E-PRESCRIBING MEDICATION HISTORY CONSENT

I understand that Virginia Physicians, Inc. has implemented e-prescribing for its patients. I also understand that e-prescribing involves the ability for the practice to send prescriptions electronically to pharmacies, eliminating the need for a more time-consuming, and sometimes more costly, approach to prescribing through paper, phone and fax. E-Prescriptions are fast, convenient, legible, secure, cost-effective and safe. The e-prescribing process also allows the health care provider to access critically important information about their patient's current and past medications from pharmacy benefit managers and community pharmacies. This information helps alert the provider to other potential medication issues with their patients and can improve safety and quality.

I have been given an opportunity to ask questions about the e-prescribing process and have had those questions answered to my satisfaction. I hereby consent to the practice requesting and using my medication history from other health care providers or third party pharmacy benefit payors for treatment purposes in connection with the e-prescribing process.

Your insurance policy is a contract between you and your insurance company. We are not a party to that contract. Please be aware that some, and perhaps all, of the services provided may be non-covered and not considered reasonable and necessary under the Medicare Program and/or other medical plans. You will be responsible for these balances. Additionally, it is your responsibility to obtain and track referrals for your visits.
