10.5 Несовместимые материалы

Данные отсутствуют

10.6 Опасные продукты разложения

Данные отсутствуют

Раздел 11: Токсикологическая информация

11.1 Информация о токсикологических последствиях

Свойства (СГС)	Классификация
Острая токсичность	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Разъедающее/раздражающее воздействие на кожу	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Серьезное повреждение/раздражение глаз	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Сенсибилизация кожи	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Сенсибилизация органов дыхания	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Опасность при аспирации	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Канцерогенность	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Мутагенность для зародышевых клеток	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Токсическое действие на репродуктивную функцию	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Органоспецифическая токсичность при однократном воздействии (STOT-SE)	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Органоспецифическая токсичность при многократном воздействии (STOT-RE)	**EU/CLP**•Данные отсутствуют **СГС ООН 3**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют

Возможные последствия для здоровья

Вдыхание
Острые последствия Симптомов не ожидается.
Хронические последствия Данные отсутствуют
Кожа
Острые последствия Симптомов не ожидается.
Хронические последствия Данные отсутствуют

Глаза	
Острые последствия	Симптомов не ожидается.
Хронические последствия	Данные отсутствуют
Проглатывание	
Острые последствия	Данные отсутствуют
Хронические последствия	Данные отсутствуют

Раздел 12: Информация о воздействии на окружающую среду

12.1 Токсичность

Данные о материале отсутствуют.

12.2 Устойчивость и способность к разложению

Данные о материале отсутствуют.

12.3 Способность к биоаккумуляции

Данные о материале отсутствуют.

12.4 Подвижность в почве

Данные о материале отсутствуют.

12.5 Результаты оценки соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества»

Оценка соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества» не производилась.

12.6 Другие неблагоприятные последствия

Исследования не проводились.

Раздел 13: Условия удаления в отходы

13.1 Методы переработки отходов

Отходы продукта	Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.
Отходы упаковки	Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

13.2 Дополнительная информация

С биологическими образцами, смешанными с гранулами, следует обращаться как с материалами, способными служить источником инфекционного заражения. По вопросам надлежащего удаления в отходы использованных образцов проконсультируйтесь с лицами, ответственными за обращение с отходами в вашей организации.

Раздел 14: Информация о транспортировке

	14.1 Номер ООН	14.2 Отгрузочное наименование ООН	14.3 Класс(-ы) опасности при транспортировке	14.4 Группа упаковки	14.5 Опасность для окружающей среды
DOT	Нет данных	Не регулируется	Нет данных	Нет данных	Нет данных
TDG	Нет данных	Не регулируется	Нет данных	Нет данных	Нет данных
IMO/IMDG	Нет данных	Не регулируется	Нет данных	Нет данных	Нет данных
IATA/ICAO	Нет данных	Не регулируется	Нет данных	Нет данных	Нет данных

14.6 Специальные меры предосторожности для пользователей

Не указаны.

14.7 Бестарная транспортировка в соответствии с Приложением II MARPOL 73/78 и Кодексом IBC

Данные отсутствуют.

Раздел 15: Нормативная информация

15.1 Правовые акты в сфере безопасности, защиты здоровья и окружающей среды/особые правовые акты, применимые к веществу или смеси

Класс опасности (SARA) Нет

15.2 Оценка химической безопасности

Оценка химической безопасности не проводилась.

Раздел 16: Дополнительная информация

Отказ от ответственности/ ограничение ответственности

Представленные выше сведения основаны на доступных нам данных и считаются верными. В связи с тем, что представленная информация может быть использована в независящих от нас и неизвестных нам условиях, мы не несем ответственность за последствия ее использования, а все лица, получающие эту информацию, должны самостоятельно принимать решения относительно последствий применения, свойств, средств защиты и способов удаления в отходы в соответствии с конкретными условиями применения. Мы не заявляем, не даем каких-либо гарантий и поручительств, явных или подразумеваемых (включая гарантии пригодности или товарной пригодности для конкретной цели), в отношении материалов и точности информации, полученных при их использовании результатов, а также опасностей, связанных с использованием данного материала. При обращении с материалом и его использовании следует проявлять осторожность. Представленная выше информация передана добросовестно с уверенностью в ее точности. Мы предоставляем всю информацию, касающуюся предполагаемого использования материала, по состоянию на момент публикации. Однако в случае нежелательных последствий, связанных с данным продуктом, настоящий паспорт безопасности материала не является и не может являться заменой консультации с обученным специалистом.

1.4 紧急电话号码

制造商 1 (800) 535-5053 - INFOTRAC - 24 小时紧急电话

制造商 1 (352) 323-3500 - 美国境外

安全数据表
生效日期：2020 年 6 月
更换日期：2020 年 1 月

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

第 2 章：危险标识

EU/EEC
根据：第 1272/2008 号规章（欧共体）(CLP)/REACH 1907/2006 [修订版 453/2010]

2.1 物质或混合物的分类

CLP — 以下 SDS 适用于仅用于实验室的最终混合物成品。产品含有液体。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

CLP

危险声明 不要求标签元素

2.3 其他危险

CLP — 根据 (EC) 1272/2008 号条例 (CLP)，认为这种材料不是危险材料。

UN GHS 修订版 3
根据：联合国 (UN) 全球化学品统一分类和标签制度 (GHS)：第三次修订版

2.1 物质或混合物的分类

UN GHS — 以下 SDS 适用于仅用于实验室的最终混合物成品。产品含有液体。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

UN GHS

危险声明 不要求标签元素
防范声明

2.3 其他危险

UN GHS — 根据全球统一分类和标签制度（GHS），认为该产品不是危险品。

美国（US）
根据：OSHA 29 CFR 1910.1200 HCS

2.1 物质或混合物的分类

OSHA 的 HCS2012 — 以下 SDS 适用于仅用于实验室的最终混合物成品。产品含有液体。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

OSHA 的 HCS2012

危险声明 不要求标签元素

2.3 其他危险

OSHA 的 HCS2012 根据美国 OSHA 29 CFR 1910.1200 危害通识标准，认为该产品不是危险品。

加拿大
根据：WHMIS

2.1 物质或混合物的分类

WHMIS 以下 SDS 适用于仅用于实验室的最终混合物成品。产品含有液体。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

WHMIS 不要求标签元素。

2.3 其他危险

WHMIS 在加拿大，根据工作场所有害物质信息系统（WHMIS），认为上述产品不是危险品。

2.4 其他信息

整个颗粒浓度在染物组分中均低于 1%，或者根据美国危害通讯法规 (29 CFR 1910.1200)、欧盟物质或混合物分类与标签指令或全球物质或混合物分类与标签统一制度均不被规范为危险物质。

第 3 章：成分构成/信息

3.1 物质

成分在欧盟物质或混合物分类与标签指令或全球物质或混合物分类与标签统一制度均不被认为是危险物质。

3.2 混合物

材料不符合某种混合物的标准。

第 4 章：急救措施

4.1 急救措施描述

吸入 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。将受害者移至新鲜空气处。如果呼吸困难，就施用氧气。如果受害者吸入该物质，就不要使用口对口方法；借助配备单向阀或其他适当的呼吸医疗设备的袖珍面罩来给予人工呼吸。如果受害者没有呼吸，就给予人工呼吸。

皮肤 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。对于轻微的皮肤接触，避免使物质扩散到未受影响的皮肤上。在与物质接触的情况下，立即用流动的水冲洗眼睛至少 20 分钟。脱掉并隔离受污染的衣物。

眼睛 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。在与物质接触的情况下，立即用大量的水冲洗眼睛至少 20 分钟。如果眼睛刺激持续：获得医疗指导/就医治疗。

摄入 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。如果吞入，用水漱口（只有当伤员意识清楚时）。切勿催吐。如果受害者摄入该物质，请勿使用口对口人工呼吸法。如果摄入，立即就医。

4.2 急性及缓发的最重要症状及效应

请参阅第 11 章 - 毒物学信息。

4.3 任何需要立即就医及特别治疗的症候

对医生的注释 所有治疗措施均应根据所观察到的患者的痛苦症状和体征进行。应考虑可能发生过度暴露于非本品材料的可能性。

第 5 章：消防措施

5.1 灭火介质

适用的灭火介质 一旦发生火灾，请使用适合周围火情的介质。

不适用的灭火介质 无可用数据

5.2 由物质或混合物产生的特殊危险

异常火灾和爆炸危险 不易燃或不可燃。

有害燃烧产物 无可用数据

5.3 供消防队员采纳的建议

建筑消防员的防护服在火情中只能提供有限的保护；它在可能与物质直接接触的溢出情况下无效穿上制造商专门推荐的化学防护服。

穿上制造商专门推荐的化学防护服。它可能提供很少或根本没有提供热保护。

配戴正压自给式呼吸装置 (SCBA)。

小火：如果能够无风险地完成，就从火区移出容器。

第 6 章：意外释放措施

6.1 个人预防措施、防护装备和紧急程序

个人预防措施 万一盒子断裂，则适用于这些个人预防措施。使封闭的地区通风。穿戴适当的防护服。切勿踩踏泄漏物。除非穿着适当的防护服，否则不要触碰损坏的容器或溢出的物质。

应急程序 如果在一般条件下并且按照推荐的方法使用材料，预计不必要执行应急程序。

6.2 环保预防措施

避免流失到水道和下水道。

6.3 用于遏制/净化的方法和材料

遏制/净化措施 对于少量撒漏，戴手套并用纸巾吸附撒漏物。切勿将撒漏的材料冲刷到排水管道中予以处置。

6.4 其他各章的参考

请参阅第 8 章 - 接触控制/个人防护以及第 13 章 - 处置注意事项。

第 7 章：操作和贮存

7.1 用于安全操作的预防措施

操作 无需任何特殊操作。如果盒子断裂，避免接触撒漏的制剂。避免接触皮肤和眼。

7.2 包括任何不相容性的安全贮存条件

贮存 按产品标签予以贮存。将容器/包装在阴凉、通风良好之处保持密闭。远离不相容材料。

7.3 特定最终用途

请参阅第 1.2 条 - 有关确定用途。

第 8 章：接触控制/个人防护

8.1 控制参数

接触限值/指南 产品或组分无可用适用爆炸极限。

8.2 接触控制

工程措施/控制 应当使用良好的通用通风设施。通风速率应当与环境相配。如果适用，使用工艺外罩、局部排气通风或其它工程控制设施，以保持空气中的浓度低于推荐的接触限值。如果尚未确定接触限值，就将空气中的浓度保持在可接受的水平。

个人防护装备

呼吸 遵守 29 CFR 1910.134 或欧洲标准 EN 149 中可见的 OSHA 呼吸器条例。如果超过接触限值
或出现症状，就使用 NIOSH/MSHA 或欧洲标准 EN 149 认可的呼吸器。

眼睛/面部	佩戴防化学剂飞溅护目镜。
皮肤/身体	在实验室环境中，至少戴手套、穿实验服，以将皮肤接触降到最低。
环境接触控制	遵守厂区管理和废物处置最佳规范。

第 9 章：物理性质和化学性质

9.1 有关物理性质和化学性质的信息

材料描述			
外形	液体	外形/描述	染料是颜色各有不同的溶液，组分为无色。
颜色	各有不同	气味	无味
气味阈值	数据缺乏		
一般性质			
沸点	100 ° C (212 ° F)	熔点/凝固点	0 ° C (32 ° F)
分解温度	数据缺乏	pH 值	6 至 9
比重/相对密度	数据缺乏	水溶解度	数据缺乏
粘度	数据缺乏	易爆性质	数据缺乏
氧化性性质	数据缺乏		
挥发性			
蒸气压力	数据缺乏	蒸气密度	数据缺乏
蒸发速率	数据缺乏		
易燃性			
闪点	数据缺乏	爆炸上限	数据缺乏
爆炸下限	数据缺乏	自燃点	数据缺乏
易燃性（固体、气体）	数据缺乏		
环境方面			
辛醇/水分配系数	数据缺乏		

9.2 其他信息

未注明额外的物理和化学参数。

第 10 章：稳定性和反应性

10.1 反应性

在正常使用条件下，未知有危险反应。

10.2 化学稳定性

稳定

10.3 危险反应的可能性

不会发生危险的聚合反应。

10.4 应避免的情况

无可用数据

10.5 不相容的材料

无可用数据

10.6 危险的分解产物

无可用数据

第 11 章：毒物学信息

11.1 有关毒物学效应的信息

GHS 危险种类	危险类别
急性毒性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
皮肤腐蚀/刺激	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
严重眼损伤/刺激	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
皮肤过敏	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
呼吸过敏	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
吸入危险	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
致癌性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
生殖细胞致突变性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
针对生殖的毒性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
STOT-SE	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据

潜在健康影响

吸入	
急性（立即）	无预期症状。
慢性（缓发）	无可用数据
皮肤	
急性（立即）	无预期症状。
慢性（缓发）	无可用数据
眼睛	
急性（立即）	无预期症状。
慢性（缓发）	无可用数据
摄入	
急性（立即）	无可用数据
慢性（缓发）	无可用数据

第 12 章：生态学信息

12.1 毒性

材料数据缺失。

12.2 持久性和降解性

材料数据缺失。

12.3 生物累积的潜力

材料数据缺失。

12.4 土壤中的移动性

材料数据缺失。

12.5 PBT 及 vPvB 评估的结果

尚未进行 PBT 和 vPvB 评估。

12.6 其他不良效应

未发现研究成果。

第 13 章：处置注意事项

13.1 废物处理方法

产品废物	与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。
包装废弃物	与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

13.2 其他信息

与露珠混合的生物标本应以能够传递感染源对待。有关已用标本的正确处置，请查询贵机构的环境废弃物人员。

第 14 章：运输信息

	14.1 UN 编号	14.2 UN 正式运输名称	14.3 运输危险分类	14.4 包装组	14.5 环境危害
DOT	NDA	未管制	NDA	NDA	NDA
TDG	NDA	未管制	NDA	NDA	NDA
IMO/IMDG	NDA	未管制	NDA	NDA	NDA
IATA/ICAO	NDA	未管制	NDA	NDA	NDA

14.6 用户特殊防护措施

未列明。

14.7 根据 MARPOL73/78 的附录 II 和 IBC 准则散装运输

缺乏数据。

第 15 章：法规信息

15.1 针对特定物质或混合物的安全、卫生和环境条例/法规

SARA 危险性分类 无

15.2 化学安全评估

未进行化学安全评估。

第 16 章：其他信息

免责声明/责任声明

以上信息基于对于我们的可用数据，而且相信是正确的。由于对信息的应用可能会在超出我们控制的条件下和以我们所不熟悉的条件进行，因此我们对其使用的任何结果概不承担任何责任，而且收到此信息的所有人士均务必自行确定其特定应用条件下的效能、性能、防护和处置方法。未就信息所涵盖的材料、其准确性、因使用材料而获得的结果或与使用材料相关的危害作出任何明示或暗示的表示、担保或保证（包括对特定目的下适用性或适销性的担保）。操作或使用本材料应小心谨慎。以上信息以诚信提供，而且相信是准确的。截至签发日期，我们提供有关可预见材料操作的所有信息。然而，一旦发生与本品相关的恶性事故，本安全数据表却不是，而且也不旨在是向接受过适当训练人员咨询的替代。

Calibration Dyes and Buffer C
Xpert Nasopharyngeal Sample Collection Kit
Xpert Nasal Sample Collection Kit
Buffer 1-BA, Buffer 2-BA, Buffer 3-BA

セクション 2:危険性識別

EU/EEC

準拠:指令(EC)1272/2008 (CLP)/REACH 1907/2006 [453/2010 による改訂]

2.1 物質や混合物の分類

CLP

次の SDS は、研究所で使用される最終完全混合物製品用のみです。本製品には液体が含まれています。一部の物質の情報の開示の免除は、CLP 第 1 条(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

CLP

危険有害性情報 ラベル要素は必要ありません。

2.3 その他危険性

CLP

規定(EC) No. 1272/2008 (CLP) に準じて、本剤は危険物とみなされません。

UN GHS 改訂第 3 版

準拠:UN 化学品の分類および表示に関する世界調和システム(GHS) 改訂第 3 版

2.1 物質や混合物の分類

UN GHS

次の SDS は、研究所で使用される最終完全混合物製品用のみです。本製品には液体が含まれています。一部の物質の情報の開示の免除は、CLP 第 1 条(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

UN GHS

危険有害性情報 ラベル要素は必要ありません。
予防情報

2.3 その他危険性

UN GHS

危険化学品分類表示の世界調和システム(GHS)では、本製品は危険な物質とみなされません。

米国(US)

準拠:OSHA 29 CFR 1910.1200 HCS

2.1 物質や混合物の分類

OSHA HCS 2012

次の SDS は、研究所で使用される最終完全混合物製品用のみです。本製品には液体が含まれています。一部の物質の情報の開示の免除は、CLP 第 1 条(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

OSHA HCS 2012

危険有害性情報 ラベル要素は必要ありません。

2.3 その他危険性

OSHA HCS 2012 本製品は、U.S. OSHA 29 CFR 1910.1200 危険有害性周知基準に基づいた場合、危険物とみなされません。

カナダ
準拠:WHMIS

2.1 物質や混合物の分類

WHMIS 次の SDS は、研究所で使用される最終完全混合物製品用のみです。本製品には液体が含まれています。一部の物質の情報の開示の免除は、CLP 第 1 条(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

WHMIS ラベル要素は必要ありません。

2.3 その他危険性

WHMIS カナダでは、上述の製品は作業場にある危険物に関する情報システム (WHMIS)に基づき危険物と
みなされません。

2.4 その他情報

染料の成分は、全品目の 1%未満であるか、または米国ハザード通信規制(29 CFR 1910.1200)、物質または混合物の分類と表示に関する EU 指令、または物質または混合物の分類と表示に関する世界調和システムで有害とみなされていません。

セクション 3:成分の組成・情報

3.1 物質

成分は、物質または混合物の分類と表示に関する EU 指令、または物質または混合物の分類と表示に関する世界調和システムで有害とみなされていません。

3.2 混合物

本剤は、混合物区分を満たしません。

セクション 4:応急処置手段

4.1 応急措置手段

吸引
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。被災者を新鮮な空気がある場所に移す。呼吸困難の場合は酸素を供給する。被災者が物質を吸引した場合、口移し式人工呼吸を行ってはならない;一方向バルブの付いたポケットマスクや、その他の適切な呼吸医療装置を使って人工呼吸を行う。被災者が呼吸していない場合は、人工呼吸を施す。

皮膚
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。軽度の皮膚との接触では、影響を受けていない皮膚に物質を広げないようにする。物質と接触した場合は、最低 20 分間、直ちに流水で皮膚を洗浄する。汚染した衣類を取り除いて隔離する。

目
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。物質と接触した場合は、最低 20 分間、直ちに流水で目を洗浄する。目の刺激が続く場合:医師の助言/手当てを受ける。

摂取
物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。飲み込んだ場合は、水で口をゆすいではならない(意識がある場合)。嘔吐を誘発しないでください。被災者が物質を摂取した場合は口移し式人工呼吸を行ってはならない。摂取した場合は直ちに医師の手当てを受ける。

4.2 もっとも重要な症状と影響、急性および遅発性

第十一項 毒性に関する情報を参照してください。

4.3 直ちに医学的配慮と特別治療を必要とする兆候

医師へのメモ
治療はすべて、患者の苦痛の兆候および症状に基づき行われる必要があります。本製品以外の物質に著しくさらされた可能性について考慮する必要があります。

セクション 5:消化手段

5.1 消火剤

適切な消火剤
火災が発生した場合は、周辺の火災に適切な方法を用いてください。

不適切な消火剤
データなし

5.2 物質や混合物から発生する特別な危険

異常な火災と爆発の危険
引火性または可燃性ではありません。

有害な燃焼生物
データなし

5.3 消防士への助言

流出した状況では物質に直接接触する可能性があ るため、効果がない製造業者が推奨する 化学品防護服を着用する。
製造業者が推奨する化学品防護服を着用する。熱に対する保護は、ある程度、またはまったく提供されない。
陽圧自給式呼吸器(SCBA)を着用する。
小規模火災:危険を冒さずにできる場合は、火災区域から容器を移動させる動かす。

セクション 6:漏出時の措置

6.1 人体に対する注意事項、保護具、および緊急時措置

人体に対する注意事項 カートリッジが破損した場合、これらの人体に対する予防措置が適用されます。閉じ込められた場所を換気する。適切な保護服を着用する。漏出した物質を通って歩かない。適切な保護服を着用せずに破損した容器または漏出した物質に触れてはならない。

応急措置 物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されない。

6.2 影響に対する注意事項

排水溝や下水道に流れ込まないようにしてください。

6.3 閉じ込めと清掃の手段と物質

閉じ込めと清掃の手段 少量の流出の場合は、手袋を着用し、ペーパータオルで流出を吸収してください。流出した物質を排水溝に廃棄しないでください。

6.4 他のセクションへの言及

第八項 爆発管理/安全保護、および第十三項 廃棄時の注意事項を参照してください。

セクション 7:取り扱いと保管

7.1 安全な取り扱いについての注意

取り扱い 特別な取扱いは必要ありません。カートリッジが破損した場合、漏出した試薬に触れないようにしてください。皮膚に付着したり、目に入らないようにしてください。

7.2 安全な保管の条件、不適合性を含む

保管 製品ラベルに従って保管してください。容器/パッケージをしっかりと密閉し、涼しく、風通しの良い場所に保管してください。互換性をもたない物質から離す。

7.3 具体的な最終用途

セクション 1.2 関連する使用方法に関する情報を参照してください。

セクション 8:暴露管理・個人保護

8.1 管理パラメータ

曝露限度/ガイドライン 製品または成分に規定の曝露限度がありません。

8.2 曝露管理

工学的手段・管理 十分な通気を確保してください。通規率は状況に応じて適切に調整してください。該当する場合は、包囲装置、局所排気装置、またはその他のエンジニアリングコントロール装置を使って、空気中の粉塵レベルが推奨暴露限界を超えないようにしてください。暴露レベルが確定されていない場合は、許容範囲の粉塵量を維持してください。

個人用保護具

呼吸器官	OSHA 呼吸器規制に関しては、29 CFR 1910.134 または 欧州標準 EN 149 をご覧ください。暴露基準を超える場合、あるいは症状が発症した場合は、NIOSH/MSHA または 欧州標準 EN 149 保護マスクをご使用ください。
目・顔面	化学物飛散防止ゴーグルを着用してください。
皮膚・人体	研究所での服装として、手袋とラボコートを最低限着用し、皮膚接触を最小化してください。
環境暴露管理	現場管理および廃棄物の取り扱いは十分注意して行ってください。

セクション 9:物理的および化学的特性

9.1 物理的および化学的特性

材料の説明			
物理的形状	液体	外観/記述	染料は種々の色の溶液であり、成分は無臭です。
色	変化する	臭気	無臭
臭気限界	データ不足		
一般的性質			
沸騰点	100 ° C (212 ° F)	融解点・凝固点	0 ° C (32 ° F)
分解温度	データ不足	pH	6～9
比重・相対密度	データ不足	水溶性	データ不足
粘性	データ不足	爆発特性	データ不足
酸化特性:	データ不足		
揮発度			
蒸気圧	データ不足	蒸気密度	データ不足
蒸発速度	データ不足		
可燃性			
引火点	データ不足	UEL	データ不足
LEL	データ不足	自己発火	データ不足
可燃性(固体、ガス)	データ不足		
環境曝露管理			
オクタノール・水分配係数	データ不足		

9.2 その他情報

その他に物理的および化学的パラメータの記載はありません。

セクション 10:安定性と反応性

10.1 反応性

通常の使用において、危険反応は報告されていません。

10.2 化学安定性

安定

10.3 有害反応の可能性

危険物のポリメリゼーションは発生しません。

10.4 回避すべき条件

データなし

10.5 不適合物質

データなし

10.6 有害分解性生物

データなし

セクション 11:毒性情報

11.1 毒性効果

GHS 特性	分類
急性毒性	EU/CLP-データ不足 UN GHS 3-データ不足 OSHA HCS 2012-データ不足

慢性(遅発性) データなし

セクション 12:生態学的情報

12.1 毒性
実態データが不足しています

12.2 持続性と分解性
実態データが不足しています

12.3 生体内蓄積能
実態データが不足しています

12.4 土壌中移動性
実態データが不足しています

12.5 PBT と vPvB 評価の結果
PBT および vPvB アセスメントは行われていません。

12.6 その他有害影響
そのような研究結果はありません。

セクション 13:廃棄上の注意

13.1 廃棄物処理手段

製品廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

包装廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

13.2 その他情報

ビーズと混合された生物試料は、感染物質を伝染する能力があるものとして取り扱われる必要があります。使用済み試料の適切な廃棄方法については、機関の環境廃棄物担当員に相談してください。

セクション 14:輸送情報

Safety Data Sheet
Effective Date: September, 2016
Supersedes Date: November, 2015

Xpert Trichomonas

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product Identifier

Product Name **Xpert Trichomonas**
Product Code 900-0657; GXTV-10; GXTV-CE-10

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Relevant Identified Use(s) Laboratory use

1.3 Details of the Supplier of the Safety Data Sheet

Manufacturer Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
United States
www.cepheid.com
US: techsupport@cepheid.com
Telephone (General) 1 (888) 838-3222 - US Option 2
Telephone (General) 1 (408) 541-4191 - Outside of the US

1.4 Emergency Telephone Number

Manufacturer 1 (800) 424-9300 - CHEMTREC - 24 hr Emergency
Manufacturer 1 (703) 741-5500 - Outside of the US

Section 2: Hazards Identification

EU/EEC

According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010]

2.1 Classification of the Substance or Mixture

CLP The following SDS is for the final finished product only as used in the laboratory. It contains liquid components, some of which are in freeze-dried powders and reagents which are contained in the cartridge and in a Nalgene bottle. All reagents are clear, colorless liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Not classified

2.2 Label Elements

CLP

Hazard Statements No label element(s) required

2.3 Other Hazards

CLP According to Regulation (EC) No. 1272/2008 (CLP) this material is not considered hazardous.

UN GHS

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS)

2.1 Classification of the Substance or Mixture

UN GHS

Acute Toxicity Oral 5
Skin Mild Irritation 3
Eye Irritation 2

2.2 Label Elements

UN GHS

WARNING

Hazard Statements

May be harmful if swallowed
Causes mild skin irritation
Causes serious eye irritation

Precautionary Statements

Prevention

Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.

Response

Call a POISON CENTER or doctor/physician if you feel unwell.
If skin irritation occurs: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

2.3 Other Hazards

UN GHS

According to the Globally Harmonized System for Classification and Labeling (GHS) this product is considered hazardous.

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the Substance or Mixture

OSHA HCS 2012

Eye Irritation 2

2.2 Label Elements

OSHA HCS 2012

WARNING

Hazard Statements

Causes serious eye irritation

Precautionary Statements

Prevention

Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.

Response

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

2.3 Other Hazards

OSHA HCS 2012 Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Canada
According to: WHMIS

2.1 Classification of the Substance or Mixture

WHMIS Other Toxic Effects - D2B

2.2 Label Elements

WHMIS

Other Toxic Effects - D2B

2.3 Other Hazards

WHMIS In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other Information

This SDS is for the final finished product only as used in the laboratory or clinical setting. This product is a cartridge that contains liquid reagents and freeze dried powders. Hazards represented are based on the reagents contained in the cartridge. No exposure to the reagents in this cartridge is expected during normal use.

Section 3: Composition/Information on Ingredients

3.1 Substances

Material does not meet the criteria of a substance.

3.2 Mixtures

Composition					
Chemical Name	**Identifiers**	**%**	**LD50/LC50**	**Classifications According to Regulation/Directive**	**Comments**
Guanidine thiocyanate	**CAS:** 593-84-0 **EINECS:** 209-812-1	5% TO 10%	NDA	**UN GHS:** Acute Tox. 4 (Orl); Skin Irrit. 3; Eye Irrit. 2B; Aquatic Acute 3; Aquatic Chronic 3 **EU CLP:** Acute Tox. 4, H302; EUH031; Aquatic Chronic 3, H412 **OSHA HCS 2012:** Acute Tox. 4 (Orl); Eye Irrit. 2B	NDA
Glycerol	**CAS:** 56-81-5 **EC Number:** 200-289-5	1% TO 5%	Ingestion/Oral-Rat LD50 • 12600 mg/kg	**UN GHS:** Eye Irrit. 2; Skin Irrit. 3 **EU CLP:** Eye Irrit. 2, H319 **OSHA HCS 2012:** Eye Irrit. 2	NDA

See Section 16 for full text of H-statements.

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Move victim to fresh air. Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing.

Skin First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.

Eye First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

Ingestion First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If swallowed, rinse mouth with water (only if the person is conscious) Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to Physician All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Firefighting Measures

5.1 Extinguishing Media

Suitable Extinguishing Media LARGE FIRES: Dry chemical, CO_2, alcohol-resistant foam or water spray.
SMALL FIRES: Dry chemical, CO_2 or water spray.

Unsuitable Extinguishing Media No data available

5.2 Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosion Hazards May emit toxic vapors of carbon oxides, sulfur oxides, nitrogen oxides.

Hazardous Combustion Products No data available

5.3 Advice for Firefighters

Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
Wear positive pressure self-contained breathing apparatus (SCBA).
SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions In the event a cartridge is broken these personal precautions are applicable. Wear appropriate protective clothing. Do not walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas.

Emergency Procedures No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

6.2 Environmental Precautions

Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and Material for Containment and Cleaning Up

Containment/ Clean-up Measures For small spills, wear gloves and absorb spill with paper towel. Do not dispose spilled materials down drain.

6.4 Reference to Other Sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7: Handling and Storage

7.1 Precautions for Safe Handling

Handling No special handling necessary. If cartridge is broken avoid contact with spilled reagents. Avoid contact with skin and eyes eyes.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Storage Store according to product labeling. Keep away from incompatible materials. Store locked up. Keep container/package tightly closed in a cool, well-ventilated place.

7.3 Specific End Use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

8.1 Control Parameters

Exposure Limits/Guidelines		
	Result	**OSHA**
Glycerol (56-81-5)	TWAs	15 mg/m3 TWA (mist, total particulate); 5 mg/m3 TWA (mist, respirable fraction)
Guanidine thiocyanate	TWAs	5 mg/m3 TWA (as CN) *as Cyanide compounds*

8.2 Exposure Controls

Engineering Measures/Controls Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face Wear chemical splash safety goggles.

Skin/Body Wear protective clothing

Environmental Exposure Controls Follow best practice for site management and disposal of waste.

Key to abbreviations
OSHA = Occupational Safety and Health Administration
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9: Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Appearance/Description	Beads are solid white components in cartridges; reagents are clear liquids which are primarily buffered in aqueous solutions. Components are odorless.
Color	White/clear	Odor	Odorless
Odor Threshold	Data lacking		
General Properties			
Boiling Point	100 °C (212 °F)	Melting Point/Freezing Point	0 °C (32 °F)
Decomposition Temperature	Data lacking	pH	7 to 9 Lysis reagent #1 (GTC pH (3.7-4.1.)) Lysis reagent #2 (sodium hydroxide <1% pH 14).
Specific Gravity/Relative Density	Data lacking	Water Solubility	Data lacking
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	Data lacking
Evaporation Rate	Data lacking		
Flammability			
Flash Point	360 to 560 °F (182.2222 to 293.3333 °C) (Binding reagent)	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition Coefficient	Data lacking		

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical Stability

Stable

10.3 Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

10.4 Conditions to Avoid

Incompatible materials. Heat, contact with acids or bleach may liberate very toxic gas.

10.5 Incompatible Materials

Acids, oxidizing agents.

10.6 Hazardous Decomposition Products

Carbon oxides, sodium oxides.

Section 11: Toxicological Information

11.1 Information on Toxicological Effects

Components		
Guanidine thiocyanate (5% TO 10%)	593-84-0	**Acute Toxicity:** Intraperitoneal-Mouse LD50 • 300 mg/kg
Glycerol (1% TO 5%)	56-81-5	**Acute Toxicity:** Ingestion/Oral-Rat LD50 • 12600 mg/kg; *Behavioral*: **General anesthetic**; *Behavioral*: **Muscle weakness**; *Liver*: **Other changes**; **Irritation:** Eye-Rabbit • 500 mg 24 Hour(s) • Mild irritation; Skin-Rabbit • 500 mg 24 Hour(s) • Mild irritation; **Multi-dose Toxicity:** Ingestion/Oral-Mouse TDLo • 560 g/kg 8 Week(s)-Continuous; *Lungs, Thorax, or Respiration*: **Structural or functional change in trachea or bronchi**; Ingestion/Oral-Mouse TDLo • 2800 mg/kg 25 Week(s)-Continuous; *Skin and Appendages: Other*: **Tumors**; *Tumorigenic*: **Facilitates action of known carcinogen**; **Mutagen:** Cytogenetic analysis • Ingestion/Oral-Rat • 1 g/kg; DNA Inhibition • Unreported Route-Human • Lymphocyte (Somatic cell) • 200 mmol/L; **Reproductive:** Ingestion/Oral-Rat TDLo • 100 mg/kg (1D male); *Reproductive Effects: Effects on Fertility*: **Post-implantation mortality**; **Tumorigen / Carcinogen:** Ingestion/Oral-Mouse TDLo • 87.5 g/kg 25 Week(s)-Intermittent; *Tumorigenic*: **Equivocal tumorigenic agent by RTECS criteria**; *Lungs, Thorax, or Respiration*: **Tumors**; *Tumorigenic*: **Facilitates action of known carcinogen**

LD = Lethal Dose
TD = Toxic Dose

Section 12: Ecological Information

12.1 Toxicity

Guanidinium thiocyanate is harmful to aquatic life.

12.2 Persistence and Degradability

Material data lacking.

12.3 Bioaccumulative Potential

Material data lacking.

12.4 Mobility in Soil

Material data lacking.

12.5 Results of PBT and vPvB Assessment

No PBT and vPvB assessment has been conducted.

12.6 Other Adverse Effects

No studies have been found.

Section 13: Disposal Considerations

13.1 Waste Treatment Methods

Product Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

13.2 Other Information

Biological specimens, including used cartridges, should be treated as capable of transmitting infectious agents. Consult your institution's environmental waste personnel on proper disposal of used cartridges and unused reagents. This material may exhibit characteristics of federal EPA Resource Conservation and Recovery Act (RCRA) hazardous waste requiring specific disposal requirements. Check state and local regulations as they may differ from federal disposal regulations. Institutions outside the USA should check their country hazardous waste disposal requirements.

2.4 Autres informations

Cette FDS concerne uniquement le produit fini, tel qu'utilisé au laboratoire ou dans un cadre clinique. Ce produit consiste en une cartouche qui contient des réactifs liquides et des poudres lyophilisées. Les dangers représentés se basent sur les réactifs contenus dans la cartouche. Aucune exposition aux réactifs de cette cartouche n'est anticipée en usage normal.

Section 3 : Composition/informations sur les ingrédients

3.1 Substances

La matière ne répond pas aux critères d'une substance.

3.2 Mélanges

Composition					
Nom chimique	**Identifiants**	**%**	**DL50/LC50**	**Classifications selon réglementation/directive**	**Commentaires**
Thiocyanate de guanidinium	**CAS :** 593-84-0 **EINECS :** 209-812-1	5 % À 10 %	ADD	**SGH ONU :** Tox. aiguë 4 (voie orale) ; Irrit. peau 3 ; irrit. yeux 2B ; Aquatique Aigu 3 ; Aquatique Chronique 3 **EU CLP :** Tox. aiguë 4, H302 ; EUH031 ; Aquatique Chronique 3, H412 **OSHA HCS 2012 :** Tox. aiguë 4 (voie orale) ; Irrit. yeux 2B	ADD

Voir la section 16 pour le texte complet des déclarations H.

Section 4 : Mesures de premier secours

4.1 Description des premiers soins

Inhalation Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. Déplacer la victime à l'air frais. Administrer de l'oxygène si la respiration est difficile. Ne pas faire de bouche-à-bouche si la victime a inhalé la substance ; pratiquer la respiration artificielle à l'aide d'un masque de poche doté d'une valve unidirectionnelle ou d'un autre dispositif médical respiratoire approprié. Pratiquer la respiration artificielle si la victime ne respire pas.

Peau Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact cutané mineur, éviter de répandre la matière sur la peau non affectée. En cas de contact avec la substance, rincer immédiatement la peau à l'eau courante pendant au moins 20 minutes. Retirer et isoler les vêtements contaminés.

Yeux Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact avec la substance, rincer immédiatement les yeux à l'eau courante pendant au moins 20 minutes. Si l'irritation oculaire persiste : consulter un médecin.

Ingestion Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas d'ingestion, rincer la bouche avec de l'eau (seulement si la victime est consciente). NE PAS faire vomir. Ne pas faire de bouche-à-bouche si la victime a ingéré la substance. Consulter immédiatement un médecin en cas d'ingestion.

4.2 Symptômes et effets les plus importants, aigus et différés

Voir la section 11 - Information toxicologique.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Notes pour le médecin Tous les traitements doivent être basés sur les signes et symptômes de détresse observés chez le patient. Il faut envisager la possibilité d'une surexposition à d'autres matières que ce produit.

Section 5 : Mesures de lutte contre l'incendie

5.1 Agents extincteurs

Agent extincteur convenable INCENDIES MAJEURS : poudre sèche, CO_2, mousse antialcool ou eau pulvérisée.
INCENDIES MINEURS : poudre sèche, CO_2, ou eau pulvérisée.

Agent extincteur inapproprié Aucune donnée disponible

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers inhabituels d'incendie et d'explosion Peut émettre des vapeurs toxiques d'oxydes de carbone, d'oxydes de soufre et d'oxydes d'azote.

Produits de combustion dangereux Aucune donnée disponible

5.3 Conseils aux pompiers

Les vêtements structurels de protection des pompiers fournissent une protection limitée UNIQUEMENT en cas d'incendie ; ils ne sont pas efficaces dans les cas de déversement où le contact direct avec la substance est possible. Porter des vêtements de protection chimique spécifiquement recommandés par le fabricant. Ceux-ci peuvent fournir peu ou pas de protection thermique.
Porter un appareil respiratoire autonome à pression positive (ARA).
INCENDIES MINEURS : enlever les conteneurs de la zone d'incendie si vous pouvez le faire sans risque.

Section 6 : Mesures en cas de fuite accidentelle

6.1 Précautions individuelles, équipement de protection et mesures d'urgence

Précautions individuelles Dans le cas où une cartouche est percée, ces précautions individuelles s'appliquent. Porter les vêtements de protection appropriés. Ne pas marcher à travers la matière déversée. Ne pas toucher les conteneurs endommagés ou la matière déversée sauf en cas de port de vêtements de protection appropriés. Ventiler les espaces clos.

Mesures d'urgence Aucune procédure d'urgence ne devrait s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations.

6.2 Précautions environnementales

Prévenir la pénétration dans les cours d'eau, les égouts, les sous-sols ou les endroits confinés.

6.3 Méthodes et matériaux de confinement et de nettoyage

Mesures de confinement/ nettoyage Pour les petits déversements, porter des gants et absorber la matière déversée avec une serviette en papier. Ne pas jeter la matière déversée dans les égouts.

6.4 Référence à d'autres sections

Voir la section 8 - Contrôles de l'exposition/protection individuelle, ainsi que la section 13 - Considérations de mise au rebut.

Section 7 : Manutention et stockage

7.1 Précautions pour une manutention sans danger

Manutention Aucune manipulation spéciale n'est nécessaire. Si une cartouche est percée, éviter tout contact avec les réactifs déversés. Éviter tout contact avec la peau et les yeux.

7.2 Conditions de sécurité du stockage, y compris toutes incompatibilités

Stockage Stocker conformément à l'étiquetage des produits. Tenir à l'écart des matières incompatibles. Garder sous clef. Conserver le conteneur/emballage hermétiquement fermé dans un endroit frais et bien aéré.

7.3 Utilisation(s) finale(s) spécifique(s)

Voir la section 1.2 - Utilisations pertinentes identifiées.

Section 8 : Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Limites d'exposition/Lignes directrices		
	Résultat	**OSHA**
Glycérol (56-81-5)	TWA	15 mg/m3 TWA (brouillard, particules totales) ; 5 mg/m3 TWA (brouillard, fraction respirable)
Thiocyanate de guanidinium	TWA	5 mg/m3 TWA (sous forme de cyanure) *sous forme de composés du cyanure*

8.2 Contrôles d'exposition

Mesures/contrôles techniques Une bonne ventilation générale doit être utilisée. Les débits de ventilation doivent être adaptés aux conditions. Le cas échéant, utiliser des enceintes d'isolement, une ventilation aspirante locale ou d'autres moyens techniques pour maintenir les concentrations atmosphériques en dessous des limites d'exposition recommandées. Si les limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Équipement de protection individuelle

Respiratoire Suivre les réglementations de l'OSHA relatives aux appareils respiratoires définies dans 29 CFR 1910.134 ou la norme européenne EN 149. Utiliser un appareil respiratoire approuvé par le NIOSH/MSHA ou la norme européenne EN 149 si les limites d'exposition sont dépassées ou des symptômes apparaissent.

Yeux/visage Porter des lunettes anti-éclaboussures contre les produits chimiques.

Peau/corps Porter des vêtements de protection

Contrôle d'exposition lié à la protection de l'environnement Suivre les bonnes pratiques pour la gestion de site et l'élimination des déchets.

Clef aux abréviations
OSHA = Administration de la sécurité et de la santé au travail
TWA = Les moyennes pondérées dans le temps sont basées sur des expositions de 8 h/jour, 40 h/semaine

Section 9 : Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques

Description de la matière			
Forme physique	Liquide	Apparence/Description	Les billes sont des composants solides blancs contenus dans des cartouches ; les réactifs sont des liquides limpides qui sont principalement tamponnés dans des solutions aqueuses. Les composants sont inodores.
Couleur	Blanc/transparent	Odeur	Inodore
Seuil d'odeur	Manque de données		
Propriétés générales			
Point d'ébullition	100 °C (212 °F)	Point de fusion/Point de congélation	0 °C (32 °F)
Température de décomposition	Manque de données	pH	7 à 9 Réactif de lyse n° 1 (TCG pH (3,7-4,1)) Réactif de lyse n° 2 (hydroxyde de sodium < 1 % pH 14).
Densité spécifique/relative	Manque de données	Solubilité dans l'eau	Manque de données
Viscosité	Manque de données	Propriétés explosives	Manque de données
Propriétés comburantes :	Manque de données		
Volatilité			
Pression de vapeur	Manque de données	Densité de vapeur	Manque de données
Taux d'évaporation	Manque de données		
Inflammabilité			
Point d'éclair	182,2222 à 293,3333 °C (360 à 560 °F) (réactif de liaison)	LSE	Manque de données
LIE	Manque de données	Auto-inflammation	Manque de données
Inflammabilité (solide, gaz)	Manque de données		
Environnemental(e)			
Coefficient de partage octanol/eau	Manque de données		

9.2 Autres informations

Aucun paramètre physique ou chimique supplémentaire noté.

Section 10 : Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans des conditions normales d'utilisation.

10.2 Stabilité chimique

Stable

10.3 Possibilité de réactions dangereuses

Il ne se produira pas de polymérisation dangereuse.

10.4 Situations à éviter

Matières incompatibles. La chaleur, le contact avec les acides ou l'eau de Javel peut entraîner le dégagement de gaz très toxiques.

10.5 Substances incompatibles

Acides, agents oxydants.

10.6 Produits de décomposition dangereux

Oxydes de carbone, oxydes de sodium.

Section 11 : Information toxicologique

11.1 Informations sur les effets toxiques

Section 12 : Information écologique

12.1 Toxicité

Le thiocyanate de guanidinium est toxique pour les organismes aquatiques.

12.2 Persistance et dégradabilité

Manque de données matérielles.

12.3 Potentiel bioaccumulatif

Manque de données matérielles.

12.4 Mobilité dans le sol

Manque de données matérielles.

12.5 Résultats des évaluations PBT et vPvB

Aucune évaluation PBT ou vPvB n'a été réalisée.

12.6 Autres effets nocifs

Aucune étude n'a été trouvée.

Section 13 : Considérations de mise au rebut

13.1 Méthodes de traitement des déchets

Déchets du produit Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

Conditionnement des déchets Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

13.2 Autres informations

Les échantillons biologiques, y compris les cartouches utilisées, doivent être traités comme s'ils étaient susceptibles de transmettre des agents infectieux. Consulter le personnel chargé des déchets environnementaux auprès de l'établissement pour les consignes concernant l'élimination correcte des cartouches usagées et des réactifs inutilisés. Ce produit peut présenter les caractéristiques des déchets dangereux couverts par la loi fédérale américaine de l'EPA sur la conservation et la remise en état des ressources (Resource Conservation and Recovery Act, RCRA) contenant des exigences d'élimination spécifiques. Consulter les réglementations locales et régionales car elles peuvent différer des réglementations nationales. Les établissements en dehors des États-Unis doivent vérifier les exigences de leur pays en matière d'élimination des déchets dangereux.

Section 14 : Informations de transport

	14.1 Numéro ONU	14.2 Nom d'expédition des Nations Unies	14.3 Classe(s) de danger pour le transport	14.4 Groupe d'emballage	14.5 Dangers pour l'environnement

Vollständiger Text der H-Hinweise siehe Abschnitt 16.

Abschnitt 4: Erste-Hilfe-Maßnahmen

4.1 Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Verunfallten an die frische Luft bringen. Bei Atemschwierigkeiten Sauerstoffzufuhr einleiten. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat; künstliche Beatmung mit einer mit Einwegventil ausgestatteten Taschen-Sauerstoffmaske oder sonstigem geeigneten medizinischen Beatmungsgerät einleiten. Bei Atemstillstand künstliche Beatmung umgehend einleiten.

Haut Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei geringem Hautkontakt Material nicht auf andere Hautbereiche verteilen. Im Falle eines Hautkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Verunreinigte Kleidung entfernen und isolieren.

Augen Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Im Falle eines Augenkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

Verschlucken Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei Einnahme Mund mit Wasser ausspülen (nur, wenn die Person bei Bewusstsein ist). KEIN Erbrechen herbeiführen. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat. Bei Einnahme sofort Arzt zu Rate ziehen.

4.2 Wichtigste akute und verzögert auftretende Symptome und Wirkungen

Siehe Abschnitt 11 - Toxikologische Angaben.

4.3 Hinweis auf ärztliche Soforthilfe oder Spezialbehandlung

Hinweise für den Arzt Alle Behandlungsmaßnahmen sollten auf den beobachteten Anzeichen und Symptomen von Erschöpfung beim Patienten basieren. Außerdem ist zu berücksichtigen, dass es möglicherweise zum Kontakt mit anderen Materialien zusätzlich zu diesem Produkt kam.

Abschnitt 5: Maßnahmen zur Brandbekämpfung

5.1 Löschmittel

Geeignete Löschmittel	GROSSBRAND: Trockenlöschmittel, CO2, alkoholresistenter Schaum oder Wasserstrahl. KLEINBRAND: Trockenlöschmittel, CO2 oder Wasserstrahl.
Ungeeignete Löschmittel	Keine Daten verfügbar

5.2 Besondere vom Stoff oder Gemisch ausgehende Gefahren

Ungewöhnliche Brand-und Explosionsgefahren	Kann zur Bildung giftiger Kohlenoxid-, Schwefeloxid- und Stickstoffoxiddämpfe führen.
Gefährliche Verbrennungsprodukte	Keine Daten verfügbar

5.3 Hinweise für die Brandbekämpfung

Für die Feuerbekämpfung vorgesehene Standardarbeitsschutzbekleidung bietet einen begrenzten Schutz NUR in Brandfällen; sie ist ineffektiv bei Verschüttungen, wo ein direkter Kontakt mit dem Stoff möglich ist.
Chemikalienschutzbekleidung tragen, die speziell vom Hersteller empfohlen wird. Sie kann wenig oder keinen Thermoschutz bieten.
Umgebungsluftunabhängiges Atemschutzgerät (SCBA) für Überdruckbetrieb tragen.
KLEINBRAND: Behälter aus der Brandzone entfernen, wenn es kein Risiko darstellt.

Abschnitt 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1 Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Persönliche Schutzmaßnahmen	Wenn eine Kartusche bricht, dann sind diese persönlichen Vorkehrungen anzuwenden. Entsprechende Schutzkleidung tragen. Nicht durch das verschüttete Material hindurch gehen. Beschädigte Behälter oder verschüttetes Material ohne geeignete Schutzkleidung nicht anfassen. Geschlossene Räume be- oder entlüften.
Sofortmaßnahmen	Es sind keine Notfallmaßnahmen erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird.

6.2 Umweltschutzmaßnahmen

Nicht in Gewässer, die Kanalisation, Keller oder enge Räume gelangen lassen.

6.3 Methoden und Material für Rückhaltung und Reinigung

Maßnahmen zur Rückhaltung/ Reinigung	Bei kleinen Verschüttungen Handschuhe tragen und Verschüttung mit einem Papiertuch aufnehmen. Verschüttetes Material nicht durch den Abfluss entsorgen.

6.4 Verweis auf andere Abschnitte

Siehe Abschnitt 8 - Einwirkungskontrolle/Personenschutz und Abschnitt 13 - Überlegungen zur Entsorgung.

Abschnitt 7: Handhabung und Lagerung

7.1 Schutzmaßnahmen zur sicheren Handhabung

Handhabung Keine spezielle Handhabung notwendig. Wenn eine Kartusche gebrochen ist, dann ist der Kontakt mit verschütteten Reagenzien zu vermeiden. Kontakt mit Haut und Augen vermeiden.

7.2 Bedingungen zur sicheren Lagerung unter Berücksichtigung von Umweltverträglichkeiten

Lagerung Produkt gemäß der Etikettierung lagern. Von nicht kompatiblem Material fernhalten. Unter Verschluss aufbewahren. Behälter/Verpackung dicht verschlossen an kühlem, gut belüftetem Ort lagern.

7.3 Spezifische Endanwendungen

Siehe Abschnitt 1.2 - Relevante identifizierte Nutzung.

Abschnitt 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstung

8.1 Zu überwachende Parameter

Expositionsgrenzwerte/Richtlinien		
	Ergebnis	**OSHA**
Glycerol (56-81-5)	zeitlich gewichtete Durchschnitte	15 mg/m3 TWA (Nebel, Gesamtpartikel); 5 mg/m3 TWA (Nebel, atembare Fraktion)
Guanidiniumthiocyanat	zeitlich gewichtete Durchschnitte	5 mg/m3 TWA (als CN) *als Cyanidverbindungen*

8.2 Begrenzung und Überwachung der Exposition

Technische Maßnahmen/ Kontrollen Es ist eine gute allgemeine Belüftung anzuwenden. Die Belüftungszahl sollte den Bedingungen entsprechen. Prozesskammern, lokale Abzugsanlage oder andere technische Kontrollmittel verwenden, um die Konzentration in der Luft unter den empfohlenen Grenzwerten zu halten. Wenn keine Grenzwerte festgelegt wurden, sind die Konzentrationen auf einem akzeptablen Niveau zu halten.

Persönliche Schutzausrüstung

Atemwege OSHA-Vorgaben für Atemschutzgeräte aus 29 CFR 1910.134 oder der Europäischen Norm EN 149 befolgen. Nach NIOSH/MSHA oder der Europäischen Norm EN 149 zugelassenes Atemschutzgerät benutzen, wenn die Grenzwerte überschritten werden oder Symptome auftreten.

Augen/Gesicht Schutzbrillen gegen Chemikalienspritzer tragen.

Haut/Körper Schutzkleidung tragen.

Umweltkontrollmaßnahmen Beste Praktiken bei Bauleitung und Abfallentsorgung anwenden.

Schlüssel für Abkürzungen
OSHA = Agentur für Sicherheit und Gesundheitsschutz am Arbeitsplatz
TWA = Zeitlich gewichtete Mittelwerte basieren auf einer Exposition von 8 Stunden/Tag, 40 Stunden/Woche

Abschnitt 9: Physikalische und chemische Eigenschaften

9.1 Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Materialbeschreibung			
Physische Gestalt	Flüssigkeit	Aussehen/Beschreibung	Die Kügelchen sind feste weiße Bestandteile in Kartuschen; Reagenzien sind klare, in wässriger Lösung primär gepufferte Flüssigkeiten. Die Bestandteile sind geruchlos.
Farbe	Weiß/klar	Geruch	Geruchlos
Geruchsschwelle	Fehlende Daten		
Allgemeine Eigenschaften			
Siedepunkt	100 °C (212 °F)	Schmelzpunkt/Gefrierpunkt	0 °C (32 °F)
Zersetzungstemperatur	Fehlende Daten	pH	7 bis 9 Lysereagenz Nr. 1 (GTC, pH 3,7-4,1). Lysereagenz Nr. 2 (Natriumhydroxid, <1%, pH 14).
Spezifisches Gewicht/ Relative Dichte	Fehlende Daten	Wasserlöslichkeit	Fehlende Daten
Viskosität	Fehlende Daten	Explosive Eigenschaften	Fehlende Daten
Oxidationseigenschaften:	Fehlende Daten		
Volatilität			
Dampfdruck	Fehlende Daten	Dampfdichte	Fehlende Daten
Verdunstungsrate	Fehlende Daten		
Entflammbarkeit			
Flammpunkt	360 bis 560 °F (182,2222 bis 293,3333 °C) (Bindungsreagenz)	Obere Expositionsgrenze	Fehlende Daten
Untere Expositionsgrenze	Fehlende Daten	Selbstzündung	Fehlende Daten
Entflammbarkeit (Feststoff, Gas)	Fehlende Daten		
Umwelt			
Oktanol/Wasser-Verteilungskoeffizient	Fehlende Daten		

9.2 Sonstige Angaben

Keine zusätzlichen physikalischen und chemischen Parameter vermerkt.

Abschnitt 10: Stabilität und Reaktivität

10.1 Reaktivität

Keine gefährliche Reaktion bekannt unter Bedingungen der normalen Verwendung.

10.2 Chemische Stabilität

Stabil

10.3 Möglichkeit gefährlicher Reaktionen

Eine gefährliche Polymerisierung findet nicht statt.

10.4 Zu vermeidende Bedingungen

Inkompatibles Material. Wärme, Kontakt mit Säure oder Bleiche kann sehr giftige Gase freisetzen.

10.5 Inkompatible Materialien

Säuren, Oxidationsmittel.

10.6 Gefährliche Zersetzungsprodukte

Kohlenstoffoxide, Natriumoxide.

Abschnitt 11: Toxikologische Angaben

11.1 Angaben zu toxikologischen Wirkungen

Bestandteile		
Guanidinthiocyanat (5% BIS 10%)	593-84-0	**Akute Toxizität:** Intraperitoneal-Maus LD50 • 300 mg/kg
Glycerol (1% BIS 5%)	56-81-5	**Akute Toxizität:** Verschlucken/oral-Ratte LD50 • 12.600 mg/kg; *Verhalten*: **Allgemein anästhetisch**; *Verhalten*: **Muskelschwäche**; *Leber*: **Andere Veränderungen**; **Reizung:** Auge-Kaninchen • 500 mg 24 Stunde(n) • Leichte Reizung; Haut-Kaninchen • 500 mg 24 Stunde(n) • Leichte Reizung; **Multidosis-Toxizität:** Verschlucken/oral-Maus TDLo • 560 g/kg 8 Woche(n)-Ständig; *Lungen, Thorax oder Atemwege*: **Strukturelle oder funktionale Veränderung bei Luftröhre oder Bronchien**; Verschlucken/oral-Maus TDLo • 2800 mg/kg 25 Woche(n)-Ständig; *Haut und ihre Adnexa: Andere*: **Tumore**; *Tumorauslösend*: **Erleichtert die Aktion eines bekannten Karzinogens**; **Mutagen:** Zytogenetische Analyse • Verschlucken/oral-Ratte • 1 g/kg; DNA-Hemmung • Undefiniert-Menschlich • Lymphozyt (somatische Zelle) • 200 mmol/l; **Reproduktion:** Verschlucken/oral-Ratte TDLo • 100 mg/kg (1 T. Männchen); *Wirkungen auf das Fortpflanzungssystem: Auswirkungen auf die Fruchtbarkeit*: **Postimplantationssterblichkeit**; **Tumorigen/Krebserzeugend:** Verschlucken/oral-Maus TDLo • 87,5 g/kg 25 Woche(n)-Zeitweise; *Tumorauslösend*: **Mehrdeutiger tumorerregender Wirkstoff nach RTECS-Kriterien**; *Lungen, Thorax oder Atemwege*: **Tumore**; *Tumorauslösend*: **Erleichtert die Aktion eines bekannten Karzinogens**

GHS-Eigenschaften	Klassifizierung
Akute Toxizität	**EU/CLP**•Fehlende Daten **UN GHS**•Akute Toxizität - oral 5 - ATEmix (oral) = 5000 mg/kg **OSHA HCS 2012**•Fehlende Daten

Mögliche gesundheitliche Auswirkungen

Einatmen
Akut (sofort) Kann Reizung verursachen.
Chronisch (verzögert) Keine Daten verfügbar
Haut
Akut (sofort) Verursacht leichte Hautreizungen.
Chronisch (verzögert) Keine Daten verfügbar
Augen
Akut (sofort) Verursacht schwere Augenreizung.
Chronisch (verzögert) Keine Daten verfügbar
Verschlucken
Akut (sofort) Möglicherweise gesundheitsschädlich bei Verschlucken.
Chronisch (verzögert) Keine Daten verfügbar

Schlüssel für Abkürzungen
LD = Letale Dosis
TD = Toxische Dosis

Abschnitt 12: Umweltbezogene Angaben

12.1 Toxizität

Guanidiniumthiocyanat ist schädlich für Wasserorganismen.

12.2 Persistenz und Abbaubarkeit

Materialdaten fehlen.

12.3 Bioakkumulationspotenzial

Materialdaten fehlen.

12.4 Mobilität im Boden

Materialdaten fehlen.

12.5 Ergebnisse der PBT- und vPvB-Beurteilung

Es wurde keine PBT- oder vPvB-Bewertung durchgeführt.

12.6 Andere schädliche Wirkungen

Es wurden keine Studien gefunden.

Abschnitt 13: Hinweise zur Entsorgung

13.1 Verfahren der Abfallbehandlung

Produktabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

Verpackungsabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

13.2 Sonstige Angaben

Bei biologischen Proben, einschließlich gebrauchter Kartuschen, ist davon auszugehen, dass sie Infektionserreger übertragen, und sie sind entsprechend zu behandeln. Konsultieren Sie das Personal für umweltgerechte Abfallentsorgung in Ihrer Institution für die ordnungsgemäße Entsorgung gebrauchter Kartuschen und unbenutzter Reagenzien. Dieser Stoff kann Eigenschaften von Sondermüll gemäß des in den USA geltenden EPA Resource Conservation and Recovery Act (RCRA) aufweisen und die Erfüllung spezieller Entsorgungsvorgaben erfordern. Prüfen Sie die bundesstaatlichen und lokalen Vorschriften daraufhin, wie sie sich von den bundesstaatlichen Entsorgungsvorschriften unterscheiden. Institutionen außerhalb der USA sollten die in ihrem Land geltenden Entsorgungsvorgaben für Sondermüll prüfen.

Abschnitt 14: Angaben zum Transport

	14.1 UN-Nummer	14.2 Korrekte UN-Bezeichnung des Frachtgutes	14.3 Transportgefahrenklasse(n)	14.4 Verpackungsgruppe	14.5 Umweltrisiken

Produttore 1 (800) 424-9300 - CHEMTREC - Numero telefonico di emergenza attivo 24 ore su 24
Produttore 1 (703) 741-5500 - Fuori dagli USA

Sezione 2: Identificazione dei pericoli

UE/CEE

In ottemperanza a: Normativa (CE) n. 1272/2008 (CLP)/REACH 1907/2006 [emendata dalla 453/2010]

2.1 Classificazione della sostanza o della miscela

CLP La seguente Scheda informativa in materia di sicurezza (SDS) è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Contiene componenti liquidi, alcuni dei quali sono in polveri liofilizzate e reagenti che sono contenuti nella cartuccia e in una bottiglia Nalgene. Tutti i reagenti sono liquidi trasparenti e incolori. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Non classificato

2.2 Elementi dell'etichetta

CLP

Frasi di rischio Non è richiesta alcuna etichetta

2.3 Altri rischi

CLP In base al Regolamento (CE) n. 1272/2008 (CLP), questo materiale non è considerato pericoloso.

UN GHS

In ottemperanza a: Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN Globally Harmonized System of Classification and Labeling of Chemicals, GHS)

2.1 Classificazione della sostanza o della miscela

UN GHS

Tossicità acuta - per via orale 5
Lieve irritazione cutanea 3
Irritazione oculare 2

2.2 Elementi dell'etichetta

UN GHS

ATTENZIONE

Frasi di rischio

Può essere nocivo se ingerito
Provoca lieve irritazione cutanea
Provoca grave irritazione oculare

Frasi di prudenza

Prevenzione

Lavare accuratamente dopo l'uso.
Indossare guanti/indumenti protettivi/proteggere gli occhi/il viso.

Risposta

In caso di malessere, contattare un CENTRO ANTIVELENI o un medico.
In caso di irritazione della pelle: consultare un medico.
IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
Se l'irritazione degli occhi persiste: consultare un medico.

2.3 Altri rischi

UN GHS

In conformità al Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN GHS) questo prodotto è considerato pericoloso.

Stati Uniti (USA)

In ottemperanza a: OSHA 29 CFR 1910.1200 HCS

2.1 Classificazione della sostanza o della miscela

OSHA HCS 2012

Irritazione oculare 2

2.2 Elementi dell'etichetta

OSHA HCS 2012

ATTENZIONE

OSHA HCS 2012 Ai sensi della normativa statunitense (29 CFR 1910.1200 - Standard per la comunicazione dei pericoli), questo prodotto è considerato pericoloso.

Canada
In ottemperanza a: WHMIS

2.1 Classificazione della sostanza o della miscela

WHMIS Altri effetti tossici - D2B

2.2 Elementi dell'etichetta

WHMIS

Altri effetti tossici - D2B

2.3 Altri rischi

WHMIS In Canada, il prodotto di cui sopra è considerato pericoloso ai sensi del sistema di informazioni sui materiali pericolosi sul luogo di lavoro (Workplace Hazardous Materials Information System, WHMIS).

2.4 Altre informazioni

La seguente Scheda informativa in materia di sicurezza (SDS) è da considerarsi valida per il prodotto finito finale solo se usato in ambito clinico o di laboratorio. Questo prodotto è una cartuccia che contiene reagenti liquidi e polveri liofilizzate. I pericoli rappresentati fanno riferimento ai reagenti contenuti all'interno della cartuccia. Non è prevista alcuna esposizione ai reagenti all'interno della cartuccia durante il normale utilizzo.

Sezione 3: Composizione/Informazioni sugli ingredienti

3.1 Sostanze

Il materiale non soddisfa i criteri di classificazione come sostanza.

3.2 Miscele

Composizione					
Nome Chimico	**Identificatori**	**%**	**DL50/CL50**	**Classificazioni Secondo Regolamento/Direttiva**	**Commenti**
Guanidina tiocianato	**CAS:** 593-84-0 **EINECS:** 209-812-1	DAL 5% AL 10%	NDD	**UN GHS:** Toss. acuta 4 (orale); Irrit. cute 3; Irrit. occhi 2B; Acquatica acuta 3; Acquatica cronica 3 **UE CLP:** Toss. acuta 4, H302; EUH031; Acquatica cronica 3, H412 **OSHA HCS 2012:** Toss. acuta 4 (orale); Irrit. occhi 2B	NDD
Glicerolo	**CAS:** 56-81-5 **Numero CE:** 200-289-5	DAL 1% AL 5%	Effetti dell'ingestione/Orale-Ratto LD50 • 12600 mg/kg	**UN GHS:** Irrit. occhi 2; Irrit. cute 3 **UE CLP:** Irrit. occhi 2, H319 **OSHA HCS 2012:** Irrit. occhi 2	NDD

Per l'elenco completo delle frasi H, vedere la Sezione 16.

Sezione 4: Misure di pronto soccorso

4.1 Descrizione delle misure di pronto soccorso

Inalazione Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. Portare la persona colpita all'aria aperta. Somministrare ossigeno se la respirazione è difficile. Non usare il metodo bocca-a-bocca se la vittima ha inalato la sostanza; effettuare la respirazione artificiale con l'ausilio di una mascherina con valvola unidirezionale o altro dispositivo medico adeguato. Se la vittima non respira, effettuare la respirazione artificiale.

Cute Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di limitato contatto con la pelle, evitare la dispersione del materiale sulla pelle non interessata. In caso di contatto con la sostanza, sciacquare immediatamente la pelle con acqua corrente per almeno 20 minuti. Rimuovere e isolare gli indumenti contaminati.

Occhi Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di contatto con la sostanza, sciacquare immediatamente gli occhi con acqua corrente per almeno 20 minuti. Se l'irritazione degli occhi persiste: consultare un medico.

Ingestione Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di ingestione, sciacquare la bocca con acqua (solamente se l'infortunato è cosciente). NON provocare il vomito. Non usare il metodo bocca-a-bocca se la vittima ha ingerito la sostanza. In caso di ingestione consultare immediatamente un medico.

4.2 Sintomi ed effetti più importanti, acuti e ritardati

Consultare la Sezione 11 - Informazioni tossicologiche.

4.3 Indicazione delle attenzioni mediche immediate e dei trattamenti speciali necessari

Note per il medico Tutte le cure dovrebbero basarsi sull'osservazione di segni e sintomi di malessere nel paziente. Dovrebbe essere presa in considerazione la possibilità di sovraesposizione a materiali diversi da questo prodotto.

Sezione 5: Misure antincendio

5.1 Mezzi di estinzione

Mezzi di estinzione adeguati	INCENDI DI AMPIE DIMENSIONI: composto chimico secco, CO2, schiumogeno resistente all'alcol o getto d'acqua. INCENDI DI DIMENSIONI RIDOTTE: composto chimico secco, CO2 o getto d'acqua.
Mezzi di estinzione non adeguati	Nessun dato disponibile

5.2 Rischi speciali che scaturiscono dalla sostanza o dalla miscela

Rischi di esplosione e incendi inconsueti	Può emettere vapori tossici di ossidi di carbonio, ossidi di zolfo, ossidi di azoto.
Prodotti di combustione pericolosi	Nessun dato disponibile

5.3 Consiglio per i vigili del fuoco

Gli indumenti antincendio strutturali forniscono una protezione limitata SOLO in condizioni di incendio; non sono efficaci in condizioni di fuoriuscite in cui è probabile il contatto diretto con la sostanza.
Indossare abbigliamento protettivo contro gli agenti chimici specificatamente raccomandato dal produttore. Potrebbe fornire limitata o nessuna protezione termica.
Indossare un apparato di respirazione autonomo funzionante a pressione positiva (self-contained breathing apparatus, SCBA).
INCENDI DI DIMENSIONI RIDOTTE: spostare i contenitori dall'area colpita dall'incendio se non comporta alcun rischio.

Sezione 6: Misure contro il versamento accidentale

6.1 Precauzioni personali, dispositivi di protezione e procedure di emergenza

Precauzioni personali	Nel caso in cui si rompa una cartuccia, è possibile applicare queste precauzioni personali. Usare indumenti protettivi adatti. Non camminare sul materiale versato. Toccare i contenitori danneggiati o il materiale versato solo dopo aver indossato l'abbigliamento protettivo adeguato. Ventilare le aree chiuse.
Procedure di emergenza	Non si prevede la necessità di procedure di emergenza se il materiale viene utilizzato in condizioni normali come raccomandato.

6.2 Precauzioni ambientali

Evitare l'ingresso in corsi d'acqua, fognature, seminterrati o aree confinate.

6.3 Metodi e materiali per il contenimento e la pulizia

Misure di contenimento/ pulizia	Per piccole fuoriuscite, indossare guanti e assorbire la fuoriuscita con un tovagliolo di carta. Non gettare il materiale fuoriuscito nei tubi di scarico.

6.4 Riferimento ad altre sezioni

Consultare la Sezione 8 - Controlli dell'esposizione/Protezione personale e la Sezione 13 - Considerazioni per lo smaltimento.

Sezione 7: Manipolazione e stoccaggio

7.1 Precauzioni per la manipolazione sicura

Manipolazione Non è necessario nessun trattamento speciale. Nel caso in cui si rompa una cartuccia, evitare il contatto con i reagenti fuoriusciti. Evitare il contatto con gli occhi e con la pelle.

7.2 Condizioni per lo stoccaggio sicuro, incompatibilità eventuali incluse

Stoccaggio Conservare secondo le indicazioni presenti sull'etichetta del prodotto. Tenere lontano dai materiali incompatibili. Conservare sotto chiave. Conservare il recipiente/ contenitore ben chiuso in luogo fresco e ben ventilato.

7.3 Usi finali specifici

Consultare la Sezione 1.2 - Usi pertinenti identificati.

Sezione 8: Controlli di esposizione/Protezione personale

8.1 Parametri di controllo

Limiti di Esposizione/Linee Guida		
	Risultato	**OSHA**
Glicerolo (56-81-5)	TWA	15 mg/m3 TWA (nebbia, particolato totale); 5 mg/m3 TWA (nebbia, frazione respirabile)
Guanidina tiocianato	TWA	5 mg/m3 TWA (come CN) *come composti del cianuro*

8.2 Controlli di esposizione

Misure/Controlli tecnici Garantire una ventilazione generale adeguata. I regimi di ventilazione devono essere adeguati alle condizioni. Se applicabile, utilizzare camere di protezione dei processi, impianti di ventilazione locale o altri controlli tecnici per mantenere i livelli di contaminanti aerei al di sotto dei limiti di esposizione raccomandati. Qualora i limiti di esposizione non fossero stati stabiliti, mantenere i contaminanti aerei a un livello accettabile.

Dispositivi di protezione individuale

Respirazione Attenersi alle indicazioni del respiratore OSHA disponibili in 29 CFR 1910.134 o nella norma europea EN 149. In caso di superamento dei limiti di esposizione o manifestazione di sintomi, usare un respiratore approvato da NIOSH/MSHA o dalla norma europea EN 149.

Occhi/Volto Indossare occhiali protettivi per sostanze chimiche.

Pelle/Corpo Indossare indumenti protettivi.

Controlli dell'esposizione ambientale Seguire le migliori pratiche per la gestione del sito e per lo smaltimento dei rifiuti.

Legenda delle abbreviazioni
OSHA = Occupational Safety and Health Administration (Agenzia per la salute e la sicurezza sul lavoro)
TWA = Time-Weighted Averages (Medie pesate nel tempo) basate su esposizioni da 8 ore/giorno, 40 ore/settimana

Sezione 9: Proprietà chimico-fisiche

9.1 Informazioni sulle proprietà chimico-fisiche

Descrizione del materiale			
Forma fisica	Liquido	Aspetto/Descrizione	Le perline sono componenti solidi, di colore bianco, presenti nelle cartucce; i reagenti sono liquidi trasparenti che vengono stabilizzati principalmente in soluzioni acquose. I componenti sono inodori.
Colore	Bianco/trasparente	Odore	Inodore
Soglia di odore	Dati mancanti		
Proprietà generali			
Punto di ebollizione	100 °C (212 °F)	Punto di fusione/Punto di congelamento	0 °C (32 °F)
Temperatura di decomposizione	Dati mancanti	pH	Da 7 a 9 Reagente di lisi n. 1 (GTC pH 3,7-4,1). Reagente di lisi n. 2 (idrossido di sodio < 1% pH 14).
Gravità specifica/densità relativa	Dati mancanti	Solubilità in acqua	Dati mancanti
Viscosità	Dati mancanti	Proprietà esplosive	Dati mancanti
Proprietà ossidanti:	Dati mancanti		
Volatilità			
Pressione di vapore	Dati mancanti	Densità del vapore	Dati mancanti
Tasso di evaporazione	Dati mancanti		
Infiammabilità			
Punto di infiammabilità	Da 182,22 °C a 293,33 °C (da 360 °F a 560 °F) (Reagente legante)	UEL	Dati mancanti
LEL	Dati mancanti	Autoaccensione	Dati mancanti
Infiammabilità (solido, gas)	Dati mancanti		
Ambientali			
Coefficiente di ripartizione ottanolo-acqua	Dati mancanti		

9.2 Altre informazioni

Non sono state osservate altre proprietà chimico-fisiche.

Sezione 10: Stabilità e reattività

10.1 Reattività

Nessuna reazione pericolosa nota nelle normali condizioni di utilizzo.

10.2 Stabilità chimica

Stabile

10.3 Possibilità di reazioni pericolose

Non si verificherà polimerizzazione pericolosa.

10.4 Condizioni da evitare

Materiali incompatibili. Il calore, a contatto con acidi o candeggina, può liberare gas molto tossici.

10.5 Materiali incompatibili

Acidi, agenti ossidanti.

10.6 Prodotti di decomposizione pericolosi

Ossidi di carbonio, ossidi di sodio.

Sezione 11: Informazioni tossicologiche

11.1 Informazioni sugli effetti tossicologici

Componenti		
Guanidina tiocianato (DAL 5% AL 10%)	593-84-0	**Tossicità acuta:** Intraperitoneale-Topo LD50 • 300 mg/kg

Sezione 12: Informazioni ecologiche

12.1 Tossicità

Il tiocianato di guanidinio è nocivo per gli organismi acquatici.

12.2 Persistenza e degradabilità

Dati materiale mancanti.

12.3 Potenziale di bioaccumulo

Dati materiale mancanti.

12.4 Mobilità nel suolo

Dati materiale mancanti.

12.5 Risultati della valutazione PBT e vPvB

Non sono state condotte valutazioni PBT e vPvB.

12.6 Altri effetti avversi

Non sono stati trovati studi.

Sezione 13: Considerazioni sullo smaltimento

13.1 Metodi di trattamento dei rifiuti

Rifiuti del prodotto Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

Rifiuti di imballaggio Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

13.2 Altre informazioni

I campioni biologici, tra cui le cartucce esauste, devono essere trattati come materiale in grado di trasmettere agenti infettivi. Rivolgersi al personale addetto allo smaltimento dei rifiuti ambientali del proprio istituto per ottenere informazioni utili sul corretto smaltimento delle cartucce esauste e dei reagenti inutilizzati. Questo materiale può presentare caratteristiche dell'EPA Resource Conservation and Recovery Act (RCRA) sui residui pericolosi che richiedono uno smaltimento specifico. Verificare le normative nazionali e locali perché possono differire dalle normative regionali sullo smaltimento. Le istituzioni al di fuori degli Stati Uniti dovrebbero verificare i requisiti per lo smaltimento dei residui pericolosi del proprio Paese.

H302 - Nocivo se ingerito.
H412 - Nocivo per gli organismi acquatici con effetti di lunga durata.
EUH031 - A contatto con acidi libera gas tossico.

Esclusione/Dichiarazione di responsabilità

Le suddette informazioni si basano su dati a nostra disposizione e ritenuti corretti. Poiché le informazioni possono essere applicate in condizioni che vanno oltre il nostro controllo e che potremmo non conoscere bene, non ci assumiamo nessuna responsabilità per i risultati derivanti dall'uso che ne viene fatto, e tutte le persone che ne usufruiranno devono stabilire gli effetti, le proprietà, le protezioni e lo smaltimento riguardanti ogni singola situazione. Nessuna rappresentazione, garanzia o assicurazione, esplicita o implicita (comprese una garanzia di idoneità o commerciabilità per un particolare scopo), viene fatta per quanto riguarda i materiali, la precisione delle informazioni fornite, i risultati ottenibili dall'uso che ne viene fatto, o i pericoli connessi con l'uso del materiale. L'uso e la manipolazione del materiale devono essere eseguiti con attenzione. Le suddette informazioni sono fornite in buona fede e con la convinzione che siano esatte. A partire dalla data di emissione, vengono fornite tutte le informazioni a disposizione relativamente al trattamento prevedibile del materiale. Tuttavia, in caso di un incidente avverso relativo al prodotto, questa Scheda informativa in materia di sicurezza non è, e non intende essere, il surrogato della consultazione con personale opportunamente addestrato.

Sección 2: Identificación de riesgos

UE/CEE

De acuerdo con: Reglamento (CE) Nº 1272/2008 (CLP)/REACH 1907/2006 [modificado por 453/2010]

2.1 Clasificación de la sustancia o mezcla

CLP La siguiente FDS está destinada exclusivamente al uso en laboratorio del producto final acabado. Contiene componentes líquidos, algunos de los cuales son reactivos y polvos liofilizados almacenados en el cartucho y en una botella Nalgene. Todos los reactivos son líquidos transparentes e incoloros. Las exenciones de revelación de la información de algún componente son conformes al artículo 1(5)(d) del CLP y a la norma 29 CFR 1910.1200(g)(2)(i)(C)(1)y(2).
No clasificado

2.2 Elementos de la etiqueta

CLP

Declaraciones de riesgo No se requieren elementos de etiquetado

2.3 Otros riesgos

CLP De acuerdo con el Reglamento (CE) Nº 1272/2008 (CLP), este material no se considera peligroso.

SGA de la ONU

De acuerdo con: Sistema Globalmente Armonizado (SGA) de Clasificación y Etiquetado de Productos Químicos de la ONU

2.1 Clasificación de la sustancia o mezcla

SGA de la ONU

Toxicidad oral aguda 5
Irritación cutánea leve 3
Irritación ocular 2

2.2 Elementos de la etiqueta

SGA de la ONU

ADVERTENCIA

Declaraciones de riesgo

Nocivo en caso de ingestión
Provoca irritación cutánea
Provoca irritación ocular grave

Declaraciones preventivas

Prevención

Lavarse concienzudamente tras la manipulación.
Llevar guantes/prendas/gafas/máscara de protección.

Respuesta

Llamar a un CENTRO DE INFORMACIÓN TOXICOLÓGICA o a un médico en caso de malestar.
En caso de irritación cutánea: Consultar a un médico.
EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando.
Si persiste la irritación ocular: Consultar a un médico.

2.3 Otros riesgos

SGA de la ONU

De acuerdo con el Sistema Globalmente Armonizado de Clasificación y Etiquetado de Productos Químicos (SGA), este producto se considera peligroso.

Estados Unidos (EE. UU.)
De acuerdo con: OSHA 29 CFR 1910.1200 HCS

Si persiste la irritación ocular: Consultar a un médico.

2.3 Otros riesgos

HCS 2012 de la OSHA De acuerdo con el reglamento de los Estados Unidos (29 CFR 1910.1200 - Estándar de Comunicación de Riesgos), este producto se considera peligroso.

Canadá
De acuerdo con: WHMIS

2.1 Clasificación de la sustancia o mezcla

WHMIS Otros efectos tóxicos - D2B

2.2 Elementos de la etiqueta

WHMIS

Otros efectos tóxicos - D2B

2.3 Otros riesgos

WHMIS El producto mencionado se considera peligroso en Canadá, de acuerdo con el Sistema de Información de Materiales Peligrosos en el Lugar de Trabajo (WHMIS).

2.4 Información adicional

La siguiente FDS está destinada exclusivamente al uso en laboratorio o el entorno clínico del producto final acabado. Este producto es un cartucho que contiene reactivos líquidos y polvos liofilizados. Los peligros representados se basan en los reactivos contenidos en el cartucho. No se espera ninguna exposición a los reactivos de este cartucho durante el uso normal.

Sección 3: Composición/información de los ingredientes

3.1 Sustancias

El material no cumple con los criterios de clasificación de sustancias.

3.2 Mezclas

Composición					
Nombre del producto químico	**Identificadores**	**%**	**LD50/LC50**	**Clasificaciones de acuerdo con el reglamento/directiva**	**Comentarios**
Tiocianato de guanidina	**CAS:** 593-84-0 **EINECS:** 209-812-1	5 % A 10 %	No hay datos disponibles	**SGA de la ONU:** Tox. aguda 4 (oral); Irrit. cutánea 3; Irrit. ocular 2B; Acuática aguda 3; Acuática crónica 3 **CLP UE:** Tox. aguda 4, H302; EUH031; Acuática crónica 3, H412 **HCS 2012 de la OSHA:** Tox. aguda 4 (oral); Irrit. ocular 2B	No hay datos disponibles

Acceda a la Sección 16 para consultar el texto completo de las declaraciones de riesgo.

Sección 4: Medidas de primeros auxilios

4.1 Descripción de las medidas de primeros auxilios

Inhalación No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Traslade a la persona al aire libre. Si la respiración resulta difícil, administre oxígeno. No utilice el método de boca a boca si la víctima ha inhalado la sustancia; proporcione respiración artificial con la ayuda de una máscara de bolsillo equipada con una válvula de una sola vía u otro dispositivo médico de respiración adecuado. Si la persona no respira, proporcione respiración artificial.

Piel No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Ante un contacto menor con la piel, evite la difusión del material sobre la piel no afectada. Si entra en contacto con la sustancia, enjuague inmediatamente la piel con agua durante al menos 20 minutos. Retire y aísle la ropa contaminada.

Ojo No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Si entra en contacto con la sustancia, enjuague inmediatamente los ojos con agua durante al menos 20 minutos. Si persiste la irritación ocular: Consultar a un médico.

Ingestión No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. En caso de ingestión, enjuague la boca con agua (solo si la persona está consciente). NO provoque el vómito. No utilice el método de boca a boca si la víctima ha ingerido la sustancia. En caso de ingestión, solicite atención médica inmediatamente.

4.2 Síntomas y efectos más importantes, tanto agudos como retardados

Consulte la Sección 11 - Información toxicológica.

4.3 Indicación de cualquier atención médica inmediata y tratamiento especial necesarios

Notas para el médico Todos los tratamientos deben basarse en señales y síntomas observados en el paciente. Considere si puede haberse producido una sobreexposición a otros materiales distintos de este producto.

Sección 5: Medidas antiincendios

5.1 Medios de extinción

Medios de extinción adecuados INCENDIOS MAYORES: Polvo químico seco, CO_2, espuma resistente al alcohol o agua pulverizada.
INCENDIOS MENORES: Polvo químico seco, CO_2 o agua pulverizada.

Medios de extinción inadecuados No hay datos disponibles

5.2 Riesgos especiales procedentes de la sustancia o mezcla

Riesgos de incendio y explosión inusuales Puede emitir vapores tóxicos de óxidos de carbono, óxidos de azufre y óxidos de nitrógeno.

Productos de combustión peligrosa No hay datos disponibles

5.3 Consejos para el personal antiincendios

El traje de protección estándar del personal antiincendios proporciona protección limitada EXCLUSIVAMENTE contra el fuego; no resulta efectivo ante vertidos donde es posible el contacto directo con la sustancia.
Utilice un traje de protección química específicamente recomendado por el fabricante. Puede proporcionar poca o ninguna protección térmica.
Utilice un equipo de respiración autónomo (ERA) de presión positiva.
INCENDIOS MENORES: Mueva los contenedores del área del incendio si la operación no conlleva riesgos.

Sección 6: Medidas en caso de liberación accidental

6.1 Precauciones personales, equipamiento protector y procedimientos de emergencia

Precauciones personales	En caso de romperse un cartucho, pueden aplicarse estas precauciones personales. Utilice un traje de protección adecuado. No camine a través del material vertido. No toque los contenedores dañados ni los materiales vertidos a menos que utilice un traje de protección adecuado. Ventile las áreas cerradas.
Procedimientos de emergencia	Se espera que no sea necesario aplicar procedimientos de emergencia si el material se utiliza bajo condiciones normales y del modo recomendado.

6.2 Precauciones medioambientales

Evite la entrada en alcantarillas, vías fluviales, sótanos y espacios cerrados.

6.3 Métodos y materiales de contención y limpieza

Medidas de contención/ limpieza	Para vertidos menores, utilice guantes y absorba el vertido con una toalla de papel. No deseche materiales vertidos por el desagüe.

6.4 Referencia a otras secciones

Consulte la Sección 8 - Controles de exposición/protección personal y la Sección 13 - Consideraciones de eliminación.

Sección 7: Manipulación y almacenamiento

7.1 Precauciones para la manipulación segura

Manipulación	No se necesita ninguna manipulación especial. En caso de romperse un cartucho, evite el contacto con los reactivos vertidos. Evite el contacto con la piel y los ojos.

7.2 Condiciones para el almacenamiento seguro, incluidas posibles incompatibilidades

Almacenamiento	Almacénelos de acuerdo con las indicaciones de su etiqueta. Mantenga el producto alejado de materiales incompatibles. Guardar bajo llave. Mantenga el contenedor/embalaje bien cerrado en un lugar fresco y ventilado.

7.3 Usos finales específicos

Consulte la Sección 1.2 - Usos identificados relevantes.

Sección 8: Controles de exposición/protección personal

8.1 Parámetros de control

Directrices/límites de exposición		
	Resultado	**OSHA**
Glicerol (56-81-5)	TWAs	15 mg/m3 TWA (neblina, partículas totales); 5 mg/m3 TWA (neblina, fracción respirable)
Tiocianato de guanidina	TWAs	5 mg/m3 TWA (como CN) *como compuestos de cianuro*

8.2 Controles de exposición

Controles/medidas de ingeniería Es necesaria una buena ventilación general. La tasa de ventilación debe corresponder a las condiciones. Si es posible, utilice recintos de procesamiento, ventilación local u otros controles de ingeniería para mantener los niveles del aire por debajo de los límites de exposición recomendados. Si los límites de exposición no se han establecido, mantenga los niveles del aire a un nivel aceptable.

Equipo de protección individual

Respiratorios Siga los reglamentos para máscaras de la OSHA incluidas en el estándar 29 CFR 1910.134 y en el estándar europeo EN 149. Utilice una máscara aprobada por la NIOSH/MSHA o la norma europea EN 149 si se superan los límites de exposición o se experimentan síntomas.

Ocular/facial Utilice gafas de protección contra salpicaduras químicas.

Piel/cuerpo Utilice un traje de protección

Controles de exposición en el medio ambiente Siga las buenas prácticas para administrar el centro y eliminar residuos.

Clave de abreviaturas
OSHA = Administración de Seguridad y Salud Ocupacional
TWA = Los promedios de tiempo ponderado se basan en exposiciones durante 8 h/día y 40 h/semana

Sección 9: Propiedades físicas y químicas

9.1 Información sobre las propiedades físicas y químicas

Descripción del material			
Forma física	Líquido	Aspecto/Descripción	Las microesferas son componentes sólidos blancos en cartuchos; los reactivos son líquidos transparentes, principalmente diluidos en soluciones acuosas. Los componentes son inodoros.
Color	Blanco/transparente	Olor	Inodoro
Umbral de olor	Faltan datos		
Propiedades generales			
Punto de ebullición	100 °C (212 °F)	Punto de fusión/punto de congelación	0 °C (32 °F)
Temperatura de descomposición	Faltan datos	pH	7 a 9 Reactivo de lisis nº 1 (GTC pH (3,7-4,1.)) Reactivo de lisis nº 2 (hidróxido sódico <1 % pH 14).
Gravedad específica/densidad relativa	Faltan datos	Hidrosolubilidad	Faltan datos
Viscosidad	Faltan datos	Propiedades explosivas	Faltan datos
Propiedades oxidantes:	Faltan datos		
Volatilidad			
Presión del vapor	Faltan datos	Densidad del vapor	Faltan datos
Tasa de evaporación	Faltan datos		
Inflamabilidad			
Punto de inflamación	360 a 560 °F (182,2222 a 293,3333 °C) (Reactivo de unión)	UEL	Faltan datos
LEL	Faltan datos	Autoignición	Faltan datos
Inflamabilidad (sólido, gas)	Faltan datos		
Medioambiental			
Coeficiente de reparto octanol/agua	Faltan datos		

9.2 Información adicional

No se han anotado parámetros físicos o químicos adicionales.

Sección 10: Estabilidad y reactividad

10.1 Reactividad

No se conocen reacciones peligrosas bajo condiciones normales de uso.

10.2 Estabilidad del producto químico

Estable

10.3 Posibilidad de reacciones peligrosas

No ocurrirá polimerización peligrosa.

10.4 Condiciones que se deben evitar

Materiales incompatibles. El calor y el contacto con ácidos o lejía pueden liberar gases muy tóxicos.

10.5 Materiales incompatibles

Ácidos, agentes oxidantes.

10.6 Productos de descomposición peligrosos

Óxidos de carbono, óxidos de sodio.

Sección 11: Información toxicológica

11.1 Información sobre efectos toxicológicos

Componentes		
Tiocianato de guanidina (5 % A 10 %)	593-84-0	**Toxicidad aguda:** Intraperitoneal-Ratón LD50 • 300 mg/kg
Glicerol (1 % A 5 %)	56-81-5	**Toxicidad aguda:** Ingestión/Oral-Rata LD50 • 12600 mg/kg; *Conductual*: **Anestesia general**; *Conductual*: **Debilidad muscular**; *Hígado*: **Otros cambios**; **Irritación:** Ojo-conejo • 500 mg 24 horas • Irritación leve; Piel-conejo • 500 mg 24 horas • Irritación leve; **Toxicidad multidosis:** Ingestión/Oral-Ratón TDLo • 560 g/kg 8 semana(s)-Continuo; *Pulmones, tórax o respiración*: **Cambio estructural o funcional en tráquea o bronquios**; Ingestión/oral-Ratón TDLo• 2800 mg/kg 25 semanas-Continuo; *Piel y apéndices: Otros*: **Tumores**; *Oncógeno*: **Facilita la acción de carcinógenos conocidos**; **Mútageno:** Análisis citogenético • Ingestión/Oral-Rata • 1 g/kg; Inhibición ADN • Vía humana no informada • Linfocitos (célula somática) • 200 mmol/L; **Reproductivo:** Ingestión/Oral-Rata TDLo • 100 mg/kg (1D macho); *Efectos reproductivos: Efectos sobre fertilidad*: **Mortalidad post-implantación**; **Tumorigénesis/carcinógeno:** Ingestión/Oral-ratón TDLo • 87,5 g/kg 25 semanas-Intermitente; *Oncogénico*: **Agente oncógeno equívoco por criterios RTECS**; *Pulmones, tórax o respiración*: **Tumores**; *Oncógeno*: **Facilita la acción de carcinógenos conocidos**

Sección 12: Información ecológica

12.1 Toxicidad

El tiocianato de guanidinio es nocivo para la vida acuática.

12.2 Persistencia y degradabilidad

Faltan datos de material.

12.3 Potencial bioacumulativo

Faltan datos de material.

12.4 Movilidad en suelo

Faltan datos de material.

12.5 Resultados de la evaluación de PBT y mPmB

No se ha realizado ninguna valoración de PBT y mPmB.

12.6 Otros efectos adversos

No se han encontrado estudios.

Sección 13: Consideraciones sobre la eliminación

13.1 Métodos de tratamiento de residuos

Residuos de productos Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

Residuos de embalaje Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

13.2 Información adicional

Los especímenes biológicos, incluidos cartuchos usados, deben tratarse como posibles transmisores de agentes infecciosos. Consulte con el personal de residuos medioambientales de su institución el procedimiento correcto de eliminación de cartuchos utilizados y de reactivos sin utilizar. Este material puede mostrar características de residuos peligrosos según la Ley de Recuperación y Conservación de Recursos (RCRA) de la EPA y necesitar requisitos específicos para su eliminación. Compruebe los reglamentos locales y estatales, ya que pueden ser diferentes a los reglamentos de eliminación federales. Las instituciones externas a EE. UU. deben comprobar los requisitos de eliminación de residuos peligrosos de su país.

Sección 14: Información de transporte

15.2 Evaluación de seguridad del producto químico

No se ha llevado a cabo ninguna evaluación de seguridad química.

Sección 16: Información adicional

Frases pertinentes (código y texto completo)

H302 - Nocivo en caso de ingestión.
H412 - Nocivo para los organismos acuáticos, con efectos nocivos duraderos.
EUH031 - Libera gas tóxico al entrar en contacto con ácidos.

Declaración/descargo de responsabilidad

La información anterior está basada en los datos que tenemos y la consideramos correcta. Debido a que la información puede aplicarse bajo condiciones externas a nuestro control y con las que podemos no estar familiarizados, no asumimos ninguna responsabilidad por los resultados de su uso, y todas las personas que la reciban deberán determinar por sí mismas los efectos, propiedades, protecciones y eliminación correspondientes a sus condiciones particulares. No se efectúa ninguna representación ni garantía, expresa o implícita (incluida ninguna garantía de adecuación o comerciabilidad para un objetivo concreto) respecto a los materiales, la precisión de esta información, los resultados obtenidos de su uso ni los riesgos relacionados con dicho uso del material. Tenga precaución al manipular y utilizar el material. La información superior se considera precisa y se ofrece de buena fe. Proporcionamos toda la información relacionada con la manipulación prevista del material en la fecha de publicación. Sin embargo, en caso de ocurrir un incidente adverso asociado a este producto, esta ficha de datos de seguridad no es ni debe utilizarse como sustituto de la consulta con personal formado adecuadamente.

Ficha de Dados de Segurança *Xpert Trichomonas*
Data de entrada em vigor: Setembro de 2016
Data de substituição: Novembro de 2015

Secção 1: Identificação da substância/mistura e da empresa/projeto

1.1 Identificador do Produto

Nome do Produto **Xpert Trichomonas**
Código do produto 900-0657; GXTV-10; GXTV-CE-10

1.2 Usos relevantes da substância ou mistura identificados, e usos não recomendados

Uso(s) relevante(s) identificado(s) Utilização laboratorial

1.3 Detalhes do fornecedor da ficha de dados de segurança do material

Fabricante Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
Estados Unidos da América
www.cepheid.com
EUA: techsupport@cepheid.com
Telefone (Geral) 1 (888) 838-3222 - Opção 2 (EUA)
Telefone (Geral) 1 (408) 541-4191 - Fora dos EUA

1.4 Número de telefone de emergência

Fabricante 1 (800) 424-9300 - CHEMTREC - Emergência durante 24 h
Fabricante 1 (703) 741-5500 - Fora dos EUA

Secção 2: Identificação dos riscos

UE/CEE

Segundo: Regulamentação (CE) N.º 1272/2008 (CLP)/REACH 1907/2006 [alterada pela 453/2010]

2.1 Classificação da substância ou mistura

CLP A seguinte ficha de dados de segurança destina-se apenas ao produto final acabado usado em laboratório. Contém componentes líquidos, alguns dos quais sob a forma de pós liofilizados e reagentes que se encontram no cartucho e numa garrafa Nalgene. Todos os reagentes são líquidos incolores e transparentes. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR.
Não classificado

2.2 Elementos do rótulo

CLP

Declarações de risco Não são necessários elementos do rótulo

2.3 Outros riscos

CLP Este material não é considerado perigoso conforme Regulamentação (CE) N.º 1272/2008 (CLP).

GHS da ONU

Segundo: Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS) da ONU

2.1 Classificação da substância ou mistura

GHS da ONU

Toxicidade oral aguda 5
Irritação cutânea ligeira 3
Irritação ocular 2

2.2 Elementos do rótulo

GHS da ONU

AVISO

Declarações de risco

Possibilidade de ser nocivo por ingestão
Provoca irritação cutânea ligeira
Provoca irritação ocular grave

Declarações de precaução

Prevenção

Lavar cuidadosamente após manuseamento.
Usar luvas de proteção/vestuário de proteção/proteção ocular/proteção facial.

Resposta

Caso sinta indisposição, contacte um CENTRO DE INFORMAÇÃO ANTIVENENOS ou um médico.
Em caso de irritação cutânea: consulte um médico.
SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
Caso a irritação ocular persista: consulte um médico.

2.3 Outros riscos

GHS da ONU

Este produto é considerado perigoso de acordo com o Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS).

Estados Unidos da América (EUA)
Segundo: OSHA 29 CFR 1910.1200 HCS

2.1 Classificação da substância ou mistura

OSHA HCS 2012

Irritação ocular 2

2.2 Elementos do rótulo

OSHA HCS 2012

AVISO

Declarações de risco

Provoca irritação ocular grave

Declarações de precaução

Prevenção

Lavar cuidadosamente após manuseamento.
Usar luvas de proteção/vestuário de proteção/proteção ocular/proteção facial.

Resposta SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
Caso a irritação ocular persista: consulte um médico.

2.3 Outros riscos

OSHA HCS 2012 Este produto é considerado perigoso ao abrigo da Regulamentação dos Estados Unidos da América (Norma sobre Comunicação de Perigos - 29 CFR 1910.1200).

Canadá
Segundo: WHMIS

2.1 Classificação da substância ou mistura

WHMIS Outros efeitos tóxicos - D2B

2.2 Elementos do rótulo

WHMIS

Outros efeitos tóxicos - D2B

2.3 Outros riscos

WHMIS No Canadá, o produto acima referido é considerado perigoso ao abrigo do Sistema de Informação de Materiais Perigosos no Local de Trabalho (WHMIS).

2.4 Outras informações

Esta Ficha de Dados de Segurança destina-se apenas ao produto final acabado conforme usado em laboratório ou contexto clínico. Este produto é um cartucho que contém reagentes líquidos e pós liofilizados. Os perigos indicados baseiam-se nos reagentes contidos no cartucho. Não se espera nenhuma exposição aos reagentes neste cartucho durante a utilização normal.

Secção 3: Composição/informações sobre os ingredientes

3.1 Substâncias

O material não cumpre os critérios de uma substância.

3.2 Misturas

Composição					
Nome do produto químico	**Identificadores**	**%**	**LD50/LC50**	**Classificações de acordo com regulamentos/diretivas**	**Comentários**
Tiocianato de guanidina	**CAS:** 593-84-0 **EINECS:** 209-812-1	5% A 10%	NDA	**GHS da ONU:** Tox. aguda 4 (Oral); Irrit. pele 3; Irrit. olhos 2B; Toxicidade aguda em ambiente aquático 3; Aquática Crónica 3 **UE CLP:** Tox. aguda 4, H302; EUH031; Aquática Crónica 3, H412 **OSHA HCS 2012:** Tox. aguda 4 (Orl); Irrit. olhos 2B	NDA
Glicerol	**CAS:** 56-81-5 **Número na CE:** 200-289-5	1% A 5%	Ingestão/Oral-Rato LD50 • 12 600 mg/kg	**GHS da ONU:** Irrit. ocular 2; Irrit. pele 3 **UE CLP:** Irrit. ocular 2, H319 **OSHA HCS 2012:** Irrit. ocular 2	NDA

Consultar o texto completo das declarações de perigo na Secção 16.

Secção 4: Medidas de primeiros socorros

4.1 Descrição das medidas de primeiros socorros

Inalação Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Mover a vítima para o ar livre. Administrar oxigénio se a respiração estiver difícil. Não usar o método boca-a-boca se a vítima tiver inalado a substância; ministre respiração artificial com o auxílio de uma máscara de bolso equipada com uma válvula de 1 via ou outro dispositivo médico de respiração adequado. Administrar respiração artificial se a vítima não estiver a respirar.

Pele Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Para um pequeno contacto com a pele, evitar espalhar o material pela pele não afetada. Em caso de contacto com a substância, lavar imediatamente a pele com água corrente por pelo menos 20 minutos. Despir e isolar a roupa contaminada.

Olhos Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de contacto com a substância, lavar imediatamente os olhos com água corrente por pelo menos 20 minutos. Caso a irritação ocular persista: consulte um médico.

Ingestão Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de ingestão, lavar a boca com água (apenas se a pessoa estiver consciente). NÃO provocar o vómito. Não usar o método boca-a-boca se a vítima tiver ingerido a substância. Em caso de ingestão, consultar um médico imediatamente.

4.2 Sintomas e efeitos mais importantes, tanto agudos quanto retardados

Consultar a Secção 11 - Informação Toxicológica.

4.3 Indicação de qualquer cuidado médico imediato e tratamento especial necessários

Notas para o Médico Todos os tratamentos devem basear-se nos sinais e sintomas de perturbações observados no paciente. Deve ser considerada a possibilidade de sobrexposição a outros materiais além deste produto.

Secção 5: Medidas de combate a incêndios

5.1 Meios de extinção

Meios de extinção adequados GRANDES INCÊNDIOS: Produto químico seco, CO2, espuma resistente ao álcool ou água pulverizada.
PEQUENOS INCÊNDIOS: Produto químico seco, CO2 ou água pulverizada.

Meios de extinção inadequados Sem dados disponíveis

5.2 Riscos especiais provocados pela substância ou mistura

Riscos de Incêndios e Explosões Incomuns	Pode emitir vapores tóxicos de óxidos de carbono, óxidos de enxofre e óxidos de azoto.
Produtos de combustão de risco	Sem dados disponíveis

5.3 Conselhos para bombeiros

Roupas protetoras estruturais de bombeiros fornecem APENAS proteção limitada em caso de incêndio; não são eficientes em situações de derramamentos, onde é possível o contacto direto com a substância.
Usar roupa protetora contra produtos químicos que seja especificamente recomendada pelo fabricante. Poderá fornecer proteção térmica mínima ou nenhuma proteção.
Usar aparelho de respiração autónomo de pressão positiva (SCBA).
PEQUENOS INCÊNDIOS: Se não houver perigos, mover os recipientes da área de incêndio.

Secção 6: Medidas contra Libertação Acidental

6.1 Precauções individuais, equipamento protetor e procedimentos em emergências

Precauções pessoais	No caso de um cartucho se partir, aplicam-se estas precauções de proteção individual. Usar vestuário de proteção adequado. Não andar sobre material derramado. Não tocar em recipientes danificados ou material derramado a não ser que esteja a usar vestuário de proteção adequado. Ventilar áreas fechadas.
Procedimentos de emergência	Não se prevê a necessidade de procedimentos de emergência se o material for usado em condições normais e de acordo com as recomendações.

6.2 Precauções ambientais

Evitar a entrada em cursos de água, esgotos, caves ou áreas confinadas.

6.3 Métodos e material para contenção e limpeza

Medidas de Contenção/ Limpeza	Em caso de derrames pequenos, usar luvas e absorver o derrame com papel absorvente. Não eliminar os materiais derramados através do sistema de esgotos.

6.4 Referências para outras secções

Consultar a Secção 8 - Controlo da Exposição/Proteção Individual e a Secção 13 - Considerações relativas à eliminação.

Secção 7: Manuseamento e armazenamento

7.1 Precauções para o manuseamento seguro

Manuseamento	Não necessita de manuseamento especial. Se o cartucho se partir, evitar o contacto com os reagentes derramados. Evitar o contacto com a pele e os olhos.

7.2 Condições para armazenamento seguro, incluindo quaisquer incompatibilidades

Armazenamento	Armazenar de acordo com a documentação do produto. Manter afastado de materiais incompatíveis. Armazenar em local fechado à chave. Guardar o recipiente/embalagem bem fechado em local fresco e bem ventilado.

7.3 Utilização(ões) Final(is) Específica(s)

Consultar a Secção 1.2 - Uso(s) final(is) específico(s)

Secção 8: Controlos e exposição/proteção individual

8.1 Parâmetros de controlo

Limites de Exposição/Orientações		
	Resultado	**OSHA**
Glicerol (56-81-5)	TWA	TWA de 15 mg/m3 (névoa, total em partículas); TWA de 5 mg/m3 (névoa, fração respirável)
Tiocianato de guanidina	TWA	TWA de 5 mg/m3 (sob a forma de CN) *sob a forma de compostos de cianeto*

8.2 Controlos de exposição

Medidas/Controlos de Engenharia Deve usar-se uma boa ventilação geral. Os níveis de ventilação devem estar adequados às condições. Se aplicável, usar confinamento de processos, ventilação por exaustão local ou outro controlo técnico para manter os níveis de partículas disseminadas por via aérea em suspensão abaixo dos limites de exposição recomendados. Caso não tenham sido definidos limites, manter os níveis destas partículas em suspensão num nível aceitável.

Equipamento de Proteção Individual

Respiratório Seguir as regulamentações da máscara OSHA que se encontram na norma 29 CFR 1910.134 ou na Norma Europeia EN 149. Em caso de ultrapassagem dos limites de exposição ou da ocorrência de sintomas, usar um aparelho de respiração aprovado pelo NIOSH/MSHA ou pela Norma Europeia EN 149.

Olhos/Face Usar óculos de proteção contra salpicos de produtos químicos.

Pele/Corpo Usar vestuário de proteção.

Controlos Ambientais de Exposição Seguir as melhores práticas para gestão do local e eliminação dos resíduos.

Chave para abreviaturas
OSHA = Agência para a Segurança e Saúde no Trabalho

Secção 9: Propriedades físicas e químicas

9.1 Informações sobre Propriedades Físicas e Químicas

Descrição do material			
Forma física	Líquido	Aspeto/Descrição	As esferas são componentes brancos sólidos em cartuchos; os reagentes são líquidos transparentes que foram inicialmente tamponados em soluções aquosas. Os componentes são inodoros.
Cor	Branco/transparente	Odor	Inodoro
Limiar do Odor	Dados em falta		
Propriedades gerais			
Ponto de ebulição	100 °C (212 °F)	Ponto de fusão/Ponto de congelamento	0 °C (32 °F)
Temperatura de decomposição	Dados em falta	pH	7 a 9 Reagente de lise #1 (GTC pH (3,7-4,1)). Reagente de lise #2 (hidróxido de sódio < 1% pH 14).
Gravidade específica/ Densidade relativa	Dados em falta	Solubilidade em água	Dados em falta
Viscosidade	Dados em falta	Propriedades explosivas	Dados em falta
Propriedades Oxidantes:	Dados em falta		
Volatilidade			
Pressão do vapor	Dados em falta	Densidade do vapor	Dados em falta
Taxa de evaporação	Dados em falta		
Inflamabilidade			
Ponto de inflamação	182,2222 °C a 293,3333 °C (360 °F a 560 °F) (Reagente de ligação)	UEL	Dados em falta
LEL	Dados em falta	Autoignição	Dados em falta
Inflamabilidade (sólido/gasoso)	Dados em falta		
Ambiental			
Coeficiente de partição octanol/água	Dados em falta		

9.2 Outras Informações

Não foram observados parâmetros físico-químicos adicionais.

Secção 10: Estabilidade e reatividade

10.1 Reatividade

Desconhecida reação perigosa em condições normais de utilização.

10.2 Estabilidade química

Estável

10.3 Possibilidade de reações perigosas

Não haverá polimerização perigosa.

10.4 Condições a evitar

Materiais incompatíveis. Calor, o contacto com ácidos ou lixívia pode causar a libertação de gás muito tóxico.

10.5 Materiais incompatíveis

Ácidos, agentes oxidantes.

10.6 Produtos de decomposição perigosos

Óxidos de carbono, óxidos de sódio.

Secção 11: Informações toxicológicas

11.1 Informações sobre efeitos toxicológicos

Componentes		
Tiocianato de guanidina (5% A 10%)	593-84-0	**Toxicidade aguda:** Intraperitoneal-Ratinho LD50 • 300 mg/kg
Glicerol (1% A 5%)	56-81-5	**Toxicidade aguda:** Ingestão/Oral-Rato LD50 • 12 600 mg/kg; *Comportamental*: **Anestésico geral**; *Comportamental*: **Fraqueza muscular**; *Fígado*: **Outras alterações**; **Irritação:** Olho-Coelho • 500 mg 24 horas • Irritação ligeira; Pele-Coelho • 500 mg 24 horas • Irritação ligeira; **Toxicidade multi-dose:** Ingestão/Oral-Ratinho TDLo • 560 g/kg 8 semanas-Contínua; *Pulmões, tórax ou respiração*: **Alteração estrutural ou funcional na traqueia ou nos brônquios**; Ingestão/Oral-Ratinho TDLo • 2800 mg/kg 25 semanas-Contínua; *Pele e apêndices: Outros*: **Tumores**; *Tumorigénico*: **Facilita a ação de um cancerígeno conhecido**; **Mutagénico:** Análise citogenética • Ingestão/Oral-Rato • 1 g/kg; Inibição do ADN • Via não comunicada-Humanos • Linfócito (célula somática) • 200 mmol/L; **Reprodução:** Ingestão/Oral-Rato TDLo • 100 mg/kg (1D macho); *Efeitos na reprodução: Efeitos na fertilidade*: **Mortalidade pós-implantação**; **Tumorigénico/Carcinogénico:** Ingestão/Oral-Rato TDLo • 87,5 g/kg 25 semanas-Intermitente; *Tumorigénico*: **Agente tumorigénico suspeitado pelos critérios RTECS**; *Pulmões, tórax ou respiração*: **Tumores**; *Tumorigénico*: **Facilita a ação de um cancerígeno conhecido**

Secção 12: Informações ecológicas

12.1 Toxicidade

O tiocianato de guanidínio é nocivo para os organismos aquáticos.

12.2 Persistência e degradabilidade

Dados dos materiais em falta.

12.3 Potencial bioacumulativo

Dados dos materiais em falta.

12.4 Mobilidade no solo

Dados dos materiais em falta.

12.5 Resultados de avaliação PBT e vPvB

Não foi feita a avaliação PBT e vPvB.

12.6 Outros efeitos adversos

Não foram encontrados estudos.

Secção 13: Considerações sobre a eliminação

13.1 Métodos de tratamento de dejetos

Produto residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

Embalagem residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

13.2 Outras informações

As amostras biológicas, incluindo cartuchos usados, devem ser tratadas como potenciais fontes de transmissão de agentes infeciosos. Consultar os técnicos responsáveis pelos resíduos ambientais da sua instituição relativamente à eliminação correta de cartuchos usados e reagentes não utilizados. Este material pode apresentar características de resíduos perigosos segundo a Lei de Recuperação e Conservação de Recursos (RCRA) da Agência de Proteção Ambiental (EPA), que exijam requisitos de eliminação específicos. Verificar as regulamentações estaduais e locais, uma vez que poderão diferir das regulamentações federais de eliminação de resíduos. As instituições fora dos EUA devem verificar os requisitos relativos à eliminação de resíduos perigosos dos respetivos países.

15.2 Avaliação da Segurança Química

Não foi efetuada qualquer Avaliação da Segurança Química.

Secção 16: Outras informações

Frases relevantes (código e texto)

H302 - Nocivo por ingestão
H412 - Nocivo para os organismos aquáticos com efeitos duradouros
EUH031 - Em contacto com ácidos liberta gases tóxicos.

Renúncia/ Declaração de responsabilidade

A informação supramencionada baseia-se em dados que nos foram disponibilizados e é tida como correta. Dado que a informação pode ser aplicada em condições fora do nosso controlo e com as quais podemos não estar familiarizados, não assumimos qualquer responsabilidade pelo resultado da sua utilização, e todas as pessoas que a recebam têm de determinar individualmente os efeitos, as propriedades, as proteções e os procedimentos de eliminação que se aplicam às suas condições particulares. Não se assume qualquer representação ou garantia, implícita ou explicitamente (incluindo garantia de adequação ou comerciabilidade para uma finalidade específica) em relação aos materiais, à exatidão desta informação, aos resultados obtidos decorrentes da sua utilização ou a perigos relacionados com a utilização deste material. Deve-se ter cuidado no manuseamento e utilização deste material. A informação anterior é disponibilizada de boa-fé e é tida como exata. À data de emissão, fornecemos toda a informação relevante para um manuseamento previsível do material. No entanto, caso ocorra um incidente adverso associado a este produto, esta Ficha de Dados de Segurança não substitui, nem se pretende que substitua, a consulta de um profissional com formação adequada.

NDA = Nenhuns Dados Disponíveis

Паспорт безопасности материала *Xpert Trichomonas*
Дата вступления в силу: сентябрь, 2016 г.
Отменяет версию документа за: ноябрь, 2015 г.

Раздел 1: Общие сведения о веществе/смеси и производителе

1.1 Идентификатор продукта

Наименование продукта **Xpert Trichomonas**
Код продукта 900-0657; GXTV-10; GXTV-CE-10

1.2 Рекомендованные и не рекомендованные способы применения вещества или смеси

Рекомендованные способы применения Для использования в лабораторных условиях

1.3 Сведения об организации, предоставившей паспорт безопасности материала

Производитель Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
United States (США)
www.cepheid.com
США: techsupport@cepheid.com
Телефон (общий) 1 (888) 838-3222 - США, дополнит. 2
Телефон (общий) 1 (408) 541-4191 - За пределами США

1.4 Телефон для экстренной связи

Производитель 1 (800) 424-9300 - CHEMTREC - круглосуточный телефон экстренного вызова
Производитель 1 (703) 741-5500 - За пределами США

Раздел 2: Идентификация опасности

ЕС/ЕЭС

Согласно: Регламенту ЕК (ЕС) № 1272/2008 (CLP)/REACH 1907/2006 [с поправками, внесенными постановлением 453/2010]

2.1 Классификация вещества или смеси

Регламент CLP Следующий паспорт безопасности материала действителен только для готового продукта, используемого в лабораторных условиях. Содержит жидкие компоненты, некоторые из которых лиофилизированы, а также реактивы, содержащиеся в картридже и во флаконе Nalgene. Все реактивы представляют собой прозрачные бесцветные жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1)&(2).
Не классифицируется

2.2 Элементы маркировки

Регламент CLP

Указания на опасность Маркировка не требуется.

2.3 Другие факторы опасности

Регламент CLP Согласно Регламенту ЕК № 1272/2008 (CLP) этот материал не считается опасным.

СГС ООН
Согласно: Согласованная на глобальном уровне система классификации опасности и маркировки химической продукции (СГС) ООН

2.1 Классификация вещества или смеси
СГС ООН

Острая токсичность, перорально, 5
Слабое раздражение кожи, 3
Раздражение глаз, 2

2.2 Элементы маркировки
СГС ООН

ВНИМАНИЕ!

Указания на опасность

Может быть вредно при проглатывании
Вызывает слабое раздражение кожи
Вызывает серьезное раздражение глаз

Меры предосторожности

Профилактика

После использования тщательно вымыть.
Пользуйтесь защитными перчатками, защитной одеждой, средствами защиты глаз/лица.

Реагирование

При плохом самочувствии обратиться в ТОКСИКОЛОГИЧЕСКИЙ ЦЕНТР или к врачу-специалисту/терапевту.
При раздражении кожи: обратиться за медицинской консультацией/помощью.
ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание.
Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

2.3 Другие факторы опасности
СГС ООН

В соответствии с Согласованной на глобальном уровне системой классификации опасности и маркировки химической продукции (СГС) данный продукт считается опасным.

США
Согласно: OSHA 29 CFR 1910.1200 HCS

2.1 Классификация вещества или смеси
OSHA HCS 2012

Раздражение глаз, 2

2.2 Элементы маркировки

OSHA HCS 2012

ВНИМАНИЕ!

Указания на опасность	Вызывает серьезное раздражение глаз
Меры предосторожности	
Профилактика	После использования тщательно вымыть. Пользуйтесь защитными перчатками, защитной одеждой, средствами защиты глаз/лица.
Реагирование	ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

2.3 Другие факторы опасности

OSHA HCS 2012 Согласно государственным нормам США (документ 29 CFR 1910.1200 - Стандарт-требование об оповещении об опасности) этот продукт считается опасным.

Канада
Согласно: WHMIS

2.1 Классификация вещества или смеси

WHMIS Другие токсические эффекты, D2B

2.2 Элементы маркировки

WHMIS

Другие токсические эффекты, D2B

2.3 Другие факторы опасности

WHMIS В Канаде указанное выше вещество согласно требованиям Информационной системы по опасным материалам на рабочих местах (WHMIS) считается опасным.

2.4 Дополнительная информация

Данный паспорт безопасности материала действителен только для готового продукта, используемого в лабораторных условиях. Продукт представляет собой картридж с жидкими и лиофилизированными реактивами. Источники опасности связаны с реактивами, содержащимися в картридже. В условиях нормальной эксплуатации контакт с реактивом в картридже исключен.

Раздел 3: Состав/информация о компонентах

3.1 Вещества

Материал не отвечает критериям классификации, применяемым к веществам.

3.2 Смеси

Состав					
Химическое наименование	**Идентификаторы**	**%**	**LD50/LC50**	**Классификация в соответствии с нормами/постановлениями**	**Комментарии**
Гуанидина тиоцианат	**CAS:** 593-84-0 **EINECS:** 209-812-1	ОТ 5% ДО 10%	Нет данных	**СГС ООН:** острая токсичность 4 (перорально); раздражение кожи 3; раздражение глаз 2B; острая токсичность для водной среды 3; токсично для водной среды при хроническом воздействии 3 **EU CLP:** острая токсичность 4, H302; EUH031; токсично для водной среды при хроническом воздействии 3, H412 **OSHA HCS 2012:** острая токсичность 4 (перорально); раздражение глаз 2B	Нет данных
Глицерин	**CAS:** 56-81-5 **Номер EC:** 200-289-5	ОТ 1% ДО 5%	Прием внутрь/ перорально-крыса LD50 • 12600 мг/кг	**СГС ООН:** раздражение глаз 2; раздражение кожи 3 **EU CLP:** раздражение глаз 2, H319 **OSHA HCS 2012:** раздражение глаз 2	Нет данных

См. раздел 16 с полным текстом указаний на опасность.

Раздел 4: Первая медицинская помощь

4.1 Описание мер первой медицинской помощи

Вдыхание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. Вынести пострадавшего на свежий воздух. При затрудненном дыхании дать кислород. При вдыхании вещества не применять искусственное дыхание рот-в-рот. Выполнить искусственное дыхание с помощью карманной маски с клапаном одностороннего действия или другого подходящего медицинского устройства. При остановке дыхания обеспечить искусственное дыхание/ИВЛ.

Кожа Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При незначительном контакте с кожей избегайте распространения материала на незатронутые участки. В случае контакта вещества с кожей незамедлительно промыть пораженный участок проточной водой в течение не менее чем 20 минут. Снять и изолировать загрязненную одежду.

Глаза Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. В случае попадания вещества незамедлительно промыть глаза проточной водой в течение не менее чем 20 минут. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

Проглатывание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При проглатывании прополоскать рот водой (только если человек находится в сознании). НЕ вызывать рвоту. Не применять искусственное дыхание рот-в-рот при проглатывании вещества. При проглатывании материала сразу же обратиться к врачу.

4.2 Наиболее важные симптомы и последствия, проявляющиеся немедленно и с задержкой

См. раздел 11, «Токсикологическая информация».

4.3 Признаки необходимости неотложной медицинской помощи и специального лечения

Примечания для врача Лечение основывать на наблюдаемых симптомах. Учитывать возможность одновременного чрезмерного воздействия на пациента и других веществ, помимо данного продукта.

Раздел 5: Меры противопожарной безопасности

5.1 Средства пожаротушения

Подходящие средства пожаротушения КРУПНЫЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), спиртоустойчивые пенообразователи, распыленная вода.
НЕБОЛЬШИЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), распыленная вода.

Непригодные средства пожаротушения Данные отсутствуют

5.2 Особые аспекты опасности вещества или смеси

Особая огне- и взрывоопасность Возможно выделение токсичных испарений: оксиды углерода, оксиды серы, оксиды азота.

Опасные продукты горения Данные отсутствуют

5.3 Рекомендации по пожаротушению

Защитная одежда пожарных для тушения пожаров в зданиях обеспечивает ограниченную защиту ТОЛЬКО в условиях пожара; она не является эффективным средством защиты при разливах с возможным непосредственным контактом с веществами.
Носить одежду для химической защиты, рекомендованную производителем. Она может быть малоэффективна или неэффективна в качестве тепловой защиты.
Использовать автономные дыхательные аппараты, работающие в режиме положительного давления.
НЕБОЛЬШИЕ ПОЖАРЫ. Уберите контейнеры из зоны пожара, если можете сделать это без риска.

Раздел 6: Меры по предотвращению и ликвидации последствий случайного выброса материала

6.1 Меры по обеспечению личной безопасности, средства защиты и действия в чрезвычайной ситуации

Меры по обеспечению личной безопасности В случае разбития картриджа актуальны указанные меры по обеспечению личной безопасности. Используйте соответствующую защитную одежду. Не ходите по разлитому/просыпанному материалу. Не прикасайтесь к поврежденным контейнерам или разлитому/просыпанному материалу, если нет соответствующей защитной одежды. Проветрите закрытые помещения.

Действия в чрезвычайных ситуациях Ожидается, что экстренные меры не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций.

6.2 Меры по защите окружающей среды

Не допускать попадания в водотоки, канализацию, подвалы и замкнутые пространства.

6.3 Методы и средства локализации и очистки

Методы и средства локализации и очистки При небольших разливах используйте перчатки. Для сбора вещества используйте бумажные полотенца. Не сливать пролитые вещества в канализацию.

6.4 Ссылки на другие разделы

См. раздел 8, «Меры контроля воздействия и средства индивидуальной защиты», и раздел 13, «Условия удаления в отходы».

Раздел 7: Правила обращения и хранения

7.1 Меры предосторожности при обращении с продуктом

Обращение Особое обращение не требуется. В случае разбития картриджа избегайте контакта с разлившимися реактивами. Избегать контакта с кожей и глазами.

7.2 Условия безопасного хранения и учет факторов несовместимости

Место хранения Хранить согласно указаниям на упаковке. Хранить вдали от несовместимых материалов. Хранить под замком. Хранить в плотно закрытом контейнере/упаковке в прохладном, хорошо проветриваемом месте.

7.3 Особые способы применения

См. раздел 1.2, «Рекомендованные способы применения».

Раздел 8: Меры контроля воздействия и средства индивидуальной защиты

8.1 Контрольные параметры

Предельно допустимые концентрации/рекомендации		
	Результат	**OSHA**
Глицерин (56-81-5)	TWA	15 мг/м3 TWA (туман, общая фракция частиц); 5 мг/м3 TWA (туман, фракция, проникающая в дыхательные пути)
Гуанидина тиоцианат	TWA	5 мг/м3 TWA (как CN) *как цианистые соединения*

8.2 Меры контроля воздействия

Инженерно-технические мероприятия/средства контроля Следует обеспечить хорошую общую вентиляцию. Интенсивность вентиляции должна соответствовать условиям хранения/использования. Если возможно, используйте изолированное рабочее пространство, местную вытяжную вентиляцию и прочие инженерно-технические средства для сдерживания концентрации вещества в воздухе на уровне ниже ПДК. Если ПДК не установлены, поддерживайте приемлемые концентрации вещества в воздухе.

Индивидуальные средства защиты

Защита органов дыхания	Соблюдайте рекомендации по использованию респираторов Управления охраны труда (OSHA) США, изложенные в документе 29 CFR 1910.134, или Европейского стандарта EN 149. При превышении ПДК или обнаружении признаков поражения используйте респираторы, одобренные Национальным институтом по безопасности и гигиене труда (NIOSH) США, Управлением по безопасности и охране труда в добывающей промышленности (MSHA) США или Европейским стандартом EN 149.
Защита глаз/лица	Носите очки химической защиты.
Защита кожных покровов/тела	Используйте защитную одежду.
Защита окружающей среды	Соблюдайте общие правила работы на объекте и удаления отходов.

Сокращения
OSHA = Управление охраны труда, США (Occupational Safety and Health Administration).
TWA = Средневзвешенная во времени концентрация, вычисляемая на основании воздействия в течение 8 часов в день, 40 часов в неделю.

Раздел 9: Физические и химические свойства

9.1 Информация о физических и химических свойствах

Описание материала			
Физическая форма	Жидкость	Внешний вид/описание	Гранулы представляют собой твердые белые компоненты, находящиеся в картриджах; реактивы — прозрачные жидкости, в основном буферизованные в водных растворах. Компоненты не имеют запаха.
Цвет	Белый/прозрачный	Запах	Без запаха
Порог ощущения запаха	Данные отсутствуют		
Общие свойства			
Точка кипения	100 °C (212 °F)	Температура плавления/замерзания	0 °C (32 °F)
Температура разложения	Данные отсутствуют	pH	от 7 до 9 Реактив для лизирования 1 (GTC pH (3,7-4,1)) Реактив для лизирования 2 (гидроксид натрия <1% pH 14).
Удельный вес/относительная плотность	Данные отсутствуют	Растворимость в воде	Данные отсутствуют
Вязкость	Данные отсутствуют	Взрывчатые свойства	Данные отсутствуют
Окислительные свойства:	Данные отсутствуют		
Летучесть			
Давление паров	Данные отсутствуют	Плотность паров	Данные отсутствуют
Интенсивность испарения	Данные отсутствуют		
Воспламеняемость			
Температура вспышки	от 182,2222 °C до 293,3333 °C (от 360 °F до 560 °F) (Реактив связывания)	ВКПВ (верхний предел взрываемости)	Данные отсутствуют
НПВ (нижний предел взрываемости)	Данные отсутствуют	Самовоспламенение	Данные отсутствуют
Воспламеняемость (в твердом, газообразном состоянии)	Данные отсутствуют		

В отношении окружающей среды			
Коэффициент распределения октанол/вода	Данные отсутствуют		

9.2 Дополнительная информация

Дополнительные физические и химические свойства не обнаружены.

Раздел 10: Стабильность и реакционная способность

10.1 Реакционная способность

В нормальных условиях использования опасные реакции неизвестны.

10.2 Химическая стабильность

Стабильно

10.3 Вероятность опасных реакций

Опасная полимеризация не происходит.

10.4 Условия, которых следует избегать

Несовместимые материалы. При нагревании и контакте с кислотами или раствором гипохлорита натрия возможно выделение очень токсичного газа.

10.5 Несовместимые материалы

Кислоты, окислители.

10.6 Опасные продукты разложения

Оксиды углерода, оксиды натрия.

Раздел 11: Токсикологическая информация

11.1 Информация о токсикологических последствиях

Компоненты		
Гуанидина тиоцианат (от 5% до 10%)	593-84-0	**Острая токсичность:** внутрибрюшинный-мышь LD50 • 300 мг/кг
Глицерин (ОТ 1% ДО 5%)	56-81-5	**Острая токсичность:** прием внутрь/перорально-крыса LD50 • 12600 мг/кг; *поведение*: **общее анестезирующее действие**; *поведение*: **мышечная слабость**; *печень*: **другие изменения**; **Раздражение:** глаза-кролик • 500 мг 24 часа • слабое раздражение; кожа-кролик • 500 мг 24 часа • слабое раздражение; **Токсичность при неоднократном введении:** прием внутрь/перорально-мышь TDLo • 560 г/кг 8 недель-непрерывный; *легкие, грудная клетка или дыхание*: **структурные или функциональные изменения в трахее или бронхах**; прием внутрь/перорально-мышь TDLo • 2800 мг/кг 25 недель-непрерывный; *кожа и придатки кожи: прочее*: **опухоли**; *способность приводить к развитию опухоли*: **усиливает действие известного канцерогена**; **Мутаген:** цитогенетический анализ • прием внутрь/перорально-крыса • 1 г/кг; подавление ДНК • неуказанный путь введения-человек • лимфоциты (соматические клетки) • 200 ммоль/л; **Влияние на репродуктивную функцию:** прием внутрь/перорально-крыса TDLo • 100 мг/кг (1 д. самцы); *влияние на репродуктивную функцию: влияние на фертильность*: **постимплантационная смертность**; **Развитие опухоли / канцероген:** прием внутрь/перорально-мышь TDLo • 87,5 г/кг 25 недель-прерывистый; *способность приводить к развитию опухоли*: **сомнительная способность вызывать развитие опухоли по критериям реестра RTECS**; *легкие, грудная клетка или дыхание*: **опухоли**; *способность приводить к развитию опухоли*: **усиливает действие известного канцерогена**

Свойства (СГС)	Классификация
Острая токсичность	**EU/CLP**•Данные отсутствуют **СГС ООН**•Острая токсичность - перорально - категория 5 - расчетная оценка острой токсичности ATEmix (пероральное введение) = 5000 мг/кг **OSHA HCS 2012**•Данные отсутствуют
Разъедающее/раздражающее воздействие на кожу	**EU/CLP**•Данные отсутствуют **СГС ООН**•Слабое раздражение кожи, категория 3 **OSHA HCS 2012**•Данные отсутствуют
Серьезное повреждение/раздражение глаз	**EU/CLP**•Данные отсутствуют **СГС ООН**•Раздражение глаз, категория 2 **OSHA HCS 2012**•Раздражение глаз, категория 2
Сенсибилизация кожи	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Сенсибилизация органов дыхания	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Опасность при аспирации	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Канцерогенность	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют

Свойства (СГС)	Классификация
Мутагенность для зародышевых клеток	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Токсическое действие на репродуктивную функцию	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Органоспецифическая токсичность при однократном воздействии (STOT-SE)	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют
Органоспецифическая токсичность при многократном воздействии (STOT-RE)	**EU/CLP**•Данные отсутствуют **СГС ООН**•Данные отсутствуют **OSHA HCS 2012**•Данные отсутствуют

Возможные последствия для здоровья

Вдыхание
Острые последствия Может вызывать раздражение.
Хронические последствия Данные отсутствуют
Кожа
Острые последствия Вызывает слабое раздражение кожи.
Хронические последствия Данные отсутствуют
Глаза
Острые последствия Вызывает серьезное раздражение глаз.
Хронические последствия Данные отсутствуют
Проглатывание
Острые последствия Может быть вредно при проглатывании.

Сокращения
LD = Летальная доза
TD = Токсическая доза

Раздел 12: Информация о воздействии на окружающую среду

12.1 Токсичность

Гуанидина тиоцианат вреден для водных организмов.

12.2 Устойчивость и способность к разложению

Данные о материале отсутствуют.

12.3 Способность к биоаккумуляции

Данные о материале отсутствуют.

12.4 Подвижность в почве

Данные о материале отсутствуют.

12.5 Результаты оценки соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества»

Оценка соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества» не производилась.

12.6 Другие неблагоприятные последствия

Исследования не проводились.

Раздел 13: Условия удаления в отходы

13.1 Методы переработки отходов

Отходы продукта Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

Отходы упаковки Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

13.2 Дополнительная информация

К биологическим образцам, включая использованные картриджи, следует относиться как материалам, способным служить источником инфекционного заражения. По вопросам надлежащего удаления в отходы использованных картриджей и неиспользованных реактивов проконсультируйтесь с лицами, ответственными за обращение с отходами в вашей организации. Данный материал может иметь характеристики опасных отходов с особыми требованиями к удалению отходов, предусмотренные агентством EPA согласно Федеральному закону об охране и восстановлении ресурсов (RCRA) США. Ознакомьтесь с местными нормами, так как они могут отличаться от федеральных норм. Организации за пределами США должны ознакомиться с нормами обращения с опасными отходами, принятыми в соответствующих странах.

Раздел 14: Информация о транспортировке

	14.1 Номер ООН	14.2 Отгрузочное наименование ООН	14.3 Класс(-ы) опасности при транспортировке	14.4 Группа упаковки	14.5 Опасность для окружающей среды

15.2 Оценка химической безопасности

Оценка химической безопасности не проводилась.

Раздел 16: Дополнительная информация

Соответствующие фразы (код и текст)

H302 - Вредно при проглатывании
H412 - Вредно для водных организмов с долгосрочными последствиями
EUH031 - При контакте с кислотами выделяет токсичный газ.

Отказ от ответственности/ ограничение ответственности

Представленные выше сведения основаны на доступных нам данных и считаются верными. В связи с тем, что представленная информация может быть использована в независящих от нас и неизвестных нам условиях, мы не несем ответственность за последствия ее использования, а все лица, получающие эту информацию, должны самостоятельно принимать решения относительно последствий применения, свойств, средств защиты и способов удаления в отходы в соответствии с конкретными условиями применения. Мы не заявляем, не даем каких-либо гарантий и поручительств, явных или подразумеваемых (включая гарантии пригодности или товарной пригодности для конкретной цели), в отношении материалов и точности информации, полученных при их использовании результатов, а также опасностей, связанных с использованием данного материала. При обращении с материалом и его использовании следует проявлять осторожность. Представленная выше информация передана добросовестно с уверенностью в ее точности. Мы предоставляем всю информацию, касающуюся предполагаемого использования материала, по состоянию на момент публикации. Однако в случае нежелательных последствий, связанных с данным продуктом, настоящий паспорт безопасности материала не является и не может являться заменой консультации с обученным специалистом.

安全数据表

生效日期：2016 年 9 月
更换日期：2015 年 11 月

Xpert Trichomonas

第 1 章：物质/混合物标识和公司/企业标识

1.1 产品识别

产品名称 Xpert Trichomonas
产品代码 900-0657; GXTV-10; GXTV-CE-10

1.2 物质或混合物的有关确定用途及不建议用途

有关确定用途 实验室使用

1.3 供应商安全数据表详情

制造商 Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
United States
www.cepheid.com
US：techsupport@cepheid.com
电话（通用） 1 (888) 838-3222 - 美国（选 2）
电话（通用） 1 (408) 541-4191 - 美国境外

1.4 紧急电话号码

制造商 1 (800) 424-9300 - CHEMTREC - 24 小时紧急电话
制造商 1 (703) 741-5500 - 美国境外

第 2 章：危险标识

EU/EEC
根据：第 1272/2008 号规章（欧共体）(CLP)/REACH 1907/2006 [修订版 453/2010]

2.1 物质或混合物的分类

CLP 以下 SDS 仅适用于用于实验室的最终成品。它含有液体组分，其中一些呈冷冻干燥粉末状和制剂状，装于盒子和 Nalgene 瓶子中。所有制剂均为清澈、无色液体。例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
未分类

2.2 标签元素

CLP

危险声明 不要求标签元素

2.3 其他危险

CLP 根据 (EC) 1272/2008 号条例 (CLP)，认为这种材料不是危险材料。

UN GHS
根据：联合国 (UN) 全球化学品统一分类和标签制度 (GHS)

2.1 物质或混合物的分类

UN GHS

急性经口毒性 5
轻度皮肤刺激 3
眼刺激 2

2.2 标签元素

UN GHS

警告

危险声明 如果吞入可能有害
导致轻度皮肤刺激
导致严重的眼睛刺激

防范声明

预防 处理之后要彻底清洗。
戴上防护手套/防护服/护目装备/护面装备。

响应 感到身体不适时，呼叫解毒中心或医生/医师。
如果发生皮肤刺激：获得医疗指导/就医治疗。
如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。

2.3 其他危险

UN GHS

根据全球统一分类和标签制度（GHS），认为该产品是危险品。

美国（US）
根据：OSHA 29 CFR 1910.1200 HCS

2.1 物质或混合物的分类

OSHA 的 HCS 2012

眼刺激 2

2.2 标签元素

OSHA 的 HCS 2012

警告

危险声明 导致严重的眼睛刺激

防范声明

预防 处理之后要彻底清洗。
戴上防护手套/防护服/护目装备/护面装备。

响应 如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。

2.3 其他危险

OSHA 的 HCS 2012 根据美国法规（29 CFR 1910.1200 - 危害通识标准），认为该产品是危险品。

加拿大
根据：WHMIS

2.1 物质或混合物的分类

WHMIS 其他毒性作用 - D2B

2.2 标签元素

WHMIS

其他毒性作用 - D2B

2.3 其他危险

WHMIS 在加拿大，根据工作场所有害材料信息系统（WHMIS），认为上述产品是危险品。

2.4 其他信息

以下 SDS 仅适用于用于实验室或临床环境中的最终成品。本产品是一个含液体制剂和冷冻干燥粉末的盒子，表述的风险是基于盒子中内含的制剂。在正常使用期间，应不会接触到合作内的制剂。

第 3 章：成分构成/信息

3.1 物质

该材料不符合某种物质的标准。

3.2 混合物

构成					
化学名称	**标识符**	**%**	**LD50/LC50**	**按规章/指令分类**	**注解**
异硫氰酸胍	**CAS：** 593-84-0 **EINECS：** 209-812-1	5%至10%	NDA	**UN GHS：** 急性毒性 4（经口）；皮肤刺激3；眼刺激 2B；水生急性 3；水生慢性 3 **EU CLP：** 急性毒性 4，H302； EUH031；水生慢性 3，H412 **OSHA HCS 2012：** 急性毒性 4（经口）；眼刺激 2B	NDA
甘油	**CAS：** 56-81-5 **EC 编号：** 200-289-5	1%至5%	摄入/口服-大鼠 LD50 • 12600 mg/kg	**UN GHS：** 眼刺激 2；皮肤刺激 3 **EU CLP：** 眼刺激 2，H319 **OSHA HCS 2012：** 眼刺激 2	NDA

完整的危险声明全文，请参阅第 16 章。

第 4 章：急救措施

4.1 急救措施描述

吸入 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。将受害者移至新鲜空气处。如果呼吸困难，就施用氧气。如果受害者吸入该物质，就不要使用口对口方法；借助配备单向阀或其他适当的呼吸医疗设备的袖珍面罩来给予人工呼吸。如果受害者没有呼吸，就给予人工呼吸。

皮肤 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。对于轻微的皮肤接触，避免使物质扩散到未受影响的皮肤上。在与物质接触的情况下，立即用流动的水冲洗眼睛至少20分钟。脱掉并隔离受污染的衣物。

眼睛 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。在与物质接触的情况下，立即用大量的水冲洗眼睛至少20分钟。如果眼睛刺激持续：获得医疗指导/就医治疗。

摄入 如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。如果吞入，用水漱口（只有当伤员意识清楚时）。切勿催吐。如果受害者摄入该物质，请勿使用口对口人工呼吸法。如果摄入，立即就医。

4.2 急性及缓发的最重要症状及效应

请参阅第 11 章 - 毒物学信息。

4.3 任何需要立即就医及特别治疗的症候

对医生的注释 所有治疗措施均应根据所观察到的患者的痛苦症状和体征进行。应考虑可能发生过度暴露于非本品材料的可能性。

第 5 章：消防措施

5.1 灭火介质

适用的灭火介质 大火：化学干粉、二氧化碳、抗溶性泡沫或喷水。
小火：化学干粉，二氧化碳或喷水。

不适用的灭火介质 无可用数据

5.2 由物质或混合物产生的特殊危险

异常火灾和爆炸危险 可能会散发碳氧化物、硫氧化物、氮氧化物有毒蒸气。

有害燃烧产物 无可用数据

5.3 供消防队员采纳的建议

建筑消防员的防护服在火情中只能提供有限的保护；它在可能与物质直接接触的溢出情况下无效穿上制造商专门推荐的化学防护服。
穿上制造商专门推荐的化学防护服。它可能提供很少或根本没有提供热保护。
配戴正压自给式呼吸装置 (SCBA)。
小火：如果能够无风险地完成，就从火区移出容器。

第 6 章：意外释放措施

6.1 个人预防措施、防护装备和紧急程序

个人预防措施 万一盒子断裂，则适用于这些个人预防措施。穿戴适当的防护服。切勿踩踏泄漏物。除非穿着适当的防护服，否则不要触碰损坏的容器或溢出的物质。使封闭的地区通风。

应急程序 如果在一般条件下并且按照推荐的方法使用材料，预计不必要执行应急程序。

6.2 环保预防措施

防止进入水道、下水道、地下室或封闭区域。

6.3 用于遏制/净化的方法和材料

遏制/净化措施 对于少量撒漏，戴手套并用纸巾吸附撒漏物。切勿将撒漏的材料冲刷到排水管道中予以处置。

6.4 其他各章的参考

请参阅第 8 章 - 接触控制/个人防护以及第 13 章 - 处置注意事项。

第 7 章：操作和贮存

7.1 用于安全操作的预防措施

操作 无需任何特殊操作。如果盒子断裂，避免接触撒漏的制剂。避免接触皮肤和眼睛。

7.2 包括任何不相容性的安全贮存条件

贮存 按产品标签予以贮存。远离不相容材料。上锁贮存。将容器/包装在阴凉、通风良好之处保持密闭。

7.3 特定最终用途

请参阅第1.2条 - 有关确定用途。

第 8 章：接触控制/个人防护

8.1 控制参数

接触限值/指南		
	结果	**OSHA**
甘油 (56-81-5)	TWAs	15 mg/m3 TWA（气雾，微粒总量）；5 mg/m3 TWA（气雾，可呼吸部分）
异硫氰酸胍	TWAs	5 mg/m3 TWA（以 CN 计） *以氰化物计*

8.2 接触控制

工程措施/控制 应当使用良好的通用通风设施。通风速率应当与环境相配。如果适用，使用工艺外罩、局部排气通风或其它工程控制设施，以保持空气中的浓度低于推荐的接触限值。如果尚未确定接触限值，就将空气中的浓度保持在可接受的水平。

个人防护装备

呼吸 遵守29 CFR 1910.134或欧洲标准EN 149中可见的OSHA呼吸器条例。如果超过接触限值或出现症状，就使用NIOSH/MSHA或欧洲标准EN 149认可的呼吸器。

眼睛/面部 佩戴防化学剂飞溅护目镜。

皮肤/身体 穿戴防护服。

环境接触控制 遵守厂区管理和废物处置最佳规范。

略语表
OSHA = 职业安全和健康管理局
TWA = 时间加权平均值根据8小时/天、40小时/周的接触量来确定

第 9 章：物理性质和化学性质

9.1 有关物理性质和化学性质的信息

材料描述			
外形	液体	外形/描述	微珠在盒中是白色固体成分；试剂是透明液体，其主要在水溶液中缓冲。成分无味。
颜色	白色/透明	气味	无味
气味阈值	数据缺乏		
一般性质			
沸点	100 ° C (212 ° F)	熔点/凝固点	0 ° C (32 ° F)
分解温度	数据缺乏	pH值	7至9 Lysis 制剂 #1 (GTC pH (3.7-4.1.)) Lysis 制剂 #2 (氢氧化钠 <1% pH 14)。
比重/相对密度	数据缺乏	水溶解度	数据缺乏
粘度	数据缺乏	易爆性质	数据缺乏
氧化性性质	数据缺乏		
挥发性			
蒸气压力	数据缺乏	蒸气密度	数据缺乏
蒸发速率	数据缺乏		
易燃性			
闪点	360 至 560 ° F（182.2222 至 293.3333 ° C）（结合剂）	爆炸上限	数据缺乏
爆炸下限	数据缺乏	自燃点	数据缺乏
易燃性（固体、气体）	数据缺乏		
环境方面			
辛醇/水分配系数	数据缺乏		

9.2 其他信息

未注明额外的物理和化学参数。

第 10 章：稳定性和反应性

10.1 反应性

在正常使用条件下，未知有危险反应。

10.2 化学稳定性

稳定

10.3 危险反应的可能性

不会发生危险的聚合反应。

10.4 应避免的情况

不相容的材料。热、与酸或漂白剂接触可释放非常有毒的气体。

10.5 不相容的材料

酸、氧化剂。

10.6 危险的分解产物

碳氧化物、钠氧化物。

第 11 章：毒物学信息

11.1 有关毒物学效应的信息

组成成分		
异硫氰酸胍 (5%至10%)	593-84-0	**急性毒性：**腹腔-小鼠 LD50 • 300 mg/kg
甘油 (1%至5%)	56-81-5	**急性毒性：**摄入/口服-大鼠 LD50 • 12600 mg/kg；*行为*：**全身麻醉**；*行为*：**肌无力**；*肝脏*：**其他变化**； **刺激：**眼睛-兔 • 500 mg 24 小时 • 轻度刺激；皮肤-兔 • 500 mg 24 小时 • 轻度刺激； **多剂量毒性：**摄入/口服-小鼠 TDLo • 560 g/kg 8 周-连续的；*肺、胸或呼吸系统*： **气管或支气管结构性或功能性变化**；摄入/口服-小鼠 TDLo • 2800 mg/kg 25 周-连续的；*皮肤和附属器官：其他*：**肿瘤**；*致瘤性*：**促进已知致瘤物的作用**； **诱变剂：**细胞遗传学分析 • 摄入/口服-大鼠 • 1 g/kg；DNA 抑制 •未报告途径-人类 • 淋巴细胞（体细胞） • 200 mmol/L； **生殖：**摄入/口服-大鼠 TDLo • 100 mg/kg（1D 男性）；*生殖效应：生育效应：* **植入后死亡率**； **致瘤物/致癌物：**摄入/口服-小鼠 TDLo • 87.5 g/kg 25 周-断续；*致瘤性*：**可疑的致肿瘤剂（按 RTECS 标准）**；*肺、胸或呼吸系统*：**肿瘤**；*致瘤性*：**促进已知致瘤物的作用**

GHS危险种类	危险类别
急性毒性	EU/CLP•缺乏数据 UN GHS•急性毒性 - 经口 5 - ATEmix（经口） = 5000 mg/kg OSHA HCS 2012•缺乏数据
皮肤腐蚀/刺激	EU/CLP•缺乏数据 UN GHS•轻度皮肤刺激 3 OSHA HCS 2012•缺乏数据
严重眼损伤/刺激	EU/CLP•缺乏数据 UN GHS•眼刺激 2 OSHA HCS 2012•眼刺激 2
皮肤过敏	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
呼吸过敏	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
吸入危险	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
致癌性	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
生殖细胞致突变性	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
针对生殖的毒性	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据

GHS危险种类	危险类别
STOT-SE	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据
STOT-RE	EU/CLP•缺乏数据 UN GHS•缺乏数据 OSHA HCS 2012•缺乏数据

潜在健康影响

吸入
急性（立即） 可能导致刺激。
慢性（缓发） 无可用数据
皮肤
急性（立即） 导致轻度的皮肤刺激。
慢性（缓发） 无可用数据
眼睛
急性（立即） 导致严重的眼睛刺激。
慢性（缓发） 无可用数据
摄入
急性（立即） 吞入时可能有害。
慢性（缓发） 无可用数据

略语表
LD = 致死剂量
TD = 毒性剂量

第 12 章：生态学信息

12.1 毒性
硫氰酸胍对水生生物有害。

12.2 持久性和降解性
材料数据缺失。

12.3 生物累积的潜力
材料数据缺失。

12.4 土壤中的移动性
材料数据缺失。

12.5 PBT及vPvB评估的结果
尚未进行 PBT 和 vPvB 评估。

12.6 其他不良效应
未发现研究成果。

第 13 章：处置注意事项

13.1 废物处理方法

产品废物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。
包装废弃物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

13.2 其他信息

生物样本，包括废盒子，应以能够传播感染源对待。咨询您所在机构的环保废物处理人员有关妥善处置用过盒子和未用过试剂的信息。本材料可能会表现出联邦环保署（EPA）资源保护与回收法（RCRA）危险废料的特征，要求采用特定的处置规定。请查阅国家和当地法规，因为它们可能不同于联邦的处置法规。美国以外的机构应查阅其本国的危险废料处置规定。

第 14 章：运输信息

	14.1 UN编号	14.2 UN正式运输名称	14.3 运输危险分类	14.4 包装组	14.5 环境危害
DOT	NDA	未管制	NDA	NDA	NDA
TDG	NDA	未管制	NDA	NDA	NDA
IMO/IMDG	NDA	未管制	NDA	NDA	NDA
IATA/ICAO	NDA	未管制	NDA	NDA	NDA

14.6 用户特殊防护措施

未列明。

14.7 根据 MARPOL 73/78 的附录 II 和 IBC 准则散装运输

缺乏数据。

第 15 章：法规信息

15.1 针对特定物质或混合物的安全、卫生和环境条例/法规

SARA 危险性分类 急性、火灾

US:techsupport@cepheid.com
電話(一般) 1 (888) 838-3222 - 米国オプション2
電話(一般) 1 (408) 541-4191 - 米国外

1.4 緊急電話番号

製造業者 1 (800) 424-9300 - CHEMTREC - 24時間緊急電話
製造業者 1 (703) 741-5500 - 米国外

セクション2:危険性識別

EU/EEC

準拠: 指令(EC)1272/2008 (CLP)/REACH 1907/2006 [453/2010による改訂]

2.1 物質や混合物の分類

CLP 次のSDSは研究所で使用されるため、最終製品でのみ使用されます。液体物質を含み、その一部は凍結乾燥粉末およびカートリッジやナルゲンボトルに含まれた試薬である場合があります。すべての試薬は、透明で無色の液体です。一部の物質の情報の開示の免除は、CLP 項目 1(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
未分類

2.2 ラベル要素

CLP

危険有害性情報 ラベル要素は必要ありません。

2.3 その他危険性

CLP 規定(EC) No. 1272/2008 (CLP) に準じて、本剤は危険物とみなされません。

UN GHS

準拠: UN 化学品の分類および表示に関する世界調和システム(GHS)

2.1 物質や混合物の分類

UN GHS

急性毒性 経口5
軽度の皮膚刺激3
眼刺激2

2.2 ラベル要素

UN GHS

警告

危険有害性情報

飲み込むと有害。
皮膚への軽度の刺激を引き起こす。
目に重度の刺激を引き起こす。

予防情報

予防

取り扱いの後、十分に洗う。
防護手袋／防護服／防護めがね／保護面を着用する。

応答

気分が悪い場合、毒物センターあるいは医師に連絡する。
皮膚に刺激が生じた場合:医師の助言／手当てを受ける。
目に入った場合:目に入った場合:数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目の刺激が続く場合:医師の助言／手当てを受ける。

2.3 その他危険性

UN GHS

危険化学品分類表示の世界調和システム(GHS)では、本製品は危険な物質と考慮されています。

米国(US)

準拠: OSHA 29 CFR 1910.1200 HCS

2.1 物質や混合物の分類

OSHA HCS 2012

眼刺激2

2.2 ラベル要素

OSHA HCS 2012

警告

危険有害性情報

目に重度の刺激を引き起こす。

予防情報

予防 取り扱いの後、十分に洗う。
防護手袋／防護服／防護めがね／保護面を着用する。

応答 目に入った場合:目に入った場合:数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目の刺激が続く場合:医師の助言／手当てを受ける。

2.3 その他危険性

OSHA HCS 2012 米国規定(29 CFR 1910.1200 - 危険有害性周知基準)に基づき、本製品は危険物とみなされます。

カナダ
準拠: WHMIS

2.1 物質や混合物の分類

WHMIS その他の毒性効果 - D2B

2.2 ラベル要素

WHMIS

その他の毒性効果 - D2B

2.3 その他危険性

WHMIS カナダでは、上述の製品は作業場にある危険物に関する情報システム (WHMIS)に基づき危険物とみなされています。

2.4 その他情報

次のSDSは研究所または臨床環境で使用されるため、最終製品用のみです。本製品は、液体試薬と凍結乾燥粉末を含むカートリッジです。示された危険性は、カーとっりじに含まれる試薬に基づいています。通常の使用中に、このカートリッジ内の試薬への暴露は予想されません。

セクション3:成分の組成・情報

3.1 物質

本剤は、材料区分を満たしません。

3.2 混合物

合成物					
化学名	**識別子**	**%**	**LD50/LC50**	**規定/指針に基づく分類**	**コメント**
グアニジンチオシアネート	**CAS:** 593-84-0 **EINECS:** 209-812-1	5%～10%	NDA	**UN GHS:**急性毒性 4(経口);皮膚のかゆみ 3; 目のかゆみ 2B;水生急性毒性3;水生慢性毒性3 **EU CLP:**急性毒性 4、H302;EUH031; 水生慢性毒性 3、H412 **OSHA HCS 2012:**急性毒性 4(経口);目のかゆみ 2B	NDA

合成物					
グリセロール	**CAS:** 56-81-5 **EC番号:** 200-289-5	1%～5%	摂取/経口-ラット LD50・12600 mg/kg	**UN GHS:**眼の刺激 2;皮膚の刺激 3 **EU CLP:**眼の刺激 2、H319 **OSHA HCS 2012:**眼の刺激 2	NDA

H-statementの全文については、第16節を参照してください。

セクション4:応急処置手段

4.1 応急措置手段

吸引

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。被災者を新鮮な空気がある場所に移す。呼吸困難の場合は酸素を供給する。被災者が物質を吸引した場合、口移し式人工呼吸を行ってはならない; 一方向バルブの付いたポケットマスクや、その他の適切な呼吸医療装置を使って人工呼吸を行う。被災者が呼吸していない場合は、人工呼吸を施す。

皮膚

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。軽度の皮膚との接触では、影響を受けていない皮膚に物質を広げないようにする。物質と接触した場合は、最低20分間、直ちに流水で皮膚を洗浄する。汚染した衣類を取り除いて隔離する。

目

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。物質と接触した場合は、最低20分間、直ちに流水で目を洗浄する。目の刺激が続く場合:医師の助言/手当てを受ける。

摂取

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。飲み込んだ場合は、水で口をゆすいでください(意識がある場合)。嘔吐を誘発しないでください。被災者が物質を摂取した場合は口移し式人工呼吸を行ってはならない。摂取した場合は直ちに医師の手当てを受ける。

4.2 もっとも重要な症状と影響、急性および遅発性

第十一項 毒性に関する情報を参照してください。

4.3 直ちに医学的配慮と特別治療を必要とする兆候

医師へのメモ

治療はすべて、患者の苦痛の兆候および症状に基づき行われる必要があります。本製品以外の物質に著しくさらされた可能性について考慮する必要があります。

セクション5:消化手段

5.1 消火剤

適切な消火剤 大規模火災:乾燥した化学品、二酸化炭素、耐アルコール泡消火剤、散水
小規模火災:乾燥した化学品、二酸化炭素、散水

不適切な消火剤 データなし

5.2 物質や混合物から発生する特別な危険

異常な火災と爆発の危険 炭素酸化物、硫黄酸化物、窒素酸化物の有毒な蒸気を放出することがあります。

有害な燃焼生物 データなし

5.3 消防士への助言

流出した状況では物質に直接接触する可能性があ るため、効果がない製造業者が推奨する 化学品防護服を着用する。
製造業者が推奨する化学品防護服を着用する。熱に対する保護は、ある程度、またはまったく提供されない。
陽圧自給式呼吸器(SCBA)を着用する。
小規模火災:危険を冒さずにできる場合は、火災区域から容器を移動させる動かす。

セクション6:漏出時の措置

6.1 人体に対する注意事項、保護具、および緊急時措置

人体に対する注意事項 カートリッジが破損した場合、これらの人体に対する予防措置が適用されます。適切な保護服を着用する。漏出した物質を通って歩かない。適切な保護服を着用せずに破損した容器または漏出した物質に触れてはならない。閉じ込められた場所を換気する。

応急措置 物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されない。

6.2 影響に対する注意事項

水路、下水道、地下室、囲まれた区域に流入するのを防ぐ。

6.3 閉じ込めと清掃の手段と物質

閉じ込めと清掃の手段 少量の流出の場合は、手袋を着用し、ペーパータオルで流出を吸収してください。流出した物質を排水溝に廃棄しないでください。

6.4 他のセクションへの言及

第八項 爆発管理/安全保護、および第十三項 廃棄時の注意事項を参照してください。

セクション7:取り扱いと保管

7.1 安全な取り扱いについての注意

取り扱い 特別な取扱いは必要ありません。カートリッジが破損した場合、漏出した試薬に触れないようにしてください。皮膚に付着したり、目に入らないようにしてください。

7.2 安全な保管の条件、不適合性を含む

保管 製品ラベルに従って保管してください。互換性をもたない物質から離す。鍵をかけて保管する。容器/パッケージをしっかりと密閉し、涼しく、風通しの良い場所に保管してください。

7.3 具体的な最終用途

セクション1.2 関連する使用方法に関する情報を参照してください。

セクション8:暴露管理・個人保護

8.1 管理パラメータ

曝露限度/ガイドライン		
	結果	**OSHA**
グリセロール (56-81-5)	TWAs	15 mg/m3 TWA(霧状、全微粒子);5 mg/m3 TWA(霧状、呼吸可能な分画)
グアニジンチオシアネート	TWAs	5 mg/m3 TWA (CNとして) *青酸化合物として*

8.2 曝露管理

工学的手段・管理 十分な通気を確保してください。通規率は状況に応じて適切に調整してください。該当する場合は、包囲装置、局所排気装置、またはその他のエンジニアリングコントロール装置を使って、空気中の粉塵レベルが推奨暴露限界を超えないようにしてください。暴露レベルが確定されていない場合は、許容範囲の粉塵量を維持してください。

個人用保護具

呼吸器官 OSHA 呼吸器規制に関しては、29 CFR 1910.134 または 欧州標準EN 149をご覧ください。暴露基準を超える場合、あるいは症状が発症した場合は、NIOSH/MSHA または 欧州標準EN 149 保護マスクをご使用ください。

目・顔面 化学物飛散防止ゴーグルを着用してください。

皮膚・人体 保護服を着用してください。

環境暴露管理 現場管理および廃棄物の取り扱いは十分注意して行ってください。

略語について
OSHA = 労働安全衛生局
TWA = 時間加重平均値は、8時間/1日、40時間/1週間の暴露に基づいた数値です。

セクション9:物理的および化学的特性

9.1 物理的および化学的特性

材料の説明			
物理的形状	液体	外観/記述	ビーズはカートリッジ内の白色固体の物質であり、試薬は、主に水溶液で緩衝された透明な液体です。物質は無臭です。
色	白色/透明	臭気	無臭
臭気限界	データ不足		
一般的性質			
沸騰点	100 ° C (212 ° F)	融解点・凝固点	0 ° C (32 ° F)
分解温度	データ不足	pH	7～9 溶解試薬 №1 (GTC pH (3.7～4.1))溶解試薬 №2 (水酸化ナトリウム <1% pH 14)。
比重・相対密度	データ不足	水溶性	データ不足
粘性	データ不足	爆発特性	データ不足
酸化特性:	データ不足		
揮発度			
蒸気圧	データ不足	蒸気密度	データ不足
蒸発速度	データ不足		
可燃性			
引火点	182.2222～293.3333 ° C (360～560 ° F) (結合試薬)	UEL	データ不足
LEL	データ不足	自己発火	データ不足
可燃性(固体、ガス)	データ不足		
環境曝露管理			
オクタノール・水分配係数	データ不足		

9.2 その他情報

その他に物理的および化学的パラメータの記載はありません。

セクション10:安定性と反応性

10.1 反応性

通常の使用において、危険反応は報告されていません。

10.2 化学安定性

安定

10.3 有害反応の可能性

危険物のポリメリゼーションは発生しません。

10.4 回避すべき条件

不適合物質。熱、酸や漂白剤に触れると、非常に有害なガスを放出する場合があります。

10.5 不適合物質

酸、酸化試薬。

10.6 有害分解性生物

炭化酸化物、ナトリウム酸化物。

セクション11:毒性情報

11.1 毒性効果

成分		
グアニジンチオシアネート(5%～10%)	593-84-0	**急性毒性:** 腹腔内-マウス LD50・300 mg/kg
グリセロール(1%～5%)	56-81-5	**急性毒性:** 摂取/経口-ラット LD50・12600 mg/kg; *行動*: **全身麻酔薬**; *行動*: **筋力低下**; *肝臓*: **その他の変化**; **刺激:** 目-ウサギ・500 mg 24時間・軽度の炎症; 皮膚-ウサギ・500 mg 24時間・軽度の炎症; **複数用量毒性:** 摂取/経口-マウス TDLo・560 g/kg 8週間-継続的; *肺、胸部または呼吸*: **気管または気管支の構造または機能の変化**; 摂取/経口-マウス TDLo・2800 mg/kg 25 週間-継続的; *皮膚および付属器官:その他*: **腫瘍**; *腫瘍形成*: **既知の発癌物質の活性を促進する**; **変異原:** 細胞遺伝学的解析・摂取/経口-ラット・1 g/kg; DNA阻害・報告されていない経路-ヒト・リンパ球(体細胞)・200 mmol/L; **生殖:** 摂取/経口-ラット TDLo・100 mg/kg(1Dオス); *生殖への影響:生殖能力への影響*: **移植後の死亡率**; **腫瘍形成/発がん物質:** 摂取/経口-マウス TDLo・87.5 g/kg 25週間-間欠的; *腫瘍形成*: **RTECS基準によるとあいまいな腫瘍形成剤**; *肺、胸部または呼吸*: **腫瘍**; *腫瘍形成*: **既知の発癌物質の活性を促進する**

摂取
急性(即座) 飲み込むと有害の可能性。
慢性(遅発性) データなし

略語について
LD = 致死量
TD = 中毒量

セクション12:生態学的情報

12.1 毒性
チオシアン酸グアニジンは、水生生物に有害。

12.2 持続性と分解性
実態データが不足しています

12.3 生体内蓄積能
実態データが不足しています

12.4 土壌中移動性
実態データが不足しています

12.5 PBTとvPvB評価の結果

PBTおよび vPvBアセスメントは行われていません。

12.6 その他有害影響

そのような研究結果はありません。

セクション13:廃棄上の注意

13.1 廃棄物処理手段

製品廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

包装廃棄物 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

13.2 その他情報

使用済みカートリッジなどの生物試料は、感染物質を伝染する能力があるものとして取り扱われる必要があります。使用済みカートリッジと未使用の試薬の適切な廃棄方法については、機関の環境廃棄物担当員に相談してください。この資料は、特別な廃棄要件をもつ連邦EPA資源保全再生法(RCRA)の危険廃棄物の特性を示している場合があります。州と地方の規則については、連邦の廃棄方法の規則と異なる場合があるので、ご確認ください。米国外の機関では、その国の危険廃棄物処理方法の要件をご確認ください。

Supersedes Date: July, 2016

Xpert Urine Collection Kit
Xpert CT/NG Urine Specimen Collection Kit

Section 1: Identification of the Substance/Mixture and of the Company/Undertaking

1.1 Product Identifier

Product Name	**Xpert Urine Specimen Collection Kit, Xpert CT/NG Urine Specimen Collection Kit**
Product Code	CT/NGURINE-50; URINE/A-50

1.2 Relevant Identified Uses of the Substance or Mixture and Uses Advised Against

Relevant Identified Use(s)	Laboratory use

1.3 Details of the Supplier of the Safety Data Sheet

Manufacturer	Cepheid 904 Caribbean Drive Sunnyvale, CA 94089 United States www.cepheid.com US: techsupport@cepheid.com
Telephone (General)	1 (888) 838-3222 - US Option 2
Telephone (General)	1 (408) 541-4191 - Outside of the US
Supplier	Cepheid AB Röntgenvägen 5 SE-171 54 Solna Sweden www.cepheidinternational.com EU: support@cepheideurope.com
Telephone (General)	+33 563 825 319

1.4 Emergency Telephone Number

Manufacturer	+ 1 (800) 535-5053 - INFOTRAC - 24 hr Emergency
Manufacturer	+ 1 (352) 323-3500- Outside of the US

Section 2: Hazards Identification

EU/EEC

According to: Regulation (EC) No 1272/2008 (CLP)/REACH 1907/2006 [amended by 453/2010]

2.1 Classification of the Substance or Mixture

CLP	The following SDS is for the final finished product only as used in the laboratory. It contains liquid components, some of which are in freeze-dried powders and reagents which are contained in the cartridge and in a Nalgene bottle. All reagents are clear, colorless liquids. Exemptions for disclosing some component information are pursuant to CLP Article 1(5)(d) and 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2). Eye Irritation 2 - H319

2.2 Label Elements

CLP

WARNING

Hazard Statements H319 - Causes serious eye irritation

Precautionary Statements

Prevention P264 - Wash thoroughly after handling.
P280 - Wear protective gloves/protective clothing/eye protection/face protection.

Response P305+P351+P338 - IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 - If eye irritation persists: Get medical advice/attention.

2.3 Other Hazards

CLP According to Regulation (EC) No. 1272/2008 (CLP) this material is considered hazardous.

UN GHS Revision 3

According to: UN Globally Harmonized System of Classification and Labelling of Chemicals (GHS): Third Revised Edition

2.1 Classification of the Substance or Mixture

UN GHS

Acute Toxicity Oral 5
Eye Irritation 2
Hazardous to the aquatic environment Acute 1
Hazardous to the aquatic environment Chronic 1

2.2 Label Elements

UN GHS

WARNING

Hazard Statements

May be harmful if swallowed
Causes serious eye irritation
Very toxic to aquatic life
Very toxic to aquatic life with long lasting effects

Precautionary Statements

Prevention

Wash thoroughly after handling.
Avoid release to the environment.
Wear protective gloves/protective clothing/eye protection/face protection.

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.
Call a POISON CENTER or doctor/physician if you feel unwell.
Collect spillage.

Storage/Disposal Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

2.3 Other Hazards

UN GHS According to the Globally Harmonized System for Classification and Labeling (GHS) this product is considered hazardous.

United States (US)
According to: OSHA 29 CFR 1910.1200 HCS

2.1 Classification of the Substance or Mixture

OSHA HCS 2012 Eye Irritation 2

2.2 Label Elements

OSHA HCS 2012

WARNING

Hazard Statements Causes serious eye irritation

Precautionary Statements

Prevention Wash thoroughly after handling.
Wear protective gloves/protective clothing/eye protection/face protection.

Response IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
If eye irritation persists: Get medical advice/attention.

2.3 Other Hazards

OSHA HCS 2012 Under United States Regulations (29 CFR 1910.1200 - Hazard Communication Standard), this product is considered hazardous.

Canada
According to: WHMIS

2.1 Classification of the Substance or Mixture

WHMIS Other Toxic Effects - D2B

2.2 Label Elements

WHMIS

Other Toxic Effects - D2B

2.3 Other Hazards

WHMIS In Canada, the product mentioned above is considered hazardous under the Workplace Hazardous Materials Information System (WHMIS).

2.4 Other Information

All other reagents, beads, and other constituents are at concentrations less than 1% in the mixture or not considered hazardous under US hazard communication regulations (29 CFR 1910.1200), EU directives for classification and labeling of substances or mixtures or the Global Harmonization System for classification and labeling of substances or mixtures.

Section 3: Composition/Information on Ingredients

3.1 Substances

Material does not meet the criteria of a substance.

3.2 Mixtures

Composition					
Chemical Name	**Identifiers**	**%**	**LD50/LC50**	**Classifications According to Regulation/Directive**	**Comments**
Ammonium chloride	**CAS:** 12125-02-9 **EC Number:** 235-186-4 **EU Index:** 017-014-00-8	20% TO 30%	Ingestion/Oral-Rat LD50 • 1650 mg/kg	**EU CLP:** Annex VI, Table 3.1: Acute Tox. 4 *, H302; Eye Irrit. 2, H319 **UN GHS Revision 3:** Acute Tox. 4 (orl); Eye Irrit. 2; Aquatic Acute 1; Aquatic Chronic 1 **OSHA HCS 2012:** Acute Tox. 4 (orl); Eye Irrit. 2	NDA
Potassium carbonate	**CAS:**584-08-7 **EC Number:** 209-529-3	1% TO 5%	Ingestion/Oral-Rat LD50 • 1870 mg/kg	**EU CLP:** Acute Tox. 4, H302 **UN GHS Revision 3:** Acute Tox. 4 (orl); Eye Irrit. 2B **OSHA HCS 2012:** Acute Tox. 4 (orl); Eye Irrit. 2B	NDA

See Section 16 for full text of H-statements.

Section 4: First Aid Measures

4.1 Description of First Aid Measures

Inhalation First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. Move victim to fresh air. Administer oxygen if breathing is difficult. Do not use mouth-to-mouth method if victim inhaled the substance; give artificial respiration with the aid of a pocket mask equipped with a one-way valve or other proper respiratory medical device. Give artificial respiration if victim is not breathing.

Skin First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. For minor skin contact, avoid spreading material on unaffected skin. In case of contact with substance, immediately flush skin with running water for at least 20 minutes. Remove and isolate contaminated clothing.

Eye First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. In case of contact with substance, immediately flush eyes with running water for at least 20 minutes. If eye irritation persists: Get medical advice/attention.

Ingestion First aid is not expected to be necessary if material is used under ordinary conditions and as recommended. If swallowed, rinse mouth with water (only if the person is conscious) Do NOT induce vomiting. Do not use mouth-to-mouth method if victim ingested the substance. Obtain medical attention immediately if ingested.

4.2 Most Important Symptoms and Effects, Both Acute and Delayed

Refer to Section 11 - Toxicological Information.

4.3 Indication of Any Immediate Medical Attention and Special Treatment Needed

Notes to Physician	All treatments should be based on observed signs and symptoms of distress in the patient. Consideration should be given to the possibility that overexposure to materials other than this product may have occurred.

Section 5: Firefighting Measures

5.1 Extinguishing Media

Suitable Extinguishing Media	LARGE FIRES: Dry chemical, CO2, alcohol-resistant foam or water spray. SMALL FIRES: Dry chemical, CO2 or water spray.
Unsuitable Extinguishing Media	No data available

5.2 Special Hazards Arising from the Substance or Mixture

Unusual Fire and Explosion Hazards	May emit toxic vapors of carbon oxides, nitrogen oxides.
Hazardous Combustion Products	No data available

5.3 Advice for Firefighters

Structural firefighters' protective clothing provides limited protection in fire situations ONLY; it is not effective in spill situations where direct contact with the substance is possible.
Wear chemical protective clothing that is specifically recommended by the manufacturer. It may provide little or no thermal protection.
Wear positive pressure self-contained breathing apparatus (SCBA).
SMALL FIRES: Move containers from fire area if you can do it without risk.

Section 6: Accidental Release Measures

6.1 Personal Precautions, Protective Equipment and Emergency Procedures

Personal Precautions	In the event a cartridge is broken these personal precautions are applicable. Wear appropriate protective clothing. Do not walk through spilled material. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate enclosed areas.
Emergency Procedures	No emergency procedures are expected to be necessary if material is used under ordinary conditions as recommended.

6.2 Environmental Precautions

Prevent entry into waterways, sewers, basements or confined areas.

6.3 Methods and Material for Containment and Cleaning Up

Containment/ Clean-up Measures	For small spills, wear gloves and absorb spill with paper towel. Do not dispose spilled materials down drain.

6.4 Reference to Other Sections

Refer to Section 8 - Exposure Controls/Personal Protection and Section 13 - Disposal Considerations.

Section 7: Handling and Storage

7.1 Precautions for Safe Handling

Handling — No special handling necessary. If cartridge is broken avoid contact with spilled reagents. Avoid contact with skin and eyes.

7.2 Conditions for Safe Storage, Including Any Incompatibilities

Storage — Store according to product labeling. Keep container/package tightly closed in a cool, well-ventilated place. Keep away from incompatible materials.

7.3 Specific End Use(s)

Refer to Section 1.2 - Relevant identified uses.

Section 8: Exposure Controls/Personal Protection

8.1 Control Parameters

Exposure Limits/Guidelines				
	Result	**ACGIH**	**NIOSH**	**OSHA**
Ammonium chloride (12125-02-9)	STELs	20 mg/m3 STEL (fume)	20 mg/m3 STEL (fume)	Ammonium chloride (12125-02-9)
	TWAs	10 mg/m3 TWA (fume)	10 mg/m3 TWA (fume)	Not established

8.2 Exposure Controls

Engineering Measures/Controls — Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

Personal Protective Equipment

Respiratory — Follow the OSHA respirator regulations found in 29 CFR 1910.134 or European Standard EN 149. Use a NIOSH/MSHA or European Standard EN 149 approved respirator if exposure limits are exceeded or symptoms are experienced.

Eye/Face — Wear chemical splash safety goggles.

Skin/Body — In laboratory setting, wear gloves and lab coat at a minimum to minimize skin contact.

Environmental Exposure Controls — Follow best practice for site management and disposal of waste.

Key to abbreviations

ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
OSHA = Occupational Safety and Health Administration
STEL = Short Term Exposure Limits are based on 15-minute exposures
TWA = Time-Weighted Averages are based on 8h/day, 40h/week exposures

Section 9: Physical and Chemical Properties

9.1 Information on Physical and Chemical Properties

Material Description			
Physical Form	Liquid	Appearance/Description	Reagents are clear, colorless liquids with no odor which are primarily buffered in aqueous solutions.
Color	Clear	Odor	Odorless
Odor Threshold	Data lacking		
General Properties			
Boiling Point	100 °C(212 °F)	Melting Point/Freezing Point	0 °C(32 °F)
Decomposition Temperature	Data lacking	pH	8 to 8.3 (solids and other liquid reagents)
Specific Gravity/Relative Density	Data lacking	Water Solubility	Data lacking
Viscosity	Data lacking	Explosive Properties	Data lacking
Oxidizing Properties:	Data lacking		
Volatility			
Vapor Pressure	Data lacking	Vapor Density	Data lacking
Evaporation Rate	Data lacking		
Flammability			
Flash Point	Data lacking	UEL	Data lacking
LEL	Data lacking	Autoignition	Data lacking
Flammability (solid, gas)	Data lacking		
Environmental			
Octanol/Water Partition Coefficient	Data lacking		

9.2 Other Information

No additional physical and chemical parameters noted.

Section 10: Stability and Reactivity

10.1 Reactivity

No dangerous reaction known under conditions of normal use.

10.2 Chemical Stability

Stable

10.3 Possibility of Hazardous Reactions

Hazardous polymerization will not occur.

10.4 Conditions to Avoid

Heat, moisture (affecting product quality)

10.5 Incompatible Materials

Acids, oxidizing agents.

10.6 Hazardous Decomposition Products

Carbon oxides, potassium oxides.

Section 11: Toxicological Information

11.1 Information on Toxicological Effects

Components		
Ammonium chloride (20% TO 30%)	12125-02-9	**Acute Toxicity:** Ingestion/Oral-Rat LD50 • 1650 mg/kg; **Irritation:** Eye-Rabbit • 100 mg • Severe irritation
Potassium carbonate (1% TO 5%)	584-08-7	**Acute Toxicity:** Ingestion/Oral-Rat LD50 • 1870 mg/kg; **Multi-dose Toxicity:** Inhalation-Rat TCLo • 43 mg/m³ 17 Week(s); *Cardiac*:**EKG changes not diagnostic of above**; *Kidney, Ureter, and Bladder*:**Other changes in urine composition**; *Nutritional and Gross Metabolic:Changes in Chemistry or Temperature*: **K**; **Mutagen:** Unscheduled DNA synthesis • Ingestion/Oral-Rat • 504 g/kg 4 Week(s)-Continuous

Material data lacking.

12.5 Results of PBT and vPvB Assessment

No PBT and vPvB assessment has been conducted.

12.6 Other Adverse Effects

No studies have been found.

Section 13: Disposal Considerations

13.1 Waste Treatment Methods

Product Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

Packaging Waste Dispose of content and/or container in accordance with local, regional, national, and/or international regulations.

13.2 Other Information

Biological specimens, including used cartridges, should be treated as capable of transmitting infectious agents. Consult your institution's environmental waste personnel on proper disposal of used cartridges and unused reagents. This material may exhibit characteristics of federal EPA Resource Conservation and Recovery Act (RCRA) hazardous waste requiring specific disposal requirements. Check state and local regulations as they may differ from federal disposal regulations. Institutions outside the USA should check their country hazardous waste disposal requirements.

Section 2 : Identification des risques

EU/EEC

Selon : Règlement (CE) N° 1272/2008 (CLP)/REACH 1907/2006 [modifié par le 453/2010]

2.1 Classification de la substance ou mélange

CLP La fiche de données de sécurité (FDS) suivante concerne uniquement le produit fini final, tel qu'utilisé au laboratoire. Il contient des composants liquides dont certains sont des poudres lyophilisées et des réactifs qui sont contenus dans la cartouche et dans un flacon en Nalgène. Tous les réactifs sont des liquides incolores et limpides. Les exemptions à la divulgation des informations concernant certains composants sont conformes aux réglementations CLP Article 1(5)(d) et 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Irritation oculaire 2 - H319

2.2 Éléments de l'étiquette

CLP

ATTENTION

Mentions de danger	H319 - Provoque une irritation oculaire grave
Mises en garde	
Prévention	P264 - Se laver soigneusement après manipulation. P280 - Porter des gants de protection/des vêtements de protection/un équipement de protection des yeux/du visage.
Réponse	P305+P351+P338 - EN CAS DE CONTACT AVEC LES YEUX : rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et que cela est facile à faire. Continuer à rincer. P337+P313 - Si l'irritation oculaire persiste : consulter un médecin.

2.3 Autres dangers

CLP	Selon le règlement (CE) N° 1272/2008 (CLP), ce produit est considéré dangereux.

SGH ONU Révision 3

Selon : ONU - Système général harmonisé de classification et d'étiquetage des produits chimiques (SGH) : Troisième édition révisée

2.1 Classification de la substance ou mélange

SGH ONU	Toxicité aiguë par voie orale 5 Irritation oculaire 2 Dangereux pour le milieu aquatique - Toxicité aiguë 1 Dangereux pour le milieu aquatique - Toxicité chronique 1

2.2 Éléments de l'étiquette

SGH ONU

ATTENTION

Mentions de danger	Nocif en cas d'ingestion Provoque une irritation oculaire grave Très toxique pour la vie aquatique Très toxique pour la vie aquatique avec des effets durables
Mises en garde	
Prévention	Se laver soigneusement après manipulation. Éviter le rejet dans l'environnement. Porter des gants de protection/des vêtements de protection/une protection oculaire/une protection faciale.

Réponse	EN CAS DE CONTACT AVEC LES YEUX : rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et que cela est facile à faire. Continuer à rincer. Si l'irritation oculaire persiste : consulter un médecin. Appeler un CENTRE ANTIPOISON ou un médecin en cas de malaise. Recueillir le déversement.
Stockage/Mise au rebut	Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

2.3 Autres dangers

SGH ONU	Selon le Système général harmonisé de classification et d'étiquetage (SGH), ce produit est considéré dangereux.

États-Unis (É.-U.)
Selon : OSHA 29 CFR 1910.1200 HCS

2.1 Classification de la substance ou mélange

OSHA HCS 2012	Irritation oculaire 2

2.2 Éléments de l'étiquette

OSHA HCS 2012

ATTENTION

Mentions de danger	Provoque une irritation oculaire grave
Mises en garde	
Prévention	Se laver soigneusement après manipulation. Porter des gants de protection/des vêtements de protection/une protection oculaire/une protection faciale.
Réponse	EN CAS DE CONTACT AVEC LES YEUX : rincer avec précaution à l'eau pendant plusieurs minutes. Enlever les lentilles de contact si la victime en porte et que cela est facile à faire. Continuer à rincer. Si l'irritation oculaire persiste : consulter un médecin.

2.3 Autres dangers

OSHA HCS 2012	En vertu des réglementations des États-Unis (29 CFR 1910.1200 - Norme de communication des dangers), ce produit est considéré dangereux.

Canada
Selon : WHMIS

2.1 Classification de la substance ou mélange

WHMIS	Autres effets toxiques - D2B

2.2 Éléments de l'étiquette

WHMIS

Autres effets toxiques - D2B

2.3 Autres dangers

WHMIS

Au Canada, le produit mentionné ci-dessus est considéré dangereux selon le Système d'information sur les matières dangereuses utilisées au travail (SIMDUT).

2.4 Autres informations

Tous les autres réactifs, les billes et autres constituants sont à des concentrations inférieures à 1 % dans le mélange ou ne sont pas considérés dangereux selon la réglementation américaine sur la communication des dangers (29 CFR 1910.1200), selon les directives de l'UE concernant la classification et l'étiquetage des substances et des mélanges, ou selon le système international d'harmonisation pour la classification et l'étiquetage des substances ou des mélanges.

Section 3 : Composition/informations sur les ingrédients

3.1 Substances

La matière ne répond pas aux critères d'une substance.

3.2 Mélanges

Composition					
Nom chimique	**Identifiants**	**%**	**LD50/LC50**	**Classifications selon réglementation/directive**	**Commentaires**
Chlorure d'ammonium	**CAS :** 12125-02-9 **Numéro CE :** 235-186-4 **Index UE :** 017-014-00-8	20 % À 30 %	Ingestion/voie orale-Rat LD50 • 1650 mg/kg	**EU CLP :** Annexe VI, tableau 3.1 : Tox. aiguë 4 *, H302 ; irrit. yeux 2, H319 **SGH ONU Revision 3 :** Tox. aiguë 4 (orl) ; Irrit. yeux 2 ; Aquatique Aigu 1 ; Aquatique Chronique 1 **OSHA HCS 2012 :** Tox. aiguë 4 (orl) ; Irrit. yeux 2	ADD
Carbonate de potassium	**CAS :** 584-08-7 **Numéro CE :** 209-529-3	1 % À 5 %	Ingestion/voie orale-Rat LD50 • 1870 mg/kg	**EU CLP :** Tox. aiguë 4, H302 **SGH ONU Révision 3 :** Tox. aiguë 4 (orl) ; Irrit. yeux 2B **OSHA HCS 2012 :** Tox. aiguë 4 (orl) ; Irrit. yeux 2B	ADD

Voir la section 16 pour le texte complet des déclarations H.

Section 4 : Mesures de premier secours

4.1 Description des premiers soins

Inhalation

Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. Déplacer la victime à l'air frais. Administrer de l'oxygène si la respiration est difficile. Ne pas faire de bouche-à-bouche si la victime a inhalé la substance ; pratiquer la respiration artificielle à l'aide d'un masque de poche doté d'une valve unidirectionnelle ou d'un autre dispositif médical respiratoire approprié. Pratiquer la respiration artificielle si la victime ne respire pas.

Peau	Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact cutané mineur, éviter de répandre la matière sur la peau non affectée. En cas de contact avec la substance, rincer immédiatement la peau à l'eau courante pendant au moins 20 minutes. Retirer et isoler les vêtements contaminés.
Yeux	Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas de contact avec la substance, rincer immédiatement les yeux à l'eau courante pendant au moins 20 minutes. Si l'irritation oculaire persiste : consulter un médecin.
Ingestion	Les premiers secours ne devraient pas s'avérer nécessaires si le produit est utilisé dans des conditions normales et selon les recommandations. En cas d'ingestion, rincer la bouche avec de l'eau (seulement si la victime est consciente). NE PAS faire vomir. Ne pas faire de bouche-à-bouche si la victime a ingéré la substance. Consulter immédiatement un médecin en cas d'ingestion.

4.2 Symptômes et effets les plus importants, aigus et différés

Voir la section 11 - Information toxicologique.

4.3 Indication des éventuels soins médicaux immédiats et traitements particuliers nécessaires

Notes pour le médecin	Tous les traitements doivent être basés sur les signes et symptômes de détresse observés chez le patient. Il faut envisager la possibilité d'une surexposition à d'autres matières que ce produit.

Section 5 : Mesures de lutte contre l'incendie

5.1 Agents extincteurs

Agent extincteur convenable	INCENDIES MAJEURS : poudre sèche, CO2, mousse antialcool ou eau pulvérisée. INCENDIES MINEURS : poudre sèche, CO2, ou eau pulvérisée.
Agent extincteur inapproprié	Aucune donnée disponible

5.2 Dangers particuliers résultant de la substance ou du mélange

Dangers inhabituels d'incendie et d'explosion	Peut émettre des vapeurs toxiques d'oxydes de carbone, et d'oxydes d'azote.
Produits de combustion dangereux	Aucune donnée disponible

5.3 Conseils aux pompiers

Les vêtements structurels de protection des pompiers fournissent une protection limitée UNIQUEMENT en cas d'incendie ; ils ne sont pas efficaces dans les cas de déversement où le contact direct avec la substance est possible.
Porter des vêtements de protection chimique spécifiquement recommandés par le fabricant. Ceux-ci peuvent fournir peu ou pas de protection thermique.
Porter un appareil respiratoire autonome à pression positive (ARA).
INCENDIES MINEURS : enlever les conteneurs de la zone d'incendie si vous pouvez le faire sans risque.

Section 6 : Mesures en cas de fuite accidentelle

6.1 Précautions individuelles, équipement de protection et mesures d'urgence

Précautions individuelles	Dans le cas où une cartouche est percée, ces précautions individuelles s'appliquent. Porter les vêtements de protection appropriés. Ne pas marcher à travers la matière déversée. Ne pas toucher les conteneurs endommagés ou la matière déversée sauf en cas de port de vêtements de protection appropriés. Ventiler les espaces clos.
Mesures d'urgence	Aucune procédure d'urgence ne devrait s'avérer nécessaire si le produit est utilisé dans des conditions normales et selon les recommandations.

6.2 Précautions environnementales

Prévenir la pénétration dans les cours d'eau, les égouts, les sous-sols ou les endroits confinés.

6.3 Méthodes et matériaux de confinement et de nettoyage

Mesures de confinement/de nettoyage	Pour les petits déversements, porter des gants et absorber la matière déversée avec une serviette en papier. Ne pas jeter la matière déversée dans les égouts.

6.4 Référence à d'autres sections

Voir la section 8 - Contrôles de l'exposition/protection individuelle, ainsi que la section 13 - Considérations de mise au rebut.

Section 7 : Manutention et stockage

7.1 Précautions pour une manutention sans danger

Manutention	Aucune manipulation spéciale n'est nécessaire. Si une cartouche est percée, éviter tout contact avec les réactifs déversés. Éviter tout contact avec la peau et les yeux.

7.2 Conditions de sécurité du stockage, y compris toutes incompatibilités

Stockage	Stocker conformément à l'étiquetage des produits. Conserver le conteneur/emballage hermétiquement fermé dans un endroit frais et bien aéré. Tenir à l'écart des matières incompatibles.

7.3 Utilisation(s) finale(s) spécifique(s)

Voir la section 1.2 - Utilisations pertinentes identifiées.

Section 8 : Contrôles de l'exposition/protection individuelle

8.1 Paramètres de contrôle

Limites d'exposition/Lignes directrices			
	Résultat	**ACGIH**	**NIOSH**
Chlorure d'ammonium (12125-02-9)	STELs	20 mg/m3 STEL (fumée)	20 mg/m3 STEL (fumée)
	TWA	10 mg/m3 TWA (fumée)	10 mg/m3 TWA (fumée)

8.2 Contrôles d'exposition

Mesures/contrôles techniques
Une bonne ventilation générale doit être utilisée. Les débits de ventilation doivent être adaptés aux conditions. Le cas échéant, utiliser des enceintes d'isolement, une ventilation aspirante locale ou d'autres moyens techniques pour maintenir les concentrations atmosphériques en dessous des limites d'exposition recommandées. Si les limites d'exposition n'ont pas été établies, maintenir les concentrations atmosphériques à un niveau acceptable.

Équipement de protection individuelle

Respiratoire
Suivre les réglementations de l'OSHA relatives aux appareils respiratoires définies dans 29 CFR 1910.134 ou la norme européenne EN 149. Utiliser un appareil respiratoire approuvé par le NIOSH/MSHA ou la norme européenne EN 149 si les limites d'exposition sont dépassées ou des symptômes apparaissent.

Yeux/visage
Porter des lunettes anti-éclaboussures contre les produits chimiques.

Peau/corps
En environnement de laboratoire, porter au minimum des gants et une blouse de laboratoire afin de minimiser le contact avec la peau.

Contrôle d'exposition lié à la protection de l'environnement
Suivre les bonnes pratiques pour la gestion de site et l'élimination des déchets.

Clef aux abréviations
ACGIH = Conférence américaine des hygiénistes industriels gouvernementaux
NIOSH = Institut national pour la sécurité et la santé au travail
OSHA = Administration de la sécurité et de la santé au travail
STEL = Les limites d'exposition à court terme sont basées sur des expositions de 15 minutes
TWA = Les moyennes pondérées dans le temps sont basées sur des expositions de 8 h/jour, 40 h/semaine

Section 9 : Propriétés physiques et chimiques

9.1 Informations sur les propriétés physiques et chimiques

Description de la matière			
Forme physique	Liquide	Apparence/Description	Les réactifs sont des liquides incolores et limpides, sans odeur, qui sont principalement tamponnés dans des solutions aqueuses.
Couleur	Limpide	Odeur	Inodore
Seuil d'odeur	Manque de données		
Propriétés générales			
Point d'ébullition	100 °C (212 °F)	Point de fusion/Point de congélation	0 °C (32 °F)
Température de décomposition	Manque de données	pH	8 à 8,3 (solides et autres réactifs liquides)
Densité spécifique/relative	Manque de données	Solubilité dans l'eau	Manque de données
Viscosité	Manque de données	Propriétés explosives	Manque de données
Propriétés comburantes :	Manque de données		
Volatilité			
Pression de vapeur	Manque de données	Densité de vapeur	Manque de données
Taux d'évaporation	Manque de données		
Inflammabilité			
Point d'éclair	Manque de données	LSE	Manque de données
LIE	Manque de données	Auto-inflammation	Manque de données
Inflammabilité (solide, gaz)	Manque de données		
Environnemental(e)			
Coefficient de partage octanol/eau	Manque de données		

9.2 Autres informations

Aucun paramètre physique ou chimique supplémentaire noté.

Section 10 : Stabilité et réactivité

10.1 Réactivité

Pas de réactions dangereuses connues dans des conditions normales d'utilisation.

10.2 Stabilité chimique

Stable

10.3 Possibilité de réactions dangereuses

Il ne se produira pas de polymérisation dangereuse.

10.4 Situations à éviter

Chaleur, humidité (affectant la qualité du produit)

10.5 Substances incompatibles

Acides, agents oxydants.

10.6 Produits de décomposition dangereux

Oxydes de carbone, oxydes de potassium.

Section 11 : Information toxicologique

11.1 Informations sur les effets toxiques

Composants		
Chlorure d'ammonium (20 % À 30 %)	12125-02-9	**Toxicité aiguë :** Ingestion/Oral-Rat LD50 • 1650 mg/kg ; **Irritation :** Œil-Lapin • 100 mg • Irritation sévère
Carbonate de potassium (1 % À 5 %)	584-08-7	**Toxicité aiguë :** Ingestion/Oral-Rat LD50 • 1870 mg/kg ; **Toxicité chronique :** Inhalation-Rat TCLo • 43 mg/m³ 17 semaine(s) ; *Cardiaque* : **Altérations de l'ECG ne constituant pas un diagnostic de ce qui précède** ; *Rein, uretère et vessie* : **Autres changements dans la composition de l'urine** ; *Nutrition et métabolisme : Changements chimiques ou de température* : **K** ; **Mutagène :** Synthèse DNA non programmée • Ingestion/voie orale-Rat • 504 g/kg 4 semaine(s)-Continu

Propriétés SGH	Classification
Toxicité aiguë	**EU/CLP**•Manque de données **SGH ONU 3**•Toxicité aiguë - voie orale 5 - ETAmix (voie orale) = 4795 mg/kg **OSHA HCS 2012**•Manque de données
Corrosion/irritation cutanée	**EU/CLP**•Manque de données **SGH ONU 3**•Manque de données **OSHA HCS 2012**•Manque de données

Effets éventuels sur la santé

Inhalation

Aigu (immédiat)	Aucune donnée disponible
Chronique (différé)	Aucune donnée disponible
Peau	
Aigu (immédiat)	Aucune donnée disponible
Chronique (différé)	Aucune donnée disponible
Yeux	
Aigu (immédiat)	Provoque une irritation oculaire grave.
Chronique (différé)	Aucune donnée disponible
Ingestion	
Aigu (immédiat)	Peut être nocif en cas d'ingestion.
Chronique (différé)	Aucune donnée disponible

Clef aux abréviations
LD = Dose léthale
TC = Concentration toxique

Section 12 : Information écologique

12.1 Toxicité

	CAS	
Kit de prélèvement d'échantillon d'urine Xpert, Kit de prélèvement d'échantillon d'urine Xpert CT/NG	ADD	**Toxicité aquatique-Poisson :** 4 jour(s) LC50 *Capucette* 0,14 mg/L Commentaires : Chlorure d'ammonium (12125-02-9) 30 jour(s) NOEC *Barbue de rivière* 0,006 mg/L Commentaires : Chlorure d'ammonium (12125-02-9) **Toxicité aquatique-Crustacés :** 2 jour(s) EC50 *Ostracode* 0,075-0,126 mg/L Commentaires : Chlorure d'ammonium (12125-02-9) 21 jour(s) NOEC *Puce d'eau* 0,05 mg/L Commentaires : Chlorure d'ammonium (12125-02-9) **Toxicité aquatique-algues et autres plantes aquatiques :** 3 jour(s) EC50 *Algue Hormosira banksii* 0,04-0,1 mg/L Commentaires : Chlorure d'ammonium (12125-02-9)

Toxique pour la vie aquatique. Toxique pour la vie aquatique avec des effets durables.

12.2 Persistance et dégradabilité

Manque de données matérielles.

12.3 Potentiel bioaccumulatif

Manque de données matérielles.

12.4 Mobilité dans le sol

Manque de données matérielles.

12.5 Résultats des évaluations PBT et vPvB

Aucune évaluation PBT ou vPvB n'a été réalisée.

12.6 Autres effets nocifs

Aucune étude n'a été trouvée.

Section 13 : Considérations de mise au rebut

13.1 Méthodes de traitement des déchets

Déchets du produit Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

Conditionnement des déchets Éliminer le contenu et/ou le conteneur conformément aux réglementations locales, régionales, nationales, et/ou internationales.

13.2 Autres informations

Les échantillons biologiques, y compris les cartouches utilisées, doivent être traités comme s'ils étaient susceptibles de transmettre des agents infectieux. Consulter le personnel chargé des déchets environnementaux auprès de l'établissement pour les consignes concernant l'élimination correcte des cartouches usagées et des réactifs inutilisés. Ce produit peut présenter les caractéristiques des déchets dangereux couverts par la loi fédérale américaine de l'EPA sur la conservation et la remise en état des ressources (Resource Conservation and Recovery Act, RCRA) contenant des exigences d'élimination spécifiques. Consulter les réglementations locales et régionales car elles peuvent différer des réglementations nationales. Les établissements en dehors des États-Unis doivent vérifier les exigences de leur pays en matière d'élimination des déchets dangereux.

Ersetzt (Datum): Juli 2016

Xpert Urine Specimen Collection Kit
Xpert CT/NG Urine Specimen Collection Kit

Abschnitt 1: Bezeichnung des Stoffs beziehungsweise des Gemischs und des Unternehmens

1.1 Produktidentifikator

Produktname	**Xpert Urine Specimen Collection Kit, Xpert CT/NG Urine Specimen Collection Kit**
Produktcode	CT/NGURINE-50; URINE/A-50

1.2 Relevante identifizierte Verwendungen der Substanz oder Mischung und Verwendungen, von denen abgeraten wird

Relevante identifizierte Verwendung(en)	Laborgebrauch

1.3 Einzelheiten zum Lieferanten, der das Sicherheitsdatenblatt bereitstellt

Hersteller		Cepheid 904 Caribbean Drive Sunnyvale, CA 94089 Vereinigte Staaten www.cepheid.com USA: techsupport@cepheid.com
	Telefon (Zentrale)	1 (888) 838-3222 - USA, Option 2
	Telefon (Zentrale)	1 (408) 541-4191 - außerhalb der USA
Lieferant		Cepheid AB Röntgenvägen 5 SE-171 54 Solna Schweden www.cepheidinternational.com EU: support@cepheideurope.com
	Telefon (Zentrale)	+33 563 825 319

1.4 Notrufnummer

Hersteller	+ 1 (800) 535-5053 - INFOTRAC - 24-Stunden-Notruf
Hersteller	+ 1 (352) 323-3500- außerhalb der USA

Abschnitt 2: Mögliche Gefahren

EU/EWG
Nach: Verordnung (EG) Nr. 1272/2008 (CLP)/REACH 1907/2006 [geändert durch 453/2010]

2.1 Einstufung des Stoffs oder Gemischs

CLP	Das folgende SDB gilt für das Fertigprodukt nur, wenn es im Labor benutzt wird. Es enthält flüssige Komponenten, von denen einige als gefriergetrocknetes Pulver und in Form von Reagenzien vorliegen, die in der Kartusche und in einer Nalgenflasche vorhanden sind. Alle Reagenzien sind klare, farblose Flüssigkeiten. Ausnahmen für die Offenlegung einiger Komponentendaten gelten gemäß CLP Artikel 1(5)(d) und 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2). Augenreizung 2 - H319

2.2 Kennzeichnungselemente

CLP

WARNHINWEIS

Gefahrenhinweise H319 - Verursacht schwere Augenreizung

Sicherheitshinweise

Vorbeugung P264 - Nach Gebrauch gründlich waschen.
P280 - Schutzhandschuhe/Schutzkleidung/Augenschutz/Gesichtsschutz tragen.

Reaktion P305+P351+P338 - BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen.
P337+P313 - Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

2.3 Sonstige Gefahren

CLP Nach Verordnung (EG) Nr. 1272/2008 (CLP) gilt dieses Material als gefährlich.

UN GHS Revision 3

Nach: Global harmonisiertes System der Einstufung und Kennzeichnung von Chemikalien (GHS) der UN: Dritte überarbeitete Auflage

2.1 Einstufung des Stoffs oder Gemischs

UN GHS Akute Toxizität, oral 5
Augenreizung 2
Gefährlich für Wasserorganismen Akut 1
Gefährlich für Wasserorganismen Chronisch 1

2.2 Kennzeichnungselemente

UN GHS

WARNHINWEIS

Gefahrenhinweise Möglicherweise gesundheitsschädlich bei Verschlucken
Verursacht schwere Augenreizung
Sehr giftig für Wasserorganismen
Sehr giftig für Wasserorganismen mit langfristiger Wirkung

Sicherheitshinweise

Vorbeugung Nach Gebrauch gründlich waschen.
Freisetzung in die Umwelt vermeiden.
Schutzhandschuhe/Schutzkleidung/Augenschutz/Gesichtsschutz tragen.

Reaktion	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen. Bei Unwohlsein GIFTINFORMATIONSZENTRUM oder Arzt anrufen. Verschüttete Mengen aufnehmen.
Lagerung/Entsorgung	Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

2.3 Sonstige Gefahren

UN GHS	Nach dem global harmonisierten System zur Einstufung und Kennzeichnung (GHS) gilt dieses Produkt als gefährlich.

Vereinigte Staaten (VS)
Nach: OSHA 29 CFR 1910.1200 HCS

2.1 Einstufung des Stoffs oder Gemischs

OSHA HCS 2012	Augenreizung 2

2.2 Kennzeichnungselemente

OSHA HCS 2012

WARNHINWEIS

Gefahrenhinweise	Verursacht schwere Augenreizung
Sicherheitshinweise	
Vorbeugung	Nach Gebrauch gründlich waschen. Schutzhandschuhe/Schutzkleidung/Augenschutz/Gesichtsschutz tragen.
Reaktion	BEI KONTAKT MIT DEN AUGEN: Einige Minuten lang behutsam mit Wasser spülen. Vorhandene Kontaktlinsen nach Möglichkeit entfernen. Weiter spülen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.

2.3 Sonstige Gefahren

OSHA HCS 2012	Nach den Vorschriften der USA (29 CFR 1910.1200 - Norm für Gefahrenkommunikation) gilt dieses Produkt als gefährlich.

Kanada
Nach: WHMIS

2.1 Einstufung des Stoffs oder Gemischs

WHMIS	Sonstige Giftwirkungen - D2B

2.2 Kennzeichnungselemente

WHMIS

Sonstige Giftwirkungen - D2B

2.3 Sonstige Gefahren

WHMIS In Kanada ist das oben genannte Produkt nach dem Workplace Hazardous Materials Information System (WHMIS) als gefährlich eingestuft.

2.4 Sonstige Angaben

Alle anderen Reagenzien, Körner und andere Bestandteile sind in Konzentrationen unter 1 % im Gemisch vorhanden oder gelten nicht als gefährlich gemäß den US-Richtlinien für die Gefahrenkommunikation (29 CFR 1910.1200), den EU-Richtlinien für die Einstufung und Etikettierung von Substanzen oder Gemischen oder dem globalen Harmonisierungssystem für die Einstufung und Etikettierung von Substanzen oder Gemischen.

Abschnitt 3: Zusammensetzung/Angaben zu den Bestandteilen

3.1 Stoffe

Material erfüllt nicht die Kriterien einer Substanz.

3.2 Gemische

Zusammensetzung					
Chemische Bezeichnung	**Kennzeichnung**	**%**	**LD50/LC50**	**Klassifizierungen nach der Verordnung/Richtlinie**	**Bemerkungen**
Ammoniumchlorid	**CAS:** 12125-02-9 **EG-Nummer:** 235-186-4 **EU-Index:** 017-014-00-8	20 % BIS 30 %	Verschlucken/oral-Ratte LD50 • 1650 mg/kg	**EU CLP:** Anhang VI, Tabelle 3.1: Akute Tox. 4 *, H302; Augenreizung 2, H319 **UN GHS Revision 3:** Akute Tox. 4 (Verschlucken); Augenreizung 2; Aquatisch Akut 1; Aquatisch Chronisch 1 **OSHA HCS 2012:** Akute Tox. 4 (Verschlucken); Augenreizung 2	KDV
Kaliumcarbonat	**CAS:**584-08-7 **EG-Nummer:** 209-529-3	1 % BIS 5 %	Verschlucken/oral-Ratte LD50 • 1870 mg/kg	**EU CLP:** Akute Tox. 4, H302 **UN GHS Revision 3:** Akute Tox. 4 (Verschlucken); Augenreizung 2B **OSHA HCS 2012:** Akute Tox. 4 (Verschlucken); Augenreizung 2B	KDV

Vollständiger Text der H-Hinweise siehe Abschnitt 16.

Abschnitt 4: Erste-Hilfe-Maßnahmen

4.1 Beschreibung der Erste-Hilfe-Maßnahmen

Einatmen Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Verunfallten an die frische Luft bringen. Bei Atemschwierigkeiten Sauerstoffzufuhr einleiten. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat; künstliche Beatmung mit einer mit Einwegventil ausgestatteten Taschen-Sauerstoffmaske oder sonstigem geeigneten medizinischen Beatmungsgerät einleiten. Bei Atemstillstand künstliche Beatmung umgehend einleiten.

Haut Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei geringem Hautkontakt Material nicht auf andere Hautbereiche verteilen. Im Falle eines Hautkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Verunreinigte Kleidung entfernen und isolieren.

Augen	Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Im Falle eines Augenkontakts mit dem Stoff unter fließendem Wasser sofort für mindestens 20 Minuten abwaschen. Bei anhaltender Augenreizung: Ärztlichen Rat einholen/ärztliche Hilfe hinzuziehen.
Verschlucken	Es ist keine erste Hilfe erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird. Bei Einnahme Mund mit Wasser ausspülen (nur, wenn die Person bei Bewusstsein ist). KEIN Erbrechen herbeiführen. Keine Mund-zu-Mund-Wiederbelebung versuchen, wenn der/die Verunfallte die Substanz verschluckt hat. Bei Einnahme sofort Arzt zu Rate ziehen.

4.2 Wichtigste akute und verzögert auftretende Symptome und Wirkungen

Siehe Abschnitt 11 - Toxikologische Angaben.

4.3 Hinweis auf ärztliche Soforthilfe oder Spezialbehandlung

Hinweise für den Arzt	Alle Behandlungsmaßnahmen sollten auf den beobachteten Anzeichen und Symptomen von Erschöpfung beim Patienten basieren. Außerdem ist zu berücksichtigen, dass es möglicherweise zum Kontakt mit anderen Materialien zusätzlich zu diesem Produkt kam.

Abschnitt 5: Maßnahmen zur Brandbekämpfung

5.1 Löschmittel

Geeignete Löschmittel	GROSSBRAND: Trockenlöschmittel, CO2, alkoholresistenter Schaum oder Wasserstrahl. KLEINBRAND: Trockenlöschmittel, CO2 oder Wasserstrahl.
Ungeeignete Löschmittel	Keine Daten verfügbar

5.2 Besondere vom Stoff oder Gemisch ausgehende Gefahren

Ungewöhnliche Brand-und Explosionsgefahren	Kann zur Bildung giftiger Kohlenoxid- und Stickstoffoxiddämpfe führen.
Gefährliche Verbrennungsprodukte	Keine Daten verfügbar

5.3 Hinweise für die Brandbekämpfung

Für die Feuerbekämpfung vorgesehene Standardarbeitsschutzbekleidung bietet einen begrenzten Schutz NUR in Brandfällen; sie ist ineffektiv bei Verschüttungen, wo ein direkter Kontakt mit dem Stoff möglich ist.
Chemikalienschutzbekleidung tragen, die speziell vom Hersteller empfohlen wird. Sie kann wenig oder keinen Thermoschutz bieten.
Umgebungsluftunabhängiges Atemschutzgerät (SCBA) für Überdruckbetrieb tragen.
KLEINBRAND: Behälter aus der Brandzone entfernen, wenn es kein Risiko darstellt.

Abschnitt 6: Maßnahmen bei unbeabsichtigter Freisetzung

6.1 Personenbezogene Vorsichtsmaßnahmen, Schutzausrüstungen und in Notfällen anzuwendende Verfahren

Persönliche Schutzmaßnahmen Wenn eine Kartusche bricht, dann sind diese persönlichen Vorkehrungen anzuwenden. Entsprechende Schutzkleidung tragen. Nicht durch das verschüttete Material hindurch gehen. Beschädigte Behälter oder verschüttetes Material ohne geeignete Schutzkleidung nicht anfassen. Geschlossene Räume be- oder entlüften.

Sofortmaßnahmen Es sind keine Notfallmaßnahmen erforderlich, sofern der Stoff unter normalen Bedingungen und nach den Empfehlungen benutzt wird.

6.2 Umweltschutzmaßnahmen

Nicht in Gewässer, die Kanalisation, Keller oder enge Räume gelangen lassen.

6.3 Methoden und Material für Rückhaltung und Reinigung

Einkapselung/Aufräumarbeiten Bei kleinen Verschüttungen Handschuhe tragen und Verschüttung mit einem Papiertuch aufnehmen. Verschüttetes Material nicht durch den Abfluss entsorgen.

6.4 Verweis auf andere Abschnitte

Siehe Abschnitt 8 - Einwirkungskontrolle/Personenschutz und Abschnitt 13 - Überlegungen zur Entsorgung.

Abschnitt 7: Handhabung und Lagerung

7.1 Schutzmaßnahmen zur sicheren Handhabung

Handhabung Keine spezielle Handhabung notwendig. Wenn eine Kartusche gebrochen ist, dann ist der Kontakt mit verschütteten Reagenzien zu vermeiden. Kontakt mit Haut und Augen vermeiden.

7.2 Bedingungen zur sicheren Lagerung unter Berücksichtigung von Umweltverträglichkeiten

Lagerung Produkt gemäß der Etikettierung lagern. Behälter/Verpackung dicht verschlossen an kühlem, gut belüftetem Ort lagern. Von nicht kompatiblem Material fernhalten.

7.3 Spezifische Endanwendungen

Siehe Abschnitt 1.2 - Relevante identifizierte Nutzung.

Abschnitt 8: Begrenzung und Überwachung der Exposition/Persönliche Schutzausrüstung

8.1 Zu überwachende Parameter

Expositionsgrenzwerte/Richtlinien			
	Ergebnis	**ACGIH**	**NIOSH**
Ammoniumchlorid (12125-02-9)	STELs	20 mg/m3 STEL (Dampf)	20 mg/m3 STEL (Dampf)
	zeitlich gewichtete Durchschnitte	10 mg/m3 TWA (Dampf)	10 mg/m3 TWA (Dampf)

8.2 Begrenzung und Überwachung der Exposition

Technische Maßnahmen/Kontrollen	Es ist eine gute allgemeine Belüftung anzuwenden. Die Belüftungszahl sollte den Bedingungen entsprechen. Prozesskammern, lokale Abzugsanlage oder andere technische Kontrollmittel verwenden, um die Konzentration in der Luft unter den empfohlenen Grenzwerten zu halten. Wenn keine Grenzwerte festgelegt wurden, sind die Konzentrationen auf einem akzeptablen Niveau zu halten.
Persönliche Schutzausrüstung	
Atemwege	OSHA-Vorgaben für Atemschutzgeräte aus 29 CFR 1910.134 oder der Europäischen Norm EN 149 befolgen. Nach NIOSH/MSHA oder der europäischen Norm EN 149 zugelassenes Atemschutzgerät benutzen, wenn die Grenzwerte überschritten werden oder Symptome auftreten.
Augen/Gesicht	Schutzbrillen gegen Chemikalienspritzer tragen.
Haut/Körper	In einer Laborumgebung sind mindestens Handschuhe und ein Laborkittel zu tragen, um den Hautkontakt zu minimieren.
Umweltkontrollmaßnahmen	Beste Praktiken bei Bauleitung und Abfallentsorgung anwenden.

Schlüssel für Abkürzungen
ACGIH = American Conference of Governmental Industrial Hygiene
NIOSH = National Institute of Occupational Safety and Health
OSHA = Agentur für Sicherheit und Gesundheitsschutz am Arbeitsplatz
Kurzzeitgrenzwerte (STEL-Werte) basieren auf einer 15-minütigen Exposition
TWA = Zeitlich gewichtete Mittelwerte basieren auf einer Exposition von 8 Stunden/Tag, 40 Stunden/Woche

Abschnitt 9: Physikalische und chemische Eigenschaften

9.1 Angaben zu den grundlegenden physikalischen und chemischen Eigenschaften

Materialbeschreibung			
Physische Gestalt	Flüssigkeit	Aussehen/Beschreibung	Die Reagenzien sind klare, farb- und geruchlose Flüssigkeiten, die in wässrigen Lösungen primär gepuffert sind.
Farbe	Klar	Geruch	Geruchlos
Geruchsschwelle	Fehlende Daten		
Allgemeine Eigenschaften			
Siedepunkt	100 °C (212 °F)	Schmelzpunkt/Gefrierpunkt	0 °C (32 °F)
Zersetzungstemperatur	Fehlende Daten	pH	8 bis 8,3 (Feststoffe und andere flüssige Reagenzien)
Spezifisches Gewicht/Relative Dichte	Fehlende Daten	Wasserlöslichkeit	Fehlende Daten
Viskosität	Fehlende Daten	Explosive Eigenschaften	Fehlende Daten
Oxidationseigenschaften:	Fehlende Daten		
Volatilität			
Dampfdruck	Fehlende Daten	Dampfdichte	Fehlende Daten
Verdunstungsrate	Fehlende Daten		
Entflammbarkeit			
Flammpunkt	Fehlende Daten	Obere Expositionsgrenze	Fehlende Daten
Untere Expositionsgrenze	Fehlende Daten	Selbstzündung	Fehlende Daten
Entflammbarkeit (Feststoff, Gas)	Fehlende Daten		
Umwelt			
Oktanol/Wasser-Verteilungskoeffizient	Fehlende Daten		

9.2 Sonstige Angaben

Keine zusätzlichen physikalischen und chemischen Parameter vermerkt.

Abschnitt 10: Stabilität und Reaktivität

10.1 Reaktivität

Keine gefährliche Reaktion bekannt unter Bedingungen der normalen Verwendung.

10.2 Chemische Stabilität

Stabil

10.3 Möglichkeit gefährlicher Reaktionen

Eine gefährliche Polymerisierung findet nicht statt.

10.4 Zu vermeidende Bedingungen

Wärme, Feuchtigkeit (mit Auswirkung auf die Produktqualität)

10.5 Inkompatible Materialien

Säuren, Oxidationsmittel.

10.6 Gefährliche Zersetzungsprodukte

Kohlenoxide, Kaliumoxide.

Abschnitt 11: Toxikologische Angaben

11.1 Angaben zu toxikologischen Wirkungen

Bestandteile		
Ammoniumchlorid (20 % BIS 30 %)	12125-02-9	**Akute Toxizität:** Verschlucken/oral-Ratte LD50 • 1650 mg/kg; **Reizung:** Auge-Kaninchen • 100 mg • Schwere Reizung
Kaliumcarbonat (1 % BIS 5 %)	584-08-7	**Akute Toxizität:** Verschlucken/oral-Ratte LD50 • 1870 mg/kg; **Multidosis-Toxizität:** Einatmen-Ratte TCLo • 43 mg/m³ 17 Woche(n); *Herz*:**EKG-Veränderungen anders als die obigen Diagnosen**; *Niere, Harnleiter, Blase*:**Andere Veränderungen der Urinzusammensetzung**; *Ernährung und Bruttostoffwechsel:Änderungen in der Chemie oder Temperatur*: **K**; **Mutagen:** Unplanmäßige DNA-Synthese • Verschlucken/oral-Ratte • 504 g/kg 4 Woche(n)-ständig

Mögliche gesundheitliche Auswirkungen

Einatmen
Akut (sofort) Keine Daten verfügbar
Chronisch (verzögert) Keine Daten verfügbar

Haut
Akut (sofort) Keine Daten verfügbar
Chronisch (verzögert) Keine Daten verfügbar

Augen
Akut (sofort) Verursacht schwere Augenreizungen.
Chronisch (verzögert) Keine Daten verfügbar

Verschlucken
Akut (sofort) Kann bei Verschlucken schädlich sein.
Chronisch (verzögert) Keine Daten verfügbar

Schlüssel für Abkürzungen
LD = Letale Dosis
TC = Toxische Konzentration

Abschnitt 12: Umweltbezogene Angaben

12.1 Toxizität

	CAS	
Xpert Urine Specimen Collection Kit, Xpert CT/NG Urine Specimen Collection Kit	KDV	**Aquatische Toxizität-Fische:** 4 Tag(e) LC50 *Atlantik-Ährenfisch* 0,14 mg/l Kommentare: Ammoniumchlorid (12125-02-9) 30 Tag(e) NOEC *Katzenwels* 0,006 mg/l Kommentare: Ammoniumchlorid (12125-02-9) **Aquatische Toxizität-Krebstiere:** 2 Tag(e) EC50 *Ostrakoden* 0,075-0,126 mg/l Kommentare: Ammoniumchlorid (12125-02-9) 21 Tag(e) NOEC *Wasserfloh* 0,05 mg/l Kommentare: Ammoniumchlorid (12125-02-9) **Aquatische Toxizität-Algen und andere Wasserpflanzen:** 3 Tag(e) EC50 *Hormosira banksii* 0,04-0,1 mg/l Kommentare: Ammoniumchlorid (12125-02-9)

Giftig für Wasserorganismen. Giftig für Wasserorganismen, mit langfristiger Wirkung.

12.2 Persistenz und Abbaubarkeit

Materialdaten fehlen.

12.3 Bioakkumulationspotenzial

Materialdaten fehlen.

12.4 Mobilität im Boden

Materialdaten fehlen.

12.5 Ergebnisse der PBT- und vPvB-Beurteilung

Es wurde keine PBT- oder vPvB-Bewertung durchgeführt.

12.6 Andere schädliche Wirkungen

Es wurden keine Studien gefunden.

Abschnitt 13: Hinweise zur Entsorgung

13.1 Verfahren der Abfallbehandlung

Produktabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

Verpackungsabfall Entsorgen von Inhalten und/oder Behälter in Übereinstimmung mit den örtlichen, regionalen, nationalen und/oder internationalen Vorschriften.

13.2 Sonstige Angaben

Bei biologischen Proben, einschließlich gebrauchter Kartuschen, ist davon auszugehen, dass sie Infektionserreger übertragen, und sie sind entsprechend zu behandeln. Konsultieren Sie das Personal für umweltgerechte Abfallentsorgung in Ihrer Institution für die ordnungsgemäße Entsorgung gebrauchter Kartuschen und unbenutzter Reagenzien. Dieser Stoff kann Eigenschaften von Sondermüll gemäß des in den USA geltenden EPA Resource Conservation and Recovery Act (RCRA) aufweisen und die Erfüllung spezieller Entsorgungsvorgaben erfordern. Prüfen Sie die bundesstaatlichen und lokalen Vorschriften daraufhin, wie sie sich von den bundesstaatlichen Entsorgungsvorschriften unterscheiden. Institutionen außerhalb der USA sollten die in ihrem Land geltenden Entsorgungsvorgaben für Sondermüll prüfen.

Abschnitt 14: Angaben zum Transport

15.2 Stoffsicherheitsbeurteilung

Es wurde keine chemische Sicherheitsanalyse durchgeführt.

Abschnitt 16: Sonstige Angaben

Relevante Sätze (Code & Volltext)

H302 - Gesundheitsschädlich bei Verschlucken

Haftungsausschluss/ Haftungshinweis

Die obigen Informationen basieren auf Daten, die uns verfügbar sind und die wir für korrekt halten. Da die Informationen unter Bedingungen angewendet werden können, die außerhalb unserer Kontrolle liegen und mit denen wir möglicherweise nicht vertraut sind, übernehmen wir keine Verantwortung für die Ergebnisse der Nutzung und alle Personen, die sie erhalten, müssen ihre eigenen Festlegungen bezüglich der Wirkungen, Eigenschaften, Schutzmaßnahmen und Entsorgung vornehmen, die zu den jeweiligen Bedingungen gehören. Es wird keine Zusicherung, Gewährleistung oder Garantie, weder in ausdrücklicher noch in implizierter Form (einschließlich einer Garantie für die Eignung oder Handelsüblichkeit), erteilt werden im Hinblick auf die Stoffe, die Genauigkeit dieser Informationen, die Ergebnisse, die aus deren Nutzung resultieren, oder die Gefahren, die mit der Nutzung des Stoffes verbunden sind. Bei der Handhabung und Nutzung des Stoffs ist Vorsicht anzuwenden. Die obigen Informationen wurden nach bestem Wissen angegeben und für akkurat gehalten. Zum Datum der Ausstellung bieten wir alle Informationen, die für die zu erwartende Handhabung des Stoffs relevant sind. Bei einem Vorfall mit diesem Produkt stellt dieses Sicherheitsdatenblatt keinen Ersatz für die Rücksprache mit entsprechend geschultem Personal dar und ist nicht dazu gedacht. Bitte Haftungsausschluss einfügen.

Kit di prelievo dei campioni di urina Xpert
Kit di prelievo dei campioni di urina Xpert CT/NG

Sezione 1: Identificazione della sostanza/miscela e dell'azienda/impresa

1.1 Identificatore del prodotto

Nome prodotto **Kit di prelievo dei campioni di urina Xpert, Kit di prelievo dei campioni di urina Xpert CT/NG**

Codice prodotto CT/NGURINE-50; URINE/A-50

1.2 Usi pertinenti identificati della sostanza o della miscela e utilizzi sconsigliati

Usi pertinenti identificati Uso in laboratorio

1.3 Dettagli del fornitore della scheda dati di sicurezza

Produttore
Cepheid
904 Caribbean Drive
Sunnyvale, CA 94089
Stati Uniti
www.cepheid.com
USA: techsupport@cepheid.com

Telefono (generale) 1 (888) 838-3222 - USA Opzione 2

Telefono (generale) 1 (408) 541-4191 - Fuori dagli USA

Fornitore
Cepheid AB
Röntgenvägen 5
SE-171 54 Solna
Svezia
www.cepheidinternational.com
UE: support@cepheideurope.com

Telefono (generale) +33 563 825 319

1.4 Numero telefonico di emergenza

Produttore + 1 (800) 535-5053 - INFOTRAC - Numero telefonico di emergenza attivo 24 ore su 24

Produttore + 1 (352) 323-3500- Fuori dagli USA

Sezione 2: Identificazione dei pericoli

UE/CEE

In ottemperanza a: Normativa (CE) N.1272/2008 (CLP)/REACH 1907/2006 [emendata dalla 453/2010]

2.1 Classificazione della sostanza o della miscela

CLP La seguente Scheda informativa in materia di sicurezza (SDS) è da considerarsi valida per il prodotto finito finale solo se usato in laboratorio. Contiene componenti liquidi, alcuni dei quali sono in polveri liofilizzate e reagenti che sono contenuti nella cartuccia e in una bottiglia Nalgene. Tutti i reagenti sono liquidi trasparenti e incolori. Le esenzioni per la divulgazione di alcune informazioni relative ai componenti sono a norma dell'articolo CLP 1(5)(d) e 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2).
Irritazione oculare 2 - H319

2.2 Elementi dell'etichetta

CLP

ATTENZIONE

Frasi di rischio H319 - Provoca grave irritazione oculare.

Frasi di prudenza

Prevenzione P264 - Lavare accuratamente dopo l'uso.
P280 - Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Risposta P305+P351+P338 - IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare.
P337+P313 - Se l'irritazione degli occhi persiste: consultare un medico.

2.3 Altri rischi

CLP Ai sensi del Regolamento (CE) n. 1272/2008 (CLP), questo materiale è considerato pericoloso.

UN GHS Revisione 3

In ottemperanza a: Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN Globally Harmonized System of Classification and Labeling of Chemicals, GHS):
Revisione della terza edizione

2.1 Classificazione della sostanza o della miscela

UN GHS Tossicità acuta - per via orale 5
Irritazione oculare 2
Pericoloso per l'ambiente acquatico - pericolo acuto 1
Pericoloso per l'ambiente acquatico - pericolo cronico 1

2.2 Elementi dell'etichetta

UN GHS

ATTENZIONE

Frasi di rischio Può essere nocivo se ingerito
Provoca grave irritazione oculare
Molto tossico per l'ambiente acquatico
Molto tossico per l'ambiente acquatico con effetti di lunga durata

Frasi di prudenza

Prevenzione Lavare accuratamente dopo l'uso.
Non disperdere nell'ambiente.
Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.

Risposta	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare. Se l'irritazione degli occhi persiste: consultare un medico. In caso di malessere, contattare un CENTRO ANTIVELENI o un medico. Raccogliere la fuoriuscita.
Stoccaggio/Smaltimento	Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

2.3 Altri rischi

UN GHS	In conformità al Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche definito dalle Nazioni Unite (UN GHS) questo prodotto è considerato pericoloso.

Stati Uniti (USA)
In ottemperanza a: OSHA 29 CFR 1910.1200 HCS

2.1 Classificazione della sostanza o della miscela

OSHA HCS 2012	Irritazione oculare 2

2.2 Elementi dell'etichetta

OSHA HCS 2012

ATTENZIONE

Frasi di rischio	Provoca grave irritazione oculare.
Frasi di prudenza	
Prevenzione	Lavare accuratamente dopo l'uso. Indossare guanti/indumenti protettivi/Proteggere gli occhi/il viso.
Risposta	IN CASO DI CONTATTO CON GLI OCCHI: sciacquare accuratamente per parecchi minuti. Togliere le eventuali lenti a contatto se è agevole farlo. Continuare a sciacquare. Se l'irritazione degli occhi persiste: consultare un medico.

2.3 Altri rischi

OSHA HCS 2012	Ai sensi della normativa statunitense (29 CFR 1910.1200 - Standard per la comunicazione dei pericoli), questo prodotto è considerato pericoloso.

Canada
In ottemperanza a: WHMIS

2.1 Classificazione della sostanza o della miscela

WHMIS	Altri effetti tossici - D2B

2.2 Elementi dell'etichetta

WHMIS

Altri effetti tossici - D2B

2.3 Altri rischi

WHMIS

In Canada, il prodotto di cui sopra è considerato pericoloso ai sensi del sistema di informazioni sui materiali pericolosi sul luogo di lavoro (Workplace Hazardous Materials Information System, WHMIS).

2.4 Altre informazioni

Tutti gli altri reagenti, le perline e i costituenti hanno concentrazioni inferiori all'1% nella miscela o non sono considerati pericolosi per le normative sulla comunicazione del pericolo degli USA (29 CFR 1910.1200), le direttive UE per la classificazione e l'etichettatura delle sostanze e delle miscele o per il Sistema di armonizzazione globale della classificazione ed etichettatura delle sostanze chimiche e delle miscele.

Sezione 3: Composizione/Informazioni sugli ingredienti

3.1 Sostanze

Il materiale non soddisfa i criteri di classificazione come sostanza.

3.2 Miscele

Composizione					
Nome Chimico	**Identificatori**	**%**	**DL50/CL50**	**Classificazioni Secondo Regolamento/ Direttiva**	**Commenti**
Cloruro d'ammonio	**CAS:** 12125-02-9 **Numero CE:** 235-186-4 **Indice UE:** 017-014-00-8	DAL 20% AL 30%	Ingestione/Orale-Ratto DL50 • 1650 mg/kg	**UE CLP:** Allegato VI, Tabella 3.1: Toss. acuta 4 *, H302; Irrit. occhi 2, H319 **UN GHS Revisione 3:** Toss. acuta 4 (orale); Irrit. occhi 2; Acquatica acuta 1; Acquatica cronica 1 **OSHA HCS 2012:** Toss. acuta 4 (orale); Irrit. occhi 2	NDD
Carbonato di potassio	**CAS:**584-08-7 **Numero CE:** 209-529-3	DALL'1% AL 5%	Ingestione/Orale-Ratto DL50 • 1870 mg/kg	**UE CLP:** Toss. acuta 4, H302 **UN GHS Revisione 3:** Toss. acuta 4 (orale); Irrit. occhi 2B **OSHA HCS 2012:** Toss. acuta 4 (orale); Irrit. occhi 2B	NDD

Per l'elenco completo delle frasi H, vedere la Sezione 16.

Sezione 4: Misure di pronto soccorso

4.1 Descrizione delle misure di pronto soccorso

Inalazione

Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. Portare la persona colpita all'aria aperta. Somministrare ossigeno se la respirazione è difficile. Non usare il metodo bocca-a-bocca se la vittima ha inalato la sostanza; effettuare la respirazione artificiale con l'ausilio di una mascherina con valvola unidirezionale o altro dispositivo medico adeguato. Se la vittima non respira, effettuare la respirazione artificiale.

Cute	Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di limitato contatto con la pelle, evitare la dispersione del materiale sulla pelle non interessata. In caso di contatto con la sostanza, sciacquare immediatamente la pelle con acqua corrente per almeno 20 minuti. Rimuovere e isolare gli indumenti contaminati.
Occhi	Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di contatto con la sostanza, sciacquare immediatamente gli occhi con acqua corrente per almeno 20 minuti. Se l'irritazione degli occhi persiste: consultare un medico.
Ingestione	Non si prevede la necessità di misure di pronto soccorso se il materiale viene utilizzato in condizioni normali come raccomandato. In caso di ingestione, sciacquare la bocca con acqua (solamente se l'infortunato è cosciente). NON provocare il vomito. Non usare il metodo bocca-a-bocca se la vittima ha ingerito la sostanza. In caso di ingestione consultare immediatamente un medico.

4.2 Sintomi ed effetti più importanti, acuti e ritardati

Consultare la Sezione 11 - Informazioni tossicologiche.

4.3 Indicazione delle attenzioni mediche immediate e dei trattamenti speciali necessari

Note per il medico	Tutte le cure dovrebbero basarsi sull'osservazione di segni e sintomi di malessere nel paziente. Dovrebbe essere presa in considerazione la possibilità di sovraesposizione a materiali diversi da questo prodotto.

Sezione 5: Misure antincendio

5.1 Mezzi di estinzione

Mezzi di estinzione adeguati	INCENDI DI AMPIE DIMENSIONI: composto chimico secco, CO_2, schiumogeno resistente all'alcol o getto d'acqua. INCENDI DI DIMENSIONI RIDOTTE: composto chimico secco, CO_2 o getto d'acqua.
Mezzi di estinzione non adeguati	Nessun dato disponibile

5.2 Rischi speciali che scaturiscono dalla sostanza o dalla miscela

Rischi di esplosione e incendi inconsueti	Può emettere vapori tossici di ossidi di carbonio e ossidi di azoto.
Prodotti di combustione pericolosi	Nessun dato disponibile

5.3 Consiglio per i vigili del fuoco

Gli indumenti antincendio strutturali forniscono una protezione limitata SOLO in condizioni di incendio; non sono efficaci in condizioni di fuoriuscite in cui è probabile il contatto diretto con la sostanza.
Indossare abbigliamento protettivo contro gli agenti chimici specificatamente raccomandato dal produttore. Potrebbe fornire limitata o nessuna protezione termica.
Indossare un apparato di respirazione autonomo funzionante a pressione positiva (self-contained breathing apparatus, SCBA).
INCENDI DI DIMENSIONI RIDOTTE: spostare i contenitori dall'area colpita dall'incendio se non comporta alcun rischio.

Sezione 6: Misure contro il versamento accidentale

6.1 Precauzioni personali, dispositivi di protezione e procedure di emergenza

Precauzioni personali	Nel caso in cui si rompa una cartuccia, è possibile applicare queste precauzioni personali. Usare indumenti protettivi adatti. Non camminare sul materiale versato. Toccare i contenitori danneggiati o il materiale versato solo dopo aver indossato l'abbigliamento protettivo adeguato. Ventilare le aree chiuse.
Procedure di emergenza	Non si prevede la necessità di procedure di emergenza se il materiale viene utilizzato in condizioni normali come raccomandato.

6.2 Precauzioni ambientali

Evitare l'ingresso in corsi d'acqua, fognature, seminterrati o aree confinate.

6.3 Metodi e materiali per il contenimento e la pulizia

Misure di contenimento/pulizia	Per piccole fuoriuscite, indossare guanti e assorbire la fuoriuscita con un tovagliolo di carta. Non gettare il materiale fuoriuscito nei tubi di scarico.

6.4 Riferimento ad altre sezioni

Consultare la Sezione 8 - Controlli dell'esposizione / Protezione personale e la Sezione 13 - Considerazioni per lo smaltimento.

Sezione 7: Manipolazione e stoccaggio

7.1 Precauzioni per la manipolazione sicura

Manipolazione	Non è necessario nessun trattamento speciale. Nel caso in cui si rompa una cartuccia, evitare il contatto con i reagenti fuoriusciti. Evitare il contatto con gli occhi e con la pelle.

7.2 Condizioni per lo stoccaggio sicuro, incompatibilità eventuali incluse

Stoccaggio	Conservare secondo le indicazioni presenti sull'etichetta del prodotto. Conservare il recipiente/contenitore ben chiuso in luogo fresco e ben ventilato. Tenere lontano dai materiali incompatibili.

7.3 Usi finali specifici

Consultare la Sezione 1.2 - Usi pertinenti identificati.

Sezione 8: Controlli di esposizione / Protezione personale

8.1 Parametri di controllo

Limiti di Esposizione / Linee Guida			
	Risultato	**ACGIH**	**NIOSH**
Cloruro d'ammonio (12125-02-9)	STEL	20 mg/m3 STEL (fumo)	20 mg/m3 STEL (fumo)
	TWA	10 mg/m3 TWA (fumo)	10 mg/m3 TWA (fumo)

8.2 Controlli di esposizione

Misure/Controlli tecnici Garantire una ventilazione generale adeguata. I regimi di ventilazione devono essere adeguati alle condizioni. Se applicabile, utilizzare camere di protezione dei processi, impianti di ventilazione locale o altri controlli tecnici per mantenere i livelli di contaminanti aerei al di sotto dei limiti di esposizione raccomandati. Qualora i limiti di esposizione non fossero stati stabiliti, mantenere i contaminanti aerei a un livello accettabile.

Dispositivi di protezione individuale

Respirazione Attenersi alle indicazioni del respiratore OSHA disponibili in 29 CFR 1910.134 o nella norma europea EN 149. In caso di superamento dei limiti di esposizione o manifestazione di sintomi, usare un respiratore approvato da NIOSH/MSHA o dalla norma europea EN 149.

Occhi/Volto Indossare occhiali protettivi per sostanze chimiche.

Pelle/Corpo In ambiente di laboratorio, indossare, quanto meno, guanti e camici da laboratorio per ridurre al minimo il contatto con la pelle.

Controlli dell'esposizione ambientale Seguire le migliori pratiche per la gestione del sito e per lo smaltimento dei rifiuti.

Legenda delle abbreviazioni

ACGIH = American Conference of Governmental Industrial Hygiene (Conferenza americana degli igienisti industriali governativi)
NIOSH = National Institute of Occupational Safety and Health (Istituto nazionale per la salute e la sicurezza sul lavoro)
OSHA = Occupational Safety and Health Administration (Agenzia per la salute e la sicurezza sul lavoro)
STEL = Short Term Exposure Limits (Limiti di esposizione e breve termine), sono basati su esposizioni di 15 minuti
TWA = Time-Weighted Averages (Medie pesate nel tempo) basate su esposizioni da 8 ore/giorno, 40 ore/settimana

Sezione 9: Proprietà chimico-fisiche

9.1 Informazioni sulle proprietà chimico-fisiche

Descrizione del materiale			
Forma fisica	Liquido	Aspetto/Descrizione	I reagenti sono liquidi inodori, trasparenti e incolori, che vengono stabilizzati principalmente in soluzioni acquose.
Colore	Trasparente	Odore	Inodore
Soglia di odore	Dati mancanti		
Proprietà generali			
Punto di ebollizione	100 °C (212 °F)	Punto di fusione/Punto di congelamento	0 °C (32 °F)
Temperatura di decomposizione	Dati mancanti	pH	Da 8 a 8,3 (solidi e altri reagenti liquidi)
Gravità specifica/densità relativa	Dati mancanti	Solubilità in acqua	Dati mancanti
Viscosità	Dati mancanti	Proprietà esplosive	Dati mancanti
Proprietà ossidanti:	Dati mancanti		
Volatilità			
Pressione di vapore	Dati mancanti	Densità del vapore	Dati mancanti
Tasso di evaporazione	Dati mancanti		
Infiammabilità			
Punto di infiammabilità	Dati mancanti	UEL	Dati mancanti
LEL	Dati mancanti	Autoaccensione	Dati mancanti
Infiammabilità (solido, gas)	Dati mancanti		
Ambientali			
Coefficiente di ripartizione ottanolo-acqua	Dati mancanti		

9.2 Altre informazioni

Non sono state osservate altre proprietà chimico-fisiche.

Sezione 10: Stabilità e reattività

10.1 Reattività

Nessuna reazione pericolosa nota nelle normali condizioni di utilizzo.

10.2 Stabilità chimica

Stabile

10.3 Possibilità di reazioni pericolose

Non si verificherà polimerizzazione pericolosa.

10.4 Condizioni da evitare

Calore, umidità (influenzano la qualità del prodotto)

10.5 Materiali incompatibili

Acidi, agenti ossidanti.

10.6 Prodotti di decomposizione pericolosi

Ossidi di carbonio, ossidi di potassio.

Sezione 11: Informazioni tossicologiche

11.1 Informazioni sugli effetti tossicologici

12.5 Risultati della valutazione PBT e vPvB

Non sono state condotte valutazioni PBT e vPvB.

12.6 Altri effetti avversi

Non sono stati trovati studi.

Sezione 13: Considerazioni sullo smaltimento

13.1 Metodi di trattamento dei rifiuti

Rifiuti del prodotto Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

Rifiuti di imballaggio Smaltire contenuto e/o recipiente in conformità con normative locali, regionali, nazionali e/o normative internazionali.

13.2 Altre informazioni

I campioni biologici, tra cui le cartucce esauste, devono essere trattati come materiale in grado di trasmettere agenti infettivi. Rivolgersi al personale addetto allo smaltimento dei rifiuti ambientali del proprio istituto per ottenere informazioni utili sul corretto smaltimento delle cartucce esauste e dei reagenti inutilizzati. Questo materiale può presentare caratteristiche dell'EPA Resource Conservation and Recovery Act (RCRA) sui residui pericolosi che richiedono uno smaltimento specifico. Verificare le normative nazionali e locali perché possono differire dalle normative regionali sullo smaltimento. Le istituzioni al di fuori degli Stati Uniti dovrebbero verificare i requisiti per lo smaltimento dei residui pericolosi del proprio Paese.

Fabricante + 1 (352) 323-3500- Fuera de EE. UU.

Sección 2: Identificación de riesgos

UE/CEE

De acuerdo con: Reglamento (CE) Nº 1272/2008 (CLP)/REACH 1907/2006 [modificado por 453/2010]

2.1 Clasificación de la sustancia o mezcla

CLP La siguiente FDS está destinada exclusivamente al uso en laboratorio del producto final acabado. Contiene componentes líquidos, algunos de los cuales son reactivos y polvos liofilizados almacenados en el cartucho y en una botella Nalgene. Todos los reactivos son líquidos transparentes e incoloros. Las exenciones de revelación de la información de algún componente son conformes al artículo 1(5)(d) del CLP y a la norma 29 CFR 1910.1200(g)(2)(i)(C)(1)y(2).
Irritación ocular 2 - H319

2.2 Elementos de la etiqueta

CLP

ADVERTENCIA

Declaraciones de riesgo	H319 - Provoca irritación ocular grave.
Declaraciones preventivas	
Prevención	P264 - Lavarse concienzudamente tras la manipulación. P280 - Llevar guantes/prendas/gafas/máscara de protección.
Respuesta	P305+P351+P338 - EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. P337+P313 - Si persiste la irritación ocular: Consultar a un médico.

2.3 Otros riesgos

CLP	De acuerdo con el Reglamento (CE) Nº 1272/2008 (CLP), este material se considera peligroso.

SGA de la ONU, revisión 3

De acuerdo con: Sistema Globalmente Armonizado (SGA) de Clasificación y Etiquetado de Productos Químicos de la ONU:
Tercera edición revisada

2.1 Clasificación de la sustancia o mezcla

SGA de la ONU	Toxicidad oral aguda 5 Irritación ocular 2 Peligroso para el medio ambiente acuático Agudo 1 Peligroso para el medio ambiente acuático Crónico 1

2.2 Elementos de la etiqueta

SGA de la ONU

ADVERTENCIA

Declaraciones de riesgo	Nocivo en caso de ingestión. Provoca irritación ocular grave. Muy tóxico para los organismos acuáticos. Muy tóxico para los organismos acuáticos, con efectos nocivos duraderos.
Declaraciones preventivas	
Prevención	Lavarse concienzudamente tras la manipulación. Evitar su liberación al medio ambiente. Llevar guantes/prendas/gafas/máscara de protección.

Respuesta	EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. Si persiste la irritación ocular: Consultar a un médico. Llamar a un CENTRO DE INFORMACIÓN TOXICOLÓGICA o a un médico en caso de malestar. Recoger el vertido.
Almacenamiento/eliminación	Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

2.3 Otros riesgos

SGA de la ONU	De acuerdo con el Sistema Globalmente Armonizado de Clasificación y Etiquetado de Productos Químicos (SGA), este producto se considera peligroso.

Estados Unidos (EE. UU.)
De acuerdo con: OSHA 29 CFR 1910.1200 HCS

2.1 Clasificación de la sustancia o mezcla

HCS 2012 de la OSHA	Irritación ocular 2

2.2 Elementos de la etiqueta

HCS 2012 de la OSHA

ADVERTENCIA

Declaraciones de riesgo	Provoca irritación ocular grave.
Declaraciones preventivas	
Prevención	Lavarse concienzudamente tras la manipulación. Llevar guantes/prendas/gafas/máscara de protección.
Respuesta	EN CASO DE CONTACTO CON LOS OJOS: Aclarar cuidadosamente con agua durante varios minutos. Quitar las lentes de contacto, si lleva y resulta fácil. Seguir aclarando. Si persiste la irritación ocular: Consultar a un médico.

2.3 Otros riesgos

HCS 2012 de la OSHA	De acuerdo con el reglamento de los Estados Unidos (29 CFR 1910.1200 - Estándar de Comunicación de Riesgos), este producto se considera peligroso.

Canadá
De acuerdo con: WHMIS

2.1 Clasificación de la sustancia o mezcla

WHMIS	Otros efectos tóxicos - D2B

2.2 Elementos de la etiqueta

WHMIS

Otros efectos tóxicos - D2B

2.3 Otros riesgos

WHMIS

El producto mencionado se considera peligroso en Canadá, de acuerdo con el Sistema de Información de Materiales Peligrosos en el Lugar de Trabajo (WHMIS).

2.4 Información adicional

Todos los demás reactivos, microesferas y otros constituyentes presentan concentraciones inferiores al 1% en la mezcla o no son considerados peligrosos según los reglamentos de comunicación de riesgos de EE. UU. (29 CFR 1910.1200), las directivas para la clasificación y el etiquetado de sustancias y mezclas de la UE y el Sistema Globalmente Armonizado de clasificación y etiquetado de sustancias y mezclas.

Sección 3: Composición/información de los ingredientes

3.1 Sustancias

El material no cumple con los criterios de clasificación de sustancias.

3.2 Mezclas

Composición					
Nombre del producto químico	**Identificadores**	**%**	**LD50/LC50**	**Clasificaciones de acuerdo con el reglamento/directiva**	**Comentarios**
Cloruro de amonio	**CAS:** 12125-02-9 **Numero CE:** 235-186-4 **Índice UE:** 017-014-00-8	20% A 30%	Ingestión/Oral-Rata LD50 • 1650 mg/kg	**CLP UE:** Anexo VI, Tabla 3.1: Tox. aguda 4 *, H302; Irrit. ocular 2, H319 **SGA de la ONU, revisión 3:** Tox. aguda 4 (oral); Irrit. ocular 2; Acuática aguda 1; Acuática crónica 1 **HCS 2012 de la OSHA:** Tox. aguda 4 (oral); Irrit. ocular 2	No hay datos disponibles
Carbonato potásico	**CAS:**584-08-7 **Numero CE:** 209-529-3	1% A 5%	Ingestión/Oral-Rata LD50 • 1870 mg/kg	**CLP UE:** Tox. aguda 4, H302 **SGA de la ONU, revisión 3:** Tox. aguda 4 (oral); Irrit. ocular 2B **HCS 2012 de la OSHA:** Tox. aguda 4 (oral); Irrit. ocular 2B	No hay datos disponibles

Acceda a la Sección 16 para consultar el texto completo de las declaraciones de riesgo.

Sección 4: Medidas de primeros auxilios

4.1 Descripción de las medidas de primeros auxilios

Inhalación

No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Traslade a la persona al aire libre. Si la respiración resulta difícil, administre oxígeno. No utilice el método de boca a boca si la víctima ha inhalado la sustancia; proporcione respiración artificial con la ayuda de una máscara de bolsillo equipada con una válvula de una sola vía u otro dispositivo médico de respiración adecuado. Si la persona no respira, proporcione respiración artificial.

Piel	No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Ante un contacto menor con la piel, evite la difusión del material sobre la piel no afectada. Si entra en contacto con la sustancia, enjuague inmediatamente la piel con agua durante al menos 20 minutos. Retire y aísle la ropa contaminada.
Ojo	No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. Si entra en contacto con la sustancia, enjuague inmediatamente los ojos con agua durante al menos 20 minutos. Si persiste la irritación ocular: Consultar a un médico.
Ingestión	No se prevé la necesidad de aplicar primeros auxilios si el material se utiliza en condiciones normales y de la forma recomendada. En caso de ingestión, enjuague la boca con agua (solo si la persona está consciente). NO provoque el vómito. No utilice el método de boca a boca si la víctima ha ingerido la sustancia. En caso de ingestión, solicite atención médica inmediatamente.

4.2 Síntomas y efectos más importantes, tanto agudos como retardados

Consulte la Sección 11 - Información toxicológica.

4.3 Indicación de cualquier atención médica inmediata y tratamiento especial necesarios

Notas para el médico	Todos los tratamientos deben basarse en señales y síntomas observados en el paciente. Considere si puede haberse producido una sobreexposición a otros materiales distintos de este producto.

Sección 5: Medidas antiincendios

5.1 Medios de extinción

Medios de extinción adecuados	INCENDIOS MAYORES: Polvo químico seco, CO_2, espuma resistente al alcohol o agua pulverizada. INCENDIOS MENORES: Polvo químico seco, CO_2 o agua pulverizada.
Medios de extinción inadecuados	No hay datos disponibles

5.2 Riesgos especiales procedentes de la sustancia o mezcla

Riesgos de incendio y explosión inusuales	Puede emitir vapores tóxicos de óxidos de carbono y óxidos de nitrógeno.
Productos de combustión peligrosa	No hay datos disponibles

5.3 Consejos para el personal antiincendios

El traje de protección estándar del personal antiincendios proporciona protección limitada EXCLUSIVAMENTE contra el fuego; no resulta efectivo ante vertidos donde es posible el contacto directo con la sustancia.
Utilice un traje de protección química específicamente recomendado por el fabricante. Puede proporcionar poca o ninguna protección térmica.
Utilice un equipo de respiración autónomo (ERA) de presión positiva.
INCENDIOS MENORES: Mueva los contenedores del área del incendio si la operación no conlleva riesgos.

Sección 6: Medidas en caso de liberación accidental

6.1 Precauciones personales, equipamiento protector y procedimientos de emergencia

Precauciones personales	En caso de romperse un cartucho, pueden aplicarse estas precauciones personales. Utilice un traje de protección adecuado. No camine a través del material vertido. No toque los contenedores dañados ni los materiales vertidos a menos que utilice un traje de protección adecuado. Ventile las áreas cerradas.
Procedimientos de emergencia	Se espera que no sea necesario aplicar procedimientos de emergencia si el material se utiliza bajo condiciones normales y del modo recomendado.

6.2 Precauciones medioambientales

Evite la entrada en alcantarillas, vías fluviales, sótanos y espacios cerrados.

6.3 Métodos y materiales de contención y limpieza

Medidas de contención y limpieza	Para vertidos menores, utilice guantes y absorba el vertido con una toalla de papel. No deseche materiales vertidos por el desagüe.

6.4 Referencia a otras secciones

Consulte la Sección 8 - Controles de exposición / protección personal y la Sección 13 - Consideraciones de eliminación.

Sección 7: Manipulación y almacenamiento

7.1 Precauciones para la manipulación segura

Manipulación	No se necesita ninguna manipulación especial. En caso de romperse un cartucho, evite el contacto con los reactivos vertidos. Evite el contacto con la piel y los ojos.

7.2 Condiciones para el almacenamiento seguro, incluidas posibles incompatibilidades

Almacenamiento	Almacénelos de acuerdo con las indicaciones de su etiqueta. Mantenga el contenedor/embalaje bien cerrado en un lugar fresco y ventilado. Mantenga el producto alejado de materiales incompatibles.

7.3 Usos finales específicos

Consulte la Sección 1.2 - Usos identificados relevantes.

Sección 8: Controles de exposición / protección personal

8.1 Parámetros de control

Directrices/límites de exposición			
	Resultado	**ACGIH**	**NIOSH**
Cloruro de amonio (12125-02-9)	STELs	20 mg/m3 STEL (vapor)	20 mg/m3 STEL (vapor)
	TWAs	10 mg/m3 TWA (vapor)	10 mg/m3 TWA (vapor)

8.2 Controles de exposición

Controles/medidas de ingeniería
Es necesaria una buena ventilación general. La tasa de ventilación debe corresponder a las condiciones. Si es posible, utilice recintos de procesamiento, ventilación local u otros controles de ingeniería para mantener los niveles del aire por debajo de los límites de exposición recomendados. Si los límites de exposición no se han establecido, mantenga los niveles del aire a un nivel aceptable.

Equipo de protección individual

Respiratorios
Siga los reglamentos para máscaras de la OSHA incluidas en el estándar 29 CFR 1910.134 y en el estándar europeo EN 149. Utilice una máscara aprobada por la NIOSH/MSHA o la norma europea EN 149 si se superan los límites de exposición o se experimentan síntomas.

Ocular/facial
Utilice gafas de protección contra salpicaduras químicas.

Piel/cuerpo
En el laboratorio, utilice guantes y bata para minimizar el contacto con la piel.

Controles de exposición en el medio ambiente
Siga las buenas prácticas para administrar el centro y eliminar residuos.

Clave de abreviaturas
ACGIH = Conferencia Estadounidense de Higienistas Industriales de la Administración
NIOSH = Instituto Nacional para la Seguridad y Salud Ocupacional
OSHA = Administración de Seguridad y Salud Ocupacional
STEL = Los límites de exposición a corto plazo se basan en exposiciones de 15 minutos
TWA = Los promedios de tiempo ponderado se basan en exposiciones durante 8 h/día y 40 h/semana

Sección 9: Propiedades físicas y químicas

9.1 Información sobre las propiedades físicas y químicas

Descripción del material			
Forma física	Líquido	Aspecto/Descripción	Los reactivos son líquidos transparentes, incoloros e inodoros, que se tamponan principalmente en soluciones acuosas.
Color	Transparente	Olor	Inodoro
Umbral de olor	Faltan datos		
Propiedades generales			
Punto de ebullición	100 °C (212 °F)	Punto de fusión / punto de congelación	0 °C (32 °F)
Temperatura de descomposición	Faltan datos	pH	8 a 8,3 (sólidos y otros reactivos líquidos)
Gravedad específica / densidad relativa	Faltan datos	Hidrosolubilidad	Faltan datos
Viscosidad	Faltan datos	Propiedades explosivas	Faltan datos
Propiedades oxidantes:	Faltan datos		
Volatilidad			
Presión del vapor	Faltan datos	Densidad del vapor	Faltan datos
Tasa de evaporación	Faltan datos		
Inflamabilidad			
Punto de inflamación	Faltan datos	UEL	Faltan datos
LEL	Faltan datos	Autoignición	Faltan datos
Inflamabilidad (sólido, gas)	Faltan datos		
Medioambiental			
Coeficiente de reparto octanol/agua	Faltan datos		

9.2 Información adicional

No se han anotado parámetros físicos o químicos adicionales.

Sección 10: Estabilidad y reactividad

10.1 Reactividad

No se conocen reacciones peligrosas bajo condiciones normales de uso.

10.2 Estabilidad del producto químico

Estable

10.3 Posibilidad de reacciones peligrosas

No ocurrirá polimerización peligrosa.

10.4 Condiciones que deben evitarse

Calor y humedad (afectan a la calidad del producto)

10.5 Materiales incompatibles

Ácidos, agentes oxidantes.

10.6 Productos de descomposición peligrosos

Óxidos de carbono, óxidos de potasio.

Sección 11: Información toxicológica

11.1 Información sobre efectos toxicológicos

Componentes		
Cloruro de amonio (20% A 30%)	12125-02-9	**Toxicidad aguda:** Ingestión/Oral-Rata LD50 • 1650 mg/kg; **Irritación:** Ojo-Conejo • 100 mg • Irritación grave
Carbonato potásico (1% A 5%)	584-08-7	**Toxicidad aguda:** Ingestión/Oral-Rata LD50 • 1870 mg/kg; **Toxicidad multidosis:** Inhalación-Rata TCLo • 43 mg/m³ 17 semana(s); *Cardíaco*:**Cambios en el ECG sin diagnóstico anterior**; *Riñón, uréter y vejiga*:**Otros cambios en la composición de la orina**; *Nutricional y metabólico importante:Cambios térmicos o químicos*: **K**; **Mutágeno:** Síntesis de ADN no programada • Ingestión/Oral-Rata • 504 g/kg (4 semana(s)-Continuo)

Sección 12: Información ecológica

12.1 Toxicidad

	CAS	
Kit de recogida de muestras de orina Xpert, kit de recogida de muestras de orina Xpert CT/NG	No hay datos disponibles	**Toxicidad acuática-Peces:** 4 día(s) LC50 *Sardina atlántica* 0,14 mg/L Comentarios: Cloruro de amonio (12125-02-9) 30 días(s) NOEC *Pez gato americano* 0,006 mg/L Comentarios: Cloruro de amonio (12125-02-9) **Toxicidad acuática-Crustáceos:** 2 día(s) EC50 *Ostracoda* 0,075-0,126 mg/L Comentarios: Cloruro de amonio (12125-02-9) 21 días(s) NOEC *Pulga de agua* 0,05 mg/L Comentarios: Cloruro de amonio (12125-02-9) **Toxicidad acuática-Algas y otra(s) planta(s) acuática(s):** 3 día(s) EC50 *Alga collar de Neptuno* 0,04-0,1 mg/L Comentarios: Cloruro de amonio (12125-02-9)

Tóxico para los organismos acuáticos. Tóxico para los organismos acuáticos, con efectos nocivos duraderos.

12.2 Persistencia y degradabilidad

Faltan datos de material.

12.3 Potencial bioacumulativo

Faltan datos de material.

12.4 Movilidad en el suelo

Faltan datos de material.

12.5 Resultados de la evaluación de PBT y mPmB

No se ha realizado ninguna valoración de PBT y mPmB.

12.6 Otros efectos adversos

No se han encontrado estudios.

Sección 13: Consideraciones sobre la eliminación

13.1 Métodos de tratamiento de residuos

Residuos de productos Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

Residuos de embalaje Deseche el contenido y/o el contenedor conforme a los reglamentos locales, regionales, nacionales e internacionales.

13.2 Información adicional

Los especímenes biológicos, incluidos cartuchos usados, deben tratarse como posibles transmisores de agentes infecciosos. Consulte con el personal de residuos medioambientales de su institución el procedimiento correcto de eliminación de cartuchos utilizados y de reactivos sin utilizar. Este material puede mostrar características de residuos peligrosos según la Ley de Recuperación y Conservación de Recursos (RCRA) de la EPA y necesitar requisitos específicos para su eliminación. Compruebe los reglamentos locales y estatales, ya que pueden ser diferentes a los reglamentos de eliminación federales. Las instituciones externas a EE. UU. deben comprobar los requisitos de eliminación de residuos peligrosos de su país.

Ficha de dados de segurança
Data de entrada em vigor: Fevereiro de 2020
Data de substituição: Julho de 2016

Xpert Urine Specimen Collection Kit
Xpert CT/NG Urine Specimen Collection Kit

Secção 1: Identificação da substância/mistura e da empresa/projeto

1.1 Identificador do Produto

Nome do Produto	**Xpert Urine Specimen Collection Kit, Xpert CT/NG Urine Specimen Collection Kit**
Código do produto	CT/NGURINE-50; URINE/A-50

1.2 Usos relevantes da substância ou mistura identificados, e usos não recomendados

Uso(s) relevante(s) identificado(s)	Utilização laboratorial

1.3 Detalhes do fornecedor da ficha de dados de segurança do material

Fabricante		Cepheid 904 Caribbean Drive Sunnyvale, CA 94089 Estados Unidos da América www.cepheid.com EUA: techsupport@cepheid.com
	Telefone (Geral)	1 (888) 838-3222 - Opção 2 (EUA)
	Telefone (Geral)	1 (408) 541-4191 - Fora dos EUA
Fornecedor		Cepheid AB Röntgenvägen 5 SE-171 54 Solna Suécia www.cepheidinternational.com UE: support@cepheideurope.com
	Telefone (Geral)	+33 563 825 319

1.4 Número de telefone de emergência

Fabricante	+ 1 (800) 535-5053 - INFOTRAC - Emergência durante 24 h
Fabricante	+ 1 (352) 323-3500- Fora dos EUA

Secção 2: Identificação dos riscos

UE/CEE

Segundo: Regulamentação (CE) N.º 1272/2008 (CLP)/REACH 1907/2006 [alterada pela 453/2010]

2.1 Classificação da substância ou mistura

CLP	A seguinte ficha de dados de segurança destina-se apenas ao produto final acabado usado em laboratório. Contém componentes líquidos, alguns dos quais sob a forma de pós liofilizados e reagentes que se encontram no cartucho e numa garrafa Nalgene. Todos os reagentes são líquidos incolores e transparentes. As isenções para a divulgação de informação sobre alguns componentes estão em conformidade com o artigo 1(5)(d) do CLP e a secção 29 1910.1200(g)(2)(i)(C)(1)&(2) do CFR. Irritação ocular 2 — H319

2.2 Elementos do rótulo

CLP

AVISO

Declarações de risco H319 — Provoca irritação ocular grave

Declarações de precaução

Prevenção P264 — Lavar cuidadosamente após manuseamento.
P280 — Usar luvas de protecção/vestuário de protecção/protecção ocular/protecção facial.

Resposta P305 + P351 + P338 — SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar.
P337 + P313 — Caso a irritação ocular persista: consulte um médico.

2.3 Outros riscos

CLP Este material é considerado perigoso de acordo com a Regulamentação (CE) N.º 1272/2008 (CLP).

GHS da ONU Revisão 3

Segundo: Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS) da ONU: Terceira edição revista

2.1 Classificação da substância ou mistura

GHS da ONU
Toxicidade oral aguda 5
Irritação ocular 2
Perigoso para o ambiente aquático Agudo 1
Perigoso para o ambiente aquático Crónico 1

2.2 Elementos do rótulo

GHS da ONU

AVISO

Declarações de risco
Possibilidade de ser nocivo por ingestão
Provoca irritação ocular grave
Muito tóxico para a vida aquática
Muito tóxico para a vida aquática com efeitos duradouros

Declarações de precaução

Prevenção
Lavar cuidadosamente após manuseamento.
Evitar a libertação para o ambiente.
Usar luvas de proteção/vestuário de proteção/proteção ocular/proteção facial.

Resposta	SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar. Caso a irritação ocular persista: consulte um médico. Caso sinta indisposição, contacte um CENTRO DE INFORMAÇÃO ANTIVENENOS ou um médico. Recolher derrame.
Armazenamento/Eliminação	Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

2.3 Outros riscos

GHS da ONU Este produto é considerado perigoso de acordo com o Sistema Mundial Harmonizado de Classificação e Rotulagem de Produtos Químicos (GHS).

Estados Unidos da América (EUA)
Segundo: OSHA 29 CFR 1910.1200 HCS

2.1 Classificação da substância ou mistura

OSHA HCS 2012 Irritação ocular 2

2.2 Elementos do rótulo

OSHA HCS 2012

AVISO

Declarações de risco	Provoca irritação ocular grave
Declarações de precaução	
Prevenção	Lavar cuidadosamente após manuseamento. Usar luvas de proteção/vestuário de proteção/proteção ocular/proteção facial.
Resposta	SE ENTRAR EM CONTACTO COM OS OLHOS: enxaguar cuidadosamente com água durante vários minutos. Se usar lentes de contacto, retire-as, se tal lhe for possível. Continue a enxaguar. Caso a irritação ocular persista: consulte um médico.

2.3 Outros riscos

OSHA HCS 2012 Este produto é considerado perigoso ao abrigo da Regulamentação dos Estados Unidos da América (Norma sobre Comunicação de Perigos - 29 CFR 1910.1200).

Canadá
Segundo: WHMIS

2.1 Classificação da substância ou mistura

WHMIS Outros efeitos tóxicos — D2B

2.2 Elementos do rótulo

WHMIS

Outros efeitos tóxicos — D2B

2.3 Outros riscos

WHMIS

No Canadá, o produto acima referido é considerado perigoso ao abrigo do Sistema de Informação de Materiais Perigosos no Local de Trabalho (WHMIS).

2.4 Outras informações

Todos os restantes reagentes, esferas e outros constituintes da mistura estão em concentrações inferiores a 1% ou não são considerados perigosos ao abrigo das regulamentações de comunicação de perigos (29 CFR 1910.1200), das diretivas da UE para a classificação e rotulagem de substâncias ou misturas ou do Sistema Mundial Harmonizado para a classificação e rotulagem de substâncias ou misturas.

Secção 3: Composição/informações sobre os ingredientes

3.1 Substâncias

O material não cumpre os critérios de uma substância.

3.2 Misturas

Composição					
Nome do produto químico	**Identificadores**	**%**	**LD50/LC50**	**Classificações de acordo com regulamentos/diretivas**	**Comentários**
Cloreto de amónio	**CAS:** 12125-02-9 **Número na CE:** 235-186-4 **Índice UE:** 017-014-00-8	20% A 30%	Ingestão/Oral-Rato LD50 • 1650 mg/kg	**UE CLP:** Anexo VI, Tabela 3.1: Tox. aguda 4 *, H302; Irrit. olhos 2, H319 **GHS da ONU Revisão 3:** Tox. aguda 4 (oral); Irrit. olhos 2; Toxicidade aguda em ambiente aquático 1; Aquática Crónica 1 **OSHA HCS 2012:** Tox. aguda 4 (oral); Irrit. olhos 2	NDA
Carbonato de potássio	**CAS:**584-08-7 **Número na CE:** 209-529-3	1% A 5%	Ingestão/Oral-Rato LD50 • 1870 mg/kg	**UE CLP:** Tox. aguda 4, H302 **GHS da ONU Revisão 3:** Tox. aguda 4 (oral); Irrit. olhos 2B **OSHA HCS 2012:** Tox. aguda 4 (oral); Irrit. olhos 2B	NDA

Consultar o texto completo das declarações de perigo na Secção 16.

Secção 4: Medidas de primeiros socorros

4.1 Descrição das medidas de primeiros socorros

Inalação

Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Mover a vítima para o ar livre. Administrar oxigénio se a respiração estiver difícil. Não usar o método boca-a-boca se a vítima tiver inalado a substância; ministre respiração artificial com o auxílio de uma máscara de bolso equipada com uma válvula de 1 via ou outro dispositivo médico de respiração adequado. Administrar respiração artificial se a vítima não estiver a respirar.

Pele	Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Para um pequeno contacto com a pele, evitar espalhar o material pela pele não afetada. Em caso de contacto com a substância, lavar imediatamente a pele com água corrente por pelo menos 20 minutos. Despir e isolar a roupa contaminada.
Olhos	Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de contacto com a substância, lavar imediatamente os olhos com água corrente por pelo menos 20 minutos. Caso a irritação ocular persista: consulte um médico.
Ingestão	Não devem ser necessários primeiros socorros se o material for utilizado nas condições normais e conforme recomendado. Em caso de ingestão, lavar a boca com água (apenas se a pessoa estiver consciente). NÃO provocar o vómito. Não usar o método boca-a-boca se a vítima tiver ingerido a substância. Em caso de ingestão, consultar um médico imediatamente.

4.2 Sintomas e efeitos mais importantes, tanto agudos quanto retardados

Consultar a Secção 11 — Informação Toxicológica.

4.3 Indicação de qualquer cuidado médico imediato e tratamento especial necessários

Notas para o Médico	Todos os tratamentos devem basear-se nos sinais e sintomas de perturbações observados no paciente. Deve ser considerada a possibilidade de sobrexposição a outros materiais além deste produto.

Secção 5: Medidas de combate a incêndios

5.1 Meios de extinção

Meios de extinção adequados	GRANDES INCÊNDIOS: Produto químico seco, CO2, espuma resistente ao álcool ou água pulverizada. PEQUENOS INCÊNDIOS: Produto químico seco, CO2 ou água pulverizada.
Meios de extinção inadequados	Sem dados disponíveis

5.2 Riscos especiais provocados pela substância ou mistura

Riscos de Incêndios e Explosões Incomuns	Pode emitir vapores tóxicos de óxidos de carbono, óxidos de azoto.
Produtos de combustão de risco	Sem dados disponíveis

5.3 Conselhos para bombeiros

Roupas protetoras estruturais de bombeiros fornecem APENAS proteção limitada em caso de incêndio; não são eficientes em situações de derramamentos, onde é possível o contacto direto com a substância.
Usar roupa protetora contra produtos químicos que seja especificamente recomendada pelo fabricante. Poderá fornecer proteção térmica mínima ou nenhuma proteção.
Usar aparelho de respiração autónomo de pressão positiva (SCBA).
PEQUENOS INCÊNDIOS: Se não houver perigos, mover os recipientes da área de incêndio.

Secção 6: Medidas contra Libertação Acidental

6.1 Precauções individuais, equipamento protetor e procedimentos em emergências

Precauções pessoais	No caso de um cartucho se partir, aplicam-se estas precauções de proteção individual. Usar vestuário de proteção adequado. Não andar sobre material derramado. Não tocar em recipientes danificados ou material derramado a não ser que esteja a usar vestuário de proteção adequado. Ventilar áreas fechadas.
Procedimentos de emergência	Não se prevê a necessidade de procedimentos de emergência se o material for usado em condições normais e de acordo com as recomendações.

6.2 Precauções ambientais

Evitar a entrada em cursos de água, esgotos, caves ou áreas confinadas.

6.3 Métodos e material para contenção e limpeza

Medidas de contenção/limpeza	Em caso de derrames pequenos, usar luvas e absorver o derrame com papel absorvente. Não eliminar os materiais derramados através do sistema de esgotos.

6.4 Referências para outras secções

Consultar a Secção 8 — Controlo da Exposição/Proteção Individual e a Secção 13 — Considerações relativas à eliminação.

Secção 7: Manuseamento e armazenamento

7.1 Precauções para o manuseamento seguro

Manuseamento	Não necessita de manuseamento especial. Se o cartucho se partir, evitar o contacto com os reagentes derramados. Evitar o contacto com a pele e os olhos.

7.2 Condições para armazenamento seguro, incluindo quaisquer incompatibilidades

Armazenamento	Armazenar de acordo com a documentação do produto. Guardar o recipiente/ embalagem bem fechado em local fresco e bem ventilado. Manter afastado de materiais incompatíveis.

7.3 Utilização(ões) Final(is) Específica(s)

Consultar a Secção 1.2 — Uso(s) final(is) específico(s).

Secção 8: Controlos e exposição/proteção individual

8.1 Parâmetros de controlo

Limites de Exposição/Orientações			
	Resultado	**ACGIH**	**NIOSH**
Cloreto de amónio (12125-02-9)	STEL	20 mg/m3 STEL (fumo)	20 mg/m3 STEL (fumo)
	TWA	10 mg/m3 TWA (fumo)	10 mg/m3 TWA (fumo)

8.2 Controlos de exposição

Medidas/Controlos de Engenharia
Deve usar-se uma boa ventilação geral. Os níveis de ventilação devem estar adequados às condições. Se aplicável, usar confinamento de processos, ventilação por exaustão local ou outro controlo técnico para manter os níveis de partículas disseminadas por via aérea em suspensão abaixo dos limites de exposição recomendados. Caso não tenham sido definidos limites, manter os níveis destas partículas em suspensão num nível aceitável.

Equipamento de Proteção Individual

Respiratório
Seguir as regulamentações da máscara OSHA que se encontram na norma 29 CFR 1910.134 ou na Norma Europeia EN 149. Em caso de ultrapassagem dos limites de exposição ou da ocorrência de sintomas, usar um aparelho de respiração aprovado pelo NIOSH/MSHA ou pela Norma Europeia EN 149.

Olhos/Face
Usar óculos de proteção contra salpicos de produtos químicos.

Pele/Corpo
Em ambiente laboratorial, usar, pelo menos, luvas e bata para minimizar o contacto com a pele.

Controlos Ambientais de Exposição
Seguir as melhores práticas para gestão do local e eliminação dos resíduos.

Chave para abreviaturas
ACGIH = Conferência de Higiene Industrial Governamental (EUA)
NIOSH = Instituto Nacional de Saúde e Segurança no Trabalho
OSHA = Agência para a Segurança e Saúde no Trabalho
STEL = Os limites de exposição de curta duração baseiam-se em exposições de 15 minutos
TWA = A Média Ponderada por tempo tem por base a exposição 8 h/dia, 40 h/semana

Secção 9: Propriedades físicas e químicas

9.1 Informações sobre Propriedades Físicas e Químicas

Descrição do material			
Forma física	Líquido	Aspeto/Descrição	Os reagentes são líquidos transparentes e incolores, inodoros, que são, principalmente, tamponados em soluções aquosas.
Cor	Transparente	Odor	Inodoro
Limiar do Odor	Dados em falta		
Propriedades gerais			
Ponto de ebulição	100 °C (212 °F)	Ponto de fusão/Ponto de congelamento	0 °C (32 °F)
Temperatura de decomposição	Dados em falta	pH	8 a 8,3 (sólidos e outros reagentes líquidos)
Gravidade específica/Densidade relativa	Dados em falta	Solubilidade em água	Dados em falta
Viscosidade	Dados em falta	Propriedades explosivas	Dados em falta
Propriedades Oxidantes:	Dados em falta		
Volatilidade			
Pressão do vapor	Dados em falta	Densidade do vapor	Dados em falta
Taxa de evaporação	Dados em falta		
Inflamabilidade			
Ponto de inflamação	Dados em falta	UEL	Dados em falta
LEL	Dados em falta	Autoignição	Dados em falta
Inflamabilidade (sólido/gasoso)	Dados em falta		
Ambiental			
Coeficiente de partição octanol/água	Dados em falta		

9.2 Outras Informações

Não foram observados parâmetros físico-químicos adicionais.

Secção 10: Estabilidade e reatividade

10.1 Reatividade

Desconhecida reação perigosa em condições normais de utilização.

10.2 Estabilidade química

Estável

10.3 Possibilidade de reações perigosas

Não haverá polimerização perigosa.

10.4 Condições a evitar

Calor, humidade (que afeta a qualidade do produto)

10.5 Materiais incompatíveis

Ácidos, agentes oxidantes.

10.6 Produtos de decomposição perigosos

Óxidos de carbono, óxidos de potássio.

Secção 11: Informações toxicológicas

11.1 Informações sobre efeitos toxicológicos

Componentes		
Cloreto de amónio (20% A 30%)	12125-02-9	**Toxicidade aguda:** Ingestão/Oral-Rato LD50 • 1650 mg/kg; **Irritação:** Olho-Coelho • 100 mg • Irritação grave
Carbonato de potássio (1% A 5%)	584-08-7	**Toxicidade aguda:** Ingestão/Oral-Rato LD50 • 1870 mg/kg; **Toxicidade multidose:** Inalação-rato TCLo • 43 mg/m³ 17 semana(s); *Cardíaca*: **alterações no ECG não diagnósticas do supramencionado**; *Rins, uréter e bexiga*: **outras alterações na composição da urina**; *Nutricionais e metabólicas grosseiras: alterações na química ou temperatura*:K ; **Mutagénio:** Síntese de ADN não programada • Ingestão/oral-rato • 504 g/kg 4 semana(s) — contínua

Propriedades do GHS	Classificação
Toxicidade aguda	**UE/CLP**•Dados em falta **GHS da ONU 3**•Toxicidade aguda — oral 5 — ATEmix (oral) = 4795 mg/kg **OSHA HCS 2012**•Dados em falta

Secção 12: Informações ecológicas

12.1 Toxicidade

	CAS	
Xpert Urine Specimen Collection Kit, Xpert CT/NG Urine Specimen Collection Kit	NDA	**Toxicidade aquática-peixes:** 4 dia(s) LC50 *Peixe-rei-verde* 0,14 mg/l Comentários: Cloreto de amónio (12125-02-9) 30 dia(s) NOEC *Peixe-gato pontuado* 0,006 mg/l Comentários: Cloreto de amónio (12125-02-9) **Toxicidade aquática-crustáceos:** 2 dia(s) EC50 *Ostracod* 0,075-0,126 mg/l Comentários: Cloreto de amónio (12125-02-9) 21 dia(s) NOEC *Pulga de água* 0,05 mg/l Comentários: Cloreto de amónio (12125-02-9) **Toxicidade aquática-algas e outra(s) planta(s) aquática(s):** 3 dia(s) EC50 *Algas colar de Neptuno* 0,04-0,1 mg/l Comentários: Cloreto de amónio (12125-02-9)

Tóxico para a vida aquática. Tóxico para a vida aquática com efeitos duradouros.

12.2 Persistência e degradabilidade

Dados dos materiais em falta.

12.3 Potencial bioacumulativo

Dados dos materiais em falta.

12.4 Mobilidade no solo

Dados dos materiais em falta.

12.5 Resultados de avaliação PBT e vPvB

Não foi feita a avaliação PBT e vPvB.

12.6 Outros efeitos adversos

Não foram encontrados estudos.

Secção 13: Considerações sobre a eliminação

13.1 Métodos de tratamento de dejetos

Produto residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

Embalagem residual Eliminar o conteúdo e/ou recipiente de acordo com a regulamentação local, regional, nacional e/ou internacional.

13.2 Outras informações

As amostras biológicas, incluindo cartuchos usados, devem ser tratadas como potenciais fontes de transmissão de agentes infeciosos. Consultar os técnicos responsáveis pelos resíduos ambientais da sua instituição relativamente à eliminação correta de cartuchos usados e reagentes não utilizados. Este material pode apresentar características de resíduos perigosos segundo a Lei de Recuperação e Conservação de Recursos (RCRA) da Agência de Proteção Ambiental (EPA), que exijam requisitos de eliminação específicos. Verificar as regulamentações estaduais e locais, uma vez que poderão diferir das regulamentações federais de eliminação de resíduos. As instituições fora dos EUA devem verificar os requisitos relativos à eliminação de resíduos perigosos dos respetivos países.

Renúncia/ Declaração de responsabilidade

A informação supramencionada baseia-se em dados que nos foram disponibilizados e é tida como correta. Dado que a informação pode ser aplicada em condições fora do nosso controlo e com as quais podemos não estar familiarizados, não assumimos qualquer responsabilidade pelo resultado da sua utilização, e todas as pessoas que a recebam têm de determinar individualmente os efeitos, as propriedades, as proteções e os procedimentos de eliminação que se aplicam às suas condições particulares. Não se assume qualquer representação ou garantia, implícita ou explicitamente (incluindo garantia de adequação ou comerciabilidade para uma finalidade específica) em relação aos materiais, à exatidão desta informação, aos resultados obtidos decorrentes da sua utilização ou a perigos relacionados com a utilização deste material. Deve-se ter cuidado no manuseamento e utilização deste material. A informação anterior é disponibilizada de boa-fé e é tida como exata. À data de emissão, fornecemos toda a informação relevante para um manuseamento previsível do material. No entanto, caso ocorra um incidente adverso associado a este produto, esta ficha de dados de segurança não substitui, nem se pretende que substitua, a consulta de um profissional com formação adequada. Fornecer renúncia.

Раздел 2: Идентификация опасности

ЕС/ЕЭС

Согласно: Регламенту ЕК (ЕС) № 1272/2008 (CLP)/REACH 1907/2006 [с поправками, внесенными постановлением 453/2010]

2.1 Классификация вещества или смеси

Регламент CLP

Следующий паспорт безопасности материала действителен только для готового продукта, используемого в лабораторных условиях. Содержит жидкие компоненты, некоторые из которых лиофилизированы, а также реактивы, содержащиеся в картридже и во флаконе Nalgene. Все реактивы представляют собой прозрачные бесцветные жидкости. Исключения в отношении разглашения информации о некоторых компонентах предусмотрены статьей 1(5)(d) Регламента CLP и разделом 29 Свода федеральных правил (CFR) США, ст. 1910.1200(g)(2)(i)(C)(1)&(2).
Раздражение глаз, 2 - H319

2.2 Элементы маркировки

Регламент CLP

ВНИМАНИЕ!

Указания на опасность

H319 - Вызывает серьезное раздражение глаз

Меры предосторожности

Профилактика

P264 - После использования тщательно вымыть.
P280 - Пользуйтесь защитными перчатками, защитной одеждой, средствами защиты глаз/лица.

Реагирование

P305+P351+P338 - ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание.
P337+P313 - Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

2.3 Другие факторы опасности

Регламент CLP

Согласно Регламенту ЕК № 1272/2008 (CLP) этот материал считается опасным.

СГС ООН, редакция 3

Согласно: Согласованная на глобальном уровне система классификации опасности и маркировки химической продукции (СГС) ООН:
третья пересмотренная редакция

2.1 Классификация вещества или смеси

СГС ООН

Острая токсичность, перорально, 5
Раздражение глаз, 2
Опасность для водной среды, острая, 1
Опасность для водной среды, при хроническом воздействии, 1

2.2 Элементы маркировки

СГС ООН

ВНИМАНИЕ!

Указания на опасность	Может быть вредно при проглатывании Вызывает серьезное раздражение глаз Очень токсично для водных организмов Очень токсично для водных организмов с долгосрочными последствиями
Меры предосторожности	
Профилактика	После использования тщательно вымыть. Избегайте попадания в окружающую среду. Пользуйтесь защитными перчатками, защитной одеждой, средствами защиты глаз/лица.
Реагирование	ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью. При плохом самочувствии обратиться в ТОКСИКОЛОГИЧЕСКИЙ ЦЕНТР или к врачу-специалисту/терапевту. Ликвидировать разлив.
Хранение/удаление в отходы	Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

2.3 Другие факторы опасности

СГС ООН	В соответствии с Согласованной на глобальном уровне системой классификации опасности и маркировки химической продукции (СГС) данный продукт считается опасным.

США
Согласно: OSHA 29 CFR 1910.1200 HCS

2.1 Классификация вещества или смеси

OSHA HCS 2012	Раздражение глаз, 2

2.2 Элементы маркировки

OSHA HCS 2012

ВНИМАНИЕ!

Указания на опасность	Вызывает серьезное раздражение глаз
Меры предосторожности	
Профилактика	После использования тщательно вымыть. Пользуйтесь защитными перчатками, защитной одеждой, средствами защиты глаз/лица.
Реагирование	ДЕЙСТВИЯ ПРИ ПОПАДАНИИ В ГЛАЗА. Осторожно промыть водой в течение нескольких минут. Снять контактные линзы, если вы ими пользуетесь и если это легко сделать. Продолжить промывание. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

2.3 Другие факторы опасности

OSHA HCS 2012

Согласно государственным нормам США (документ 29 CFR 1910.1200 - Стандарт-требование об оповещении об опасности) этот продукт считается опасным.

Канада
Согласно: WHMIS

2.1 Классификация вещества или смеси

WHMIS

Другие токсические эффекты, D2B

2.2 Элементы маркировки

WHMIS

Другие токсические эффекты, D2B

2.3 Другие факторы опасности

WHMIS

В Канаде указанное выше вещество согласно требованиям Информационной системы по опасным материалам на рабочих местах (WHMIS) считается опасным.

2.4 Дополнительная информация

Все остальные реактивы, гранулы и прочие составляющие представлены в смеси в концентрациях менее 1% или не считаются опасными согласно Стандартам-требованиям США об оповещении об опасности (29 CFR 1910.1200), директивам ЕС в отношении классификации и маркировки веществ и смесей и Согласованной на глобальном уровне системе классификации опасности и маркировки химической продукции (СГС).

Набор для сбора образца мочи Xpert
набор для сбора образца мочи Xpert CT/NG

Раздел 3: Состав/информация о компонентах

3.1 Вещества

Материал не отвечает критериям классификации, применяемым к веществам.

3.2 Смеси

Состав					
Химическое наименование	**Идентификаторы**	**%**	**LD50/LC50**	**Классификация в соответствии с нормами/постановлениями**	**Комментарии**
Хлорид аммония	**CAS:** 12125-02-9 **Номер EC:** 235-186-4 **Индекс EU:** 017-014-00-8	ОТ 20% ДО 30%	прием внутрь/перорально-крыса LD50 • 1650 мг/кг	**EU CLP:** приложение VI, таблица 3.1: острая токсичность 4 *, H302; раздражение глаз 2, H319 **СГС ООН, редакция 3:** острая токсичность 4 (перорально); раздражение глаз 2; острая токсичность для водной среды 1; токсично для водной среды при хроническом воздействии 1 **OSHA HCS 2012:** острая токсичность 4 (перорально); раздражение глаз 2	Нет данных
Карбонат калия	**CAS:**584-08-7 **Номер EC:** 209-529-3	ОТ 1% ДО 5%	прием внутрь/перорально-крыса LD50 • 1870 мг/кг	**EU CLP:** острая токсичность 4, H302 **СГС ООН, редакция 3:** острая токсичность 4 (перорально); раздражение глаз 2B **OSHA HCS 2012:** острая токсичность 4 (перорально); раздражение глаз 2B	Нет данных

См. раздел 16 с полным текстом указаний на опасность.

Раздел 4: Первая медицинская помощь

4.1 Описание мер первой медицинской помощи

Вдыхание Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. Вынести пострадавшего на свежий воздух. При затрудненном дыхании дать кислород. При вдыхании вещества не применять искусственное дыхание рот-в-рот. Выполнить искусственное дыхание с помощью карманной маски с клапаном одностороннего действия или другого подходящего медицинского устройства. При остановке дыхания обеспечить искусственное дыхание/ИВЛ.

Кожа Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При незначительном контакте с кожей избегайте распространения материала на незатронутые участки. В случае контакта вещества с кожей незамедлительно промыть пораженный участок проточной водой в течение не менее чем 20 минут. Снять и изолировать загрязненную одежду.

Глаза Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. В случае попадания вещества незамедлительно промыть глаза проточной водой в течение не менее чем 20 минут. Если раздражение глаз не проходит: обратиться за медицинской консультацией/помощью.

Проглатывание	Ожидается, что первая помощь не потребуется, если материал используется в обычных условиях и с соблюдением рекомендаций. При проглатывании прополоскать рот водой (только если человек находится в сознании). НЕ вызывать рвоту. Не применять искусственное дыхание рот-в-рот при проглатывании вещества. При проглатывании материала сразу же обратиться к врачу.

4.2 Наиболее важные симптомы и последствия, проявляющиеся немедленно и с задержкой

См. раздел 11, «Токсикологическая информация».

4.3 Признаки необходимости неотложной медицинской помощи и специального лечения

Примечания для врача	Лечение основывать на наблюдаемых симптомах. Учитывать возможность одновременного чрезмерного воздействия на пациента и других веществ, помимо данного продукта.

Раздел 5: Меры противопожарной безопасности

5.1 Средства пожаротушения

Подходящие средства пожаротушения	КРУПНЫЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), спиртоустойчивые пенообразователи, распыленная вода. НЕБОЛЬШИЕ ПОЖАРЫ. Сухое химическое огнетушащее средство, углекислый газ (CO2), распыленная вода.
Непригодные средства пожаротушения	Данные отсутствуют

5.2 Особые аспекты опасности вещества или смеси

Особая огне- и взрывоопасность	Возможно выделение токсичных испарений: оксиды углерода, оксиды азота.
Опасные продукты горения	Данные отсутствуют

5.3 Рекомендации по пожаротушению

Защитная одежда пожарных для тушения пожаров в зданиях обеспечивает ограниченную защиту ТОЛЬКО в условиях пожара; она не является эффективным средством защиты при разливах с возможным непосредственным контактом с веществами.
Носить одежду для химической защиты, рекомендованную производителем. Она может быть малоэффективна или неэффективна в качестве тепловой защиты.
Использовать автономные дыхательные аппараты, работающие в режиме положительного давления.
НЕБОЛЬШИЕ ПОЖАРЫ. Уберите контейнеры из зоны пожара, если можете сделать это без риска.

Раздел 6: Меры по предотвращению и ликвидации последствий случайного выброса материала

6.1 Меры по обеспечению личной безопасности, средства защиты и действия в чрезвычайной ситуации

Меры по обеспечению личной безопасности	В случае разбития картриджа актуальны указанные меры по обеспечению личной безопасности. Используйте соответствующую защитную одежду. Не ходите по разлитому/просыпанному материалу. Не прикасайтесь к поврежденным контейнерам или разлитому/просыпанному материалу, если нет соответствующей защитной одежды. Проветрите закрытые помещения.
Действия в чрезвычайных ситуациях	Ожидается, что экстренные меры не потребуются, если материал используется в обычных условиях и с соблюдением рекомендаций.

6.2 Меры по защите окружающей среды

Не допускать попадания в водотоки, канализацию, подвалы и замкнутые пространства.

6.3 Методы и средства локализации и очистки

Меры и средства локализации и очистки	При небольших разливах используйте перчатки. Для сбора вещества используйте бумажные полотенца. Не сливать пролитые вещества в канализацию.

6.4 Ссылки на другие разделы

См. раздел 8, «Меры контроля воздействия и средства индивидуальной защиты», и раздел 13, «Условия удаления в отходы».

Раздел 7: Правила обращения и хранения

7.1 Меры предосторожности при обращении с продуктом

Обращение	Особое обращение не требуется. В случае разбития картриджа избегайте контакта с разлившимися реактивами. Избегать контакта с кожей и глазами.

7.2 Условия безопасного хранения и учет факторов несовместимости

Место хранения	Хранить согласно указаниям на упаковке. Хранить в плотно закрытом контейнере/упаковке в прохладном, хорошо проветриваемом месте. Хранить вдали от несовместимых материалов.

7.3 Особые способы применения

См. раздел 1.2, «Рекомендованные способы применения».

Раздел 8: Меры контроля воздействия и средства индивидуальной защиты

8.1 Контрольные параметры

Предельно допустимые концентрации/рекомендации			
	Результат	**ACGIH**	**NIOSH**
Хлорид аммония (12125-02-9)	STEL	20 мг/м3 STEL (пары)	20 мг/м3 STEL (пары)
	TWA	10 мг/м3 TWA (пары)	10 мг/м3 TWA (пары)

8.2 Меры контроля воздействия

Инженерно-технические мероприятия/средства контроля
Следует обеспечить хорошую общую вентиляцию. Интенсивность вентиляции должна соответствовать условиям хранения/использования. Если возможно, используйте изолированное рабочее пространство, местную вытяжную вентиляцию и прочие инженерно-технические средства для сдерживания концентрации вещества в воздухе на уровне ниже ПДК. Если ПДК не установлены, поддерживайте приемлемые концентрации вещества в воздухе.

Индивидуальные средства защиты

Защита органов дыхания
Соблюдайте рекомендации по использованию респираторов Управления охраны труда (OSHA) США, изложенные в документе 29 CFR 1910.134, или Европейского стандарта EN 149. При превышении ПДК или обнаружении признаков поражения используйте респираторы, одобренные Национальным институтом по безопасности и гигиене труда (NIOSH) США, Управлением по безопасности и охране труда в добывающей промышленности (MSHA) США или Европейским стандартом EN 149.

Защита глаз/лица
Носите очки химической защиты.

Защита кожных покровов/тела
При работе в лаборатории для сведения к минимуму риска контакта с кожей используйте перчатки и халат.

Защита окружающей среды
Соблюдайте общие правила работы на объекте и удаления отходов.

Сокращения
ACGIH = Американская конференция правительственных специалистов по гигиене труда в промышленности (American Conference of Governmental and Industrial Hygiene).
NIOSH = Национальный институт по безопасности и гигиене труда, США (National Institute of Occupational Safety and Health).
OSHA = Управление охраны труда, США (Occupational Safety and Health Administration).
STEL = пределы кратковременного воздействия, основанные на 15-минутном периоде.
TWA = Средневзвешенная во времени концентрация, вычисляемая на основании воздействия в течение 8 часов в день, 40 часов в неделю.

Раздел 9: Физические и химические свойства

9.1 Информация о физических и химических свойствах

Описание материала			
Физическая форма	Жидкость	Внешний вид/описание	Реактивы представляют собой прозрачные бесцветные жидкости без запаха, в основном буферизованные в водных растворах.
Цвет	Прозрачная	Запах	Без запаха
Порог ощущения запаха	Данные отсутствуют		
Общие свойства			
Точка кипения	100 °C (212 °F)	Температура плавления/замерзания	0 °C (32 °F)
Температура разложения	Данные отсутствуют	pH	от 8 до 8,3 (твердые вещества и прочие жидкие реактивы)
Удельный вес/относительная плотность	Данные отсутствуют	Растворимость в воде	Данные отсутствуют
Вязкость	Данные отсутствуют	Взрывчатые свойства	Данные отсутствуют
Окислительные свойства:	Данные отсутствуют		
Летучесть			
Давление паров	Данные отсутствуют	Плотность паров	Данные отсутствуют
Интенсивность испарения	Данные отсутствуют		
Воспламеняемость			
Температура вспышки	Данные отсутствуют	ВКПВ (верхний предел взрываемости)	Данные отсутствуют
НПВ (нижний предел взрываемости)	Данные отсутствуют	Самовоспламенение	Данные отсутствуют
Воспламеняемость (в твердом, газообразном состоянии)	Данные отсутствуют		
В отношении окружающей среды			
Коэффициент распределения октанол/вода	Данные отсутствуют		

9.2 Дополнительная информация

Дополнительные физические и химические свойства не обнаружены.

Раздел 10: Стабильность и реакционная способность

10.1 Реакционная способность

В нормальных условиях использования опасные реакции неизвестны.

10.2 Химическая стабильность

Стабильно

10.3 Вероятность опасных реакций

Опасная полимеризация не происходит.

10.4 Условия, которых следует избегать

Нагрев, влажность (факторы, влияющие на качество продукта)

10.5 Несовместимые материалы

Кислоты, окислители.

10.6 Опасные продукты разложения

Оксиды углерода, оксиды калия.

Раздел 11: Токсикологическая информация

11.1 Информация о токсикологических последствиях

		Компоненты
Хлорид аммония (ОТ 20% ДО 30%)	12125-02-9	**Острая токсичность:** прием внутрь/перорально-крыса LD50 • 1650 мг/кг **Раздражение:** глаза-кролик • 100 мг • сильное раздражение
Карбонат калия (ОТ 1% ДО 5%)	584-08-7	**Острая токсичность:** прием внутрь/перорально-крыса LD50 • 1870 мг/кг **Токсичность при неоднократном введении:** вдыхание-крыса TCLo • 43 мг/м³ 17 недель; *сердце*: **изменения на ЭКГ, не характерные для перечисленного выше**; *почки, мочеточники, мочевой пузырь*: **другие изменения состава мочи**; *питание и общий метаболизм: изменения биохимических показателей или температуры*: **K (калий)**; **Мутаген:** незапланированный синтез ДНК • прием внутрь/перорально-крыса • 504 г/кг 4 недели-непрерывный

Свойства (СГС)	**Классификация**
Острая токсичность	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Острая токсичность - перорально - категория 5 - расчетная оценка острой токсичности ATEmix (пероральное введение) = 4795 мг/кг **OSHA HCS 2012** • Данные отсутствуют
Разъедающее/раздражающее воздействие на кожу	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Серьезное повреждение/раздражение глаз	**EU/CLP** • Раздражение глаз, категория 2 **СГС ООН 3** • Раздражение глаз, категория 2 **OSHA HCS 2012** • Раздражение глаз, категория 2
Сенсибилизация кожи	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Сенсибилизация органов дыхания	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Опасность при аспирации	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Канцерогенность	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Мутагенность для зародышевых клеток	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Токсическое действие на репродуктивную функцию	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют

Свойства (СГС)	Классификация
Органоспецифическая токсичность при однократном воздействии (STOT-SE)	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют
Органоспецифическая токсичность при многократном воздействии (STOT-RE)	**EU/CLP** • Данные отсутствуют **СГС ООН 3** • Данные отсутствуют **OSHA HCS 2012** • Данные отсутствуют

Возможные последствия для здоровья

Вдыхание
Острые последствия Данные отсутствуют
Хронические последствия Данные отсутствуют

Кожа
Острые последствия Данные отсутствуют
Хронические последствия Данные отсутствуют

Глаза
Острые последствия Вызывает серьезное раздражение глаз.
Хронические последствия Данные отсутствуют

Проглатывание
Остро выраженные последствия Может быть вредно при проглатывании.
Хронические последствия Данные отсутствуют

Сокращения
LD = Летальная доза
TC = токсическая концентрация

Раздел 12: Информация о воздействии на окружающую среду

12.1 Токсичность

	CAS	
Набор для сбора образца мочи Xpert, набор для сбора образца мочи Xpert CT/NG	Нет данных	**Токсичность для водных организмов-рыбы:** 4 дня LC50 *атлантическая менидия* 0,14 мг/л Комментарии: Хлорид аммония (12125-02-9) 30 дней NOEC *американский сомик* 0,006 мг/л Комментарии: Хлорид аммония (12125-02-9) **Токсичность для водных организмов-ракообразные:** 2 дня EC50 *ракушковые ракообразные* 0,075-0,126 мг/л Комментарии: Хлорид аммония (12125-02-9) 21 день NOEC *дафния* 0,05 мг/л Комментарии: Хлорид аммония (12125-02-9) **Токсичность для водных организмов-водоросли и другие водные растения:** 3 дня EC50 *хормозира Банкса* 0,04-0,1 мг/л Комментарии: Хлорид аммония (12125-02-9)

Токсично для водных организмов. Токсично для водных организмов с долгосрочными последствиями.

12.2 Устойчивость и способность к разложению

Данные о материале отсутствуют.

12.3 Способность к биоаккумуляции

Данные о материале отсутствуют.

12.4 Подвижность в почве

Данные о материале отсутствуют.

12.5 Результаты оценки соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества»

Оценка соответствия признакам «устойчивого биоаккумулятивного токсического вещества» и «очень устойчивого биоаккумулятивного вещества» не производилась.

12.6 Другие неблагоприятные последствия

Исследования не проводились.

Раздел 13: Условия удаления в отходы

13.1 Методы переработки отходов

Отходы продукта Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

Отходы упаковки Удаление в отходы тары и/или содержимого должно осуществляться в соответствии с местными, региональными, государственными и/или международными нормами.

13.2 Дополнительная информация

К биологическим образцам, включая использованные картриджи, следует относиться как материалам, способным служить источником инфекционного заражения. По вопросам надлежащего удаления в отходы использованных картриджей и неиспользованных реактивов проконсультируйтесь с лицами, ответственными за обращение с отходами в вашей организации. Данный материал может иметь характеристики опасных отходов с особыми требованиями к удалению отходов, предусмотренные агентством EPA согласно Федеральному закону об охране и восстановлении ресурсов (RCRA) США. Ознакомьтесь с местными нормами, так как они могут отличаться от федеральных норм. Организации за пределами США должны ознакомиться с нормами обращения с опасными отходами, принятыми в соответствующих странах.

Раздел 14: Информация о транспортировке

Xpert Urine Specimen Collection Kit（Xpert 尿液样本采集工具包）
Xpert CT/NG Urine Specimen Collection Kit（Xpert CT/NG 尿液样本采集工具包）

第 2 章：危险标识

EU/EEC

根据：第 1272/2008 号规章（欧共体）(CLP)/REACH 1907/2006 [修订版 453/2010]

2.1 物质或混合物的分类

CLP

以下 SDS 仅适用于用于实验室的最终成品。它含有液体组分，其中一些呈冷冻干燥粉末状和制剂状，装于盒子和 Nalgene 瓶子中。所有制剂均为清澈、无色液体。
例外地披露某些组分信息的依据是 CLP Article 1(5)(d) 和 29 CFR 1910.1200(g)(2)(i)(C)(1)&(2)。
眼刺激 2 - H319

2.2 标签元素

CLP

警告

危险声明 H319 - 导致严重的眼睛刺激

防范声明

预防 P264 - 处理之后要彻底清洗。
P280 - /防护服/护目装备/护面装备。

响应 P305+P351+P338 - 如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
P337+P313 - 如果眼睛刺激持续：获得医疗指导/就医治疗。

2.3 其他危险

CLP

根据欧共体 1272/2008 号规章（CLP），认为这种材料是危险材料。

UN GHS 修订版 3

根据：联合国 (UN) 全球化学品统一分类和标签制度 (GHS)：
第三次修订版

2.1 物质或混合物的分类

UN GHS

急性经口毒性 5
眼刺激 2
对水生环境急性危害 1
对水生环境慢性危害 1

安全数据表

生效日期：2020 年 2 月 *Xpert Urine Specimen Collection Kit（Xpert 尿液样本采集工具包）*

更换日期：2016 年 7 月 *Xpert CT/NG Urine Specimen Collection Kit（Xpert CT/NG 尿液样本采集工具包）*

2.2 标签元素

UN GHS

警告

危险声明 如果吞入可能有害
导致严重的眼睛刺激
对水生生物非常有毒
对水生生物非常有毒，具有长期持续效应

防范声明

预防 处理之后要彻底清洗。
避免释放到环境中。
戴上防护手套/防护服/护目装备/护面装备。

响应 如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。
感到身体不适时，呼叫解毒中心或医生/医师。
收集泄漏物。

贮存/处置 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

2.3 其他危险

UN GHS 根据全球统一分类和标签制度（GHS），认为该产品是危险品。

美国（US）

根据：OSHA 29 CFR 1910.1200 HCS

2.1 物质或混合物的分类

OSHA 的 HCS 2012 眼刺激 2

2.2 标签元素

OSHA 的 HCS 2012

警告

危险声明 导致严重的眼睛刺激

防范声明

预防 处理之后要彻底清洗。
戴上防护手套/防护服/护目装备/护面装备。

响应 如果进入眼睛：小心地用水冲洗若干分钟。如果佩戴隐形眼镜并且方便取下，则将其取下。继续冲洗。
如果眼睛刺激持续：获得医疗指导/就医治疗。

安全数据表

生效日期：2020 年 2 月 *Xpert Urine Specimen Collection Kit（Xpert 尿液样本采集工具包）*

更换日期：2016 年 7 月 *Xpert CT/NG Urine Specimen Collection Kit（Xpert CT/NG 尿液样本采集工具包）*

2.3 其他危险

OSHA 的 HCS 2012 根据美国法规（29 CFR 1910.1200 - 危害通识标准），认为该产品是危险品。

加拿大

根据：WHMIS

2.1 物质或混合物的分类

WHMIS 其他毒性作用 - D2B

2.2 标签元素

WHMIS

其他毒性作用 - D2B

2.3 其他危险

WHMIS 在加拿大，根据工作场所有害材料信息系统（WHMIS），认为上述产品是危险品。

2.4 其他信息

所有其他制剂、颗粒和其他组分的浓度在混合物中均低于 1%，或者根据美国危害通识法规 (29 CFR 1910.1200)、欧盟物质或混合物分类与标签指令或全球物质或混合物分类与标签统一制度均不被认为是危险物质。

第 3 章：成分构成/信息

3.1 物质

该材料不符合某种物质的标准。

3.2 混合物

构成					
化学名称	**标识符**	**%**	**LD50/LC50**	**按规章/指令分类**	**注解**
氯化铵	**CAS:** 12125-02-9 **EC 编号：** 235-186-4 **EU 指数：** 017-014-00-8	20%至 30%	摄入/口服-大鼠 LD50 • 1650 mg/kg	**EU CLP：** 附录 VI, 表 3.1：急性毒性 4 *, H302；眼刺激 2, H319 **UN GHS 修订版 3:**急性毒性 4（口服）；眼刺激 2；水生急性 1；水生慢性 1 **OSHA HCS 2012:**急性毒性 4（口服）；眼刺激 2	NDA
碳酸钾	**CAS:**584-08-7 **EC 编号：** 209-529-3	1%至 5%	摄入/口服-大鼠 LD50 • 1870 mg/kg	**EU CLP：** 急性毒性 4, H302 **UN GHS 修订版 3：** 急性毒性 4（口服）；眼刺激 2B **OSHA HCS 2012:**急性毒性 4（口服）；眼刺激 2B	NDA

完整的危险声明全文，请参阅第 16 章。

安全数据表

生效日期：2020 年 2 月
更换日期：2016 年 7 月

Xpert Urine Specimen Collection Kit（Xpert 尿液样本采集工具包）
Xpert CT/NG Urine Specimen Collection Kit（Xpert CT/NG 尿液样本采集工具包）

第 4 章：急救措施

4.1 急救措施描述

吸入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。将受害者移至新鲜空气处。如果呼吸困难，就施用氧气。如果受害者吸入该物质，就不要使用口对口方法；借助配备单向阀或其他适当的呼吸医疗设备的袖珍面罩来给予人工呼吸。如果受害者没有呼吸，就给予人工呼吸。

皮肤

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。对于轻微的皮肤接触，避免使物质扩散到未受影响的皮肤上。在与物质接触的情况下，立即用流动的水冲洗眼睛至少 20 分钟。脱掉并隔离受污染的衣物。

眼睛

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。在与物质接触的情况下，立即用大量的水冲洗眼睛至少 20 分钟。如果眼睛刺激持续：获得医疗指导/就医治疗。

摄入

如果在一般条件下并且按照推荐方法使用材料，预计不必要进行急救。如果吞入，用水漱口（只有当伤员意识清楚时）。切勿催吐。如果受害者摄入该物质，请勿使用口对口人工呼吸法。如果摄入，立即就医。

4.2 急性及缓发的最重要症状及效应

请参阅第 11 章 - 毒物学信息。

4.3 任何需要立即就医及特别治疗的症候

对医生的注释

所有治疗措施均应根据所观察到的患者的痛苦症状和体征进行。应考虑可能发生过度暴露于非本品材料的可能性。

第 5 章：消防措施

5.1 灭火介质

适用的灭火介质

大火：化学干粉、二氧化碳、抗溶性泡沫或喷水。
小火：化学干粉，二氧化碳或喷水。

不适用的灭火介质

无可用数据

5.2 由物质或混合物产生的特殊危险

异常火灾和爆炸危险

可能会散发碳氧化物、氮氧化物有毒蒸气。

有害燃烧产物

无可用数据

5.3 供消防队员采纳的建议

建筑消防员的防护服只能在火情中提供有限的保护；它在可能与物质直接接触的溢出情况下无效。
穿上制造商专门推荐的化学防护服。它可能提供很少或根本没有提供热保护。
配戴正压自给式呼吸装置 (SCBA)。
小火：如果能够无风险地完成，就从火区移出容器。

第 6 章：意外释放措施

6.1 个人预防措施、防护装备和紧急程序

个人预防措施 万一盒子断裂，则适用于这些个人预防措施。穿戴适当的防护服。切勿踩踏泄漏物。除非穿着适当的防护服，否则不要触碰损坏的容器或溢出的物质。使封闭的地区通风。

应急程序 如果在一般条件下并且按照推荐的方法使用材料，预计不必要执行应急程序。

6.2 环保预防措施

防止进入水道、下水道、地下室或封闭区域。

6.3 用于遏制/净化的方法和材料

遏制/净化措施 对于少量撒漏，戴手套并用纸巾吸附撒漏物。切勿将撒漏的材料冲刷到排水管道中予以处置。

6.4 其他各章的参考

请参阅第 8 章 - 接触控制/个人防护以及第 13 章 - 处置注意事项。

第 7 章：操作和贮存

7.1 用于安全操作的预防措施

操作 无需任何特殊操作。如果盒子断裂，避免接触撒漏的制剂。避免接触皮肤和眼。

7.2 包括任何不相容性的安全贮存条件

贮存 按产品标签予以贮存。将容器/包装在阴凉、通风良好之处保持密闭。远离不相容材料。

7.3 特定最终用途

请参阅第 1.2 条 - 有关确定用途。

第 8 章：接触控制/个人防护

8.1 控制参数

接触限值/指南			
	结果	**ACGIH**	**NIOSH**
氯化铵 (12125-02-9)	STELs	20 mg/m3 STEL（烟雾）	20 mg/m3 STEL（烟雾）
	TWAs	10 mg/m3 TWA （烟雾）	10 mg/m3 TWA （烟雾）

8.2 接触控制

工程措施/控制 应当使用良好的通用通风设施。通风速率应当与环境相配。如果适用，使用工艺外罩、局部排气通风或其它工程控制设施，以保持空气中的浓度低于推荐的接触限值。如果尚未确定接触限值，就将空气中的浓度保持在可接受的水平。

个人防护装备

呼吸	遵守 29 CFR 1910.134 或欧洲标准 EN 149 中可见的 OSHA 呼吸器条例。如果超过接触限值 或出现症状，就使用 NIOSH/MSHA 或欧洲标准 EN 149 认可的呼吸器。
眼睛/面部	佩戴防化学剂飞溅护目镜。
皮肤/身体	在实验室环境中，至少戴手套、穿实验服，以将皮肤接触降到最低。
环境接触控制	遵守厂区管理和废物处置最佳规范。

略语表

ACGIH = 美国政府工业卫生学家会议
NIOSH = 国家职业安全和健康研究所
OSHA = 职业安全和健康管理局
STEL = 短期接触限值是基于 15 分钟接触量
TWA = 时间加权平均值根据 8 小时/天、40 小时/周的接触量来确定

第 9 章：物理性质和化学性质

9.1 有关物理性质和化学性质的信息

材料描述			
外形	液体	外形/描述	试剂是清澈、无色的液体，无味，主要 是没有臭味，主要是在水溶液中缓冲。
颜色	清澈	气味	无味
气味阈值	数据缺乏		
一般性质			
沸点	100° C （212° F）	熔点/凝固点	0° C （32° F）
分解温度	数据缺乏	pH 值	8 至 8.3 （固体和其他液体试剂）
比重/相对密度	数据缺乏	水溶解度	数据缺乏
粘度	数据缺乏	易爆性质	数据缺乏
氧化性性质：	数据缺乏		
挥发性			
蒸气压力	数据缺乏	蒸气密度	数据缺乏
蒸发速率	数据缺乏		
易燃性			
闪点	数据缺乏	爆炸上限	数据缺乏
爆炸下限	数据缺乏	自燃点	数据缺乏
易燃性（固体、气体）	数据缺乏		
环境方面			
辛醇/水分配系数	数据缺乏		

9.2 其他信息

未注明额外的物理和化学参数。

第 10 章：稳定性和反应性

10.1 反应性

在正常使用条件下，未知有危险反应。

10.2 化学稳定性
稳定

10.3 危险反应的可能性
不会发生危险的聚合反应。

10.4 应避免的情况
热、水分（影响产品质量）

10.5 不相容的材料
酸、氧化剂。

10.6 危险的分解产物
碳氧化物、钾氧化物。

第 11 章：毒物学信息

11.1 有关毒物学效应的信息

组成成分		
氯化铵（20% 至 30%）	12125-02-9	**急性毒性:**摄入/口服-大鼠 LD50 • 1650 mg/kg **刺激:** 眼-兔 • 100 mg • 严重刺激
碳酸钾（1% 至 5%）	584-08-7	**急性毒性:**摄入/口服-大鼠 LD50 • 1870 mg/kg **多剂量毒性:** 吸入-大鼠 TCLo • 43 mg/m³ 17 周；*心脏*：**心电图改变不是上述的诊断依据**；*肾、输尿管和膀胱*：**尿液成分的其他改变**；*营养和总代谢：化学成分或温度改变*: K；**诱变剂:**非程序 DNA 合成 • 摄入/经口-大鼠 • 504 g/kg 4 周-连续

GHS 危险种类	危险类别
急性毒性	EU/CLP•缺乏数据 UN GHS 3•急性毒性 - 经口 5 - ATEmix（经口） = 4795 mg/kg OSHA HCS 2012•缺乏数据
皮肤腐蚀/刺激	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
严重眼损伤/刺激	EU/CLP•眼刺激 2 UN GHS 3•眼刺激 2 OSHA HCS 2012•眼刺激 2
皮肤过敏	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
呼吸过敏	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
吸入危险	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据

GHS 危险种类	危险类别
致癌性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
生殖细胞致突变性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
针对生殖的毒性	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
STOT-SE	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据
STOT-RE	EU/CLP•缺乏数据 UN GHS 3•缺乏数据 OSHA HCS 2012•缺乏数据

潜在健康影响

吸入
急性（立即） 无可用数据
慢性（缓发） 无可用数据
皮肤
急性（立即） 无可用数据
慢性（缓发） 无可用数据
眼睛
急性（立即） 造成严重的眼刺激。
慢性（缓发） 无可用数据
摄入
急性（立即） 如果吞入可能是有害的。
慢性（缓发） 无可用数据

略语表
LD = 致死剂量
TC = 毒性浓度

第 12 章：生态学信息

12.1 毒性

	CAS	
Xpert Urine Specimen Collection Kit（Xpert 尿液样本采集工具包）、Xpert CT/NG Urine Specimen Collection Kit（Xpert CT/NG 尿液样本采集工具包）	NDA	**水生毒性-鱼：** 4 天 LC50 *大西洋银汉鱼* 0.14 mg/L 注释：氯化铵 (12125-02-9) 30 天 NOEC *斑点叉尾鮰* 0.006 mg/L 注释：氯化铵 (12125-02-9) **水生毒性-水生贝壳类：** 2 天 EC50 *介形类* 0.075-0.126 mg/L 注释：氯化铵 (12125-02-9) 21 天 NOEC *水蚤* 0.05 mg/L 注释：氯化铵 (12125-02-9) **水生毒性 - 藻类等水生植物：** 3 天 EC50 *海王星项链（Neptune’s Necklace）藻* 0.04-0.1 mg/L 注释：氯化铵 (12125-02-9)

对水生生物有毒。对水生生物有毒，具有长期持续效应。

12.2 持久性和降解性
材料数据缺失。

12.3 生物累积的潜力
材料数据缺失。

12.4 土壤中的移动性
材料数据缺失。

12.5 PBT 及 vPvB 评估的结果
尚未进行 PBT 和 vPvB 评估。

12.6 其他不良效应
未发现研究成果。

第 13 章：处置注意事项

13.1 废物处理方法
产品废物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。
包装废弃物 与地方，区域，国家和/或国际法规的规定处理的内容和/或容器。

13.2 其他信息
生物样本，包括废盒子，应以能够传播感染源对待。咨询您所在机构的环保废物处理人员有关妥善处置用过盒子和未用过试剂的信息。本材料可能会表现出联邦环保署（EPA）资源保护与回收法（RCRA）危险废料的特征，要求采用特定的处置规定。请查阅国家和当地法规，因为它们可能不同于联邦的处置法规。美国以外的机构应查阅其本国的危险废料处置规定。

第 14 章：运输信息

	14.1 UN 编号	14.2 UN 正式运输名称	14.3 运输危险分类	14.4 包装组	14.5 环境危害
DOT	不适用	未管制	不适用	不适用	NDA
TDG	UN3082	对环境有害物质，液体，未另列明（氯化铵）	9	III	NDA
IMO/IMDG	UN3082	对环境有害物质，液体，未另列明（氯化铵）	9	III	NDA
IATA/ICAO	UN3082	对环境有害物质，液体，未另列明（氯化铵）	9	III	NDA

14.6 用户特殊防护措施
未列明。

14.7 根据 MARPOL 73/78 的附件 II 以及 IBC 规范规定的散装运输
缺乏数据。

製造業者 + 1 (800) 535-5053 - INFOTRAC - 24 時間緊急電話
製造業者 + 1 (352) 323-3500-米国外

セクション 2:危険性識別

EU/EEC

準拠: 指令(EC)1272/2008 (CLP)/REACH 1907/2006 [453/2010 による改訂]

2.1 物質や混合物の分類

CLP 次の SDS は研究所で使用されるため、最終製品でのみ使用されます。液体物質を含み、その一部は凍結乾燥粉末およびカートリッジやナルゲンボトルに含まれた試薬である場合があります。すべての試薬は、透明で無色の液体です。一部の物質の情報の開示の免除は、CLP 項目 1(5)(d) および 29 CFR 1910.1200(g)(2)(i)(C)(1)と(2)に従っています。
眼刺激 2 - H319

2.2 ラベル要素

CLP

警告

危険有害性情報 H319 – 目に重度の刺激を引き起こす。

予防情報

予防 P264 – 取り扱いの後、十分に洗う。
P280 – 防護手袋／防護服／防護めがね／保護面を着用する。

応答 P305+P351+P338 – 目に入った場合: 数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
P337+P313 – 目への刺激が続く場合: 医師の助言／手当てを受ける。

2.3 その他危険性

CLP 規定(EC) No. 1272/2008 (CLP) に準じて、本剤は危険物とみなされます。

UN GHS 改訂第 3 版

準拠:UN 化学品の分類および表示に関する世界調和システム(GHS)
改訂第 3 版

2.1 物質や混合物の分類

UN GHS

急性毒性 経口 5
眼刺激 2
水性環境有害性 急性毒性 1
水性環境有害性 慢性毒性 1

2.2 ラベル要素

UN GHS

警告

危険有害性情報
飲み込むと有害。
目に重度の刺激を引き起こす。
水生生物に対してきわめて有害。
水生生物に対してきわめて有毒で、影響が長期に及ぶ。

予防情報

予防
取り扱いの後、十分に洗う。
環境への放出を避ける。
防護手袋／防護服／防護めがね／保護面を着用する。

応答 目に入った場合: 数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目の刺激が続く場合:医師の助言／手当てを受ける。
気分が悪い場合、毒物センターあるいは医師に連絡する。
流出物を集める。

保管・処分 地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

2.3 その他危険性

UN GHS 危険化学品分類表示の世界調和システム(GHS)では、本製品は危険な物質と考慮されています。

米国(US)

準拠: OSHA 29 CFR 1910.1200 HCS

2.1 物質や混合物の分類

OSHA HCS 2012 眼刺激 2

2.2 ラベル要素

OSHA HCS 2012

警告

危険有害性情報 目に重度の刺激を引き起こす。

予防情報

予防 取り扱いの後、十分に洗う。
防護手袋／防護服／防護めがね／保護面を着用する。

応答 目に入った場合: 数分間水で慎重にすすぐ。安全にはずせる場合は、コンタクトレンズをはずす。その後、すすぎを続ける。
目の刺激が続く場合:医師の助言／手当てを受ける。

2.3 その他危険性

OSHA HCS 2012 米国規定(29 CFR 1910.1200 - 危険有害性周知基準)に基づき、本製品は危険物とみなされます。

カナダ

準拠: WHMIS

2.1 物質や混合物の分類

WHMIS その他の毒性効果 - D2B

2.2 ラベル要素

WHMIS

その他の毒性効果 – D2B

2.3 その他危険性

WHMIS

カナダでは、上述の製品は作業場にある危険物に関する情報システム (WHMIS)に基づき危険物とみなされています。

2.4 その他情報

その他のすべての試薬、ビーズ、その他の成分は、混合物の 1%未満であるか、または米国ハザード通信規制(29 CFR 1910.1200)、物質または混合物の分類と表示に関する EU 指令、または物質または混合物の分類と表示に関する世界調和システムで有害とみなされていない。

セクション 3: 成分の組成・情報

3.1 物質

本剤は、材料区分を満たしません。

3.2 混合物

合成物					
化学名	**識別子**	**%**	**LD50/LC50**	**規定/指針に基づく分類**	**コメント**

H-statement の全文については、第 16 節を参照してください。

セクション 4: 応急処置手段

4.1 応急措置手段

吸引

物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。被災者を新鮮な空気がある場所に移す。呼吸困難の場合は酸素を供給する。被災者が物質を吸引した場合、口移し式人工呼吸を行ってはならない; 一方向バルブの付いたポケットマスクや、その他の適切な呼吸医療装置を使って人工呼吸を行う。被災者が呼吸していない場合は、人工呼吸を施す。

皮膚	物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。軽度の皮膚との接触では、影響を受けていない皮膚に物質を広げないようにする。物質と接触した場合は、最低 20 分間、直ちに流水で皮膚を洗浄する。汚染した衣類を取り除いて隔離する。
目	物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。物質と接触した場合は、最低 20 分間、直ちに流水で目を洗浄する。目の刺激が続く場合：医師の助言／手当てを受ける。
摂取	物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されません。飲み込んだ場合は、水で口をゆすいでください（意識がある場合）。嘔吐を誘発しないでください。被災者が物質を摂取した場合は口移し式人工呼吸を行ってはならない。摂取した場合は直ちに医師の手当てを受ける。

4.2 もっとも重要な症状と影響、急性および遅発性

第十一項 毒性に関する情報を参照してください。

4.3 直ちに医学的配慮と特別治療を必要とする兆候

医師へのメモ	治療はすべて、患者の苦痛の兆候および症状に基づき行われる必要があります。本製品以外の物質に著しくさらされた可能性について考慮する必要があります。

セクション 5：消化手段

5.1 消火剤

適切な消火剤	大規模火災：乾燥した化学品、二酸化炭素、耐アルコール泡消火剤、散水 小規模火災：乾燥した化学品、二酸化炭素、散水
不適切な消火剤	データなし

5.2 物質や混合物から発生する特別な危険

異常な火災と爆発の危険	炭素酸化物、窒素酸化物の有毒な蒸気を放出することがあります。
有害な燃焼生物	データなし

5.3 消防士への助言

建物火災用消防用服が火災状況で提供する保護は限定されている; 流出した状況では物質に直接接触する可能性があるため、効果がない。
製造業者が推奨する化学品防護服を着用する。熱に対する保護は、ある程度、またはまったく提供されない。
陽圧自給式呼吸器（SCBA）を着用する。
小規模火災：危険を冒さずにできる場合は、火災区域から容器を移動させる動かす。

セクション 6：漏出時の措置

6.1 人体に対する注意事項、保護具、および緊急時措置

人体に対する注意事項	カートリッジが破損した場合、これらの人体に対する予防措置が適用されます。適切な保護服を着用する。漏出した物質を通って歩かない。適切な保護服を着用せずに破損した容器または漏出した物質に触れてはならない。閉じ込められた場所を換気する。
応急措置	物質が通常の状況でかつ推奨通りに使用される場合、救急措置が必要であることは予測されない。

6.2 影響に対する注意事項

水路、下水道、地下室、囲まれた区域に流入するのを防ぐ。

6.3 閉じ込めと清掃の手段と物質

閉じ込め・清掃の手段 少量の流出の場合は、手袋を着用し、ペーパータオルで流出を吸収してください。流出した物質を排水溝に廃棄しないでください。

6.4 他のセクションへの言及

第八項 爆発管理/安全保護、および第十三項 廃棄時の注意事項を参照してください。

セクション 7: 取り扱いと保管

7.1 安全な取り扱いについての注意

取り扱い 特別な取扱いは必要ありません。カートリッジが破損した場合、漏出した試薬に触れないようにしてください。皮膚に付着したり、目に入らないようにしてください。

7.2 安全な保管の条件、不適合性を含む

保管 製品ラベルに従って保管してください。容器/パッケージをしっかりと密閉し、涼しく、風通しの良い場所に保管してください。互換性をもたない物質から離す。

7.3 具体的な最終用途

セクション 1.2 関連する使用方法に関する情報を参照してください。

セクション 8: 暴露管理・個人保護

8.1 管理パラメータ

曝露限度／ガイドライン			
	結果	ACGIH	NIOSH
塩化アンモニウム (12125-02-9)	STEL	20 mg/m3 STEL（蒸気）	20 mg/m3 STEL（蒸気）
	TWAs	10 mg/m3 TWA（蒸気）	10 mg/m3 TWA（蒸気）

8.2 曝露管理

工学的手段・管理 十分な通気を確保してください。通規率は状況に応じて適切に調整してください。該当する場合は、包囲装置、局所排気装置、またはその他のエンジニアリングコントロール装置を使って、空気中の粉塵レベルが推奨暴露限界を超えないようにしてください。暴露レベルが確定されていない場合は、許容範囲の粉塵量を維持してください。

個人用保護具

呼吸器官 OSHA 呼吸器規制に関しては、29 CFR 1910.134 または 欧州標準 EN 149 をご覧ください。暴露基準を超える場合、あるいは症状が発症した場合は、NIOSH/MSHA または 欧州標準 EN 149 保護マスクをご使用ください。

目・顔面 化学物飛散防止ゴーグルを着用してください。

皮膚・人体	研究所での服装として、手袋とラボコートを最低限着用し、皮膚接触を最小化してください。
環境暴露管理	現場管理および廃棄物の取り扱いは十分注意して行ってください。

略語について

ACGIH = 米国産業衛生専門家会議
NIOSH = 独立行政法人労働安全衛生総合研究所
OSHA = 労働安全衛生局
STEL = 短時間暴露限度とは、15 分間をベースとして暴露限度です。
TWA = 時間加重平均値は、8 時間/1 日、40 時間/1 週間の暴露に基づいた数値です。

セクション 9：物理的および化学的特性

9.1 物理的および化学的特性

材料の説明			
物理的形状	液体	外観/記述	試薬は、主に水溶液で緩衝された、透明、無色、無臭の液体である。
色	透明	臭気	無臭
臭気限界	データ不足		
一般的性質			
沸騰点	100° C（212° F）	融解点・凝固点	0° C（32° F）
分解温度	データ不足	pH	8 ～8.3 （固体およびそのほかの液体試薬）
比重・相対密度	データ不足	水溶性	データ不足
粘性	データ不足	爆発特性	データ不足
酸化特性：	データ不足		
揮発度			
蒸気圧	データ不足	蒸気密度	データ不足
蒸発速度	データ不足		
可燃性			
引火点	データ不足	UEL	データ不足
LEL	データ不足	自己発火	データ不足
可燃性（固体、ガス）	データ不足		
環境曝露管理			
オクタノール・水分配係数	データ不足		

9.2 その他情報

その他に物理的および化学的パラメータの記載はありません。

セクション 10：安定性と反応性

10.1 反応性

通常の使用において、危険反応は報告されていません。

10.2 化学安定性

安定

10.3 有害反応の可能性

危険物のポリメリゼーションは発生しません。

10.4 回避すべき条件

熱、湿気（製品品質に影響を与えます）

10.5 不適合物質

酸、酸化試薬

10.6 有害分解性生物

炭素酸化物、カリウム酸化物。

セクション 11: 毒性情報

11.1 毒性効果

成分		
塩化アンモニウム(20%～30%)	12125-02-9	**急性毒性**: 摂取/経口-ラット LD50・1650 mg/kg **刺激**: 眼-ウサギ・100 mg・重度の刺激、
炭酸カリウム(1%～5%)	584-08-7	**急性毒性**: 摂取/経口-ラット LD50・1870 mg/kg **複数用量毒性**: 吸入-ラット TCLo・43 mg/m³ 17 週; *心臓*: **EKG 変化は上記の診断ではない**; *腎臓、尿管、および膀胱*: **尿成分で他の変化**; *化学または温度で栄養および総代謝の変化*: **K**; **変異原**: 不定期 DNA 合成・摂取/経口-ラット・504 g/kg 4 週-継続的

GHS 特性	分類
急性毒性	EU/CLP-データ不足 UN GHS 3-急性毒性 - 経口 5 - ATEmix（経口）= 4795 mg/kg OSHA HCS 2012-データ不足
皮膚の腐食・炎症	EU/CLP-データ不足 UN GHS 3-データ不足 OSHA HCS 2012-データ不足

摂取
急性(即座) 飲み込んだ場合、健康に支障を生じる可能性があります。
慢性(遅発性) データなし

略語について
LD = 致死量
TC = 毒性濃度

セクション 12: 生態学的情報

12.1 毒性

	CAS	
Xpert Urine Specimen Collection Kit、Xpert CT/NG Urine Specimen Collection Kit	NDA	**水生生物毒性-魚類:** 4 日 LC50 *大西洋トウゴロイワシ* 0.14 mg/L コメント: 塩化アンモニウム (12125-02-9) 30 日 NOEC *アメリカナマズ* 0.006 mg/L コメント: 塩化アンモニウム (12125-02-9) **水生生物毒性-甲殻類:** 2 日 EC50 *貝虫類* 0.075-0.126 mg/L コメント: 塩化アンモニウム (12125-02-9) 21 日 NOEC *ミジンコ* 0.05 mg/L コメント: 塩化アンモニウム (12125-02-9) **水生生物毒性-藻類およびその他の水生植物:** 3 日 EC50 *藻類 Neptune's Necklace* 0.04-0.1 mg/L コメント: 塩化アンモニウム (12125-02-9)

水中生物に毒性を発します。水生生物に対して有毒で、影響が長期に及ぶ。

12.2 持続性と分解性
実態データが不足しています

12.3 生体内蓄積能
実態データが不足しています

12.4 土壌中移動性
実態データが不足しています

12.5 PBT と vPvB 評価の結果
PBT および vPvB アセスメントは行われていません。

12.6 その他有害影響
そのような研究結果はありません。

セクション 13：廃棄上の注意

13.1 廃棄物処理手段

製品廃棄物	地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。
包装廃棄物	地方、地域、国、および/または国際的な規則に従ってコンテンツ及び/または容器に廃棄してください。

13.2 その他情報
使用済みカートリッジなどの生物試料は、感染物質を伝染する能力があるものとして取り扱われる必要があります。使用済みカートリッジと未使用の試薬の適切な廃棄方法については、機関の環境廃棄物担当員に相談してください。この資料は、特別な廃棄要件をもつ連邦 EPA 資源保全再生法（RCRA）の危険廃棄物の特性を示している場合があります。州と地方の規則については、連邦の廃棄方法の規則と異なる場合があるので、ご確認ください。米国外の機関では、その国の危険廃棄物処理方法の要件をご確認ください。

セクション 14：輸送情報

	14.1 UN 番号	14.2 UN 正式輸送品目名	14.3 輸送有害性等級	14.4 包装等級	14.5 環境有害性
DOT	該当なし	規制なし	該当なし	該当なし	NDA
