Welcome to our Practice! We appreciate you choosing us for your healthcare needs.

Following are all forms necessary for your upcoming visit, including a personal history form for patients with musculoskeletal problems. These forms allow us to obtain as much information as possible to better evaluate and treat your problem. **Bring the completed forms with you on your appointment date. Please do not fax or mail these forms!**

You need to arrive 30 minutes before the time of your appointment. Please bring all medications, your medical insurance card (a physical copy/not electronic), and the names, addresses, and telephone numbers of all doctors involved in your care.

We need the following information from your referring doctor:

- **A referral number if required by your insurance plan**
- **Recent laboratory reports**
- **The last office note from your referring doctor to let us know why you are being sent for the appointment**
- **X-ray reports (if you have had a recent x-ray and this is the reason you are being seen) – Do not bring CDs or discs, only the report**

Please arrange to have this information faxed in advance from your physician's office or bring it with you at the time of your appointment. Please verify with your physician's office to make sure the requested information has been sent prior to your scheduled appointment. You may also check with us to ensure we have received your records. Our fax number is (804) 915-0036.

## E-PRESCRIBING MEDICATION HISTORY CONSENT

I understand that Virginia Physicians, Inc. has implemented e-prescribing for its patients. I also understand that e-prescribing involves the ability for the practice to send prescriptions electronically to pharmacies, eliminating the need for a more time-consuming, and sometimes more costly, approach to prescribing through paper, phone and fax. E-Prescriptions are fast, convenient, legible, secure, cost-effective and safe. The e-prescribing process also allows the health care provider to access critically important information about their patient's current and past medications from pharmacy benefit managers and community pharmacies. This information helps alert the provider to other potential medication issues with their patients and can improve safety and quality.

***I have been given an opportunity to ask questions about the e-prescribing process and have had those questions answered to my satisfaction. I hereby consent to the practice requesting and using my medication history from other health care providers or third party pharmacy benefit payors for treatment purposes in connection with the e-prescribing process.***

You will be responsible for these balances. Additionally, it is your responsibility to obtain and track referrals for your visits.
